UNITED STATES DISTRICT COURT
NORTHERN DISTRICT OF CALIFORNIA
SAN JOSE DIVISION

CITY OF SAN JOSE, CALIFORNIA, et al.,
Plaintiffs,
v.
DONALD J. TRUMP, et al.,
Defendants.

No. 20-CV-05167-RRC-LHK-EMC

STATE OF CALIFORNIA, et al.,
Plaintiffs,
v.
DONALD J. TRUMP, et al.,
Defendants.

No. 20-CV-05169-RRC-LHK-EMC

**ORDER GRANTING PLAINTIFFS’
MOTION FOR PARTIAL SUMMARY
JUDGMENT AND DENYING
DEFENDANTS’ MOTION TO DISMISS**

Before: RICHARD R. CLIFTON, United States Circuit Judge
LUCY H. KOH, United States District Judge
EDWARD M. CHEN, United States District Judge

PER CURIAM.

1 Before us are Plaintiffs’ Motion for Partial Summary Judgment and Defendants’ Motion to
 2 Dismiss, or in the Alternative, Motion for Partial Summary Judgment regarding the Presidential
 3 Memorandum of July 21, 2020, which declared that, “[f]or the purposes of the reapportionment of
 4 Representatives following the 2020 census, it is the policy of the United States to exclude from the
 5 apportionment base aliens who are not in a lawful immigration status.” *Excluding Illegal Aliens*
 6 *from the Apportionment Base Following the 2020 Census*, 85 Fed. Reg. 44,679, 44,680 (July 23,
 7 2020) (the “Presidential Memorandum”).

8 Plaintiffs, which include the State of California, numerous cities and counties across the
 9 country, a school district, a public interest organization, and citizens, challenge the legality of the
 10 Presidential Memorandum.¹ We conclude that the Presidential Memorandum violates the
 11 Constitution and two statutes. Specifically, the Presidential Memorandum violates the
 12 Apportionment and Enumeration Clauses of Article I, Section 2 of the Constitution and Section 2
 13 of the Fourteenth Amendment of the Constitution; the constitutional separation of powers; the
 14 Census Act of 1954; and the Reapportionment Act of 1929.

15 Our decision is not based on any preference we might have on the question of whether, as a
 16 matter of policy, undocumented immigrants should be included for purposes of determining the
 17 apportionment of seats in the House of Representatives. The Presidential Memorandum provides
 18 reasons for its policy, but those are not for us to review. Rather, our conclusion is based upon our
 19 determination of what the law requires. The policy which the Presidential Memorandum attempts
 20 to enact has already been rejected by the Constitution, the applicable statutes, and 230 years of
 21

22 ¹ Specifically, this case is brought by Plaintiffs State of California; City of Los Angeles,
 23 California; City of Long Beach, California; City of Oakland, California; Los Angeles Unified
 24 School District, County of Los Angeles; City of San Jose, California; King County, Washington;
 25 Arlington County, Virginia; Harris County, Texas; Black Alliance for Just Immigration; Sam
 26 Liccardo; Rodney Ellis; Zerihoun Yilma; Lovette Kargbo-Thompson; and Santcha Etienne
 27 (collectively, “Plaintiffs”) against Defendants President Donald J. Trump; Secretary of Commerce
 Wilbur L. Ross, Jr.; the Department of Commerce; the U.S. Census Bureau; and the Director of the
 U.S. Census Bureau Steven Dillingham (collectively, “Defendants”).

1 history.

2 Having considered the parties' submissions; the parties' oral arguments at the October 8,
3 2020 hearing; the relevant law; and the record in this case, we GRANT Plaintiffs' Motion for
4 Partial Summary Judgment and DENY Defendants' Motion to Dismiss, or in the Alternative,
5 Motion for Partial Summary Judgment.²

6 **I. BACKGROUND**

7 Prior to discussing the merits in this case, the Court provides the following background
8 information in turn: (1) constitutional history; (2) proposed constitutional amendments and
9 statutory history; (3) Executive Branch practice; (4) 2019 litigation regarding the census
10 citizenship question; (5) the President's announcement to proceed with the citizenship question;
11 (6) Executive Order 13,880 or the "Collecting Information Executive Order"; (7) census data
12 collection; and (8) the Presidential Memorandum.

13 **A. Constitutional History**

14 Article I, Section 2 requires an "actual Enumeration" to be conducted "every . . . ten Years"
15 for the purpose of apportioning representatives to the states. U.S. Const. art. I, § 2, cl. 3.
16 Representatives were apportioned based on a formula, which involved "adding to the whole
17 Number of free Persons, including those bound to Service for a Term of Years, and excluding
18 Indians not taxed, three fifths of all other Persons." *Id.* Section 2 of the Fourteenth Amendment
19 modified this formula to "count[] the whole number of persons in each state, excluding Indians not
20 taxed." U.S. Const. amend. XIV, § 2. The drafting history of Article I, Section 2 and Section 2 of
21 the Fourteenth Amendment show the Framers' focus on including noncitizens in the
22 apportionment base.

23

24 ² Plaintiffs do not move for summary judgment on their other claims. Those claims are that the
25 Presidential Memorandum violates the Fifth and Fourteenth Amendments through
26 malapportionment and intentional discrimination; 13 U.S.C. § 195's ban on statistical sampling;
27 the Apportionment and Enumeration Clauses' ban on inaccurate data and statistical sampling; and
the Administrative Procedure Act ("APA"). We thus do not address these other claims in this order.

27

28

1 In 1787, when the Constitution was drafted, the Framers chose to constitutionalize the
2 requirement that a census be conducted every decade. A purpose of this requirement was to
3 regularly apportion the congressional representatives allocated to each state. As ratified, Article I,
4 Section 2 requires an “actual Enumeration” to be conducted “within three Years after the first
5 Meeting of the Congress of the United States, and within every subsequent Term of ten Years.”
6 U.S. Const. art. I, § 2, cl. 3. The “actual Enumeration” would count “the whole Number of free
7 Persons, including those bound to Service for a Term of Years, and excluding Indians not taxed,
8 three fifths of all other Persons.” *Id.*

9 This ratified text reflected earlier drafts as well. The previous draft of Article I, Section 2
10 comprised two clauses—an Apportionment Clause and a Direct Taxation Clause. The draft
11 Apportionment Clause provided that Congress would “regulate the number of representatives by
12 the number of inhabitants, according to the rule hereinafter made for direct taxation.” *2 Records of*
13 *the Federal Convention of 1787* at 566, 571 (M. Farrand ed. 1911) (emphasis added).³ The Direct
14 Taxation Clause stated that “[t]he proportions of direct taxation shall be regulated by the whole
15 number of free citizens *and* inhabitants, of every age, sex, and condition, including those bound to
16 servitude for a term of years, and three fifths of all other persons not comprehended in the
17 foregoing description, (except Indians not paying taxes).” *Id.* at 571 (emphasis added). These
18 provisions were later consolidated into Article I, Section 2 by the Committee of Style. *Id.* at 553.

19 In the debates on Article I, Section 2, the Framers recognized that the number of
20 representatives would be determined by the number of persons residing in each state, not the
21 number of voters. 1 Farrand, *supra*, at 580–81 (notes of James Madison on Constitutional

22
23 ³ Farrand’s *Records of the Federal Convention of 1787* gathers materials from the Constitutional
24 Convention of 1787, including the official journal and the contemporaneous notes of participants
25 in the convention. *See The Records of the Federal Convention of 1787*, 25 Harv. L. Rev. 198, 199
26 (1911) (explaining that “these three volumes are indispensable to anyone who is searching at first
27 hand for any fact as to the transactions of the Federal Convention”). Accordingly, Farrand has
28 been cited by the Supreme Court. *See Arizona State Legislature v. Arizona Independent*
Redistricting Comm’n, 576 U.S. 787, 815 (2015) (citing Farrand).

1 Convention proceedings on Wednesday, July 11, 1787). According to a speech by Alexander
2 Hamilton, “every individual of the community at large has an equal right to the protection of
3 government.” *Id.* at 473 (notes of Representative Robert Yates of New York on Constitutional
4 Convention proceedings on Friday, June 29, 1787).

5 In *The Federalist* No. 54, James Madison explained the importance of Article I, Section 2:
6 “It is a fundamental principle of the proposed Constitution, that . . . the aggregate number of
7 representatives allotted to the several States is to be . . . founded on the aggregate number of
8 inhabitants” *The Federalist* No. 54. *The Federalist* Nos. 56 and 58 confirm the Constitution’s
9 decision to apportion based on the number of inhabitants. *See The Federalist* No. 56 (noting that
10 the Constitution mandates “a representative for every thirty thousand inhabitants”); *The Federalist*
11 No. 58 (stating that the Constitution requires “readjust[ing], from time to time, the apportionment
12 of representatives to the number of inhabitants”). Madison acknowledged that “[t]he qualifications
13 on which the right of suffrage depend are not, perhaps, the same in any two States. . . . In every
14 State, a certain proportion of inhabitants are deprived of this right [but] . . . will be included in the
15 census by which the federal Constitution apportions the representatives.” *The Federalist* No. 54.

16 In 1865, the Civil War ended, and the Thirteenth Amendment abolished slavery. On June
17 13, 1866, Congress passed the Fourteenth Amendment. By July 9, 1868, the Fourteenth
18 Amendment was ratified by the states.

19 At the debates over the Fourteenth Amendment, Congress discussed how to adjust the
20 apportionment formula. *See Evenwel v. Abbott*, 136 S. Ct. 1120, 1128 (2016) (“[T]he
21 apportionment issue consumed more time in the Fourteenth Amendment debates than did any
22 other topic.”) (quoting J. Sneed, *Footprints on the Rocks of the Mountain: An Account of the*
23 *Enactment of the Fourteenth Amendment* 28 (1997)). The Fourteenth Amendment changed the
24 formula for apportionment by deleting the provisions for slaves as well as indentured servants.
25 *Compare* U.S. Const. art. I, § 2, cl. 3 *with* U.S. Const. amend. XIV, § 2. The new formula
26 apportioned representatives based on “the whole number of persons in each state, excluding
27

1 Indians not taxed.” U.S. Const. amend. XIV, § 2.

2 The drafters of the Fourteenth Amendment considered making more changes to Article I,
3 Section 2. “Concerned that Southern States would not willingly enfranchise freed slaves,” the
4 drafters considered the “possibility of allocating House seats to States on the basis of voter
5 population.” *Evenwel*, 136 S. Ct. at 1127 (citing Sneed at 28). Representative Thaddeus Stevens of
6 Pennsylvania drafted a proposal “that would have allocated House seats to States ‘according to
7 their respective legal voters’” instead of population. *Id.* at 1128 (quoting Cong. Globe, 39th Cong.,
8 1st Sess. 10 (1866)). However, the drafters ultimately rejected this proposed language. *Id.*

9 The drafters of the Fourteenth Amendment instead embraced “the principle upon which the
10 Constitution itself was originally framed, that the basis of representation should depend upon
11 numbers . . . not voters.” Cong. Globe, 39th Cong., 1st Sess. 2766–67 (1866) (statement of Senator
12 Jacob Howard of Michigan introducing the Fourteenth Amendment on the Senate floor). The
13 drafters of the Fourteenth Amendment understood that the Constitution had traditionally based
14 apportionment on the number of persons residing in each state, not the number of citizens. *See,*
15 *e.g., id.* at 705 (statement of Senator William Fessenden of Maine) (“The principle of the
16 Constitution, with regard to representation, is that it shall be founded on population [W]e are
17 attached to that idea, that the whole population is represented; that although all do not vote, yet all
18 are heard. That is the idea of the Constitution.”).

19 During the debates, the drafters acknowledged that the apportionment base would include
20 immigrants:

- 21 • “Every man in this House knows perfectly well in the several States . . . unnaturalized
22 citizens cannot vote . . . yet for these persons the States are entitled to representation.” *Id.*
23 at 353 (statement of Representative Andrew Jackson Rogers of New Jersey)
- 24 • “‘Persons’ and not ‘citizens,’ have always constituted the basis” for apportionment, and a
25 proposal to use voters “would narrow the basis of taxation and cause considerable
26 inequalities in this respect, because the number of aliens in some States is very large, and
growing larger now, when emigrants reach our shores at the rate of more than a State a
year.” *Id.* at 359 (statement of Representative Roscoe Conkling of New York)

- 1 • A proposal to base representation on voters would “take[] from the basis of representation
2 all unnaturalized foreigners” *Id.* at 411 (statement of Representative Burton Cook of
3 Illinois)
- 4 • “Under the Constitution as it now is and as it always has been, the entire immigrant
5 population of this country is included in the basis of representation.” *Id.* at 432 (statement
6 of Representative John Bingham of Ohio)
- 7 • “Foreigners are counted.” *Id.* at 961 (statement of Senator Charles Buckalew of
8 Pennsylvania)
- 9 • The Fourteenth Amendment cannot “throw[] out of the basis at least two and a half
10 millions of unnaturalized foreign-born men and women.” *Id.* at 1256 (statement of then-
11 Senator (later Vice President) Henry Wilson of Massachusetts)
- 12 • “Representation is now based upon population,” including “foreigners not naturalized.” *Id.*
13 at 2944 (statement of Senator George Henry Williams of Oregon)
- 14 • Apportioning based on voters would be “a blow which strikes the two million one hundred
15 thousand unnaturalized foreigners who are now counted in the basis of representation from
16 that basis.” *Id.* at 2987 (statement of Senator Luke Poland of Vermont)

17 Like the Framers, the drafters of the Fourteenth Amendment found it important to include
18 noncitizens in the apportionment base. The drafters reasoned that noncitizens’ interests would be
19 represented by the elected government, even if the noncitizens did not vote. *See id.* at 141 (“[N]o
20 one will deny that population is the true basis of representation; for women, children, and other
21 non-voting classes may have as vital an interest in the legislation of the country as those who
22 actually deposit the ballot.”) (statement of Representative James Blaine of Maine). Thus, Congress
23 passed and the states ratified the following text: “Representatives shall be apportioned among the
24 several States according to their respective numbers, counting the whole number of persons in
25 each State, excluding Indians not taxed.” U.S. Const. amend. XIV, § 2.

26 **B. Proposed Constitutional Amendments and Statutory History**

27 Members of Congress and their legal counsel have consistently maintained that it would be
28 unconstitutional to exclude noncitizens from the apportionment base. Since the passage of the first
federal immigration laws in 1875, members of Congress have tried to introduce constitutional
amendments and legislative proposals that would have excluded noncitizens from the

1 apportionment base. All have failed to pass.

2 For example, in 1929, Congress considered two constitutional amendments that would
3 have changed the apportionment formula to exclude noncitizens. That year, Representative Homer
4 Hoch of Kansas introduced a constitutional amendment that would have expressly excluded
5 noncitizens from the apportionment base. The constitutional amendment would have changed the
6 Fourteenth Amendment's apportionment formula to the following:

7 Representatives shall be apportioned among the several states according to their
8 respective numbers, counting the whole number of persons in each state, excluding
9 Indians not taxed and aliens.

10 *To Amend the Constitution: Hearing on H.J. Res. 102 and H.J. Res. 351 Before the H.*
11 *Comm. on the Judiciary, 70th Cong. 1 (1929).*

12 At the same time that the Hoch Constitutional Amendment was being considered,
13 Congress was also considering a constitutional amendment introduced by Representative
14 Gale Stalker of New York. That constitutional amendment would have expressly excluded
15 noncitizens from the apportionment:

16 Aliens shall be excluded in counting the whole number of persons in each State for
17 apportionment of Representatives among the several States according to their
18 respective numbers.

19 *Id.* Neither constitutional amendment was passed by Congress.

20 Also in 1929, Congress enacted the Reapportionment Act. During consideration of the bill
21 that became the Reapportionment Act of 1929, Congress discussed whether noncitizens and
22 immigrants without lawful status should be counted by the census and included in the
23 apportionment base. The number of undocumented immigrants at that time was not trivial. One
24 estimate by then-Senator (later Vice President) Alben Barkley of Kentucky was that there were "at
25 least three or four million men and women who enjoy no legal status, who are subject to
26 deportation if the Government could find them." 71 Cong. Rec. 1976 (1929). Given that each
27 congressional seat represented a population of 250,000 people in 1929, a population of
28 undocumented immigrants of that magnitude would have affected the number of seats assigned to

1 each state. *Id.* at 1963. In fact, in 1929, several states explicitly excluded noncitizens from the
2 population base used to apportion their state legislatures. *See id.* at 1967 (listing New York, North
3 Carolina, California, and Tennessee as limiting their apportionment base in some manner beyond
4 residency). New York’s state legislature, for example, used an apportionment base of “the number
5 of their respective inhabitants, excluding aliens.” *Id.*

6 Both houses of Congress considered amending the Reapportionment Act bill to exclude
7 undocumented immigrants from the apportionment base. The Senate considered an amendment
8 that would have excluded “aliens” from the apportionment base. 71 Cong. Rec. 2065 (1929)
9 (restating the proposed amendment prior to the vote). The amendment resulted in a debate on the
10 Senate floor over several days. *See, e.g., id.* at 1958–1982; *id.* at 2338–64. References were made
11 during the floor debate to undocumented immigrants, those “smuggled into the United States” and
12 in the country “without the authority of [the] United States Government.” *Id.* at 1967; *see, e.g., id.*
13 at 1974–76.

14 As a policy matter, the Senate amendment received prominent support. For instance,
15 Senator David Reed of Pennsylvania, who co-authored the Immigration Act of 1924 that limited
16 immigration from Southern and Eastern Europe and banned immigration from Asia, assured his
17 Senate colleagues that “everything in my experience and outlook would lead me to vote for this
18 amendment if that possibly could be done.” *Id.* at 1958. However, the Senate Legislative Counsel
19 evaluated the amendment and advised that “there is no constitutional authority for the enactment
20 of legislation excluding aliens from enumeration for the purposes of apportionment of
21 Representatives among the States.” C.E. Turney, Law Assistant, Senate Legislative Counsel,
22 *Power of Congress to Exclude Aliens from Enumeration for Purposes of Apportionment of*
23 *Representatives* (Apr. 30, 1929), reprinted at 71 Cong. Rec. 1821–22 (1929).

24 Senator Reed thus concluded that he could not vote for the amendment because it was
25 unconstitutional. Senator Reed reasoned that “the oath which we take to support the Constitution
26 includes the obligation to support it when we dislike its provisions as well as when we are in
27

1 sympathy with them.” 71 Cong. Rec. 1958 (1929). In concluding that the amendment was
2 unconstitutional, Senator Reed emphasized that the Constitution deliberately used the word
3 “persons” instead of the word “citizens,” and “the word ‘persons’ must be taken in its literal
4 sense.” *Id.* Consequently, the Senate rejected the amendment. *Id.* at 2065.

5 Representatives in the House proposed three amendments to the Reapportionment Act that
6 would have resulted in aliens, or some subset of aliens, being excluded from the apportionment
7 base.

- 8 • The Bankhead Amendment would have “registered the names and addresses of all aliens
9 and shall have entered upon such registration a statement of each alien showing by what
10 right or authority of law he had entered the United States.” 71 Cong. Rec. 2338–39 (1929).
11 The aim of the Amendment was to eventually exclude those illegally in the country from
12 the apportionment base. *Id.* at 2339. This amendment was rejected. *Id.* at 2343.
- 13 • Later the same day, the Thurston Amendment was introduced which would have added
14 “and excluding aliens” after “Indians not taxed.” *Id.* at 2360. Concerns were raised about
15 the constitutionality of excluding aliens from the apportionment base. *Id.* at 2360–61.
- 16 • Representative Hoch volunteered his own amendment seeking to cure the perceived issues
17 with the Thurston Amendment. *Id.* at 2361. The Hoch Amendment added a new paragraph
18 to the law: “The word ‘persons’ as used in this section shall not be construed to include
19 aliens. If any provision of this section is declared unconstitutional the validity of the
20 remainder of the act shall not be affected thereby.” *Id.*

21 The debate on these three amendments included a prolonged discussion of “aliens who are
22 unlawfully in this country.” *Id.* at 2264; *see, e.g., id.* at 2260, 2264–68, 2276, 2339. Initially, the
23 Hoch Amendment (which construed the word “persons” not “to include aliens,” *id.* at 2361) was
24 adopted. *Id.* at 2363. Two days later, however, the Hoch Amendment was stricken from the Act by
25 a floor amendment. *Id.* at 2449–50. Though Representative Hoch attempted to reintroduce his
26 amendment on the House floor, *id.* at 2451, it was ruled out of order by the chair, a decision
27 upheld by a vote of the members present. *Id.* at 2454.

28 Ultimately, the Reapportionment Act of 1929 was passed by a Congress that understood
that the census count and apportionment base would include undocumented immigrants. The
Reapportionment Act reiterated that the apportionment base is what the Fourteenth Amendment

1 provides—the “number of persons in each State, excluding Indians not taxed.” An Act To Provide
 2 for the Fifteenth and Subsequent Decennial Censuses and To Provide for Apportionment of
 3 Representatives in Congress (“Reapportionment Act of 1929” or “Reapportionment Act”), Pub. L.
 4 No. 71-13, ch. 28, § 22(a), 46 Stat. 21, 26 (1929) (codified as amended at 2 U.S.C. § 2a(a)). As
 5 amended, the Reapportionment Act provides:

6 [T]he President shall transmit to the Congress a statement showing the whole
 7 number of persons in each State, excluding Indians not taxed, as ascertained under
 8 the seventeenth and each subsequent decennial census of the population, and the
 9 number of Representatives to which each State would be entitled under an
 10 apportionment of the then existing number of Representatives by the method
 known as the method of equal proportions, no State to receive less than one
 Member.

11 2 U.S.C. § 2a(a); *accord* U.S. Const. amend. XIV, § 2 (counting the “number of persons in each
 12 State, excluding Indians not taxed”). Following this statutory and constitutional requirement to
 13 base apportionment on the “number of persons in each State,” the Reapportionment Act of 1929
 14 also provided that the Secretary of Commerce would report a “tabulation of total population by
 15 States” to the President. § 2, 46 Stat. at 21. This reporting requirement was then repeated in the
 16 Census Act of 1954, which codified various census-related laws into Title 13 of the United States
 17 Code. *See* An Act To Revise, Codify, and Enact Into Law, Title 13 of the United States Code,
 18 entitled “Census” (“Census Act of 1954” or “Census Act”), Pub L. No. 83-740, ch. 1158, § 143(b),
 19 68 Stat. 1012, 1020 (1954) (codified as amended at 13 U.S.C. § 141 *et seq.*).

20 Following the rejected amendments to the Reapportionment Act of 1929, later proposals to
 21 exclude undocumented immigrants from the apportionment base were also rejected as
 22 unconstitutional. In 1940, for example, during a debate on a bill that would have excluded aliens
 23 from the apportionment base, Representative Emanuel Celler of New York was asked whether it
 24 would be lawful to exclude “aliens who are in this country in violation of law.” 86 Cong.
 25 Rec. 4372 (1940). “The Constitution says that all persons shall be counted,” Representative Celler
 26 replied. “I cannot quarrel with the founding fathers. They said that all should be counted. . . . The

1 only way we can exclude them would be to pass a constitutional amendment.” *Id.* The bill was
2 subsequently defeated. *Id.* at 4386.

3 In advance of the 1990 Census, a 1989 legislative amendment was introduced in the Senate
4 that would have mandated that “aliens in the United States in violation of the immigration laws
5 shall not be counted” for the purposes of apportionment. 135 Cong. Rec. 14539–40 (1989).
6 Senator Dale Bumpers of Arkansas admitted that he did “not want to go home and explain [his]
7 vote on this [amendment] any more than anyone else does.” *Id.* at 14551. Nevertheless, Senator
8 Bumpers voted against the amendment because he thought the amendment was unconstitutional.
9 “I wish the Founding Fathers had said you will only enumerate ‘citizens,’” Senator Bumpers
10 concluded, “but they did not. They said ‘persons,’ and so that is what it has been for 200 years. We
11 have absolutely no right or authority to change that peremptorily on a majority vote here.” *Id.*

12 **C. Executive Branch Practice**

13 Like Congress, the Executive Branch has consistently maintained that all residents of each
14 state must be counted, regardless of their legal status or citizenship. The first census statute, which
15 governed the 1790 Census, instructed “assistants” to count “the number of the *inhabitants* within
16 their respective districts,” not the number of *citizens*. Act of Mar. 1, 1790, § 1, 1 Stat. 101, 101
17 (emphasis added). Then, in the nineteenth century, residents were counted even when they were in
18 a state unlawfully.

