Deposition of BONNIE RICH

January 18, 2023

(Reporter disclosure made pursuant to Article 8.B of the Rules and Regulations of the Board of Court Reporting of the Judicial Council of Georgia.)

VIDEOGRAPHER: Today's date is January the 18, 2023, and the time is approximately 9:11 a.m. This will be the videotaped deposition of Bonnie Rich.

Would counsel present and all on Zoom please identify themselves for the record?

MR. MELLMAN: Aryeh Mellman from Crowell and Moring for the Georgia NAACP plaintiffs.

MS. JACKSON: Toni Jackson, Crowell and Moring, for the Georgia NAACP plaintiffs.

MR. TYSON: Brian Tyson and Diane LaRoss for the defendants.

MR. JAUGSTETTER: Patrick Jaugstetter and Shawn Marie Story are defending Ms. Rich.

VIDEOGRAPHER: Would the court reporter please swear in the witness? Thank you.

BONNIE RICH, having been first duly sworn, was examined and testified as follows:

1 EXAMINATION

2 BY-MR. MELLMAN:

3 Q. Good morning. My name is Aryeh Mellman.
4 I'm from Crowell and Moring representing the Georgia
5 NAACP plaintiffs.

6 And can you please state your full name
7 for the record.

8 A. Bonnie Miller Rich.

9 Q. Thank you. So we're going to start by
10 going over some ground rules and procedure. As we
11 know, there's a court reporter transcribing. So to
12 make her life a bit easier and to make the record
13 clearer, I'll just ask that you let me finish asking
14 a question before you respond and I'll also ask that
15 you respond audibly with words rather than shaking
16 or nodding your head.

17 If I ask a question -- a question that's
18 unclear, please let me know so I can rephrase it.

19 If you need a break, just let me know.
20 We'll do our best to -- to accommodate that, though
21 we may need to finish an open line of questioning
22 first.

23 If you need to talk to your attorney, just
24 let us know.

25 Your attorney may object to a question on

1 the various bases, but once they've made the
2 objection, I'll ask that you do answer the question
3 unless they specifically instruct you not to answer.

4 And, Representative Rich, you understand
5 you're giving your testimony under oath?

6 A. Yes.

7 Q. Is there any reason you can't answer my
8 questions fully and truthfully today?

9 A. No.

10 Q. Okay. Have you ever been deposed before?

11 A. No.

12 Q. Okay. Have you ever testified in court
13 before?

14 A. I testified to give a final in my divorce
15 when I was in my 20s.

16 Q. Okay. And have you ever personally been a
17 plaintiff or defendant in a lawsuit?

18 A. Just in my divorce.

19 Q. And who is the counsel representing you
20 today?

21 A. Mr. Jaugstetter.

22 Q. When did the attorney-client relationship
23 between you and Mr. Jaugstetter begin?

24 A. I would assume sometime after I was served
25 or accepted service of the subpoena.

1 Q. And is that a formal engagement?

2 A. Yes.

3 Q. And who is paying for your counsel?

4 A. I -- I believe it is the State House, but
5 I'm not certain of that.

6 Q. Okay. Who else might it be?

7 A. I really would not know.

8 Q. Okay. When did you first learn about this
9 case?

10 A. Prior to the service of the subpoena, I
11 was notified and asked to accept service of process
12 of a lawsuit that named me as a defendant. So it
13 was sometime prior to the service of the subpoena.

14 Q. And who -- who told you about the lawsuit?

15 A. I believe it was my legislative counsel.

16 Q. Okay. Okay. And what is your
17 understanding of what this case is about?

18 A. It's about the redistricting process.

19 Q. Okay. What redistricting process
20 specifically?

21 A. The one that I chaired through
22 redistricting in 2021.

23 Q. Okay. In the state of Georgia?

24 A. Yes.

25 Q. And on -- on what sort of government bill

1 levels?

2 A. I was a State House representative and
3 specifically the Chair of the State House
4 Redistricting Committee.

5 Q. Okay. And what did you do to prepare for
6 this deposition?

7 A. I rewatched my first committee hearing. I
8 spoke with my attorney. And that's about it.

9 Q. Okay. How many times did you speak with
10 your attorney?

11 A. I believe I've spoken with him two or
12 three times.

13 Q. Okay. And for about how long each time?

14 A. Probably anywhere from 45 minutes to an
15 hour, hour and 15.

16 Q. Okay. So approximately anywhere from two
17 to three hours total, approximately?

18 A. Approximately so.

19 Q. Did you look at my documents to prepare
20 for the deposition?

21 A. I was -- I was provided with a PDF of all
22 of the documents that we've produced, and I just
23 spot-checked. There were so many that I -- I didn't
24 look at them all, but I just kind of opened a few
25 here and there.

1 Q. Okay. Did any of those documents refresh
2 your recollection about the -- the redistricting
3 process?

4 A. I don't -- I don't know. I knew -- I knew
5 the documents that had been produced, so none of
6 them were new to me.

7 Q. And would you say you still have a -- a
8 recollection of that process?

9 A. I have somewhat of a recollection. It's
10 been a little over a year ago. I certainly knew the
11 details a lot better when I was going through than I
12 do now.

13 Q. Did you look at any text messages or
14 emails on your own outside of the -- the documents
15 that were produced?

16 A. No.

17 Q. And do you recall, of the documents that
18 were produced that you looked at, do you recall
19 specifically which documents you looked at?

20 A. One of them that -- yes. One was my notes
21 on a meeting that I had with a representative, and
22 the other were just various emails that really
23 didn't mean anything to me.

24 Q. Do you recall which representative it was?

25 A. I do not.

1 Q. Okay. Did you talk to any of your
2 colleagues?

3 A. About the deposition?

4 Q. (Nodded head.)

5 A. The fact that I was coming, yes.

6 Q. Okay.

7 A. But not the substance.

8 Q. Okay. You didn't talk to any of them to
9 prepare for this?

10 A. No, I did not.

11 Q. Okay. Did you look at any of the
12 complaints in the case?

13 A. No.

14 Q. Okay. And did you speak to your staff at
15 all about -- to prepare for the deposition?

16 A. No.

17 Q. So no one else aside from your counsel?

18 A. Correct.

19 Q. Are you aware that other legislators have
20 been deposed in this matter?

21 A. Yes.

22 Q. Have you communicated with any of them?

23 A. No.

24 Q. Okay. And since this is a joint 30(b)(6)
25 and 30(b)(1) and you're prepared to speak on behalf

1 of the committee, I will assume your answers are on
2 behalf of the committee unless you specify
3 otherwise. And we're going to just talk about your
4 background for a moment here.

5 Where do you currently reside?

6 A. Suwanee, Georgia.

7 Q. Okay. Do you have any degrees, college
8 degrees?

9 A. I do. I have a four-year degree from the
10 University of Georgia, and I have a law degree from
11 Georgia State University College of Law.

12 Q. After completing college, where did you
13 work, or law school?

14 A. Yeah, I went straight from college to law
15 school. I worked for a small law firm in the
16 Atlanta area.

17 Q. And when did you first run for office?

18 A. 2018.

19 Q. And which office was that?

20 A. The State House.

21 Q. And that's the office you currently hold?

22 A. I no longer hold the office. My term
23 expired earlier this month.

24 Q. So you were in office from
25 approximately -- can you describe the term you were

1 in office?

2 A. I was in office for two two-year terms.
3 So 2019, '20, '21, and '22.

4 Q. And what -- which districts did you
5 represent?

6 A. I represented House District 97.

7 Q. And can you describe generally that area
8 of Georgia that's in, that district?

9 A. It was wholly located within Gwinnett
10 County, the northern part of Gwinnett County. It
11 generally comprised the cities Duluth, Suwanee, and
12 Sugar Hill.

13 Q. And -- and as you're no longer in office,
14 what is your profession now?

15 A. I'm a lawyer.

16 Q. And where do you work?

17 A. I'm self-employed.

18 Q. Are you aware of there ever being any
19 findings of untruthfulness against you in any
20 proceeding?

21 A. No.

22 Q. Prior to the -- the 2021 cycle, had -- had
23 you ever worked on redistricting?

24 A. No.

25 Q. From 2019 until today, from when you were

1 in office until today, can you identify the
2 committee assignments you've had on the general
3 assembly?

4 A. I can try. Would you like for me to do
5 that?

6 Q. Sure.

7 A. Okay. Judiciary, Ways and Means, of
8 course Redistricting, Retirement, Rules. That's all
9 I can remember right now. There may have been more.

10 Q. And in -- in that same time frame, can you
11 identify all the committee chairs you've held on the
12 general assembly?

13 A. Yes. I've chaired Redistricting and then
14 I was the Majority Caucus Chair which is different.
15 It's not a committee assignment. It's really a
16 caucus position.

17 Q. And what years were -- did you chair the
18 Redistricting Committee?

19 A. I believe that was beginning in 2020.

20 Q. And through when?

21 A. Through the conclusion of my term earlier
22 this month. No, that's not true. That's not true.

23 Q. Okay.

24 A. Through redistricting, and then I
25 resign -- or I was moved from Chair of the

1 Redistricting Committee to become the Caucus Chair
2 in January of '22.

3 Q. Okay. And just for -- for the record, you
4 were the chair of the House Committee on Legislative
5 and Congressional Reapportionment; is that correct?

6 A. That is the correct name of the committee,
7 yes.

8 Q. For ease of reference, I'll just refer to
9 it as the House committee.

10 And are you familiar Senate
11 Reapportionment and Redistricting Committee?

12 A. I know that it exists.

13 Q. And I'll just refer to it as the Senate
14 committee as we go on.

15 And are you familiar with the Legislative
16 and Congressional Reapportionment Office?

17 A. Yes.

18 Q. And I'll just refer to that as the LCRO as
19 we continue.

20 How did you come to chair the House
21 committee?

22 A. The Speaker of the House makes the
23 committee assignments and the chair assignments.

24 Q. Had you asked to -- to chair the
25 committee?

1 A. No.

2 Q. And so did someone ask you to chair the
3 committee?

4 A. Yes.

5 Q. And who is that?

6 A. The Speaker of the House.

7 Q. Were -- were you interested in the
8 position?

9 A. Once it was offered to me I was.

10 Q. And when did you -- when did you learn you
11 would assume the position?

12 A. I'm not certain. It was sometime prior to
13 the 2020 session.

14 Q. Okay. Can you describe your role and
15 responsibilities as the Chair of the House
16 Committee?

17 A. It was my responsibility to conduct the
18 committee process for bills that came through our
19 committee and -- which ended up being really just
20 the redistricting bills for 2021 special session.

21 Q. Did you have any knowledge of the
22 redistricting process prior to assuming the Chair?

23 A. No.

24 Q. No -- no knowledge at all?

25 A. None.

1 Q. Upon learning that you would be Chair, did
2 you take any action to learn more about the
3 redistricting process?

4 A. I did not take any action on my own, no.
5 I did meet with counsel that had been retained to
6 guide us through the process.

7 Q. And what counsel was that?

8 A. Brian Tyson and Loree~Anne Paradise.

9 Q. And can you describe approximately how
10 often you met with them?

11 And -- and the time frame I'm speaking of
12 now, specifically from when you learned you'd be the
13 Chair until you became the Chair.

14 A. None.

15 Q. None.

16 And so when did you first meet with --
17 with Brian Tyson?

18 A. It probably would have been -- probably
19 would have been sometime in 2021 but I don't have
20 independent recollection beyond that.

21 Q. Okay. And did you speak with anyone else
22 aside from Mr. Tyson about the redistricting
23 process?

24 A. At any point in time?

25 Q. Before you obtained the Chair.

1 A. No.

2 Q. No.

3 No other legislators? No other staff?

4 A. No.

5 Q. Okay. Not the LCRO?

6 A. No.

7 Q. And I'm just going to go back to your
8 employment for a moment.

9 Does your -- does your current employment
10 as a lawyer involve redistricting at all?

11 A. No.

12 Q. Do you interact with the legislature at
13 all?

14 A. No.

15 Q. Does it involve any lobbying?

16 A. No.

17 Q. Any political or election-related legal
18 mattered?

19 A. No.

20 Q. All right. Thank you.

21 Okay. And when I talk about the
22 redistricting process, to be clear, I'm referring to
23 the Congressional and State legislative
24 redistricting in 2021 for the State of Georgia.

25 And so you were the Chair of the House

1 Committee?

2 A. Yes.

3 Q. And can you describe the House Committee's
4 function?

5 A. It's really the same as any other House
6 Committee, to just consider bills and to put them
7 through the committee process.

8 Q. And you're generally familiar with
9 functions of the Georgia General Assembly?

10 A. Yes.

11 Q. And you're familiar with the LCRO?

12 A. Yes.

13 Q. Can you tell me what you understand the
14 LCRO's function to be?

15 A. They draw the lines for the maps. That's
16 the office that I went to when I wanted to get a
17 copy of the map for my district when I first started
18 to run. So I knew that they did that. And then I
19 learned that they actually drew the lines for
20 redistricting.

21 Q. Okay. So the -- the LCRO is the team
22 that's actually drawing the maps, making the lines?

23 A. Correct.

24 Q. Okay. They also provide technical
25 assistance and data analysis?

1 A. I don't -- I don't really know how they do
2 their jobs. I do know that maps had to go through
3 their office for technical review. I've heard that
4 phrase.

5 Q. And do you understand them to have any
6 other function other than drawing the maps?

7 A. I don't know what they are.

8 Q. Okay. And so once you assumed the Chair
9 of the House Committee, how did you come to your
10 understanding of that role?

11 A. I believe that I just understood what a
12 chairman did from having served in the House for a
13 year.

14 Q. And can you tell me more about -- we spoke
15 before about your conversations with Mr. Tyson.

16 Can you tell me more about how you learned
17 about the redistricting process?

18 A. I learned as I went, for the most part. I
19 did look at the NC- -- NCSL's red book on
20 redistricting. I did not read it. I really did
21 just learn as I went through the process.

22 Q. All right. And can you tell me, without
23 revealing any confidential attorney-client
24 information, approximately how -- how often would
25 you meet Mr. Tyson throughout the redistricting

1 process?

2 A. So when you say "throughout the
3 redistricting process," when -- when in time do you
4 want to start there?

5 Q. Let's start from when you became the chair
6 until, let's say, prior to the special session.

7 A. So I don't think I met with Brian Tyson
8 until 2021, and I probably did not meet with him
9 until after the 2021 regular session. And I don't
10 really have specific recollection of how many times
11 or when I met with him. So it could have been once.
12 It could have been three times before the special
13 session.

14 Q. Did you have a standing meeting?

15 A. No.

16 Q. So approximately one to three times?

17 A. Well, it -- it depends, too, on how you
18 define the redistricting process. If you mean from
19 the end of the general regular session to the
20 beginning of the special session, I can answer
21 those, the question as to that time period.

22 Q. Sure.

23 A. I probably would have met with him from
24 May through August. I -- I really -- I would be
25 guessing. I -- I really don't know. There were no

1 regular meetings.

2 Q. Okay.

3 A. I would say one to -- I don't -- however
4 many town halls we had. I met with him probably
5 every time -- at every town hall.

6 Q. Okay.

7 A. I probably had a conversation with him.

8 Q. Okay. And was anyone else present in
9 those meetings?

10 A. Senator Kennedy would have been present in
11 some of them. I don't think anyone else.

12 Q. No one else from Mr. Tyson's office?

13 A. Another attorney. Loree~Anne Paradise.

14 Q. So Loree~Anne Paradise, Brian Tyson,
15 perhaps Senator Kennedy and you.

16 Anyone else that you recall?

17 A. Not that I can recall.

18 Q. And what about -- now let's move into the
19 period from the special session until the release of
20 the maps.

21 Did you have meetings then as well with
22 Mr. Tyson?

23 A. Yes.

24 Q. And approximately how many?

25 A. I wouldn't be able to estimate how many,

1 but I probably spoke with him at least -- him or
2 Loree~Anne Paradise or both, prior to and after each
3 committee hearing. And maybe a few more times.

4 Q. And approximately how long would those
5 meetings be?

6 A. I really don't remember. They could have
7 been as brief as 15 minutes, you know, if it was
8 after a committee meeting.

9 Q. Okay. And were they -- were they formal
10 meetings?

11 A. I think some probably -- yes, some
12 probably were formal meetings. Yes.

13 Q. And you said, just to reiterate, you said
14 before and after each committee hearing and -- and
15 two other times besides?

16 A. Yes.

17 Q. In that time frame from November to
18 December 2021?

19 A. November to December. I really -- I would
20 be guessing beyond what I told you already. I'm
21 sorry.

22 Q. Okay. And -- and so moving back to the
23 period between when you became Chair and the special
24 session, did you discuss your role as the Chair of
25 the House Committee with any other members of the

1 House?

2 A. If I did, it was casual and I don't
3 remember.

4 Q. What about with Joe Kennedy?

5 A. From what time period?

6 Q. From when you became the Chair to the --
7 the special session?

8 A. Well, he and I spoke a lot following the
9 general session, the regular session, in 2021, but I
10 don't think he and I spoke about it before then.

11 Q. Okay. And -- and so what did you talk
12 about in that --

13 (Simultaneous speakers - unclear.)

14 A. We were just coordinating our schedules.

15 Q. Okay. So mostly logistics?

16 A. Yes.

17 Q. Not -- not any of the substance?

18 A. No.

19 Q. Okay. And did you discuss your role with
20 anyone else?

21 A. In the legislature?

22 Q. Or anyone at all.

23 A. Probably my husband, but no, not really.

24 Q. Did you ever meet with -- going back to
25 these meetings with Mr. Tyson, did you ever --

1 where -- where did those meetings typically take
2 place?

3 A. I believe that we met at least once at his
4 law firm office. The majority of the meetings took
5 place here on the Capitol grounds, either in this
6 building, the legislative office building, or the
7 Capitol building.

8 Q. And do you recall which office any of
9 those meetings would take place?

10 A. Either my office which was here in this
11 building, the Redistricting office, or in
12 Senator Kennedy's office in the Capitol building.

13 Q. Did you ever meet in the -- the LCRO
14 office?

15 A. Well, at some point we did. I'm not sure
16 about the time period that you're asking.

17 Q. Can you tell me about anytime you met with
18 Mr. Tyson in the LCRO office?

19 A. We met after the special session had
20 started --

21 Q. Okay.

22 A. -- in the office.

23 Q. Approximately how many times?

24 A. Not many. Maybe two to three.

25 Q. Two or three meetings with Mr. Tyson in

1 the LCRO office?

2 A. Yes.

3 Q. And do you recall who else would have been
4 at those meetings?

5 A. Yes. Gina Wright was probably present.

6 Q. Any other legislators?

7 A. I think Jan Jones was there once or twice
8 for part of it.

9 Q. Senator Kennedy?

10 A. No. He and I did not meet together --

11 Q. Okay.

12 A. -- with the -- with the Redistricting
13 Office.

14 Q. And did you hire any -- any -- aside from
15 Mr. Tyson, did you hire any other outside counsel to
16 assist with the redistricting process?

17 A. I did not and I was not aware of any.

18 Q. Okay. So you're not aware that the -- the
19 general assembly hired any -- any other outside
20 counsel?

21 A. No.

22 Q. Or any other entity that -- that would
23 have hired outside counsel?

24 A. No.

25 Q. Okay. Do you know if Georgia

1 Congressional delegations have previously hired
2 outside counsel for this purpose in the previous
3 redistricting cycle?

4 A. I don't have any knowledge of that.

5 Q. Did you hire any outside consultant to
6 assist with the redistricting process?

7 A. I did not.

8 Q. Did the General Assembly hire any outside
9 consultants?

10 A. I would not know.

11 Q. Okay. Did -- so did you work with any
12 outside consultants?

13 A. No.

14 Q. Did you consider hiring any outside
15 consultants?

16 A. No.

17 Q. Do you know if anyone else involved in the
18 redistricting process considered hiring any outside
19 consultants?

20 A. I would not know that.

21 Q. Okay. We're going to move on to some
22 other questions.

23 Senator Rich, are you generally aware of
24 Georgia's history of racial discrimination against
25 African Americans?

1 A. I have heard that, yes.

2 Q. What is your understanding of that
3 history?

4 A. I just know that there was a period of
5 time where it was a concern and Georgia had to go
6 through a preclearance process because of its
7 history.

8 Q. Do you have an understanding of
9 discrimination in Georgia against Latinos?

10 A. I don't.

11 Q. What about Asian Americans?

12 A. No.

13 Q. Are you familiar with the term "racially
14 polarized voting"?

15 A. I learned that through redistricting.

16 Q. Okay. And what do you understand that
17 term to mean?

18 A. That different races may tend to vote
19 along party lines.

20 Q. And how did you come to understand that
21 term?

22 A. Probably through my counsel.

23 Q. Is it your understanding that racially
24 polarized voting is present in Georgia?

25 A. I was told that that is the case.

1 Q. Okay. By who?

2 A. My lawyer.

3 Q. Do you recall being a part of any
4 communications where that term was used?

5 A. Yes.

6 Q. Can you describe those communications?

7 A. Well, it would have been with my lawyer
8 who was just telling me that it exists in Georgia.

9 Q. And did you then communicate that
10 information to anyone else?

11 A. I don't think so. I may have acknowledged
12 its existence in a committee hearing, but I don't
13 recall commuting -- communicating that to anyone
14 else.

15 Q. So did that have -- did understanding that
16 term have any import to you in the redistricting
17 process?

18 A. Not to me. I understand that it did to
19 the map drawers and the lawyers who were advising
20 the map drawers.

21 Q. What import did you understand it to have
22 to the map drawers?

23 A. I don't know.

24 Q. So you know that they felt it was
25 important?

1 A. Yes.

2 Q. But you don't know why?

3 A. Correct.

4 Q. Okay. I'm going to show you a document
5 that I'm going to mark as Exhibit 1. It's
6 identified as LEGIS00020767.

7 And before I show it to you, I'm just
8 going to note that this document was among a set of
9 documents produced on Monday afternoon, January 16,
10 at approximately 3:55 p.m. which is less than 50 --
11 sorry -- less than 48 hours before the start of this
12 deposition. Legislative counsel produced over 1500
13 pages of what we understand to have hard copy
14 documents from your files related to this matter.

15 So I'm going to show you this document. I
16 apologize. It is, as I said, in hard copy form, so
17 there's a large stack. But I'm going to ask you to
18 look at the document marked -- Bates labeled at the
19 bottom as LEGIS00020777.

20 So that should be about ten pages on from
21 where you are.

22 MR. JAUGSTETTER: So is this entire stack
23 of documents your Exhibit 1?

24 MR. MELLMAN: This entire stack of
25 documents was produced to us as -- as a single

1 document.

2 MR. JAUGSTETTER: Right.

3 MR. MELLMAN: I'm only going to focus on
4 one page, the page I mentioned, -20777, but
5 I'd -- I'd like to provide the witness with a
6 complete document and that's how the document
7 was produced to us.

8 MR. JAUGSTETTER: Well, what I'm asking is
9 will Exhibit 1 consist of one page or the
10 entire stack?

11 MR. MELLMAN: The entire stack.

12 MR. JAUGSTETTER: Okay.

13 (Plaintiffs' Exhibit 1 was marked for
14 identification.)

15 BY MR. MELLMAN:

16 Q. Do you see the page I'm referring to?

17 A. I do.

18 Q. Okay. And are these -- is this your
19 handwriting?

20 A. Yes, it is.

21 Q. Okay. And these are your handwritten
22 notes?

23 A. Yes.

24 Q. Okay. Can you read me what is on the top
25 of the page above the line?

1 A. "Sam Park."

2 Q. And the next line?

3 A. "Racially polarized voting analysis was
4 performed, was found statewide and county by
5 county."

6 Q. And the next line?

7 A. "Dems refused to provide theirs. No one
8 has requested ours."

9 Q. Okay. And so did you, in fact, perform a
10 racially polarized voting analysis?

11 A. I did not.

12 Q. Do you recall what these notes are
13 referring to?

14 A. These are notes that I took while Sam Park
15 was speaking from the Well when we were considering
16 a bill, and I don't remember which bill. I mean, it
17 was one of the redistricting ones. I don't know if
18 it was the State or Congressional.

19 So, typically, the first line would be
20 what he said, and then the second line that's
21 indented was a note that I wrote to either myself to
22 say it from the Well, and I don't know if I did or
23 not, or I may have written that note to someone
24 else.

25 Q. Okay. So does -- so -- and who is Sam

1 Park?

2 A. He is a legislator.

3 Q. What is his party affiliation?

4 A. Democrat.

5 Q. Okay. And so would you read this to mean
6 that the Democrats performed a racially polarized
7 voting analysis?

8 A. It -- it is my understanding they did.
9 Their majority leader indicated that in his
10 testimony before the committee.

11 Q. And did you ever see that analysis?

12 A. No.

13 Q. Okay. And you say in that last line that
14 you read, "No one has requested ours."

15 Does that mean you did perform a racially
16 polarized voting analysis?

17 A. No, that does not mean that.

18 Q. What do you understand that to mean?

19 A. That no one requested an analysis that
20 would have been made on behalf of the State House or
21 the Republican State House Caucus.

22 Q. Okay. So looking at these notes, you --
23 do you maintain that you -- you did not perform any
24 racially polarized voting analysis?

25 A. I did not and I did not order or request

1 any. I think I testified previously that our lawyer
2 did.

3 Q. Okay. Sorry. You said your lawyer
4 performed a racially polarized voting analysis?

5 A. No. He retained someone to do that.

6 Q. Okay. And who was that?

7 A. I don't remember.

8 Q. Okay.

9 A. I don't know that I ever knew the name
10 until very late in the process. I never saw it.

11 Q. I'm going to direct you to the top right
12 corner of that page.

13 Can you read that?

14 A. "Dr. Tom Brunell, University of Texas at
15 Dallas."

16 Q. Do you recognize that name?

17 A. I don't, but I believe that one of the
18 lawyers told me that that was the identity of the
19 person, and I got that while I was taking -- or
20 during the time that was being debated. So it was
21 after I had spoken once and I was probably preparing
22 to go back up and speak again.

23 Q. And so that is the identity of the person
24 who performed the racially polarized voting analysis
25 on behalf of your counsel?

1 A. I believe that that is what was told to
2 me.

3 Q. Okay. But you never saw that analysis?

4 A. I did not.

5 Q. Did you ever ask to see it?

6 A. No.

7 Q. Do you know why your counsel would have
8 performed it but then not shown it to you?

9 A. It wouldn't have meant anything to me. I
10 don't practice elections law. The results are all
11 that would have mattered.

12 Q. Did you see the results of the analysis?

13 A. I don't recall if I did. I may have been
14 provided it at some point, but I don't recall
15 reading it.

16 Q. Do you recall who asked your counsel to
17 perform that analysis?

18 A. No, I don't know.

19 Q. Okay. So but would that have been
20 something he would have done on his own?

21 A. I don't know.

22 Q. And you're not aware of any legislators or
23 other -- anyone employed by the State House or State
24 governments that would have requested them to
25 perform an analysis?

1 A. I -- I would not know that.

2 Q. Okay. And so you testified that you may
3 have seen the results.

4 Do you recall any of those results?

5 A. No. All I recall is that I was told that
6 there is -- there was a finding that there is
7 racially polarized voting in Georgia.

8 Q. And so that was the same findings that
9 the -- as you note here, that the Democrats found in
10 their analysis?

11 A. It is my understanding that they found
12 racially polarized voting as well. I don't know if
13 there was anything different in the exact findings.

14 Q. And so did you -- did you ask to -- did --
15 sorry.

16 Did you incorporate that finding into any
17 of your work on the Redistricting Committee?

18 A. My work on the Redistricting Committee
19 involved taking a bill through the committee
20 process. So no, I did not.

21 Q. And did you -- did you actually ever see
22 the results or were they told to you?

23 A. I may have seen them. I just don't
24 recall. I received a lot of emails and I may have
25 received those, but it wouldn't have meant anything

1 to me to read it anyway. I just needed to know for
2 purposes of debate whether there is or isn't. So I
3 don't -- I don't recall.

4 Q. Okay. But -- and again you -- you found
5 that there -- or the analysis found that there was?

6 A. That is my understanding, yes.

7 Q. Okay. Okay. Thank you.

8 A. Uh-huh.

9 Q. Are you familiar with the term "packing"
10 in the context of redistricting?

11 A. I learned that during the process.

12 Q. And how would you define that term?

13 A. Putting a large number of person of one
14 race or people of one race into one district so as
15 to keep them out of the neighboring districts.

16 Q. Are you familiar with the term "cracking"
17 in the context of redistricting?

18 A. Yes.

19 Q. Okay. And how would you define that?

20 A. Separating and dividing members of one
21 race among more than one district to dilute their
22 voice.

23 Q. And you agree that redistricting should be
24 done so as not to crack minority voters?

25 A. It is my understanding that that is one of

1 the factors that goes into the compliance with the
2 Voting Rights Act.

3 Q. That one of the factors is to not crack
4 minority voters?

5 A. I really -- I really don't -- I don't know
6 that that is a correct statement because I don't
7 know the law. I know it is a factor to be
8 considered. That's as much as I know.

9 Q. And you agree that redistricting should
10 not be done so as to pack minority voters?

11 A. I have the same answer there. I
12 understand it's a factor. I don't -- I don't know
13 the exact rule on it.

14 Q. Okay. Referring back to our discussion of
15 historic discrimination, are you aware of current
16 disparities in educational achievement, income,
17 employment, and political participation between
18 black and white citizens of Georgia?

19 MR. JAUGSTETTER: Object to form.

20 You can answer.

21 THE WITNESS: I -- I know that there are
22 people who -- who say that. I've not really
23 studied it myself, so I don't have any personal
24 knowledge.

1 BY MR. MELLMAN:

2 Q. Okay. Specifically, are you aware that
3 high school and college graduation rates are lower
4 for black Georgians than white Georgians?

5 A. I don't have any personal knowledge of
6 that.

7 Q. Same is true for per capita income.
8 Are you aware of that?

9 A. I don't have personal of that.

10 Q. Employment rates?

11 A. I don't have any personal knowledge.

12 Q. And are you aware that voter turnout is
13 lower for black Georgians than white Georgians?

14 A. I don't have any personal knowledge of
15 that.

16 Q. Are you aware of similar disparities for
17 Latinos?

18 A. I do not have any personal knowledge of
19 any of that.

20 Q. Asian Americans?

21 A. I don't have any personal knowledge.

22 Q. Okay. Okay. Are you aware of any racial
23 appeals made in recent elections in Georgia?

24 A. I don't understand.

25 Appeals as in the court of appeals?

1 Q. Sorry. I'll explain -- I'll define that
2 term to mean in -- in elections, appeals by
3 candidates or campaigns to vote or not vote for
4 specific candidates based solely on their race.

5 A. I'm sorry. Could you repeat the question?

6 Q. Sure.

7 Are you aware of instances in elections in
8 Georgia where candidates or campaigns made appeals
9 to voters to vote for a particular candidate or not
10 vote for a particular candidate solely based on
11 their race?

12 A. No, no.

13 Q. Are you familiar with a mailer that went
14 out prior to the 2022 election in which a vote job
15 advertisement read "Must be black or LatinX. Whites
16 or Asians need not apply"?

17 A. No.

18 Q. Okay. Do you recall that in the 2022
19 gubernatorial elections, Governor Kemp ran ads that
20 appeared to deliberately darken Stacy Abrams' skin?

21 A. No.

22 Q. Do you recall the 2018 Republican
23 gubernatorial primary campaign?

24 A. Yes, somewhat.

25 Q. Do you remember that David Purdue who was

1 a candidate said that Stacy Abrams was demeaning her
2 own race and that she should go back to where she
3 came from?

4 A. No.

5 Q. Are you aware of the number of black
6 candidates elected to any statewide office in
7 Georgia's history?

8 A. No.

9 Q. So -- okay. Are you aware that
10 Senator Warnock is the first black senator in
11 Georgia's history?

12 A. Yes, I -- I know that.

13 Q. Okay. In your work on -- on
14 redistricting, are you aware that there is a
15 percentage of -- in a particular district, there's a
16 percentage of black voting age population that would
17 give black voters the opportunity to elect their
18 candidate of choice?

19 A. I'm sorry. Could you repeat the question?

20 Q. Sure.

21 Are you aware that there's a particular
22 percentage of black voting age population in a
23 district that would give black opportun- -- black
24 voters the opportunity to elect their candidate of
25 choice?

1 A. No, I am not.

2 Q. Are you familiar with the term "black
3 voting age population"?

4 A. Yes, I am.

5 Q. And what do you understand that to mean?

6 A. Just the number of black people who live
7 in a particular district who are of voting age.

8 Q. Okay. And do you understand there to be
9 any rules or requirements surrounding black voting
10 age population in the redistricting process?

11 A. I am not aware of specific rules or
12 requirements. I know it is a factor to be
13 considered.

14 Q. Okay. So you're -- are you aware of any
15 particular percentage of black voting age population
16 in the district that is meaningful to you in any
17 way?

18 A. No.

19 COURT REPORTER: I'm sorry. You broke up
20 a little bit, Mr. Mellman. You said, "Are you
21 aware of any particular percentage of black
22 voting age population in the district that
23 is..., " and I lost you.

24 MR. MELLMAN: I believe I said meaningful
25 to you in any way.

1 COURT REPORTER: Thank you.

2 BY MR. MELLMAN:

3 Q. And so do you have an understanding that
4 in a particular district there could be a tipping
5 point where a certain percentage of black voting age
6 population will be necessary for black voters in the
7 district to elect their candidates of choice?

8 A. Yes.

9 Q. And what is that tipping point?

10 A. That is what I do not know.

11 Q. How did you come to understand that there
12 was such a tipping point?

13 A. I don't know that there is a magic tipping
14 point. I came to understand that that is a factor.

15 Q. And how did you come to understand that --
16 that such a tipping point, regardless of
17 the percentage, that such a tipping point existed at
18 all?

19 A. Through my attorney.

20 Q. And did you take any action in the
21 redistricting process relative to those tipping
22 points?

23 A. I did not.

24 Q. Who did?

25 A. The people who drew the maps.

1 Q. Okay. And do you know what action they
2 took?

3 A. I do not.

4 COURT REPORTER: I'm sorry. "And do you
5 know what...?"

6 MR. MELLMAN: What action they took. I'm
7 sorry. I'll try and speak up.

8 COURT REPORTER: Thank you.

9 BY MR. MELLMAN:

10 Q. Are you aware of that same principle, the
11 tipping point, for Latino voters?

12 A. I -- I would assume so. I would assume
13 that it would -- the same factors would apply.

14 Q. And the same is true is Asian voters?

15 A. I would assume that.

16 Q. Okay. What is the black voting age
17 population percentage necessary to elect a candidate
18 of choice in Georgia?

