\*If you are submitting comments or suggestions about a plan already published at [www.FloridaRedistricting.gov](http://www.FloridaRedistricting.gov), please provide the name of the plan: \_\_\_\_\_

**Details:**

This partial plan alters ten districts from the staff-drawn maps published Nov. 10, changing CDs 2-7, 9-11, and 28. This plan builds on the first congressional plan I submitted, incorporating the changes to CDs 2-5. A full discussion of those changes can be found in the suggestion form for that plan.

Additionally, this plan improves Tier Two compliance in the following ways (comparison with staff drafts in parentheses):

- makes Volusia whole, in exchange for introducing a split of Polk -- a tradeoff that keeps over 95% of Polkians in a single district, uses a county line that is \*also\* a major waterway (Lake Monroe/St. Johns R.) between 6/7, uses a county line between 9/28 where it track a major waterway (Kissimmee R.) but deviates from that line where it does not track a geographic boundary. (Volusia is split in all drafts; all drafts us the irregular Osceola-Polk line between 9/28.)
- makes Sumter County and Mayotte whole (both split in all plans), and follows SR 50 most of the way through Lake
- makes Umatilla whole (split in all plans)
- makes Eatonville and Maitland whole (one or both split in all plans), while still largely following major roads between 7/10

As with the first congressional plan I submitted, CD 5 does not diminish Black voters' ability to elect candidates of choice. Nor does CD 9 diminish Hispanic voters'. The key stats are comparable to or higher than the benchmark in each.

I did not use political, elections, or registration data in developing this plan, with the exception of comparing the benchmark CD 5 and 9 with mine to ensure no diminishment of minority voting ability. I did not draw this plan with the intent to favor or disfavor any political party, incumbent, or potential candidate.

I respectfully submit this plan for your consideration. The altered districts can be plugged into any of the staff maps drawn thus far. Also, the Whole Volusia concept for 6/7/9/10/28 could be decoupled from the more northern districts. These proposed districts have 0 population deviations.