19 For example, escaped slaves who were unlawfully present in northern states were counted
20 in the 1860 Census as part of the apportionment base in those northern states. *See An Act*
21 *Respecting Fugitives From Justice, and Persons Escaping From the Service of Their Masters*, 9
22 Stat. 462, 462–63 (1850) (requiring free states to return escaped slaves to their owners); U.S.
23 Census Bureau, *1860 Census: Population of the United States* at vi-vii, xi, xvxi (Gov’t Printing
24 Office 1864), ECF No. 64-22 at 5–6 (counting escaped slaves in the census).⁴

25
26 ⁴ “ECF No.” stands for the identification number of Electronic Case Files on a case docket. Unless
27

1 This tradition of counting persons in unlawful status continued even through the creation
2 of the modern Census Bureau in 1902. President Ronald Reagan’s Census Bureau Director, for
3 example, affirmed the consistency of historical practice in congressional testimony in 1985.
4 Director John Keane testified that the “[t]raditional understanding of the Constitution and the legal
5 direction provided by the Congress has meant that for every census since the first one in 1790, [the
6 Bureau] ha[s] tried to count residents of the country, regardless of their status.” *Enumeration of*
7 *Undocumented Aliens in the Decennial Census: Hearing on S. 99-314 Before the Subcomm. on*
8 *Energy, Nuclear Proliferation, & Gov’t Processes of the S. Comm. on Governmental Affairs, 99th*
9 *Cong. 19 (1985) (statement of Census Director John Keane).*

10 Similarly, during both Republican and Democratic administrations, the Department of
11 Justice (“DOJ”) has consistently maintained that the Constitution requires including
12 undocumented immigrants in the apportionment base. The DOJ in President Jimmy Carter’s
13 Administration, for example, took the position during litigation in 1980 that the Fourteenth
14 Amendment “requir[es] that all the inhabitants of the states, including illegal aliens, be counted for
15 the apportionment.” Defs. Reply Mem., *Fed’n for Am. Immigration Reform (“FAIR”) v. Klutznick*,
16 No. 79-3269, 1980 WL 683642 (D.D.C. Jan. 3, 1980).

17 The DOJ in President Reagan’s Administration reached the same conclusion. Specifically,
18 in 1988, the DOJ evaluated a bill to exclude “illegal aliens” from the apportionment base. The
19 DOJ concluded that “it [was] unconstitutional” and stated that “[i]f it were passed [by Congress],
20 [DOJ] would recommend that the President veto it.” Letter from Thomas M. Boyd, Acting Ass’t
21 Attorney Gen., to Rep. William D. Ford, Chairman, Comm. on the Post Office & Civil Serv.,
22 House of Representatives, at 1 (June 29, 1988), reprinted at *1990 Census Procedures and*
23 *Demographic Impact on the State of Michigan: Hearing Before the Committee on Post Office and*
24 *Civil Service, House of Representatives, 100th Cong. 240–44 (1988), ECF No. 64-29 at 2.*

26 otherwise specified, citations to ECF numbers refer to documents on the *City of San Jose* docket,
27 case number 20-CV-05167-RRC-LHK-EMC.

United States District Court
Northern District of California

1 Assistant Attorney General Boyd noted that the DOJ’s view was based not only on DOJ’s
2 longstanding position, but also DOJ’s recent “reexamin[ation]” of that position. *Id.* at 5. Assistant
3 Attorney General Boyd wrote:

4 The Department of Justice has advised previous Congresses considering identical
5 legislation that aliens must be included within the census for purposes of
6 apportioning congressional Representatives, and has adopted that position in court.
7 We have reexamined this position and continue to believe that it is sound.
8 Accordingly, we find that to the extent that [the bill] would exclude illegal aliens
9 from the census, it is unconstitutional.

10 *Id.* at 4–5 (footnotes citing DOJ brief and congressional testimony from the Office of Legal
11 Counsel omitted).

12 Again, in 1989, the DOJ in President George H.W. Bush’s Administration evaluated a
13 similar legislative proposal to exclude undocumented immigrants from the apportionment base.
14 Specifically, the DOJ found that the Fourteenth Amendment and Article I, Section 2 of the
15 Constitution “require that inhabitants of States who are illegal aliens be included in the census
16 count.” Letter from Carol T. Crawford, Ass’t Attorney Gen., to Sen. Bingaman (Sept. 22, 1989),
17 135 Cong. Rec. S12234 (1989). The Executive Branch has not deviated from that conclusion until
18 the present day.

19 **D. Litigation Regarding the Census Citizenship Question**

20 On March 26, 2018, the Secretary of Commerce announced that he had decided to include
21 a question about citizenship on the 2020 decennial census. That decision was challenged in several
22 lawsuits, including one litigated in the Southern District of New York, based on concern that
23 inclusion of such a question would discourage noncitizens from responding to the census. After
24 the New York district court remanded the decision to add the citizenship question to the Secretary,
25 the case was appealed to the Supreme Court.

26 On June 27, 2019, the Supreme Court affirmed the district court’s decision remanding to
27 the agency. *See Dep’t of Commerce v. New York*, 139 S. Ct. 2551, 2576 (2019). The Supreme Court
28 held that the plaintiffs had standing to file suit. *Id.* at 2565. The Supreme Court then concluded

1 that the Secretary’s decision did not violate the Enumeration Clause, did not violate the Census
2 Act, and was supported by evidence. *Id.* at 2567, 2571, 2573.

3 However, the Supreme Court affirmed the district court’s decision remanding the decision
4 to the agency because the Secretary’s decision rested on pretextual reasoning. *Id.* at 2575. The
5 Secretary had justified his decision to include a citizenship question based on DOJ’s request for
6 citizenship data to better enforce the Voting Rights Act. The Supreme Court concluded that “the
7 decision to reinstate a citizenship question cannot be adequately explained in terms of DOJ’s
8 request for improved citizenship data to better enforce the [Voting Rights Act].” *Id.* The Supreme
9 Court considered the fact that “the Secretary [of Commerce] began taking steps to reinstate a
10 citizenship question about a week into his tenure, but [the record] contains no hint that he was
11 considering [Voting Rights Act] enforcement in connection with that project.” *Id.* Moreover, the
12 Supreme Court emphasized that “it was not until the Secretary contacted the Attorney General
13 directly that DOJ’s Civil Rights Division expressed interest in acquiring census-based citizenship
14 data to better enforce the [Voting Rights Act].” *Id.* Based on the facts surrounding the Secretary’s
15 decision, the Supreme Court concluded that there was “a significant mismatch between the
16 Secretary’s decision and the rationale he provided.” *Id.* Accordingly, the Supreme Court concluded
17 that the district court was correct in remanding to the agency. *Id.* at 2576.

18 **E. President’s Announcement to Proceed with Citizenship Question**

19 President Donald J. Trump responded to the Supreme Court’s decision in several ways. On
20 June 27, 2019, the same day as the Supreme Court’s decision, the President announced that it
21 “[s]eems totally ridiculous that our government, and indeed Country, cannot ask a basic question
22 of Citizenship in a very expensive, detailed and important Census.” @realDonaldTrump, Twitter
23 (June 27, 2019, 10:37 AM),

24 <https://twitter.com/realDonaldTrump/status/1144298731887628288?s=20>.

25 A week later, on July 3, 2019, the President announced that the government was
26 “absolutely moving forward, as we must,” with the citizenship question:

27

1 The News Reports about the Department of Commerce dropping its quest to put the
2 Citizenship Question on the Census is incorrect or, to state it differently, FAKE! We
3 are absolutely moving forward, as we must, because of the importance of the
4 answer to this question.

5 @realDonaldTrump, Twitter (July 3, 2019, 8:06 AM),

6 <https://twitter.com/realDonaldTrump/status/1146435093491277824?s=20>.

7 **F. Collecting Information Executive Order**

8 On July 11, 2019, however, the President stated that to renew efforts to add the citizenship
9 question “would have produced even more litigation and considerable time delays.” *Remarks by*
10 *President Trump on Citizenship and the Census* (July 11, 2019),

11 <https://www.whitehouse.gov/briefings-statements/remarks-president-trump-citizenship-census/>.

12 On July 11, 2019, the President thus issued Executive Order 13,880, “a new option to ensure a
13 complete and timely count of the non-citizen population.” *Id.* The President stated, “I’m hereby
14 ordering every department and agency in the federal government to provide the Department of
15 Commerce with all requested records regarding the number of citizens and non-citizens in our
16 country. They must furnish all legally accessible records in their possession immediately.” *Id.*

17 On July 16, 2019, Executive Order 13,880 was published in the Federal Register.
18 *Collecting Information About Citizenship Status in Connection With the Decennial Census*, Exec.
19 Order No. 13,880, 84 Fed. Reg. 33,821 (July 16, 2019) (the “Collecting Information Executive
20 Order”). The relevant text of the Collecting Information Executive Order is as follows:

21 The [Supreme] Court’s ruling . . . has now made it impossible, as a practical matter,
22 to include a citizenship question on the 2020 decennial census questionnaire. After
23 examining every possible alternative, the Attorney General and the Secretary of
24 Commerce have informed me that the logistics and timing for carrying out the
25 census, combined with delays from continuing litigation, leave no practical
26 mechanism for including the question on the 2020 decennial census.

27 Nevertheless, *we shall ensure that accurate citizenship data is compiled in*
28 *connection with the census by other means.* To achieve that goal, I have determined
that it is imperative that all executive departments and agencies (agencies) provide
the Department the maximum assistance permissible, consistent with law, in
determining the number of citizens and non-citizens in the country, including by

1 providing any access that the Department may request to administrative records
2 that may be useful in accomplishing that objective. . . . The executive action I am
3 taking today *will ensure that the Department will have access to all available*
records in time for use in conjunction with the census.

4 Therefore, to eliminate delays and uncertainty, and to resolve any doubt about the
5 duty of agencies to share data *promptly* with the Department, I am hereby ordering
6 all agencies to share information requested by the Department *to the maximum*
extent permissible under law.

7 *Id.* at 33,821–22 (emphasis added).

8 The Collecting Information Executive Order further states that the data being collected “is
9 important for multiple reasons, including the following”:

- 10 • “data on the number of citizens and aliens in the country is needed to help us understand
11 the effects of immigration on our country and to inform policymakers considering basic
12 decisions about immigration policy”;
- 13 • “the lack of complete data on numbers of citizens and aliens hinders the Federal
14 Government’s ability to implement specific programs and to evaluate policy proposals for
15 changes in those programs”;
- 16 • “data identifying citizens will help the Federal Government *generate a more reliable count*
17 *of the unauthorized alien population in the country*” and “[a]ccurate and complete data on
18 *the illegal alien population* would be useful for the Federal Government in evaluating
19 many policy proposals”; and
- 20 • “it may be open to States to design State and local legislative districts based on the
21 population of voter-eligible citizens.” *Id.* at 33,822–23 (emphasis added).

22 As noted above, the order expressly contemplated that the data collected would be used in
23 connection with the 2020 Census. *See id.* at 33,821–22 (stating that “we shall ensure that accurate
24 citizenship data is compiled in connection with the census by other means” and that “[t]he
25 executive action I am taking today will ensure that the Department will have access to all available
26 records in time for use in conjunction with the census”).

27 **G. Census Data Collection**

28 In March 2020—approximately nine months after the Collecting Information Executive
Order issued—conventional data collection for the 2020 Census began. Census data collection
“begin[s] with a questionnaire to which households are asked to self-respond and end[s] with a set

1 of procedures known as ‘Non-Response Follow-Up’ operations.” *New York v. Trump*, No. 20-CV-
 2 5770 (RCW) (PWH) (JMF), 2020 WL 5422959, at *6 (S.D.N.Y. Sept. 10, 2010) (three-judge
 3 court) (per curiam). Non-Response Follow-Up (also referred to as “NRFU”) is conducted in
 4 person “to ensure that any household that did not self-respond to the census is nonetheless
 5 counted.” *Id.* at *28; *see also Nat’l Urban League v. Ross*, No. 20-CV-05799-LHK, 2020 WL
 6 5441356, at *1–2 (N.D. Cal. Sep. 10, 2020) (noting that NRFU involves “in-person contact
 7 attempts at each and every housing unit that did not self-respond to the decennial census
 8 questionnaire”). NRFU “‘is entirely about hard-to-count populations,” *id.* at *1; *see also*
 9 *California v. Ross*, 358 F. Supp. 3d 965, 986 (N.D. Cal. 2019) (noting that hard-to-count
 10 populations “are hard to locate, hard to contact, hard to persuade, and hard to interview”; adding
 11 that, “[f]or some hard-to-count subgroups, more than one of these obstacles applies”), which
 12 include undocumented immigrants and recent immigrants. *See id.* (also identifying other hard-to-
 13 count groups such as low-income persons, persons who do not live in traditional housing, persons
 14 who do not speak English fluently or have limited English proficiency, people who have distrust in
 15 the government, and racial and ethnic minorities). “In all recent censuses, the Census Bureau has
 16 differentially undercounted hard-to count subpopulations, most notably Hispanics, even after
 17 implementing all NRFU operations.” *Id.* at 992.

18 The operational plan for the 2020 Census had originally scheduled the NRFU process to
 19 begin in May 2020 and to end in July 2020. However, in April 2020, the operational plan for the
 20 census was modified because of the COVID-19 pandemic. Under the COVID-19 plan, the NRFU
 21 process was adjusted to take place from August 11, 2020 through October 31, 2020. On August 3,
 22 2020, the Census Bureau announced a new plan (called the “Replan”), which would have data
 23 collection (including NRFU) end one month earlier on September 30, 2020. This action by the
 24 agency precipitated the lawsuit *National Urban League v. Ross*, No. C-20-5799 LHK (N.D. Cal.).
 25 After significant litigation in that case, data collection ended on October 15, 2020.

H. Presidential Memorandum

On July 21, 2020, just a few weeks before the critical NRFU phase was to begin, the President issued the memorandum being challenged in the instant case. The memorandum, titled “Excluding Illegal Aliens From the Apportionment Base Following the 2020 Census,” was then published in the Federal Register on July 23, 2020. 85 Fed. Reg. 44,679; *see* 44 U.S.C. § 1505(a) (requiring publication in the Federal Register of “[e]xecutive orders, except those not having general applicability and legal effect or effective only against Federal agencies or persons in their capacity as officers, agents, or employees thereof”). The Presidential Memorandum provides in relevant part as follows:

- “In order to apportion Representatives among the States, the Constitution requires the enumeration of the population of the United States every 10 years.” 85 Fed. Reg. at 44,679.
- “The Constitution does not specifically define which persons must be included in the apportionment base.” *Id.*
- “In Executive Order 13880 of July 11, 2019 [*i.e.*, the Collecting Information Executive Order], I instructed executive departments and agencies to share information with the Department of Commerce, to the extent permissible and consistent with law, to allow the Secretary to obtain accurate data on the number of citizens, non-citizens, and illegal aliens in the country.” *Id.* at 44,680.
- “For the purpose of the reapportionment of Representatives following the 2020 census, it is the policy of the United States to exclude from the apportionment base aliens who are not in a lawful immigration status under the Immigration and Nationality Act, as amended (8 U.S.C. 1101 *et seq.*), to the maximum extent feasible and consistent with the discretion delegated to the executive branch.” *Id.*
- “Affording congressional representation, and therefore formal political influence, to States on account of the presence within their borders of aliens who have not followed the steps to secure a lawful immigration status under our laws undermines [the] principles” of representative democracy. *Id.*
- “States adopting policies that encourage illegal aliens to enter this country and that hobble Federal efforts to enforce the immigration laws passed by the Congress should not be rewarded with greater representation in the House of Representatives. Current estimates

1 suggest that one State [*i.e.*, California⁵] is home to more than 2.2 million illegal aliens,
2 constituting more than 6 percent of the State’s entire population. Including these illegal
3 aliens in the population of the State for the purpose of apportionment could result in the
4 allocation of two or three more congressional seats than would otherwise be allocated.” *Id.*

- 4 • “I have . . . determined that respect for the law and protection of the integrity of the
5 democratic process warrant the exclusion of illegal aliens from the apportionment base, to
6 the extent feasible and to the maximum extent of the President’s discretion under the law.”
7 *Id.*
- 8 • “In preparing his report to the President under section 141(b) of title 13, United States
9 Code, the Secretary [of Commerce] shall take all appropriate action, consistent with the
10 Constitution and other applicable law, to provide information permitting the President, to
11 the extent practicable, to exercise the President’s discretion to carry out the policy set forth
12 [above]. The Secretary shall also include in that report information tabulated according to
13 the methodology set forth in *Final 2020 Census Residence Criteria and Residence*
14 *Situations*, 83 FR 5525 (Feb. 8, 2018).” *Id.*

15 Thus, under the Presidential Memorandum, the Secretary is now required, to the extent “feasible”
16 or “practicable,” to include two different sets of numbers for each State in his report to the
17 President. *Id.* The first set of numbers will be comprised of the total population of each State as
18 determined by the Residence Rule, which includes noncitizens “living in the United States,”
19 regardless of their immigration status. *Final 2020 Census Residence Criteria and Residence*
20 *Situations*, 83 Fed. Reg. 5525, 5533 (Feb. 8, 2018) (the “Residence Rule”). The second set of
21 numbers will be derived by subtracting from the total population of each State the number of
22 “aliens who are not in a lawful immigration status.” Presidential Memorandum, 85 Fed. Reg. at
23 44,680.

24 In the instant action, Plaintiffs challenge the Presidential Memorandum on various

25 ⁵ According to the Pew Research Center, California is the only state with approximately 2.2
26 million or more undocumented immigrants. See Pew Research Center, *U.S. unauthorized*
27 *immigrant population estimates by state, 2016* (Feb. 5, 2019),
28 <https://www.pewresearch.org/hispanic/interactives/u-s-unauthorized-immigrants-by-state/>.
Defendants have conceded that the state with 2.2 million illegal aliens described in the Presidential
Memorandum is in fact California. See Tr. of Oct. 14, 2020 oral argument at 24: 6-10, *Useche v.*
Trump, No. C-20-2225 PX-PAH-ELH (D. Md.).

1 grounds. Plaintiffs have moved for partial summary judgment on the following claims, which
 2 allege that the Presidential Memorandum: (1) violates the Apportionment and Enumeration
 3 Clauses of Article I, Section 2 and the Fourteenth Amendment of the Constitution; (2) violates the
 4 Census Act and the Reapportionment Act; and (3) violates the separation of powers. Stip. Re
 5 Topics for Early Dispositive Briefings, ECF No. 52 at 2.

6 This lawsuit is one of several challenging the Presidential Memorandum.

- 7 • *State of New York v. Trump*, No. C-20-5770 RCW-PWH-JMF (S.D.N.Y.). The three-judge
 8 court (hereafter, “*New York court*”) found that the plaintiffs had standing based on the
 9 effect of the Presidential Memorandum on the census count and held that the Presidential
 10 Memorandum violates the statutes governing the census and apportionment. On September
 11 10, 2020, a final judgment was entered in favor of the plaintiffs on the statutory claims.
 12 The government appealed to the Supreme Court on September 18, 2020. The Supreme
 13 Court has set the case for oral argument on November 30, 2020. *See Trump v. New York*,
 14 No. 20-366 (U.S.).
- 15 • *Common Cause v. Trump*, No. C-20-2023 CRC-GGK-DLF (D.D.C.). Oral argument was
 16 held on the plaintiffs’ motion for partial summary judgment and the defendants’ motion to
 17 dismiss on September 29, 2020.
- 18 • *Useche v. Trump*, No. C-20-2225 PX-PAH-ELH (D. Md.). Oral argument was held on the
 19 plaintiffs’ motion for partial summary judgment or a preliminary injunction on October 14,
 20 2020.
- 21 • *Haitian-Americans United, Inc. v. Trump*, No. C-20-11421 DPW-BMS-PBS (D. Mass.).
 22 Hearing on the defendants’ motion to dismiss is set for November 2, 2020.

23 **II. SUMMARY JUDGMENT STANDARD**

24 Federal Rule of Civil Procedure 56 provides that a “court shall grant summary judgment
 25 [to a moving party] if the movant shows that there is no genuine dispute as to any material fact and
 26 the movant is entitled to judgment as a matter of law.” Fed. R. Civ. P. 56(a). An issue of fact is
 27 genuine only if there is sufficient evidence for a reasonable jury to find for the nonmoving party.
 28 *See Anderson v. Liberty Lobby, Inc.*, 477 U.S. 242, 248–49 (1986). “The mere existence of a
 scintilla of evidence . . . will be insufficient; there must be evidence on which the jury could
 reasonably find for the [nonmoving party].” *Id.* at 252. At the summary judgment stage, evidence
 must be viewed in the light most favorable to the nonmoving party and all justifiable inferences

1 are to be drawn in the nonmovant’s favor. *See id.* at 255.

2 Where a plaintiff moves for summary judgment on claims that it has brought (*i.e.*, for
3 which it has the burden of proof), it “must prove each element essential of the claims . . . by
4 undisputed facts.” *Cabo Distrib. Co. v. Brady*, 821 F. Supp. 601, 607 (N.D. Cal. 1992); *cf.*
5 *Fontenot v. Upjohn Co.*, 780 F.2d 1190, 1194 (5th Cir. 1986) (stating that, “if the movant bears the
6 burden of proof on an issue, either because he is the plaintiff or as a defendant he is asserting an
7 affirmative defense, he must establish beyond peradventure all of the essential elements of the
8 claim or defense to warrant judgment in his favor”) (emphasis omitted); *Watts v. United States*,
9 703 F.2d 346, 347 (9th Cir. 1983) (stating that “[a] plaintiff who seeks summary judgment and
10 who fails to produce sufficient evidence on one or more essential elements of the claim is ‘no
11 more entitled to a judgment . . . than is a plaintiff who has fully tried the case and who has
12 neglected to offer evidence sufficient to support a finding on a material issue upon which [the
13 plaintiff] bears the burden of proof’”).

14 Where a defendant moves for summary judgment based on a claim for which the plaintiff
15 bears the burden of proof, the defendant need only point to the plaintiff’s failure “to make a
16 showing sufficient to establish the existence of an element essential to [the plaintiff’s] case.”
17 *Celotex Corp. v. Catrett*, 477 U.S. 317, 322 (1986).

18 **III. JURISDICTION & JUSTICIABILITY**

19 Because Plaintiffs are moving for summary judgment, they have the burden of proving—
20 specifically, by a preponderance of the evidence—that we have jurisdiction over their claims. *See*
21 *Leite v. Crane Co.*, 749 F.3d 1117, 1121–22 (9th Cir. 2014) (noting that “[t]he plaintiff bears the
22 burden of proving by a preponderance of the evidence that each of the requirements for subject-
23 matter jurisdiction has been met”).

24 In their Motion to Dismiss, or in the Alternative, Motion for Partial Summary Judgment,
25 Defendants challenge jurisdiction as well as justiciability, asserting that Plaintiffs’ claims are not
26 ripe and that Plaintiffs lack standing to proceed with their claims. As a formal matter, Defendants

1 have made a factual attack on jurisdiction/justiciability pursuant to Federal Rule of Civil
 2 Procedure 12(b)(1). *See Safe Air For Everyone v. Meyer*, 373 F.3d 1035, 1039 (9th Cir. 2004)
 3 (distinguishing between facial and factual attacks on jurisdiction brought pursuant to Federal Rule
 4 of Civil Procedure 12(b)(1)). A 12(b)(1) motion is not the same as a motion for summary
 5 judgment. However, because Defendants have, in the alternative, moved for summary judgment,
 6 we effectively have before us competing summary judgment motions on jurisdiction and
 7 justiciability.

8 **A. Injury to Plaintiffs**

9 To evaluate Defendants' ripeness and standing arguments, we must first assess what injury
 10 is claimed by Plaintiffs. Plaintiffs are individuals, a nongovernmental organization, and
 11 government entities. Plaintiffs maintain that the Presidential Memorandum has harmed them or
 12 will harm them in the following ways.

