Enclosed are three additional tables: The first adds two race minority plus white for 2010 Census and 2005 to 2009 ACS comparisons. The second looks at the voting strength of minorities, showing that African Americans predominate in CVAP and voter percentage. The third shows that the 2015 to 2019 ACS total population is much closer to the official 2020 total population than the Census Population Estimate that is based on administrative records.

Look forward to talking tomorrow.
