Subject: Congressional map submissions

Senator Bradley,

I wanted to thank you for your thoughtful leadership of today's committee meeting, and draw your attention again to my plan submissions, now they've been posted:

- [C0044](#): 'Snaps' the eastern CD 2 boundary to county lines, makes the 4/6 line more compact and regular in St. Johns, makes Sumter County, Groveland, and Mascotte whole.
- [C0045](#): Builds on C0044, plus makes Volusia whole, following the St. Johns River.
- [C0046](#): Eliminates CD 20's Boynton Beach appendage, makes 8 or 9 cities whole, while maintaining Black ability-to-elect.
- [C0047](#): Utilizes the Everglades as the major boundary line in South Florida, makes CDs 19 and 25 compact, and incorporates other Tier Two improvements.

A full discussion of the goals, advantages, and tradeoffs for these can be found in the suggestion forms for each. Each of these partial plans can be plugged into the rest of the staff maps. Each district has 0 population deviation.

As I mentioned today, I'd be happy to answer questions about or otherwise discuss these suggestions.

On another subject, I've been doing some work in your neck of the woods recently – Bradford County (Starke and Lawtey). I've met some really great people over there, and I'm glad to have the opportunity to work on that project.

All the best,
Nick Warren