- 13 • *Individuals.* In declarations, several of the individual plaintiffs assert that “the exclusion of
 14 undocumented immigrants from the apportionment base will lead to an undercount of
 15 persons in [their respective States] relative to other states such that [their States are] highly
 16 likely to lose a seat in Congress,” thus depriving them of their “fair share of representation
 17 in the United States House of Representatives.” Liccardo Decl. ¶ 4 (a California resident);
 18 Yilma Decl. ¶ 4 (a California resident); Ellis Decl. ¶ 4 (a Texas resident).
- 19 • *Organization.* Like the individuals, the Black Alliance for Just Immigration (“BAJI”)
 20 organization has also submitted a declaration (from its Executive Director, Nana Gyamfi).
 21 BAJI is a nonprofit corporation “founded in April 2006 in response to the mobilization of
 22 immigrant communities and their supporters against repressive immigration bills that were
 23 pending before the United States Congress at the time.” Gyamfi Decl. ¶ 4. BAJI has
 24 “approximately 1200 members [nationwide] who are predominantly Black immigrants,
 25 refugees, and/or African Americans.” Gyamfi Decl. ¶ 5. Its “core mission is to educate and
 26 engage African American and Black immigrant communities to organize and advocate for
 27 racial, social, and economic justice for themselves and other underrepresented
 28 communities.” Gyamfi Decl. ¶ 7. According to BAJI, the Presidential Memorandum has
 had a chilling effect on undocumented immigrants with respect to participation in the
 census, which means that there will be undercounting in the census. An undercount, in
 turn, means a dilution of political power and a loss of federal funding with respect to the
 immigrant communities that BAJI serves, which thereby “impedes [BAJI’s] mission to
 advance [immigrant] communities’ access to racial, social, and economic justice.” Gyamfi

1 Decl. ¶ 13. BAJI, therefore, has had to “divert its essential and limited resources, including
2 staff time and money, from other priorities and programs in order to counteract the harmful
3 effects of the Apportionment Presidential Memorandum.” Gyamfi Decl. ¶ 17. For example,
4 BAJI has had to “conduct additional outreach . . . to encourage continued participation in
the 2020 Census notwithstanding the Apportionment Presidential Memorandum’s
exclusionary message.”⁶ Gyamfi Decl. ¶ 18.

- 5 • *Government entities.*⁷ The government entities contend, because of the Presidential
6 Memorandum, the respective states where they are located are likely to lose a seat in the
7 House of Representatives. The Presidential Memorandum will also have an impact on
8 (1) their state and local redistricting, (2) their share of federal funding, and (3) their ability
9 to perform critical governmental functions, all of which are dependent on the census data.
10 *See generally New York*, 2020 WL 5422959, at *4–5 (describing ways in which federal,
11 state, and local governments use census data—*e.g.*, federal government uses census data to
12 allocate money to states; state governments use census data to draw intrastate political
13 districts and to allocate governmental resources and to impose expenses among local
14 governments; and local governments use census data to perform essential government
15 functions). *See also* Reamer Decl. (expert testifying about impact of undercounting on the
16 distribution of federal domestic assistance funds to states and localities); Westall Decl.
17 (discussing use of census data for City of Los Angeles redistricting, public services, and
18 funding received from federal government); Bodek Decl. (discussing use of census data for
County of Los Angeles General Plan); Crain Decl. (discussing use of census data for Los
Angeles Unified School District redistricting); Dively Decl. (discussing use of census data
for King County public services and funding received from federal government); Ramsey
Decl. (discussing use of census data for Harris County funding received from federal
government); Shah Decl. (discussing use of census data for Harris County public services);
Ellis Reply Decl. (discussing use of census data for Harris County funding received from
federal government and redistricting).

19 We hold that one or more Plaintiffs have standing based on two harms: (1) the
20 apportionment injury, and (2) the census degradation injury. We then address Plaintiffs’ chilling
21

22 ⁶ As indicated by the above, BAJI is claiming that it has suffered harm directly as an organization.
23 *See E. Bay Sanctuary Covenant v. Trump*, 950 F.3d 1242, 1265 (9th Cir. 2020) (noting that
24 “[o]rganizations can assert standing on behalf of their own members or in their own right”).

25 ⁷ The government entities are: (1) in No. C-20-5167, the City of San Jose; King County,
26 Washington; Arlington County, Virginia; and Harris County, Texas; and (2) in No. C-20-5169, the
27 State of California, the City of Los Angeles, the City of Long Beach, the City of Oakland, Los
Angeles Unified School District, and the County of Los Angeles.

1 effect injury.

2 First, the apportionment injury is the loss of one or more congressional seats if
3 undocumented immigrants are excluded from the apportionment base. Plaintiffs have submitted a
4 declaration from an economics expert who “conclude[s] that removing undocumented immigrants
5 from the population for the purposes of congressional redistricting is highly likely to cause
6 California and Texas to each lose a congressional seat.” Gilgenbach Decl. ¶ 5. “Other states,
7 including New Jersey, may also lose a congressional seat.” *Id.* The Gilgenbach declaration is not
8 contested. Moreover, the Presidential Memorandum explicitly acknowledges that at least one state
9 will lose two or three congressional seats. *See* 85 Fed. Reg. at 44,680 (“Current estimates suggest
10 that one State is home to more than 2.2 million illegal aliens Including these illegal aliens in
11 the population of the State for the purpose of apportionment could result in the allocation of two or
12 three more congressional seats than would otherwise be allocated.”).

13 Second, the census degradation injury arises because, if undocumented immigrants are not
14 included as part of the census, then the census is undercounting the population, which then
15 impacts, *inter alia*, state and local redistricting (by diluting the political power of areas with high
16 concentrations of affected immigrants), state and local governments’ share of federal funding, and
17 state and local governments’ ability to perform critical governmental functions—all of which are
18 dependent on and affected by the accuracy and completeness of census data. Plaintiffs have
19 provided declarations from local government entities which address the impact of the Presidential
20 Memorandum on their local redistricting, their share of federal funding, and their ability to
21 perform critical governmental functions. These declarations are also uncontested.

22 Finally, the last harm claimed by Plaintiffs is a chilling effects injury—*i.e.*, injury caused
23 by the chilling effect the Presidential Memorandum has on census participation by undocumented
24 immigrants or those with ties to undocumented immigrants. *See, e.g.*, Gyamfi Decl. (testifying that
25 BAJI has had to divert its resources to address the chilling effects the Presidential Memorandum
26 has on census participation). Now that census field operations have ended, Defendants argue that
27

1 any case based on the chilling effect injury is moot. *See* Notice of Supp. Authority at 2, ECF No.
2 99 (Oct. 14, 2020).

3 The standard for finding mootness, however, is tougher than the standard for finding lack
4 of standing because “to abandon the case at an advanced stage may prove more wasteful than
5 frugal.” *Friends of the Earth, Inc. v. Laidlaw Envtl. Servs. (TOC), Inc.*, 528 U.S. 167, 192 (2000).
6 Moreover, the mootness doctrine has an exception for injuries “capable of repetition, yet evading
7 review.” *Kingdomware Techs., Inc. v. United States*, 136 S. Ct. 1969, 1976 (2016) (quoting
8 *Spencer v. Kemna*, 523 U.S. 1, 17 (1998)); *see also Honig v. Doe*, 484 U.S. 305, 320 n.6 (1988)
9 (capacity for repetition need not have a “demonstrated probability”). Capacity for repetition may
10 be found from the Census Bureau’s willingness to “reopen field operations for a brief period” if
11 “further proceedings [in *National Urban League*] were to result in a final judgment in [the
12 *National Urban League* plaintiffs’] favor.” Reply in Support of Application for a Stay, *Ross v.*
13 *National Urban League*, No. 20A62 (U.S. Oct. 10, 2020). The Presidential Memorandum could
14 evade review despite a “brief” reopening of field operations that would certainly be for a period
15 “less than two years,” which generally “is too short to complete judicial review.” *Kingdomware*
16 *Techs.*, 136 S. Ct. at 1976.

17 Nonetheless, we need not find that the chilling effects injury is “capable of repetition, yet
18 evading review” because that injury is unnecessary to find Article III standing here.⁸ *Id.* We note,
19 however, that in the *New York* court’s order addressing the validity of the Presidential
20 Memorandum, the *New York* court referred to census degradation as a byproduct of chilling
21 effects. That is, if undocumented immigrants and/or those close to them are chilled from
22

23 ⁸ Even if the chilling effects injury no longer confers standing, many Plaintiffs in this case still
24 have standing to proceed based on the apportionment injury and/or census degradation injury.
25 “[T]he presence of one party with standing is sufficient to satisfy Article III’s case-or-controversy
26 requirement.” *Rumsfeld v. Forum for Acad. & Instit. Rights, Inc.*, 547 U.S. 47, 52 n.2 (2006);
27 *accord Dep’t of Commerce v. New York*, 139 S. Ct. at 2565 (“For a legal dispute to qualify as a
genuine case or controversy, at least one plaintiff must have standing to sue.”).

1 participating in the census because of the Presidential Memorandum, then there will be
 2 undercounting in the census, and undercounting in turn will impact federal funding, state and local
 3 redistricting, and provision of state and local government services. This is undoubtedly true.
 4 However, even absent any chilling effect, the exclusion of undocumented immigrants from the
 5 census will have an effect on federal funding, state and local redistricting, and provision of state
 6 and local government services. These harms, in addition to Plaintiffs’ loss of congressional
 7 representation, give Plaintiffs Article III standing. Moreover, Defendants’ mootness argument does
 8 not impact the declaratory relief ordered by the *New York* court or herein.

9 **B. Ripeness and Standing**

10 Rather than contesting the facts put forward by Plaintiffs, Defendants argue that the
 11 possibility of future apportionment and census degradation injuries is too speculative, and thus,
 12 there is a ripeness/standing problem. *See Ripplinger v. Collins*, 868 F.2d 1043, 1047 n.3 (9th Cir.
 13 1989) (noting that “[t]he courts have addressed the question of whether future injury is sufficient
 14 as an issue of standing, ripeness, and/or justiciability”). Defendants invoke both constitutional
 15 ripeness and prudential ripeness.

16 **1. Constitutional Ripeness and Standing**

17 Constitutional ripeness and standing, both predicated on Article III of the U.S.
 18 Constitution, are closely related concepts. *See Bova v. City of Medford*, 564 F.3d 1093, 1095–96
 19 (9th Cir. 2009); *see also Poe v. Ullman*, 367 U.S. 497, 503–04 (1961) (noting that “[t]he various
 20 doctrines of ‘standing,’ ‘ripeness,’ and ‘mootness’ . . . are but several manifestations . . . of the
 21 [same] primary conception”). For Article III standing, a plaintiff must show, *inter alia*, that it has
 22 “suffered ‘an invasion of a legally protected interest’ that is ‘concrete and particularized’ and
 23 ‘actual or imminent, not conjectural or hypothetical.’” *Spokeo v. Robins*, 136 S. Ct. 1540, 1548
 24 (2016) (quoting *Lujan v. Defs. of Wildlife*, 504 U.S. 555, 560 (1992)); *see also In re Zappos.com,*
 25 *Inc.*, 888 F.3d 1020, 1024 (9th Cir. 2018) (stating the same). With respect to a “future injury,” a
 26 plaintiff has standing to sue “if the threatened injury is certainly impending, or there is a
 27

1 substantial risk that the harm will occur.” *Susan B. Anthony List v. Driehaus*, 573 U.S. 149, 158
 2 (2014) (internal quotation marks omitted); *see also Zappos.com*, 888 F.3d at 1024 (stating the
 3 same). Indeed, just last year in the census citizenship question case, the Supreme Court reiterated
 4 that, for standing, a future injury “may suffice if the threatened injury is certainly impending, or
 5 there is a substantial risk that the harm will occur.”⁹ *Dep’t of Commerce v. New York*, 139 S. Ct. at
 6 2565 (quoting *Susan B. Anthony List*, 573 U.S. at 158). Similarly,

7 “[a] claim is not ripe for adjudication if it rests upon contingent future events that
 8 may not occur as anticipated, or indeed may not occur at all.” That is so because, if
 9 the contingent events do not occur, the plaintiff likely will not have suffered an
 10 injury that is concrete and particularized enough to establish . . . standing. In this
 11 way, ripeness and standing are intertwined.

12 *Bova*, 564 F.3d at 1096 (quoting *Texas v. United States*, 523 U.S. 296, 300 (1998)); *see also Mont.*
 13 *Envtl. Info. Ctr. v. Stone-Manning*, 766 F.3d 1184, 1189–90 (9th Cir. 2014) (stating that the
 14 standing and ripeness analyses are the same, requiring plaintiffs to show a “substantial risk” that
 15 the harm would occur).

16 According to Defendants, to the extent Plaintiffs invoke an apportionment or census
 17 degradation injury, their claims are not ripe for review and they lack standing to proceed because
 18 (1) the Presidential Memorandum states that “it is the policy of the United States to exclude”
 19 undocumented immigrants from the apportionment base only “to the extent feasible” or “to the

20 ⁹ In *Clapper v. Amnesty International USA*, 568 U.S. 398 (2013), the Supreme Court focused on
 21 whether the future injury was “certainly impending,” but acknowledged that, “[i]n some instances
 22 we have found standing based on a ‘substantial risk’ that the harm will occur.” *Id.* at 414 n.5
 23 (further holding that, “to the extent that the ‘substantial risk’ standard is relevant and is distinct
 24 from the ‘certainly impending’ requirement, respondents fall short of even that standard” in the
 25 case under consideration). Post-*Clapper*, the Supreme Court has continued to apply the disjunctive
 26 test—*i.e.*, was the future injury “certainly impending” *or* was there a “substantial risk” that it
 27 would occur?—including in the census citizenship question case. *See Dep’t of Commerce v. New*
 28 *York*, 139 S. Ct. at 2565. The focus in *Clapper* on the heightened “certainly impending” test was
 informed by the fact that the case required review of “actions of the political branches in the fields
 of intelligence gathering and foreign affairs.” *Clapper*, 568 U.S. at 409. This case involves neither
 intelligence gathering nor foreign affairs.

1 maximum extent feasible,” 85 Fed. Reg. at 44,680, and (2) “the extent to which it will be feasible
2 . . . is, at this point, unknown.” Defs.’ Opp’n at 6; *see also id.* at 7 (arguing that, “[b]ecause it is not
3 known what the Secretary may ultimately transmit to the President, it is necessarily not yet known
4 whether the President will be able to exclude any, some, or all aliens from the apportionment
5 basis”).

6 Defendants fail to negate the substantial risk of cognizable injury. As an initial matter, we
7 note that the government cannot categorically evade judicial review simply by invoking qualifying
8 language such as “to the extent feasible.” In *City & County of San Francisco v. Trump*, 897 F.3d
9 1225 (9th Cir. 2018), the Ninth Circuit addressed a similar issue. There, the court considered
10 whether the Executive Branch could validly withhold all federal grants from so-called “sanctuary”
11 cities and counties. The Ninth Circuit held that the executive order providing for such withholding
12 violated the constitutional principle of separation of powers and, in so holding, rejected several of
13 the government’s arguments on jurisdiction/judiciability, including the government’s contention
14 that the Executive Order was “all bluster and no bite,” equivalent to a “gesture without motion.”
15 *Id.* at 1238. In this regard, the Ninth Circuit acknowledged that the Executive Order included a
16 qualifier, or a savings clause—*i.e.*, that there would be withholding of federal grants only to the
17 extent “consistent with law.” *Id.* at 1239. Even so, the Ninth Circuit held that “[s]aving clauses
18 are read in their context, and they cannot be given effect when the Court, by rescuing the
19 constitutionality of a measure, would override clear and specific language.” *Id.* “Because the
20 Executive Order unambiguously commands action, here there is more than a ‘mere possibility that
21 some agency might make a legally suspect decision.’” *Id.* at 1240. Moreover, the Ninth Circuit
22 pointed out that “the Administration’s interpretation would simply lead us into an intellectual cul-
23 de-sac” because, if the phrase “consistent with law” could “preclude[] a court from examining
24 whether the Executive Order is consistent with law, judicial review is a meaningless exercise.”

1 *Id.*¹⁰

2 Here too, the Presidential Memorandum cannot avoid judicial review through similar
3 savings clause language. Just as the executive order in *City & County of San Francisco* limited
4 itself to be “consistent with law,” the Presidential Memorandum “shall be implemented consistent
5 with applicable law.” 85 Fed. Reg. at 44,680; *see also id.* (“the Secretary shall take all appropriate
6 action, consistent with the Constitution and other applicable law . . .”). That language does not
7 render the Presidential Memorandum unreviewable. Indeed, Defendants do not rely on the
8 “consistent with law” language in the Presidential Memorandum to contest ripeness.

9 Instead, Defendants rely on the language of the Presidential Memorandum which states,
10 “the policy of the United States to exclude from the apportionment base aliens who are not in a
11 lawful immigration status” is limited “*to the maximum extent feasible and consistent with the*
12 *discretion delegated to the executive branch.*” *Id.* (emphasis added); *see also id.* (“to the extent
13 feasible and to the maximum extent of the President’s discretion under the law”). Pursuant to that
14 policy, “the Secretary shall take *all appropriate action*, consistent with the Constitution and other
15 applicable law, to provide information permitting the President, *to the extent practicable*, to
16 exercise the President’s discretion to carry out the policy set forth.” *Id.* (emphasis added). Yet none
17 of this qualifying language “override[s] clear and specific language” that “commands action.” *City*
18 *& County of San Francisco*, 897 F.3d at 1239–40. In fact, the qualifying language is immediately
19 offset by adjacent modifiers: “*all appropriate action*” to “*the maximum extent feasible.*” 85 Fed.

20
21 _____
22 ¹⁰ In so holding, the court distinguished *Building & Construction Trades Department v. Allbaugh*,
23 295 F.3d 28, 33 (D.C. Cir. 2002) (“*Allbaugh*”), in which the D.C. Circuit considered an executive
24 order with a savings clause and held that, “[t]he mere possibility that some agency might make a
25 legally suspect decision to award a contract or to deny funding for a project does not justify an
26 injunction against enforcement of a policy that, so far as the present record reveals, is above
27 suspicion in the ordinary course of administration.” The court in *City & County of San Francisco*
noted, “*Allbaugh* is distinguishable. Because the Executive Order unambiguously commands
action, here there is more than a ‘mere possibility that some agency might make a legally suspect
decision.’” 897 F.3d at 1240 (quoting *Allbaugh*, 295 F.3d at 33).

1 Reg. at 44,680 (emphasis added); *cf. Youngstown Sheet & Tube Co. v. Sawyer*, 343 U.S. 579, 591
 2 (1952) (reviewing Executive Order 10,340, which ordered agencies to “cooperate with the
 3 Secretary of Commerce to the *fullest extent possible*” (emphasis added)). Although *City & County*
 4 *of San Francisco* did not address the qualifier “to the maximum extent feasible,” its broader
 5 message teaches that where a challenged order otherwise has clear commanding language, such
 6 qualifiers cannot function to evade judicial scrutiny.

7 Here, although the Presidential Memorandum purports to qualify the exclusion of
 8 undocumented immigrants from the census in terms of “feasibility,” the determination of the
 9 President to accomplish the memorandum’s explicit and singular goal of excluding undocumented
 10 immigrants from the census count is abundantly clear. *See City & County of San Francisco*, 897
 11 F.3d at 1239–40 (stating that, “[b]ecause the Executive Order [regarding withholding funds from
 12 sanctuary cities and counties] unambiguously commands action, here there is more than a ‘mere
 13 possibility that some agency might make a legally suspect decision’”). The directive of the
 14 Presidential Memorandum here is even clearer than the proposed citizenship question in
 15 *Department of Commerce v. New York* which was facially neutral and did not expressly indicate
 16 how citizenship information would be used.

17 From the day the memorandum first issued, the President made clear his commitment to
 18 the exclusion of undocumented immigrants from the apportionment base. In a public statement
 19 issued on the same day as the memorandum, the President noted: “Last summer in the Rose
 20 Garden, I told the American people that I would not back down in my effort to determine the
 21 citizenship status of the United States population. Today, I am following through on that
 22 commitment by directing the Secretary of Commerce *to exclude illegal aliens from the*
 23 *apportionment base following the 2020 census.*” The White House, *Statement from the President*
 24 *Regarding Apportionment* (July 21, 2020), [https://www.whitehouse.gov/briefings-](https://www.whitehouse.gov/briefings-statements/statement-president-regarding-apportionment/)
 25 [statements/statement-president-regarding-apportionment/](https://www.whitehouse.gov/briefings-statements/statement-president-regarding-apportionment/) (emphasis added).

26 Then, on July 23, 2020, the Presidential Memorandum was published in the Federal
 27

1 Register. Publication in the Federal Register is reserved for only those presidential documents that
2 “hav[e] general applicability and legal effect” against members of the public, not just “Federal
3 agencies or persons in their capacity as officers, agents, or employees thereof.” 44 U.S.C.
4 § 1505(a)(1); *see* Presidential Memorandum, 85 Fed. Reg. 44,679.

5 The Administration’s commitment to a “general[ly] applicable and legally effect[ive]”
6 Presidential Memorandum has continued to the present. 44 U.S.C. § 1505(a)(1). For instance, after
7 the *New York* court issued its decision on September 10, 2020, holding that the Presidential
8 Memorandum violates the statutes governing the census and apportionment, the Administration
9 promptly appealed. In a public statement, the Administration proclaimed that it “intends to
10 vindicate [the President’s] policy determination” that undocumented immigrants should be
11 excluded from the census. The White House, *Statement from the Press Secretary* (Sept. 18, 2020),
12 <https://www.whitehouse.gov/briefings-statements/statement-press-secretary-091820/>.

13 Defendants’ reliance on “to the extent feasible” is especially misplaced here because the
14 evidence shows that it is in fact feasible to exclude undocumented immigrants from the census—at
15 the very least, a subset of that group. Defendants recently submitted a notice of supplemental
16 authority with the Court. *See* Notice of Supp. Authority, ECF No. 90 (Oct. 6, 2020). That authority
17 consists of a brief that the Trump Administration filed with the Supreme Court as part of its appeal
18 of the *New York* court order enjoining enforcement of the Presidential Memorandum. In that brief,
19 the Administration explicitly states:

20 If . . . relief is granted . . . , the [Census] Bureau currently anticipates that, by
21 December 31, it will provide the President with information regarding any
22 “unlawful aliens in ICE Detention Centers” whom the President could, consistent
23 with the discretion delegated to him by law, exclude from the apportionment base,
24 thereby implementing his [Presidential] Memorandum. In addition, the Bureau
25 currently plans to provide the President with “[o]ther [Presidential Memorandum]
26 related outputs” by Monday, January 11, 2021, and would continue to work on a
27 quicker timetable to implement that aspect of the Memorandum sooner if feasible.

28 *Id.* (quoting Supp. Br. at 5). The brief thus makes clear—in no uncertain terms—that exclusion is
feasible. Indeed, at the hearing, the Court pressed defense counsel on feasibility. The Court asked

1 whether “there will be some number [excluded from the census], you just don’t know what [that
2 number] is.” Tr. of Oct. 8, 2020 Hearing at 7. Defense counsel replied: “We expect there to be
3 some number, yes.” *Id.* The Administration clearly assumed that exclusion is feasible, or the
4 Presidential Memorandum would have been a pointless exercise.

5 The breadth of the Collecting Information Executive Order further supports the likelihood
6 that exclusion is feasible. The Collecting Information Executive Order expressly states that, at the
7 time the Secretary of Commerce had decided to include a citizenship question on the census, “the
8 Census Bureau had determined based on experience that administrative records to which it *had*
9 access would enable it to determine citizenship status for approximately *90 percent of the*
10 *population.*” 84 Fed. Reg. at 33,821 (emphasis added). Since the Collecting Information Executive
11 Order was promulgated in July 2019, more than a year ago, Defendants have made progress
12 towards implementing the President’s Memorandum. Defendants have represented that the Census
13 Bureau has entered into memoranda of understanding with agencies and states to obtain
14 administrative records such as driver’s license information. Specifically, at the initial case
15 management conference on August 18, 2020, Defendants stated:

16 DEFENDANTS: So pursuant to that executive order, the Census Bureau has
17 entered into a series of memoranda of understanding with various other executive
18 branch agencies, as well as I believe some states, to obtain administrative records,
19 subject to the census bureau’s strict confidentiality rules, that the census bureau can
20 then use to see if they will allow it—“it” being the Census Bureau—to ascertain the
21 illegal alien population. That process—

22 THE COURT: Sorry to interrupt you. Can you give me some examples of
23 administrative records? I mean, they’re getting them from the state?

24 DEFENDANTS: It might be, for example, driver’s license information from states,
25 I believe. It might be records from the Department of Homeland Security or the
26 Social Security Administration that would—depending on how the records might
27 be matched against the information that the Census Bureau is collecting pursuant to
28 its enumeration process that would allow the Census Bureau potentially to identify
the illegal alien population.

Tr. of Aug. 18, 2020 Case Mgt. Conf. at 32:2–21, ECF No. 60 (Aug. 26, 2020).

1 Faced with the instant motion, Defendants have not offered any evidence that there are any
2 significant impediments to fulfilling the Presidential Memorandum.¹¹ *See also New York*, No. 20-
3 cv-5770 RCW-PWH-JMF (S.D.N.Y.), ECF No. 172 (government’s motion for a stay pending
4 appeal asserting potential irreparable injury, thus indicating that exclusion is feasible).

