### Alabama

Crime data for Alabama are derived from National Incident-Based Reporting System (NIBRS) reports voluntarily submitted to the FBI.

The 2022 estimated Crime statistics for Alabama are based on data received from 409 of 448 participating law enforcement agencies in the state that year.

CDE visual displays and the components of *Crime in the Nation*, 2022, include data submitted to the UCR Program as of May 1, 2023. Because some states' and agencies' data files are based on an earlier deadline, the final datasets and figures those states published on their respective websites for 2022 may not align with the data published on the CDE. For example, Michigan's annual crime report includes 2022 data submitted through March 1, 2023; the FBI's data for the state includes 2022 data submitted up to May 1, 2023.

Footnotes

## About the Data

The FBI collects crime data through the [Uniform Crime Reporting \(UCR\) Program](#).

## Related Offenses

Violent crime is composed of four offenses: homicide (murder and nonnegligent manslaughter), rape, robbery, and aggravated assault. Violent crimes involve force or threat of force.
