SENATE COMMITTEE ON REAPPORTIONMENT

WORKSHOP ON STATE SENATE MAPS

NOVEMBER 17, 2021

State Senate Redistricting Plans in Florida

- Committee staff has produced a series of redistricting plans per the directives received on October 18, 2021.
- Districts are numbered to be roughly analogous to their predecessor districts, and may be renumbered.
- In drawing plans, staff relied on the plain language of the constitution, federal law, and existing judicial precedent to ensure that plans comply with the complex layering of federal and state standards.
- Districts were drawn to balance co-equal Tier Two standards of Article III, Sections 20 and 21 of the Florida Constitution, unless doing so would conflict with Tier One standards.

State Senate Redistricting Plans in Florida

- To comply with Tier-One standards:
 - Districts were drawn without reviewing any political data other than where a review of the political data was required to perform an appropriate functional analysis to evaluate whether or not a district denied or abridged a racial or language minority group's ability to participate in the political process or diminished their ability to elect representatives of their choice.
 - Districts were drawn without the use of any residence information of any sitting member of the Florida Legislature or Congress.
 - Districts were drawn without regard to the preservation of existing district boundaries.

State Senate Redistricting Plans in Florida

- To comply with Tier-Two standards, districts were drawn:
 - To be as nearly equal in population as practicable, with district population deviations of less than 1% of the ideal population of 538,455.
 - To be visually compact in relation to their shape and geography. Mathematical scores were used where appropriate.
 - To use county boundaries where feasible. In less populated areas, whole counties were grouped together to make a district or set of districts. In more populated areas where it was feasible to do so, districts were kept wholly within a county.
 - To use geographic features that are easily recognizable and readily ascertainable as district boundaries where feasible. The Boundary Analysis for each plan illustrates the rate at which railways, interstates, federal and state highways, and large water bodies were used as district boundaries for each district.
 - To keep cities whole where doing so was feasible, while recognizing the impermanent and irregular shapes of municipal boundaries. If or when a city was split, static geographic features were sought out for usage as district boundaries.
- Accordingly, plans contain trade-offs within the co-equal Tier Two criteria, and are presented for consideration and exercise of legislative discretion.

State Senate Redistricting Plans in Florida

- Plans are published and available on www.floridaredistricting.gov, where they may be viewed interactively or downloaded from the [Submitted Plans](#) page for independent analysis:
 - [S000S8010](#)
 - [S000S8012](#)
 - [S000S8014](#)
 - [S000S8016](#)
- Plan packets are part of the meeting materials published by the committee and available on the Select Subcommittee's page:
 - [Select Subcommittee on Legislative Reapportionment](#)

Plan Packets

- Plan packets contain everything used to analyze a redistricting plan. Data comes from the Redistricting Application, and is reformatted for easier consumption.
 - Statewide map, with insets of South Florida, Jacksonville, Tampa Bay, and Orlando.
 - Census and Boundary Statistics
 - Split Counties and Cities
 - Functional Analysis of districts protected from non-diminishment standards in Tier-One of Article III Sections 20 and 21 of the Florida Constitution.

Census and Boundary Statistics

- Census and Boundary Statistics
 - District's population deviation from the ideal, also expressed as a percentage
 - Voting Age Population for
 - BVAP – respondents who identified as being Black either singly or in combination with some other race and/or ethnicity, including Hispanic
 - HVAP – respondents who identified as Hispanic and of any race or combination of races, including Black
 - District Area in square miles, Perimeter in miles, and Compactness scores (Convex Hull, Polsby-Popper, and Reock).
 - Counts of whole and partial counties and cities within each district.
 - Counts of counties and cities that have all their population in only one district.
 - Each district's boundary coincidence with certain types of features identified by the US Census Bureau in their TIGER layers. These include those recognized by the Florida Supreme Court as political and geographic boundaries:
 - City boundaries
 - County boundaries
 - Primary and Secondary Roads (Interstates, US Highways, and State Highways)
 - Railroads
 - Water features with a contiguous area of greater than ten acres.
 - The portion of each district's boundary that does not coincide with these features.

Split Cities and Counties

- Split Counties
 - List of counties that have two or more districts. Total population is presented along with the area (square miles), and is also expressed as a percentage.
- Split Cities
 - List of cities that have two or more districts. Total population is presented along with the area (square miles), and is also expressed as a percentage.

Functional Analysis – Summary

- Functional Analysis - Summary
 - Lists only the districts for which it is necessary to evaluate whether or not a district denies or abridges a racial or language minority group's ability to participate in the political process, or diminishes their ability to elect representatives of their choice.
 - BVAP – respondents who identified as being Black either singly or in combination with some other race and/or ethnicity, including Hispanic
 - HVAP – respondents who identified as Hispanic and of any race or combination of races, including Black
 - 2020 General Election Voter Registration Information for:
 - Registration by Party
 - Registration by Race or Ethnicity
 - Registration by Race or Ethnicity and Party
 - Registration by Party and Race or Ethnicity

Functional Analysis – Summary

- Average of Voter Turnout in 2012, 2014, 2016, 2018, and 2020 Primary Elections
 - Turnout by Party and Race or Ethnicity
- Average of Voter Turnout in 2012, 2014, 2016, 2018, and 2020 General Elections
 - Turnout by Party
 - Turnout by Party and Race or Ethnicity
 - Turnout by Race or Ethnicity and Party
- General Election Performance in Statewide Elections 2012-2020
 - Average Performance (Vote Share) for the Democrat and Republican candidate
 - Count of Wins in Statewide contests for Democrat and Republican candidates
 - Margins
 - Maximum margin of victory in a statewide contest for either the Democrat or Republican candidate
 - Minimum margin of victory in a statewide contest for either the Democrat or Republican candidate
 - Average margin of victory in statewide contests for either the Democrat or Republican candidate

Functional Analysis – Returns

- Shows the percentage of votes received by each candidate in contests for which there was a statewide primary election (2012, 2014, 2016, 2018).
- Shows the percentage of votes received by each candidate in contests for which there was a statewide General Election (2012, 2014, 2016, 2018, 2020).