5 Despite the undisputed risk that at least some undocumented immigrants will be excluded,
6 Defendants argue that Plaintiffs’ asserted apportionment injury is too speculative because, unless a
7 significant number of undocumented immigrants are excluded, a state will not actually suffer the
8 loss of a congressional seat. But Defendants ignore the fact that Plaintiffs need only show a
9 substantial risk of harm, not “absolute certainty.” *In re Navy Chaplaincy*, 697 F.3d 1171, 1178
10 (D.C. Cir. 2012) (holding that “[i]t is sufficient that plaintiffs have demonstrated a ‘likelihood of
11 injury that rises above the level of unadorned speculation’”). Plaintiffs have adequately established
12 a substantial risk of the loss of a congressional seat given (1) Defendants’ access to records that
13 enable them “to determine citizenship status for approximately 90 percent of the population,” 84
14

15 ¹¹ Plaintiffs have established a prima facie case of feasibility. As a result, Defendants have the
16 burden of production to establish otherwise—particularly because Defendants, rather than
17 Plaintiffs, have access to evidence on feasibility. “Fairness and common sense often counsel
18 against requiring a party to prove a negative fact, and favor, instead, placing the burden of coming
19 forward with evidence on the party with superior access to the affirmative information.” *United*
20 *States v. Cortez-Rivera*, 454 F.3d 1038, 1041 (9th Cir. 2006); *see also Int’l Bhd. of Teamsters v.*
21 *United States*, 431 U.S. 324, 359 n.45 (1977) (noting that “[p]resumptions shifting the burden of
22 proof are often created to reflect judicial evaluations of probabilities and to confirm with a party’s
23 superior access to the proof”); *cf. Medina v. Cal.*, 505 U.S. 437, 455 (1992) (O’Connor, J.,
24 concurring) (stating that, “[i]n determining whether the placement of burden of proof is
25 fundamentally unfair, relevant considerations include [*inter alia*] whether the government has
26 superior access to evidence”). Accordingly, courts have placed the burden of production on the
27 party with access to the information. *Cf., e.g., Dubner v. City & Cty. of San Francisco*, 266 F.3d
28 959, 965 (9th Cir. 2001) (shifting burden to the police department to show that officers had
probable cause for an arrest because “the police department . . . is in the better position to gather
information about the arrest”); *Lew v. Moss*, 797 F.2d 747, 751 (9th Cir. 1986) (concluding that
defendant had the burden of production to show his new residence in Hong Kong). Defendants
have produced no such evidence here.

1 Fed. Reg. at 33,821; (2) the President’s clear intent to have “maximum” exclusion such that two or
 2 three congressional seats could be reallocated, *see also* 85 Fed. Reg. at 44,680 (pointing out that
 3 one state—*i.e.*, California—“is home to more than 2.2 million illegal aliens” and “[i]ncluding
 4 these aliens in the population of the State for the purpose of apportionment could result in the
 5 allocation of two or three more congressional seats than would otherwise be allocated”); (3) the
 6 Gilgenbach declaration which demonstrates the likely loss of Congressional seats; and (4) the lack
 7 of any evidence of any significant barriers to the Secretary’s ability to carry out the Presidential
 8 Memorandum which directs that all undocumented immigrants—without exception—be excluded.
 9 There is no evidence that a substantial portion of undocumented immigrants will be exempted
 10 from the implementation of the Presidential Memorandum.

11 Furthermore, exclusion of undocumented immigrants from the census has an impact on
 12 more than the loss of a congressional seat. As noted above, Plaintiffs have also claimed a census
 13 degradation injury because census data informs redistricting at the state and local level and
 14 impacts federal funding received by state and local governments. Defendants do not dispute that
 15 the loss of such funding constitutes injury cognizable under Article III. Indeed, in *Department of*
 16 *Commerce v. New York*, the Supreme Court recognized that “[t]he population count derived from
 17 the census is used not only to apportion representatives but also to allocate federal funds to the
 18 States and to draw electoral districts.” 139 S. Ct. at 2561; *see also* Reamer Decl. ¶ 16 & Ex. 2 at
 19 6–8, ECF No. 86-1 (describing 18 large federal financial assistance programs that rely at least in
 20 part on census data); Amicus Br. of the League of Women Voters at 17–21, ECF No. 79
 21 (describing how census data affects funding for Medicaid and other health programs, Community
 22 Development Block Grants, and Title I Grants to Local Educational Agencies). The Supreme
 23 Court thus found that a sufficient likelihood of an undercount which would lead to “many of
 24 respondents’ asserted injuries, including loss of federal funds that are distributed on the basis of
 25 state population,” was sufficient to confer Article III standing. 139 S. Ct. at 2565.

26 As for the impact of the census count on the states’ ability to draw electoral districts, as the
 27

1 *New York* court found, states “have long relied on federal decennial census data for countless
 2 sovereign purposes,” including redistricting. *New York*, 2020 WL 5422959, at *17.¹² For example,
 3 the Rhode Island Constitution mandates using census data to establish the House and Senate
 4 districts. *New York*, 2020 WL 5422959, at *17. Texas relies on census data to redistrict. Tex.
 5 Const. art. III, §§ 25, 26, & 28; *see also* Tex. Gov’t Code § 2058.002 (Legislature or Legislative
 6 Redistricting Board may act on a federal decennial census before September 1 of the year after the
 7 calendar year during which the census was taken). In California, census data is used to draw state
 8 and local legislative lines. *See* Cal. Elec. Code §§ 21500 (census used for supervisorial districts in
 9 each county), 21601 (census used in drawing city council districts); *see also* Census-Promotions-
 10 Voters & Voting, Stats. 2018 ch. 652, § 1(a)(1)–(3), 2018 Cal. Legis. Serv. Ch. 652 (A.B. 2592)
 11 (State Legislature finding that “[t]he federal decennial census is important because census figures
 12 affect congressional representation, state redistricting, federal formula grant allocations, state
 13 funding to local governments, local programs, and planning activities for the next 10 years”). As
 14 local examples, Section 204(a) of the Los Angeles City Charter requires that City Council Districts
 15 be drawn with equal populations based on the federal census. *See* Westall Decl. ¶ 17, *State of*
 16 *California v. Trump*, No. 20-CV-05169, ECF No. 62-1. The Los Angeles Unified School District
 17 will likewise redraw its Board District lines using the 2020 Census. *See* Crain Decl. ¶ 17, *State of*
 18 *California v. Trump*, No. 20-CV-05169, ECF No. 62-7.

19 At the hearing, Defendants effectively conceded that these harms from census degradation
 20 can arise without the same magnitude of exclusion necessary for a loss of a congressional seat. *See*
 21 Tr. of Oct. 8 Hearing at 8–9 (defense counsel agreeing that, even if exclusion of undocumented
 22 immigrants was not of such a magnitude that there was no impact on apportionment of
 23 congressional seats, a local government entity could still suffer harm from such exclusion— *e.g.*,

24
 25 ¹² States may potentially use other data to draw districts. *Cf. Evenwel v. Abbott*, 136 S. Ct. 1120
 26 (2016) (discussing census population data and American Community Survey citizen-voting-age-
 27 population data); *Burns v. Richardson*, 384 U.S. 73 (1966) (redistricting by registered voter
 population base).

1 loss of federal funding). Thus, there is a substantial risk that a sizeable enough exclusion of
 2 undocumented immigrants from the census in a state such as California—which has, according to
 3 the Presidential Memorandum, 2.2 million “illegal aliens”—will affect federal funding received by
 4 one or more of the government entity plaintiffs in these cases. *Cf. Czyzewski v. Jevic Holding*
 5 *Corp.*, 137 S. Ct. 973, 983 (2017) (stating that, “[f]or standing purposes, a loss of even a small
 6 amount of money is ordinarily an ‘injury’”); *Carpenters Indus. Council v. Zinke*, 854 F.3d 1, 5
 7 (D.C. Cir. 2017) (stating that “[e]conomic harm to a business clearly constitutes an injury-in-
 8 fact[,] [a]nd the amount is irrelevant[;] [a] dollar of economic harm is still an injury-in-fact for
 9 standing purposes”).

10 Accordingly, we hold that there is a substantial risk that Plaintiffs will suffer the
 11 apportionment and census degradation injuries, *Susan B. Anthony*, 573 U.S. at 158, and therefore
 12 (1) Plaintiffs have standing and (2) Plaintiffs’ claims are ripe for review. With regard to standing,
 13 we note that Defendants did not challenge traceability or redressability for either the
 14 apportionment or census degradation injury. *See Lujan*, 504 U.S. at 560–61 (listing elements of
 15 standing: injury in fact, redressability, and traceability). In any event, we find that traceability and
 16 redressability are clearly established in the instant case. For example, the Presidential
 17 Memorandum explicitly references a loss of congressional seats for California if undocumented
 18 immigrants are excluded from the apportionment case. Traceability and redressability are also
 19 established given the failure of Defendants to contest the Plaintiffs’ declarations on both the
 20 apportionment and census degradation injuries.

21 2. Prudential Ripeness

22 Implicitly acknowledging deficiencies in their position, Defendants pressed a prudential
 23 ripeness argument at the hearing. *See Abbott Labs. v. Gardner*, 387 U.S. 136, 148 (1967) (stating
 24 that ripeness “is best seen in a twofold aspect, requiring us to evaluate both the fitness of the issues
 25 for judicial decision and the hardship to the parties of withholding court consideration”); *In re*
 26 *Coleman*, 560 F.3d 1000, 1006 (9th Cir. 2009) (stating that this two-part test is used to determine
 27

1 the prudential component of ripeness in the administrative context). Most notably, Defendants
2 asserted that we should not consider Plaintiffs’ lawsuit now because apportionment challenges are
3 typically considered *after* the apportionment has been completed. *See* Defs.’ Opp’n at 8 (arguing
4 that “census and apportionment cases generally are decided post-apportionment, when census
5 enumeration procedures are no longer at issue and the actual apportionment figures are known”);
6 *see also* Tr. at 11 (arguing that Plaintiffs’ pre-apportionment case is “*Department of Commerce v.*
7 *House of Representatives*, [525 U.S. 316 (1999),] but that was not about the apportionment, that
8 was about sampling, which was part of the actual enumeration procedures” and thus had to be
9 decided before the census was conducted).

10 Defendants’ argument, however, is unpersuasive. The majority of cases cited by
11 Defendants were brought post-apportionment because it was not clear which state would be
12 harmed until after the census was completed and the apportionment was determined.

13 For example, in *Department of Commerce v. Montana*, it was not clear that Montana would
14 be harmed until after the 1990 apportionment. 503 U.S. 442 (1992). The 1990 census “revealed
15 that the population of certain States . . . had increased more rapidly than the national average.” *Id.*
16 at 445. Accordingly, “application of the method of equal proportions to the 1990 census caused 8
17 States to gain . . . additional seats in the House of Representatives and 13 States to lose an equal
18 number.” *Id.* Until this process was completed, it was not clear that Montana would lose a seat.

19 Similarly, in *Franklin v. Massachusetts*, Massachusetts was not clearly going to lose a seat
20 until after apportionment was completed. 505 U.S. at 790. “[A]s a result of the 1990 census and
21 reapportionment, Massachusetts [had] lost a seat in the House of Representatives.” *Id.* In response
22 to that loss, Massachusetts and two of its registered voters “challeng[ed], among other things, the
23 method used for counting federal employees serving overseas.” *Id.* That method of counting
24 included the government’s “allocation of 922,819 overseas military personnel to the State
25 designated in their personnel files as their ‘home of record’”—an allocation which “altered the
26 relative state populations enough to shift a Representative from Massachusetts to Washington.” *Id.*

1 at 791.

2 In *Utah v. Evans*, Utah’s injury was not clear until after apportionment. 536 U.S. 452, 458
3 (2002). Utah lost one representative after “three forms of imputation [used by the Census Bureau
4 to fill in gaps in information and resolve conflicts in data] increased the final year 2000 [census]
5 count by about 1.2 million people,” but because this was “spread unevenly across the country, it
6 [made] a difference” in apportionment. *Id.* at 458. Specifically, “imputation increased North
7 Carolina’s population by 0.4% while increasing Utah’s population by only 0.2%,” which meant
8 that North Carolina received one more Representative and Utah one less. *Id.*¹³

9 The instant case presents a far different situation. Here, it is clear who would be harmed by
10 the exclusion of undocumented immigrants. The Presidential Memorandum contemplates that
11 California will lose congressional seats. *See* 85 Fed. Reg. at 44,680. It states that “[c]urrent
12 estimates suggest that one State is home to more than 2.2 million illegal aliens, constituting more
13 than 6 percent of the State’s entire population.” *Id.* Accordingly, “[i]ncluding these illegal aliens in
14 the population of the State for the purpose of apportionment could result in the allocation of two or
15 three more congressional seats than would otherwise be allocated.” Defendants have conceded that
16 the state with 2.2 million illegal aliens described in the Presidential Memorandum is in fact
17 California. *See* Tr. of Oct. 14, 2020 oral argument at 24: 6-10, *Useche v. Trump*, No. C-20-2225
18 PX-PAH-ELH (D. Md.). In addition, Professor Gilgenbach testifies in her uncontested declaration
19 that “removing undocumented immigrants from the population for the purposes of congressional
20 redistricting is highly likely to cause California and Texas to each lose a congressional seat.”
21 “Other states, including New Jersey, may also lose a congressional seat.” Gilgenbach Decl. ¶ 5.

22
23 ¹³ Defendants also cite *Wisconsin v. City of New York*, 517 U.S. 1, 10–11 (1996), for the
24 proposition that courts should review census litigation after apportionment. *Wisconsin*, however,
25 was actually brought pre-apportionment. The Supreme Court heard the case post-apportionment
26 only because the *Wisconsin* “parties [had] entered into an interim stipulation providing . . . that the
27 Secretary would reconsider the possibility of a statistical adjustment.” *Wisconsin*, 517 U.S. at 10.
In July 1991, after the census was completed, the Secretary issued his decision to not adjust, so
“[t]he plaintiffs returned to court.” *Id.* at 12.

1 Moreover, none of Defendants’ cases holds that apportionment claims must always be
2 decided post-apportionment. In *Utah v. Evans*, the Supreme Court implicitly recognized that a pre-
3 apportionment resolution may be necessary in certain circumstances. 536 U.S. at 462–63. The
4 Supreme Court recognized that post-apportionment challenges could only be brought in certain
5 circumstances, such as “if a lawsuit is brought soon enough after completion of the census and
6 heard quickly enough.” *Id.* at 463. The Supreme Court concluded that a post-apportionment
7 resolution was possible in that case only because of its specific facts, including the fact that “the
8 relevant calculations and consequent apportionment-related steps would be purely mechanical,”
9 and “several months would remain prior to the first post . . . census congressional election.” *Id.*

10 Ultimately, a prudential ripeness analysis weighs in Plaintiffs’—not Defendants’—favor.
11 The issues raised in Plaintiffs’ claims are particularly fit for judicial decision because they are
12 purely legal in nature. *See Ohio Forestry Ass’n v. Sierra Club*, 523 U.S. 726, 733 (1998) (noting
13 that, “[i]n deciding whether an agency’s decision is, or is not, ripe for judicial review, the Court
14 has” considered, *inter alia*, “whether the courts would benefit from further factual development of
15 the issues presented”). Defendants dispute ripeness. They argue that “the legal analysis may differ
16 based on what subsets of illegal aliens are, in fact, excluded because the Secretary has deemed it
17 feasible, and the President has determined that it is practicable and within his discretion.” Defs.’
18 Sur-Reply at 4. However, (1) the Presidential Memorandum does not expressly refer to exclusion
19 of only subsets of undocumented immigrants—in fact, it contemplates exclusion “to the maximum
20 extent feasible” and contains no exceptions and no carve outs, and (2) Defendants have not
21 explained how excluding only subsets of undocumented immigrants would make a difference in
22 the legal analysis. As demonstrated below, the fundamental questions presented by Plaintiffs’
23 constitutional and statutory claims are pure legal questions of constitutional and statutory
24 construction. *See New York*, 2020 WL 5422959, at *24 (in discussing prudential ripeness, stating
25 that, “although the standing-related question of whether or to what extent Plaintiffs would suffer
26 apportionment-related harms would benefit from further factual development, the gravamen of
27

1 Plaintiffs’ claims—that the President lacks the authority to exclude illegal aliens from the
2 apportionment base—presents an issue that is purely legal, and will not be clarified by further
3 factual development”).

4 Defendants contend still that there is an interest in delaying judicial review because
5 “judicial review would improperly interfere with the Census Bureau’s ongoing efforts to determine
6 how to respond to the Presidential Memorandum, which are currently in progress, and could
7 impede the apportionment, which has not yet occurred.” Defs.’ Opp’n at 7. But this argument is
8 unavailing for at least two reasons. First, far from impeding the apportionment, judicial review
9 here aims to achieve a constitutionally and legally correct apportionment. Second, although
10 Defendants claim that judicial review would interfere with Census Bureau efforts to respond to the
11 Presidential Memorandum, this case does not affect the actual conduct of the census. *Cf. New*
12 *York*, 2020 WL 5422959, at *24 (“[o]n its face, the Presidential Memorandum does not purport to
13 regulate the actual conduct of the census”). As demonstrated by the order in *New York*, relief can
14 be tailored such that judicial review of the Presidential Memorandum would not bar Defendants
15 from continuing to count the number of undocumented immigrants. *See id.* at *35 (noting that
16 court’s injunction would not bar “Defendants from continuing to study whether and how it would
17 be feasible to calculate the number of illegal aliens in each State”); *see also New York v. Trump*,
18 No. 20-CV-5770 (RCW) (PWH) (JMF), 2020 WL 5796815, at *5 n.8 (S.D.N.Y. Sept. 29, 2020)
19 (three-judge court) (per curiam) (denying stay pending appeal and indicating that the Secretary of
20 Commerce and the Census Bureau could continue to count the number of undocumented
21 immigrants even with the court’s injunction).

22 Because the issues in the instant case are fit for judicial decision, we need not consider, as
23 part of our prudential analysis, what hardship Plaintiffs would suffer if our consideration were
24 withheld. *Abbott Labs.*, 387 U.S. at 148 (stating that ripeness “is best seen in a twofold aspect,
25 requiring us to evaluate both the fitness of the issues for judicial decision and the hardship to the
26 parties of withholding court consideration”). In *Oklevueha Native American Church of Hawaii*,

1 *Inc. v. Holder*, 676 F.3d 829 (9th Cir. 2012), the Ninth Circuit explained that it did not need to
2 reach the question of whether there was hardship to the parties if review was delayed because
3 Plaintiffs’ claims were fit for review:

4 As Plaintiffs’ claims are fit for review now, we do not reach the second factor of the
5 prudential ripeness inquiry—hardship to the parties in delaying review. Hardship
6 serves as a counterbalance to any interest the judiciary has in delaying
7 consideration of a case. *See Colwell*, 558 F.3d at 1129 (“[T]his hardship is
8 insufficient to overcome the uncertainty of the legal issue presented in the case in
9 its current posture.”); *Municipality of Anchorage v. United States*, 980 F.2d 1320,
10 1326 (9th Cir. 1992) (“[M]ere potential for future injury does not overcome the
11 interest of the judiciary in delaying review.” (internal quotation marks omitted)).
12 Because we can identify no interest in delaying review of Plaintiffs’ claims, the
13 hardship that would be imposed by any delay is not relevant.

14 *Id.* at 838–39; *see also Skyline Wesleyan Church v. Cal. Dep’t of Managed Health Care*, 959 F.3d
15 341, 355–56 (9th Cir. 2020) (stating that, “[b]ecause Skyline’s federal free exercise claim is fit for
16 review now, we need not and do not reach the second prong of the prudential ripeness inquiry”;
17 citing *Oklevueha* in support), *amended by* 968 F.3d 738 (9th Cir. July 21, 2020). Because the legal
18 issues here are fit for review, delaying judicial review will not enhance the quality of the
19 adjudication of this case.

20 Even if we were to consider hardship, Plaintiffs have sufficiently established such.
21 Delaying judicial review until after the Secretary presents numbers to the President impacts the
22 states’ ability to do redistricting for upcoming elections in 2021 and 2022—which affects not only
23 the states themselves but also local governments and individuals who reside in the states
24 (including Plaintiffs). States must engage in redistricting even if apportionment has no impact on
25 their number of Congressional seats. States usually receive data by the end of March to use in their
26 redistricting cycles, *see Nat’l Urban League v. Ross*, No. 20-CV-05799-LHK, 2020 WL 5739144,
27 at *2 (N.D. Cal. Sept. 24, 2020) (noting that “the Secretary of Commerce issues two reports
28 pursuant to the Census Act: (1) ‘the tabulation of total population by States’ for congressional
29 apportionment to the President by December 31, 2020, *see* 13 U.S.C. § 141(b); and (2) a

1 tabulation of population for redistricting to the states by April 1, 2021, *see id.* § 141(c)”), and
 2 some states are required to approve their redistricting plans just a few months later. *See* Pls.’ Reply
 3 at 13 (citing as an example that the Texas legislature must approve the State redistricting plan by
 4 May 31, 2021); *see also* How Changes to the 2020 Census Timeline Will Impact Redistricting
 5 (Brennan Center for Justice), [https://www.brennancenter.org/sites/default/files/2020-](https://www.brennancenter.org/sites/default/files/2020-05/2020_04_RedistrictingMemo.pdf)
 6 [05/2020_04_RedistrictingMemo.pdf](https://www.brennancenter.org/sites/default/files/2020-05/2020_04_RedistrictingMemo.pdf) (identifying the following states as having redistricting
 7 deadlines in May-July 2021: Alabama, Delaware, Illinois, Minnesota, Nevada, New Hampshire,
 8 Oklahoma, Oregon, and Texas). If we were to delay judicial review until January 2021, and, after
 9 our resolution, the case were appealed to the Supreme Court—a likely scenario, whichever side
 10 were to prevail—there is a significant risk that more than one state would not be able to meet their
 11 redistricting deadlines.

12 Indeed, the government has represented to the United States Supreme Court that a delay in
 13 redistricting could make it impossible to meet statutory and constitutional deadlines. In the
 14 government’s view, those deadlines justified the Supreme Court’s stay of the *National Urban*
 15 *League* injunction:

16 [For example,] Louisiana and Mississippi have identified 24 state deadlines that the
 17 injunction puts at risk. Indeed, in a number of States, “the delays would mean
 18 deadlines that are established in state constitutions or statutes *will be impossible to*
meet.” D. Ct. Doc. 204-7, at 3-4 (Sept. 23, 2020) (emphasis added).

19 *Ross v. National Urban League*, No. 20A62, ECF No. 98-3, at 11 (government’s reply brief, filed
 20 in support of application for stay pending appeal in *Ross v. National Urban League*, No. 20A62).

21 Thus, time is of the essence.

22 We therefore find that the Plaintiffs have satisfied the requirements for standing,
 23 constitutional ripeness, and prudential ripeness. Accordingly, the time for review is now.

24 **IV. MERITS**

25 Most of the arguments made by the parties regarding the merits have focused, pro and con,
 26 on contentions that, under the Constitution, apportionment must be based on all persons residing
 27

1 in each state, including undocumented immigrants. Nonetheless, we recognize that courts have
 2 long been admonished not to “pass upon a constitutional question although properly presented by
 3 the record, if there is also present some other ground upon which the case may be disposed of.”
 4 *Ashwander v. TVA*, 297 U.S. 288, 347 (1936) (Brandeis, J., concurring); *Slack v. McDaniel*, 529
 5 U.S. 473, 485 (2000). That doctrine of constitutional avoidance led the New York court that
 6 considered a similar challenge to base its decision that the Presidential Memorandum was
 7 unlawful solely on statutory grounds. *See New York*, 2020 WL 5422959, at *25–32. Their decision
 8 did not discuss the constitutional arguments.

9 We have elected a different approach to discussing the issues because, in our view, it is
 10 easier to appreciate the relevant statutes with an understanding of the historical context in which
 11 they were drafted and enacted. The statutes were adopted with the expectation that the population
 12 count to be used for purposes of allocating seats in the House of Representatives would include all
 13 inhabitants of the states, including those aliens who did not have lawful status. Indeed, as
 14 demonstrated by the statutory history discussed below in Section IV-A-3-b, the prevailing
 15 understanding in Congress was that it would be unconstitutional to exclude noncitizens, including
 16 undocumented immigrants, from the apportionment base. Even members of Congress who
 17 expressed a preference, as a matter of policy, to exclude aliens from the count acknowledged that
 18 was not possible under the Constitution and thus was not the intent of the legislation that was
 19 enacted. That was true at the time the Reapportionment Act was enacted in 1929, when the
 20 relevant portions of the Census Act were subsequently adopted in 1954, and whenever the issue
 21 was raised in Congress thereafter. Because that constitutional context is valuable to inform the
 22 understanding of the statutes, we discuss it in much greater detail than the *New York* court order,
 23 and we begin our discussion of the merits with constitutional issues.

