Hi guys. I have mentioned before, there is still much information that I need. Chicago and statewide elections with minority candidates. Demographic precinct information matched to election returns. Most immediately and most easily I need the party and race of every incumbent member of the state house and senate and Congress. If you could put that information on a spreadsheet with the detailed demography of each district that would save me work.

Thanks,

ajl

We are planning on a joint hearing of the House and Senate redistricting committees tentatively for 4:00 pm (CST) on Tuesday. As we discussed previously, this will be a remote hearing conducted through Zoom. Can we get together on Monday morning to discuss the hearing?
