Notes About the Data**Collapse ↑**

- Our calculations assume Hispanic or Latino ethnicity may include any race. Race categories are mutually exclusive and include both Hispanic/Latino and non-Hispanic/Latino ethnicity.
- One or more standard race categories are not reported or otherwise specified by the state. These categories may or may not be included in the "Other race" category in our data.
- Population sizes are taken from the Census Bureau's 2019 ACS 5-Year estimates Table B02001 for race and B03002 for ethnicity.

Cumulative Per Capita Data

In Alabama, through March 7, 2021:

- Black/African American people were most likely to have contracted COVID-19
- Black/African American people were most likely to have died from COVID-19

	Cases per 100,000 people	Deaths per 100,000 people
Black/African American	6,373	171
Hispanic/Latino	5,901	66
White	4,829	142
Asian	3,880	36

Graphic only includes demographic groups reported by the state. Race categories are mutually exclusive and include both Hispanic/Latino and non-Hispanic/Latino ethnicity.

Data Tables**Collapse ↑****Cases and deaths by race**