24 In addition, we address the constitutional issues because time is of the essence. The
 25 Secretary’s report under Section 141(b) must be delivered to the President on December 31, 2020.
 26 *See* 13 U.S.C. § 141(b); Decl. of Albert E. Fontenot, Jr., ECF No. 84-2 at 1. The Presidential
 27

1 Memorandum will also be reviewed on November 30, 2020 by the Supreme Court. *See* U.S.
 2 Supreme Court, Miscellaneous Order (Oct. 16, 2020). In their jurisdictional briefs in the Supreme
 3 Court, the parties in the *New York* case briefed not only the statutory issues on which the *New York*
 4 court relied, but also the constitutional issues. *See* Mot. to Dismiss or Affirm, *Trump v. New York*,
 5 No. 20-366, at 13–20; Motion to Affirm for Government Appellees, *Trump v. New York*, No. 20-
 6 366, at 26–28; Reply, *Trump v. New York*, No. 20-366, at 8–11. Accordingly, we reach the
 7 constitutional issues prior to the Supreme Court’s consideration of the *New York* case in the event
 8 that it would be helpful for a lower court to consider these issues. Though we reach the
 9 constitutional claims, the statutory basis is sufficient to support our conclusion. Under the doctrine
 10 of constitutional avoidance, we rely separately and primarily upon it.

11 Accordingly, we discuss the merits as follows. First, we conclude that the Presidential
 12 Memorandum is unconstitutional. Next, we hold that the Presidential Memorandum violates the
 13 Census and Reapportionment Acts. Finally, we explain why declaratory and injunctive relief
 14 should issue against the Defendants.

15 **A. The Presidential Memorandum is unconstitutional.**

16 The Constitution’s text, drafting history, 230 years of historical practice, and Supreme
 17 Court case law all support the conclusion that apportionment must be based on all persons residing
 18 in each state, including undocumented immigrants. Below, we address how the Presidential
 19 Memorandum conflicts with each in turn. We then reject Defendants’ contrary arguments, which
 20 lack merit.

21 **1. The Constitution’s text establishes that apportionment shall be based on all**
 22 **persons residing in a state, including undocumented immigrants.**

23 In analyzing Plaintiffs’ constitutional argument, “[w]e start with the text.” *Gamble v.*
 24 *United States*, 139 S. Ct. 1960, 1965 (2019). The Constitution’s text demonstrates that
 25 apportionment must be based on the number of all persons residing in a state, including
 26 undocumented immigrants. After analyzing the constitutional text, we discuss the original public
 27 meaning of that text.

1 **a. The constitutional text itself demonstrates that the count must include**
2 **undocumented immigrants residing in each state.**

3 “When seeking to discern the meaning of a word in the Constitution, there is no better
4 dictionary than the rest of the Constitution itself.” *Ariz. State Legislature v. Ariz. Indep.*
5 *Redistricting Comm’n*, 135 S. Ct. 2652, 2680 (2015) (Roberts, C.J., dissenting for four justices);
6 *accord Chiafalo v. Washington*, 140 S. Ct. 2316, 2331 (2020) (Thomas, J., concurring in the
7 judgment) (quoting same).

8 We presume that differences in terminology reflect differences in meaning. *See Martin v.*
9 *Hunter’s Lessee*, 14 U.S. 304, 334 (1816) (concluding that a “difference of phraseology” can
10 reflect a “difference of constitutional intention”); *see also Henson v. Santander Consumer USA*
11 *Inc.*, 137 S. Ct. 1718, 1723 (2017) (“[W]e presume differences in language like this convey
12 differences in meaning.”).

13 Conversely, we presume that the same terminology conveys the same meaning. *See United*
14 *States v. Verdugo-Urquidez*, 494 U.S. 259, 265 (1990) (reasoning that “the people” is “a term of art
15 employed in select parts of the Constitution” and has the same meaning in each part of the
16 Constitution); *see also Ariz. Indep. Redistricting Comm’n*, 135 S. Ct. at 2680 (Roberts, C.J.,
17 dissenting for four justices) (“The unambiguous meaning of ‘the Legislature’ in the Elections
18 Clause . . . is confirmed by other provisions of the Constitution that use the same term in the same
19 way.”).

20 In addition, we presume that “expressing one item of a commonly associated group or
21 series excludes another left unmentioned.” *United States v. Vonn*, 535 U.S. 55, 65 (2002); *see FAIR*
22 *v. Klutznick*, 486 F. Supp. 564, 576 (D.D.C. 1980) (three-judge court) (using this principle to
23 analyze Article I, Section 2).

24 Article I, Section 2 establishes that the apportionment base would include all “persons,”
25 except for specific subsets of “persons”:

26 Representatives and direct Taxes shall be apportioned among the several States
27 which may be included within this Union, according to their respective Numbers,
28 which shall be determined by adding to the whole Number of free Persons,

including those bound to Service for a Term of Years, and excluding Indians not taxed, three fifths of all other Persons.

Art. I, § 2, cl. 3. Importantly, the text bases apportionment on the “number of . . . Persons,” not the number of “citizens.”

Article I, Section 2 also references specific subsets of “persons,” including free persons, indentured servants (“those bound to Service for a Term of Years”), “Indians not taxed”, and enslaved people (“all other Persons”). The distinct terminology used to describe “persons” as opposed to subsets of persons demonstrates that the term “persons” refers to all persons, not a subset of persons.

Furthermore, Article I, Section 2 excluded one subset of persons from the apportionment: “Indians not taxed.” The exclusion of “Indians not taxed” demonstrates that the term “persons” would be all-inclusive unless an express exception was provided. The absence of an exception for noncitizens demonstrates their inclusion.

Although the Fourteenth Amendment eliminated the provisions for indentured servants and slaves, it retained the settled understanding that “persons in each state” meant all persons residing in each state:

Representatives shall be apportioned among the several states according to their respective numbers, counting the whole number of persons in each state, excluding Indians not taxed. But when the right to vote at any election . . . is denied to any of the male inhabitants of such state, being twenty-one years of age, and citizens of the United States, or in any way abridged, except for participation in rebellion, or other crime, the basis of representation therein shall be reduced in the proportion which the number of such male citizens shall bear to the whole number of male citizens twenty-one years of age in such state.

U.S. Const. amend. XIV, § 2.

We note two significant aspects of the Fourteenth Amendment’s text. First, like Article I, Section 2, the Fourteenth Amendment used the term “persons” instead of the more limited term “citizens.” This textual variation demonstrates that the term “persons” in the Fourteenth Amendment refers to all persons, not certain subsets of persons such as “citizens.”

1 Second, the Fourteenth Amendment expressly excludes “Indians not taxed” from the
2 apportionment base. In contrast to the exclusion of Indians, the lack of an exclusion for
3 noncitizens means that they must be included within the apportionment base. *See Vonn*, 535 U.S.
4 at 65 (“[E]xpressing one item of a commonly associated group or series excludes another left
5 unmentioned.”); *FAIR*, 486 F. Supp. at 576 (using this principle to analyze Article I, Section 2).

6 We agree with the three-judge court of the D.C. District Court, which concluded that the
7 Constitution unambiguously requires the counting of undocumented immigrants:

8 The language of the Constitution is not ambiguous. It requires the counting of the
9 “whole number of persons” for apportionment purposes, and while illegal aliens
10 were not a component of the population at the time the Constitution was adopted,
11 they are clearly “persons.” By making express provision for Indians and slaves, the
12 Framers demonstrated their awareness that without such provisions, the language
13 chosen would be all-inclusive.

14 *FAIR*, 486 F. Supp. at 576.

15 In sum, the Constitution used the term “persons,” not the narrower term “citizens,” to
16 describe those who were to be included in the apportionment base. When the Founders chose to
17 exclude specific subsets of persons, such as Indians not taxed, they did so. Aliens, documented or
18 not, were not so excluded. Hence, the plain text of the Constitution includes undocumented
19 immigrants.

20 **b. The original public meaning of the term “persons in each state” includes
21 all persons residing within a state.**

22 Since the Founding, the term “persons in each state” has been unambiguously understood
23 to include all persons residing in each state, regardless of their immigration status. U.S. Const.
24 amend. XIV, § 2.

25 “The Constitution was written to be understood by the voters; its words and phrases were
26 used in their normal and ordinary as distinguished from technical meaning.” *Dist. of Columbia v.*
27 *Heller*, 554 U.S. 570, 576 (2008) (quoting *United States v. Sprague*, 282 U.S. 716, 731 (1931)); *cf.*
28 *Bostock v. Clayton Cty.*, 140 S. Ct. 1731, 1738 (2020) (“This Court normally interprets a statute in
accord with the ordinary public meaning of its terms at the time of its enactment.”). When

1 ordinary public meaning is clear, “there is no room for construction and no excuse for
2 interpolation or addition.” *Sprague*, 282 U.S. at 731.

3 At the time of the Founding, the phrase “persons in each state” included all persons
4 residing in each state, irrespective of their citizenship status. When the Constitution was drafted, a
5 dictionary defined “person” as an “[i]ndividual or particular man or woman”; “man or woman
6 considered as opposed to things”; “human being”; or “[a] general loose term for a human being.”
7 *Person*, Samuel Johnson, *A Dictionary of the English Language* (3d. ed. 1766). At the time of the
8 drafting of the Fourteenth Amendment, “person” was similarly defined as “[a] living human being;
9 a man, woman, or child.” *Person*, Noah Webster, *An American Dictionary of the English*
10 *Language* (1868).

11 The “normal and ordinary” meaning of the term “persons” clearly includes noncitizens,
12 including undocumented immigrants. *See Plyler v. Doe*, 457 U.S. 202, 210 (1982) (“Whatever his
13 status under the immigration laws, an alien is surely a ‘person’ in any ordinary sense of that
14 term”); *New York*, 2020 WL 5422959, at *29 (S.D.N.Y. 2020) (three-judge court) (“The ordinary
15 meaning of the word ‘person’ is ‘human’ or ‘individual’ and surely includes citizens and non-
16 citizens alike.”). Defendants themselves concede that the ordinary meaning of “person” includes
17 undocumented immigrants. Defs.’ Opp’n at 31.

18 Legal sources from the Founding support the conclusion that the term “persons” includes
19 noncitizens. The volume of William Blackstone’s *Commentaries on the Laws of England* that
20 covered “The Rights of Persons” included a chapter on rights of “People, Whether Aliens,
21 Denizens, or Natives”; this chapter presents “aliens” as a subset of “persons.” 1 Blackstone
22 *Commentaries on the Laws of England*, ch. 10 (1765). Similarly, the volume of Chancellor Kent’s
23 *Commentaries on American Law* that covered “The Law Concerning the Rights of Persons”
24 included a chapter on the rights of “Aliens and Natives.” 2 *Kent Commentaries on American Law*
25 33–63 (1826). That volume defined an alien as a “person born out of the jurisdiction of the United
26 States.” *Id.* In conclusion, since the Founding, the ordinary public meaning of “persons in each
27

1 state” has included undocumented persons residing in each state.

2 Recognizing this conclusion, Defendants concede that undocumented persons are
3 “persons.” *See* Defs. Opp’n at 31. However, Defendants contend that undocumented persons need
4 not be included in the census because they are not “inhabitants.” The term “inhabitants” appears in
5 a previous draft of Article I, Section 2. *See* Section IV-A-2, *infra*. Taking note of this previous draft,
6 the Supreme Court used the term in its decision in *Franklin v. Massachusetts*, which explained that
7 “usual residence” “was the gloss given the constitutional phrase ‘in each State.’” 505 U.S. 788,
8 804–05 (1992). However, the term “inhabitants” does not appear in the text of the Constitution. *See*
9 U.S. Const. amend. XIV, § 2 (counting “persons in each state”); *see also* U.S. Const. art. I, § 2, cl. 3
10 (counting the “whole number of free Persons”).

11 Even if we were to accept Defendants’ invitation to use the term “inhabitants,”
12 undocumented persons residing in the United States are “inhabitants” of the United States. In
13 *Franklin*, the Supreme Court explained that “usual residence” “has been used broadly enough to
14 include some element of allegiance or enduring tie to a place.” *Id.* at 804. The Supreme Court
15 acknowledged, however, that “[u]p to the present day, ‘usual residence’ has continued to hold broad
16 connotations.” *Franklin*, 505 U.S. at 805–06 (explaining that the term “usual resident”
17 encompasses a wide range of persons, including persons who are temporarily absent from a state
18 because they are attending an out-of-state college or temporarily living abroad). The Census
19 Bureau’s Residence Rule has also taken a broad view of “usual residents.” *See, e.g.*, Residence
20 Rule, 83 Fed. Reg. at 5533 (counting persons based on their “usual residence, which is the place
21 where they live and sleep most of the time”).

22 Undocumented immigrants who regularly reside in each state are “inhabitants” with their
23 “usual residence” in their state of residence. Undocumented immigrants residing in each state have
24 the requisite “enduring tie to a place” to make them usual residents under *Franklin*, since they live
25 and sleep most of the time in that state. *See Franklin*, 505 U.S. at 805. “A clear majority of
26 undocumented immigrants have lived in the United States for over five years and have families,
27

1 hold jobs, own houses, and are part of their community.” Barreto Decl. ¶ 18, ECF No. 63-3. One
 2 survey of Latino undocumented immigrants found that 89 percent have lived in the United States
 3 for at least five years, 74 percent have children living with them, 85 percent have a family member
 4 who is a United States citizen, and 87 percent said they hoped to one day become United States
 5 citizens if legislation provided that opportunity. *Id.*; *see also* Tr. of Oct. 8, 2020 hearing at 23:8–
 6 24:8 (government conceding that the question of whether recipients of Deferred Action for
 7 Childhood Arrivals (DACA) have “enduring ties” within the meaning of *Franklin v.*
 8 *Massachusetts*, 505 U.S. 788 (1992), is “a difficult question”).

9 In arguing that undocumented immigrants do not have their “usual residence” in the state
 10 where they live most of the time, Defendants emphasize the fact that undocumented immigrants
 11 can be removed from the country at any time. However, the term “usual residence” refers to an
 12 individual’s usual residence on “Census Day,” without regard to where that individual might move
 13 afterwards. *See* Section IV-B-1-b, *infra* (explaining that undocumented persons are inhabitants
 14 despite the fact that they could be removed at any time). Thus, even if we accept Defendants’
 15 invitation to use the term “inhabitants” and *Franklin*’s concept of “usual residence,”
 16 undocumented persons still must be counted in the census.

17 Having analyzed the constitutional text, we next address the drafting history of the
 18 Constitution, which clearly supports the inclusion of undocumented immigrants in the
 19 apportionment base.

20 **2. The Constitution’s drafting history supports the conclusion that**
 21 **apportionment was to be based on all persons residing in each state, including**
 22 **noncitizens.**

23 The Constitution’s drafting history confirms what the text has already made clear—the
 24 Framers intended to apportion representatives based on the number of persons residing in each
 25 state, including noncitizens. The drafters of the Fourteenth Amendment intended to retain this
 26 framework.

27 The drafting history of a constitutional provision can inform its meaning. *See, e.g., Ramos*

1 v. *Louisiana*, 140 S. Ct. 1390, 1400 (2020) (addressing Louisiana’s argument about the drafting
 2 history of the Sixth Amendment); *see also Comptroller of Treasury of Md. v. Wynne*, 135 S. Ct.
 3 1787, 1812 (2015) (Thomas, J., dissenting) (“It seems highly implausible that those who ratified
 4 the Commerce Clause understood it to conflict with the income tax laws of their States and
 5 nonetheless adopted it without a word of concern”).

6 We first address the drafting history of Article I, Section 2. We then turn to the drafting
 7 history of Section 2 of the Fourteenth Amendment. The drafting history shows that the Framers of
 8 the Constitution and the drafters of the Fourteenth Amendment included noncitizens in the
 9 apportionment base because noncitizens were worthy of representation, even if they could not
 10 vote.

11 **a. The drafting history of Article I, Section 2 demonstrates that**
 12 **apportionment was to be based on all persons in each state, including**
 13 **noncitizens.**

14 The drafting history of Article I, Section 2 confirms the Framers’ intent to apportion
 15 representatives based on the number of persons in each state, including noncitizens. This
 16 conclusion is supported by a previous draft of Article I, Section 2; the Constitutional Convention
 17 debates; and the *Federalist Papers*.

18 As discussed in Section I-A, the previous draft of Article I, Section 2 consisted of two
 19 different clauses—an Apportionment Clause and a Direct Taxation Clause. The draft
 20 Apportionment Clause provided that Congress would “regulate the number of representatives by
 21 the number of inhabitants, according to the rule hereinafter made for direct taxation.” 2 Farrand,
 22 *supra*, at 566, 571. The Direct Taxation Clause stated that “[t]he proportions of direct taxation
 23 shall be regulated by the whole number of free citizens *and* inhabitants of every age, sex, and
 24 condition, including those bound to servitude for a term of years, and three fifths of all other
 25 persons not comprehended in the foregoing description, (except Indians not paying taxes).” *Id.* at
 26 571 (emphasis added). The text of the Direct Taxation Clause shows that the Framers intended to
 27 count “citizens” *and* “inhabitants of every age, sex, and condition.”

1 The Direct Taxation Clause was later combined with the Apportionment Clause by the
2 Committee of Style. *See* 2 Farrand, *supra*, at 553 (notes of James Madison on Constitutional
3 Convention proceedings on Saturday, September 8, 1787). The final version read:

4 Representatives and direct Taxes shall be apportioned among the several States
5 which may be included within this Union, according to their respective Numbers,
6 which shall be determined by adding to the whole Number of free Persons,
7 including those bound to Service for a Term of Years, and excluding Indians not
8 taxed, three fifths of all other Persons.

9 Art. I, § 2, cl. 3. Thus, the previous draft of Article I, Section 2 demonstrates that the Framers
10 wanted to apportion representatives based on the number of persons residing in each state, not just
11 the number of citizens.

12 The debates over Article I, Section 2 also demonstrate the Framers' intent to apportion
13 based on persons, not citizens. "The debates at the [Constitutional] Convention make at least one
14 fact abundantly clear: that when the delegates agreed that the House should represent 'people' they
15 intended that in allocating Congressmen the number assigned to each State should be determined
16 solely by the number of the State's inhabitants." *Wesberry v. Sanders*, 376 U.S. 1, 13 (1964). In the
17 debates over Article I, Section 2, the Framers recognized the distinction between the "rule of
18 Representation" and "suffrage." 1 Farrand, *supra*, at 580–81 (notes of James Madison on
19 Constitutional Convention proceedings on Wednesday, July 11, 1787). As Alexander Hamilton
20 explained, apportionment was to be based on the number of persons residing in each state because
21 "every individual of the community at large has an equal right to the protection of government." 1
22 Farrand, *supra*, at 472–73 (notes of Representative Yates of New York, on speech of Alexander
23 Hamilton during Constitutional Convention proceedings on Friday, June 29, 1787).

24 The *Federalist Papers* also reflect the Framers' understanding that apportionment was to
25 be done based on the number of persons residing in each state, not the number of voters. In *The*
26 *Federalist* No. 54, James Madison explained that "[i]t is a fundamental principle of the proposed
27 Constitution, that . . . the aggregate number of representatives allotted to the several States is to be
28 . . . founded on the aggregate number of inhabitants." *The Federalist* No. 54. *The Federalist* Nos.

1 56 and 58 confirm the Constitution’s decision to apportion based on the number of persons
 2 residing in each state, not the number of voters. *See The Federalist* No. 56, at 383 (noting that the
 3 Constitution mandates “a representative for every thirty thousand inhabitants”); *The Federalist*
 4 No. 58, at 391 (noting that the Constitution requires “readjust[ing], from time to time, the
 5 apportionment of representatives to the number of inhabitants”). Madison acknowledged that
 6 apportionment would be done based on the number of persons residing in each state, not the
 7 number of voters: “The qualifications on which the right of suffrage depend are not, perhaps, the
 8 same in any two States. . . . In every State, a certain proportion of inhabitants are deprived of this
 9 right [but] . . . will be included in the census by which the federal Constitution apportions the
 10 representatives.” *The Federalist* No. 54.

11 Indeed, in analyzing the drafting history of Article I, Section 2, other courts have
 12 concluded that the Framers intended to include noncitizens in the apportionment base. The
 13 Supreme Court concluded that the constitutional debates made it “abundantly clear” that the
 14 Framers intended to apportion based on “the number of the State’s inhabitants.” *Wesberry*, 376
 15 U.S. at 13. Similarly, the Ninth Circuit concluded that “[t]he framers were aware that this
 16 apportionment and representation base would include categories of persons who were ineligible to
 17 vote—women, children, bound servants, convicts, the insane, and, at a later time, aliens.” *Garza v.*
 18 *County of Los Angeles*, 918 F. 2d 763, 774 (9th Cir. 1990). Finally, the three-judge court in *FAIR*
 19 emphasized that, “[a]ccording to James Madison, the apportionment was to be ‘founded on the
 20 aggregate number of inhabitants’ of each state The Framers must have been aware that this
 21 choice of words would include women, children, bound servants, convicts, the insane and aliens
 22” *FAIR*, 486 F. Supp. at 576 (quoting *The Federalist*, No. 54, at 369 (J. Cooke ed. 1961)).

23 In sum, the drafting history of Article I, Section 2 establishes the Framers’ clear intent to
 24 apportion based on the number of persons residing in each state, not the number of voters. We next
 25 address the drafting history of Section 2 of the Fourteenth Amendment.

1 **b. The drafting history of the Fourteenth Amendment confirms that**
 2 **apportionment was to be based on the number of persons residing in each**
 3 **state, including noncitizens.**

4 Like the drafters of the Constitution, the drafters of the Fourteenth Amendment intended to
 5 apportion based on the number of persons residing in each state, not just the number of citizens.
 6 Indeed, the drafters rejected a proposal to apportion based on the number of voters, instead
 7 choosing to continue apportioning based on the number of persons. Moreover, during the debates
 8 over the Fourteenth Amendment, the drafters explicitly acknowledged the consequences of their
 9 choice—the inclusion of noncitizens in the apportionment base. Thus, the drafting history of the
 10 Fourteenth Amendment confirms the drafters’ intent to apportion based on the number of
 11 noncitizens.

12 During the drafting of the Fourteenth Amendment, Representative Thaddeus Stevens of
 13 Pennsylvania introduced a proposal that would have apportioned representatives “according to
 14 their respective legal voters.” Cong. Globe, 39th Cong., 1st Sess. 10 (1866); *see also Evenwel*, 136
 15 S. Ct. at 1128 (recounting the history of this proposal). However, the proposal “encountered fierce
 16 resistance from proponents of total-population apportionment.” *Evenwel*, 136 S. Ct. at 1128. The
 17 proposal was rejected, leaving apportionment to be based on the number of people residing in each
 18 state, not the number of voters. *See id.* The drafters’ rejection of the proposed language
 19 underscores their intent to continue to apportion based on total population.

20 Instead of accepting the new proposal, the drafters of the Fourteenth Amendment embraced
 21 “the principle upon which the Constitution itself was originally framed, that the basis of
 22 representation should depend upon numbers . . . not voters.” Cong. Globe, 39th Cong., 1st Sess.
 23 2766–67 (1866) (statement of Senator Howard introducing the Fourteenth Amendment on the
 24 Senate floor). The drafters of the Fourteenth Amendment understood that the Constitution had
 25 traditionally based apportionment on the number of persons residing in each state, including
 26 noncitizens. *See id.* at 705 (statement of Senator Fessenden) (“The principle of the Constitution . .
 27 . is that it shall be founded on population [W]e are attached to that idea, that the whole
 28 population is represented; that although all do not vote, yet all are heard. That is the idea of the

1 Constitution.”).

2 In the debates over the Fourteenth Amendment, the drafters of the Fourteenth
3 Amendment—including representatives and senators from New Jersey, New York, Illinois, Ohio,
4 Pennsylvania, Massachusetts, Oregon, and Vermont quoted in Section I-A—explicitly
5 acknowledged their intent to continue to include noncitizens in the apportionment base. Like the
6 Framers, the drafters of the Fourteenth Amendment found it important to include noncitizens and
7 other non-voters in the apportionment base because even nonvoters’ interests would be represented
8 by the elected government. *See id.* at 141 (“[N]o one will deny that population is the true basis of
9 representation; for women, children, and other non-voting classes may have as vital an interest in
10 the legislation of the country as those who actually deposit the ballot.”) (statement of
11 Representative Blaine). Thus, the drafting history of both Article I, Section 2 and the Fourteenth
12 Amendment confirms that apportionment was to be based on the number of inhabitants, which
13 included noncitizens.

