DECLARATION OF CLAY S. HELMS

My name is Clay S. Helms. I am the Deputy Chief of Staff and Director of Elections for the Alabama Secretary of State's Office. I am over the age of 19 and the facts I have set out below are based upon my personal knowledge or the records of the Alabama Secretary of State's Office maintained in the ordinary course of business of the Secretary of State in his official capacity.

1. The Secretary of State is Alabama's Chief Election Official and is responsible for "provid[ing] uniform guidance for election activities." Ala. Code § 17-1-3. In my role as Director of Elections for the Secretary of State's Office, I am familiar with both the preparation for and administration of elections in the State of Alabama, including the fact that Boards of Registrars in all Alabama counties must assign each voter to the various districts in which he or she resides.

2. It is my understanding that Plaintiffs want Alabama's Congressional districts changed in time to use the new districts in the 2022 elections. There are substantial obstacles to changing the Congressional districts at this late date, and, indeed, local election officials are already under time pressures created by the fact that the maps were adopted in November, 2021. Candidates and their supporters would also be impacted by changing the lines. As discussed below, changing the Congressional district lines again at this late date is likely to cause confusion, additional costs, and a rushed district assignment process that potentially increases the risk of mistaken assignments.

3. On November 4, 2021, Governor Ivey signed Act Nos. 2021-555, 2021-558, 2021-556, 2021-559 which drew four sets of electoral districts (for U.S. House of Representatives, State Senate, State House, and State Board of Education, respectively). The Acts and maps, as filed with the Secretary of State, may be found on the Secretary's website <https://www.sos.alabama.gov/alabama-votes/state-district-maps>.

4. Local governments are also drawing new lines based on the 2020 Census.

5. Statewide primary elections in Alabama for the 2022 election cycle are statutorily scheduled for May 24, 2022. *See* Ala. Code § 17-13-3(a). Federal, State, and county elections will be held at this time.

6. To implement the new district lines for the upcoming elections, each county's Board of Registrars is responsible for reassigning that county's registered voters to the correct precincts and to the correct districts, in conjunction with the county commissions. Each of Alabama's more than 3.6 million registered voters must be assigned to the correct Congressional, State Senate, State House, Board of Education, and local districts so that he may receive the correct ballot (to vote for the officials who will represent him as opposed to others) and so the voter will know where to cast his ballot. This process has likely already begun in most, if not all, Alabama counties.

7. As reported by the counties to the Secretary of State and as of December 15, 2021, in twelve counties, the Boards of Registrars use in-house GIS systems (*i.e.*, interactive mapping software that displays the locations of voters and automates aspects of the reassignment process) that reduce the burden and time required to complete this process. The twelve counties are: Autauga, Calhoun, Cherokee, Clarke, Lee, Lowndes, Madison, Mobile, Pike, Shelby, St. Clair, and Tuscaloosa.

8. As reported by the counties to the Secretary of State, in ten counties, the Boards of Registrars contract with entities with GIS systems to assist them with the reassignment process. A contract for such services can cost thousands of dollars—with up to \$10,000 in initial setup fees and up to an additional \$750 per month in operating and maintenance charges. In practice, these arrangements (and monthly fees) are effectively permanent because transitioning either to or from

such a setup is both expensive and difficult. The ten counties are: Baldwin, Dallas, Houston, Jefferson, Limestone, Marengo, Marshall, Montgomery, Morgan, and Talladega.

9. In the other 45 counties, the Boards of Registrars perform the reassignment process manually. Doing so is laborious, requiring officials to pore over maps and lengthy lists of voters to ensure that each voter is correctly assigned to his or her correct precinct. This task can take a county's Board of Registrars 3 to 4 months to accomplish.

10. For example, in 2017, following the *Alabama Legislative Black Caucus* redistricting litigation, the Alabama Legislature drew remedial Senate and House plans that altered only a portion of the districts in each plan. Even though only some districts were affected, local election officials struggled to complete the district assignment process in up to 4 months.

11. Completing the reassignment process before the next election provides time for notifying voters of any changes, which both reduces voter confusion and improves turnout. It also provides the county commissions with the information they need to ensure that each voting place has no more than 2,400 voters and, for those that do, adjusting precinct boundaries or designating additional voting places (which may not be changed within three months of an election). *See* Ala. Code § 17-6-4(d).

12. In Alabama, absentee voting begins 55 days before the primary election, and the probate judge must furnish a list of qualified voters to the absentee election manager by this day. Ala. Code §§ 17-11-5(b); 17-11-12. For the May 24, 2022 primary, absentee voting will begin on March 30, 2022.

13. Additionally, federal law requires that the States “transmit a validly requested absentee ballot to an absent uniformed services voter or overseas voter . . . in the case in which the request is received at least 45 days before an election for Federal office, not later than 45 days

before the election,” unless an exemption is obtained. 52 U.S.C. § 20302(a)(8)(A). In 2022, this federal deadline for the primary election is Saturday, April 9, 2022.