19 A. That's what I said before. I don't know
20 that.

21 Q. And can you tell me what it is for any
22 district?

23 A. No.

24 Q. And so is your testimony that you
25 understand that to be the case, that there is a

1 tipping point, but you never took any action with
2 regard to that tipping point?

3 A. No, I did not. I ran the committee
4 process.

5 Q. Did you ever learn after the fact what
6 those tipping points were?

7 A. No.

8 Q. Did you ever ask?

9 A. No.

10 Q. And no one ever told you?

11 A. No.

12 Q. So once you -- once you learned that they
13 existed, you did -- did you do anything with that
14 information?

15 A. In our conversations, we discussed the
16 fact that the maps drawn and that would be presented
17 to us would comply with the Voting Rights Act. And
18 as far as tipping point, I don't know that there's a
19 tipping point that applies to all districts. I --
20 I -- I don't know.

21 Q. Do you know of any source or metric for
22 identifying those tipping points?

23 A. No.

24 Q. Are you aware that to comply with the
25 Voting Rights Act, black majority districts need to

1 be drawn in a way that gives black voters an
2 opportunity to elect their candidates of choice?

3 A. That is my understanding of the Voting
4 Rights Act requirement, yes.

5 Q. And are you aware that racially polarized
6 voting means that black voting age population just
7 over 50 percent still wouldn't give black voters the
8 opportunity to elect their candidates of their
9 choice?

10 A. No, I do not know that.

11 Q. Okay. Back to our prior point.

12 You agree that the majority black district
13 needs to be drawn in the way that gives black voters
14 the opportunity to elect their candidates of choice;
15 is that correct?

16 A. That is my understanding, yes.

17 Q. Okay. Did you review the districts for
18 compliance with that metric?

19 A. I did not.

20 Q. And who did?

21 A. The map drawers and attorneys.

22 Q. Did they communicate information to you
23 about that after the fact?

24 A. They -- yes.

25 Q. And what did they say?

1 MR. JAUGSTETTER: I'm going to object on
2 the basis of attorney-client privilege to
3 anything that counsel told to Ms. Rich, and I'm
4 going instruct her not to answer that question
5 to that extent.

6 BY MR. MELLMAN:

7 Q. Can you answer to the extent it does not
8 touch upon attorney-client privilege?

9 A. I was told that the maps complied with the
10 law.

11 Q. Did you speak with the map drawers about
12 compliance with the Voting Rights Act?

13 A. I don't recall specifically. No.

14 Q. And so those communications are made
15 through counsel?

16 A. Yes.

17 Q. Anyone else?

18 A. No.

19 Q. Okay. Okay. Prior to the release of the
20 2020 census data, did you have any communications
21 with other members of the House about the
22 redistricting process?

23 A. Yes.

24 Q. And what were those communications?

25 A. We -- I met with members of the State

1 House about their individual districts.

2 Q. And -- and what were the -- the general
3 contents of those discussions?

4 A. Every one was different. It was really
5 what the legislator wanted to talk to me about. It
6 was always about his or her district, and different
7 issues, communities of interest, precincts, things
8 that they wanted in their new district.

9 Q. And approximately how many House members
10 did you meet with?

11 A. Over 100.

12 Q. Out of?

13 A. 180.

14 Q. Did you talk to your staff about the
15 redistricting process?

16 A. Yes.

17 Q. And what did you generally talk with your
18 staff about?

19 A. Scheduling, hearings and meetings, travel
20 plans.

21 Q. What about Joe Kennedy?

22 A. Yes.

23 Q. And what did you talk with Senator Kennedy
24 about?

25 A. Coordinating our schedules for joint

1 committee hearings.

2 Q. Any substance?

3 A. None outside of our meetings with counsel
4 together.

5 Q. And the LCRO, did you talk to them about
6 the redistricting process?

7 A. Yes.

8 Q. And what were the contents of those
9 communications?

10 A. We coordinated their appearance at our
11 committee hearings and their presentations. I also
12 sat with them when we made tweaks to the maps that
13 they had drawn, for part of the time.

14 Q. Okay. Approximately how many times did
15 you meet with them to tweak the maps?

16 A. Two to three, two to four times.

17 Q. And did you meet with them prior to --
18 prior to the time when you -- when the maps were
19 published or only after they are published to tweak
20 them?

21 A. I do not remember that. It was all so
22 compressed there toward the end. I don't remember
23 that.

24 Q. And in those meetings that tweaked the
25 maps, do you recall who was there from the LCRO

1 staff?

2 A. Gina Wright.

3 Q. Anyone else?

4 A. Brian Knight may have been there for some
5 of the time. I think those are the only two staff
6 members from that office who were there.

7 Q. Do you recall if Dan O'Conner was there?

8 A. He was not.

9 Q. Do -- do you know what his -- his position
10 is?

11 A. I don't.

12 Q. All right. Do you know him at all?

13 A. Oh, yes.

14 Q. Okay. And why -- why were you in those
15 meetings to -- to tweak the maps?

16 A. I was there to communicate the map drawers
17 the requests that had been made by the legislators
18 to me.

19 Q. And they would try and implement those
20 requests?

21 A. Yes.

22 Q. Can you -- and was anyone else in those
23 meetings aside from Gina Wright, Brian Knight, and
24 yourself?

25 A. Always either Brian Tyson or Loree~Anne

1 Paradise or the two of them together.

2 Q. Okay. Did you talk to your constituents
3 about redistricting before the census data was
4 released?

5 A. I may have communicated with my
6 constituents through a digital newsletter about the
7 process coming up, but I don't -- I don't recall
8 specifically speaking about it with constituents.

9 Q. Do you receive -- did you receive any
10 communications from your con- -- constituent about
11 redistricting before the census data was released?

12 A. Yes, yes, yes. I received emails from
13 constituents and I responded to them.

14 Q. Okay. What was the general tenor of those
15 comments?

16 A. They were all over the place. I -- most
17 of the emails that I got were actually not from my
18 constituents; they were from other Georgians. And
19 I -- I cannot actually recall a specific. I'm sure
20 that there were a few from my district, but I really
21 cannot recall a specific one from one of my
22 constituents who emailed me.

23 Q. Did you talk to any outside organizations
24 about redistricting before the census data was
25 released?

1 A. Yes.

2 Q. What were those organizations?

3 A. They reached out to us. The NAACP reached
4 out and provided information, and we also invited
5 them to our educational day; although, I don't think
6 that you-all came.

7 There's another group I think called Fair
8 Districts Georgia. They were very active. They
9 communicated and provided us with information.
10 There was another group that came a lot. I don't
11 remember the group's name. I remember the person,
12 Cindy Battles. She was quite communicative. That's
13 all I can remember right now. There may have been
14 more.

15 Q. And so, for example, when you said Fair
16 Districts provide a lot of information, what was
17 that information?

18 A. I don't recall the specifics, but
19 basically they promoted changing the whole
20 redistricting process and guidelines and outcomes.

21 Q. Did you review that information provided
22 at the time?

23 A. I did.

24 Q. Did you incorporate it at all into your
25 work on the Redistricting Committee?

1 A. No.

2 Q. Did you reach out to any lobbyists about
3 redistricting before the census data was released?

4 A. I -- I don't recall that. Going back,
5 the -- the NCSL we also spoke with because they came
6 to our educational day.

7 Q. Is that -- that's the National Conference
8 of State Legislatures?

9 A. Yes.

10 Q. Did you talk to any business groups about
11 redistricting?

12 A. I don't recall that, no.

13 Q. Chamber of Commerce?

14 A. I -- I don't think so. If I did, it was
15 very general. I never gave specific information. I
16 really tried not to do that before the process
17 started.

18 Q. So other than communications, did you take
19 any action with respect to the redistricting process
20 before the release of the 2020 census data?

21 A. I met with members, which was very time
22 consuming, and I had the town halls where I traveled
23 around the state.

24 Q. Going for a moment to those conversations
25 with members.

1 So members would come to you with requests
2 for their district and then you would communicate
3 those requests to the LCRO?

4 A. Yes, but not after each meeting.

5 Q. You would summarize after a number of
6 meetings?

7 A. No. It was after all of the meetings were
8 complete.

9 Q. Okay.

10 A. And after the first draft of the maps were
11 made.

12 Q. Okay. And did you -- did you screen out
13 any -- strike that.

14 Did you provide to the LCRO all the
15 information that was provided to you by the members?

16 A. I orally communicated with them what was
17 requested, by reviewing my notes.

18 Q. And -- and you would -- would you
19 generally communicate everything that a member
20 requested?

21 A. Yes. But if a member provided me with
22 papers, I did not provide that to the legislative --
23 or the Redistricting Office.

24 Q. Okay. But you did convey the information?

25 A. Yes.

1 Q. And did they -- were -- were they able to
2 incorporate that -- those requests into their map
3 drawing?

4 A. Not all of them.

5 Q. Did they tell you which ones would and
6 wouldn't be honored?

7 A. Yes. We -- we worked on it together. And
8 then they also worked on it outside of our meeting
9 when something took a lot longer, but yes.

10 Q. And what was your role in -- in working on
11 that?

12 A. To try to get as many of the legislators'
13 requests implemented as -- as feasible while still
14 complying with the law.

15 Q. Okay. So you would communicate requests
16 and the LCRO would say, "We -- we can accommodate
17 these but not these." I imagine it's all -- it can
18 be -- it's not possible to accommodate all requests.

19 And so how do you decide which ones to
20 accommodate and which ones not to accommodate?

21 A. We worked on them and tried to accommodate
22 them there in the meeting, and some were just not
23 feasible.

24 Q. Okay. But would you say you attempted to
25 accommodate as many as possible?

1 A. Yes.

2 Q. And do you recall approximately how
3 many -- how many of those requests were accommodated
4 and were not accommodated?

5 A. I -- I do not.

6 Q. Do you recall any particular districts in
7 which legislators made requests that were not
8 accommodated?

9 A. No.

10 Q. I suppose that's fair.

11 Did any legislators complain to you
12 afterward that their requests were not accommodated?

13 A. No.

14 Q. Okay. I'm going to introduce this next
15 document as Exhibit 2. Just give me a minute.

16 (Plaintiffs' Exhibit 2 was marked for
17 identification.)

18 BY MR. MELLMAN:

19 Q. This is LEGIS00002892.

20 And have you reviewed the document?

21 A. Yes.

22 Q. Okay. And is this a memorandum sent by
23 you to the LCRO --

24 A. Yes.

25 Q. -- committee members?

1 A. Committee members, yes.

2 Q. And it's dated June 1, 2021?

3 A. Yes.

4 Q. Okay. Can you read the second paragraph
5 for me, please?

6 A. "We received total population numbers for
7 our state April 26, 2021. We have been informed by
8 the census and our data vendors that the anticipated
9 date for receiving some detailed population numbers
10 within each state is mid to late August 2021 with
11 all data arriving by the end of September 2021. We
12 are, therefore, limited in the work that our
13 committee can do until we receive this detailed
14 census data."

15 Q. Okay. Okay. And so once you received
16 that data in August -- I guess, what data -- what
17 data did you receive in August?

18 A. I don't recall specifically. I remember
19 the Reapportionment Office referring to it as legacy
20 data. I don't know what that means.

21 Q. Okay. And was there anything that could
22 be done with that data in August before the full
23 data arrived in September?

24 A. I wouldn't know that myself. I just know
25 what I was told.

1 Q. And -- and did you take any action with
2 regard to redistricting between the time when you
3 received the August data but before you received the
4 September data?

5 A. I believe yes.

6 Q. And what was that?

7 A. I continued to have meetings with
8 individual members.

9 Q. Did you take any action with regard to map
10 drawing --

11 A. No.

12 Q. -- at that time?

13 A. No, I did not.

14 Q. Did you look at any maps in that time?

15 A. No. Well, other than maps that a member
16 would have shown me. Their current map, maybe what
17 they wanted. Something like that.

18 Q. But not a -- a new draft.

19 A. No.

20 Q. Okay. When -- when did you first see a
21 draft map?

22 A. It was during the 2021 special session
23 shortly before the committee meeting where I
24 presented it, and I don't remember if it was the day
25 before or if it was two days before. Because I

1 can't recall if we implemented legislators'
2 requested -- requests before then or after then. So
3 it was days at the most.

4 Q. Days before the --

5 A. Committee meeting where I presented it.

6 Q. Okay. And who first -- who drew that
7 first map?

8 A. The Redistricting Office.

9 Q. Would that be Gina Wright?

10 A. Her office.

11 Q. Had you talked about the draft map at all
12 before you saw it, with the LCRO?

13 A. Well, yeah. We were asking when we were
14 going to have it.

15 Q. Did you talk about anything with regard to
16 the substance of the map?

17 A. I did not.

18 Q. And where were you when you first saw
19 that -- the map?

20 A. I don't recall.

21 Q. Would that have been in the LCRO office?

22 A. It could have been. If I saw it on the
23 computer, that's where it was. If I saw it on
24 paper, it could have been anywhere. I just don't
25 recall.

1 Q. Did you provide any input after seeing a
2 first draft?

3 A. That's what I can't remember, if -- yeah,
4 I think -- yes, I think I did. Yeah. That's when
5 we implemented changes, but I don't know that I saw
6 the whole thing. I did not. I only saw pieces.

7 Q. Is that because the whole map wasn't
8 completed?

9 A. Right. It can't be. Because every time
10 we would make one change, it would have a cascading
11 effect. So I don't think I saw the whole map until
12 after we implemented the legislator changes.

13 Q. And when would that have been?

14 A. That's what I told you. I don't remember.

15 Q. Did you -- did you provide any input on
16 the maps other than communicating the requests from
17 the legislators?

18 A. No.

19 Q. Of any kind?

20 A. No.

21 Q. To your knowledge, when did the map
22 drawing for the redistricting process begin?

23 A. It's my understanding that it began after
24 receipt of the census data.

25 Q. In September of 2021?

1 A. I would assume.

2 Q. Did you have communication with other
3 members of the House Committee as to how the map
4 drawing process would work?

5 A. When?

6 Q. Prior to drawing of the map?

7 A. We had the educational meeting, and during
8 that meeting I may have. It was a learning process
9 for all of us. We were all -- not all, not
10 everyone, but most of us were new to it, so we were
11 all learning as we went.

12 Q. So we talked about how the LCRO was
13 responsible for drawing the first draft?

14 A. Yes.

15 Q. Do you know what -- what software was
16 used?

17 A. I do not.

18 Q. Do you know what data was considered in
19 drawing that map?

20 A. I know the census data was considered.

21 Q. Do you know whether partisan data was
22 considered?

23 A. I believe it was, yes.

24 Q. Okay. And how was it used?

25 A. That's what I -- I don't know, and I don't

1 know who had input into that.

2 Q. Do you know whether racial data was used?

3 A. If it needed to be in order to comply with
4 the Voting Rights Act, then it would have been.

5 Q. For any other reason?

6 A. I have no idea.

7 Q. And approximately how many meetings did
8 you have regarding the actual drawing of the map
9 after you saw the first draft?

10 A. It was -- like I said before, I'm really
11 kind of guessing at a range. Two to three, maybe
12 four.

13 Q. And at each of those meetings, were you
14 communicating the requests of the members to the map
15 drawers?

16 A. Yes.

17 Q. And did you communicate anything else in
18 those meetings?

19 A. No.

20 Q. Was anything else communicated to you by
21 the LCRO?

22 A. No. I mean just, you know, we -- we were
23 work together in trying to implement the requests.
24 So we would talk about that process as was it was
25 going on.

1 Q. And -- and what was your role in that
2 process?

3 A. Really just to communicate the requests to
4 the members. Probably was very instructional for
5 me, too, to see how one tiny change can really
6 create other problems. It's a very tedious process.

7 Q. And so you had no other requests or
8 communications aside from communicating the requests
9 of the legislators you spoke to?

10 A. Right.

11 Q. You testified there were approximately two
12 to three meetings that you had.

13 Do you recall if Jan -- Representative Jan
14 Jones was at all of those meetings?

15 A. No, I don't think she was at all of them.

16 Q. Do you recall approximately how many she
17 was at?

18 A. At least one.

19 Q. Perhaps two?

20 A. Maybe. I -- I really don't know.

21 Q. Okay. I'm now going to show you what I'm
22 going to mark as Exhibit --

23 MR. MELLMAN: You know, before -- before
24 we continue, we've been going for about an
25 hour. This is a good time for a break.

1 THE WITNESS: Okay. Thanks.

2 MR. MELLMAN: We'll go off the record.

3 VIDEOGRAPHER: The time is 10:22. We are
4 going off the video record.

5 (Off the record.)

6 VIDEOGRAPHER: 10:37. We are back on
7 video record.

8 BY MR. MELLMAN:

9 Q. Okay. Representative Rich, thank you.

10 I'm just going to go back and ask a -- a
11 couple of questions about things we discussed before
12 if that's all right?

13 A. Yes. And I also just remembered
14 something.

15 When you asked me at the very beginning of
16 the deposition -- sorry I forgot to tell you this --
17 if I had testified before. I have served as a
18 guardian ad litem and I have testified in that
19 capacity. I don't know if that changes anything but
20 do remember that.

21 Q. What court was that?

22 A. Superior Court of Gwinnett County.

23 Q. And just one time?

24 A. No. It's been more than one time. Child
25 custody cases is what they were.

1 Q. Okay. Thank you very much. Okay.

2 So if you recall in Exhibit 1 we looked at
3 your handwritten notes where you identified the name
4 of Dr. Tom Brunell.

5 Do you remember that?

6 A. Yes.

7 Q. Do you know anything about Dr. Brunell?

8 A. I don't.

9 Q. Are you aware that he had been proposed to
10 lead the 2020 census for the Trump Administration?

11 A. I did not know that.

12 Q. And did you ever become aware that he
13 ultimately was not appointed to that role after it
14 was reported that he had helped to racially
15 gerrymander the district?

16 A. I am not aware of that.

17 Q. I'm going to mark as Exhibit 3 a document
18 starting LEGIS000000312.

19 (Plaintiffs' Exhibit 3 was marked for
20 identification.)

21 BY MR. MELLMAN:

22 Q. And, Representative Rich, these are the --
23 can you tell me what this document is?

24 A. These appear to be the 2021 committee
25 guidelines.

1 Q. For the -- the committee?

2 A. Yes.

3 Q. And you're familiar with these guidelines?

4 A. I was at one point.

5 Q. Okay. If you to turn to the second page,
6 looking at bullet III A 3, can you read that bullet,
7 please?

8 A. "All plans adopted by the Committee will
9 comply with Section 2 of the Voting Rights Act of
10 1965, as amended."

11 Q. Okay. And so is it your understanding
12 that compliance with the VRA was one of the criteria
13 for the redistricting guidelines for the 2021
14 session?

15 A. Yes.

16 Q. What was your understanding of why there
17 was a criteria?

18 A. Because it's the law.

19 Q. And there are a number of other criteria
20 listed here?

21 A. Yes.

22 Q. How -- how did you prioritize these
23 criteria?

24 A. Well, I -- I didn't because I didn't draw
25 the maps, but my understanding was that the law was

1 the first and most important goal followed by
2 other -- other criteria.

3 Q. And in your role as Chair, what did you do
4 to ensure compliance with the VRA?

5 A. I asked my lawyer to verify that the maps
6 that we were proposing complied with the law.

7 Q. We talked earlier about black voting age
8 population tipping points in particular districts.

9 Do you recall ever being present when a
10 discussion of those tipping points were taking
11 place?

12 A. No.

13 Q. Do you recall ever hearing the LCRO talk
14 about it --

15 A. No.

16 Q. -- amongst themselves?

17 A. No.

18 Q. And in the -- in the meetings you sat in
19 in the LCRO and based on your personal knowledge,
20 who actually -- who was the individual that -- that
21 physically drew the maps or digitally drew the maps?

22 A. When I was in there, Gina Wright worked on
23 it and Brian Knight also worked on it.

24 Q. And did you ever meet with Gina Wright or
25 anyone else from the LCRO outside the presence of

1 counsel?

2 A. No.

3 Q. So every time you went into the LCRO
4 office, counsel was there?

5 A. Yes.

6 Q. Did you ever meet with Gina Wright or
7 other members of her team outside that LCRO office?

8 A. Well, I don't think so. I mean,
9 logistically, you know, my office was next to
10 theirs. So they would deliver things to me, maps,
11 but we didn't have substantive meetings if that's
12 what you're asking.

13 Q. Okay. So all the meetings you did have
14 were in the presence of counsel?

15 A. Yes.

16 Q. Okay. We talked before about the -- the
17 tweaks made to the maps after you would convey
18 communications from the legislators.

19 How were those tweaks made?

20 A. We were sitting around a conference room
21 table with the portion of the map that we were
22 working on on the screen, and we would talk about
23 what was requested. And Gina or Brian would do
24 something, make clicks, to make that change happen.
25 And then that would result in other changes. And so

1 they would try to address those issues. So that's
2 the way it was done.

3 Q. In terms of the -- the data that was used
4 in the map drawing, are you aware of whether data
5 was used at the census block level?

6 A. I'm not aware. I know I heard that term.

7 Q. What do you understand that term to mean?

8 A. I don't really -- I don't really have an
9 understanding. I just know that that term was used.

10 Q. Do you know what data was available at the
11 census block level?

12 A. I don't.

13 Q. Do you know whether partisan data was
14 available?

15 A. I don't know.

16 Q. Racial data?

17 A. I don't know.

18 Q. In any of the meetings with the LCRO, was
19 there any discussion about the BVAP tipping points
20 we discussed?

21 A. No.

22 Q. You weren't present for any discussion
23 about that?

24 A. No.

25 Q. You said you met with around 100

1 legislators in the general assembly.

2 Could you give me approximately a
3 breakdown of how many of those members were
4 Republican and how many were Democrats that you met
5 with?

6 A. I seem to recall, from my remarks in the
7 Well, that there were 10 or 11 Democrats that I met
8 with and over 100 Republicans.

9 Q. Do you know why mostly Democrats did not
10 meet with you?

11 A. Their leadership told me that they were
12 instructed -- that they instructed their members to
13 not meet with me.

14 Q. But approximately 10 of them did?

15 A. Yes.

16 Q. Do you know why those did?

17 A. I think those people -- I -- I mean, I
18 don't know what motivated them, but they just were
19 interested in their districts.

20 Q. Do you know why the other legislators were
21 instructed not to meet with you?

22 A. I don't know.

23 Q. Did you ever ask?

24 A. Yes, I did.

25 Q. And who did you ask?

1 A. Probably Billy Mitchell. And then I think
2 there were other legislators, Democrat legislators,
3 who had told me they had been instructed to not meet
4 with me.

5 Q. And who is Billy Mitchell?

6 A. He was in the leadership for the minority
7 party.

8 Q. And so you asked him why they were
9 instructed not to meet with you and what was his
10 response?

11 MR. JAUGSTETTER: I'm going to assert an
12 objection. You're asking her to reveal what
13 another legislator said about the legislative
14 process. That legislator to my knowledge has
15 not waived his legislative privilege, and I'm
16 going to instruct the witness not to answer
17 that question.

18 BY MR. MELLMAN:

19 Q. Okay. You said you received approximately
20 10 requests from the minority party.

21 Did you communicate those requests to the
22 LCRO?

23 A. Yes.

24 Q. Did you meet with Minority Leader Beverly
25 about any concerns he had about his particular

1 district?

2 A. I don't recall.

3 Q. Did you -- did you meet with him at all in
4 the timeline of that redistricting process?

5 A. I don't recall. If I did, I would have
6 notes from my meeting that would have been produced.

7 Q. I'm going to now introduce Exhibit 4.
8 Just one moment.

9 (Plaintiffs' Exhibit 4 was marked for
10 identification.)

11 BY MR. MELLMAN:

12 Q. Take a look at that.

13 And I apologize. Before I ask you about
14 that document, I'm just going to go back and ask one
15 more question.

16 Would you say that the requests of the
17 minority party members that you did meet with about
18 their districts, were those able to be accommodated
19 at roughly the same rate as the majority party
20 requests?

21 A. A higher rate. I do know that we were
22 able to accommodate at least one request from every
23 single Democrat member who met with me.

24 Q. Approximately how many -- you said one
25 request.

1 How many requests did -- did they make?

2 A. Some made one. I don't know how many, you
3 know, what the maximum number was.

4 Q. Okay.

5 A. Not a lot.

6 Q. Okay. And that -- and now -- we're going
7 to go to this document now.

8 Do you recognize this document?

9 A. I -- I recognize it as printouts of maps
10 that came out of our Redistricting Office, and it's
11 titled "Drafts Georgia Congressional District."

12 Q. Okay. Are you aware of what map this is
13 or who -- who designed this map?

14 A. I would assume, since you have it, we
15 produced it and it was -- it was drawn by our
16 Redistricting Office.

17 Q. Okay. I'm going to represent to you that
18 this is the draft that was put forward by
19 Senator Kennedy and Lieutenant Governor Duncan
20 regarding the Congressional districts on
21 September 27.

22 Are you aware of the publication of that
23 map?

24 A. I am.

25 Q. And is this the first map you reviewed of

1 the Georgia Congressional district?

2 A. Yes.

3 Q. When did you first see this proposed map?

4 A. I don't remember. Probably -- it was
5 definitely after it was published to the public.

6 Q. Okay. So sometime after September 27?

7 A. If that was after it was made public on
8 the website.

9 Q. Were you aware that this map was being
10 drawn?

11 A. No.

12 Q. Senator Kennedy hadn't mentioned it to
13 you?

14 A. No.

15 Q. Okay. Do you have an understanding of who
16 drew this map?

17 A. I would assume that it was our
18 Redistricting Office with input from Senator Kennedy
19 and maybe members of their leadership, but I don't
20 know.

21 Q. And did -- did you have any role in
22 drawing any parts of this plan?

23 A. No.

24 Q. Did you review this plan in detail once it
25 was published?

1 A. Somewhat. Not -- I mean, detail, that's
2 relative. But I did review it, yes.

3 Q. And what -- what were your conclusions
4 about it?

5 A. The only thing that I remember is that
6 they -- they made a division somewhere up in the
7 northern part of the state that a lot of the people
8 spoke out about in our public town halls. I can't
9 remember now what it was. I thought they divided
10 Pickens County, but it doesn't look like they did
11 here, so I -- I don't remember.

12 Q. Did you have a view on whether -- on -- on
13 the -- the quality of this map?

14 A. No.

15 Q. Did you use a particular software to
16 review the districts?

17 A. No.

18 Q. You just looked at the map printed out?

19 A. Correct.

20 Q. Did you consider any data when you looked
21 at the map?

22 A. No.

23 Q. Did you consider any redistricting
24 criteria when you looked at this map?

25 A. No.

1 Q. Did you have any concerns about this map?

2 A. No, I didn't give any thought to that.

3 Q. Did you provide any feedback on this map?

4 A. No.

5 Q. You didn't speak to Senator Kennedy about
6 it?

7 A. Not that I recall.

8 Q. Or Lieutenant Governor Duncan?

9 A. No.

10 Q. Or anyone from their offices?

11 A. No.

12 Q. Did anyone else ask you about this map
13 after it was published?

14 A. Not that I recall. People were discussing
15 the fact that it existed, but I don't have specific
16 recollection of conversations.

17 Q. And is it fair to say you reviewed this
18 map just by looking at -- looking at it and that was
19 pretty much the sum total of your analysis?

20 A. Yes.

21 Q. Okay. And so you didn't provide any input
22 on it to anyone?

23 A. No.

24 Q. Okay. I'm going to do the next exhibit.
25 I believe -- I believe we're on Exhibit 5.

1 (Plaintiffs' Exhibit 5 was marked for
2 identification.)

3 BY MR. MELLMAN:

4 Q. Just one moment.

5 Do you recognize this map, once you've had
6 a moment to take a look?

7 COURT REPORTER: I'm sorry. You broke up
8 at the end of your question.

9 MR. MELLMAN: Sorry.

10 BY MR. MELLMAN:

11 Q. I said do you recognize this map once
12 you've had a moment to take a look?

13 A. It's titled "Draft - Georgia House
14 Districts." So I'm assuming that we produced this
15 in response to your document request.

16 Q. So I'm going to represent to you that this
17 is a map that you published on -- a draft that you
18 published on November 2 of the Georgia State House.

19 A. Okay.

20 Q. Do you recall putting forth that map?

21 A. Yes.

22 Q. Okay. All right.

23 MR. MELLMAN: Yeah, yeah. Sorry. One
24 moment.

25 MR. JAUGSTETTER: Aryeh, will you be

1 dropping these into the ExhibitShare program?

2 MR. MELLMAN: I will.

3 MR. JAUGSTETTER: Okay.

4 MR. MELLMAN: Yes, I will. I will.

5 BY MR. MELLMAN:

6 Q. Okay. And to your understanding, who drew
7 this map?

8 A. The Redistricting Office.

9 Q. Okay. And when did you first see this
10 proposed map?

11 A. So that's what I was saying earlier is
12 that I don't know if it was the day before, the day
13 of that it was published or if it was a couple of
14 days before because I can't recall if we implemented
15 the legislator requests before or after.

16 Q. Okay. And when did you first see a draft
17 of this proposed map?

18 A. Again, I don't -- I don't know if it was
19 the day of or the day before or two or three days
20 before it was published.

21 Q. And did you have any role in -- in drawing
22 any parts of this plan?

23 A. Only -- if this reflected the legislator
24 requests, then I did.

25 Q. And would you say your role is limited to

1 only communicating the legislator requests?

2 A. Yes.

3 Q. You didn't have any other -- any other
4 role?

5 A. No.

6 Q. You didn't provide any other input?

7 A. No.

8 Q. Who asked you to -- to take on this role?
9 How did you understand that to be your role?

10 A. Well, the Speaker of the House asked me to
11 chair the committee.

12 Q. Did the Speaker or anyone else at any
13 point instruct you to do anything other -- with
14 regard to the maps other than communicate the member
15 requests?

16 A. Well, chairmen of committees have to hold
17 committee meetings and have hearings. So that --
18 that's understood, that I would do that. Someone,
19 and I don't know who, told me about the town hall
20 meetings because that's just always been done, so I
21 was told to do that. I was told to talk with our
22 attorney to make sure that our maps complied with
23 the law.

24 Q. Did anyone on your -- was anyone on your
25 staff involved in drawing the maps?

1 A. No.

2 Q. So it was purely the -- the LCRO office
3 and counsel?

4 A. Yes.

5 Q. Did you take redistricting considerations
6 into account when conceiving of this map?

7 A. I'm sorry. I don't understand.

8 Q. Sure. For example, did you -- when -- you
9 reviewed this map before it was published; right?

10 A. I don't know if I did. I don't know that
11 I saw the map in its entirety --

12 Q. Okay.

13 A. -- before it was published. I saw --
14 maybe I saw sections, if -- if we made the
15 legislator requests, requested changes, before it
16 was published. But I don't know that I saw the
17 whole map in its entirety before it was published.

18 Q. For any of the pieces of the map that you
19 did see before it was published, did you review it
20 for -- to take into account communities of interest?

21 A. To the extent that that came up in what
22 the legislator had requested, yes.

23 Q. And what do you understand the term
24 "communities of interest" to mean?

25 A. That's a -- a broad term that can mean a

1 lot of different things depending on the community.
2 It can mean -- the one that people talk about a lot
3 is our Vidalia onion belt, those counties down
4 there.

5 I know that in the mountains, you know,
6 they -- there are certain communities up there that
7 didn't want to be divided by, you know -- or didn't
8 want to have a mountain range divide them. That was
9 the issue.

10 There were some communities that shared a
11 lot of, like, rec leagues and schools and churches
12 and shopping districts. Even though they were three
13 or four counties, they considered themselves kind of
14 one -- one community of interest. So it could just
15 mean a lot of different things.

16 Q. And so you reviewed the maps to account
17 for communities of interest only to the extent that
18 the legislators communicated that to you?

19 A. That's -- that was my part in reviewing
20 the communities of interest. Those guidelines were
21 definitely -- the -- the Redistricting Office was
22 directed to take those into account.

23 Q. When you're reviewing any piece of the map
24 prior to publication, did you review them to take --
25 take into account demographics?

1 A. I did not.

2 Q. Socioeconomic status?

3 A. I did not.

4 Q. Partisanship?

5 A. I did not, but it's my understanding that
6 those were considerations taken into account by
7 someone above me.

8 Q. That someone would be the LCRO?

9 A. I don't know. I -- I don't think so.
10 I -- I would think not. I would think it would be
11 someone else who was -- who was partisan.

12 Q. And who would that be?

13 A. I -- I don't know. Other -- other members
14 of leadership, perhaps, but the Redistricting Office
15 is not partisan.

16 Q. Did any other members above you in
17 leadership have any input into the redistricting
18 process?

19 A. I do not know.

20 Q. Did they provide you with any -- did they
21 communicate any input to you?

22 A. No.

23 Q. Did you review -- when you were looking at
24 the -- this map prior to publication, did you review
25 the districts for compactness?

1 A. I did not.

2 Q. So when you were looking at the pieces of
3 the map you reviewed prior to publication, what were
4 you looking for?

5 A. I did not review the map for anything. I
6 was learning the map so that I could present it in
7 the committee hearing.

8 Q. Did you provide any feedback to the LCRO
9 or anyone else about the draft map?

10 A. No.

11 Q. Did anyone ask you about the -- the draft
12 maps prior to their publication on November 2?

13 A. Well, a -- a lot of people probably did.
14 People were probably -- you know, people were
15 talking about it. When are they coming out? I
16 don't --

17 (Simultaneous speakers - unclear.)

18 Q. Did anyone -- did anyone ask you about
19 the -- what you thought about the map?

20 A. I don't think so.

21 Q. No one asked for your feedback on the map?

22 A. No.

23 Q. Did you talk to anyone about the feed- --
24 about your opinions on the map?

25 A. No.

1 Q. And what did you do to prepare to present
2 it at the committee?

3 A. I met with my attorneys who walked me
4 through and just kind of introduced me to the map,
5 what was changed.

6 Q. And did you review these maps on paper?

7 A. Yes.

8 Q. So did you do use -- did you use any
9 software to review them?

10 A. No.

11 Q. Did you have any communications with
12 Senator Kennedy about these maps?

13 A. The Georgia House districts?

14 Q. Yeah.

15 A. No.

16 Q. What about with other legislators after
17 the publication of the map on November 2?

18 A. Yes. I don't have specific recollection,
19 but legislators would come up and comment, "Thank
20 you. I like my district."

