Fri, May 24

Good Afternoon everyone! Happy Friday. We just wanted to share an exciting update with you all: Today, in collaboration with the ACLU of FL legal team and other organizations, the FIU ACLU Club is suing the state of Florida to challenge racial gerrymandering in four congressional districts (one being where FIU is located). As a student organization, we are dedicated to bettering our communities, civic education, and equitable representation in our state and will provide updates on the case's progression. We thank you all for your support 🤍