14. Attached hereto as Exhibit A is an Administrative Calendar for the 2022 Statewide Election, which has been created and maintained by the Secretary of State’s office. This calendar is also available on the Secretary’s website at <https://www.sos.alabama.gov/sites/default/files/Admin%20Calendar%20-2022%20-%2020211012.pdf>. The dates in the two preceding paragraphs are included in this calendar.

15. The Census Bureau released redistricting data in mid-August 2021, which is later than usual. I testified by declaration in a lawsuit that Alabama brought against the United States Department of Commerce concerning the Census data’s release. My testimony was that Alabama needed redistricting plans in place in early November in order to provide time for local officials to complete the reassignment process. The Census Bureau’s delay has delayed redistricting and shortened the time available for local officials to assign voters to districts and precincts.

16. County Boards of Registrars and county commissions will have to complete the reassignment process no later than the beginning of absentee voting on March 30, 2022, but realistically, they will need to notify voters of their assigned precincts and districts well before then to allow voters time to know what their choices are and inform themselves about those choices. In addition, printed ballots will need to be available for absentee voting to begin, and printing ballots is not an overnight process.

17. If Congressional districts change, local officials will have to start over in the process of assigning voters to new Congressional districts, making the already shortened time for the assignment process even shorter.

18. If the Boards of Registrars and county commissions have to redo the reassignment process on an abbreviated schedule the likely result is one or more of the following: (1) thousands of dollars in unexpected costs incurred by the Boards of Registrars to contract with an entity to assist them in the process; (2) a rushed reassignment process, potentially increasing the likelihood of mistaken reassignments; and (3) less time to notify voters about changes, potentially increasing the likelihood of voter, political party, and candidate confusion.

19. In addition to these administrative issues, changing the Congressional district lines impacts candidates and their supporters.

20. Changing the lines will likely cause a number of problems for primary candidates and political parties. Candidates for state and county offices intending to participate in the May 24, 2022 primary election could legally begin soliciting and accepting campaign contributions on May 24, 2021 (one year before the election), *see* Ala. Code 17-5-7(b)(2), even though districts were not yet drawn. Federal, State, and county candidates running with the Democratic or Republican parties must file a declaration of candidacy by January 28, 2022 (116 days before the election), *see* Ala. Code § 17-13-5(a), and that requires the lines to be set. Uncertainty about which district a potential candidate resides in and the characteristics of that district could impact fundraising, campaigning, and even the decision whether to run at all.

21. In addition, independent candidates and some organizations achieve ballot access by submitting petitions with signatures of registered voters who are eligible to vote in the election at issue. If the congressional lines are changed, those conducting petition drives will not know which voters' signatures will help them achieve ballot access until another plan is put into place (thus potentially shortening the time to solicit signatures). And, of course, like other candidates,

those hoping to get on the ballot with a successful petition drive—whether independent or as the nominee of a petitioning organization—may not know which district they live in.

22. I note that Doug Bell has publicly announced as an independent candidate for Congress in the Third Congressional District, *see* <https://dbellforuscongress.com/> and he appears to be actively seeking signatures for ballot access, *see* <https://dbellforuscongress.com/get-involved/> (seeking 6,977 signatures by May 24, 2022). While Mr. Bell’s website uses the 6,977 signature goal, the Secretary of State’s Office has sent him an email (Exhibit B) advising him that that number is inaccurate because the number of signatures necessary for ballot access is contingent on the new district lines and that number is changing as the census results are input into the electronic voter registration system. Similarly, we cannot at present say which signers’ signatures will be valid for ballot access petition purposes because some signers’ residences may be outside of Mr. Bell’s district. Thus, at present, independent candidates for Congress face some uncertainty as to how many signatures are necessary for ballot access and from whom to get them.

23. An organization petitioning for ballot access as a political party and/or an individual petitioning for ballot access as an independent candidate would need to submit a petition containing signatures of registered District voters equal to at least the following numbers in the following Districts:

Congressional District	Number of Signatures Required	
	<i>Before 2020 Census</i>	<i>After 2020 Census</i>
One	7,310	Uncertain
Two	6,818	Uncertain
Three	6,977	Uncertain
Four	6,998	Uncertain
Five	7,845	Uncertain
Six	8,434	Uncertain
Seven	7,208	Uncertain

We advise individuals and organizations seeking ballot access to submit substantially more than the minimum number of signatures because not all solicited signatures are valid. Individuals and organizations have the option to solicit and obtain signatures from the middle of districts to minimize this problem which was made worse by the late production of Census information by the Census Bureau.

24. The State has faced lengthy litigation in the past when the time for gathering signatures was shortened. Plaintiff James Hall sued the Secretary of State in September 2013, challenging the signature requirement in the context of a special congressional election where candidates had less than the ordinary time to gather signatures. *See Hall v. Merrill*, 212 F. Supp. 3d 1148, 1156 (M.D. Ala. 2016), *vacated & remanded*, 902 F.3d 1294 (11th Cir. 2018), *cert denied*, 140 S. Ct. 117 (2019). That litigation was not resolved until October 2019—six years after filing.

