By submitting this form, I acknowledge and agree to the following terms and conditions:

YES, I understand that my comments, suggestions, or map submission may be displayed on www.FloridaRedistricting.gov or other public websites maintained by the Florida Legislature.

YES, I understand that my communications with the Florida Legislature, including this form and any submitted materials, are subject to public records laws in Florida.

YES, I understand that I may be contacted by a member of the legislature or their staff to answer questions about my comments, suggestions, or map submission.

YES, I understand that similar to other pieces of legislation, input and ideas from members of the public must be proposed by Legislators in order to become part of bills or amendments.

The Florida Legislature acknowledges the importance of transparency throughout the entire redistricting process. By engaging in the redistricting process – through comments, suggestions, or map submissions – it is possible your detailed communications and submissions may be included, reviewed, and examined in all steps of the legislative process until, and even after, new district maps are enacted into law.

Details:

This partial plan alters seven districts from the staff-drawn maps published Nov. 10, changing CDs 2, 3, 4, 5, 6, 11, and 28. My goal was to improve Tier Two compliance in the following ways (compared to staff drafts in parentheses):

- make Alachua County, Gainesville, Newberry, and Ocala whole (each are split in 8002, 8006)
- remove CD 2 from Marion so that it doesn't stretch so far southeast, improving visual compactness while also using county lines for the entire eastern boundary (CD 2 includes part of Marion in 8004, 8008; part of Alachua in 8002, 8006)
- make Sumter County, Mascotte, and Groveland whole (each are split in in all drafts)
- draw a more compact boundary between 4/6, following CR 214 (an exceedingly straight road that splits St. Johns County in half) from the St. Johns River to the railroad tracks in St. Augustine, up the mighty San Sebastian River to SR 16, and over to A1A (boundary is irregular in all drafts)

Compared with the benchmark, CD 5 does not diminish Black voters' ability to elect candidates of choice. My CD 5 has comparable stats for Black share of the 2020 and 2018 Dem primary electorates (which both actually increase from the benchmark), Black share of 2020 registered Dems, and recent statewide election results.

This plan introduces new city splits between 6/11 in Eustis and Mount Dora in order to follow major roads (US 441, SR 19), but these splits could be avoided with a slightly more irregular boundary line.

I did not use political, elections, or registration data in developing this plan, with the exception of comparing the benchmark CD 5 with mine to ensure no diminishment of minority voters' ability to elect candidates of choice. I did not draw this plan with the intent to favor or disfavor any political party, incumbent, or potential candidate.

I respectfully submit this plan for your consideration. The altered districts can be plugged into any of the staff maps drawn thus far. These proposed districts have 0 population deviations.