21 Q. Did anyone have negative feedback for you
22 on the map?

23 A. I don't -- no, I don't -- oh, I do recall
24 one -- one legislator who did. Yes, yeah.

25 Q. And what was that?

1 A. Philip Singleton.

2 But it was really overwhelmingly positive,
3 and a lot of Democrat members came and thanked me.

4 Q. Did you receive any input from any
5 constituents about the map?

6 A. We had members of the public come to
7 speak. I don't know that I had any of my
8 constituents who came out to speak. I may have
9 received some emails, but if I did, they were not
10 very many, from my -- my constituents.

11 Q. You said a moment ago that a number of the
12 Democratic members came up to thank you.

13 Do you recall which ones those were?

14 A. I don't.

15 Q. Do you recall approximately how many?

16 A. Probably eight to ten who went out of
17 their way.

18 Q. Was that roughly -- that was roughly the
19 number that submitted requests to you?

20 A. It is roughly the number, yes.

21 Q. Was it the same individuals?

22 A. No, not --

23 Q. Okay.

24 A. -- necessarily.

25 Q. After reviewing the November 2 plan, did

1 you form a view as to whether it presented adequate
2 district lines?

3 A. Whether they complied with the law?

4 Q. And other redistricting criteria.

5 A. It was represented to me by my lawyers
6 that it did.

7 Q. Did you perform any review or analysis
8 independent of your lawyers?

9 A. No.

10 Q. And aside from what we've mentioned, did
11 you provide any input at all on the November 2 plan?

12 A. No.

13 Q. Were there any member requests that were
14 not accommodated in that plan that you would have
15 wanted to accommodate in a subsequent plan?

16 A. I remember that there were member requests
17 that were not accommodated that couldn't be for
18 whatever reason.

19 Q. And so did you attempt to accommodate
20 those in a subsequent map?

21 A. No.

22 Q. Why not?

23 A. We were running out of time.

24 Q. Okay. Are you aware that on September 23,
25 2021, Governor Kemp signed a proclamation ordering a

1 special legislative session of the general assembly
2 in order to draw new maps?

3 A. Yes.

4 Q. And the special legislative session was
5 set to begin November 3 --

6 A. Yes.

7 Q. -- 2021?

8 Did you have any communications with
9 Senator Kennedy about the strategy for the special
10 legislative session?

11 A. I don't know what you mean by "strategy."

12 Q. Did you talk to him at all about the
13 session?

14 A. We discussed logistics on holding joint
15 committee meetings.

16 Q. Did you discuss the -- the maps at all?

17 A. No.

18 Q. So only the -- the logistics of holding
19 the meetings?

20 A. Yes.

21 Q. Approximately how many times did you
22 confer about that?

23 A. You know, I don't -- I don't even know
24 that he and I conferred very much. If we did, it
25 was in passing. It was mostly our assistants who

1 did that.

2 Q. Did you communicate with anyone else about
3 the strategy for the special legislative session?

4 A. I -- I -- I -- I'm sorry. I don't know
5 what you mean by "strategy."

6 Q. Well, you wanted to get the bills passed;
7 right?

8 A. Yes.

9 Q. Was there any discussion on how -- how to
10 go about that?

11 A. No. If there were, it was just regular
12 workings of the legislature, scheduling committee
13 meetings.

14 Q. And so were you confident that you would
15 have the votes to pass the bills?

16 A. I knew that I was going to work for that.
17 That's -- not everybody -- it's not guaranteed that
18 everybody would vote for it. So I felt like once we
19 got this good map and we had implemented every
20 change that we possibly could, then I felt like we
21 probably would have the votes.

22 Q. But did -- did you discuss with anyone any
23 particular strategies for any churn that you had in
24 the votes?

25 A. No. I mean, none other than just

1 complying with the law and listening to the
2 legislators about their districts and what was
3 important to their communities.

4 Q. So you were fairly confident, even before
5 the map was published, that you would have the votes
6 to pass it?

7 A. No, not necessarily. But once I saw the
8 map and once people were receiving it favorably, I
9 felt good about it. You never know till you get the
10 votes.

11 Q. So before you saw the maps, which you said
12 was just a -- maybe just a few days before the
13 special session, were you confident then that you
14 would have the votes to pass the maps?

15 A. Well, no, because I didn't know what the
16 maps would look like. I didn't -- we -- we had some
17 serious population loss in southwest Georgia which
18 changed a lot of things. And so, you know, I didn't
19 know what was going to happen. But once I saw them,
20 I felt good about them.

21 Q. And -- and before you had seen them,
22 though, you still hadn't discussed with anyone
23 any -- any ways to solidify your position in terms
24 of getting the votes?

25 A. Well, there was no specific conversation,

1 but we all -- everybody on the committee wanted to
2 have maps that complied with the law and that met
3 redistricting guidelines, and we knew that was the
4 key to getting the votes.

5 Q. I'm going to now introduce the next
6 exhibit. I believe we are on 6.

7 (Plaintiffs' Exhibit 6 was marked for
8 identification.)

9 BY MR. MELLMAN:

10 Q. Do you recognize this map?

11 A. It appears to be a map that was produced
12 by our Redistricting Office.

13 Q. And I'll represent to you that this is the
14 S.B. 2EX --

15 A. Okay.

16 Q. -- Congressional map.

17 A. Okay.

18 Q. When did you first see this proposed map?

19 A. The day or -- the day it was published or
20 the day before it was published. Very -- very close
21 in time.

22 Q. Did you see any drafts of it before it was
23 published?

24 A. No.

25 Q. To your knowledge, who drew this map?

1 A. The Redistricting Office.

2 Q. Okay. And -- and you discussed that the
3 map was drawn -- both the State House map and
4 Congressional district map were drawn by the LCRO
5 and -- and with attorneys present.

6 And is it your testimony that the first
7 drafts of the map were all drawn by unelected
8 officials?

9 A. That is my understanding.

10 Q. Okay. Did you have concerns about that?

11 A. No.

12 Q. Why not?

13 A. We had retained counsel to ensure that we
14 complied with the law.

15 Q. Okay. Moving back to this map, do you
16 know whether any submissions -- any external
17 submissions were taken into account in drawing this
18 map?

19 A. Like written submissions?

20 Q. Like other proposed maps.

21 A. I -- I don't -- I don't know about that,
22 no.

23 Q. Okay. Do you know whether any external
24 consultants or lawyers were hired to assist with
25 drawing this map?

1 A. I don't know if there were any others than
2 the ones that had been representing us throughout
3 it.

4 Q. And that's the legal counsel that we
5 discussed prior to --

6 A. Yes.

7 Q. No other consultants?

8 A. Not that I'm aware.

9 Q. Do you know the time frame in which this
10 map was drawn?

11 A. It was after the Senate's proposed
12 Congressional map.

13 Q. So it wasn't even -- no one even started
14 drawing it until after the Senate map was proposed?

15 A. Correct.

16 Q. And do you recall when that was?

17 A. When the Senate map was proposed?

18 Q. Uh-huh.

19 A. I don't remember, but it's whenever it was
20 put on the website.

21 Q. Okay. Did you have any meetings regarding
22 the drawing of this map?

23 A. Yeah, I believe so.

24 Q. And what were those meetings?

25 A. Where we tried to accommodate some of the

1 requests that we had heard in the -- the town halls,
2 and that was the Pickens County issue that I
3 remembered. When I see this map, I remember that.

4 Q. And who -- who was in those meetings?

5 A. That would have been --

6 COURT REPORTER: I'm sorry. I didn't hear
7 the question.

8 BY MR. MELLMAN:

9 Q. Who was in those meetings?

10 A. That would have been our -- our lawyer. I
11 don't know if anybody from redistricting was there
12 or not. They may have been.

13 Q. When you say "from redistricting," you
14 mean the --

15 A. Redistrict --

16 Q. -- the LCRO?

17 A. Yes.

18 Q. And approximately how many meetings would
19 that have been?

20 A. One or two.

21 Q. And were those before the map was
22 published or after?

23 A. I believe before.

24 Q. So -- so you did see the map before it was
25 published?

1 A. No, I didn't say that. I said I had
2 meetings with people.

3 Q. About the map?

4 A. Yeah.

5 Q. But you hadn't seen the actual --

6 A. About --

7 Q. -- map?

8 A. Right. About what the map would contain.

9 Q. Okay. So you didn't have any comments on
10 the -- the map as actually drawn --

11 A. No.

12 Q. -- or drafted?

13 A. Uh-uh.

14 Q. Okay. Did you have any role in drawing
15 any parts of this map?

16 A. No.

17 Q. Did you provide any input into the drawing
18 of this map?

19 A. None other than just discussing some of
20 the requests that were made.

21 Q. And so that was the only, as we've been
22 discussing, the requests that those particular
23 members had made?

24 A. No. This would have been -- I remember
25 requests from the town halls with respect to the

1 congressional map.

2 Q. Okay. And so those would have been from
3 constituents?

4 A. Not my constituents --

5 Q. Yeah.

6 A. -- but Georgia residents.

7 Q. From any nonprofit or other groups?

8 A. I don't remember.

9 Q. And so when in particular was the -- the
10 feedback from the town halls that you were
11 discussing to provide on these maps?

12 A. The only one that I can specifically
13 remember is the Pickens County issue, and now I
14 can't remember exactly what it was. But I do see
15 that it's different in this map than it was in the
16 Senate-proposed map. So whatever it was, we
17 accommodated it.

18 Q. And you -- you asked the LCRO to
19 accommodate that request?

20 A. Yes. Or it would have been asked in a --
21 a meeting or a general conversation.

22 Q. Was anyone on -- in your staff involved in
23 input on this map in any other way than what we
24 discussed?

25 A. My staff. I'm not sure to whom you're

1 referring.

2 Q. Anyone in your -- in your office.

3 A. So there was one part-time secretary. No.

4 Q. Okay. And when you did review this map,
5 did you review it sort of on paper or digitally?

6 A. On paper.

7 Q. Did you ever sit in the LCRO office and
8 review this map digitally?

9 A. No.

10 Q. Not after it was published?

11 A. I don't think so.

12 Q. Were you aware of any feedback on this map
13 being communicated to the LCRO?

14 A. No.

15 Q. Did any members mention to you that they
16 had feedback on this map?

17 A. I don't recall that.

18 Q. What about did you talk to Senator
19 Kennedy -- Senator Kennedy about this map?

20 A. No.

21 Q. So no one asked you to confer about these
22 maps after they were published?

23 A. Confer with whom?

24 Q. With you.

25 A. No.

1 Q. And did you ask anyone to confer about
2 them?

3 A. We had public hearings on them, so yes.

4 Q. After they were published?

5 A. Yes, yes.

6 Q. Did you look at any underlying data on
7 this map when you were reviewing it?

8 A. I may have done that in preparation for my
9 presentations in committee or in the House chamber.

10 Q. And what data did you look at?

11 A. You provided data here that the
12 Redistricting Office provides with the maps. So if
13 I did review data, it would have been this data.

14 Q. Would there have been any other data that
15 you looked at?

16 A. Not me.

17 Q. And if anyone was looking at other data,
18 to your knowledge that would be the LCRO and
19 counsel?

20 A. I really don't know who it could be.

21 Q. Okay. Did you ask to look at any more
22 data when reviewing this map?

23 A. No.

24 Q. And did you present this map in the
25 committee?

1 A. I believe I did.

2 Q. Okay. And how did you prepare to present
3 that?

4 A. Counsel. I met with counsel, and they
5 walked me through the map and gave me information.

6 Q. Approximately how many times?

7 A. I would think just once.

8 Q. Okay. For how long?

9 A. Maybe 30 to 40 minutes.

10 Q. And would that have been with Mr. Tyson?

11 A. Or Loree~Anne Paradise.

12 Q. In your review of the map, did you form a
13 view as to whether it presented suitable
14 Congressional district lines?

15 A. Based upon my lawyers' advice, yes.

16 Q. Did you have any concern about the map?

17 A. No.

18 Q. Are you aware -- were you aware that this
19 was different -- that this map was different from
20 the plan that we looked at previously published by
21 Lieutenant Governor Duncan and Senator Kennedy?

22 A. Yes.

23 Q. What is your understanding of the
24 differences between those two maps?

25 A. The only one that I can remember was the

1 Pickens County issue.

2 Q. Okay. And do you have a view as to which
3 map looks better?

4 A. Well, in that regard, I think the one that
5 was passed was because it satisfied the -- the
6 Pickens County constituents.

7 Q. Did you have -- are you aware of any other
8 differences between the two maps?

9 A. I don't recall them.

10 Q. Do you have a view as to which map
11 respected the redistricting guidelines adopted by
12 the legislature that we looked at?

13 A. I don't have an opinion. I would assume
14 they both did.

15 Q. And aside from the Pickens County issue,
16 do you have an awareness of any other differences
17 between the two maps?

18 A. I don't -- I don't recall them. I'm sure
19 there were some, but I don't recall. There are just
20 an infinite number of ways that one could draw a
21 map.

22 Q. Once this map was published, was there
23 ever a town hall held to discuss it?

24 A. No. We had public hearings, though, that
25 were here at the Capitol.

1 Q. And what was the nature of the public
2 hearings?

3 A. Well, we presented the -- the map,
4 discussed it. We had legislators ask questions.
5 Members of the public speak to it. Just a typical
6 committee hearing.

7 Q. And aside from what we've discussed
8 already, did anyone ask you to provide any concerns
9 or input as to S.B.~2EX?

10 A. No.

11 Q. And did you provide any unsolicited input
12 on the S.B.~2EX?

13 A. No.

14 Q. Were you aware of any communications about
15 the map drawing process for S.B.~2EX that we've not
16 already discussed?

17 A. Not that I can recall.

18 Q. And to your awareness, do you recall any
19 discussion about redistricting guidelines being
20 considered when drawing this map?

21 A. Well, we discussed that -- that they would
22 be complying with the guidelines.

23 Q. What about the -- the sort of non-legal
24 guidelines like communities of interest?

25 A. Yes, yes.

1 Q. Dem- -- anything relating to demographics?

2 A. Well, to the extent that it would reflect
3 upon communities of interest or compliance with the
4 law, the Voting Rights Act, then yes, those would be
5 considered.

6 Q. What about keeping county lines intact?

7 A. That is a priority that we tried to -- you
8 can't always, but yes, respecting the local
9 jurisdictional lines was one of the guidelines.

10 Q. And what about city lines?

11 A. To a lesser extent. Of course, counties
12 trump cities, and historically Georgia has used the
13 counties. But that was some -- a request that we
14 had heard in the town halls, so we did try with all
15 of our maps to keep cities whole as much as
16 practicable.

17 Q. And did you communicate to the map drawers
18 requests to keep cities and counties whole?

19 A. Well, the map drawers were aware of all of
20 our guidelines. They were provided those
21 guidelines.

22 Q. Okay. And it's your understanding they
23 respected those?

24 A. Yes.

25 Q. Did you ever discuss them -- discuss those

1 guidelines with the committee staff?

2 A. We -- we definitely discussed the county
3 and city guidelines because it was something that
4 required some extra nighttime and weekend hours from
5 Gina Wright, and she worked really hard on trying to
6 do that.

7 Q. And what -- what did those discussions
8 entail?

9 A. Just that she was going to try to -- to
10 keep as many cities as possible whole without
11 jeopardizing the higher-ranking guidelines like the
12 Constitutional and Voting Rights Act --

13 Q. And --

14 A. -- issues.

15 Q. And did you communicate that to her,
16 that --

17 A. I don't remember who communicated it
18 first. She -- I believe she was present at most of
19 the town halls, and when she wasn't present, she --
20 I think she attended via Zoom. So she -- she heard
21 everything, too.

22 Q. Okay. But you -- did you make any
23 recommendations to her outside of the guidelines
24 that we discussed and the member requests?

25 A. No.

1 Q. Did she raise anything with you that she
2 was interested in outside of the guidelines and the
3 member requests?

4 A. No.

5 Q. So we look- -- we looked at two
6 Congressional maps, the September 27 and these
7 S.B.~2EX maps.

8 Aside from those maps, are you aware of
9 any other version of a Congressional map that was
10 proposed?

11 A. I think the Democratic caucus proposed
12 maps.

13 Q. Are you aware of any others aside from
14 those?

15 A. No.

16 Q. Any other drafts?

17 A. No. Do you mean legislator-proposed?

18 Q. Yeah.

19 A. Yeah. No, I'm not aware of legislator --
20 other legislator-proposed maps.

21 Q. Had you looked at any other proposed
22 drafts that the LCRO prepared?

23 A. No.

24 Q. So just the -- the S.B.~2EX?

25 A. Yes.

1 Q. Did you have any involvement in drawing
2 the State Senate maps?

3 A. No.

4 Q. Who was in charge of that?

5 A. The Senate.

6 Q. And Senator Kennedy?

7 A. Well, I don't -- I don't know what role he
8 took, but it's just the Senate -- they take the lead
9 on preparing their maps. The House takes the lead
10 on preparing their maps.

11 Q. Did you have any discussions with any
12 senators or the LCRO about the Senate maps?

13 A. No.

14 Q. In any of your meetings with the LCRO,
15 were you shown Senate maps?

16 A. I don't think so.

17 Q. Did you ever speak to Senator Kennedy
18 about the Senate maps?

19 A. I don't think I did. If I did, it would
20 have been to prepare for my presenting it in the
21 House Chamber.

22 Q. So you presented the Senate maps as well
23 in the House Chamber?

24 A. Yes.

25 Q. And what else did you do to prepare for

1 that presentation?

2 A. I probably watched his presentation in the
3 Senate.

4 Q. When did you first see the Senate maps?

5 A. I don't recall.

6 Q. Would it have been once when they were
7 published officially?

8 A. It could have been that early, but I
9 probably would not have gone to look at them then.

10 Q. And would you have seen them before they
11 were published?

12 A. No.

13 Q. When you saw them, the Senate maps, did
14 you provide any feedback on those maps?

15 A. No.

16 Q. Did you independently assess them in any
17 way before voting on them?

18 A. No.

19 Q. Did you talk to anyone about them?

20 A. Our lawyers who -- who said that they
21 satisfied the -- the legal requirements.

22 MR. MELLMAN: Okay. I think we're going
23 to take another break now. It's been about an
24 hour, if that's all right.

25 VIDEOGRAPHER: The time is 11:31. We are

1 going off the video record.

2 (Off the record.)

3 VIDEOGRAPHER: We're back on the video
4 record. The time is 12:50.

5 BY MR. MELLMAN:

6 Q. Okay. We are back on the record. Good
7 afternoon.

8 I'm going to just ask a couple of
9 questions about things we discussed earlier.

10 We had talked about, at length, how you
11 worked with legislative counsel on -- on the
12 redistricting process.

13 Who made the decision to hire counsel?

14 A. Outside counsel?

15 Q. (Nodded head.)

16 A. It's my understanding that it was someone
17 in leadership for the majority party. It could have
18 been the Speaker's office but I'm not certain.

19 Q. And were you consulted on that at all?

20 A. No.

21 Q. Did you provide any input about it at all?

22 A. No.

23 Q. And you talked about meetings with the
24 LCRO where you would -- or they would tweak the
25 districts according to members' requests.

1 Did you have any requests about your own
2 district?

3 A. Did I have requests?

4 Q. (Nodded head.)

5 A. Yes, I did.

6 Q. And did you communicate those to the LCRO?

7 A. Yes.

8 Q. And what were those requests?

9 A. I wanted my district to include part of
10 Hall County. It had to move north. We knew that.
11 So it could have gone one of two ways or some
12 combination of that. So I just wanted it to include
13 Hall County.

14 Q. And why did you want it to include Hall
15 County?

16 A. Because a substantial number of my
17 constituents were moving from my district up into
18 Hall County.

19 Q. Okay. And was that request accommodated?

20 A. Yes.

21 Q. Okay. I'm going to mark for
22 identification Exhibit 7.

23 (Plaintiffs' Exhibit 7 was marked for
24 identification.)
25

1 BY MR. MELLMAN:

2 Q. I'll ask you to take a look and see if you
3 recognize this map.

4 Do you recognize the map?

5 A. So I -- I just recognize it as a map that
6 came from our Reapportionment Office.

7 Q. Okay. I'll represent to you that this is
8 the HB1EX State House Redistricting Map.

9 A. Okay.

10 Q. Do you recall the date that the House
11 redistricting plan was first considered during the
12 special legislative session?

13 A. This map?

14 Q. Yes.

15 A. I don't.

16 Q. Did you have hearings on this map?

17 A. Yes.

18 Q. Approximately how many hearings?

19 A. I think two. Could have been three but I
20 think two.

21 Q. And what was the content of those
22 hearings?

23 A. The first hearing we introduced the map
24 and discussed it and entertained questions from
25 committee members, I believe. And then the second

1 hearing, we took public commentary.

2 Q. Did you respond to the public commentary
3 at those meetings?

4 A. No.

5 Q. To your knowledge, who drew this map?

6 A. The Reapportionment Office.

7 Q. And who instructed them to draw the maps
8 in the first instance?

9 A. I don't know.

10 Q. Did you instruct them to draw maps?

11 A. No.

12 Q. Do you know if -- do you know who else
13 might have instructed them to draw a map?

14 A. I -- I really don't.

15 Q. Would they have just started -- started
16 drawing the map of their own volition?

17 A. I -- they may have. I don't know who the
18 director answers to. She might report to -- I mean,
19 I don't know who she reports to, but whoever she
20 reports to would -- might have been the person who
21 directed her to start. I would assume that would be
22 the chief of staff for the -- of the House but I
23 don't know.

24 Q. Okay. So is it your best guess that
25 someone in the Speaker's office would have

1 instructed them to start to draw the map?

2 A. And it would have been just a guess.

3 Q. Would the same be true of the

4 Congressional map?

5 A. Yes.

6 Q. That you don't know who instructed them to
7 draw the map in the first instant?

8 A. I don't.

9 Q. Or if anyone --

10 A. Right.

11 Q. -- instructed them?

12 A. Right.

13 Q. Do you know whether this map you're
14 looking at, whether the drawers of the map took into
15 account XML submissions in drawing the map.

16 A. You mean commentary to or -- or written
17 submissions?

18 Q. Similar proposals --

19 A. Oh --

20 Q. -- map drawings.

21 A. -- I don't know.

22 Q. Do you know whether any external
23 consultants, lawyers, or lobbyists were hired to
24 assist with the drawing of this map?

25 A. I don't know of any other than the one who

1 counseled me to.

2 Q. Do you know the time frame in which this
3 map was drawn?

4 A. It was drawn, I believe, during the
5 special session.

6 Q. So to your knowledge, did they start
7 drawing it during the special session?

8 A. That is my understanding, but I don't know
9 that.

10 Q. When did you first see a draft of any part
11 of the map?

12 A. It -- I think -- I think I had already
13 said it was either the day that it was published or
14 a couple of days before.

15 Q. Have you seen any other drafts at all of
16 this map --

17 A. No.

18 Q. -- other than the one we just mentioned?

19 Once you saw this map, did you have any
20 input or feedback into this map?

21 A. Yes. That probably is the order that it
22 went is I saw the map and then -- I -- I really
23 don't know if my feedback from the legislators was
24 before I saw the whole map. So I don't -- I don't
25 know that I did have any input after I saw the whole

1 map.

2 Q. And to the extent you had any feedback on
3 this map, would that have only been communicating
4 those member requests that we discussed earlier?

5 A. It would have been, in addition to my just
6 confirming that it complied about all the legal
7 standards and the guidelines.

8 Q. And you confirmed that by talking to your
9 counsel?

10 A. Yes.

11 Q. Did you do anything else to confirm that?

12 A. No.

13 Q. When you reviewed the map, did you look at
14 any underlying data on the map?

15 A. There's data that the Reapportionment
16 Office provides, and yes, I would have looked at it
17 at the time. But it doesn't mean a lot to me
18 because I don't understand it the way the map
19 drawers and the lawyers who practice this understand
20 it.

21 Q. Do you recall what data you would have
22 looked at?

23 A. I would have looked at the data that you
24 have provided in this exhibit, and I think there was
25 also -- we used data to determine, like, partisan

1 issues. We looked at another elected person, how
2 that person performed in that district in a previous
3 election.

4 Q. How did you come to that data?

5 A. I -- I don't know. I think that data is
6 retrievable from the Secretary of State's office. I
7 didn't collect it.

8 Q. What was the purpose of using that data?

9 A. For partisan purpose.

10 Q. What do you mean by that?

11 A. Because after we considered all the
12 other -- the legal requirements and the guidelines,
13 then there was also a partisan consideration.

14 Q. Does that mean you were looking to elect
15 as many Republicans as possible?

16 A. Well, after we finished with the legal
17 requirements, that is -- that is the name -- that is
18 redistricting. It's -- I think the expert in
19 Georgia says it's the most political process that
20 there is or the most partisan process that there is.

21 Q. And who -- what -- where did you -- where
22 did you see that data?

23 A. It would be on printed sheets or when we
24 are looking at portions of the map on the computer
25 screen, Gina could highlight a district as it was

1 drawn and it would populate all of the different
2 data.

3 Q. And do you know how that data was
4 gathered?

5 A. I don't. I mean, like I said, I know that
6 it's retrievable from the census information and
7 from the Secretary of State's office.

8 Q. Did you look at any racial data on the
9 map?

10 A. I didn't look at it. I think it may have
11 populated because that was -- that was always
12 something to consider with the Voting Rights Act
13 districts.

14 Q. And did you look at the map with a racial
15 overlay?

16 A. I -- I did not, and I don't really know
17 what you mean by a "racial overlay." I know that
18 that is the statistical information that, I think,
19 the Voting Rights Act requires the map drawer to
20 consider.

21 Q. Was the partisan data used for any other
22 purpose?

23 A. Other than drawing maps?

24 Q. (Nodded head.)

25 A. I -- no -- I -- I'm sorry. I don't

1 understand that question.

2 Q. That's okay.

3 A. Okay.

4 Q. Do you know at -- at -- at what level the
5 partisan data was available?

6 A. What does that mean? I'm sorry.

7 Q. Sure. At the county level? The city
8 level? The block level?

9 A. I believe it was available by precinct.

10 Q. By precinct.

11 Any further more fine-grain levels?

12 COURT REPORTER: More what levels? I'm
13 sorry.

14 THE WITNESS: I don't recall if it was.

15 COURT REPORTER: You broke up a little.
16 You said something about more levels.

17 MR. MELLMAN: Sure. I said any further
18 fine-grain levels.

19 COURT REPORTER: Thank you.

20 BY MR. MELLMAN:

21 Q. Do you know if it was available at the
22 block level?

23 A. I -- I don't know. The partisan
24 information?

25 Q. Yeah.

1 A. I would think it would not be, but I --
2 because it's based on elections and -- and primary
3 participation. So I -- I don't know, but my
4 educated guess would be no, I just don't know.

5 Q. Do you know at what level the racial data
6 was, precinct, county block?

7 A. I don't know.

8 Q. Aside from what we've discussed, have
9 you -- did you have any other role in drawing any
10 other parts of this map?

11 A. No.

12 Q. When you were looking at the maps in the
13 LCRO office, do you know what software was used?

14 A. I don't.

15 Q. So were there any other drafts between
16 when you -- you first saw the map and the final
17 publication of the map?

18 A. Again, I'm not sure because I can't
19 remember when my input was given.

20 Q. And your input was given, as we've
21 discussed, in the LCRO office making the tweaks
22 according to the member requests?

23 A. Yes.

24 Q. And was there any other feedback that was
25 given that you gave?

1 A. No.

2 Q. Once you saw the map, did you communicate
3 about it with anyone?

4 A. Outside of the committee hearing, I don't
5 think so.

6 Q. Any nonprofit organizations?

7 A. If I did, I don't remember.

8 Q. Any partisan organizations?

9 A. I -- I just don't remember. There -- we
10 were getting a lot of phone calls and emails. I
11 just can't remember.

12 Q. Did you communicate with Governor Kemp
13 about the map?

14 A. No.

15 Q. Anyone from his office?

16 A. No.

17 Q. Secretary of State Raffensperger?

18 A. No.

19 Q. Anyone from his office?

20 A. No.

21 Q. Did you communicate with the minority
22 party about the map?

23 A. If I did, it was just in passing
24 conversation. Nothing formal or substantive.

25 Q. Did any members of the minority party ask

1 to meet with you after publication of the map?

2 A. I think so. I think so, yes.

3 Q. And what did they want to discuss?

4 A. They wanted to make changes to their
5 district.

6 Q. What were some of the contents of those
7 changes?

8 A. I don't remember.

9 Q. Would those be in your files?

10 A. They might be. I do remember it was a
11 man, and I can't remember who it was. And he
12 possibly sent me emails on it. So it probably would
13 be in the -- in my files that were produced.

14 Q. And so is that just one person who asked
15 to meet with you?

16 A. I believe so. And it was somebody who had
17 not met with me at all before.

18 Q. Who -- who is the chief of staff of the
19 Speaker of the House?

20 A. Spiro Amburn.

21 Q. And is that the same person that it would
22 have been at the time that the redistricting process
23 began?

24 A. Yes.

25 Q. Okay. And we talked about that you did

1 see some racial data with regard to these maps?

2 A. I think that that's all -- I think all of
3 the data would populate when -- when you clicked on
4 a -- or you could make it populate when you clicked
5 on a -- a specific district.

6 Q. And so that would have been while you were
7 looking in the LCRO at the districts on the screen?

8 A. Yes.

9 Q. Gina Wright or someone from her office
10 would click on the district and then the racial
11 composition of that district would pop up?

12 A. I don't know that the total comp- --
13 composition would but some information about it did.

14 Q. And would that -- would that have been
15 precinct-level information?

16 A. I do not know.

17 Q. When you say "some information," what
18 would come up?

19 A. I don't know that it had every single
20 poss- -- every possible race. There may have just
21 been the most -- the largest population.

22 Q. Okay. But it did have the data for the
23 entire district?

24 A. Yes, I believe it did. Yes.

25 Q. Okay. Aside from this map, are you aware

1 of any other versions of the House map that were
2 proposed?

3 A. That were proposed by a legislator?

4 Q. Yeah.

5 A. The Democratic caucus prepared and
6 proposed one.

7 Q. Any others?

8 A. I am not aware of any.

9 Q. Did you see any drafts other than the
10 draft of this map?

11 A. If I did, it was one that was published.
12 I don't -- I think that I -- I only saw portions of
13 the State until the map was published in its
14 entirety.

15 Q. Did you have a view as to whether -- as to
16 how this plan differed from the plan proposed on
17 November 2?

18 A. This is not the plan that was proposed on
19 November 2?

20 Q. No. This is the -- the final plan.

21 A. Oh, okay. There were two. See, I
22 couldn't remember that.

23 Q. Okay.

24 A. I do not know. It may have been the
25 legislator input.

1 Q. Okay.

2 A. I -- I don't remember.

3 Q. Okay. Just going back to the -- the
4 racial data for a moment, you mentioned that when
5 you clicked on a district, the racial data would pop
6 up on the screen.

7 Do you recall what races would have popped
8 up on the screen?

9 A. I do know black and white did.

10 Q. Okay.

11 A. I just -- I don't remember because there
12 was a lot of information. And it -- it wasn't me
13 clicking. It was the Redistricting Office
14 personnel.

15 Q. Okay. Do you recall if Hispanic or Latino
16 data came up?

17 A. I think it did, yeah.

18 Q. Okay. What about Asian?

19 A. I think so. But I -- I'm just not the one
20 to ask that. I don't know. I don't remember.

21 Q. Did you form a view of whether this plan
22 presented suitable House district lines?

23 A. I believed my attorney when he represented
24 to me that it -- they were good, legal lines. Yes.

25 Q. Did anything else inform your view other

1 than your conversations with your attorney?

2 A. That and when members would come up and
3 tell me that they liked it.

4 Q. And so do you have any understanding of
5 what changes were made between the November 2 map
6 and this map?

7 A. Again, it may have been the individual
8 legislator input. I just do not remember. Seems
9 like we were trying to continue to tweak the map,
10 and I think we may have unpaired two Democrat
11 candidates, is what I seem to recall.

12 Q. Did you review this map to see whether it
13 complied with the Voting Rights Act?

14 A. I asked my lawyers if it did and they said
15 that it does -- that it did.

16 Q. Did you ask anyone else?

17 A. No.

18 Q. Did anyone else offer an opinion on that
19 to you?

20 A. No, I don't think anybody else really
21 would have been qualified to do that.

22 Q. Did you view preserving or creating
23 competitive districts as a goal for the State House
24 map?

25 A. I'm sorry?

1 Q. Did you view creating or preserving
2 competitive districts as a goal for this map?

3 A. I don't believe that was one of the
4 guidelines.

5 Q. Did you view keeping existing districts
6 whole as the goal for the State House map?

7 A. I -- I don't understand that because
8 district -- they all changed with redistricting.
9 Not all. I think one stayed the same. But I -- I
10 don't understand that question.

11 Q. Did you try to keep the boundaries as --
12 as close to as possible to what they were before --

13 A. Yes.

14 Q. -- understanding --

15 A. Yes.

16 Q. -- that changes needed to be made?

17 A. Yes, we did.

18 Q. Okay. Did you view avoiding removing
19 large numbers of people from their district as a
20 goal for this map?

21 A. Yes.

22 Q. Do you have a sense of how many
23 district -- districts retained less than half of
24 their residents relative to the 2010 map?

25 A. I have no idea.

1 Q. Are you aware that this was the case for
2 32 districts?

3 A. I'm not aware now. I may have been at the
4 time.

5 Q. Do you view that as a suitable goal for
6 the map?

7 A. Do I view what as a suitable goal?

8 Q. Knowing that there were 32 districts
9 where -- that retained less than half of their
10 population, do you believe this to be an adequate
11 map?

12 A. If that's the case, I -- I believe that
13 the map that we passed is a suitable and adequate
14 map, yes.

15 Q. We talked about a few different
16 redistricting principles.

17 Which principles were given highest
18 priority?

19 A. The Constitutional standard and the Voting
20 Rights Act were the two that were of utmost
21 importance. And then the others, you know, really,
22 you know, trying to keep communities of interest
23 whole, respecting the -- the county boundaries as
24 much as we could. You know, we have a lot of
25 counties here in Georgia. You know, they -- they

1 all were considered, but the legal standards were
2 the ones that were of utmost importance.

3 Q. Beyond the legal requirements, if there
4 was a conflict between the other redistricting
5 principles, how would that conflict be resolved?

6 A. That is an impossible question to answer
7 because it is such a complex process with just
8 infinite possibilities. There was no formula or
9 standard. Because one change could -- would cause a
10 change in another district. So I -- I -- I just
11 can't answer that question.

12 Q. Would you have been the one to make the
13 decision as to which principle would have won out if
14 there was a conflict?

15 A. No, I would not have been. And I wasn't
16 involved in the original drafting. But when I was
17 in the room with the tweaking, it may have been
18 discussed around the table, but I really don't
19 specifically recall.

