Alabama's network of 57 One-Stop Alabama Career Centers and satellites are strategically located throughout the state. Job search and development, occupational and educational training, vocational rehabilitation, veterans' services, and unemployment insurance information are offered.

Employers work with local centers to locate employees with specific skills, and the goal is to consolidate the delivery of services at a single location. Many centers are electronically linked with partner agencies, such as the Alabama Departments of Labor, Human Resources, Rehabilitation Services, Education, the two-year college system, and others.
