

How well does the health care system in **Alabama**

work for people of different racial and ethnic groups?

In Alabama, **White people** experienced the **highest health system performance**, scoring in the 61st percentile among all population groups nationally.

Hispanic people experienced the **lowest health system performance** in the state, scoring in the 8th percentile.

Compared to other states in the Southeast region, Alabama has more severe racial and ethnic health disparities.

Health System Performance by Race/Ethnicity

Each column is a racial/ethnic group, and each point represents a state. Performance represented as percentiles (1–100). Alabama performance percentile highlighted. No highlighted dot indicates overall performance data not available for that group.

Population by race/ethnicity (2022)

	Alabama	Southeast	United States
Total	4,990,912	85,235,479	328,403,052
AANHPI	74,640 (1%)	2,600,554 (3%)	19,862,655 (6%)
AIAN	11,479 (<1%)	208,655 (<1%)	1,688,543 (<1%)
Black	1,269,763 (25%)	16,911,627 (20%)	38,460,950 (12%)
Hispanic	240,491 (5%)	10,891,118 (13%)	62,818,758 (19%)
White	3,200,638 (64%)	50,687,529 (60%)	189,511,136 (58%)

Notes: AANHPI = Asian American, Native Hawaiian, and Pacific Islander. AIAN = American Indian and Alaska Native. "—" means data not available. Southeast states include AL, AR, FL, GA, KY, LA, MS, NC, SC, TN, VA, WV. Source: David C. Radley et al., Advancing Racial Equity in U.S. Health Care: The Commonwealth Fund 2024 State Health Disparities Report (Commonwealth Fund, Apr. 2024).

How well does the health system in Alabama work for people from different racial and ethnic groups, and across different dimensions of care?

AANHPI

An overall ranking for AANHPI people in Alabama is not available because of insufficient data.

Health outcomes ranking: insufficient data
 Health care access ranking: **34** (of 34) is among the worst
 Health care quality ranking: **27** (of 41) is worse than average

AIAN

An overall ranking for AIAN people in Alabama is not available because of insufficient data.

Health outcomes ranking: insufficient data
 Health care access ranking: insufficient data
 Health care quality ranking: insufficient data

Black

Alabama ranks 23rd of 39 states where calculation was possible, indicating health system performance for Black people in the state was worse than average compared to other states. Specifically:

Health outcomes ranking: **23** (of 40) is worse than average
 Health care access ranking: **28** (of 40) is worse than average
 Health care quality ranking: **20** (of 41) is better than average

Hispanic

Alabama ranks 41st of 47 states where calculation was possible, indicating health system performance for Hispanic people in the state was worse than average compared to other states. Specifically:

Health outcomes ranking: **35** (of 49) is worse than average
 Health care access ranking: **40** (of 48) is worse than average
 Health care quality ranking: **42** (of 48) is worse than average

White

Alabama ranks 43rd of 51 states where calculation was possible, indicating health system performance for white people in the state was worse than average compared to other states. Specifically:

Health outcomes ranking: **43** (of 51) is worse than average
 Health care access ranking: **38** (of 51) is worse than average
 Health care quality ranking: **36** (of 51) is worse than average

Alabama Performance Data