20 Q. Do you know who would have been
21 responsible for resolving those conflicts?

22 A. I think ultimately -- ultimately, if there
23 were a question about it, then it could have been
24 me, in which case I would have always asked for the
25 legal opinion on it. That was always my first

1 question.

2 Q. And would you have followed that legal
3 opinion?

4 A. Absolutely, yeah.

5 Q. Where -- can you think of any instances
6 where you did not follow the legal opinion?

7 A. No, that would not have happened.

8 (Discussion off the record.)

9 MR. MELLMAN: I'm going to mark --

10 (Discussion off the record.)

11 MR. MELLMAN: I'm going to introduce this
12 exhibit. It actually was produced as
13 Exhibit 10 in the deposition of Representative
14 Dugan.

15 COURT REPORTER: I'm sorry. I couldn't
16 hear you. In the deposition of?

17 MR. MELLMAN: Of Representative Dugan.

18 MR. TYSON: So mark it as 8 here or just
19 use 10? How do you want to do that?

20 MR. MELLMAN: We can mark it as 8.

21 MR. TYSON: Okay.

22 COURT REPORTER: And who was that asking
23 that question "So mark it as 8 here or just use
24 10?"

25 MR. TYSON: I'm sorry. That was Brian

1 Tyson.

2 COURT REPORTER: Thank you. That's who I
3 guessed but I didn't want to guess.

4 (Plaintiffs' Exhibit 8 was marked for
5 identification.)

6 BY MR. MELLMAN:

7 Q. And do you recognize these two maps?

8 A. It says that it's the prior Congressional
9 District 6 and the S.B.~2EX Congressional 6.

10 Q. Okay. And so just take a moment to look
11 at that and then I'm going to introduce Exhibit 9.

12 (Plaintiffs' Exhibit 9 was marked for
13 identification.)

14 BY MR. MELLMAN:

15 Q. And Exhibit 9 is a document beginning with
16 Bates Number LEGIS00010310.

17 Do you recognize this document?

18 A. Yes.

19 Q. And is this an email and attachment from
20 you to Julie Sutton?

21 A. Yes.

22 Q. And who is Julie Sutton?

23 A. She was the part-time secretary.

24 Q. And it appears to be an empty email with
25 attachments; is that right?

1 A. Yes.

2 Q. So looking at -- at the attachment -- take
3 a moment to read -- read the attachment.

4 A. Yes. I mean, it's -- I -- I -- I
5 recognize what it is. It's very long, though. It's
6 four pages.

7 Q. Okay. And on the page ending -312, the
8 bullet point -- or the first bullet point 3 there,
9 can you read that -- just the first sentence in that
10 bullet point?

11 A. Number 3 from the top?

12 Q. Yeah.

13 A. At the top. "It respects county
14 boundaries. Our current plan splits 16 counties on
15 the Congressional district and this plan splits 15.
16 In -- in contrast, the Democratic plan splits 18
17 counties."

18 Q. And can you read the next bullet as well,
19 please?

20 A. "While some precinct splitting is
21 inevitable to reach zero deviation, we split as few
22 precincts as possible while reaching that goal and
23 tried to find logical places to divide counties."

24 Q. So is it fair say you viewed min- --
25 minimizing split counties as an important goal in

1 redistricting?

2 A. Yes.

3 Q. And where would you put it in your
4 priorities?

5 A. Below the Constitution and the Voting
6 Rights Act, and I don't -- you know, I don't know
7 that I can necessarily rank them after that.

8 Q. Okay. Moving on to the next page, there's
9 a list of numbers and names in parenthesis.

10 Do you see that?

11 A. I do.

12 Q. Okay. And then I'll ask you to turn over
13 to the back page and three paragraphs up from the
14 bottom it says "Six (Lucy McBath over 657.)"

15 Do you see that?

16 A. Yes.

17 Q. So is it fair to assume that this is a
18 reference to Congressional District 6?

19 A. Yes.

20 Q. And Lucy McBath was an incumbent in that
21 district?

22 A. Yes.

23 Q. And is it fair to assume that "over 657"
24 indicates that Congressional District 6 is over the
25 ideal district size by only 657 people?

1 A. Correct.

2 Q. And if you look at the others on the list,
3 that's much closer to the ideal district size than
4 any of the other districts?

5 A. Yes.

6 COURT REPORTER: I'm sorry. What -- it's
7 much closer to the "A" something district size.
8 You're still breaking up still. If you could
9 maybe move closer to the mic.

10 MR. MELLMAN: I believe the word was
11 "ideal district size."

12 COURT REPORTER: Thank you.

13 BY MR. MELLMAN:

14 Q. So only a fairly small number of people
15 would have had to have been subtracted to get to the
16 ideal district size for Congressional District 6?

17 A. If you take it in a vacuum, yes, but you
18 have the other districts that you're moving
19 boundaries on which moves the boundaries on
20 District 6.

21 Q. And are you aware that approximately
22 360,000 people were removed from this district?

23 A. I don't know the number.

24 Q. Does that seem accurate to you?

25 A. I wouldn't be able to say one way or the

1 other.

2 Q. And so, then, are you aware that
3 approximately 360,000 people -- new people were
4 moved into the district?

5 A. I -- if you say that's a fact, then I
6 believe you.

7 Q. Looking at the map for a moment that I
8 just showed you, can you identify the new counties
9 that were added to Congressional District 6?

10 A. Forsyth and Dawson, Georgia.

11 Q. And part of Cherokee as well?

12 A. Yes.

13 Q. Okay. Are you aware of the general
14 demographics of those areas?

15 A. Well, what do you mean?

16 Q. Of Forsyth, Dawson, Cherokee, are you
17 generally -- generally aware of the -- the
18 demographics of those areas?

19 A. Well, I mean, generally they are more
20 conservative and Republican. I don't live too far
21 from there. That's the only reason I know a little
22 bit about it. But that's -- that's what I know.

23 Q. Would you characterize them as exurban or
24 rural?

25 A. No.

1 Q. How would you characterize them?

2 A. Oh, suburban.

3 Q. Suburban?

4 A. Yes.

5 Q. Okay. And how would you characterize the
6 areas of North Fulton and East Cobb County?

7 A. Suburban.

8 Q. So would you say that -- would you say
9 those are relatively similar -- have relatively
10 similar characteristics to the districts that were
11 added?

12 A. Yes.

13 Q. Okay. We're going to take a minute to
14 look at another map of Congressional District 14.
15 Just give me a moment.

16 (Plaintiffs' Exhibit 10 was marked for
17 identification.)

18 BY MR. MELLMAN:

19 Q. This is has also been introduced in the
20 Dugan deposition. We can just mark it as
21 Exhibit 10.

22 Do you recognize this map?

23 A. I -- I recognize that it's titled "Prior
24 Congressional District 14 and S.B.~2EX Congressional
25 District 14."

1 Q. And how would you characterize the former
2 Congressional District 14?

3 A. I'm sorry. What do you mean?

4 Q. Urban? Suburban? Rural? Exurban?

5 A. I'm -- I'm not familiar with this area
6 like I am 6 because I don't live down here and I
7 never have. It's my understanding it's very rural
8 in the area, but I don't really -- I don't really
9 have personal knowledge of that area the way that I
10 do the other one.

11 Q. Are you aware that the primary industries
12 there are agricultural and manufacturing?

13 A. I am not but that would not surprise me.

14 Q. Okay. And the -- looking down at the
15 bottom there, the portion of Cobb County that was
16 added, are you familiar with the general
17 characteristics of that area?

18 A. Generally, yes.

19 Q. Would you characterize that area as rural?

20 A. No.

21 Q. How would you characterize it?

22 A. Cobb County?

23 Q. (Nodded head.)

24 A. It -- it's suburban.

25 Q. Would you say it's part of the metro

1 Atlanta area?

2 A. Yeah, I would say that.

3 Q. Do you believe that there are communities
4 of interest between that portion of Cobb County that
5 was added and the prior Congressional District 14?

6 A. So the portion that's beside Paulding
7 County, I really -- I -- I don't know the area. So
8 I really wouldn't know. I would assume that because
9 it's right there, it would be pretty similar to the
10 Paulding County area that it butts up against. But
11 I don't really know that.

12 Q. Are you aware that District 14 is Marjorie
13 Taylor Greene's district?

14 A. Yes.

15 Q. And so are you aware of any of the various
16 demographics of the former Congressional District 14
17 versus the current Congressional District 14?

18 A. I don't know the differences. I would
19 assume that they're both conservative, Republican
20 leaning. I don't really know.

21 Q. Including the portion of Cobb County that
22 was added?

23 A. I really don't know.

24 Q. Are you aware that the portions of Cobb
25 County that were added included Austell and Powder

1 Springs?

2 A. No.

3 Q. Are you familiar with those names?

4 A. I -- I've heard of them, but I'm not
5 familiar with the specific parts of Cobb County. I
6 just know it as a whole.

7 Q. So are you aware that Austell has a mostly
8 high black population?

9 A. I don't -- I don't know that specifically.

10 Q. The same for Powder Springs?

11 A. Right. I don't know that. I believe you
12 if you say it is.

13 Q. What about the racial demographics of the
14 various parts of the district that were moved?

15 So that would be Haralson County and part
16 of Pickens County.

17 A. I -- I really -- I really don't know. I
18 just remember that Pickens County wanted to be
19 whole. I do remember that.

20 Q. Would you be surprised to learn that the
21 percentage of non-white people in District 14
22 increased with the new map?

23 A. No.

24 Q. You would not be surprised?

25 A. No.

1 Q. Why not?

2 A. Well, I think that the percentage of
3 non-white people for the whole state increased.

4 Q. And would that have been smoothly across
5 the whole state?

6 A. I -- I doubt that.

7 Q. Do you recall receiving any public
8 comments or feedback from the residents of the --
9 from the residents of the part of Cobb County that
10 was added to Congressional District 14?

11 A. Yes, I do.

12 Q. And what was the tenor of that feedback?

13 A. Yeah. They -- they did not want to be
14 included there.

15 Q. And can you discuss why the decision would
16 be made to include them anyway?

17 A. I really -- you know, I can't say
18 specifically. I know that there were a lot of
19 factors that went into this map and we tried to
20 please as many people as possible, but never --
21 you're never going to please everybody. There will
22 always be people who are not happy. So I -- I would
23 assume that the reason that the map exists the way
24 it is is because it needed to to comply with the
25 legal standards and the redistricting guidelines.

1 Q. And would you have made the decision on
2 whether to include that piece of Cobb County?

3 A. No. It was part of the map. Like, it was
4 not -- you know, it wasn't anything that -- that we
5 discussed changing. So I would say that that
6 decision was probably made by the map drawer and
7 then we did just -- we approved it when we -- when
8 we looked at the map.

9 Q. "We" being you and counsel?

10 A. The committee, and yeah, counsel. Yeah.

11 Q. Did you conduct any sort of analysis to
12 determine the propriety of the map?

13 A. Beyond hiring counsel to review it?

14 Q. (Nodded head.)

15 A. No.

16 Q. Do you recall receiving any comments or
17 feedback from the residents of the existing
18 Congressional District 14 about the prospect of
19 adding parts of Cobb County?

20 A. I -- I don't remember. There may have
21 been. There may have been people who complained
22 about that.

23 Q. Do you recall the tenor of any of those
24 complaints?

25 A. Well, if -- if somebody did complain, they

1 just wouldn't have wanted it. But I -- I -- I
2 don't -- I don't have a specific recollection who it
3 may have been. It's been over a year ago. There
4 were a lot of, you know, people testifying in these
5 hearings.

6 Q. Okay. Do you recall why they would not
7 have wanted that part of Cobb County as part of
8 their district?

9 A. No, I don't.

10 Q. Can you look back again at the -- the
11 email attachment that we just looked at?

12 On the last page with respect to
13 Congressional District 11, you write "Responded to
14 the overwhelming public input with respect to
15 Pickens County and made it whole."

16 A. Yes.

17 Q. And we discussed that before as well?

18 A. Yes.

19 Q. And then just above that for Congressional
20 District 14 you write "Maintained this core
21 district; needed to gain population, so it
22 geographically moved south, where we had population
23 growth."

24 A. Yes.

25 Q. And if you take a look at the map, why

1 didn't you make Pickens whole if you needed to add
2 population growth?

3 Why didn't you make Pickens whole by
4 adding all of Pickens to Congressional District 14?

5 A. I -- I really couldn't answer that. I'm
6 not a map drawer. This was something that was an
7 issue because of a mountain range that divided and
8 made things difficult there, is what I seem to
9 recall. But I -- I'm not the map drawer so I
10 couldn't really answer that.

11 Q. Do you recall if anyone suggested
12 incorporating all of Pickens County into
13 Congressional District 14?

14 A. Who? Like -- like the public?

15 Q. A legislator. A map drawer.

16 A. No, I don't.

17 Q. Okay. I'm going to show -- I'm going to
18 show you another document which I'm going to mark as
19 Exhibit 11.

20 (Plaintiffs' Exhibit 11 was marked for
21 identification.)

22 BY MR. MELLMAN:

23 Q. And it begins with a Bates
24 Number LEGIS00003224.

25 And can you take a look at this email?

1 A. I see it.

2 Q. Have you ever seen this email before?

3 A. No.

4 Q. Could you take a look at the back? If you
5 can take a look at the comments on the districts.

6 Have you seen anyone propose any of these
7 suggestions?

8 A. No, unless this is what the Senate's
9 version looked like. I -- I don't know that. I
10 just can't remember.

11 Q. If you look at District 14 at the bottom,
12 it says "Add population from Bartow to balance out."

13 And if -- if -- if you look at the map,
14 Bartow County is actually not on this map, but I
15 believe it's adjacent to Congressional District 14.

16 Do you recall anyone suggesting adding
17 population from Bartow County to Congressional
18 District 14?

19 A. I don't. This is an email from John
20 Kennedy. I'm not included on it. I never discussed
21 this with him at all.

22 Q. Okay. I mean, you never discussed the
23 Congressional district map with John Kennedy?

24 A. No.

25 MR. MELLMAN: Okay. We've been going for

1 about another hour. I think we'll take another
2 break, if that's all right.

3 VIDEOGRAPHER: The time is 1:35. We are
4 going off the video.

5 (Off the record.)

6 VIDEOGRAPHER: We are back on the video
7 record. The time is 1:50.

8 BY MR. MELLMAN:

9 Q. Okay. I'm going to ask you a couple more
10 questions about Congressional District 14.

11 Do you recall that Congresswoman Marjorie
12 Taylor Greene complained that the decision to move
13 part of Cobb County into CD14 that was done by
14 power-hungry members of the Georgia General
15 Assembly.

16 A. I don't specifically recall that. I -- I
17 didn't --

18 Q. Do you recall comments of that nature?

19 A. Maybe generally. I -- I really did not
20 follow her, so.

21 Q. What -- did you have any understanding of
22 what that meant?

23 A. Well, I don't remember that specific
24 comment, and do you -- you're asking now if I
25 understand what it means now?

1 Q. (Nodded head.)

2 A. I really don't. I -- I really don't.

3 Q. Do you have an understanding of why she
4 was critical of the redistricting decisions related
5 to Congressional District 14?

6 A. I don't. I don't -- I don't follow her
7 rationale or logic. I don't understand it.

8 Q. Do you have an understanding of why any
9 residents of Congressional District 14 were
10 displeased with the redistricting process?

11 A. I wouldn't -- I wouldn't know except for
12 whatever they said in the meeting, and I -- I don't
13 remember that, sitting here today.

14 Q. I'm going to ask you now about some of the
15 specific districts -- some of the specific House
16 districts.

17 So the map, if you flip to the subsequent
18 pages, there's some zoomed-in portions, and I'll
19 just ask you to answer to -- to the best of your
20 ability about each particular district.

21 So for House District 44, do you see where
22 that is? It's --

23 A. No.

24 Q. -- in the top left. It splits between
25 the -- the second big box down there.

1 A. Oh, is it on a blowup?

2 Q. Yeah. On the second page --

3 A. Oh, okay.

4 Q. -- Metro Atlanta area.

5 A. I see 43 and 45. Oh, there's 44, yes.

6 Q. And are you generally familiar with House
7 District 44?

8 A. No.

9 Q. Okay. Can you explain when a factors you
10 considered in redrawing House District 44?

11 A. None other than the ones that I've already
12 told you about.

13 Q. Are you aware of whether the district core
14 was maintained from the 2010 map?

15 A. I don't recall.

16 Q. Are you aware of the racial demographic --
17 demographics of the old HD44?

18 A. Not sitting here.

19 Q. Or would you have been at the time?

20 A. I may not have been. I -- I -- I don't --
21 I -- I don't recall looking -- I know for a fact I
22 didn't look at every district, and I don't recall if
23 I looked at that one or not.

24 Q. For the districts that you looked at,
25 would you have looked at the racial demographics?

1 A. The information -- if -- if we clicked on
2 the district, it would have popped up and, you know,
3 that would have been something, you know, when we
4 would try to make a change that was requested, it
5 may have altered it so extreme that, for example,
6 you know, a voting rights district went down to, you
7 know, nothing. No -- no black population or very
8 low. So we're, like, well, we can't do that.

9 So to that extent, I would have, but I --
10 I really wasn't the one using those figures to draw
11 the maps. Those would just pop up when we were
12 trying to tweak it.

13 Q. And when you say you -- you didn't look at
14 every district, for the districts you did look at,
15 what does it mean to you to look at them?

16 A. Meaning the districts where we tried to
17 change something that somebody -- that a legislator
18 had -- had requested.

19 Q. And in drawing this district and the
20 districts in general, we talked about did you value
21 keeping counties whole?

22 A. That was one of the redistricting
23 guidelines.

24 Q. Do you recall why it would have been
25 sacrificed in this particular situation?

1 A. I don't recall in this particular
2 situation, but given the fact that we have as many
3 counties as we do, that was inevitable, to have to
4 split them.

5 Q. Okay. What about -- what about House
6 District 48?

7 A. I see it here.

8 Q. Was that one of the districts that you
9 looked at?

10 A. I would not be able to say.

11 Q. Do you know if the district core was
12 maintained from the 2010 map?

13 A. I have no idea looking at this now.

14 Q. Are you aware of the racial demographics
15 of the old HD48?

16 A. No. I -- I'm not going to be able to
17 answer any questions like that.

18 Q. Okay. Or the new HD48?

19 A. No.

20 Q. And so when you were looking at a
21 particular district, you were able to click on it
22 and view the racial data for that district?

23 A. I couldn't. I didn't have access to that
24 software. But when I was with Gina or Brian in the
25 apportionment office, if they clicked on a district,

1 then they could make that information populate. And
2 they would do that to look at it themselves because
3 they knew that they needed to consider that for
4 whatever changes we were trying to make.

5 Q. And you were in the office at times when
6 they were clicking on particular districts and
7 looking at that data?

8 A. Yes.

9 Q. And if they were making tweaks, you could
10 look at that data before and after the tweak?

11 A. Yes.

12 Q. I'm just going to ask you about a few more
13 districts. If you don't know the answer, that's
14 okay. I'm going to ask the questions.

15 Go look now at House District 49.

16 A. Okay.

17 Q. Do you recall looking at that district?

18 A. I don't.

19 Q. Can you explain any factors you considered
20 in redrawing that district?

21 A. We would have -- we would have asked the
22 Reapportionment Office, our lawyers to apply the
23 guidelines and the law. That's all I can tell you.

24 Q. Do you know if the district core was
25 maintained from the 2010 map?

1 A. I can't say, sitting here today.

2 Q. Are you aware of the racial demographics
3 of the old HD49?

4 A. I don't know.

5 Q. What about the new HD49?

6 A. I don't know.

7 Q. HD52?

8 A. Okay. I see it.

9 Q. Do you recall reviewing that district?

10 A. No.

11 Q. Are you aware of what factors would have
12 been considered in redrawing that district?

13 A. The same as all of the other ones.

14 Q. Was -- are you aware of whether the
15 district core was maintained from the 2010 map?

16 A. I don't remember.

17 Q. Are you aware of the racial demographics
18 of the old HD52?

19 A. No.

20 Q. Or new HD52.

21 A. No.

22 Q. Last one.

23 HD104?

24 A. Okay.

25 Q. And do you recall looking at that

1 district?

2 A. Not specifically.

3 Q. Are you aware of what factors were
4 considered in redrawing that district?

5 A. The -- the same factors as all of the
6 others.

7 Q. Are you aware of whether the district core
8 was maintained from the 2010 map?

9 A. I don't remember, sitting here today.

10 Q. Are you aware of the racial demographics
11 of the old HD104?

12 A. There is no way I could ever remember
13 that.

14 Q. Or the new HD104?

15 A. No.

16 Q. And so are there particular districts you
17 do remember looking at?

18 A. I don't have specific recollection.
19 It's -- it's hard to do that by the numbers, you
20 know, and they don't stay the same after
21 redistricting. So it's virtually impossible.

22 Q. Were there specific areas or -- of the
23 state or districts that you recall specifically
24 tweaking or working on?

25 A. I -- I would have for -- representatives

1 with whom I met who made requests who had not
2 already, in just the -- the drawing by the
3 Reapportionment Office, who had not gotten something
4 they asked for, we would have pulled them up. And
5 we did. I think we gave every -- almost every
6 member who met with me something they asked for, if
7 not every member. And sometimes more than what
8 they -- the one thing.

9 So I just don't recall what they were
10 because I -- my memory is just -- does not work like
11 that. I just can't remember the -- the district
12 numbers that way.

13 Q. And so you mentioned earlier that you
14 spoke with about roughly 100 legislators and got
15 requests regarding their district?

16 A. Yes.

17 Q. Do you recall how many of those were
18 accommodated in the initial draft and how many
19 tweaks needed to be made for?

20 A. I don't recall specifically. I do know
21 that we -- I opened the file for every single
22 legislator, and we looked -- so we did look at every
23 single district, now that I'm thinking about how we
24 did it. And if we looked at it and we felt like
25 they got something that they asked for, we closed

1 that file, moved to the next. And I don't remember
2 how many -- for how many we had to make changes.

3 Q. Can you try and give me a ballpark number?
4 10? 90?

5 A. Not as many as 90. Probably more than 10.

6 Q. Do you have anything closer than that?

7 A. Probably fewer than 50.

8 Q. Okay. Are you aware of which counties
9 were split the most in that House map?

10 A. I am not aware, no.

11 Q. Are you aware that Fulton County was split
12 into 22 pieces?

13 A. I didn't remember that, no.

14 Q. Gwinnett into 21?

15 A. No.

16 Q. DeKalb into 17?

17 A. I'm not going to remember how many pieces
18 a county was split into. I do know you're calling
19 out the most populous counties in the metropolitan
20 Atlanta area.

21 Q. And Cobb was split into 14 pieces.

22 Were you aware of that?

23 A. I'm not -- I don't know how many pieces
24 counties were broken into.

25 Q. Okay. I'm going to mark another exhibit

1 for identification. It begins LEGIS00003531.

2 (Plaintiffs' Exhibit 12 was marked for
3 identification.)

4 THE WITNESS: From me to me.

5 BY MR. MELLMAN:

6 Q. Can you take a look at this document and
7 tell me if you recognize it?

8 A. Yes, I do recognize it.

9 Q. And the first page is an email to
10 yourself --

11 A. Yes.

12 Q. -- with an attachment.

13 And the title of the attachment is
14 "Georgia House District Map Introduction"?

15 A. Yes.

16 Q. And what was this document?

17 A. These were my talking points for
18 discussing the map at our first hearing.

19 Q. And if you flip to the next page under the
20 "Voting Rights Act" heading, you note that "40
21 districts are majority AP black VAP" --

22 A. Yes.

23 Q. -- "(up 1 from existing maps)" --

24 A. Yes.

25 Q. -- and "78 minority opportunity districts

1 (majority non-white VAP) (up 5 from existing maps)"?

2 A. Yes.

3 Q. And how did you come to obtain that
4 information?

5 A. My counsel.

6 Q. Did you independently investigate that
7 information?

8 A. No.

9 Q. And do you recall how much the popu- --
10 black population of Georgia increased from the prior
11 census?

12 A. I don't recall.

13 Q. Okay. So would you be surprised to learn
14 that it's approximately 23 percent?

15 A. If you say, then that makes sense.

16 Q. And the majority black voting age
17 population districts increased by 1 out of 180; is
18 that correct?

19 A. I -- I don't recall.

20 Q. According to your pad.

21 A. Oh, it's in my notes?

22 Q. Yeah. It says "Up 1 from existing maps."

23 A. I'm sorry. Where are you reading from?

24 Q. Sure. Just that bullet we were looking at
25 before.

1 "48 districts that are majority AP black
2 VAP (up 1 from existing map)."

3 A. Yes, yes.

4 Q. Okay. And then the -- the last bullet in
5 that heading, it says "One Latino majority VAP
6 district (District 98)"?

7 A. Yes.

8 Q. And how did you get that information?

9 A. From my counsel.

10 Q. And did you independently investigate that
11 information?

12 A. No.

13 Q. And do you recall what format that
14 information was given to you? Would it have been
15 written or oral?

16 A. I don't recall if it was written or oral.
17 It may have been given to me written, but I -- I may
18 have just taken notes and formulated my -- my
19 talking points. I -- I just don't recall.

20 Q. Okay. And moving to the last page of this
21 document, can you just read for me the two
22 paragraphs --

23 COURT REPORTER: Mr. Mellman, you're -- I
24 can't hear you. You're breaking up again when
25 you're looking down and away. Sorry.

1 BY MR. MELLMAN:

2 Q. Can you read for me the last two bolded
3 paragraphs on that page?

4 A. "Minority opportunity districts are not an
5 ideal that is held by just one party. The
6 Republicans have seen and embraced the growth in
7 Georgia. In fact, our goal with our fiscal policies
8 is to encourage that growth and we are thrilled it
9 is here. As a female Republican from one of the
10 fastest growing and most diverse counties in the
11 state, one of the things I'm most proud of is the
12 number of minority opportunity districts we've
13 drawn."

14 Q. And what is your understanding of the term
15 "minority opportunity districts"?

16 A. That those districts are majority
17 non-white and the majority may not necessarily be
18 all of one particular race. Maybe a combination.

19 Q. So is it your position that in drafting
20 the maps, you attempted to draw as many minority
21 opportunity districts as possible?

22 A. I don't know that that was the goal, but
23 it is something, when we saw that it was possible,
24 we thought it would be a good thing to try to
25 incorporate.

1 Q. Where would you rank that on the
2 non-legally required list of redistricting
3 principles?

4 A. Probably -- I mean, it's so hard to --
5 to -- to rank them because they're -- you know, in
6 some instances there may be a higher competing
7 interest than that, just depending on the
8 circumstances. So it really just depends on the
9 particular district and the other factors that that
10 particular district has going on.

11 Q. Is your position that these maps contain
12 the largest number of minority opportunity districts
13 that are possible to construct while complying with
14 the law on traditional redistricting principles?

15 A. I don't know if that's true. I think that
16 we drew them where they made sense, where there were
17 actual communities of interest and it made sense to
18 do it.

19 Q. Did you review any alternative maps that
20 contained more minority opportunity districts?

21 A. I don't recall.

22 Q. Did you ever ask anyone if they would be
23 able to create more?

24 A. I did not ask anyone if they could create
25 more, no.

1 Q. If -- if -- did you ask anyone if -- if
2 there were any more that would make sense to exist
3 while complying with traditional redistricting
4 principles?

5 A. That probably is something that I would
6 have asked. I don't specifically remember, but it
7 probably is something I would have asked.

8 Q. And do you recall what response you might
9 have been given?

10 A. I don't recall except that we decided that
11 this was a good map.

12 Q. Did you review whether the Voting Rights
13 Act required the drawing of additional majority
14 minority districts in the metro Atlanta area?

15 A. Did I review whether it required it?

16 Q. (Nodded head.)

17 A. That is something that I did repeatedly
18 ask that question, and we were comfortable that it
19 did not require it.

20 Q. And did you ask your counsel that
21 question?

22 A. Yes, absolutely.

23 Q. Did you ask anyone else?

24 A. I don't think so.

25 Is that somebody with a baby? There's

1 somebody with a baby looking in.

2 Q. Did you ever meet with anyone who
3 expressed concern about the racial impact of the
4 Congressional maps?

5 A. I don't recall -- I don't recall anyone
6 expressing that other than, perhaps, someone who
7 spoke at the hearing.

8 Q. Any nonprofit organizations?

9 A. I -- I don't -- I don't know. I -- I
10 would expect that they did.

11 Q. You don't recall --

12 (Simultaneous speakers - unclear.)

13 A. I would have been surprised if they had
14 not. We knew that was coming.

15 Q. Do you recall specifically?

16 A. No, I don't.

17 Q. Any constituents?

18 A. No, no constituents.

19 Q. Did you ever meet with anyone who
20 expressed concern about the public input process to
21 the maps?

22 A. That was something that the -- the paid
23 lobbyists from the nonprofits would say a lot at the
24 meetings, yes.

25 Q. Did you ever hear that from constituents,

1 not necessarily just your constituents, but Georgia
2 residents who spoke at the town halls or contacted
3 you?

4 A. I -- I do recall because it's -- the one
5 committee meeting I watched, or it's one of the two,
6 that there were members of the public who commented
7 at the hearing after -- the second hearing after we
8 presented the map.

9 Q. And what did they say?

10 A. One lady said that she had spoken and
11 didn't want us to divide municipalities and she had
12 spoken in general terms. And then she came back
13 because her city of Dunwoody was divided and she
14 didn't want it to be. That's the only one I -- I
15 have -- have a specific recollection of.

16 Q. Did you ever meet with anyone who asked
17 you to take into consideration the growth in the
18 black community over the past decade?

19 A. Well, that's something that we did take
20 into consideration and that's something that I would
21 have expected, that there would be nonprofits asking
22 us to do that. I just don't specifically remember
23 but I'm -- I'm sure.

24 Q. Do you recall constituents asking you
25 about that?

1 A. No.

2 Q. Did you meet with anyone that asked you to
3 take into consideration growth in the Latino
4 population over the past decade?

5 A. Again, the same answer as before. I
6 expect -- I think -- I think there was a nonprofit
7 that specifically asked about that, about the Latino
8 population, yeah.

9 Q. And was that the Asian population?

10 A. Yeah, I think there probably was.

11 Q. Any constituents?

12 A. I don't recall.

13 Q. Did you ever meet with anyone who
14 discussed racial demographics with you in connection
15 with redistricting?

16 A. Like one of the lobbyists for the
17 nonprofits?

18 Q. Yeah.

19 A. It probably was in the materials, I think
20 I recall that, that the NAACP presented. They
21 emailed them and mailed them to us. Yes, I think
22 so.

23 Q. Did you meet with them?

24 A. We invited them, but I don't think they
25 came.

1 Q. And outside of the hearing, did you meet
2 with anyone one on one?

3 A. Oh, no, I -- no, I did not do that. There
4 was...

5 Q. Did any constituents discuss racial
6 demographics with you in connection with the
7 redistricting?

8 A. I don't recall that.

9 Q. Any other legislators?

10 A. I don't recall that, no.

11 Q. Did any of the discussions with
12 constituents or advocate groups affect your views
13 about the Congressional maps?

14 A. No.

15 Q. What about the House maps?

16 A. No.

17 Q. Did you think that their comments just
18 didn't generally have merit?

19 A. I felt like they were partisan.

20 Q. Did you look at the materials that they
21 provided to you?

22 A. I did.

23 Q. And you didn't find them persuasive?

24 A. I did not. I did go so far as to even
25 look up some of the people who presented them, and I

1 looked at their social media and they were very
2 liberal. They were very partisan.

3 Q. Did you ever review public comments that
4 were submitted through the redistricting committee's
5 public portal about that Congressional map?

6 A. Yes, I did.

7 Q. Regularly?

8 A. Somewhat regularly. I would do it in big
9 chunks, and then toward the end it was more regular.

10 Q. Did you incorporate input from any of
11 those comments into your views on the maps?

12 A. We did. The one that I remember, and it
13 really came up in the -- in the town hall meetings,
14 was about a municipality where we tried -- that was
15 something we talked about was something that we
16 could try to -- to do. And Gina did that for us,
17 Gina Wright.

18 Q. Do you know if there was the capability to
19 attach documents into the public portal, like
20 alternative maps?

21 A. I -- I don't recall. But I do think that
22 there were -- some of those paid lobbyists for the
23 nonprofits mailed them to me and came to my office
24 and dropped them off.

25 Q. Did you ever communicate with any other

1 legislators about the public -- or the LCRO office
2 about the public feedback to the redistricting
3 process?

4 A. Sometimes we -- we did, you know, because
5 there were, you know, some consistent and -- some
6 consistent requests, like the -- the municipalities.
7 There were some other consistent requests that were
8 really the ideals that were promulgated by Fair
9 Lines or Fair Districts that just talked about
10 changing it altogether. Another common one was
11 turning it over to a commission.

12 So we -- we talked about that. And those
13 weren't very helpful, and the name-calling wasn't
14 very helpful. But what -- where there was
15 legitimate, yeah, we -- we looked at them and -- and
16 we considered what we could consider.

17 Q. And so to your recollection, that was
18 mostly regarding communities of interest?

19 A. Some would be, yes. Yes. Some would be
20 involving communities of interest. I know that
21 there was some people from Peachtree City who
22 expressed some concerns. And, unfortunately, I
23 don't think we were able to do anything about that.
24 I think there ended up being over a thousand
25 comments.

1 Q. Okay. I'm going to ask you a few
2 questions now just about the redistricting
3 generally.

4 Have you ever received any training
5 related to redistricting?

6 A. None other than the educational meeting
7 that we had where we had various groups come and
8 make presentations to us and then learned as I went.

9 Q. Do you recall who conducted those
10 trainings?

11 A. I think I testified about this earlier,
12 and it would be on the record from the actual
13 committee hearing, but the NCSL was there, Georgia
14 Fair Lines, maybe the ACLU, Aisha Yaqoob's group. I
15 can't remember now what it's called. It's something
16 about advancing Asian Americans maybe, something
17 like that. I think they made a presentation.

18 Q. And what were the trainings focused on?

19 A. Well, the NCSL was the one that probably
20 was really focused on training and educating us
21 about the actual factors to be considered in
22 redistricting.

23 Q. And what were the others?

24 A. It was their partisan viewpoint, for the
25 most part, or their belief that the system needed to

1 be changed, the way that we do it.

2 Q. And would it be correct to assume that you
3 did not put too much stock in those latter
4 communications?

5 A. Whenever I could tell it was partisan, no,
6 I did not.

7 Q. Was there training on the percentage of
8 black voting age population necessary to give black
9 voters an opportunity to elect candidates in
10 particular districts?

