

Plaintiffs' Exhibit 2, "DCCC Draft Map"

To Whom It May Concern,

We are pleased to submit this proposed congressional map to the California legislature for their consideration. We strongly believe that this map serves the best interest of California voters, while also attempting to push back against the corrupt scheme occurring in Texas and other Republican-majority states where Republicans – doing the bidding of their DC party bosses – are considering adopting a clearly racially gerrymandered, partisan map at the expense of their voters.

Our proposed map was created using traditional redistricting criteria, consistent with guidelines laid out by the California's Citizen Redistricting Commission. It allows for more compact districts than in the current Commission-drawn map, keeps more communities and neighborhoods together, splits fewer cities, and makes minimal disruptions to the Commission-drawn map so as to impact as few residents as possible. This is a striking contrast from Texas' proposed gerrymander which redrew all but one of their 38 congressional districts to minimize the state's growing minority voting strength.

Democrats cannot sit idly by while Texas Republicans and their DC party bosses attempt to steal congressional seats and rig the election in their favor, well before any votes have been cast. Unlike what Texas Republicans are attempting to do in letting politicians choose their own voters, we believe that voters should be able to decide who represents them.

Sincerely,

Julie Merz
Executive Director, DCCC