14 **3. Historical practice reflects that Congress and the Executive Branch have**
15 **consistently interpreted the Constitution as including in the apportionment**
16 **base all persons residing in a state, including undocumented immigrants.**

17 For over two hundred years, Congress, the Department of Justice, and the Census Bureau
18 have all consistently concluded that the Constitution mandates that the apportionment base must
19 include noncitizens. Even members of Congress who were in favor of excluding noncitizens have
20 concluded that to do so would be unconstitutional. This consistent understanding of the
21 Constitution’s requirements by the executive and legislative branches of government affirms the
22 conclusion that undocumented immigrants must be included in the apportionment base.

23 When confronted with questions of constitutional interpretation, the Supreme Court has
24 emphasized the centrality of historical practice to resolving ambiguities in the meaning and
25 application of the Constitution. *See, e.g., Evenwel*, 136 S. Ct. at 1132 (considering “constitutional
26 history” and “settled practice” to resolve constitutional dispute regarding apportionment); *NLRB v.*
27 *Noel Canning*, 573 U.S. 513, 525 (2014) (analyzing the “longstanding ‘practice of the

1 government” to determine the constitutionality of recess appointments) (quotation omitted). In
 2 fact, the Supreme Court has routinely relied on historical practice to decide constitutional
 3 questions in the context of the census. *See Dep’t of Commerce*, 139 S. Ct. at 2567 (explaining that
 4 the Supreme Court’s “interpretation of the Constitution is guided by a Government practice that
 5 ‘has been open, widespread, and unchallenged since the early days of the Republic’”) (quotation
 6 omitted); *Wisconsin*, 517 U.S. at 21 (looking to the “importance of historical practice”); *Franklin*,
 7 505 U.S. at 806 (looking to historical practice to resolve constitutional question regarding
 8 enumeration).

9 At oral argument, Defendants conceded that historical practice does not support their
 10 argument. The Court asked Defendants: “Has there ever been an instance in the last 200 years
 11 where the Census Bureau has decided not to count people solely on the basis of the legality of
 12 their immigration status? . . . Is there any history in the census that contradicts what is done
 13 through this census?” Tr. of Oct. 9, 2020 Hearing at 19:23–20:4, *City of San Jose v. Trump*, No.
 14 20-cv-05167 (N.D. Cal Oct. 9, 2020). Defense counsel conceded: “We are not aware of any”
 15 *Id.* at 20:5. In response, the Court pressed Defendants: “It’s not just the Census Bureau, but it’s
 16 also Congress and the Department of Justice have never supported your position; is that correct? Is
 17 there any historical precedent that Congress or the Department of Justice supported your
 18 position?” *Id.* at 21:7–11. Defense counsel replied: “That’s correct.” *Id.* at 21:12. Likewise, we
 19 have failed to identify any historical practice that would support Defendants’ argument.

20 Historical practice confirms that the Constitution requires undocumented immigrants to be
 21 included in the apportionment base. We address in turn: (a) historical practice prior to the passage
 22 of federal immigration laws in 1875; (b) legislative proposals to exclude noncitizens after 1875;
 23 (c) the DOJ’s stance across administrations that undocumented immigrants cannot be excluded
 24 from the apportionment base; and (d) the Census Bureau’s consistent practice of counting
 25 undocumented immigrants who reside in each state. In each case, historical practice reflects a
 26 shared understanding that the Constitution requires the apportionment base to include all persons

1 who reside in each state.

2 **a. From the 1790 Census to the passage of federal immigration laws in 1875,**
3 **the apportionment base included all persons who resided in the state**
4 **without regard to legal status.**

5 From the original 1790 Census onwards, historical practice reflects the inclusion of
6 noncitizens in the apportionment base. The first census statute, for example, instructed “assistants”
7 to count “the number of the *inhabitants* within their respective districts.” Act of Mar. 1, 1790, § 1,
8 1 Stat. 101, 101 (emphasis added); *see* Section I-C, *supra*. The drafters of the statute did not use
9 the available category of “citizens,” but rather chose the more expansive category of “inhabitants,”
10 despite the clear implication that this choice would include persons who were not citizens.

11 This broad approach to the apportionment base held true even when persons were known
12 to be in a state illegally as fugitive slaves. The Fugitive Slave Act of 1850 required that free states
13 return slaves captured within their borders to their owners, if ownership could be established. *See*
14 9 Stat. at 462–63. Although escaped slaves were therefore unlawfully present in northern free
15 states in 1860, they were counted in the 1860 Census as part of the apportionment base in those
16 northern states. *See* U.S. Census Bureau, 1860 Census: Population of the United States at vi-vii,
17 xi, xvixvi (Gov’t Printing Office 1864); ECF No. 64-22 at 5–6. Thus, early historical practice
18 reflects that even where persons were in a state unlawfully, they were still counted as part of the
19 apportionment base of that state.

20 **b. After the passage of federal immigration laws in 1875, Congress has**
21 **uniformly rejected as unconstitutional legislative proposals to exclude**
22 **immigrants from the apportionment base.**

23 Defendants correctly point out that pre-1875 historical practice cannot definitively resolve
24 questions regarding undocumented immigrants because there were not federal immigration laws
25 until 1875. Defs.’ Opp’n at 26; *see also Kleindienst v. Mandel*, 408 U.S. 753, 761 (1972)
26 (explaining the history of federal immigration legislation). However, as detailed in Section I-B and
27 recounted below, substantial evidence of historical practice after 1875 confirms that the
28 apportionment base has consistently been understood to include all persons residing in a state,

1 including undocumented immigrants.

2 Since 1875, members of Congress have repeatedly tried to exclude noncitizens from the
3 apportionment base. For example, in 1929, Congress simultaneously considered two constitutional
4 amendments that would have excluded noncitizens from the apportionment base. The first, which
5 was introduced by Representative Hoch, would have changed the Fourteenth Amendment’s
6 apportionment formula to the following:

7 Representatives shall be apportioned among the several states according to their
8 respective numbers, counting the whole number of persons in each state, excluding
9 Indians not taxed and aliens.

10 *To Amend the Constitution: Hearing on H.J. Res. 102 and H.J. Res. 351 Before the H. Comm. on*
11 *the Judiciary, 70th Cong. 1 (1929).* The second was a constitutional amendment introduced by
12 Representative Stalker that would have expressly excluded noncitizens from the apportionment:

13 Aliens shall be excluded in counting the whole number of persons in each State for
14 apportionment of Representatives among the several States according to their
15 respective numbers.

16 *Id.* Neither constitutional amendment was passed. The introduction of these constitutional
17 amendments reflects Congress’s understanding that the Constitution includes noncitizens in the
18 apportionment base, so excluding noncitizens from the apportionment base would require a
19 constitutional amendment, rather than a mere legislative proposal.

20 Congress has also considered legislative proposals that would have excluded noncitizens
21 from the apportionment base. However, these proposals have consistently been rejected by
22 members of Congress on the ground that the Constitution requires counting all persons that reside
23 in a state. *See FAIR*, 486 F. Supp. at 576 (discussing congressional proposals to exclude
24 undocumented immigrants from the apportionment base and concluding that “it appears to have
25 been generally accepted that such a result would require a constitutional amendment.”). Even
26 members of Congress who wanted to exclude undocumented immigrants as a matter of policy
27 have rejected proposals on the grounds that they conflict with the Constitution. *See* Section I-B,
28 *supra*.

1 For example, when a bill was proposed in 1929 to exclude “aliens” from the apportionment
2 base, the Senate Legislative Counsel found that “[t]he practical construction of the constitutional
3 provisions by Congress in its apportionment legislation has been uniformly in favor of inclusion of
4 aliens.” 71 Cong. Rec. 1821–22 (1929). The Senate Legislative Counsel thus stated “the opinion
5 of this office that there is no constitutional authority for the enactment of legislation excluding
6 aliens from enumeration for the purposes of apportionment of Representatives among the States.”

7 *Id.*

8 Following the Senate Legislative Counsel’s legal opinion, even members of Congress who
9 adamantly supported excluding aliens from the apportionment base concluded that they could not
10 vote for the amendment because it was unconstitutional. For example, Senator David Reed of
11 Pennsylvania, who in 1924 had co-authored a law restricting immigration from Southern and
12 Eastern Europe and banning immigration from Asia, decided that he could not vote for it. Senator
13 Reed lamented at a hearing on the 1929 amendment to the Reapportionment Act: “I want to vote
14 for it; everything in my experience and outlook would lead me to vote for this amendment if that
15 possibly could be done.” 71 Cong. Rec. 1958 (1929). However, Senator Reed concluded that he
16 could not vote for the amendment because it was unconstitutional:

17 [I]f it were a free question I should unhesitatingly vote to substitute the word
18 “citizens” for “persons” or to substitute the words “voters who actually have cast
19 their votes at the last general election,” yet I am forced to the conclusion that the
20 word “persons” must be taken in its literal sense; that it was not an accident that it
21 occurred but was the deliberate choice, first, of the Constitutional Convention and
22 next of the Congress in acting on the fourteenth amendment.

23 *Id.* The amendment to exclude aliens from the apportionment base did not pass.

24 Later members of Congress have also consistently maintained that undocumented
25 immigrants must be included in the apportionment base. As recounted in Section I-B above, even
26 proponents of excluding “aliens in the United States in violation of the immigration laws” from
27 the apportionment base refused to support statutory amendments that would have done so.

135 Cong. Rec. 14539–40. Senator Dale Bumpers of Arkansas admitted that he did “not want to

1 go home and explain [his] vote on this [amendment] any more than anyone else does.” *Id.* at
 2 14551. Nevertheless, Senator Bumpers voted against the amendment because he thought the
 3 amendment was unconstitutional. “I wish the Founding Fathers had said you will only enumerate
 4 ‘citizens,’” Senator Bumpers concluded, “but they did not. They said ‘persons,’ and so that is what
 5 it has been for 200 years. We have absolutely no right or authority to change that peremptorily on
 6 a majority vote here.” *Id.*

7 These examples illustrate that legislative proposals to exclude undocumented immigrants
 8 from the apportionment base have consistently been rejected by Congress. Even members of
 9 Congress who strongly favored excluding undocumented immigrants as a matter of policy
 10 understood that such exclusion was unconstitutional. This consistent historical practice
 11 demonstrates that the Constitution requires the apportionment base to include all persons who
 12 reside in a state, including undocumented immigrants.

13 **c. The Department of Justice has consistently argued that the apportionment**
 14 **base must include undocumented immigrants.**

15 In addition, during both Democratic and Republican administrations, the Department of
 16 Justice has consistently maintained that the apportionment base must include undocumented
 17 immigrants. *See* Section I-C, *supra*. As recounted in detail in Section I-C, the DOJ maintained this
 18 view throughout the Administrations of Presidents Jimmy Carter, Ronald Reagan, and George
 19 H.W. Bush. DOJ forcefully stated its view to both Congress and the courts. For instance, as the
 20 DOJ in President George H.W. Bush’s Administration explained to a senator who sought DOJ’s
 21 views on a proposal to exclude “illegal or deportable aliens” from the census, “section two of the
 22 Fourteenth Amendment which provides for ‘counting the whole number of persons in each state’
 23 and the original Apportionment and Census Clauses of Article I section two of the Constitution
 24 require that inhabitants of States who are illegal aliens be included in the census count.” 135
 25 Cong. Rec. S12234 (1989); *see also* *FAIR*, 1980 WL 683642 (brief in the District of Columbia
 26
 27

1 during President Carter’s Administration).¹⁴

2 These examples illustrate that, until the current Administration, the DOJ has consistently
3 concluded that it would be unconstitutional to exclude undocumented immigrants from the
4 apportionment base. The consistent conclusions of the DOJ confirm that the Constitution requires
5 the apportionment base to include all persons who reside in each state regardless of immigration
6 status.

7 **d. The Census Bureau has consistently included undocumented immigrants in**
8 **the census count and apportionment base.**

9 Finally, across presidential administrations from both parties, the Census Bureau itself has
10 included undocumented immigrants in the apportionment base, regardless of the administration’s
11 stance on immigration in other contexts.

12 In 1985, for example, President Reagan’s Census Bureau Director John Keane told
13 Congress that the “[t]raditional understanding of the Constitution and the legal direction provided
14 by the Congress has meant that for every census since the first one in 1790, [the Bureau] ha[s]
15 tried to count residents of the country, regardless of their status.” *Enumeration of Undocumented*
16 *Aliens in the Decennial Census: Hearing on S. 99-314 Before the Subcomm. on Energy, Nuclear*
17 *Proliferation, & Gov’t Processes of the S. Comm. on Governmental Affairs, 99th Cong. 19 (1985)*
18 (statement of Census Director John Keane), ECF No. 64-21 at 24.

19 In *FAIR*, the three-judge court explained that undocumented immigrants had consistently
20 been counted in the census. 486 F. Supp. at 566. The three-judge court noted that “[t]he Census
21 Bureau has always attempted to count every person residing in a state on census day, and the
22 population base for purposes of apportionment has always included all persons, including aliens

24 ¹⁴ As Plaintiffs point out, Attorney General William Barr was head of the DOJ’s Office of Legal
25 Counsel at the time of this letter and likely would have been consulted on its legal conclusions.
26 The DOJ under Attorney General Barr now takes the opposite position in the present litigation.
27 This stands in contrast to the DOJ’s position in 1989 and in every other administration when the
question arose.

1 both lawfully and unlawfully within our borders.” *Id.* Thus, the government’s “interpretation of the
2 constitutional language [in defense of including undocumented immigrants in the apportionment
3 base] is bolstered by two centuries of consistent interpretation.” *Id.*

4 In fact, even the current Administration’s Census Bureau promulgated a rule (after notice
5 and comment and consideration of hundreds of comments) that counts undocumented immigrants
6 in the 2020 Census. *See* Residence Rule, 83 Fed. Reg. at 5525; *see also New York*, 2020 WL
7 5422959, at *5 (describing the Residence Rule in detail). The Census Bureau is “guided by the
8 constitutional and statutory mandates to count all residents of the several states,” and the
9 Residence Rule is designed “to ensure that the concept of usual residence is interpreted and
10 applied, consistent with the intent of the Census Act of 1790, which was authored by a Congress
11 that included many of the framers of the U.S. Constitution and directed that people were to be
12 counted at their usual residence.” 83 Fed. Reg. at 5526. The Residence Rule provides that
13 “[c]itizens of foreign countries living in the United States” are to be “[c]ounted at the U.S.
14 residence where they live and sleep most of the time,” with exceptions for two types of foreign
15 citizens. *Id.* at 5533. The first exception is that “[c]itizens of foreign countries living in the United
16 States who are members of the diplomatic community” are “[c]ounted at the embassy, consulate,
17 United Nations’ facility, or other residences where diplomats live.” *Id.* The other exception is
18 that “[c]itizens of foreign countries visiting the United States, such as on a vacation or business
19 trip” are “[n]ot counted in the census.” *Id.* Thus, the Residence Rule counts *all* noncitizens except
20 those “visiting the United States, such as on a vacation or business trip.” *Id.* Persons whose usual
21 residence in a state are to be counted even if they are undocumented immigrants.

22 In promulgating that categorical rule, the Census Bureau specifically considered a
23 comment that “expressed concern about the impact of including undocumented people in the
24 population counts for redistricting because these people cannot vote.” *Id.* at 5530. Even so, the
25 Census Bureau decided to “retain the proposed residence situation guidance for foreign citizens in
26 the United States.” *Id.* In doing so, the Census Bureau stressed that “[f]oreign citizens are

1 considered to be ‘living’ in the United States if, at the time of the census, *they are living and*
 2 *sleeping most of the time at a residence in the United States.” Id.* (emphasis added).

3 Here, it is undisputed that most undocumented immigrants live and sleep most of the time
 4 at a residence in the United States. As we have discussed above, “a clear majority of
 5 undocumented immigrants have lived in the United States for over five years and have families,
 6 hold jobs, own houses, and are part of their community.” Barreto Decl. ¶ 18, ECF No. 63-3; *see*
 7 Section IV-A-1-b, *supra*.

8 In sum, the “longstanding practice of the government,” including Congress, the
 9 Department of Justice, and the Census Bureau demonstrate that the apportionment base must
 10 include all persons residing in each state regardless of their immigration status. *Noel Canning*, 573
 11 U.S. at 525 (quotation marks omitted). As a result, the Presidential Memorandum not only violates
 12 the Constitution but also contravenes two hundred years of history.

13 **4. Under Supreme Court case law, the term “persons” includes undocumented**
 14 **immigrants.**

15 Supreme Court case law confirms what the text, drafting history, and 230 years of
 16 historical practice make clear—the Constitution requires the inclusion of undocumented
 17 immigrants in the census. In interpreting the Fourteenth Amendment, the Supreme Court has held
 18 that undocumented immigrants are “person[s] within [a state’s] jurisdiction.” U.S. Const., amend.
 19 XIV, § 1 (“No State shall . . . deny to any person within its jurisdiction the equal protection of the
 20 laws.”).

21 Only ten years after the first federal immigration law was passed in 1875, the Supreme
 22 Court held that noncitizens were persons within a state’s jurisdiction for the purposes of the
 23 Fourteenth Amendment’s Equal Protection Clause. In *Yick Wo v. Hopkins*, the Supreme Court
 24 concluded that the Fourteenth Amendment’s Equal Protection Clause, which prohibits a state from
 25 “deny[ing] to any person within its jurisdiction the equal protection of the laws,” applied to the
 26 noncitizen plaintiffs, who were statutorily barred from naturalization. 118 U.S. 356, 368–69
 27 (1886) (quoting U.S. Const., amend. XIV, § 1); *see Ozawa v. United States*, 260 U.S. 178, 192–93

1 (1922) (explaining that, as of 1886, naturalization was confined to white persons and persons of
2 African descent). The Supreme Court reasoned that the Fourteenth Amendment’s “provisions are
3 universal in their application, to all persons within the territorial jurisdiction, without regard to any
4 differences of race, of color, or of nationality.” *Yick Wo*, 118 U.S. at 369.

5 The Supreme Court has also held that undocumented immigrants are persons within a
6 state’s jurisdiction for purposes of the Fourteenth Amendment’s Equal Protection Clause. In *Plyler*
7 *v. Doe*, the Supreme Court addressed whether a Texas law that prohibited undocumented children
8 from enrolling in the state’s public schools violated the Fourteenth Amendment’s Equal Protection
9 Clause, which establishes that “[n]o State shall . . . deny to any person within its jurisdiction the
10 equal protection of the laws.” 457 U.S. 206, 210 (1982) (quoting U.S. Const., amend. XIV, § 1)
11 (emphasis removed). The Supreme Court unanimously rejected Texas’s argument that
12 “undocumented aliens, because of their immigration status, are not ‘persons within the
13 jurisdiction’ of the State of Texas, and that they therefore have no right to the equal protection of
14 Texas law.” *Id.* at 210; *see also id.* at 243 (Burger, C.J., dissenting) (agreeing with the majority on
15 this point). The Supreme Court concluded that “[w]hatever his status under the immigration laws,
16 an alien is surely a ‘person’ in any ordinary sense of that term.” *Id.* The Supreme Court therefore
17 concluded that undocumented immigrants are persons within the jurisdiction of a state. *Id.* at 210–
18 16.

19 In *Plyler*, the Supreme Court held that the term “person[s] within the jurisdiction of [a]
20 state” in the Fourteenth Amendment’s Equal Protection Clause included undocumented
21 immigrants because the Supreme Court had previously defined “persons” in the Fourteenth
22 Amendment’s Due Process Clause in the same way. *See id.* at 211–13; Section IV-A-1-b, *supra*.
23 Similarly, the Supreme Court’s holding in *Plyler* that the term “persons within the jurisdiction of
24 [a] state” includes undocumented immigrants supports the conclusion that “persons in each state”
25 in Section 2 of Article I of the Constitution includes undocumented immigrants.

26 Defendants argue that *Plyler* is inapposite because it addressed the Equal Protection
27

1 Clause, which was not limited to “inhabitants” like the Apportionment Clause. *See* Defs. Opp’n at
 2 28. But the Apportionment Clause does not use the term “inhabitants” — rather, it uses the term
 3 “persons in each state,” which is similar to the words the Supreme Court interpreted in *Plyler*.
 4 *Compare* U.S. Const., amend. XIV, § 1 (“No State shall . . . deny to *any person within its*
 5 *jurisdiction* the equal protection of the laws.”) (emphasis added) with U.S. Const. XIV, § 2
 6 (apportioning representatives based on “*the whole number of persons in each State*”). Thus, *Plyler*
 7 supports the conclusion that “persons in each state” includes undocumented immigrants.

8 In sum, the Supreme Court has held that undocumented immigrants residing in a state are
 9 persons within a state’s jurisdiction and entitled to constitutional rights. Supreme Court case law
 10 thus supports the inclusion in the apportionment base of undocumented immigrants who reside in
 11 and have enduring ties to a state.

12 **5. Defendants’ arguments lack merit.**

13 Despite the Constitution’s text, drafting history, 230 years of historical practice, and
 14 Supreme Court case law, Defendants argue that the President can constitutionally exclude
 15 undocumented immigrants from the apportionment. However, Defendants’ arguments lack merit.
 16 Although Defendants argue that undocumented immigrants were not “persons in each state,” the
 17 sources on which Defendants rely are unpersuasive. Defendants’ reliance on *Franklin v.*
 18 *Massachusetts* is similarly misplaced. We address each in turn.

19 **a. Contrary to Defendants’ arguments, undocumented immigrants are** 20 **“persons in each state.”**

21 Defendants argue that undocumented immigrants were not “persons in each state” at the
 22 time of the Founding and thus should be excluded from the apportionment base. *See* Defs. Opp’n
 23 at 20–23. Defendants’ argument contravenes the Constitution’s text and drafting history, 230 years
 24 of historical practice, and Supreme Court case law. *See* Sections IV-A-1, IV-A-2, IV-A-3, IV-A-4,
 25 *supra*. Defendants thus rely upon the following three irrelevant sources that have nothing to do
 26 with apportionment or the census:

- 27 • A statement from a French international law treatise by Swiss scholar Emmerich de Vattel;

- A statement from *The Federalist* No. 42 about the Articles of Confederation; and
- Case law concluding that foreign tourists and businessmen do not dwell in the United States.

None of these sources supports excluding undocumented immigrants from the apportionment base. We address each source in turn.

First, Defendants rely on a statement from an international law treatise written in French by Emmerich de Vattel, a Swiss scholar of international law. Defs.’ Opp’n at 22–23. Chief Justice Marshall quoted the statement in a concurring opinion in *The Venus*, 12 U.S. (8 Cranch.) 253, 288 (1814) (Marshall, C.J., concurring). The quoted statement was that “inhabitants, as distinguished from citizens, are strangers who are permitted to settle and stay in the country.” *The Venus*, 12 U.S. (8 Cranch.) 253, 289 (1814) (Marshall, C.J., concurring) (quoting Vattel).

Yet neither Vattel’s statement nor *The Venus* has any relation to apportionment or the census. Vattel’s statement analyzed “the law of nations” and even on that topic, Chief Justice Marshall noted that Vattel’s statement was cursory (“not very full to this point,” as Chief Justice Marshall put it). *Id.* at 289, 291. *The Venus* concerned international businessmen and the condemnation of those businessmen’s sundry goods (e.g., “casks of white lead”) aboard a ship after the War of 1812. *Id.* at 253 (majority op.). In short, *The Venus* addressed the effect of “a declaration of war” on international commercial relationships and international commercial property. *Id.* at 292 (Marshall, C.J., concurring). As Chief Justice Marshall explained, the status of a merchant’s “commercial objects” in war turned on the merchant’s commercial intentions, which were hard to discern “solely from the fact of residence”:

A merchant residing abroad for commercial purposes may certainly intend to continue in the foreign country so long as peace shall exist, provided his commercial objects shall detain him so long, but to leave it the instant war shall break out between that country and his own

The intention to be inferred solely from the fact of residence during peace, *for commercial purposes*, is, in my judgment, necessarily conditional, and *dependent on the continuance of the relations of peace* between the two countries.”

Id. at 288, 291 (emphasis added).