11 A. No. Remember, we -- we're not the map
12 drawers.

13 Q. And there was no training with that regard
14 to Hispanic voters?

15 A. No. We -- we -- we're not map drawers.
16 So part-time legislators did not receive training
17 like that. That's why we have map drawers and
18 that's why we have lawyers.

19 Q. Do you still have any of the materials
20 that were provided to you --

21 A. By whom?

22 Q. -- in the training process?

23 A. Anything that was provided in that
24 educational day would have been in the documents we
25 produced. Yes.

1 Q. Did you refer to them at all throughout
2 the redistricting process?

3 A. Not throughout. I would look at them when
4 received, but it is not -- that was not a reference
5 that I used, no.

6 Q. Did you receive any instruction on what
7 factors could be considered during the redistricting
8 process?

9 A. Well, we -- we learned something about
10 that from NCSL and we used that in form- -- that and
11 what had been used before in formulating our
12 guidelines and adopting those.

13 Q. Did you receive any training on
14 traditional redistricting principles beyond what
15 we've already discussed?

16 A. No.

17 Q. Did any of the trainings from the
18 educational day or any other trainings you received
19 include any mention of race?

20 A. I believe so, yes.

21 Q. In what context?

22 A. When the NCSL discussed the Voting Rights
23 Act.

24 Q. And do you recall what they said about it?

25 A. I don't remember, no.

1 Q. Did any of the trainings discuss use of
2 racial data in redistricting?

3 A. No.

4 Q. Did you -- as you were preparing for the
5 special session, did you look at maps from any prior
6 cycles?

7 A. I did not look at any for reference.
8 People showed me some that were extreme that had
9 been done in previous cycles.

10 Q. Okay. I'm going to mark another exhibit
11 for identification, and I apologize I only have two
12 copies, but this was also from the set of documents
13 that was just produced to us on Monday, coming in a
14 large hard-copy tranche.

15 And so the document begins LEGIS00020482,
16 and I'm just going to ask you about the document
17 ending in -20487. But -- but you can take a look at
18 the first few pages just to give yourself some
19 background on this.

20 (Plaintiffs' Exhibit 13 was marked for
21 identification.)

22 THE WITNESS: Okay.

23 BY MR. MELLMAN:

24 Q. Okay. Next I want to look at the page
25 -20487.

1 Do you recall ever looking at this on the
2 2010 map?

3 A. I don't have specific recollection, no.

4 Q. Do you recall generally looking at the --
5 the 2010 maps?

6 A. Generally, yes.

7 Q. If you look at the districts on the -- the
8 sort of middle left, 34, 44, 46, 45, 37, that
9 area --

10 A. Uh-huh.

11 Q. -- do you see some of them are marked "D";
12 some of them are marked "R"?

13 A. Yes.

14 Q. Did you make those notations?

15 A. It looks like my handwriting, yes.

16 Q. And do those indicate Democratic and
17 Republican voting districts?

18 A. Yes, they do.

19 Q. Why did you make those notations?

20 A. I don't remember why I did it in this
21 particular instance, but, again, this is ultimately
22 a partisan process, so.

23 Q. Okay. Okay. What is your understanding
24 of the intent of the Voting Rights Act?

25 A. I believe -- I have a very simple

1 understanding, and it's just meant to ensure that
2 people of other -- races other than white, and
3 ultimately maybe it will also protect white people,
4 that they have the right to vote and represent --
5 and elect a representative of their choice.

6 Q. What is your understanding of the history
7 of the Voting Rights Act?

8 A. I don't really have an understanding.

9 Q. Did you ever receive any instruction or
10 training on the Voting Rights Act?

11 A. No.

12 Q. What is your understanding of the
13 connection between the Voting Rights Act and
14 redistricting?

15 A. That we have to comply with the Voting
16 Rights Act.

17 Q. And how was that done, to your
18 understanding?

19 A. I -- I -- I don't know. Our map drawers
20 in conjunction with our counsel ensure that we do
21 that.

22 Q. To your understanding, does the Voting
23 Rights Act allows a state legislature to consider
24 racial considerations in determining voting
25 districts?

1 A. Well, I would assume it has to in order to
2 comply with the Voting Rights Act. But that's just
3 a very commonsense understanding. It's not because
4 I know anything about the Voting Rights Act that
5 I've seen in a whitepaper somewhere.

6 Q. Are you aware that until 2013 Georgia was
7 required to seek preclearance before enacting any
8 redistricting legislation?

9 A. Yes.

10 Q. Are you aware that the preclearance
11 requirement was based on the Voting Rights Act?

12 A. Yes.

13 Q. Did the fact that Georgia was no longer
14 required to preclear its redistricting plans impact
15 your approach in the redistricting process?

16 A. Not at all.

17 Q. Would that change the approach of the
18 committee in any way?

19 A. No.

20 Q. In terms of its process or policies or
21 procedure?

22 A. No.

23 Q. Did it change the approach of the House as
24 a whole?

25 A. No.

1 Q. During your time on the committee, did
2 anyone reference the fact that Georgia was not
3 longer required to seek preclearance?

4 A. I definitely heard that from some of the
5 lobbyists for the nonprofits who spoke.

6 Q. What did they say about it?

7 A. They just -- they just commented that that
8 was the case and they didn't like it.

9 Q. Did any legislators reference that?

10 A. No.

11 Q. Did anyone during your time as Chair, did
12 anyone mention to you anything that was different in
13 this redistricting cycle from the previous
14 redistricting cycle in 2010?

15 A. I'm sorry. I don't -- I don't understand.

16 Q. Sure. Did any other legislators discuss
17 with you any difference between the 2020
18 redistricting process and the 2010 redistricting
19 process?

20 A. Nothing specific to the process.
21 Legislators who had been here a long time would
22 remark that it has -- that the political climate had
23 gotten ugly and bitter and personal and that was a
24 new development and they thanked me for doing this
25 job.

1 Q. Are you aware of whether the Redistricting
2 Committee hired counsel in 2010?

3 A. I don't know but I would assume they did.

4 Q. And would you know who that counsel was?

5 A. No, I wouldn't.

6 Q. Are you aware of any policies or
7 procedures that governed the redistricting process
8 in 2010 that were no longer used in 2020?

9 A. No.

10 Q. Okay. We're going to talk now for a
11 minute about the town hall meetings.

12 In the summer of 2021, did you take part
13 in any in-person meetings with constituents to
14 collect feedback on Congressional redistricting?

15 A. Yes.

16 Q. What about State House redistricting?

17 A. Yes.

18 Q. Okay. All right. I'm going to mark now
19 another exhibit. I apologize. I've forgotten the
20 number.

21 COURT REPORTER: It will be 14.

22 MR. MELLMAN: Thank you.

23 (Plaintiffs' Exhibit 14 was marked for
24 identification.)

25 THE WITNESS: Y'all have window washers.

1 I have babies.

2 BY MR. MELLMAN:

3 Q. And do you recognize this document?

4 A. Yes. It appears to be a press release.

5 Q. And what is it -- what is it discussing?

6 A. The town hall meeting.

7 Q. Okay. And do you see a date on there?

8 A. I see the date it was printed. Oh,
9 June 16, 2021.

10 Q. Okay. And so do you agree that this
11 document shows that from June 28 through August 11
12 the House and Senate committees held town halls in
13 Georgia about the redistricting process?

14 A. Yes.

15 Q. And you recall that happening?

16 A. Yes.

17 Q. You recall the town halls taking place?

18 A. Yes, yes.

19 Q. And as we discussed before, the full
20 census wasn't released until September.

21 So these town hall meetings took place
22 before the census data was fully released?

23 A. Yes.

24 Q. Why was that?

25 A. In order to visit as many places in the

1 state, we needed to take care of this during the
2 summer months. Traditionally, it was held earlier
3 than this. So, as I mentioned, we're all part-time
4 legislators with full-time jobs, and we needed to --
5 to do this early in order to get it done.

6 Q. Did you feel that you were able to receive
7 useful information even before the census data had
8 been released?

9 A. Yes.

10 Q. And what kind of information?

11 A. Information about communities of interest.
12 I think I told you that, you know, we recognized
13 some of them were just overwhelming. When we went
14 to Pickens County, I'm trying to think -- I can't
15 specifically recall others, but we definitely did
16 hear from people who talked about their communities
17 and how important it was to keep certain areas
18 together.

19 And they would give the reasons why. You
20 know, like, they shared, you know, their community
21 parks or they had a city that was in both counties.
22 That sort of thing. Also produced to you were all
23 of my -- I -- I took notes at every one of those.
24 So I wrote down what everybody said so that I could
25 internalize them at the time which I did at the

1 time. I just can't remember now.

2 Q. And how were these dates selected?

3 A. They revolved around the schedules mostly
4 for John Kennedy and me and our -- our law practice.

5 Q. And so was it you and Senator Kennedy that
6 selected the dates?

7 A. Yes.

8 Q. Anyone else?

9 A. Sometimes it would depend on what date the
10 venue was available. There may have been some that
11 our media department, you know, had because they had
12 to be there and have a certain staff there. So I
13 know that it -- it got tweaked after we put in
14 our -- our first request.

15 Q. Were any other legislators involved in
16 selecting the dates?

17 A. I don't think so.

18 Q. Or any LCRO staff?

19 A. I don't think so, no.

20 Q. How were the locations for the town halls
21 selected?

22 A. We took the locations that had been used
23 in previous redistricting processes and mostly went
24 from that. I think we added a north metro area, but
25 for the most part, it's the same as it had been

1 before.

2 Q. All right. I'm going to introduce
3 Exhibit 15 now.

4 (Plaintiffs' Exhibit 15 was marked for
5 identification.)

6 BY MR. MELLMAN:

7 Q. And it begins LEGIS00002902.

8 Do you recognize this document?

9 A. Yes.

10 Q. And is this an email exchange between you
11 and Senator Kennedy?

12 A. Yes, it is.

13 Q. And some others down the line as well?

14 A. Yes.

15 Q. And it's dated May 27, 2021?

16 A. Yes.

17 Q. And it looks to be a discussion of where
18 to hold the town halls?

19 A. Yes.

20 Q. Looking at the end of the first paragraph,
21 you say "We liked having it somewhere in Forsyth
22 County -- maybe Cumming?"

23 A. Yes.

24 Q. After looking at the previous document, it
25 appears you did ultimately have a hearing in

1 Cumming?

2 A. Yes, we did.

3 Q. You remember that?

4 Can you just describe the rationale for
5 choosing that area?

6 A. Yeah. We have a lot of new growth in that
7 area. Forsyth County was an area that had a lot of
8 new growth. Cumming is an area that is situated
9 kind of in the middle of those northern suburbs, and
10 Jan Jones and I both represent constituents from up
11 in the area. We both represent Repub- -- Republican
12 districts within Democrat counties.

13 So those constituents oftentimes feel
14 unheard because they're not represented at the
15 county level. And we thought it was important for
16 us to -- to hear from them. Most, if not every
17 single other area that we went to, was predominantly
18 Democrat.

19 Q. Looking at the -- the paragraph below the
20 list of counties there or locations, you say "It
21 looks like, from the map anyway, we need to choose a
22 place to have a hearing somewhere in the northeast
23 Georgia mountains."

24 Why did you want -- want to have a hearing
25 there?

1 A. Because it looked like we were not giving
2 those folks a convenient place to join us, and I
3 think we ultimately ended up -- we did not end up
4 having one up there.

5 Q. And then the next line you say "I think
6 Athens would be an important place to have one as
7 well."

8 Why is that?

9 A. Because that's a -- kind of a -- just we
10 looked at the map and looked at the -- the
11 population centers around the state and that looked
12 like an area that would be one that a lot of people
13 could get to from, you know, surrounding
14 neighborhoods.

15 Q. And I see you did hold one in Atlanta.

16 But you did not hold any in DeKalb County,
17 Cobb County, or Gwinnett County; is that right?

18 A. Right. And we did hold one in Athens. I
19 don't know that it's listed here, but we did
20 ultimately hold one in Athens.

21 Q. Okay. Why didn't you -- DeKalb, Cobb and
22 Gwinnett are three of the more populous counties in
23 Georgia; is that right?

24 A. Yes.

25 Q. So why did you not hold a hearing in any

1 of those counties?

2 A. Well, for DeKalb, there are parts of
3 DeKalb in Atlanta and we had a hearing in Atlanta
4 within a few miles of, I mean, single digits, of the
5 DeKalb County line.

6 I live in Gwinnett County. I represented
7 all my -- all my constituents lived in Gwinnett
8 County. But, like I said, Cumming was kind of in
9 between that northern metro arc. So it was just
10 kind of a central location. Again, probably 5 miles
11 from my Gwinnett County address.

12 Q. Did you become aware of any concerns of
13 harassment of members of the public who spoke at the
14 town halls?

15 A. Yes.

16 Q. What concerns did you become aware of?

17 A. Well, Cindy Battles. We knew her. She
18 came to every meeting and spoke. She was probably
19 one of our most vocal-impassioned speakers and, not
20 surprisingly, she got into some kind of voice
21 altercation with someone who was equally as
22 passionate as she was. And she emailed me about it.

23 Q. And so did you take any action related to
24 that?

25 A. I can't remember. Whatever happened was

1 outlined in the email.

2 Q. Okay. And so at the town halls did you or
3 other legislators answer questions from Georgia
4 residents?

5 A. No.

6 Q. Were any requests made to you that
7 information about the redistricting process be
8 provided in languages other than English?

9 A. Yes.

10 Q. What happened as a result of those
11 requests?

12 A. That's something we talked about and,
13 ultimately, that's just not the way our committees
14 work here in the State House and the State Senate.
15 We don't translate and we didn't have the resources
16 to do that, and there was just no practical way
17 to -- to accomplish that goal.

18 Q. Did you look into doing that?

19 A. No, we -- we didn't. We -- we -- we all
20 discussed it and ultimately decided that it was not
21 a reasonable request.

22 Q. "We all" meaning the members of the
23 committee?

24 A. Yes.

25 Q. Just the House Committee or the Senate

1 committee as well?

2 A. Oh, I don't know what the Senate committee
3 did. The House.

4 Q. Do you know if any of the town hall
5 locations were inaccessible to people with
6 disabilities?

7 A. It's my understanding that none of them
8 were. I did receive an email from someone claiming
9 that the Augusta location was not accessible. But I
10 brought that up to the legislator who arranged this,
11 and he went to the venue and, ultimately, that was a
12 false claim, is what was reported to me.

13 Q. Were there any other redistricting town
14 halls held after the release of the census data?

15 A. I do not recall.

16 Q. To your knowledge, was the August 11,
17 2021, town hall the last one?

18 A. If that's what our records show on the
19 Redistricting Committee website. I -- I don't have
20 independent recollection.

21 Q. Did you publish any redistricting
22 information in languages other than English?

23 A. No.

24 Q. Do you recall the date that the census
25 released the results of the 2020 census?

1 A. I don't.

2 Q. Okay. I'm going to mark Exhibit 16. This
3 is just a...

4 (Plaintiffs' Exhibit 16 was marked for
5 identification.)

6 BY MR. MELLMAN:

7 Q. And what is this document?

8 A. It looks like a printout that someone made
9 from the United States government outlining the
10 census timeline for --

11 Q. Were you following --

12 A. -- 2020.

13 Q. -- the census timeline at the time that
14 the results were being released?

15 A. I was being updated by our Reapportionment
16 Office.

17 Q. As -- as they received the data or
18 received updates?

19 A. Yes.

20 Q. Okay. And according to this timeline, the
21 census data was not initially released until
22 August 12. It's on the second page.

23 A. Okay.

24 Q. Do you recall that -- receiving that data
25 on August 12?

1 A. I recall the Reapportionment Office
2 talking to us about that. I think that might be
3 that legacy data that I referenced earlier.

4 Q. And looking at the -- the next bullet
5 there it appears that the final redistricting data
6 was released September 16?

7 COURT REPORTER: Excuse me, Mr. Mellman.

8 You have to get closer to the microphone.

9 BY MR. MELLMAN:

10 Q. It appears the final redistricting data
11 was released September 16?

12 A. Yes.

13 Q. Why is the census data important in
14 drawing districts, to your knowledge?

15 A. Well, to my knowledge, that's -- that's
16 what's used to determine where the growth and
17 population retraction are. So that guides how you
18 draw the maps.

19 Q. And so you agree that before seeing the
20 census data, the public wouldn't be able to know
21 which areas of the state had grown and which had
22 shrunk?

23 A. No, I don't agree with that. Informed
24 people already knew that generally there was a lot
25 of growth in the metro Atlanta area and that there

1 was population retraction in the southwestern part
2 of the state.

3 Q. But without the data, you wouldn't be able
4 to tell exactly how much growth and where it
5 occurred; right?

6 A. Not exactly. There were estimates that, I
7 think, ultimately weren't that far off, but yeah,
8 you couldn't know exactly what to do. You just knew
9 generally the areas of the state that would be
10 probably losing a district.

11 Q. And so there were no town halls even after
12 the initial census data was released on August 12;
13 right?

14 A. I -- I -- if that's what our website
15 shows, then there were not.

16 Q. Why did you not plan any town halls for
17 after the release of the census data?

18 A. Well, we had talked about having a virtual
19 one, but I actually ended up having a family tragedy
20 and it took me out for a little while, from about
21 August the 12th or so until I came back for
22 redistrict- -- redistricting.

23 Q. And when did you come back --

24 A. When we came back for --

25 Q. -- the session?

1 A. Yeah. I think I -- I was able to handle
2 some meetings virtually with members. That's --
3 that's I think all I did.

4 Q. Until the beginning of the special
5 session?

6 A. Yes.

7 Q. Do you recall how the date of August 11
8 was chosen for the final town hall?

9 A. I don't remember. I know we were trying
10 to get them done before school went back because we
11 knew that that would be a competing interest with
12 back-to-school nights and kids' sports and practices
13 and things like that. So I know that was a goal.

14 Q. Were you aware at the time that the census
15 data was going to come out on August 12?

16 A. I -- I don't remember that. I was just
17 updated about it by the Reapportionment Office.

18 Q. When you were planning the town halls, did
19 you have the timeline for the release of the census
20 data in mind at all?

21 A. No. I mean, yes and no in that we -- we
22 wanted to try to get as much of the whole process
23 completed as we could. We knew we were late on it,
24 later than typical previous redistricting periods or
25 processes. So I -- I really -- I just -- that

1 period of time is very fuzzy.

2 Q. You said you had estimates of the
3 population growth and contraction.

4 Did you use those estimates in any way
5 before receiving the census results?

6 A. We -- we did in -- when we were
7 considering the areas to go to for the town halls.
8 That's why you see big spaces, geographic spaces,
9 between the towns that we visited in the southern
10 part of the state. Whereas, up in the northern
11 metro area, they're kind of close together. You
12 know, Atlanta, Cumming, Dalton. Those are all --
13 Athens, all kind of close together. But down in
14 those -- the bottom part of the state, we had long
15 trips in between.

16 Q. Were those estimates used at all in the
17 map-drawing process before the full census data was
18 released?

19 A. I don't think so, but I don't know because
20 I wasn't drawing the maps. So I don't know what
21 kind of head start may have been gotten. I really
22 don't know.

23 Q. Okay. Once the census data was released
24 in August, did you review it to see how it would
25 affect the House and Congressional districts?

1 A. No.

2 Q. What about in September of 2021?

3 A. No.

4 Q. Did you review it to assess your own
5 district?

6 A. I don't think I did. I was very
7 preoccupied.

8 Q. Once the census data was released, did you
9 communicate about that with the LCRO?

10 A. Not really, no.

11 Q. Or Senator Kennedy's office?

12 A. No.

13 Q. So are you aware of the changes in racial
14 demographics in Georgia between the 2010 and 2020
15 census?

16 A. I do know that we have had an increase in
17 diversity.

18 Q. Do you know more specifically than that?

19 A. I don't. I'm -- I'm sure at the time I --
20 I knew a little more specifically than this.

21 Q. So are you aware that the overall Georgia
22 voting age population grew about 14 percent between
23 2010 and 2020?

24 A. If that's what's reported, I don't have
25 any reason not to believe that.

1 Q. And the voting age black population grew
2 from -- grew approximately 24 percent?

3 A. Okay. I accept that.

4 Q. Do you recall learning that information
5 after reviewing the census results?

6 A. I remember learning information and the
7 numbers. I -- I just don't have a specific
8 recollection as to what those numbers are.

9 Q. Okay.

10 A. But I do know that there was -- there was
11 an increase in the black voting age population, yes.

12 MR. MELLMAN: Okay. Okay. I think we can
13 take a break now.

14 VIDEOGRAPHER: The time is 2:53. We are
15 going off the video record.

16 (Off the record.)

17 VIDEOGRAPHER: 3:02. We are back on video
18 record.

19 BY MR. MELLMAN:

20 Q. Okay. Representative Rich, did any of the
21 minority party legislators raise concerns with you
22 about the fact that the redistricting town halls and
23 information were only in English?

24 A. I don't recall any of our legislators
25 bringing that to my attention, no.

1 Q. So the only communications you received
2 about it were via email by constituents?

3 A. Yes. There could have been some Democrat
4 legislators who were running for other offices who
5 spoke about it publicly, but I don't recall anyone
6 coming to me about it.

7 Q. And regarding interactions with the
8 Georgia NAACP, did you come to understand that there
9 was a mixup regarding the invitation to speak with
10 you?

11 A. Yes. Because they -- they went to great
12 lengths to get us written prop- -- the written
13 presentation. Yeah.

14 Q. And they did, in fact, submit a written
15 presentation?

16 A. Yes.

17 Q. Did you review that presentation?

18 A. I did.

19 Q. Did you adopt any of the recommendations
20 made in it?

21 A. I don't know if we did or not.

22 Q. Do you recall any that you made?

23 A. No, I don't recall.

24 Q. Okay. I'm going to ask you to go back to
25 the document labeled LEGIS00000312. It's

1 redistricting principles. It's towards the
2 beginning. It might have been Exhibit -- somewhere
3 from -- in the first few.

4 A. Okay.

5 Q. And those are the redistricting principles
6 you abided by as committee Chair?

7 A. Yes.

8 Q. Okay. I'm just going to ask you about a
9 few of the principles.

10 For compliance with Section 2 of the VRA
11 as amended, do you see that?

12 A. Yes.

13 Q. What is your understanding of that
14 principle?

15 A. I don't have an understanding other than
16 we will comply with Section 2 of the Voting Rights
17 Act.

18 Q. And, to your knowledge, was this principle
19 followed throughout the redistricting process?

20 A. Yes, it was of utmost importance.

21 Q. And how is that done?

22 A. The map drawers in consultation with our
23 attorneys reviewed the -- the lines, the demographic
24 data that's pertinent.

25 Q. Going a few bullets down, the one that

1 says "The committee should consider county and
2 precinct boundaries, compactness, and community
3 interest," do you see that?

4 A. Yes.

5 Q. And what is your understanding of that
6 principle?

7 A. That we would try to keep counties and
8 precincts as whole as possible; keep districts as
9 compact as possible so that they're not long, skinny
10 shaped, for example; and then try to keep the -- the
11 communities of interests together where those exist.

12 Q. And, to your understanding, was that
13 followed throughout the redistricting process?

14 A. Well, as best as we could. It -- it would
15 be probably impossible to follow every single
16 principle with respect to all 180 districts.

17 Q. And how was that principle followed?

18 What -- what steps did you take to ensure
19 the principle was followed?

20 A. Well, we -- we relied on -- on Gina Wright
21 and her staff to have as few precinct and county
22 breaks as possible, and she -- she did a good job
23 and she worked for hours and she would whittle it
24 down. She would have so many breaks and then she
25 would work on it some more and she'd say, "I got rid

1 of however many more." So it was a constant work in
2 progress for her.

3 Q. And do you know if the public was able to
4 obtain information from the LCRO about the
5 redistricting process?

6 A. The Reapportionment Office posts
7 information on their website, yes.

8 Q. Could a member of the public ask to see
9 any information other than what was posted on the
10 website?

11 A. I really don't know.

12 Q. Was the minority party able to obtain
13 information about the map drawing process.

14 COURT REPORTER: About the? I'm sorry?

15 MR. MELLMAN: Map drawing process.

16 THE WITNESS: I really don't know.

17 BY MR. MELLMAN:

18 Q. Do you know if any legislators from the
19 minority party were able to look at the maps prior
20 to their publication?

21 A. I don't know.

22 Q. Had any minority legislators, minority
23 party legislators, asked you if they could look at
24 the maps prior to publication?

25 A. I don't know. If -- if they would have, I

1 couldn't have told them yes because I didn't have
2 access to them either.

3 Q. But you could have asked the LCRO?

4 A. I could have, but I don't think I could
5 have gotten them. I had a hard time getting time
6 with -- with their office as well.

7 Q. Okay. I'm going to show you last exhibit,
8 and it's identified as CC-GNGC00004299.

9 (Plaintiffs' Exhibit 17 was marked for
10 identification.)

11 BY MR. MELLMAN:

12 Q. Have you ever seen this publication
13 before?

14 A. No.

15 Q. I'll represent to you this document was
16 produced to us in this litigation by the Georgia
17 Secretary of State's office.

18 If you just go to that second page, can
19 you please read aloud the last bullet?

20 A. "Consider possible litigation,
21 preclearance could possibly come back into play.
22 (More on preclearance later)."

23 Q. What is your understanding of the meaning
24 of this bullet?

25 A. I have no idea.

1 Q. Okay. Do you know why preclearance might
2 come back into play?

3 A. I do not.

4 Q. Okay. I'm going to ask you now to go to
5 page 7 that's identified on the bottom by -4306.

6 A. Okay.

7 Q. And if you look at the middle bullet,
8 could you read that aloud?

9 A. "Prohibition on using partisan data: Line
10 drawers, whether they be commissioners, non-partisan
11 staff or legislators are prohibited from using" --
12 sorry, I looked away -- "incumbent residences,
13 election results, party."

14 Q. Was partisan data relied on during the
15 redistricting process?

16 A. It's my understanding that it was.

17 Q. Was any of this particular partisan data?

18 A. I don't know what -- oh, I do know we
19 relied on incumbent residences. I don't know that
20 that was considered partisan, but that was something
21 that both parties submitted, their incumbent's
22 addresses to be considered.

23 Q. What about election results?

24 A. I believe so, yes.

25 Q. And party?

1 A. Yes.

2 Q. Okay. Representative Rich, do you have
3 anything else to say that bears on these topics that
4 we have now discussed today?

5 A. No.

6 Q. All right. Do you know if the map drawers
7 considered political performance data in drawing the
8 maps?

9 A. I don't really know what political
10 performance data is.

11 Q. How particular candidates performed.

12 A. I think that would be the election
13 results, so I think so, yes.

14 Q. Okay. Okay.

15 MR. MELLMAN: I have no other questions,
16 but I believe some of my colleagues may.

17 MR. JAUGSTETTER: Well, if nobody wants to
18 ask any questions, we'll conclude.

19 MR. TYSON: I have -- I have a few.

20 MR. JAUGSTETTER: Okay.

21 MR. TYSON: But yeah.

22 MS. SIVARAM: Hi -- hi. This is Anuradha
23 Sivaram from Wilmer Hale. I know that we had
24 an agreement that the Alpha plaintiffs and the
25 Pendergrass plaintiffs might be able to ask

1 questions if all is done from the common cause
2 side, but I didn't want to jump in if -- if we
3 wanted to keep that after -- after other
4 questions from the State.

5 MR. JAUGSTETTER: You can go ahead, yeah.

6 EXAMINATION

7 BY-MS. SIVARAM:

8 Q. Thank you, and yeah. I'll -- I'll
9 announce my appearance a little more slowly.

10 My name is Anuradha Sivaram and I am an
11 attorney at Wilmer Hale representing plaintiffs in
12 the Alpha Phi Alpha versus Raffensperger litigation.
13 That is a separate case from the common cause
14 matter, but it is involving a section 2 VRA
15 challenge, and we've kind of coordinated with --
16 with the parties, you know, spearheading the -- the
17 deposition today to be able to also ask questions
18 for our matter, in which we've issued a subpoena,
19 all in -- all in one day so that we, you know,
20 don't -- don't make you come back on -- on a
21 separate day, as much as possible. So mindful of
22 your time and -- and gracious for everyone's
23 cooperation.

24 I'll ask a few questions that we had in
25 our case, taking the best care possible not to

1 duplicate any questions. So I just have a few
2 questions that draw on some of the scenes that we --
3 that have been covered already by -- by others.

4 So were you aware of the total number of
5 majority black state House districts in any
6 previously enacted state maps before you entered
7 this redistricting cycle?

8 A. From reviewing my notes that I've used to
9 make my committee statements and my statements in
10 the chamber, it appears that I was aware that there
11 were 48 Voting Rights Acts protected districts in a
12 previous redistricting period.

13 Q. Great. And did you compare the number of
14 additional majority black districts in the maps set
15 forth by the LCRO as -- as compared to the -- the
16 previously enacted maps?

17 A. Are you calling the majority black, is
18 that something different than Voting Rights Act
19 protected?

20 Q. These are -- these are districts in which
21 there is a -- a measured population majority of
22 which are black voting age population.

23 A. So I -- I really -- I guess I -- I
24 shouldn't have answered the way that I did then.
25 I -- I understood them to be Voting Rights Act

1 protected. I don't know if -- I don't know if
2 they're majority black or not.

3 Q. Got it.

4 And what do you -- what did you mean by
5 Voting Rights Act protected?

6 A. Those were districts where lines were
7 drawn so as to give a population, a particular race,
8 an opportunity to elect a candidate of their choice.
9 I don't really know what the trigger is for that or
10 just -- or tipping point, I think, is what was used
11 earlier.

12 Q. Understood. But you -- you calculated 48
13 of those protected districts in a previous map?

14 A. That were Voting Rights Act protected,
15 yes. That's what -- that's what I was told by my
16 lawyer.

17 Q. And were -- did you -- did you do any
18 comparison to how many of -- of those kinds of
19 districts were in the map that the LCRO was putting
20 forth?

21 A. So, yeah, in my -- in my comments that I
22 made in the committee and on the -- on the -- in the
23 chamber, I noted that we had one more. So we had 49
24 Voting Rights Act protected districts. And I -- I
25 don't know if I asked my lawyer that or if he just

1 volunteered it, but I got that information from the
2 lawyer. I didn't analyze it myself.

3 Q. No problem.

4 You mentioned a -- a little bit about how
5 you had gotten demographic information during the
6 redistricting cycle.

7 And did that include information on
8 demographic changes across the State of Georgia?

9 A. I don't -- I don't think it included
10 changes. I think it just included the results from
11 the census.

12 Q. And did it -- did those results reflect
13 the change in demographics of particular races from
14 the past redistricting cycle?

15 A. So I didn't understand your question
16 because there was a delay in the video, but I -- I
17 didn't -- I didn't review the census data myself.

18 Q. Got it.

19 And so were you aware of the change in
20 Georgia's black population between 2010 and 2020 and
21 the -- and the change in white population at that
22 time when you were evaluating the proposed state
23 House and Senate maps?

24 A. I knew that there was an increase in black
25 voting age population.

1 Q. Got it. And did the House Committee or
2 did you ever think or discuss whether that
3 population change required an adjustment in the
4 number of majority black districts to avoid diluting
5 the vote of black Georgians in violation of
6 Section 2 of the Voting Rights Act?

7 A. That was one of the specific reasons that
8 we retained counsel, was for him to perform that
9 analysis for us.

10 Q. Great. And so were you aware of the
11 change in Georgia's black population in the metro
12 Atlanta region; so, you know, Fayette, Spalding,
13 Clayton, DeKalb, Newton, those counties?

14 A. I -- it is my understanding that there was
15 an increase in the black population in those areas.

16 Q. And -- and same question.

17 Did -- did the -- did you or the committee
18 every evaluate whether that change would require
19 creating one or more additional majority black
20 districts in the area compared to what existed in
21 the prior map to avoid diluting black Georgians'
22 votes in violation of section 2 of the Voting Rights
23 Act?

24 A. So the committee conducted hearings on
25 bills. We retained counsel and we have map drawers

1 to perform the analysis that you're discussing.

2 Q. And did the committee specifically direct
3 the -- the LCRO to analyze that question or?

4 A. No, we did not specifically direct them.
5 We held committee meetings. I, as a member of the
6 committee and as the Chair, I asked our lawyer to
7 confirm whether we are complying with the
8 Constitution and the Voting Rights Act. But the
9 committee didn't do that. House Committees hold
10 hearings on bills.

11 Q. Thank you. And so same question.

12 Were you aware of the change in Georgia's
13 black population in areas west of the Augusta
14 region?

15 A. I don't have any recollection of that. I
16 may have been made aware of it during the special
17 section, but I don't remember it here today.

18 Q. No problem.

19 And, similarly, did you look at the change
20 in Georgia's black population, you know, from what
21 it was in 2010 in the southwest of the state; so in
22 and around Muscogee, Marion, Stuart, Webster, those
23 counties?

24 A. I -- I did not. The map drawers and our
25 lawyer did. I just held committee hearings on the

1 bills.

2 Q. Great. And you mentioned that you had
3 seen proposals from, maybe, the -- the Democratic
4 caucuses.

5 Did you do a comparison of how many, you
6 know, majority black or -- or
7 Voting-Rights-protected districts were in those maps
8 with -- with the ones ultimately that were put forth
9 by the legislature?

10 A. We held a committee meeting on that bill
11 that contained the Democrat caucus's maps where we
12 asked questions and reviewed the map.

13 Q. Great.

14 Did the committee discuss why it did not
15 choose to draw any additional majority black
16 districts than it eventually did even though the
17 black population had increased in the state?

18 A. The -- my attorney had told me that we
19 drew the districts that were required by the Voting
20 Rights Act.

21 Q. Great. I have a couple more questions.

22 One is are you familiar with the term
23 "black belt" as it's used in Georgia?

24 A. No.

25 Q. You've never heard of the black belt?

1 A. No. As in karate? No.

2 Q. So I'll -- I'll represent that the black
3 belt is used -- a term used to refer to a region
4 stretching from the eastern side of Georgia around
5 Augusta across the state towards the southwest.
6 Historically had a large enslaved population and had
7 an economy based on cotton agriculture.

8 Is that a term that you have come
9 across --

10 (Simultaneous speakers - unclear.)

11 A. No, it's not.

12 Q. And could you describe to me the southern
13 metropolitan Atlanta region, what it's like
14 demographically?

15 A. No. I live in and represent a community
16 in the very north metropolitan area. Georgia is a
17 big state. We have 11 million people. I -- I
18 don't -- I can't sit here and recite the
19 demographics of various regions. I know where I
20 live.