25. If the 2022 Congressional elections were separated from the other federal, State, and county elections with which they are traditionally held, there would be substantial costs for the additional election(s), and the additional election(s) could result in voter confusion and reduced turnout. In 2017, the State held a special statewide election for United States Senator. The cost for that primary election was over \$5 million. The cost for that primary runoff election, which was needed because no candidate received more than 50% of the vote in the Republican primary, *see* Ala. Code § 17-13-18(b), was over \$3 million. The cost for that special general election was over \$3.5 million.

26. Finally, I address certain details about voter registration and the Alabama Voter Registration System (“ALVRS” or “PowerProfile”). The Secretary of State’s Office does not actually register voters. Every year for the past seven years, the Secretary’s Photo Voter ID and

Registration Mobile Unit Program has visited every county in Alabama for the purpose of providing free photo ID's to voters and to make available to prospective voters voter registration forms. At those visits, we hand out registration forms and assist prospective voters in filling out the forms. Those individuals who complete their forms may either mail them to their local registrars or hand them back to our staff for transmittal to the local registrars' office. This is because actual voter registration is performed by county boards of registrars. The Secretary of State's Office accepts voter registration forms either during voter drives or at the Secretary's Montgomery office and forwards them to county registrars for actual processing and input into ALVRS. In addition, voters can register electronically at ALEA driver's license offices and at the Secretary of State's Office) with that information going to local registrar offices for actual input into ALVRS.

27. The Alabama Voter Registration Form (*see* Exhibit C) provides six categories of race for a voter to choose: White, Black, Asian, American Indian, Hispanic, and Other (*id.*). It is also possible for a prospective voter to register using the federal form (*see* Exhibit D) which does not list race but has a blank space for voter input. Race is selected by the prospective voter and is not checked or verified. If a voter does not check a "Race" box (or write a race on the federal form, or puts multiple races), he or she is still registered as the requirements for voting in Alabama are: age 18 or over on election day, United States citizenship, Alabama residence, not having been declared mentally incompetent, and not having been convicted of a disqualifying felony (or if having been so convicted, having had civil rights restored). A voter's race, if stated, is input into ALVRS by the registrar according to the categories on the Secretary of State's form. If a prospective registrant has checked more than one race category, the default is for the registrar to enter "other" because ALVRS does not permit multiple or combination answers for this category.

If a prospective registrant does not enter a race on the paper form, the default is for the registrar to enter “unknown.” Similarly, voters submitting registration information electronically at ALEA offices cannot select more than one race; the system will not accept multiple race entries.

28. For its part, ALVRS data for active and inactive voters (*see e.g.*, Exhibit E, the November 2021 print-out) lists the following racial categories: Asian, American Indian, Black, Federally Registered (May be of Any Race), Hispanic, Korean (a vestigial category that is not offered on the Secretary’s form but could be entered), White, Other, and Not Identified (Exhibit E).

29. While we expect registrars to correctly input all categories of voter characteristics into ALVRS, it is unrealistic to expect data entry for large numbers of voters to be perfect and there is no doubt that some voters’ information, including race, may be inaccurate. Obviously, if a voter becomes aware of an inaccuracy and reports it, the local registrars’ office would be expected to correct the entry. The Secretary of State’s Office has advised registrars that, if a voter is reporting a registration inaccuracy, the voter is to put the inaccuracy into writing before the registrar acts on it (*i.e.*, the registrar is not to accept “word of mouth” as a basis to change registration data). The Secretary is not aware of any complaints of inaccurate racial registration and/or failure to correct an inaccuracy and we believe that the overwhelming majority of entries are consistent with the information on the submitted voter registration forms.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct.

Executed on December 21, 2021.

Hello Mr. Bell,

Our office is waiting for county registrar offices to input the redistricting data from the 2020 Redistricting Plan finalized by the state legislature, along with the redistricting plans finalized by their individual counties for local offices. Once their process is complete, we will begin compiling data to determine the exact signature requirements for each political district at the state level.

We have received correspondence from your campaign regarding general questions for the 2022 election cycle. Since we are aware of your campaign, I wanted to proactively reach out to you and let you know that the final, required number of signatures for Congressional District 3 is unfinished, but that we will compile that data and make it available at Alabamavotes.gov as soon as the counties have finished their work.

The signature requirement based on the district lines from the 2018 General Election for Congressional District 3 was **6977**. That number can only be considered a rough estimate at this point, as the official number of required signatures will depend on the new district lines. As a reminder, our office advises all independent and minor party candidates to obtain in excess of the required number of signatures, as petition signatures may be determined to be of voters outside of the jurisdictional lines, or may not be voters at all.

If you have any questions, please do not hesitate to let us know.

Sincerely,

Clay Helms

Office of Secretary of State John H. Merrill