1 Nothing suggests that the Constitution enshrined Vattel’s international law definition of
 2 “inhabitants”—or *The Venus*’s analysis of the laws of war—in the constitutional term “persons in
 3 each state” for the purposes of the Enumeration and Apportionment Clause. After all, “[t]he
 4 Constitution was written to be understood by the voters; its words and phrases were used in their
 5 normal and ordinary as distinguished from technical meaning.” *Heller*, 554 U.S. at 576 (quoting
 6 *Sprague*, 282 U.S. at 731). As set forth above, the ordinary meaning of “persons in each state”
 7 includes all persons residing in a country without regard to their permission to settle. *See* Section
 8 IV-A-1, *supra*.

9 Second, Defendants rely on a statement made by James Madison in *The Federalist* No. 42.
 10 Defs.’ Opp’n at 23. Madison stated that the Articles of Confederation required states “to confer the
 11 rights of citizenship in other States . . . upon any whom it may allow to become inhabitants within
 12 its jurisdiction.” *The Federalist* No. 42. Suffice it to say, the Articles of Confederation predated the
 13 Constitution, the Constitution’s requirement of a decennial census, and the bedrock principle that
 14 the States are united under one sovereign. Thus, like the French international law treatise,
 15 Madison’s statement about the Articles of Confederation has nothing to do with the census or
 16 apportionment.

17 Third, Defendants cite cases which concluded that noncitizen travelers, such as foreign
 18 tourists or foreign businessmen, were not considered inhabitants of a state. *See, e.g., Bas v. Steele*,
 19 2 F. Cas. 988, 993 (Washington, Circuit Justice, C.C.D. Pa. 1818) (No. 1,088) (concluding that a
 20 Spanish subject who had remained temporarily in Philadelphia as a merchant “was not an
 21 inhabitant of this country, as no person is an inhabitant of a place, but one who acquires a domicile
 22 there”); *Toland v. Sprague*, 23 F. Cas. 1353, 1355 (C.C.E.D. Pa. 1834) (No. 14,076)
 23 (distinguishing an “inhabitant” from a “transient passenger”). Defendants argue that Plaintiffs
 24 must show that it would be unconstitutional to exclude these foreign travelers. This showing of
 25 unconstitutionality is required, Defendants argue, because Plaintiffs bring a facial challenge
 26 against the Presidential Memorandum. Defs.’ Opp’n at 29.

1 Supreme Court precedent forecloses Defendants’ argument. *See City of Los Angeles v.*
 2 *Patel*, 576 U.S. 409, 418 (2015) (rejecting the City’s argument that the plaintiffs needed to show
 3 that every possible application of an ordinance was unconstitutional). When evaluating a facial
 4 challenge, courts need to consider “only applications of the statute in which it actually authorizes
 5 or prohibits conduct,” not circumstances in which the law is irrelevant and does no work. *Patel*,
 6 576 U.S. at 418; *see also Citizens United v. FEC*, 558 U.S. 310, 331 (2010) (“[T]he distinction
 7 between facial and as-applied challenges is not so well defined that it has some automatic effect or
 8 that it must always control the pleadings and disposition in every case involving a constitutional
 9 challenge.”). The Presidential Memorandum is “irrelevant” to persons like foreign tourists, who
 10 are already excluded from the count based on the Residence Rule. *See Residence Rule*, 83 Fed.
 11 Reg. at 5533 (excluding “[c]itizens of foreign countries visiting the United States, such as on a
 12 vacation or business trip”). Accordingly, Plaintiffs need not demonstrate that it would be
 13 unconstitutional for the Presidential Memorandum to exclude foreign tourists from the count—the
 14 Residence Rule already excludes them.

15 Moreover, Defendants’ cases about noncitizen travelers are inapposite in two ways. For
 16 one, the cases had nothing to do with the census or apportionment. In addition, the cases’ holdings
 17 about “inhabitants” are inapplicable to undocumented immigrants. The cases merely held that
 18 noncitizens transiting through the United States temporarily with no intention of remaining are not
 19 “inhabitants.” By contrast, millions of undocumented immigrants have lived in the United States
 20 for decades and intend to remain. *See Section IV-A-3-d, supra* (discussing Barreto Decl. ¶ 18 and
 21 Tr. of Oct. 8, 2020 hearing at 23:8–24:8). Accordingly, the inapposite cases Defendants cite cannot
 22 overcome the Constitution’s text and drafting history, 230 years of historical practice, and
 23 Supreme Court case law.

24 Indeed, one case on which Defendants rely supports Plaintiffs’ position. In *Kaplan v. Tod*,
 25 267 U.S. 228 (1925), the Supreme Court considered a child’s immigration status. The child, Esther
 26 Kaplan, had been denied entry into the United States in 1915 but had been paroled in because she
 27

1 could not be returned to Russia during World War I. *Id.* at 229. Ms. Kaplan later argued that she
 2 had become a citizen after her father was naturalized. The Supreme Court rejected Ms. Kaplan’s
 3 argument because, under the immigration laws then in effect, the naturalization of parents affected
 4 the status of children only if the children were “dwelling in the United States,” and Ms. Kaplan
 5 was not “dwelling in the United States within the meaning of the Act.” *Id.* at 230. Defendants thus
 6 argue that *Kaplan* shows that undocumented immigrants are not “dwelling in the United States”
 7 for the purposes of the census.

8 Defendants omit, however, that “Esther Kaplan of the Supreme Court case *Kaplan v. Tod*,
 9 267 U.S. 228 (1925), was enumerated in the 1920 census.” Mendelsohn Decl. ¶ 3, ECF No. 87-5
 10 (declaration of genealogist with supporting documentation). That the 1920 Census counted
 11 Ms. Kaplan despite her undocumented status is unsurprising. Unlike the Presidential
 12 Memorandum, *Kaplan* did not contravene the Constitution’s text and drafting history and 230
 13 years of historical practice. Rather, *Kaplan* addressed the narrow question of whether Ms. Kaplan
 14 was “dwelling in the United States” for the purposes of naturalization under the immigration laws
 15 in effect at that time. *Id.* at 230.

16 In conclusion, none of Defendants’ arguments support the exclusion of undocumented
 17 immigrants from the apportionment base.

18 **b. The President does not have discretion under *Franklin v. Massachusetts* to**
 19 **stray from the clear text of Article I, Section 2 and Section 2 of the**
 20 **Fourteenth Amendment.**

21 Defendants’ last argument is that *Franklin v. Massachusetts*, 505 U.S. 788 (1992), gives
 22 the President discretion to overcome the text and history of Article I, Section 2 and Section 2 of
 23 the Fourteenth Amendment. We disagree. If anything, *Franklin* underscores that the President’s
 24 actions must be consonant with the text and history of the Constitution. In brief, *Franklin* confirms
 25 that (1) constitutional text, drafting history, and historical practice cabin the President’s discretion;
 26 (2) the Presidential Memorandum is not a policy judgment that results in the decennial census; and
 27 (3) the Apportionment Clause mandates a broad interpretation of “usual residence” for the

1 purposes of apportionment. We discuss each point below in turn.

2 First, *Franklin* held that the President’s discretion “to direct the Secretary in making policy
3 judgments that result in ‘the decennial census’” must be “consonant with . . . the text and history
4 of the Constitution.” *Franklin*, 505 U.S. at 799, 806 (quoting 2 U.S.C. § 2a). Defendants concede
5 this, as they must. Defs.’ Opp’n at 22. Still, Defendants contend that the meaning of “inhabitants”
6 here is “sufficiently indeterminate to give [the President] significant discretion within
7 constitutional bounds.” *Id.* Not so. Whatever the precise bounds of the President’s discretion to
8 define “inhabitants,” the Presidential Memorandum’s exclusion of undocumented immigrants
9 from the apportionment base violates the Constitution for the reasons discussed above.

10 Second, the executive discretion that the Supreme Court upheld in *Franklin* concerned a
11 “policy judgment[] that result[ed] in the ‘decennial census.’” *Id.* at 799. The Presidential
12 Memorandum, by contrast, does not result in the decennial census. Rather, the Presidential
13 Memorandum amends the apportionment calculation after the decennial census is completed.
14 Defendants concede in their Motion to Dismiss that: “The Presidential Memorandum does not
15 purport to change the conduct of the census itself. Instead, it relates to the calculation of the
16 apportionment base used to determine the number of representatives to which each state is
17 entitled.” *See* Defs. Opp’n at 10. Similarly, Albert E. Fontenot, Jr., the Census Bureau’s Associate
18 Director for Decennial Census Programs, declared that the Presidential Memorandum “has had no
19 impact on the design of field operations for decennial census, or on the Census Bureau’s
20 commitment to count each person in their usual place of residence, as defined in the Residence
21 Criteria.” Decl. of Albert E. Fontenot, Jr., ECF No. 84-2 at 4. Thus, unlike the decision upheld in
22 *Franklin*, the Presidential Memorandum bases an apportionment on something other than the
23 “decennial census of the population.” 2 U.S.C. § 2a(a); *see* Section IV-B-2, *infra*. As discussed in
24 Section IV-B-2 below, this change in the apportionment base violates the Census and
25 Reapportionment Acts.

26 Lastly, the interpretation of “usual residence” that Defendants advance in this case clearly
27

1 conflicts with the broad understanding of “usual residence” that the *Franklin* Court affirmed.
 2 *Franklin*, 505 U.S. at 804. In *Franklin*, the Court explained that “[usual residence] can mean more
 3 than mere physical presence, and has been used broadly enough to include some element of
 4 allegiance or enduring tie to a place.” *Id.* Thus, the Court affirmed the constitutionality of the
 5 Secretary’s decision to include in the apportionment base overseas American servicemembers who
 6 lacked physical presence in the United States because the servicemembers maintained “ties to their
 7 home States.” *Id.* at 806. Allocating overseas servicemembers to their home states, the Court
 8 concluded, was “consistent with the constitutional language and the constitutional goal of equal
 9 representation.” *Id.* at 804.

10 The Presidential Memorandum, by contrast, excludes undocumented immigrants from the
 11 apportionment base, despite their physical presence in their home state and their enduring ties to
 12 the United States. *See* Barreto Decl. ¶ 18, ECF No. 63-3. Rather than support this exclusion of
 13 undocumented immigrants from the apportionment base, *Franklin* makes clear that “usual
 14 residence” should be interpreted broadly for the purposes of apportionment. *Franklin*, 505 U.S. at
 15 806. The Presidential Memorandum violates this clear principle by excluding undocumented
 16 immigrants from the apportionment base, and it finds no support in the holding of *Franklin*. This
 17 conclusion is confirmed by the statutory analysis of *Franklin* in Section IV-B-1-b, *infra*.

18 In sum, *Franklin* does not support Defendants’ argument. The Presidential Memorandum is
 19 neither consonant with the text and history of the Constitution, nor is it consistent with the
 20 constitutional goal of equal representation.

21 **B. The Presidential Memorandum violates the Census and Reapportionment Acts.**

22 As to Plaintiffs’ statutory claims, we have conducted an independent analysis and reach the
 23 same conclusion as the *New York* court. We also agree with the basis for the *New York* court’s
 24 decision as discussed in its order, at *25–32. The arguments presented to us were not entirely
 25 identical to the arguments presented to that court, but the primary thrusts of the arguments were
 26 similar. Where they were similar, we agree with and effectively adopt the analysis offered by the
 27

1 *New York* court. Specifically, we agree with the *New York* court that the Census Act and the
 2 Reapportionment Act require the Census to count undocumented immigrants who would, but for
 3 their immigration status, be considered residents and that these individuals must be included in the
 4 apportionment base. *See New York*, 2020 WL 5422959, at *29–32. We further agree that the
 5 apportionment base must come from the Census and the Census alone. *Id.* at *25–29.

6 Our conclusions are based on (1) the ordinary meaning of the statutory text; (2) the
 7 interlocking statutory scheme of the Census and Reapportionment Acts; (3) statutory history;
 8 (4) 230 years of historical practice; and (5) Supreme Court case law. Below, we discuss each in
 9 turn. We further find that the Presidential Memorandum violates the separation of powers.

10 **1. The ordinary meaning of the text of the statutes establish that apportionment**
 11 **shall be based on all persons residing in a state, including undocumented**
 12 **immigrants.**

13 Plaintiffs’ first statutory argument is that the policy announced in the Presidential
 14 Memorandum violates the statutes that govern the process of determining the number of seats in
 15 the U.S. House of Representatives to be assigned to each state. The ordinary public meaning of the
 16 Census and Reapportionment Acts compels us to agree for two reasons. To start, the
 17 Reapportionment Act includes “persons in each state” in the apportionment base, not just lawful
 18 “inhabitants.” Moreover, even if Defendants are right that “inhabitants” is synonymous with
 19 “persons in each state,” undocumented immigrants are inhabitants of the states in which they live.

20 **a. The Census and Reapportionment Acts include “persons in each state” in**
 21 **the apportionment base, not just lawful inhabitants.**

22 As quoted at greater length above in Section I-B, the plain text of the Census Act directs
 23 the Secretary to provide for apportionment purposes the “tabulation of total population by State,”
 24 from the decennial census. 13 U.S.C. § 141(b). Similarly, the Reapportionment Act provides that
 25 the President must transmit “a statement showing the whole number of persons in each State,
 26 excluding Indians not taxed, as ascertained under the seventeenth and each subsequent decennial
 27 census of the population.” 2 U.S.C. § 2a(a). The Acts make no mention of restricting the
 28 apportionment population to only people with legal status.

1 Defendants admit that the ordinary meaning of “person” includes undocumented
2 immigrants. Defs.’ Opp’n at 31; *see also, e.g.*, Webster’s New International Dictionary 1827 (2d
3 ed. 1943) (defining “person” as “[a] human being”). Defendants argue, though, that the addition of
4 “in each state” to the word “persons” creates ambiguity. Defendants contend that the full phrase
5 “persons in each state” refers to “inhabitants”, a term they contend the Executive has wide
6 discretion to define. Defs.’ Opp’n at 31–33.

7 Defendants’ argument is unpersuasive for two reasons. First, the text of the
8 Reapportionment Act underscores that all “persons in each state” must be in the apportionment
9 base unless an express exception provides otherwise. The Reapportionment Act does this by
10 excluding just one group of persons: “Indians not taxed.” 2 U.S.C. § 2a(a). A canon of statutory
11 interpretation is *expressio unius est exclusio alterius*: “to express or include one thing implies the
12 exclusion of the other, or of the alternative.” Black’s Law Dictionary (11th ed. 2019); *accord, e.g.*,
13 *Vonn*, 535 U.S. at 65 (“[E]xpressing one item of a comonly associated group or series excludes
14 another left unmentioned.”). Given this canon of statutory interpretation, “persons in each State”
15 includes persons with varying legal statuses who live in a state—including undocumented
16 immigrants. *See* Section IV-A-1-a (discussion of the same text in the Constitution).

17 Second, since the time of the Reapportionment Act’s enactment, the ordinary meaning of
18 the phrase “persons in each state” has never been “lawful inhabitants.” To transmute “persons in
19 each state” into “lawful inhabitants,” Defendants must ascribe significant meaning to the
20 preposition “in” before the phrase “each state” because Defendants concede that “persons”
21 includes undocumented immigrants. 2 U.S.C. § 2a(a). Yet the preposition “in” says nothing about
22 lawful status or temporal permanence. Rather, “in” expansively means “[o]f position or location.
23 . . . Of place or position in space or anything having material extension: Within the limits or
24 bounds of, within (any place or thing).” Oxford English Dictionary (2d ed. 1989),
25 <https://www.oed.com/oed2/00113658>. “[A]nything which is *in* a given space is not *out of* it,
26 and *vice versa*.” *Id.* (emphasis in original); *see also* 4 Judicial and Statutory Definitions of Words

1 and Phrases (West 1st ed. 1904) (“‘In,’ when used with reference to geographical locations, is
2 usually employed to designate inclusive space, and not mere nearness of location.”).

3 Given these definitions, it would mar the English language to say that undocumented
4 immigrants living in the United States are somehow “in” their country of origin. The preposition
5 “in” was not used that way around the time of the Reapportionment Act’s enactment. *See, e.g., id.*
6 (quoting F. Montgomery Tony (1898) at 9: “In a somewhat crowded train.”); *id.* (quoting *Taffrail*
7 by Pincher Martin (1916) at xiv. 248: “When I was in the old Somerset, in nineteen-nine,
8 somebody would start the ball rolling”); Corpus of Historical American English, BYU,
9 <https://www.english-corpora.org/coha/> (last visited Oct 18, 2020) (collecting historical usage of
10 the phrase “in each state” by decade). Rather, the ordinary public meaning of “persons in each
11 state” has included and still includes undocumented immigrants living in each state.

12 **b. Even if the Census and Reapportionment Acts only included “inhabitants”**
13 **in the apportionment base, undocumented immigrants are “inhabitants.”**

14 Even if “persons in each state” were to mean “inhabitants,” Plaintiffs prevail. The ordinary
15 public meaning of “inhabitants” includes undocumented immigrants. As the *New York* court
16 effectively explained, “it does not follow that illegal aliens—a category defined by legal status, not
17 residence—can be excluded from the phrase [‘persons in each state’]. To the contrary, the ordinary
18 definition of the term ‘inhabitant’ is ‘one that occupies a particular place regularly, routinely, or for
19 a period of time.’” *New York*, 2020 WL 5422959, at *29 (quoting Merriam-Webster’s College
20 Dictionary 601 (10th ed. 1997)). The *New York* court went on to hold: “however ambiguous the
21 term may be on the margins, it surely encompasses illegal aliens who live in the United States—as
22 millions of illegal aliens indisputably do, some for many years or even decades.” *New York*, 2020
23 WL 5422959, at *29. We agree. The ambiguity in the term “persons in each state”—or the word
24 “inhabitant”—is not so large as to allow the Defendants’ effort to exclude undocumented
25 immigrants.

26 Our search for additional definitions of inhabitation confirms the *New York* court’s
27 understanding. Inhabitation is unrelated to legal status. “Ordinarily *inhabitant* is not a synonym for

1 *citizen or resident.*” Webster’s New International Dictionary 1279 (2d ed. 1943) (emphasis in
 2 original). Instead, from the time before the Founding to today, “inhabiting” a place includes
 3 habitually occupying or sleeping there. *See, e.g.*, Black’s Law Dictionary (11th ed. 2019) (defining
 4 “inhabit” as “[t]o dwell in; to occupy permanently or habitually as a residence”); 4 Judicial and
 5 Statutory Definitions of Words and Phrases (West 1st ed. 1904) (“As where one sleeps. In a case
 6 involving the settlement of a man, it was said that ‘a man properly inhabits where he lies; as in the
 7 case where the house is in two leets, he is to be summoned to that in which his bed is.’” (quoting
 8 *Parish of St. Mary Colechurch v. Radcliffe* [1763], 1 Strange, 60. Eng. Rep. 385)). No matter the
 9 definition of “inhabitant” one chooses, undocumented immigrants inhabit the states in which they
 10 live. *See* Barreto Decl. ¶ 18 (“A clear majority of undocumented immigrants have lived in the
 11 United States for over five years and have families, hold jobs, own houses, and are part of their
 12 community.”).

13 Similarly, the Census Bureau has formally adopted a broad definition of “usual residence.”
 14 As discussed in Section IV-A-3-d, the Census Bureau promulgated the Residence Rule after
 15 extensive notice and comment. “[C]onsistent with the intent of the Census Act of 1790” and
 16 “guided by constitutional and statutory mandates to count all residents of the several states,” the
 17 Residence Rule codifies the Census Bureau’s practice of counting noncitizens. 83 Fed. Reg. at
 18 5526. The Residence Rule requires persons to be counted “at their usual residence, which is the
 19 place where they live and sleep most of the time”—and citizens of foreign countries living in the
 20 United States should be “[c]ounted at the U.S. residence where they live and sleep most of the
 21 time.” *Id.* at 5533.¹⁵

22
 23 ¹⁵ The Residence Rule buttresses our interpretation of the Census and Reapportionment Acts. The
 24 Residence Rule is the “fruit[] of notice-and-comment rulemaking” and thus the sort of agency
 25 action that courts give *Chevron* deference. *United States v. Mead Corp.*, 533 U.S. 218, 230 (2001).
 26 Moreover, to the extent the Presidential Memorandum directs the Census Bureau to interpret the
 27 Residence Rule to exclude undocumented immigrants from the decennial census, that
 interpretation would violate the Residence Rule and fail to meet the conditions for *Auer* deference.

1 In response, Defendants offer a slight variant on arguments they made to the *New York*
 2 court. In *New York*, Defendants made two arguments that “rel[ie]d] almost exclusively on the
 3 Supreme Court’s decision in *Franklin*.” 2020 WL 5422959, at *27. One argument was that aliens
 4 in this country temporarily, such as for business or tourism, may be excluded, but that is because
 5 the United States is not their “usual residence,” not because of their alien status. *Id.* at *30. The
 6 other argument was that illegal aliens are subject to removal from this country. The *New York*
 7 court rightly disagreed. The *New York* court held that undocumented immigrants, unlike tourists,
 8 “indisputably inhabit” a state. *Id.* Moreover, “[a] person living in a State but facing future
 9 removal” is still a “person[] in that State.” *Id.*

10 Here, Defendants also rely on *Franklin v. Massachusetts*. Defs.’ Sur-Reply at 10–11.
 11 Specifically, Defendants rely on the fact that *Franklin* upheld a decision to allocate overseas
 12 servicemembers to their state home of record for apportionment—even though Massachusetts
 13 argued that “the Secretary should have allocated the overseas employees to their overseas stations,
 14 because those were their usual residences.” *Franklin*, 505 U.S. at 804. The *Franklin* Court
 15 reasoned that despite the servicemembers lack of “mere physical presence,” the Secretary could
 16 still include them in the apportionment base. *Id.*

17 In Defendants’ view, it follows that *Franklin* gives Defendants broad discretion to exclude
 18 from apportionment undocumented immigrants who live in the United States. Defendants argue
 19 that the possibility of deportation, even if not certain, means that undocumented immigrants are
 20 not inhabitants of states. Defs.’ Sur-Reply at 13. This argument mirrors one made and rejected in
 21 1929 during the Congressional debate of an amendment to what became the Reapportionment Act
 22 of 1929. *See* 71 Cong. Rec. 1976.

23 Defendants’ argument failed then and fails now. People move within the United States; it is

24 _____
 25 *See Kisor v. Wilkie*, 139 S. Ct. 2400, 2415–18 (2019) (describing conditions for *Auer* deference,
 26 which is judicial deference to agencies’ reasonable readings of ambiguous regulations). The
 27 Residence Rule would also be entitled to deference under *Skidmore v. Swift & Co.*, 323 U.S. 134,
 140 (1944), given the agency’s expertise, historical consistency, and notice and comment process.

1 a right protected under the Constitution. *See Saenz v. Roe*, 526 U.S. 489, 500–04 (1999)
 2 (explaining that the Constitution protects “the right to go from one place to another, including the
 3 right to cross state borders while en route”). Others, both citizens and non-citizens, move to other
 4 countries. The possibility of leaving a state in the future does not impact current residency status.
 5 *See* Residence Rule, 83 Fed. Reg. at 5533–36 (looking to residency, as defined by the Residence
 6 Rule, “on Census Day”). Further, this analysis is not altered even when the government may
 7 control the relocation of a given individual. People in prison can be transferred to a prison in a
 8 different state, by the Federal Bureau of Prisons or by states who house prisoners elsewhere. They
 9 are still residents of their current state for census purposes. *Id.* at 5535 (“Prisoners are counted at
 10 the facility.”). The possibility that their locations might subsequently change does not alter the
 11 state of their current residence.

12 *Franklin* simply confirms the breadth of “usual residence” for the purposes of including
 13 persons in the apportionment base. *Franklin*, 505 U.S. at 804; *see* Section IV-A-5-b, *supra*. “The
 14 term can mean *more than* mere physical presence, and has been used *broadly enough* to include
 15 some element of allegiance or enduring tie to a place.” *Franklin*, 505 U.S. at 804 (emphasis
 16 added). Thus, *Franklin* affirmed the constitutionality of including in the apportionment base—and
 17 so apportioning a fair share of congressional representation to—American servicemembers who
 18 lacked physical presence in the United States. *Id.* at 806. *Franklin* did not reach statutory claims.
 19 *See id.* at 796–801 (stating that “[a]ppellees raise claims under both the APA and Constitution,”
 20 but dismissing the APA claims).

21 *Franklin* did not give Defendants either the constitutional *or* statutory discretion to
 22 exclude, from the apportionment base, undocumented immigrants who are both enduringly tied to
 23 *and* physically present in a state. Defendants’ lack of constitutional discretion is detailed above in
 24 Section IV-A-5-b. Defendants’ lack of statutory discretion follows from the text “persons in each
 25 State.” 2 U.S.C. § 2a(a). By including servicemembers in the apportionment base, the Secretary
 26 essentially construed “persons in each State” to also include servicemembers with enduring ties to
 27

1 (but no physical presence in) that state. Given the history recounted in *Franklin*, the Secretary’s
 2 statutory construction was reasonable. *See, e.g., Franklin*, 505 U.S. at 804 (noting that President
 3 George Washington was counted at his home in Mount Vernon even though he had spent most
 4 weeks away from home).