21 Q. Yeah. And would you be able to describe
22 the -- the area where you live and where you
23 represent?

24 A. Yeah. Gwinnett County is the most diverse
25 county in the state. We have a very high Asian

1 population, Latino population, black population.
2 It's minority white, I think, the whole county.

3 Q. Got it.

4 And do you think that -- are there any
5 specific industries or other types of industries in
6 that area that define your district?

7 A. No. I live in a -- a bedroom community.
8 It's mostly people live there and they commute into
9 the city to work. It's not really known for its own
10 industry. We have a Starbucks and grocery stores.
11 We don't even have a Target. It's -- it's very
12 much -- very limited to the people who live there,
13 the little stores that they need.

14 Q. Yeah. And you -- you used the term
15 "bedroom community."

16 What does that mean?

17 A. I said what it means, that people live
18 there and commute into the city somewhere else to
19 work.

20 Q. Great. And is a bedroom community a -- a
21 defining feature of -- that could define a community
22 of interest in that area?

23 A. I don't know that -- I mean, I guess it
24 could. You know, we -- we have areas devoted to
25 parks, probably more so than inside of a -- a city.

1 It -- we don't have anything to attract people who
2 don't live there. Where in the part of the county
3 that I live in it's just really homes and, like I
4 said, parks and our grocery store.

5 Q. And -- and it's not different from the --
6 the characterization of, for example, a southern
7 Atlanta metro region, would that not have bedroom
8 communities?

9 A. I don't know. I mean, I really don't
10 know. But I can compare it to other parts of my
11 county, where our county seat -- that's where we
12 have a theater, where they have live plays. We
13 have, you know, more major restaurants. That sort
14 of thing. Things that might attract people who --
15 from all over the county.

16 Q. Great. And just a few more questions.

17 Were you a member of the Republican party
18 the whole time you served in the general assembly?

19 A. Yes.

20 Q. And have you always considered yourself a
21 Republican?

22 A. Yes, I have, since I was old enough to
23 form an opinion.

24 Q. Okay. And in your experience, do the
25 views of the Democratic party in Georgia generally

1 differ from views of the average Republican party
2 member in Georgia?

3 A. How do our views different?

4 Q. Do they differ?

5 A. Yes, yes.

6 Q. And in your experience, do the views of
7 Democratic party members differ from the views of
8 the standard Republican party member when it comes
9 to removing, for example, confederate monuments in
10 public spaces?

11 A. I don't think so.

12 Q. And, so, would the average Democratic
13 voter be just as likely to want to or not want to
14 remove a confederate statue as the average
15 Republican voter?

16 A. You know, I -- I don't really know. I do
17 know that I know Republicans and Democrats have
18 different views both ways on it. It's very -- very
19 divisive kind of issue people are very opinionated
20 about.

21 Q. So in your experience, do the views of
22 members of the Democratic party in Georgia differ
23 from the views of Republican party members in
24 Georgia when it comes to affirmative action?

25 A. No. I think that's another one that

1 you -- you have a lot of people from both parties.
2 I'll tell you where I think they differ. Fiscal
3 policy. Big government versus small government.

4 Q. Yeah. And do you --

5 A. Pro life --

6 Q. Are there any other --

7 (Simultaneous speakers - unclear.)

8 A. -- pro life versus abortion at nine
9 months. Those are the areas where -- where
10 Republicans and democrats differ. Here in Georgia
11 we agree on probably 90 percent of the legislation
12 that we pass.

13 Q. Got it. And are there any other general
14 issues that -- that have a -- have a difference in
15 the average democrat or Republican voter that you
16 can think of?

17 A. No. I -- I think in Georgia the biggest
18 one is going to be fiscal policy and the size of our
19 government and the control that our government has
20 over our private life.

21 Q. And -- and abortion?

22 A. Yes.

23 Q. Great.

24 A. Although, most people agree on abortion
25 within a certain time period. I think it's the --

1 the later months and the earlier months where you
2 get the extremists from both parties who disagree.
3 I'd say that most Georgians fall in the middle.

4 Q. Great. Those are all the questions I
5 have. I thank you for your time.

6 A. Thank you.

7 MR. TYSON: Anybody else on Zoom have
8 questions?

9 MS. WEST: Yes, thank you. We just had a
10 couple of follow-up questions. This is Hartley
11 West from Dechert for Common Cause. And -- and
12 thank you. This will just take a moment.

13 EXAMINATION

14 BY-MS. WEST:

15 Q. The question is were any notes taken by
16 the LCRO during meetings?

17 A. I don't know. I'm not a member of that
18 office.

19 Q. Have you ever been told of any notes
20 having been taken?

21 A. No. I would never -- I wouldn't think
22 that they would ever do that. I've never seen them,
23 but...

24 Q. Okay. And, I guess, just specifically
25 with regard to the suggestions that were received

1 regarding redistricting, are you aware of any notes
2 having been taken specifically regard to those?

3 A. I took copious notes in every town hall
4 meeting and they've been produced.

5 Q. Was that a common practice of others, if
6 you know?

7 A. I don't know.

8 Q. What did you do with your own notes?

9 A. I put them in a file.

10 Q. And where are those maintained?

11 A. They were in my office at the Capitol, and
12 when I moved out of my office at the Capitol in
13 December, I moved them to my home. And I have
14 produced all of those.

15 Q. Okay. Thank you.

16 MR. TYSON: Anybody else on Zoom?

17 MR. JONES: Hi, everyone. This is Mike
18 Jones of the Elias Law Group representing the
19 Pendergrass and Grant plaintiffs. I just want
20 to let you know that we have no questions for
21 Representative Rich at this time.

22 MR. TYSON: All right. Well, this is
23 Brian Tyson for the defendants. I just have a
24 few questions if there's nobody else on Zoom.

1 EXAMINATION

2 BY-MR. TYSON:

3 Q. Representative Rich, thank you for your
4 time today. I know this is a -- a lot to carry. I
5 just have a few things I wanted to clarify on the
6 process.

7 You were asked earlier about the
8 difference in, kind of, preclearance going away in
9 Georgia.

10 You never worked on the redistricting in
11 Georgia when preclearance was in effect; right?

12 A. That is correct.

13 Q. I'm going to hand you a copy of Exhibit 12
14 again, just your notes from the hearings, and I want
15 to ask just a few questions about process, that you
16 had there.

17 In terms of the process of working through
18 the -- the redistricting in Georgia, fair to say you
19 started with the public hearings; right?

20 A. Correct.

21 Q. And drove, I think, over a thousand miles
22 around the state?

23 A. That's right.

24 Q. And do you recall approximately how many
25 hours you spent in public hearings total?

1 A. According to the notes that I have
2 where -- that I used to speak from during
3 redistricting, 88 -- I allocated 88 hours to meet
4 with members of parties.

5 Q. Okay.

6 A. Are you asking me about -- oh, public
7 hearings. 15 hours in public hears.

8 Q. 15 hours in public hearings?

9 A. Uh-huh.

10 Q. And over 300 people spoke at those
11 hearings; right?

12 A. That's right.

13 Q. And each meeting started with an
14 educational video about the redistricting process?

15 A. Right.

16 Q. And you mentioned meeting with members.
17 Did you try to meet with every member of
18 the House?

19 A. I did. I sent -- I did send four separate
20 emails to every single member of the House, and I
21 would -- I met with over 100 people, I believe,
22 because, I think, over 100 or right at 100
23 Republicans alone met with me.

24 Q. And you wanted to meet with all the
25 Republicans and Democrats; right?

1 A. I did.

2 Q. And I believe you said earlier, the
3 Democratic members except for a handful of them
4 didn't show up for meetings or try to meet with you.

5 A. Correct.

6 Q. And there was a portal that was made to
7 receive public comments as well?

8 A. Yes, that's correct.

9 Q. And you received, I guess, hundreds of
10 comments at that portal?

11 A. I think at last count it was in the 900s
12 and I thought it went over 1,000.

13 Q. And all those were made available to
14 members to review; right?

15 A. Yes.

16 Q. And you -- you reviewed those comments, as
17 you said?

18 A. Yes, I did.

19 Q. And we had some discussion about the
20 education data the committees hold.

21 Do you recall inviting a variety of
22 different groups interested in redistricting?

23 A. I did.

24 Q. In both political parties?

25 A. Yes, both parties.

1 Q. And the National Conference of State
2 Legislatures?

3 A. That is correct.

4 Q. And the guidelines for the committee were
5 adopted after that educational process; is that
6 right?

7 A. That is correct.

8 Q. In the map drawing process, I know you
9 talked about you primarily did that in the
10 Reapportionment Office with Ms. Wright or with
11 Mr. Knight; right?

12 A. Correct.

13 Q. Was political data generally displayed as
14 you looked at different districts?

15 A. The political data, if you mean the
16 election results, yes.

17 Q. And so it's fair to say you were aware of
18 the partisan impact of district lines and you looked
19 at various drafts?

20 A. Yes.

21 Q. When you held the committee meetings
22 during the special session, did you generally
23 receive public comment at those meetings as well?

24 A. I -- I did not at the very first meeting
25 where Leader Beverly and I both presented our maps

1 in depth. There -- it was a long meeting already,
2 so we had held public commentary at the next
3 meeting.

4 Q. Do you recall a situation where a map was
5 presented and between the time it was first
6 presented and the time the committee voted there was
7 no public comment allowed?

8 A. I -- I don't.

9 Q. So, generally, you allowed public comment
10 at some meeting about each map that was presented?

11 A. Yes.

12 Q. And did you hold a hearing on every
13 Democratic proposal that any democratic legislator
14 asked to you hear?

15 A. Yes. Anything that was filed as a bill,
16 which it has to be to be heard in a committee
17 meeting in the House.

18 Q. And I think you included a couple of
19 proposals from the Democratic Leader Beverly, as
20 well?

21 A. That is right.

22 Q. Representative Rich, I guess it's fair to
23 say this is a difficult process and a lot of
24 competing interests.

25 Is that fair?

1 A. Yes.

2 Q. And did you do your best to balance all
3 the different factors that were bearing on you as
4 the Chair of the committee in providing the
5 redistricting maps?

6 A. Yes, I did.

7 Q. Well, thank you so much. Those are all
8 the questions I have.

9 A. Thank you.

10 MR. MELLMAN: Thanks. I do have a couple
11 more. You want me to go?

12 EXAMINATION

13 BY-MR. MELLMAN:

14 Q. Okay. Very briefly. Thank you for your
15 time.

16 Regarding that educational session that we
17 discussed where the National Conference of State
18 Legislatures appeared, did any Republican
19 organizations attend that session?

20 A. I don't think they did. I -- I don't
21 think so.

22 Q. Do you know why not?

23 A. I don't know why.

24 Q. Did you invite any?

25 A. Yes, we did.

1 Q. And did they respond to you?

2 A. I think they just politely declined.

3 Q. Did you communicate with any of them or
4 any other representatives outside of the public
5 hearing?

6 A. No.

7 COURT REPORTER: I'm sorry. I couldn't
8 hear you, Mr. Mellman.

9 MR. MELLMAN: I said that's all we have.
10 Thank you.

11 COURT REPORTER: Thank you.

12 VIDEOGRAPHER: This concludes the
13 deposition. The time is 3:37. We are going
14 off video record.

15 (Deposition concluded at 3:37 p.m.)

16 (Pursuant to Rule 30(e) of the Federal
17 Rules of Civil Procedure and/or O.C.G.A.
18 9-11-30(e), signature of the witness has been
19 reserved.)

Federal Rules of Civil Procedure

Rule 30

(e) Review By the Witness; Changes.

(1) Review; Statement of Changes. On request by the deponent or a party before the deposition is completed, the deponent must be allowed 30 days after being notified by the officer that the transcript or recording is available in which:

(A) to review the transcript or recording; and

(B) if there are changes in form or substance, to sign a statement listing the changes and the reasons for making them.

(2) Changes Indicated in the Officer's Certificate. The officer must note in the certificate prescribed by Rule 30(f)(1) whether a review was requested and, if so, must attach any changes the deponent makes during the 30-day period.

DISCLAIMER: THE FOREGOING FEDERAL PROCEDURE RULES ARE PROVIDED FOR INFORMATIONAL PURPOSES ONLY.

THE ABOVE RULES ARE CURRENT AS OF APRIL 1, 2019. PLEASE REFER TO THE APPLICABLE FEDERAL RULES OF CIVIL PROCEDURE FOR UP-TO-DATE INFORMATION.

VERITEXT LEGAL SOLUTIONS
COMPANY CERTIFICATE AND DISCLOSURE STATEMENT

Veritext Legal Solutions represents that the foregoing transcript is a true, correct and complete transcript of the colloquies, questions and answers as submitted by the court reporter. Veritext Legal Solutions further represents that the attached exhibits, if any, are true, correct and complete documents as submitted by the court reporter and/or attorneys in relation to this deposition and that the documents were processed in accordance with our litigation support and production standards.

Veritext Legal Solutions is committed to maintaining the confidentiality of client and witness information, in accordance with the regulations promulgated under the Health Insurance Portability and Accountability Act (HIPAA), as amended with respect to protected health information and the Gramm-Leach-Bliley Act, as amended, with respect to Personally Identifiable Information (PII). Physical transcripts and exhibits are managed under strict facility and personnel access controls. Electronic files of documents are stored in encrypted form and are transmitted in an encrypted fashion to authenticated parties who are permitted to access the material. Our data is hosted in a Tier 4 SSAE 16 certified facility.

Veritext Legal Solutions complies with all federal and State regulations with respect to the provision of court reporting services, and maintains its neutrality and independence regardless of relationship or the financial outcome of any litigation. Veritext requires adherence to the foregoing professional and ethical standards from all of its subcontractors in their independent contractor agreements.

Inquiries about Veritext Legal Solutions' confidentiality and security policies and practices should be directed to Veritext's Client Services Associates indicated on the cover of this document or at www.veritext.com.

RE: GA ST. CONF. OF NAACP V. STATE OF GEORGIA

JANUARY 18, 2023, BONNIE RICH, JOB NO. 5667885

The above-referenced transcript has been completed by Veritext Legal Solutions and review of the transcript is being handled as follows:

___ Per CA State Code (CCP 2025.520 (a)-(e)) - Contact Veritext to schedule a time to review the original transcript at a Veritext office.

___ Per CA State Code (CCP 2025.520 (a)-(e)) - Locked .PDF Transcript - The witness should review the transcript and make any necessary corrections on the errata pages included below, notating the page and line number of the corrections. The witness should then sign and date the errata and penalty of perjury pages and return the completed pages to all appearing counsel within the period of time determined at the deposition or provided by the Code of Civil Procedure.

___ Waiving the CA Code of Civil Procedure per Stipulation of Counsel - Original transcript to be released for signature as determined at the deposition.

___ Signature Waived - Reading & Signature was waived at the time of the deposition.

Page 220

1 _X_ Federal R&S Requested (FRCP 30(e)(1)(B)) - Locked .PDF

2 Transcript - The witness should review the transcript and
3 make any necessary corrections on the errata pages included
4 below, notating the page and line number of the corrections.
5 The witness should then sign and date the errata and penalty
6 of perjury pages and return the completed pages to all
7 appearing counsel within the period of time determined at
8 the deposition or provided by the Federal Rules.

9 ___ Federal R&S Not Requested - Reading & Signature was not
10 requested before the completion of the deposition.

Georgia House District Map Introduction

Process for drawing plans

- With the fed govt delaying Census data by 5 months, we used the summer to study and learn about districts.
 - I incredibly helpful to me to learn about the districts and the state.
 - Example of one or two that was helpful
- Between June and September, I sent out **4** separate invitation emails and allocated over **88 hours** to meet with members of both political parties to learn about their districts and the areas they wanted to gain or lose.
- We held public hearings across the state and took input on our website. We drove over 1400 miles around the state and held **11 public hearings** over **15 hours**, we heard from 328 speaking participants from 162 of our 180 House Districts.
- Also invited written commentary. Our website portal received over 700 comments, and we made those available to the committee members and the public and I personally reviewed them.
- 1st Committee Meeting was an education day for the committee and invited a variety of groups to speak to us about what we should know. We heard from NCSL, the Georgia Democratic Party, Fair Districts, among others.
- Our committee then adopted guidelines to govern the drawing of maps. Those guidelines focused on the constitutional requirement of equal population, compliance with the Voting Rights Act, including a recognition of racially polarized voting, and then the importance of jurisdictional boundaries, prioritizing communities of interest, compactness, and contiguity. Essentially same as 2011 and 2001.

LEGIS00020767

EXHIBIT

1

Constitution

- 1st responsibility is to balance population under the US Constitution.
- Applied 2020 data to the existing districts. Found that districts were over or under population by -24.39% to +32.27%.
- Districts have to be substantially the same size, and we've generally drawn to a deviation of +/- 1.5% on the draft plan.

Voting Rights Act

- After overlaying the census data, we drew the VR districts, in consultation with counsel, to ensure compliance.
- We comply with the Voting Rights Act, creating majority-minority districts and new minority opportunity districts.
- 49 majority black vap districts (increase of 1)
- 27 minority opportunity districts
- Total of 76 majority non white vap districts (majority non-white VAP) (up 5 from existing maps)
- One Latino majority VAP district (District 98)
 - Two heavily influenced Latino districts (>40%) Districts 4 and 96.

Communities of interest and county splits

We also applied the remaining Guidelines adopted, prioritizing county lines, municipalities (something we hear about a lot in public commentary), communities of interest, compactness, and contiguity.

- The 2001 House Districts drawn by Democrats split 80 counties into 147 districts for 180 members while using a deviation of +/- 5%.
- Our current districts split 73 counties.
- This plan splits only 69 counties while using a deviation of +/- 1.5%.
- In contrast, Democrat plan offered splits 79 counties, essentially same number as plan that party introduced in 2001.

Incumbents

- We obtained current incumbent addresses so we could plot and overlay them onto the map. We prioritized minimizing incumbent pairings as much as possible.
- No one is happy about pairings, but our plan only pairs incumbents where population deviations required and there were no other workable solutions.
- The 2001 House district plan paired 37 of the 74 Republican incumbents but only nine of the 105 Democrats.
- Our current maps maintained most incumbents, only 4: 1 D, 2Rs, and one D-R.

Took concepts + distr. shapes from Dem-proposed map.

Combined all of this input with the staff at the Reapportionment office to get to a draft map and that is what you have in front of you.

So let's look at the map. Will walk through by region --

Southwest:

Loss of pop; whole district. Protected VR districts in **HDs 153 and 154**.
Resulted in one of our inevitable pairings, a R-D.

With the collapse of that one district, we were able to maintain the cores of the remaining districts in the area.

Moving east ... Central South:

Protected **HD 177** there, which is a VR district. Were able to accommodate the request of the Democrat incumbent there to include some precincts he explained to us were a part of the district's community of interest.

Also in this area the pop loss resulted in another pairing, this time R-R (Lariccia / Burchette) in **HD 176**.

Swamp area of the state in **HD 174**, we kept together among 5 counties.
Comm of Int.

Coastal:

HD 180 has whole of Camden county – removed the split.

HD 168 is wholly contained in Liberty County – Our Dean of the House keeps his famous district #.

Savannah area:

Protected one VR district: **HD #165** and two Minority Opportunity districts, **HD #s 162 and 163**.

Southeast, but moving back west across the state:

Kept a community of interest together – **HD #156** – kept Wheeler, Montgomery, & Toombs together – strong public request and support for this at our public hearings.

Moving up a bit to Central Georgia

Maintained the core of the districts in the Macon area while protecting 3 VR districts there – **HD #s 142, 143, and 150.**

Also maintained greater than 50% black VAP in **HD # 137** by putting it into Lagrange and Troup County.

Moving west, protected 2 VR districts in Columbus area, **HD #s 140 and 141.**

Moving up a bit to South Metro:

W/ loss of pop in SW GA below it and VR districts to the north of it, this area felt a crunch – pulling the VR districts a little further south.

Northwest Ga:

Maintained district cores and avoided incumbent pairings, which is diff from Dem plan, which had at least one incumb pairing.

Moving a little east, Pickens County is whole under our current HD maps, and, based on clear requests and support from their communities, we kept it that way.

Northernmost area of state: **HD #7** – Is a perfect district and remains a perfect district.

Moving down a little to Athens/Clarke County:

A lot of growth; very large county. Pop alone requires it be split 3 ways in a vacuum – like Barrow and Jackson, other large counties in the area that also got split. Always prefer to split larger counties before smaller ones.

Moving to the east, to the GA/SC border:

Legislators from the area worked together to adjust their lines based on population and communities of interest.

Moving down the border to the Augusta area:

Protected ⁴VR districts: HD #s ¹¹128, ⁹128, 130, and 131. As requested by Dem incumbent, made Jefferson County whole.

Metro Atlanta:

Pop growth; densely populated; many incumbents live close together; worked hard to avoid pairings.

North Metro: Pop growth in **Bartow, Cherokee, and Forsyth** pulled the districts in these areas to the east.

Gwinnett County:

Tremendous growth; created 2-3 Minority Opportunity Districts here alone; 2 pairings, still looking into some possible solutions for those.

Fair Districts GA
P.O. Box 1482
Decatur, GA 30031
www.fairdistrictsga.org

Chair Kennedy and Members of the Committee,

My name is Karen McCown and I am the co-chair of the Mapping & Analysis Committee with Fair Districts GA. We are pleased to have the opportunity to present to you today. Fair Districts GA is a grass roots citizen organization focused exclusively on redistricting. We are a non-partisan, non-profit group of volunteers from across the state. With me today are a few of my fellow volunteers.

I'm here to share our analysis of the proposed House map by Fair Districts GA and our partners at the Princeton Gerrymandering Project (PGP), which is one of the country's premier analytical resources for redistricting and gerrymandering. Princeton's analysis provides a non-partisan, independent set of analytical benchmarks for measuring the fairness of district maps.

One way to separate the effects of gerrymandering from natural political geography is to compare each proposed map to a large collection of simulated maps drawn without political influence. PGP used 2020 census data to create fairness benchmarks by drawing one million simulated maps that comply with federal and state law and traditional redistricting criteria. They then analyzed the simulated maps to calculate a likely numeric range for partisan balance, competitive districts, and minority representation. The proposed House map has been evaluated against these benchmarks.

Partisan Balance

Although technically within the benchmark range, the proposed House Committee map favors Republicans by creating 98 Republican-leaning districts to 82 Democratic-leaning districts. When compared to the collection of simulated maps, 89% had a more even partisan balance.

Competitiveness

The House Committee map provides only 7 competitive districts that have a proportion of each party's voters in the 46.5%-53.5% range. This is fewer than the expected range of 9-22 competitive districts.

Minority Representation

Our independent analysis shows that the proposed House Committee map provides a total of 109 minority districts, including 1 Hispanic-majority, and 2 Hispanic influence districts that give Black and other minority voters the opportunity to elect the candidates of their choice. This is 2 fewer than the existing 111 minority districts.

- This map provides 45 Black majority districts while the existing map includes 47 districts, and our analysis indicates that 48 are possible. There are 12 Black influence districts, 1 more than the 3-11 benchmark range, with a Black Voting Age Population between 37% and 50%.
- These figures are only an estimate since further study, including a racial polarization analysis, is necessary to determine if specific districts are protected by the Voting Rights Act.

Overall, the Princeton Gerrymandering Project Report Card grades the map as a "B."

First Look Analysis:

Proposed Map Comparison

Congress, State Senate and House, Nov. 9, 2021

**Fair Districts GA &
Princeton
Gerrymandering
Project**

Working with Fair Districts GA, the Princeton Gerrymandering Project conducted a state-of-the art analysis, drawing 1 million maps per chamber using 2020 census data to create benchmarks/fairness tests that can be used to evaluate proposed Congressional, State Senate, and State House maps. Benchmarks identify the range of values for partisan balance, competitiveness, and minority representation expected in a map drawn without partisan intent. A map at the extreme end or outside of the benchmark range is less desirable than one near the midpoint of the range.

This document is a summary of the benchmark scores for the proposed maps submitted to the General Assembly for consideration.

Proposed Congressional Map				
Metrics	PGP / FDGA Benchmarks	Senate Committee 9-27	Democratic Caucus 5EX	Comments
Republican districts	8 - 9	9	7	
Democratic districts	5 - 6	5	7	
Competitive districts	0 - 3	0	1	46.5% - 53.5% partisan balance
Extreme districts	N/A	2	5	Outside benchmark range
Majority-minority districts	N/A	5	6	Includes Black voters
Minority influence districts	N/A	4	4	Includes Black voters
Black-majority districts	4	3	2	50% + voting-age population
Black influence districts	0 - 1	1	3	37% - 50% voting-age population

PGP Report Card Grade	N/A	C	B	Gerrymander.Princeton.edu

About Fair Districts GA and the Princeton Gerrymandering Project

Fair Districts GA is the sole non-partisan organization in Georgia focused exclusively on fighting gerrymandering, the practice of drawing legislative district lines to favor one group over another. Our ultimate goal is to reform Georgia's process for drawing state and federal electoral maps. We support stronger standards and a non-partisan, transparent, accountable redistricting process.

Operating at the intersection of law, math, and political science, the **Princeton Gerrymandering Project** is dedicated to reforming redistricting nationwide. The state-of-the art analysis used existing maps and recent election results to estimate the true extent of gerrymandering in Georgia.

First Look Analysis:

Proposed House Map

House Committee Chair, November 8, 2021

**Fair Districts GA &
Princeton
Gerrymandering
Project**

Respect voters' political preferences:

PARTISAN BALANCE AND COMPETITION

Comparison of the proposed state House map to fairness benchmarks:

The partisan gap between Republican and Democratic voters has narrowed in recent elections and is now close to a 50-50 split; however, the proposed map favors Republicans by creating 98 Republican-leaning districts vs. 82 Democratic-leaning districts. Although the proposed map is technically within benchmark ranges, 89% of the 1 million simulated maps created for the analysis had better partisan balance.

Twenty-five Republican and 20 Democratic districts, or 25% of the total 180 districts, show evidence of partisan gerrymandering by packing more Republican or Democratic voters into those districts than any of the benchmark analysis simulated maps. There are only 7 competitive districts that have a proportion of each party's voters in the 46.5%-53.5% range. This is fewer than the expected range of 9-22 competitive districts.

Conclusions:

Although the proposed map is within the benchmark ranges for partisan balance, it favors Republicans and lacks sufficient competitive districts. The Princeton Gerrymandering Project gave this map a grade of "B."

What is a Fair Map?

Working with Fair Districts GA, the Princeton Gerrymandering Project conducted a state-of-the art analysis using 2020 census data to create benchmarks/fairness tests that can be used to evaluate proposed maps drawn by the Georgia General Assembly. To be considered fair, proposed district maps for the State Senate should comply with the following criteria.

Respect voters' political preferences

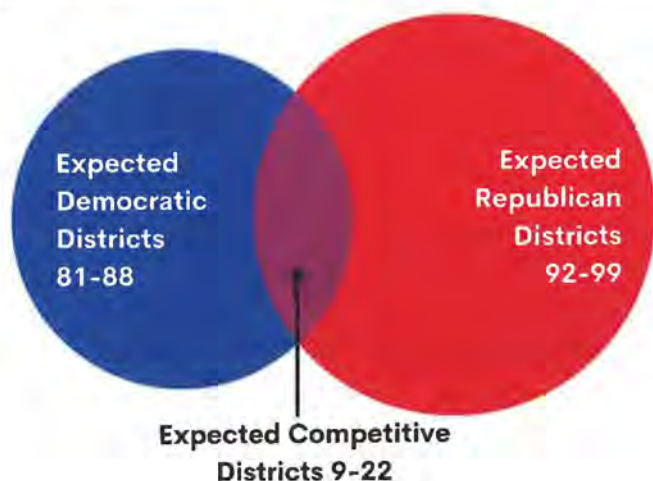

- Reflect the natural political preferences of voters distributed across the state
- Allow for competition

Reflect Georgia's diversity

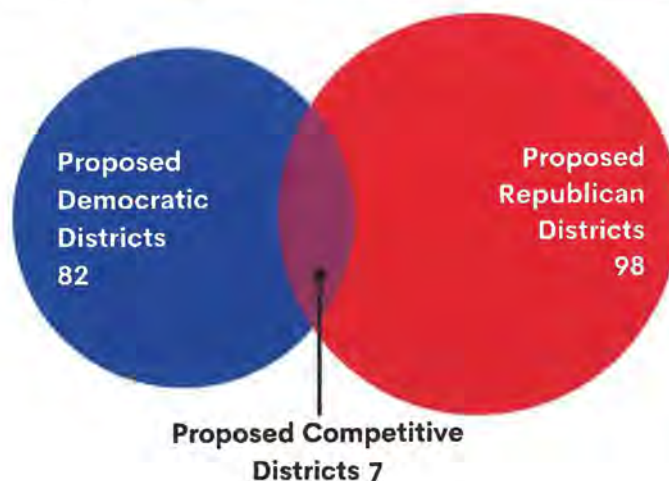

- Provide sufficient majority-minority opportunity districts and comply with the Voting Rights Act
- Preserve minority influence districts

Honor communities of interest

Draft- Georgia House Districts

Client: H097
Plan: House-prop-2021
Type: House

2021-2022 GUIDELINES FOR THE HOUSE LEGISLATIVE AND CONGRESSIONAL REAPPORTIONMENT COMMITTEE

I. HEARINGS AND MEETINGS

A. PUBLIC HEARINGS

1. A series of public hearings were held to actively seek public participation and input concerning the General Assembly's redrawing of congressional and legislative districts.
2. Video recordings of all hearings are and shall remain available on the legislative website, www.legis.ga.gov

B. COMMITTEE MEETINGS

1. All formal meetings of the full committee will be open to the public.
2. When the General Assembly is not in session, notices of all such meetings will be posted at the Offices of the Clerk of the House or Secretary of the Senate and other appropriate places at least 24 hours in advance of any meeting. Individual notices may be transmitted by email to any citizen or organization requesting the same without charge. Persons or organizations needing this information should contact the Senate Press Office or House Communications Office or the Secretary of the Senate or Clerk of the House to be placed on the notification list.
3. Minutes of all such meetings shall be kept and maintained in accordance with the rules of the House and Senate. Copies of the minutes should be made available in a timely manner at a reasonable cost in accordance with these same rules.

II. PUBLIC ACCESS TO REDISTRICTING DATA AND MATERIALS

- A. Census information databases on any medium created at public expense and held by the Committee or by the Legislative and Congressional Reapportionment Office for use in the redistricting process are included as public records and copies can be made available to the public in accordance with the rules of the General Assembly and subject to reasonable charges for search, retrieval, reproduction and other reasonable, related costs.
- B. Copies of the public records described above may be obtained at the cost of reproduction by members of the public on electronic media if the material exists on an appropriate electronic medium. Cost of reproduction may include not only the medium on which the copies made, but also the labor cost for the search, retrieval, and reproduction of the records and other reasonable, related costs.

- C. These guidelines regarding public access to redistricting data and materials do not apply to plans or other related materials prepared by or on behalf of an individual Member of the General Assembly using the Legislative and Congressional Reapportionment Office, where those plans and materials have not been made public through presentation to the Committee.

III. REDISTRICTING PLANS

A. GENERAL PRINCIPLES FOR DRAFTING PLANS

1. Each congressional district should be drawn with a total population of plus or minus one person from the ideal district size.
2. Each legislative district of the General Assembly should be drawn to achieve a total population that is substantially equal as practicable, considering the principles listed below.
3. All plans adopted by the Committee will comply with Section 2 of the Voting Rights Act of 1965, as amended.
4. All plans adopted by the Committee will comply with the United States and Georgia Constitutions.
5. Districts shall be composed of contiguous geography. Districts that connect on a single point are not contiguous.
6. No multi-member districts shall be drawn on any legislative redistricting plan.
7. The Committee should consider:
 - a. The boundaries of counties and precincts;
 - b. Compactness; and
 - c. Communities of interest.
8. Efforts should be made to avoid the unnecessary pairing of incumbents.
9. The identifying of these criteria is not intended to limit the consideration of any other principles or factors that the Committee deems appropriate.

B. PLANS PRODUCED THROUGH THE LEGISLATIVE AND CONGRESSIONAL REAPPORTIONMENT OFFICE

1. Staff of the Legislative and Congressional Reapportionment Office will be available to all members of the General Assembly requesting assistance in accordance with the policy of that office.
2. Census data and redistricting work maps will be available to all members of the General Assembly upon request, provided that (a) the map was created by the requesting member, (b) the map is publicly available, or (c) the Legislative and Congressional Reapportionment Office has been granted permission by the author of the map to share a copy with the requesting member.
3. As noted above, redistricting plans and other records related to the provision of staff services to individual members of the General Assembly will not be subject to public disclosure. Only the author of a particular map may waive the confidentiality of his or her own work product. This confidentiality provision will not apply with respect to records related to the provision of staff services to any committee or subcommittee as a whole or to any records which are or have been previously disclosed by or pursuant to the direction of an individual member of the General Assembly.

C. PLANS PRODUCED OUTSIDE OF THE LEGISLATIVE AND CONGRESSIONAL REAPPORTIONMENT OFFICE

1. All plans submitted to the Committee will be made part of the public record and made available in the same manner as other committee public records.
2. All plans prepared outside the Legislative and Congressional Reapportionment Office must be submitted to that office prior to presentation to the Committee by a Member of the General Assembly for technical verification and presentation and bill preparation. All pieces of census geography must be accounted for in some district.
3. The electronic submission of material for technical verification must be made in accordance with the following requirements or in a manner specifically approved and accepted by the Legislative and Congressional Reapportionment Office.
 - a. The submission shall be in electronic format with accompanying documentation that shows the submitting sponsor of the proposed plan and contact person for the proposed plan, including email address and telephone number.
 - b. An electronic map image that clearly depicts defined boundaries, utilizing the 2020 United States Census geographic boundaries,

and a block equivalency file containing two columns. The first column shall list the 15-digit census block identification numbers, and the second column shall list the three-digit district identification number. Both block and district numbers shall be zero-filled text files. Such files shall be submitted in .xis, .xlsx, .dbf, .txt, or .csv file formats. The following is a sample:

```
BlockID, DISTRICT
"13001950100101","008"
"13001950100102","008"
"13001950100103","008"
"13001950100104","008"
"13001950100105","008"
"13001950100106","008"
```

4. If submission of the plan cannot be done electronically, the following requirements must be followed:
 - a. All drafts, amendments, or revisions should be on clearly-depicted maps that follow the 2020 Census geographic boundaries and should be accompanied by a statistical sheet listing the Census geography including the total population for each district.
 - b. All plans submitted should either be a complete statewide plan or fit back into the plan that they modified, so that the proposal can be evaluated in the context of a statewide plan. All pieces of Census geography must be accounted for in some district.