MEMORANDUM

To: Mr. Jay Ferrin, Staff Director
From: Senator Ray Rodrigues, Chair
Subject: Committee Directives to Staff on Map-Drawing
Date: October 18, 2021

Senators of the Committee on Reapportionment have reviewed the census data, the features of the map-drawing application, and the relevant criteria, history, and legal standards. I believe that we have the proper foundation upon which to direct you and your staff to produce a series of maps for our consideration.

First and foremost, you are directed to the plain language of the constitution, federal law, and the judicial precedent that exists today in regards to that language. The Constitution sets forth two tiers of redistricting standards, and provides that the Tier-Two standards apply unless complying with them would conflict with the Tier-One standards or with federal law. The Tier-One standards control in the event of a conflict with Tier-Two standards, but in all other circumstances the Tier-Two standards must control the drawing of district lines. Therefore staff is directed to comply with the objective criteria outlined in Tier Two of Article III Sections 20 and 21 of the Florida Constitution, balancing them in a manner that does not establish any priority of one standard over another, unless complying with the Tier-Two standards would conflict with Tier-One standards or federal law.

In accordance with the Tier Two standard of the constitutional requirements related to equal population, you are directed to prepare Senate plans with district population deviations not to exceed 1% of the ideal population of 538,455 people, and to prepare Congressional plans with population deviations of plus or minus one person of the ideal population of 769,221 people.

To comply with the Tier Two standard related to compactness, you are directed to draw districts that are visually compact in relation to their shape and geography, and to use mathematical compactness scores where appropriate.

Committee Directives to Staff on Map-Drawing

To comply with the Tier Two standard related to utilizing existing political boundaries, you are directed to examine the use of county boundaries where feasible. Furthermore, you are directed to explore concepts that, where feasible, result in districts consisting of whole counties in less populated areas, and to explore concepts that, where feasible, keep districts wholly within a county in the more densely populated areas.

With respect to municipal boundaries, you are directed to explore concepts that, where feasible, keep cities whole while also considering the impermanent and changing nature of municipal boundaries.

You are further directed to examine the use of existing geographic boundaries where feasible. Specifically railways, interstates, federal and state highways, and large water bodies such as those that were deemed to be easily recognizable and readily ascertainable by Florida's Supreme Court. We recognize that these geographic features afford us an opportunity to create districts with static boundaries, and would ask that Staff present the boundary analysis report with each plan so that we can determine coincidence of districts' boundaries with these features.

Further, you are directed, when drawing compact districts consistent with the population equality requirements, and that utilize political and geographic boundaries where feasible, to confirm that the districts comply with the Tier-One constitutional standards and with federal law, specifically, that that districts are not drawn with the result of denying or abridging the equal opportunity of racial or language minorities to participate in the political process or diminish their ability to elect representatives of their choice. You are directed to conduct a functional analysis on relevant districts to confirm that any map presented for consideration by this Committee or its Select Subcommittees complies with these Tier-One requirements of the Florida Constitution and with the federal Voting Rights Act.

Regarding compliance with the Tier One standard related to the intent to favor or disfavor a political party, you are directed to draw districts without reviewing political data other than where a review of political data is required to perform an appropriate functional analysis to evaluate whether a minority group has the ability to elect representatives of choice.

To comply with the Tier One standard related to intent to favor or disfavor an incumbent, you are directed to draw districts without the use of any residence information of any sitting member of the Florida Legislature or Congress and to draw districts without regard to the preservation of existing district boundaries.

We believe that by limiting the considerations to those adopted by the citizens of Florida, this process will produce constitutionally compliant maps. While the standards that are to be considered require a balancing act it, is important to remember that the standards themselves are

not optional. Choices made by staff and approved by this committee should be made based on compliance with the objective constitutional criteria.

You are directed to produce a series of plans for each of our Select Subcommittees to workshop. All plans you bring forward must comply with the complex layering of federal and state standards. You will be asked to explain the various trade-offs within the co-equal Tier Two standards presented in each plan. It is within the balancing of these tradeoffs that Senators on the committee must exercise our legislative discretion and produce a constitutionally compliant map.

If staff receives any suggestion that a plan be drafted or changed with the intent to favor or disfavor any incumbent or political party, staff is directed to disregard the suggestion entirely, document the conversation in writing, and report the conversation directly to the Senate President.

Thank you for your attention to these directives. Please notify me, as well as Chairs Bradley and Burgess when you have completed work pertinent to their respective select subcommittees so that workshops can be noticed. Again, thank you and we look forward to reviewing your work.