5 The Presidential Memorandum, by contrast, construes “persons in each State” to *exclude*
 6 undocumented immigrants—the clear majority of which have enduring physical presence in and
 7 ties to a state. This statutory construction contravenes statutory text and *Franklin* itself, not to
 8 mention statutory and legislative history, 230 years of historical practice, and Supreme Court case
 9 law discussed below. *See* Section IV-B-3 to 5, *infra*. In sum, undocumented immigrants are
 10 “persons in each state” where they reside—their usual residence.

11 **2. The statutes also provide that apportionment shall be based on the results of
 12 the Census alone.**

13 Plaintiffs’ other statutory argument is that the Presidential Memorandum further violates
 14 the statutes by basing an apportionment on something other than the “decennial census of the
 15 population,” as that term is used in the Reapportionment Act. 2 U.S.C. § 2a(a). The *New York*
 16 court order reached that conclusion. *See New York*, 2020 WL 5422959, at *25–29. We do, as well.

17 We agree with the *New York* court that the statutory scheme requires the apportionment
 18 base be the tabulation delivered to the President in the 141(b) statement. The Reapportionment Act
 19 states the “President shall transmit to the Congress a statement showing the whole number of
 20 persons in each State . . . as ascertained under the . . . decennial census . . . and the number of
 21 Representatives to which each State would be entitled under . . . the method of equal proportions
 22” 2 U.S.C. § 2a(a). The Supreme Court stated that Section 141(b) of the Census Act mandates
 23 that the census result in “a population count that will be used to apportion representatives, *see*
 24 § 141(b), 2 U. S. C. § 2a . . .” *Dep’t of Commerce v. New York*, 139 S. Ct. 2551, 2568–69 (2019)
 25 (discussing provisions of the Census Act which “constrains the Secretary’s authority to determine
 26 the form and content of the census”). The plain text of Section 2a(a) requires that the
 27 apportionment base come from the decennial census. This tabulation must come from the

1 Secretary who oversees the census process and transmits this data to the President under Section
2 141(b). *Id.*

3 Accordingly, Defendants’ reliance on *Franklin* is again misplaced. “*Franklin* does not
4 suggest, let alone hold, that the President has authority to use something other than the census
5 when calculating the reapportionment; indeed, the Court did not even consider the plaintiffs’
6 challenge to the apportionment. At most, *Franklin* establishes that the President retains his ‘usual
7 superintendent role’ with respect to the conduct of the census—and can direct the Secretary to
8 make ‘policy judgments that result in “the decennial census.”’” *New York*, 2020 WL 5422959, at
9 *28 (emphasis in original) (quoting *Franklin* 505 U.S. at 799–800).

10 In addition to agreeing with the *New York* court on the above, we offer three additional
11 observations that support the analysis and conclusion above and in the *New York* court order.

12 First, Defendants argue to us, as it appears they may not have argued in the *New York* case,
13 that information generated separately from the normal Census Bureau process may still be
14 included within the “decennial census” as that term is used in the statute. The Presidential
15 Memorandum itself suggests to the contrary, however. As described by Defendants themselves, it
16 directs the Secretary “to report two sets of numbers.” Defs.’ Opp’n at 32. One set of numbers will
17 be “tabulated according to the methodology set forth in *Final 2020 Census Residence Criteria and*
18 *Residence Situations*.” 85 Fed. Reg. at 44,680. The other will be a set of figures adjusted by
19 information from unspecified sources, eliminating undocumented immigrants, despite their
20 inclusion in the normal Census tabulation based on their actual residences. *Id.* That is not a normal
21 understanding of the decennial census tabulation. The set of figures excluding undocumented
22 immigrants cannot be properly understood as being part of the decennial census as required under
23 2 U.S.C. § 2a(a).

24 Second, Defendants posit that the President may obtain the information requested in the
25 Presidential Memorandum under his power under the Opinions Clause, U.S. Const., art. II, § 2, to
26 “require the Opinion, in writing, of the principal Officer in each of the executive Departments.”

1 Defs.’ Opp’n at 32–33; Defs.’ Sur-Reply at 14. The *New York* court order noted a somewhat
 2 similar argument but only in passing, as it concluded that argument to have been raised untimely
 3 and thus waived. *New York*, 2020 WL 5422959, at * 34 n.19. The substance of the argument does
 4 not persuade us. There is nothing to keep the President from requesting information from the
 5 Secretary, including, we assume, the population by state excluding undocumented immigrants. But
 6 information provided by the Secretary based on whatever sources does not make the data from the
 7 decennial census. If it is not, it cannot be used for apportionment. 2 U.S.C. § 2a(a).

8 Third, the Administration has indicated it will do everything in its power to meet the
 9 census tabulation deadline of December 31, 2020. ECF No. 98-3, at 12–13 (government’s reply
 10 brief, filed in support of application for stay pending appeal in *Ross v. National Urban League*,
 11 No. 20A62). One of the ways the government will minimize the census processing time is that it
 12 will “postpon[e] certain steps necessary to fully implement the Presidential Memorandum until
 13 after December 31.” *Id.* at 12. The Secretary will, therefore, submit his 141(b) report prior to the
 14 finalization of the data requested by the Presidential Memorandum. *Id.* That further demonstrates
 15 that the tabulation called for under the Memorandum will not be based on the census. That
 16 submission would necessarily be after the December 31, 2020 deadline in Section 141(b). The
 17 government has made clear that it views the December 31, 2020 deadline for transmittal of the
 18 141(b) statement to be “mandatory language that is unambiguous and unconditional.” *See* ECF
 19 No. 98-3, at 5 (government’s reply brief, filed in support of application for stay pending appeal in
 20 *Ross v. National Urban League*, No. 20A62). This view is confirmed by the plain text of the Act:
 21 “[t]he tabulation . . . shall be completed within 9 months after the census date and reported by the
 22 Secretary to the President of the United States.” 13 U.S.C. § 141(b). As such, submitting the
 23 141(b) statement *after* December 31, 2021 would violate the Census Act.

24 Congress has mandated through the statutes it enacted that the numbers used to apportion
 25 House seats among the states will come from the decennial census. By deviating from that
 26 approach, the Presidential Memorandum violates the statutes and exceeds the authority granted the
 27

1 President. Nothing in the Census Act nor Reapportionment Act allows the President discretion to
 2 exclude undocumented immigrants from the apportionment base.

3 **3. Statutory and legislative history confirm that the apportionment base includes**
 4 **undocumented immigrants.**

5 Statutory and legislative history further support our conclusion. *See* Section I-B, *supra*
 6 (discussion of statutory history, such as rejected statutory amendments); *New York*, 2020 WL
 7 5422959, at *30–32 (discussion of legislative history, such as the Senate and House Reports,
 8 which we will not repeat here). Congress intended apportionment to be done based on the full
 9 population, including undocumented immigrants.

10 The statutory history of the Reapportionment Act particularly informs the meaning of the
 11 relevant portions of the Census Act, subsequently adopted, given the interaction between the two
 12 Acts. “It is a commonplace of statutory interpretation that Congress legislates against the backdrop
 13 of existing law.” *See Parker Drilling Mgmt. Servs., Ltd. v. Newton*, 139 S. Ct. 1881, 1890 (2019)
 14 (internal quotation marks omitted). Even if the constitutional analysis of the Congress that enacted
 15 the statute was flawed—and we do not think it was—it was that belief that dictated the intent of
 16 that Congress. *Cf. Green v. Bock Laundry*, 490 U.S. 504, 508 (1989) (“Our task in deciding this
 17 case, however, is not to fashion the rule we deem desirable but to identify the rule that Congress
 18 fashioned.”).

19 Perhaps of greatest significance from the history is the fact that during the consideration of
 20 the Reapportionment Act, both houses of Congress considered and rejected amendments which
 21 would have excluded “aliens” from the apportionment base. *See* Section I-B, *supra*; *see also, e.g.*,
 22 71 Cong. Rec. 2065 (restating the proposed amendment prior to Senate vote); *id.* at 2360–61, 2451
 23 (House entertaining multiple such amendments, one of them twice). The status of unlawful
 24 immigrants was explicitly addressed during the debate in each chamber. *Id.* at 1967, 1972–76
 25 (Senate debates); *id.* at 2260, 2264–68, 2276, 2338–39 (House debates). The Senate proposal was
 26 rejected, *id.* at 2065, after the Senate Legislative Counsel opined that Congress lacked the
 27 constitutional authority to exclude “aliens from enumeration for the purpose of apportionment of

1 Representatives among the States.” *Id.* at 1821–22. The House amendments were also rejected. *Id.*
2 at 2449–50, 2454.

3 In sum, the policy announced in the Presidential Memorandum of excluding
4 undocumented immigrants from the population to be used to assign seats in the U.S. House of
5 Representative violates the plain text of the Census Act and the Reapportionment Act. The history
6 of those statutes confirms that conclusion.

7 **4. 230 years of historical practice reflects that all persons residing in a state**
8 **regardless of immigration status are included in the apportionment base.**

9 Historical practice buttresses our holding too. For over two hundred years, Congress, the
10 Department of Justice, and the Census Bureau have all consistently concluded that the
11 Constitution mandates that the apportionment base must include noncitizens. This consistent
12 understanding of the Constitution’s requirements by the executive and legislative branches of
13 government affirms the conclusion that undocumented immigrants must be included in the
14 apportionment base.

15 “Unsurprisingly, the government’s early, longstanding, and consistent interpretation of a
16 statute, regulation, or other legal instrument could count as powerful evidence of its original
17 public meaning.” *Kisor*, 139 S. Ct. at 2426 (Gorsuch, J., concurring in the judgment for four
18 justices) (emphasis omitted) (citing Aditya Bamzai, *The Origins of Judicial Deference to*
19 *Executive Interpretation*, 126 Yale L.J. 908, 930–947 (2017)).

20 From the original 1790 Census onwards, the government has consistently included
21 noncitizens and persons without legal status in the apportionment base. *See* Section IV-A-3, *supra*
22 (describing over two hundred years of consistent historical practice by Congress, the DOJ, and the
23 Census Bureau).

24 The first census statute, for example, instructed “assistants” to count “the number of the
25 *inhabitants* within their respective districts,” not the number of citizens. Act of Mar. 1, 1790, § 1, 1
26 Stat. 101 (emphasis added); *see* Section I-C, *supra*. As noted in *Franklin*, the first enumeration Act
27 of 1790 described the required tie to the state in terms of physical residence—“usual place of

1 abode,” “inhabitant,” “usual resident,”—not one’s legal status. *Franklin*, 505 U.S. at 804. Thus,
 2 the “[t]raditional understanding of the Constitution and the legal direction provided by the
 3 Congress has meant that for every census since the first one in 1790, [the Census Bureau] ha[s]
 4 tried to count residents of the country, regardless of their status.” *Enumeration of Undocumented*
 5 *Aliens in the Decennial Census: Hearing on S. 99-314 Before the Subcomm. on Energy, Nuclear*
 6 *Proliferation, & Gov’t Processes of the S. Comm. On Governmental Affairs, 99th Cong. 19 (1985)*
 7 (statement of Census Director John Keane); *see also FAIR*, 486 F. Supp. at 576 (“The Census
 8 Bureau has always attempted to count every person residing in a state on census day, and the
 9 population base for purposes of apportionment has always included all persons, including aliens
 10 both lawfully and unlawfully within our borders.”).

11 Early historical practice also reflects that the census counted persons who were known to
 12 be in a state illegally, including escaped slaves. *See* Section IV-A-3-a, *supra*. Although escaped
 13 slaves were unlawfully present in northern states in 1860, they were counted in the 1860 Census as
 14 part of the apportionment base in those northern states. *See* U.S. Census Bureau, 1860 Census:
 15 Population of the United States at vi-vii, xi, xvxi. This early historical practice reflects that even
 16 where persons were in a state unlawfully, they were still counted as part of the apportionment base
 17 of that state.

18 The Census and Reapportionment Acts were authored against the longstanding historical
 19 practice of counting all persons residing in a state, including persons who were in a state illegally.
 20 No effort was made to distinguish this practice. The historical context therefore only serves to
 21 reinforce that Congress mandated that all persons who reside in each state must be included in the
 22 apportionment base, regardless of their legal status. As noted above, the Bureau’s most recent
 23 Residence Rule, drawing from the first Census Act of 1790 and implementing the Constitution and
 24 current statutes, counts persons at “their usual residence, which is the place where they live and
 25 sleep most of the time,” irrespective of legal immigration status. 83 Fed. Reg. at 5533.

1 **5. Congress enacted the Census and Reapportionment Acts against the backdrop**
 2 **of Supreme Court holdings that undocumented immigrants are “persons”**
 3 **within a territorial jurisdiction.**

4 In fact, before Congress enacted the Census and Reapportionment Acts, the Supreme Court
 5 had already held that noncitizens were persons within a state’s jurisdiction. As discussed in
 6 Section IV-A-4, *Yick Wo* held that noncitizens statutorily barred from naturalization were persons
 7 within a state’s jurisdiction and were thus protected by the Fourteenth Amendment’s Equal
 8 Protection Clause. Similarly, *Plyler* held that undocumented immigrants were persons within a
 9 state’s jurisdiction under the Fourteenth Amendment. Thus, Supreme Court case law supports the
 10 statutory interpretation of the Census and Reapportionments Acts that require the inclusion of
 11 undocumented immigrants in the apportionment base.

12 **6. The Presidential Memorandum violates the separation of powers.**

13 Our conclusions regarding the statutory violations lead us to note another constitutional
 14 concern asserted by Plaintiffs, that the Presidential Memorandum violates the constitutional
 15 separation of powers. We discuss it here because it is premised on the conclusion discussed above
 16 that the proposed exclusion violates the enactments of Congress and the authority provided to the
 17 Executive Branch in those statutes.¹⁶

18 The Constitution’s Enumeration Clause “vests Congress with virtually unlimited discretion
 19 in conducting the decennial ‘actual Enumeration.’” *Dep’t of Commerce*, 139 S. Ct. at 2566
 20 (quoting *Wisconsin v. City of New York*, 517 U.S. 1, 19 (1996)). Congress has “delegated its broad
 21 authority over the census to the Secretary.” *Id.* Similarly, the Constitution requires Congress
 22 reapportion Representatives based on the decennial enumeration. U.S. Const., art. I, § 2, cl. 3.
 23 Congress delegated some of its reapportionment duties to the Secretary and the President. *See* 13
 24 U.S.C. § 141(b); 2 U.S.C. § 2a(a). However, this delegation is not without constraints. It is limited
 25 by the text of the enabling statutes.

26

 27 ¹⁶ The *New York* court did not address this issue as the plaintiffs in that case did not make a
 28 separation of powers claim.

1 The Constitution vested the power to enumerate and reapportion solely in Congress. U.S.
2 Const., art. I, § 2, cl. 3. The President’s only power in this area is to “take Care that the Laws be
3 faithfully executed.” U.S. Const. art. II, § 3; *see also Youngstown*, 343 U.S. at 587 (“In the
4 framework of our Constitution, the President’s power to see that the laws are faithfully executed
5 refutes the idea that he is to be a lawmaker.”). As the Presidential Memorandum is “incompatible”
6 with the “expressed or implied will of Congress,” the President’s “power is at its lowest ebb.”
7 *Youngstown*, 343 U.S. at 637 (Jackson, J., concurring); *accord Zivotofsky ex rel. Zivotofsky v.*
8 *Kerry*, 576 U.S. 1, 10 (2015) (quoting *Youngstown*, 343 U.S. at 637 (Jackson, J., concurring)).
9 Consequently, the President “may rely solely on powers the Constitution grants to him alone.”
10 *Zivotofsky*, 576 U.S. at 10. The Presidential Memorandum is an incompatible presidential action
11 and, therefore, violates the separation of powers doctrine.

12 Under the doctrine of constitutional avoidance, noted in the introduction to Section IV, we
13 seek to avoid constitutional issues when we can decide a case on statutory grounds. Thus, we treat
14 this issue as we treat the constitutional concerns identified in Section IV-A. Our conclusion that
15 the policy announced in the Presidential Memorandum violates the relevant statutes is sufficient to
16 support our ultimate conclusion.

17 All told, the Presidential Memorandum is incompatible with the statutes that govern the
18 process of determining the population for the purpose of apportioning seats in the U.S. House of
19 Representative among the states. It seeks to do what Congress has not authorized and what the
20 President does not have the power to do. The Census Act and the Reapportionment Act do not
21 grant the President or the Secretary the authority to exclude undocumented immigrants from the
22 apportionment process.

23 **C. Declaratory and injunctive relief should issue.**

24 Having concluded that the Presidential Memorandum violates federal constitutional and
25 statutory law, we now turn to the issue of remedies. Plaintiffs ask for both declaratory relief and an
26 injunction. *See City of San Jose v. Trump*, No. 20-5167 RRC-LHK-EMC (ECF No. 63-1)

27

28

1 (proposed order).

2 **1. Declaratory relief is warranted.**

3 The Declaratory Judgment Act provides that, “any court of the United States . . . may
4 declare the rights and other legal relations of any interested party seeking such declaration,
5 whether or not further relief is or could be sought.” 28 U.S.C. § 2201(a). “The existence of another
6 adequate remedy does not preclude a declaratory judgment that is otherwise appropriate.” Fed. R.
7 Civ. P. 57. Defendants only oppose declaratory relief in passing, without any detailed discussion.
8 Defs.’ Opp’n at 15; Defs.’ Sur-Reply at 14–16.

9 We agree with the *New York* court that declaratory relief is warranted here. *See New York*,
10 2020 WL 5422959, at *35. The policy announced in the Presidential Memorandum is unlawful
11 under the Constitution and the applicable statutes, as described in this order. This declaration will
12 help ensure that it is not implemented without necessitating injunctive relief against the President.
13 It will protect Plaintiffs against injuries. Declaratory relief will “remove the harm” Plaintiffs face
14 in a “tangible way.” *Warth v. Seldin*, 422 U.S. 490, 505, 508 (1975).

15 **2. A permanent injunction is warranted.**

16 For injunctive relief, Plaintiffs ask that “Defendants Secretary of Commerce Wilber [sic] J.
17 Ross, U.S. Department of Commerce, Director of the Census Bureau Steven Dillingham, and U.S.
18 Census Bureau [be] enjoined from excluding all undocumented persons from the apportionment
19 base or assisting President Trump in that effort.” Proposed Order, ECF No. 63-1.

20 “According to well-established principles of equity, a plaintiff seeking a permanent
21 injunction must satisfy a four-factor test before a court may grant such relief. A plaintiff must
22 demonstrate:”

23 (1) that it has suffered an irreparable injury; (2) that remedies available at law, such
24 as monetary damages, are inadequate to compensate for that injury; (3) that,
25 considering the balance of hardships between the plaintiff and defendant, a remedy
26 in equity is warranted; and (4) that the public interest would not be disserved by a
permanent injunction.

27 *eBay Inc. v. MercExchange, L.L.C.*, 547 U.S. 388, 391 (2006).

1 In the instant case, Plaintiffs have satisfied all four factors. As to the first two factors, both
2 the apportionment injury and census degradation injury are irreparable and cannot be addressed
3 through a legal remedy such as monetary damages. Defendants contend that the apportionment
4 injury is not irreparable “because an erroneous or invalid apportionment number can be remedied
5 after the fact.” Defs.’ Opp’n at 37. Defendants are essentially re-arguing ripeness here. For the
6 reasons stated above, the dispute at issue is ripe. Defendants’ argument misses the ultimate point.
7 An error in apportionment irreparably dilutes voting power and the allocation of political
8 representation. Moreover, census degradation would affect federal funding, state and local
9 redistricting, and the provision of local government services. Neither injury can be addressed
10 through a legal remedy.

11 In contrast to the irreparable injuries identified by Plaintiffs, Defendants have not
12 demonstrated any hardship. As indicated above, a permanent injunction would not impose any
13 obstacle to the conducting of the census. Moreover, Defendants could still collect information to
14 count undocumented immigrants, if they so choose. *Cf. New York*, 2020 WL 5422959, at *34
15 (noting that “any such hardship to Defendants can be mitigated, if not eliminated, by crafting the
16 injunction . . . to bar only the inclusion in the Secretary’s Section 141 report of data concerning the
17 number of illegal aliens in each State and to allow the Census Bureau to continue its research
18 efforts”); *see also New York*, 2020 WL 5796815, at *2 (in denying government’s motion to stay
19 judgment pending appeal, holding that Defendants failed to show that they would suffer
20 irreparable injury without a stay). Finally, Defendants will not suffer any cognizable hardship from
21 being enjoined from carrying out a policy, which even if issued by the President, violates the law.
22 The balance of hardships tips sharply in Plaintiffs’ favor. Nor would the public interest be
23 disserved by a permanent injunction that prohibits an unlawful policy.

24 Accordingly, we grant a permanent injunction in favor of Plaintiffs. The *New York* court’s
25 permanent injunction was limited to the Secretary’s December 31, 2020 Section 141(b) report to
26 the President. We expand the scope of the permanent injunction to also apply to any reports
27

1 otherwise provided by the Secretary as part of the decennial census. We do so because Defendants
 2 stated after the *New York* permanent injunction was issued that the Secretary will provide the
 3 number of ICE detainees to the President on December 31, 2020 but will provide other numbers to
 4 the President pursuant to the Presidential Memorandum on January 11, 2020. *See* Email from Ron
 5 S. Jarmin, Dep. Dir., Census Bureau, to Wilbur Ross, Sec. of Commerce, *Nat'l Urban League v.*
 6 *Ross*, No. 20-cv-05799-LHK (Sept. 28, 2020), ECF No. 256-1 (stating that the Census Bureau will
 7 “finish the processing of the resident population, federally affiliated overseas and, if requested,
 8 unlawful aliens in ICE Detention Centers by 12/31” while “[o]ther PM [Presidential
 9 Memorandum] related outputs would be pushed to 1/11/2021”). Thus, we issue the following
 10 permanent injunction, which adds “or otherwise as part of the decennial census” to the *New York*
 11 permanent injunction:

12 The Court enjoins all Defendants other than the President from including in the
 13 Secretary's report to the President pursuant to Section 141(b) any “information
 14 permitting the President . . . to exercise the President's discretion to carry out the
 15 policy set forth in section 2” of the Presidential Memorandum—that is, any
 16 information concerning the number of aliens in each State “who are not in a lawful
 17 immigration status under the Immigration and Nationality Act”—in the Secretary’s
 18 report to the President pursuant to 13 U.S.C. § 141(b) or otherwise as part of the
 19 decennial census. Presidential Memorandum, 85 Fed. Reg. at 44,680 Presidential
 20 Memorandum, 85 Fed. Reg. at 44,680. Instead, consistent with the Census Act, the
 21 Secretary’s Section 141(b) report shall include only “[t]he tabulation of total
 22 population by States under” Section 141(a) “as required for the apportionment of
 23 Representatives in Congress among the several States,” 13 U.S.C. § 141(b)—that
 24 is, “information tabulated according to the methodology set forth in [the Residence
 25 Rule],” Presidential Memorandum, 85 Fed. Reg. at 44,680.

22 V. CONCLUSION

23 For the foregoing reasons, the Court GRANTS Plaintiffs’ Motion for Partial Summary
 24 Judgment and DENIES Defendants’ Motion to Dismiss, or in the Alternative, Motion for Partial
 25 Summary Judgment.¹⁷

26 ¹⁷ We believe that this matter was properly heard by a three-judge court for the reasons stated in

IT IS SO ORDERED.

Dated: October 22, 2020

_____/s/_____
RICHARD R. CLIFTON
United States Circuit Judge

_____/s/_____
LUCY H. KOH
United States District Judge

_____/s/_____
EDWARD M. CHEN
United States District Judge

Judge Koh’s request for the appointment of such a panel. *See* ECF No. 49. Even so, we follow the lead of prior three-judge courts by certifying that Judge Koh, to whom these cases were originally assigned, individually arrived at the same conclusions that we reached collectively. *See Swift & Co. v. Wickham*, 382 U.S. 111, 114 n.4 (1965) (noting with approval that “[t]his procedure for minimizing prejudice to litigants when the jurisdiction of a three-judge court is unclear has been used before”); *New York*, 2020 WL 5422959, at *36 n.21 (adopting this procedure); *FAIR*, 486 F. Supp. at 578 (same).