D. GENERAL GUIDELINES FOR PRESENTATION OF ALL PLANS

1. A redistricting plan may be presented for consideration by the Committee only through the sponsorship of one or more Member(s) of the General Assembly. All such drafts of and amendments or revisions to plans presented at any committee meeting must be on clearly-depicted maps which follow the 2020 Census geographic boundaries and accompanied by a statistical sheet listing the Census geography, including the total population and minority populations for each proposed district.
2. No plan may be presented to the Committee unless that plan makes accommodations for and fits back into a specific, identified statewide map for the particular legislative body involved.

3. All plans presented at committee meetings will be made available for inspection by the public either electronically or by hard copy available at the Office of Legislative and Congressional Reapportionment.
- E. These guidelines may be reconsidered or amended by the Committee.

2021-2022 GUIDELINES FOR THE HOUSE LEGISLATIVE AND CONGRESSIONAL REAPPORTIONMENT COMMITTEE

I. HEARINGS AND MEETINGS

A. PUBLIC HEARINGS

1. A series of public hearings were held to actively seek public participation and input concerning the General Assembly's redrawing of congressional and legislative districts.
2. Video recordings of all hearings are and shall remain available on the legislative website, www.legis.ga.gov

B. COMMITTEE MEETINGS

1. All formal meetings of the full committee will be open to the public.
2. When the General Assembly is not in session, notices of all such meetings will be posted at the Offices of the Clerk of the House or Secretary of the Senate and other appropriate places at least 24 hours in advance of any meeting. Individual notices may be transmitted by email to any citizen or organization requesting the same without charge. Persons or organizations needing this information should contact the Senate Press Office or House Communications Office or the Secretary of the Senate or Clerk of the House to be placed on the notification list.
3. Minutes of all such meetings shall be kept and maintained in accordance with the rules of the House and Senate. Copies of the minutes should be made available in a timely manner at a reasonable cost in accordance with these same rules.

II. PUBLIC ACCESS TO REDISTRICTING DATA AND MATERIALS

- A. Census information databases on any medium created at public expense and held by the Committee or by the Legislative and Congressional Reapportionment Office for use in the redistricting process are included as public records and copies can be made available to the public in accordance with the rules of the General Assembly and subject to reasonable charges for search, retrieval, reproduction and other reasonable, related costs.
- B. Copies of the public records described above may be obtained at the cost of reproduction by members of the public on electronic media if the material exists on an appropriate electronic medium. Cost of reproduction may include not only the medium on which the copies made, but also the labor cost for the search, retrieval, and reproduction of the records and other reasonable, related costs.

1. Staff of the Legislative and Congressional Reapportionment Office will be available to all members of the General Assembly requesting assistance in accordance with the policy of that office.
2. Census data and redistricting work maps will be available to all members of the General Assembly upon request, provided that (a) the map was created by the requesting member, (b) the map is publicly available, or (c) the Legislative and Congressional Reapportionment Office has been granted permission by the author of the map to share a copy with the requesting member.
3. As noted above, redistricting plans and other records related to the provision of staff services to individual members of the General Assembly will not be subject to public disclosure. Only the author of a particular map may waive the confidentiality of his or her own work product. This confidentiality provision will not apply with respect to records related to the provision of staff services to any committee or subcommittee as a whole or to any records which are or have been previously disclosed by or pursuant to the direction of an individual member of the General Assembly.

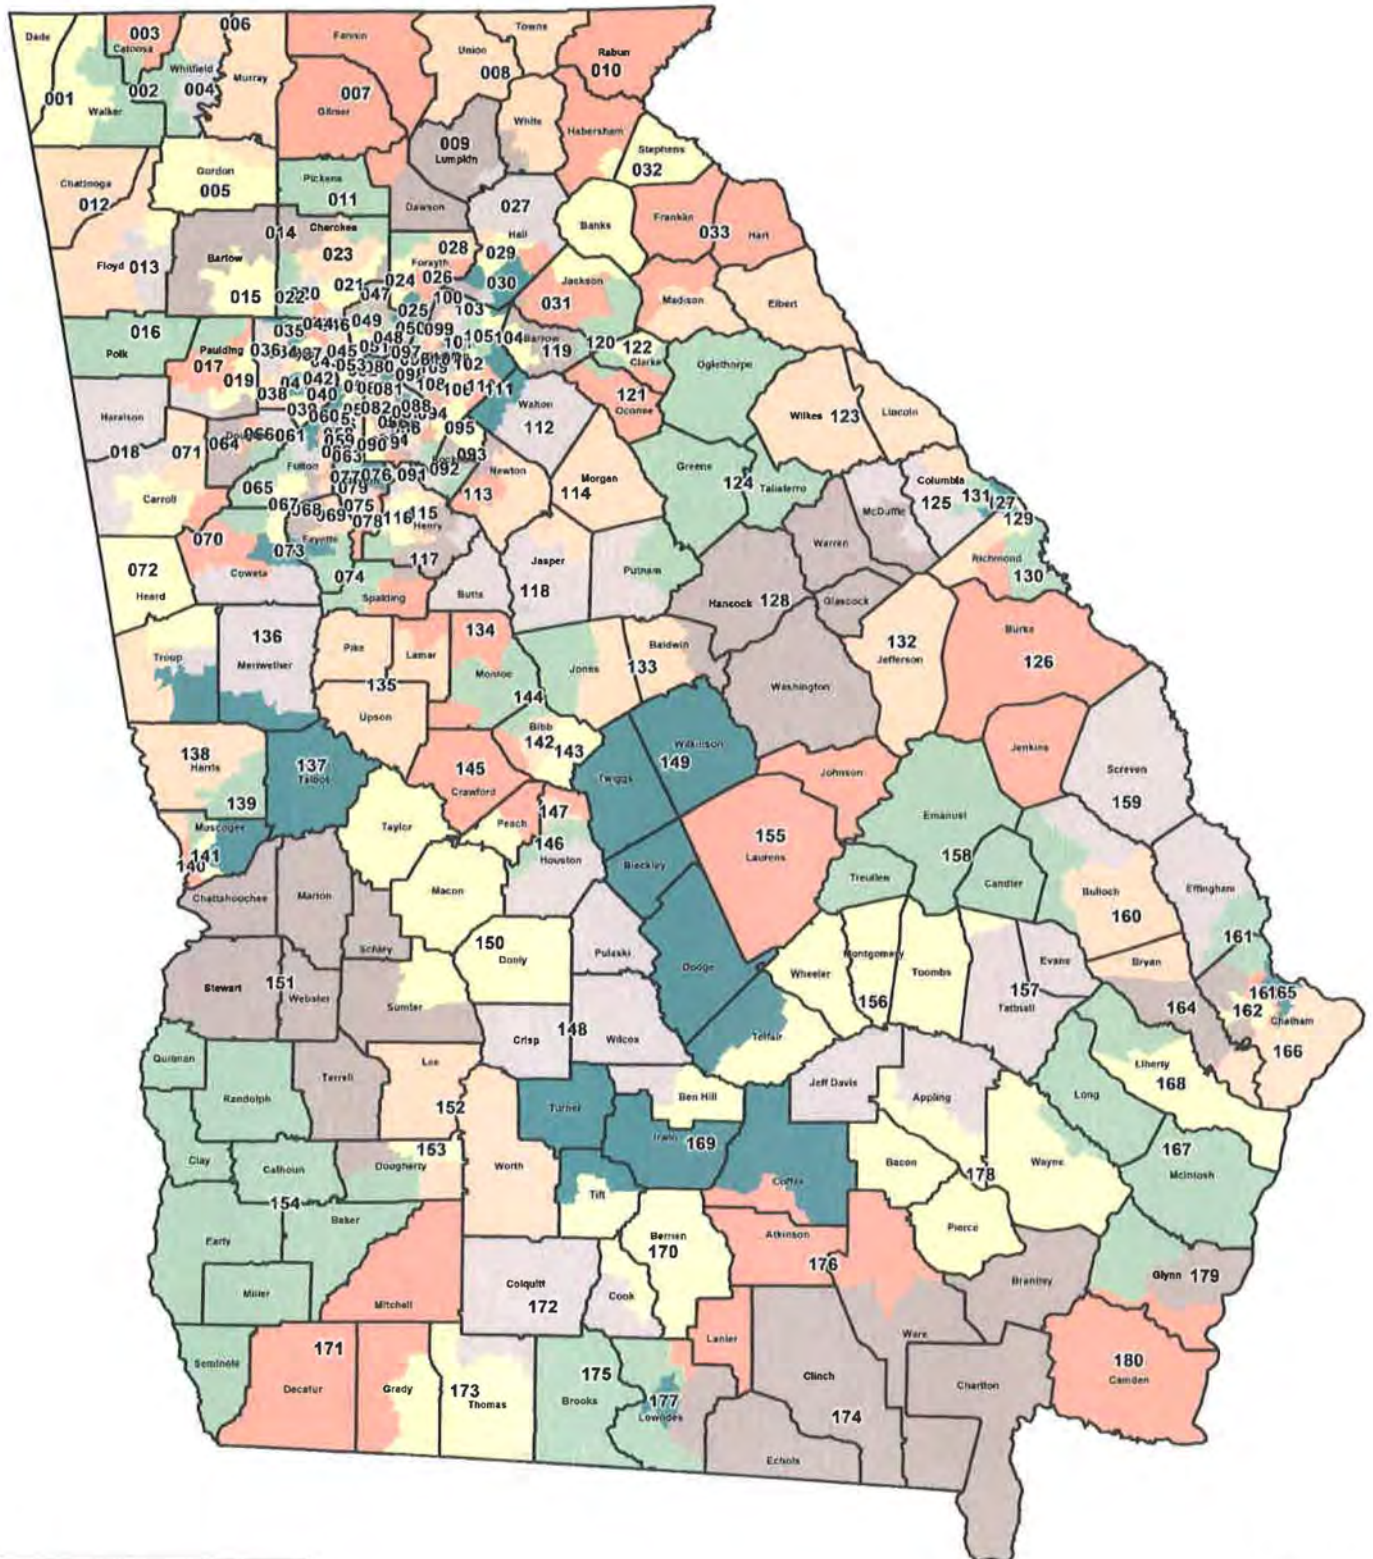

C. PLANS PRODUCED OUTSIDE OF THE LEGISLATIVE AND CONGRESSIONAL REAPPORTIONMENT OFFICE

1. All plans submitted to the Committee will be made part of the public record and made available in the same manner as other committee public records.
2. All plans prepared outside the Legislative and Congressional Reapportionment Office must be submitted to that office prior to presentation to the Committee by a Member of the General Assembly for technical verification and presentation and bill preparation. All pieces of census geography must be accounted for in some district.
3. The electronic submission of material for technical verification must be made in accordance with the following requirements or in a manner specifically approved and accepted by the Legislative and Congressional Reapportionment Office.
 - a. The submission shall be in electronic format with accompanying documentation that shows the submitting sponsor of the proposed plan and contact person for the proposed plan, including email address and telephone number.
 - b. An electronic map image that clearly depicts defined boundaries, utilizing the 2020 United States Census geographic boundaries,

3. All plans presented at committee meetings will be made available for inspection by the public either electronically or by hard copy available at the Office of Legislative and Congressional Reapportionment.
- E. These guidelines may be reconsidered or amended by the Committee.

Special Committee on Election Integrity

MEMORANDUM

DATE: June 1, 2021

TO: Legislative and Congressional Reapportionment Committee Members

FROM: Chairman Bonnie Rich

I hope and trust all is well with you and that you are enjoying family time during the off season.

We received total population numbers for our state April 26, 2021. We have been informed by the Census and our data vendors that the anticipated date for receiving some detailed population numbers within each state is mid to late August, 2021, with all data arriving by the end of September 2021. We are therefore limited in the work that our Committee can do until we receive this detailed Census data.

However, we will soon be holding town hall style hearings around the state to receive input from citizens. I coordinated with Senator John F. Kennedy, the Senate Redistricting and Reapportionment Committee Chair, to schedule joint public hearings and have included the dates below.

Representative Bonnie Rich
House District 97
Page 2

Reapportionment & Redistricting Summer Town Hall Meeting Schedule 5:00 pm – 7:00 pm	
June 15 – Virtual Meeting	July 6 – Athens
June 28 – Atlanta	July 7 – Augusta
June 29 – Cumming	July 26 – Brunswick
June 30 – Dalton	July 27 – Albany
	July 28 – Columbus
	July 29 – Macon
	July 30 – Virtual Meeting

Please let me know of your preferred email to receive emails from me and my office regarding Redistricting and Reapportionment Committee matters. Since we are in the off season, you may prefer that I send it to an additional or different email than your House email; just let me know.

I look forward to working with all of you as information becomes available and we can begin the important work of this Committee.

2021 Committee Guidelines

I. HEARINGS AND MEETINGS

A. PUBLIC HEARINGS

1. A series of public hearings were held to actively seek public participation and input concerning the General Assembly's redrawing of congressional and legislative districts.
2. Video recordings of all hearings are and shall remain available on the legislative website, www.legis.ga.gov

B. COMMITTEE MEETINGS

1. All formal meetings of the full committee will be open to the public.
2. When the General Assembly is not in session, notices of all such meetings will be posted at the Offices of the Clerk of the House or Secretary of the Senate and other appropriate places at least 24 hours in advance of any meeting. Individual notices may be transmitted by email to any citizen or organization requesting the same without charge. Persons or organizations needing this information should contact the Senate Press Office or House Communications Office or the Secretary of the Senate or Clerk of the House to be placed on the notification list.
3. Minutes of all such meetings shall be kept and maintained in accordance with the rules of the House and Senate. Copies of the minutes should be made available in a timely manner at a reasonable cost in accordance with these same rules.

II. PUBLIC ACCESS TO REDISTRICTING DATA AND MATERIALS

- A. Census information databases on any medium created at public expense and held by the Committee or by the Legislative and Congressional Reapportionment Office for use in the redistricting process are included as public records and copies can be made available to the public in accordance with the rules of the General Assembly and subject to reasonable charges for search, retrieval, reproduction and other reasonable, related costs.
- B. Copies of the public records described above may be obtained at the cost of reproduction by members of the public on electronic media if the material exists on an appropriate electronic medium. Cost of reproduction may include not only the medium on which the copies made, but also the labor cost for the search, retrieval, and reproduction of the records and other reasonable, related costs.

LEGIS00000312

EXHIBIT

3

- C. These guidelines regarding public access to redistricting data and materials do not apply to plans or other related materials prepared by or on behalf of an individual Member of the General Assembly using the Legislative and Congressional Reapportionment Office, where those plans and materials have not been made public through presentation to the Committee.

III. REDISTRICTING PLANS

A. GENERAL PRINCIPLES FOR DRAFTING PLANS

1. Each congressional district should be drawn with a total population of plus or minus one person from the ideal district size.
2. Each legislative district of the General Assembly should be drawn to achieve a total population that is substantially equal as practicable, considering the principles listed below.
3. All plans adopted by the Committee will comply with Section 2 of the Voting Rights Act of 1965, as amended.
4. All plans adopted by the Committee will comply with the United States and Georgia Constitutions.
5. Districts shall be composed of contiguous geography. Districts that connect on a single point are not contiguous.
6. No multi-member districts shall be drawn on any legislative redistricting plan.
7. The Committee should consider:
 - a. The boundaries of counties and precincts;
 - b. Compactness; and
 - c. Communities of interest.
8. Efforts should be made to avoid the unnecessary pairing of incumbents.
9. The identifying of these criteria is not intended to limit the consideration of any other principles or factors that the Committee deems appropriate.

B. PLANS PRODUCED THROUGH THE LEGISLATIVE AND CONGRESSIONAL REAPPORTIONMENT OFFICE

1. Staff of the Legislative and Congressional Reapportionment Office will be available to all members of the General Assembly requesting assistance in accordance with the policy of that office.
2. Census data and redistricting work maps will be available to all members of the General Assembly upon request, provided that (a) the map was created by the requesting member, (b) the map is publicly available, or (c) the Legislative and Congressional Reapportionment Office has been granted permission by the author of the map to share a copy with the requesting member.
3. As noted above, redistricting plans and other records related to the provision of staff services to individual members of the General Assembly will not be subject to public disclosure. Only the author of a particular map may waive the confidentiality of his or her own work product. This confidentiality provision will not apply with respect to records related to the provision of staff services to any committee or subcommittee as a whole or to any records which are or have been previously disclosed by or pursuant to the direction of an individual member of the General Assembly.

C. PLANS PRODUCED OUTSIDE OF THE LEGISLATIVE AND CONGRESSIONAL REAPPORTIONMENT OFFICE

1. All plans submitted to the Committee will be made part of the public record and made available in the same manner as other committee public records.
2. All plans prepared outside the Legislative and Congressional Reapportionment Office must be submitted to that office prior to presentation to the Committee by a Member of the General Assembly for technical verification and presentation and bill preparation. All pieces of census geography must be accounted for in some district.
3. The electronic submission of material for technical verification must be made in accordance with the following requirements or in a manner specifically approved and accepted by the Legislative and Congressional Reapportionment Office.
 - a. The submission shall be in electronic format with accompanying documentation that shows the submitting sponsor of the proposed plan and contact person for the proposed plan, including email address and telephone number.

- b. An electronic map image that clearly depicts defined boundaries, utilizing the 2020 United States Census geographic boundaries, and a block equivalency file containing two columns. The first column shall list the 15-digit census block identification numbers, and the second column shall list the three-digit district identification number. Both block and district numbers shall be zero-filled text files. Such files shall be submitted in .xis, .xlsx, .dbf, .txt, or .csv file formats. The following is a sample:

```

BlockID, DISTRICT
"13001950100101","008"
"13001950100102","008"
"13001950100103","008"
"13001950100104","008"
"13001950100105","008"
"13001950100106","008"

```

- 4. If submission of the plan cannot be done electronically, the following requirements must be followed:
 - a. All drafts, amendments, or revisions should be on clearly-depicted maps that follow the 2020 Census geographic boundaries and should be accompanied by a statistical sheet listing the Census geography including the total population for each district.
 - b. All plans submitted should either be a complete statewide plan or fit back into the plan that they modified, so that the proposal can be evaluated in the context of a statewide plan. All pieces of Census geography must be accounted for in some district.

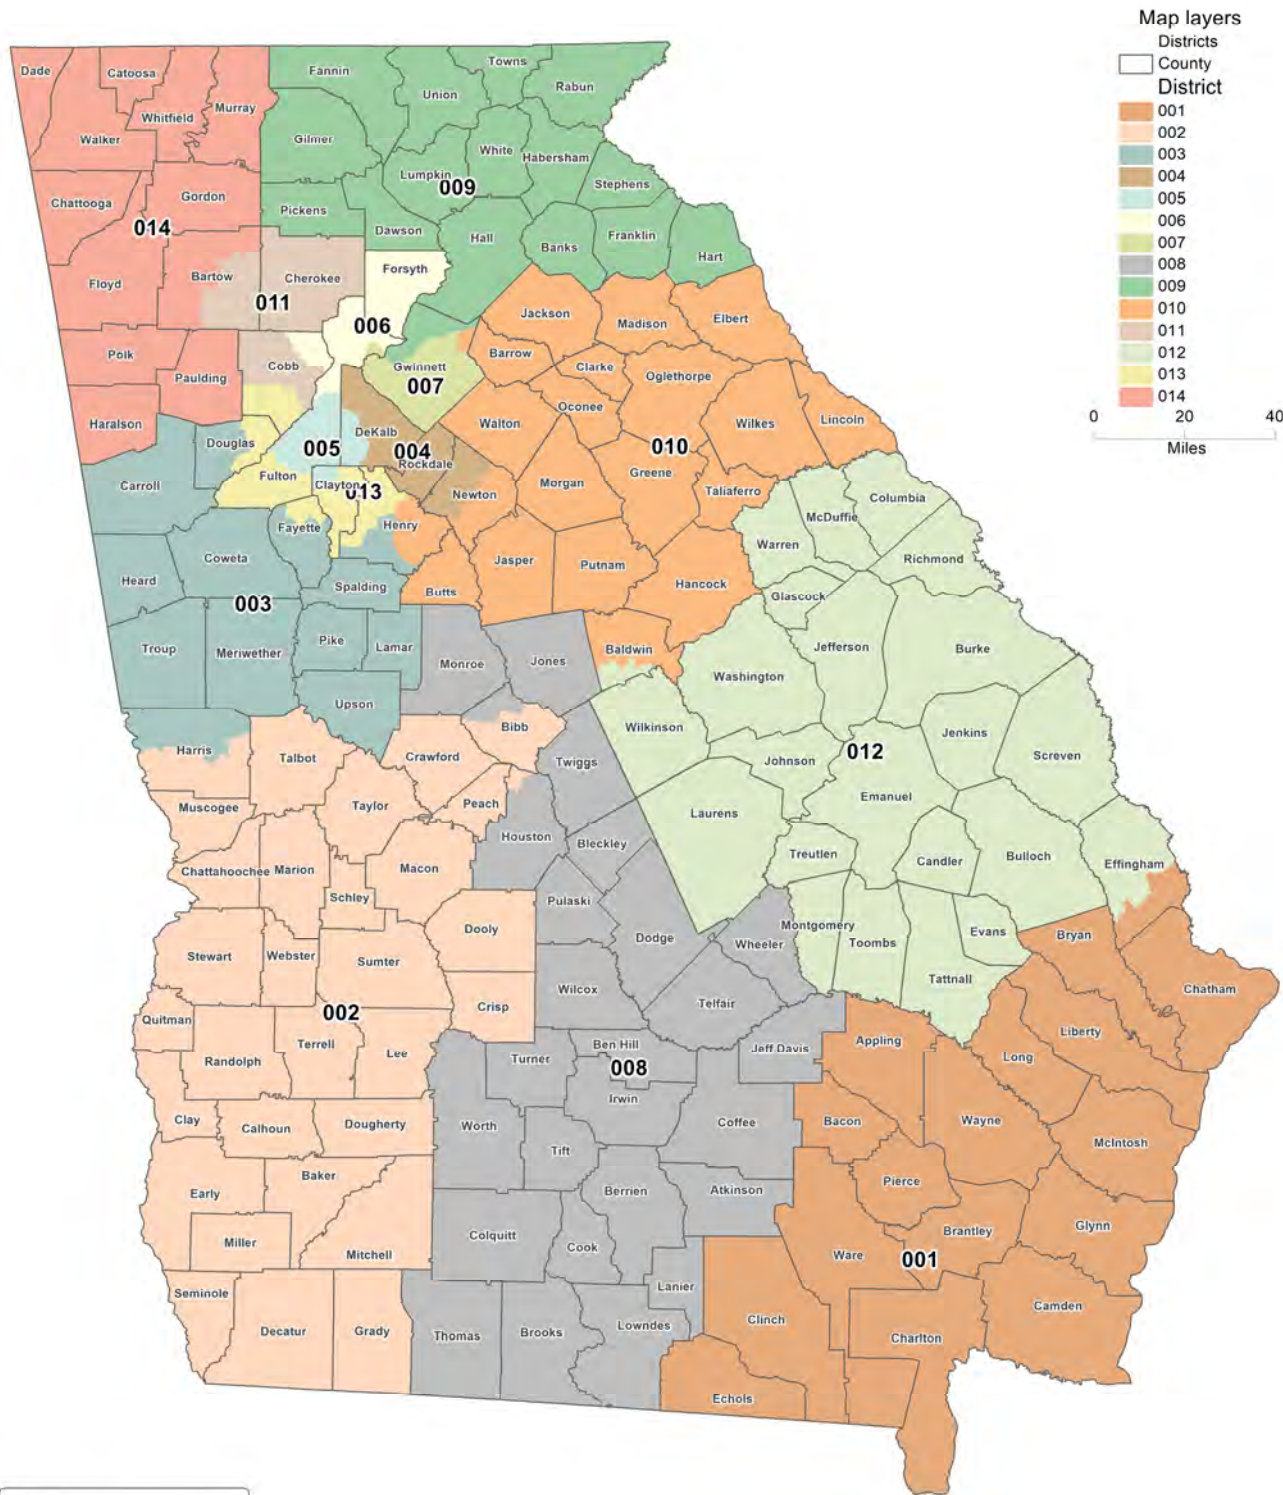

D. GENERAL GUIDELINES FOR PRESENTATION OF ALL PLANS

- 1. A redistricting plan may be presented for consideration by the Committee only through the sponsorship of one or more Member(s) of the General Assembly. All such drafts of and amendments or revisions to plans presented at any committee meeting must be on clearly-depicted maps which follow the 2020 Census geographic boundaries and accompanied by a statistical sheet listing the Census geography, including the total population and minority populations for each proposed district.
- 2. No plan may be presented to the Committee unless that plan makes accommodations for and fits back into a specific, identified statewide map for the particular legislative body involved.

3. All plans presented at committee meetings will be made available for inspection by the public either electronically or by hard copy available at the Office of Legislative and Congressional Reapportionment.
- E. These guidelines may be reconsidered or amended by the Committee.

Georgia House Districts- 2022

Client: State
Plan: House-prop1-2021
Type: House

This map displays the Bibb County Area, highlighting several districts and surrounding regions. The central focus is on the Bibb County area, which is divided into districts such as HOWARD 1 through HOWARD 7, VINEVILLE 1 through VINEVILLE 6, EAST MACON 1 through EAST MACON 5, GODFREY 1 through GODFREY 5, and RUTLAND 1 through RUTLAND 2. Surrounding areas include DISTRICT 2, DISTRICT 4, DISTRICT 3, and DISTRICT 1B in the west; DISTRICT 5 in the south; and DISTRICT 133, DISTRICT 143, and DISTRICT 149 in the east. The map also shows major highways like I-75, I-20, I-29, and I-95, as well as local roads like GA-41, GA-22, GA-80, and GA-23. The map is color-coded by district, with Bibb County in yellow, surrounding areas in green, and water bodies in blue. The map is titled "Bibb County Area" in a large, bold, black font at the top center.

Attachments: Congressional topline talking points (02178844xBE13C).docx; Untitled attachment 32556.htm; jpeg.jpg; Untitled attachment 32559.htm

Congressional Topline Points

1. Process has been ongoing for months.
 - a. Public hearings
 - b. Committee education
 - c. Guidelines adopted
 - d. Opportunities for public comment in person, virtually, and online
2. Same process applied to congressional maps:
 - a. The Senate released a congressional district draft on September 27, 2021 to allow public comment.
 - b. Democratic congressional plan was released on October 21, 2021.
 - c. Took in dozens of comments at the public hearings and online over the past few months.
3. Worked to take into account all of those comments, talking with the chairman of the State Senate to reach this map.
4. This map fairly represents all Georgians and is a map that we can be proud of. It's not gerrymandered, but respects the principles we adopted at the beginning of this process.
5. Let's talk about process going forward.
 - a. We're having our first hearing today. Another hearing tomorrow, and another on Friday. We will not be voting in committee today on this map.
 - b. The Senate had a hearing today and is having another hearing tomorrow.
 - c. We're going to take the time to listen and not ram this through on the same day it is introduced, which IS the way the Democrats handled this the last time they were in control.
6. That being said, you can see similarities to the maps that have been public for months.
 - a. The second district is largely what the joint Democratic caucus proposed, as is district 3.
 - b. The 9th and 14th are similar to what was originally proposed on the Senate draft.
 - c. These maps are the result of months of public comment and input on drafts, and that's why we are proud of them.

So let's talk specifics on this plan:

1. It is at absolute zero deviation—plus or minus one person, as required by the Constitution.
2. It complies with the Voting Rights Act, with several majority-minority districts and several minority opportunity districts on the plan.
3. It respects county boundaries. Our current plan splits 16 counties on the congressional district and this plan splits 15. In contrast, the Democratic plan splits 18 counties.
4. While some precinct splitting is inevitable to reach zero deviation, we split as few precincts as possible while reaching that goal and tried to find logical places to divide counties.
5. It respects communities of interest, recognizing that these are large districts and often have to take in a lot of territory. We have our traditional districts in the corners of the state and the cores of existing districts are largely maintained.
6. While incumbents do not have to live in their districts for Congress, every incumbent member of congress has a district to run in.

QUESTIONS

1. Didn't you target Congresswoman McBath?
 - a. We didn't target anyone. We set out to draw districts that are fair for all Georgians and recognize the growth in Gwinnett County, which is why district 7 looks the way it does and the growth north of Atlanta, which is why district 6 looks the way it does.
 - b. We also tried to take into account public comment like keeping Pickens County whole and maintaining as much of the district cores as we could.
2. What are the minority opportunity districts on this plan?
 - a. The districts where minority voters have the opportunity to elect their candidates of choice are districts 2, 4, 5, 7, and 13.
3. What number did you use to comply with the VRA?
 - a. We didn't use a magic number, but instead evaluated the ability to elect for each area covered by the map.
4. Aren't you just trying to get a Republican majority of 9-5 on this map?
 - a. No. We drew a map that complies with the law and represents our principles and the guidelines this committee adopted. We took a lot of

things into account, but there was no one purpose that took precedence over anything else that we considered.

5. Why didn't you draw the minority opportunity district 10 that was drawn on the Democratic plan?
 - a. You have to take a lot of things into account in drawing and can't look at one districts in isolation. We took a lot of factors into account in creating these plans and believe that our districts 14 and 9 more fairly represent the communities of interest in north Georgia, and that limits what you're then able to do with district 10.
 - b. The Democratic plan also shifts the existing district cores significantly in swapping that district from one side of the state to the other.

2 (Sanford Bishop) Down 92,108; VRA protected district; largely the same as what D caucus proposed; kept Thomas County whole.

8 (Austin Scott) Down 45,217; Added Clinch & Echols to gain pop while maintaining district core;

1 (Buddy Carter): Down 9,355; largely the same; preserved core district; minor changes to equally proportion the population.

12 (Rick Allen) Down 26,512; loss of pop in this district and the others to the south of it pushed it north into what is currently the southeastern part of the 10th, including Johnson, Washington, Jefferson, Glascock, Warren, McDuffie, Lincoln, and Wilkes Counties. Also made Columbia County whole again.

10 (Jody Hice) Over 9,876; Some of that extra population went to the 12th. To keep the cores of districts 12 and 10 largely the same, the 10th pushed north into Elbert, Madison, and Jackson counties. Contrast that with the Dem caucus proposed map, which disregards the core and moves the 10th from the east side of the state to the west.

3 (Drew Ferguson) Down 2,016; largely same as what D caucus proposed; only minor changes to account for pop shift.

4 (Hank Johnson) Over 8,625; VRA protected district; largely unchanged; preserves the district core, whereas the Dem proposed map moves it into Gwinnett and Henry Counties.

5 (Nikema Williams) Over 22,890; VRA protected district; maintained the district core; just moved the boundaries in to accommodate for the pop growth there, which is the same as with District 13.

13 (David Scott) Over 27,780; Another VRA protected district.

14 (Marjorie Taylor Greene) Down 36,585; Maintained this core district; needed to gain population, so it geographically moved south, where we had population growth.

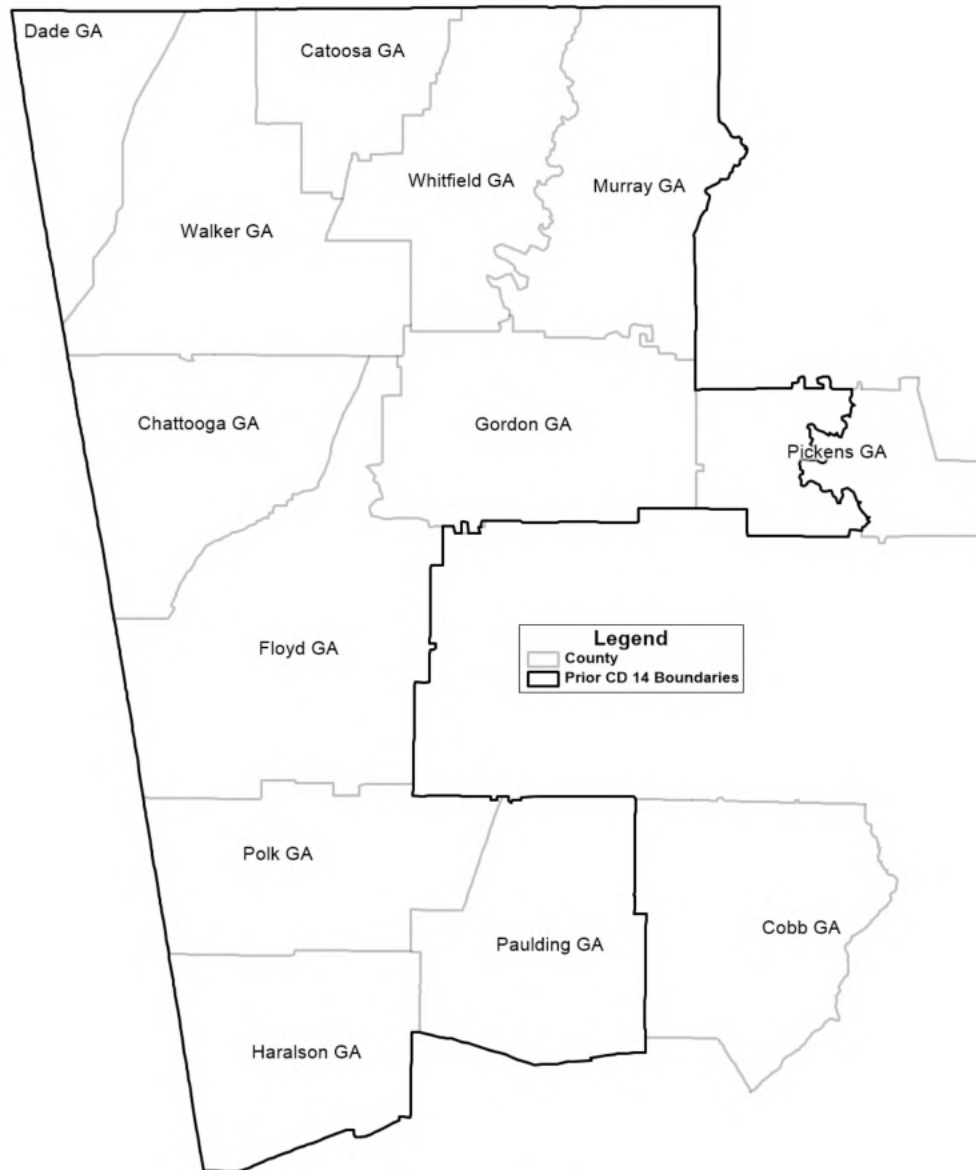

11 (Barry Loudermilk) Over 37,379; Responded to the overwhelming public input with respect to Pickens County and made it whole; a significant portion of the growth in this district & the state was in Cherokee County, so we had to split Cherokee, with a portion of it moving into the 6th.

6 (Lucy McBath) Over 657; Core of this district is a north metro area; Large pop growth and to keep the communities of interest in the 6th and 7th together, this district moved north into Cherokee, Forsyth, and Dawson Counties.

7 (Carolyn Bordeaux) Over 94,304; A Minority Opportunity District – majority non-white. To maintain the core of this district in Gwinnett, pulled inward to include most of Gwinnett.

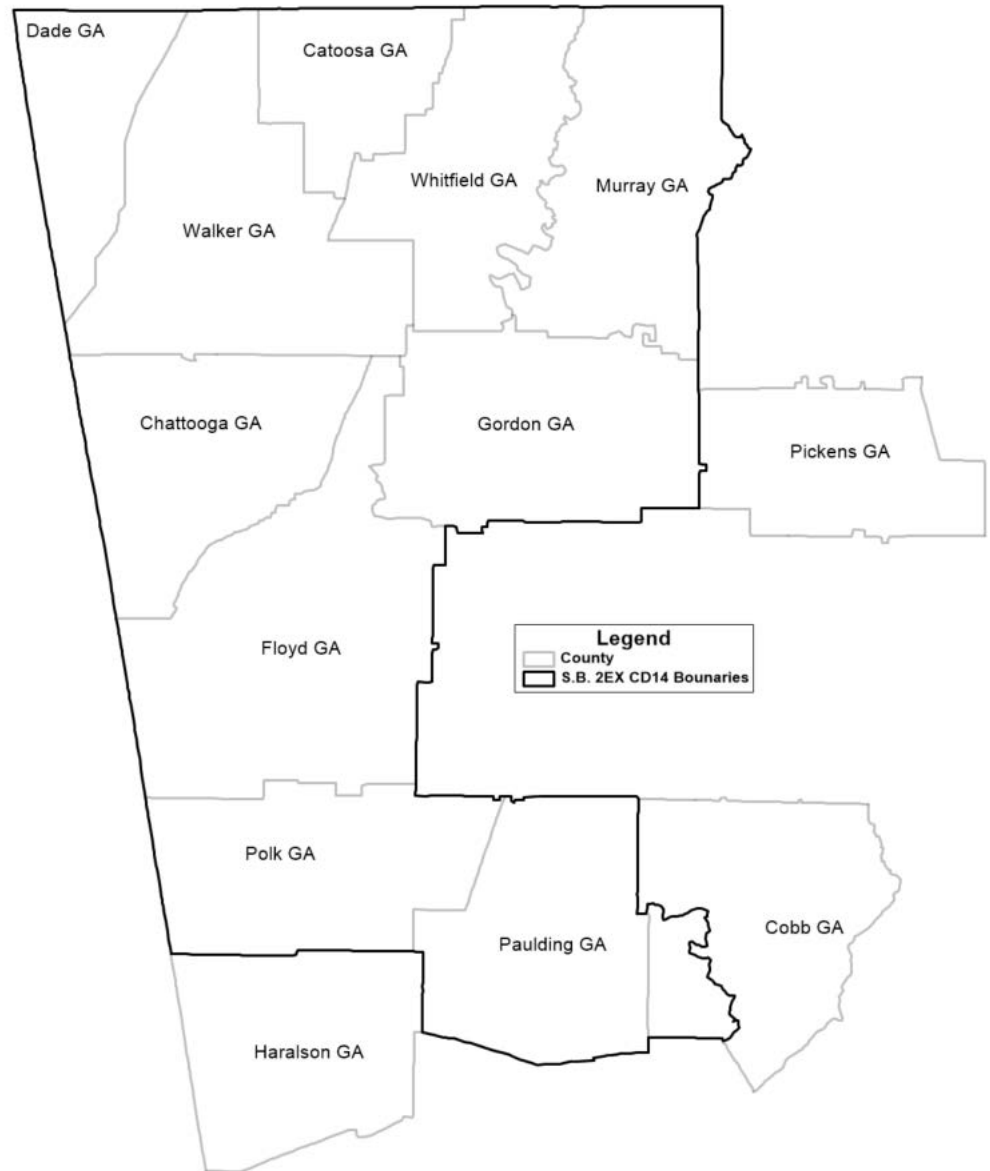

9 (Andrew Clyde) Over 10,231; Maintained the core of this district and protected the community of interest, the northeastern portion of our state, as opposed to Dem proposed map, which put this entire area, from west to east, into one district, combining two different communities. We heard from the constituents in these communities that geography (the mountain range) and infrastructure (no major east-west thoroughfares) make it impractical to travel from the west to the east. Dem map ignores these communities.

Chairman Kennedy:

Attached is a sample using the county listing sent as best possible. Numbers would need to be shifted just a little more for deviation and I had to make some adjustments to the suggestions below for population. Otherwise, I used the suggested framework here. Let me know if you have any questions.

Thanks,
Gina

District One: (1) Add Jeff Davis and Appling; (2) Remove Coffee; (3) Remove Lowndes.

District Two: (1) Add all of Muscogee and Harris; (2) add split in Upson for population.

District Three: (1) Add 3/4ths of Douglas.

District Four: Add northern DeKalb.

District Five: Add Sandy Springs and remove some of Clayton and DeKalb.

District Six: East Cobb/North Fulton/all of Forsyth.

District Seven: All of Gwinnett except for Buford, Sugar Hill, Suwannee, and Duluth.

District Eight: Add Coffee and all of Lowndes.

District Nine: Make Pickens whole; remove Clarke, Jackson, and Madison; only Gwinnett portions of Buford, Sugar Hill, Suwannee, and Duluth.

District Ten: Remove all of McDuffie and Columbia into District 12; add all of Clarke, Jackson, and Madison and a portion of Gwinnett.

District 11: Split Barstow with 14, add some of East Cobb.

District 12: Add all of Glascock, Washington, Jefferson, Johnson, McDuffie, and Columbia. Change split in Effingham for population.

District 13: Remove some of Douglas into district 3, add Clayton from district 5.

District 14: Add population from Bartow to balance out.

Georgia House District Map Introduction

Process for drawing plans

- With the Census data delayed, we used the summer to study and learn about districts.
 - That was incredibly helpful to me to learn about the districts and the state.
 - Example of one or two that was helpful
- Between June and September, I sent out **4** separate invitation emails and allocated over **88 hours** to meet with members of both political parties to learn about their districts and the areas they wanted to gain or lose.
- We held public hearings across the state and took input on our website. We drove over 1400 miles around the state and held **11 public hearings** over **15 hours**, we heard from 328 speaking participants from 162 of our 180 House Districts.
- Also invited written commentary. Our website portal received over 700 comments, and we made those available to the committee members and the public and I personally reviewed them. You have a copy of those public comments in front of you.
- 1st Committee Meeting was an education day for the committee and invited a variety of groups to speak to us about what we should know. We heard from NCSL, the Georgia Democratic Party, Fair Districts, among others.
- Our committee then adopted guidelines to govern the drawing of maps. Those guidelines focused on the constitutional requirement of equal population, compliance with the Voting Rights Act, including a recognition of racially polarized voting, and then the importance of jurisdictional boundaries, prioritizing communities of interest, compactness, and contiguity.

Constitution

- Our first responsibility is to balance population under the US Constitution.
- Applied 2020 data to the existing districts. Found that districts were over or under population by -24.39% to +32.27%.
- Districts have to be substantially the same size, and we've generally drawn to a deviation of +/- 1.5% on the draft plan.

Voting Rights Act

- After overlaying the census data, we drew the VR districts, in consultation with counsel, to ensure compliance.
- We comply with the Voting Rights Act, creating majority-minority districts and new minority opportunity districts.
- 48 districts that are majority AP Black VAP (up 1 from existing maps)
78 minority opportunity districts (majority non-white VAP) (up 5 from existing maps)
- One Latino majority VAP district (District 98)
 - Two heavily influenced Latino districts (>40%) Districts 4 and 96.

Communities of interest and county splits

We also applied the remaining Guidelines adopted, prioritizing county lines, municipalities (something we hear about a lot in public commentary), communities of interest, compactness, and contiguity.

- The 2001 House Districts drawn by Democrats split 80 counties into 147 districts for 180 members while using a deviation of +/- 5%.
- Our current districts split 73 counties.
- This plan splits only 68 counties while using a deviation of +/- 1.5%.
- In contrast, Democrat plan offered today splits 79 counties.

Incumbents

- We obtained current incumbent addresses so we could plot and overlay them onto the map. We prioritized minimizing incumbent pairings as much as possible.
- No one is happy about pairings, but our plan only pairs incumbents where population deviations required and there were no other workable solutions.
- The 2001 House district plan paired 37 of the 74 Republican incumbents but only nine of the 105 Democrats.
- Our current maps maintained most incumbents, only 5: 2 Ds, 2Rs, and one D-R.

Combined all of this input with the staff at the Reapportionment office to get to a draft map and that is what you have in front of you.

One final point I want to make:

Minority Opportunity Districts are not an ideal that is held by just one party. The Republicans have seen and embraced the growth in Georgia; in fact, our goal with our fiscal policies is to encourage that growth, and we are thrilled it is here.

As a female R from one of the fastest growing and most diverse counties in the state, one of the things I'm most proud of is the # of Minority Opportunity Districts we've drawn.

So let's look at the map. Will walk through by region --

Southwest:

Loss of pop; whole district. Protected VR districts in **HDs 153 and 154**.
Resulted in one of our inevitable pairings, a R-D.

With the collapse of that one district, we were able to maintain the cores of the remaining districts in the area.

Moving east ... Central South:

Protected **HD 177** there, which is a VR district. Were able to accommodate the request of the Democrat incumbent there to include some precincts he explained to us were a part of the district's community of interest.

Also in this area the pop loss resulted in another pairing, this time R-R (Lariccia / Burchette) in **HD 176**.

Swamp area of the state in **HD 174**, we kept together among 5 counties.
Comm of Int.

Coastal:

HD 180 has whole of Camden county – removed the split.

HD 168 is wholly contained in Liberty County – Our Dean of the House keeps his famous district #.

Savannah area:

Protected one VR district: **HD #165** and two Minority Opportunity districts, **HD #s 162 and 163**.

Southeast, but moving back west across the state:

Kept a community of interest together – **HD #156** – kept Wheeler, Montgomery, & Toombs together – strong public request and support for this at our public hearings.

Moving up a bit to Central Georgia

Maintained the core of the districts in the Macon area while protecting 3 VR districts there – **HD #s 142, 143, and 150.**

Also maintained greater than 50% black VAP in **HD # 137** by putting it into Lagrange and Troup County.

Moving west, protected 2 VR districts in Columbus area, **HD #s 140 and 141.**

Moving up a bit to South Metro:

W/ loss of pop in SW GA below it and VR districts to the north of it, this area felt a crunch – pulling the VR districts a little further south.

Northwest Ga:

Maintained district cores and avoided incumbent pairings, which is diff from Dem plan, which had at least one incumb pairing.

Moving a little east, Pickens County is whole under our current HD maps, and, based on clear requests and support from their communities, we kept it that way.

Northernmost area of state: **HD #7** – Is a perfect district and remains a perfect district.

Moving down a little to Athens/Clarke County:

A lot of growth; very large county. Pop alone requires it be split 3 ways in a vacuum – like Barrow and Jackson, other large counties in the area that also got split. Always prefer to split larger counties before smaller ones.

Moving to the east, to the GA/SC border:

Legislators from the area worked together to adjust their lines based on population and communities of interest.

Moving down the border to the Augusta area:

Protected 5 VR districts: **HD #s 128, 128, 130, and 131**. As requested by Dem incumbent, made Jefferson County whole.

Metro Atlanta:

Pop growth; densely populated; many incumbents live close together; worked hard to avoid pairings.

North Metro: Pop growth in **Bartow, Cherokee, and Forsyth** pulled the districts in these areas to the east.

Gwinnett County:

Tremendous growth; created 2-3 Minority Opportunity Districts here alone; 2 pairings, still looking into some possible solutions for those.

Again reiterate that I am proud of the diversity we enjoy in my home county, and I am proud of my colleagues, who, through these maps, also embrace and celebrate our diversity with the creation of our Minority Opportunity Districts.

Information

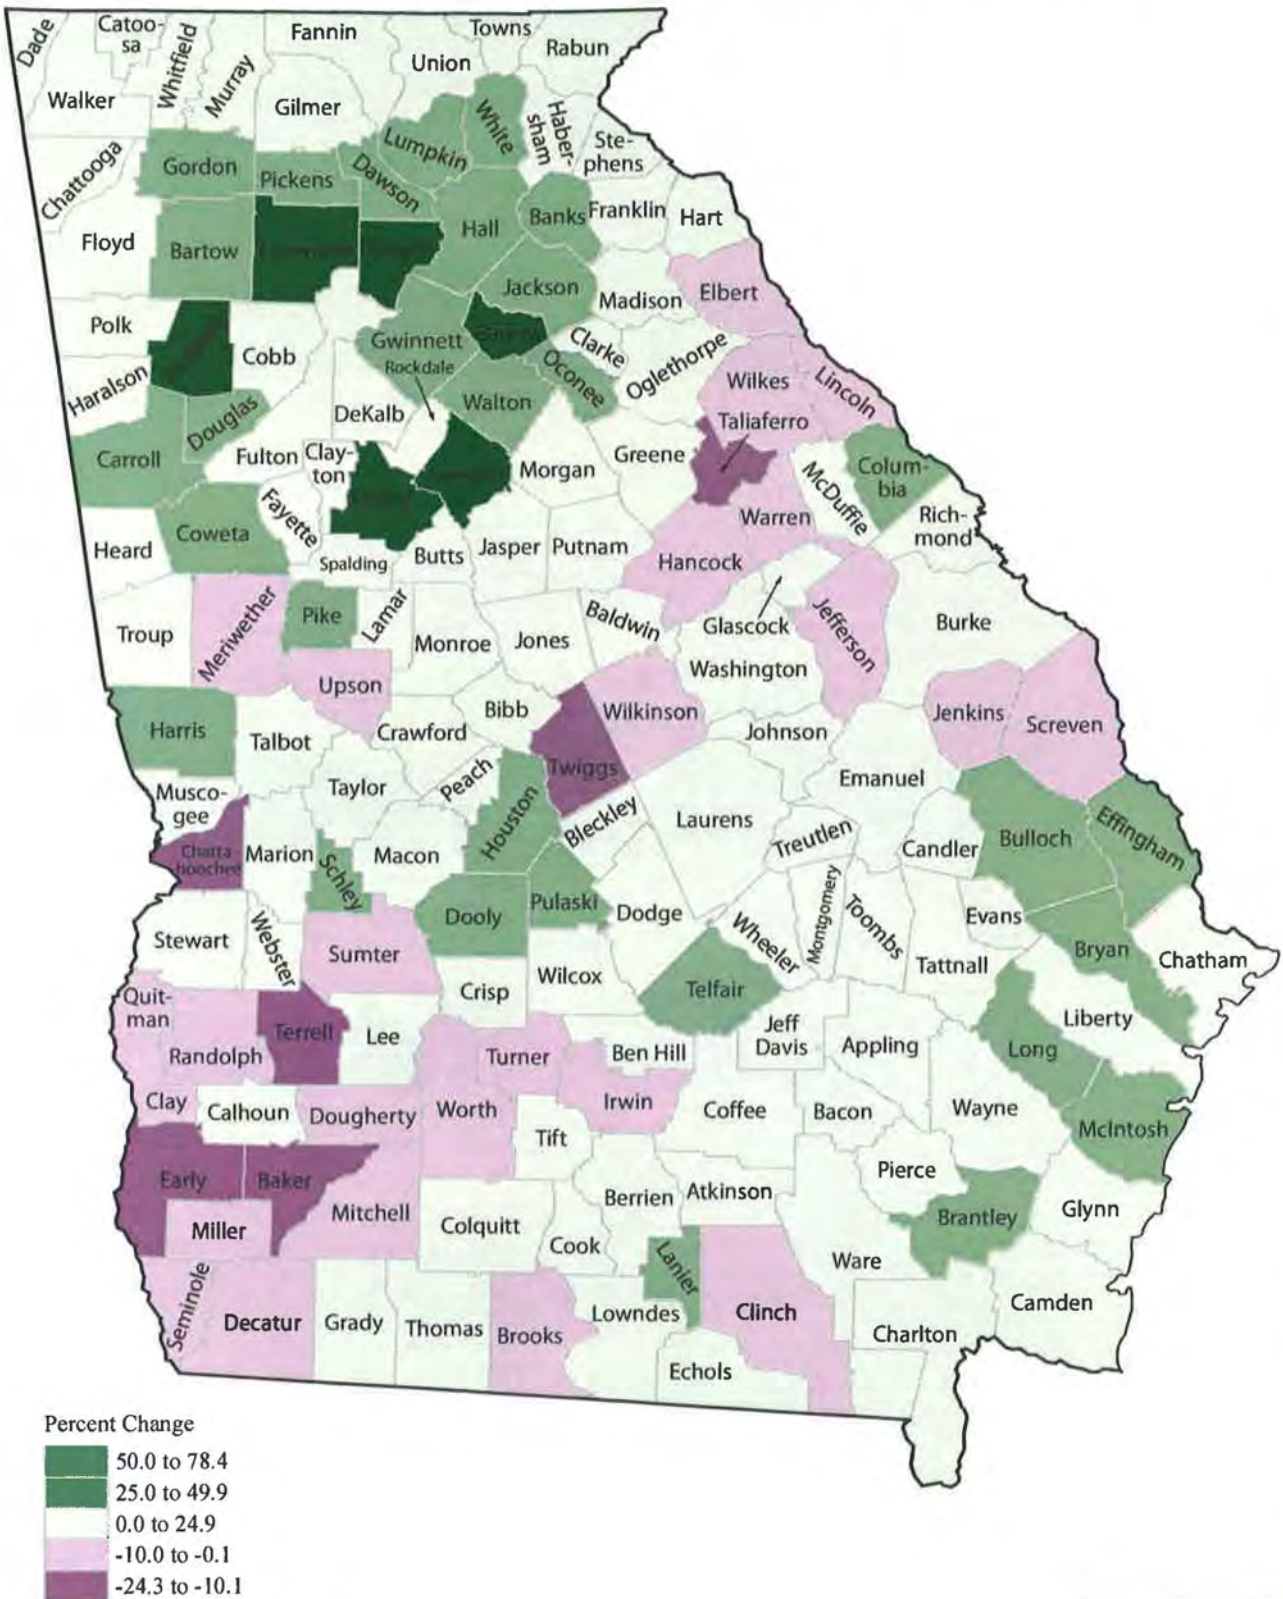

Draft House Map (Released August 12, 2011)

- Existing State House Map (map in effect for 2010 general election cycle) included 68 districts which were above the ideal size (for 2011 redistricting) of 53,820 persons/district and 112 districts which were below the ideal size, necessitating a number of changes this year to boundaries of the 180 State House districts. In the existing map, district sizes range from 37,096 persons to 91,944 persons
- Ideal House district size of 53,820 persons for this year's redistricting is 8,340 persons greater than the ideal House district size following the 2000 census (45,480 persons per district). The ideal district size is achieved by dividing the state's 2010 census population of 9,687,653 by 180 districts
- For House Proposal 1 (draft map), the overall deviation (range between the largest and smallest districts) is 1.98 percent, ranging from 0.99 percent above the ideal size of 53,820 persons per district and 0.99 percent below the ideal size. The largest district in the plan has 54,352 persons, the smallest 53,287 persons.
- Of the state's 159 counties, 87 are located each in one district (i.e., the county falls within just one House district, not split among multiple districts), while 31 counties are split into two districts and 41 counties are divided among three or more districts
- All State House districts in the 2011 proposal are single-member districts (there are no multimember districts---that is, districts with two or more members---in this proposal)

- South Georgia (from Columbus-Macon-Augusta south) must lose roughly four and a half (4.5) State House seats in this round of redistricting because its population growth lagged that of north Georgia. Most of the 31 counties in the state which lost population between 2000 and 2010 are located in South Georgia
- The draft map (House Proposal 1) includes 49 districts which are majority-black in population, ranging from 53 to 73 percent black. There also are 47 districts which are majority-black in voting-age population and 49 districts which are majority-black in voter registration

Subject: NCSL resources on census delays and redistricting

Hello Representative Rich.

Let me say again that I appreciate that you have agreed to serve as the Republican co-chair for NCSL's Redistricting and Standing Committee. Today I am writing to all the chairs of redistricting committees around the nation to be sure they know that we have resources that we hope will help them on redistricting and the census.

I'm sure you know that the Census Bureau announced recently that redistricting data will be delivered to the states until September 30, a full six months behind schedule. Since many states have their own constitutional and statutory redistricting deadlines, the delays may make it hard for some to comply with their own requirements. If you'd like to have a conversation about how these delays could impact your state, please let me know.

In the meantime, I'd like to offer you some of NCSL's many resources that may be useful throughout this process. The first of these is our [Redistricting Law 2020](#) book, commonly known as the Red Book. Our premier redistricting resource, it contains hundreds of pages on every aspect of the redistricting process, as well as multiple appendices with 50-state information. Copies of the book are free for legislators and legislative staff. If you don't already have a copy, would you like me to send you one?

We also have several online resources that may be useful to you, your colleagues and/or your staff:

- [Redistricting Starter Kit for Legislative Staff](#)—this is our best “mile wide, inch deep” resource. While it was designed for legislative staffers new to the process, it's a good primer for anyone who wants a refresher or needs a starting point for understanding the process.
- [Redistricting Criteria](#)
- [Public Input and Redistricting](#)
- [A 50-State Overview of Redistricting](#)
- [NCSL Magazine: 5 Ways to Handle Census Delays and Redistricting Deadlines](#)
- [NCSL Magazine: Searching for Silver Linings in Delayed Census Results](#)
- [NCSL Magazine: States Can Ensure Public Can Safely Weigh In on Redistricting](#)

Additionally, we have a couple of free webinars online that may have useful content for you, your fellow commissioners and/or your staff:

- [Redistricting 101](#) (Feb. 2019)
- [Redistricting Data 101](#) (April 2020)

My colleagues and I are here to help you with whatever questions you may have. All of our communications with you, as with all of our members, are confidential. Please consider us a resource you can go to as the redistricting cycle progresses, whether it be for research requests, testimony before your committee, or anything in between.

Thanks for reading, and best wishes,

Wendy Underhill

JUNE 16, 2021 BY BETSY THEROUX

House and Senate Reapportionment Committees to Hold Statewide Town Hall Hearings

ATLANTA – The House Legislative & Congressional Reapportionment Committee, chaired by State Representative Bonnie Rich (R-Suwanee), and the Senate Reapportionment and Redistricting Committee, chaired by State Senator John F. Kennedy (R-Macon), will hold a series of joint town hall hearings across the state of Georgia. Additional details regarding the public comment hearing locations will be forthcoming; the hearing schedule is as follows:

- Monday, June 28, 2021, from 5 – 7 p.m. in Atlanta;
- Tuesday, June 29, 2021, from 5 – 7 p.m. in Cumming;
- Wednesday, June 30, 2021, from 5 – 7 p.m. in Dalton;
- Tuesday, July 6, 2021, from 5 – 7 p.m. in Athens;
- ~~Wednesday, July 7, 2021, from 5 – 7 p.m. in Augusta;~~ (RESCHEDULED)
- Monday, July 26, 2021, from 5 – 7 p.m. in Brunswick;
- Tuesday, July 27, 2021, from 5 – 7 p.m. in Albany;
- Wednesday, July 28, 2021, from 5 – 7 p.m. in Columbus;
- Thursday, July 29, 2021, from 5 – 7 p.m. in Macon;
- Friday, July 30, 2021, from 5 – 7 p.m. via virtual participation only;
- Wednesday, August 11, 2021, from 5 – 7 p.m. in Augusta (Martinez);
- ~~Monday, August 30, 2021, from 5 – 7 p.m. in Augusta (Martinez);~~ (RESCHEDULED to an earlier date – Aug. 11)

During these town hall-style hearings, members of the committees will hear and receive input from residents regarding the state's redistricting process. These public hearings will be livestreamed and archived at www.legis.ga.gov.

 BONNIE RICH

HOUSE LEGISLATIVE & CONGRESSIONAL REAPPORTIONMENT COMMITTEE, STATE REPRESENTATIVE BONNIE RICH

Message

From: Rich, Bonnie [Bonnie.Rich@house.ga.gov]
Sent: 5/27/2021 6:04:01 PM
To: Kennedy, John [John.Kennedy@senate.ga.gov]
Subject: Re: Potential R&R Dates SUMMARY W MAP

Jan Jones suggested we have a public hearing in the northern suburbs. We have a lot of important R voters who feel ignored up here, so I think that's a good idea -- what do you think? We liked having it somewhere in Forsyth County -- maybe Cumming?

For the other locales, I think we landed on:

Dalton
 Atlanta
 Macon
 Columbus
 Albany
 Brunswick
 Augusta

It looks like, from the map anyway, we need to choose a place to have a hearing somewhere in the northeast Georgia Mountains (Towns, Ruben, or Habersham?). I think Athens would be an important place to have one as well.

There's a big hole in the "Heart of Altamaha" area. I think that's where we've had some population loss, though. Maybe that means it wouldn't be a good use of resources to hold a hearing there.

So that would be 9 in person hearings plus at least one virtual one.

Subject: RE: Potential R&R Dates SUMMARY W MAP

Here are the common available dates and I put the 2011 meeting locations on the Regional Commissions map (attached) so we can see where they were held and maybe that will help choose where 2021 meetings should be held. Believe Spiro suggested 8 meetings versus 2011's 12 meetings. Sounds like all other involved departments are waiting on the dates and locations chosen by the Chairs to go forward with meeting planning.

I will check back in with Holli Pitcock to see if there is a schedule set yet for Rural Council's summer travel as Chair Rich thought we should make sure not to conflict with those meetings.

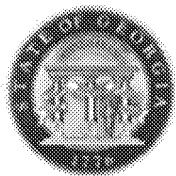

June 15 for virtual hearings

June 28, 29, 30

July 1, 6, 7, 26 (we've tentatively planned a public hearing in Brunswick for this date), 27, 28, 29, and 30

August 1, 2, 3, 4, 5, 7, 8, 10, 11, 12, 13, 14, 18, 26, 27, 30, and 31

Subject: Potential R&R Dates

Good afternoon,

I spoke with Senator Kennedy regarding his availability in the coming months for R&R meetings. The below dates are all available for him, so we wanted to send them over to you and see if there are any dates that might work for both of your calendars.

Available dates for redistricting:

June 14, 15, 24, 25, 28, 29, 30

July 1, 6, 7, 22, 23, 26, 27, 28, 29, 30

1 and 2nd week of Aug

Aug 18, 20, 26, 27, 30, 31

Thanks so much! ☺

2020 Census Timeline of Important Milestones

The count is now complete, and the U.S. Census Bureau is processing the data, making sure that everyone is counted once, only once, and in the right place. Here's a look at some of the key dates:

2019

- **January — September:** The Census Bureau opened more than 200 area census offices across the country. These offices supported and managed the census takers who worked all over the country to conduct the census.
- **August — October:** Census workers visited areas that have experienced a lot of change and growth to ensure that the Census Bureau's address list is up to date. This process is called address canvassing, and it helped in making sure everyone received an invitation to participate in the census.

2020

- **January 21:** The Census Bureau started counting the population in remote Alaska. The count officially began in the rural Alaskan village of Toksook Bay.
- **March 12:** The Census Bureau opened its phone lines and online self-response tool, allowing the public to begin submitting responses to the 2020 Census. Households began receiving official Census Bureau mail inviting them to respond to the 2020 Census online, by phone, or by mail. Additional

reminders were sent throughout the summer.

- **April 1:** Census Day was observed nationwide. By this date, most households had received an invitation to participate in the 2020 Census. Once the invitation arrived, people responded for their home in one of three ways: online, by phone, or by mail. When they responded, they told the Census Bureau where they lived as of April 1, 2020.

2020 Census Operational Adjustments Due to COVID-19

Stay up to date on operational changes made in response to the COVID-19 crisis.

[/programs-surveys/decennial-census/decade/2020/planning-management/operational-adjustments.html]

2021

- **April 26:** The Census Bureau released 2020 Census apportionment results, the first results for the 2020 Census. On the same day, the Census Bureau also released operational quality metrics comparing the census results to other population benchmarks as well as a variety of operational quality metrics.
- **May 28:** The Census Bureau released additional operational quality metrics on the 2020 Census. These metrics provide further insight into how housing units were enumerated and include information on occupied and vacant housing units and the size of occupied units.
- **August 12:** States received the data they may use to begin redistricting. The Census Bureau also shared this information with the public. However, the data is in a format that requires additional handling and software to extract familiar tables. COVID-19-related delays and prioritizing the delivery of the apportionment results delayed our

- **September 16:** The Census Bureau delivered the final redistricting data toolkit to all states and the public. This included digital tools that provide access to an integrated software browsing tool for official recipients, as well access to the online Data Explorer tool for both official recipients and the public.

2022 and Beyond

- **March 10, 2022:** The Census Bureau released the initial results from the 2020 Post-Enumeration Survey (PES) program to measure coverage error in the 2020 Census. The first release provides estimates of population coverage overall and for important demographic groups for the nation.
- **May 31, 2022:** The Census Bureau began the 2020 Post-Census Group Quarters Review (PCGQR) as a one-time operation for governmental units in the United States and Puerto Rico to request that the U.S. Census Bureau review the population counts of group quarters they believe were not correctly counted as of April 1, 2020. This operation was created in response to public feedback received on the Count Question Resolution [<https://www.census.gov/programs-surveys/decennial-census/decade/2020/planning-management/evaluate/cqr.html>] operation about counting group quarters' populations during the unprecedented challenges posed by the COVID-19 pandemic.
- The Census Bureau plans to release additional 2020 Census results. Georgia Redistricting

- 2021-2022- states can possibly receive the census data between July 31- September 30, 2020
- According to the Reapportionment office- it will likely be the end of September
- Depending when the data is received a special session will be called. As late as November
- If so, redistricting could be pushed to early 2022. There will be a tight deadline to have everything done in time for the primary. If this happens, qualifying may be changed- causing another tight deadline to get ballots ready and be able to send out UOCAVA ballots
- Consider possible litigation, preclearance could possibly come back into play. (more on preclearance later)

Georgia Redistricting

Prep work- Counties

- First report to check- Street List report- check the spelling of the streets, consistency
- Take a look at municipal list maintenance
- Review district combos, precincts, polling places.
- Review the 99999 report
- Review street segments
- Practice in <https://gvrstraining.sos.state.ga.us/ElectioNet/>
- Who will be in charge of redistricting
- Any local legislation to redraw local lines (this is usually done in the special session. There won't be time to do so in the upcoming special session and will have to be approved in the General Session 2022)
- Budget for postage for new precinct cards
- Order maps

Georgia Redistricting

What can be done outside of redistricting

- -add voting districts
- -add district combos
- -change fields to an existing street range with no voters attached
- -change entire street range with voters attached
- -assigning district combos to polling places

Georgia Redistricting

What must be done in redistricting

- -changing districts
- -changing district combos (due to redrawn lines)
- -changing or adding precinct numbers and descriptions
- -changing or adding voting area/district combos to precincts
- -reducing street ranges with voters attached
- -splitting street ranges with voters attached

Georgia Redistricting

Traditional Districting Principles/Criteria

- **Compactness:** having the minimum distance between all the parts of a constituency (circle, square, hexagon is the most compact districts)
- **Contiguity:** all parts of a district being connected at some point with the rest of the district
- **Preservation of counties and other political subdivisions:** this refers to not crossing county, city or town boundaries
- **Preservation of communities of interest:** geographical areas such as neighborhoods of a city or regions of a state, where the residents have common political interests that do not necessarily coincide with the boundaries of a political subdivision such as a city or county
- **Preservation of cores of prior districts:** this refers to maintaining districts as previously drawn to the extent possible. This leads to continuity of representation
- **Avoiding pairing incumbents:** This refers to avoiding districts that would create contests between incumbents

Georgia Redistricting

Emerging criteria- been considered and adopted in a few states since 2000

- **Prohibition on favoring or disfavoring an incumbent candidate or party:** the prohibition in a given state may be broader, covering any person or group or it may be limited to intentionally or unduly favoring a person or group
- **Prohibition on using partisan data:** line drawers, whether they be commissioners, nonpartisan staff or legislators are prohibited from using incumbent residences, election results, party
- **Competitiveness:** districts having relatively even partisan balance, making competition between the two major parties more intense

Georgia Redistricting

Timeline

The tentative plan to get the counties thinking about redistricting has started by talking about it during the regional zoom meetings and in person meetings. The next step is to remind counties about redistricting in the monthly election forums and have the counties start reviewing the reports.

- First report to be checked by the counties is the Street List Report-this list is for the counties to use to check the spelling of the streets. Are the streets consistent- using Road or Rd- whatever is used is used for all street names
- This list can be used to check for duplicated streets
- This list should be checked and updated by May 1st and to be checked again by September 1st
- The next report is the Municipal list- this report is to be checked for any changes to streets in a municipality. This should be checked anyway for muni elections. This report needs to be checked by June 1st and again prior to qualifying at the end of August

Georgia Redistricting

- The 99999 report needs to be checked monthly now until redistricting starts- this report is used to find any voters that don't have a place to go
-
- When counties look at the streets and find that a street needs to be deleted, make sure there are no voters registered on that street. Other wise the street can't be deleted.
- Another list a county can use to ensure that voters are not attached to streets is the maintain business addresses- these addresses can be created to designate specific street ranges as uses for commercial purposes. This keeps those street numbers from being used as residential addresses for people registering to vote. This report needs to be checked by June 1st

Georgia Redistricting

What is the role of our office?

- Our role is to support the counties. That means helping them with the reports, answer their questions and ensuring that each county has checked everything that needs to be checked. We are to help them navigate the redistricting portal in Enet. This will mean following up with the counties – being sure that no county lags behind the process.
- There has been a discussion of in person training on redistricting along with recorded training sessions.

Georgia Redistricting

PRECLEARANCE

Preclearance prior to 2012

- Voting Rights Act- Section 5
- Any changes to voting, elections, precincts, districts, polling places, special elections, referendums must be submitted to the Department of Justice for pre-clearance.
- There was a 60 day clock that started when the request was sent to the DOJ. The counties proceeded with the request while waiting the response from DOJ.
- County attorneys submitted the request at the local level
- Attorney General's office submitted requests for the state
- DOJ preclearance was also required for city elections

Georgia Redistricting

Possible changes in 2021 (Federal)

- H.R. 1 & S. 1 – For the People Act
- -restores the Voting Rights Act
- -if passed could create independent redistricting commissions
