# IN THE UNITED STATES DISTRICT COURT 

## FOR THE MIDDLE DISTRICT OF NORTH CAROLINA

NO. 1:15-CV-00399
SANDRA LITTLE COVINGTON, et al., )
Plintiffs,
Plaintiffs, )
)
v.

## )

STATE OF NORTH CAROLINA, et al.
Defendants.

## NOTICE OF FILING

PLEASE TAKE NOTICE that, pursuant to the Court's Order of July 31, 2017 (Doc. 180), the North Carolina General Assembly enacted new House and Senate districting plans as of Thursday, August 31, 2017, and hereby provide notice of such enactment and the other information requested in the Court's Order of July 31, 2017 (Doc. 180, pp. 8-9).

## I. The 2017 House Redistricting Plan

The new House districting plan was identified as House Bill 927 ("H927") during consideration by the General Assembly and is now identified as Session Law 2017-208 and titled "2017 House Redistricting Plan A2" (hereinafter the " 2017 House Redistricting Plan") after final enactment on August 31, 2017. ${ }^{1}$ The following documents requested by the Court related to this plan are attached:

[^0]- A map of the 2017 House Redistricting Plan. (Attached as Ex. 1). ${ }^{2}$
- The Block Assignment File for the 2017 House Redistricting Plan is available at: http://www.ncleg.net/Sessions/2017/h927maps/h927maps.html
- The Shapefile for the 2017 House Redistricting Plan is available at: http://www.ncleg.net/Sessions/2017/h927maps/h927maps.html
- The "stat pack" for the 2017 House Redistricting Plan. (Attached as Ex. 2).
- Additional statistical information requested by members of the General Assembly but not considered by the House Select Committee on Redistricting in drawing the 2017 House Redistricting Plan. (Attached as Ex. 3).

## II. The 2017 Senate Redistricting Plan

The new Senate districting plan was identified as Senate Bill 691 ("S691") during consideration by the General Assembly and is now identified as Session Law 2017-207 and titled "2017 Senate Floor Redistricting Plan $-4{ }^{\text {th }}$ Ed." (hereinafter the "2017 Senate Redistricting Plan") after final enactment on August 31, 2017. ${ }^{3}$ The following documents requested by the Court related to this plan are attached:

- A map of the 2017 Senate Redistricting Plan. (Attached as Ex. 4). ${ }^{4}$
http://www.ncleg.net/gascripts/BillLookUp/BillLookUp.pl?Session=2017\&BillID=H927 \&submitButton=Go
${ }^{2}$ Maps of previous editions of the adopted 2017 House Redistricting Plan may be found here: http://www.ncleg.net/Sessions/2017/h927maps/h927maps.html
${ }^{3}$ A link to the complete history of S691, including all amendments proposed, may be found at the link below :
http://www.ncleg.net/gascripts/BillLookUp/BillLookUp.pl?Session=2017\&BillID=S691 \&submitButton=Go
${ }^{4}$ Maps of previous editions of the adopted 2017 Senate Redistricting Plan may be found here: http://www.ncleg.net/Sessions/2017/s691maps/s691maps.html
- The Block Assignment File for the 2017 Senate Redistricting Plan is available at: http://www.ncleg.net/Sessions/2017/s691maps/s691maps.html
- The Shapefile for the 2017 Senate Redistricting Plan is available at: http://www.ncleg.net/Sessions/2017/s691maps/s691maps.html
- The "stat pack" for the 2017 Senate Redistricting Plan. (Attached as Ex. 5).
- Additional statistical information requested by members of the General Assembly but not considered by the Senate Redistricting Committee on Redistricting in drawing the 2017 House Redistricting Plan. (Attached as Ex. 6).

## III. Transcripts of Committee Hearings and Floor Debates

Transcripts of all committee hearings and floor debates related to the enactment of these plans are attached and identified as:

- Exhibit 7: 7/26/17 - Joint Redistricting Committee meeting
- Exhibit 8: 8/4/17 - Joint Redistricting Committee meeting
- Exhibit 9: 8/10/17 - Joint Redistricting Committee meeting
- Exhibit 10: 8/22/17 - Public Hearing - Raleigh site
- Exhibit 11: 8/22/17 - Public Hearing - Beaufort site
- Exhibit 12: 8/22/17 - Public Hearing - Charlotte site
- Exhibit 13: 8/22/17 - Public Hearing - Fayetteville site
- Exhibit 14: 8/22/17 - Public Hearing - Hudson site
- Exhibit 15: 8/22/17 - Public Hearing - Jamestown site
- Exhibit 16: 8/22/17 - Public Hearing - Weldon site
- Exhibit: 17: 8/24/17 - Senate Redistricting Committee meeting
- Exhibit: 18: 8/25/17 - House Select Committee on Redistricting meeting
- Exhibit: 19: 8/25/17 - Senate Floor Session
- Exhibit: 20: 8/28/17 - House Floor Session
- Exhibit: 21: 8/28/17 - Senate Floor Session
- Exhibit: 22: 8/29/17 - Senate Redistricting Committee meeting
- Exhibit: 23: 8/29/17 - House Select Committee on Redistricting meeting
- Exhibit: 24: 8/30/17 - Senate Floor Session
- Exhibit: 25: 8/30/17 - House Floor Session

## IV. Description of the 2017 Redistricting Process and Identification of Participants Involved

On June 27, 2017, Senate President Pro Tempore Phil Berger and House Speaker
Tim Moore approved a contract with Dr. Tom Hofeller as a mapdrawing consultant for Rep. David Lewis and Sen. Ralph Hise, the forthcoming chairs of the 2017 redistricting committees in the House and the Senate. On June 30, 2017, the Senate Redistricting Committee was appointed by Sen. Berger with the following members:

- Sen. Ralph Hise, Chairman
- Sen. Dan Bishop
- Sen. Dan Blue
- Sen. Harry Brown
- Sen. Ben Clark
- Sen. Warren Daniel
- Sen. Kathy Harrington
- Sen. Brent Jackson
- Sen. Michael V. Lee
- Sen. Paul A. Lowe, Jr.
- Sen. Paul Newton
- Sen. Bill Rabon
- Sen. Erica Smith-Ingram
- Sen. Terry Van Duyn
- Sen. Trudy Wade

On June 30, 2017, the House Select Committee on Redistricting was appointed by
Rep. Moore with the following members:

- Rep. David Lewis, Senior Chairman
- Rep. Nelson Dollar, Chairman
- Rep. John Bell, Vice Chairman
- Rep. Darren Jackson, Vice Chairman
- Rep. Sarah Stevens, Vice Chairman
- Rep. John Szoka, Vice Chairman
- Rep. Jon Torbett, Vice Chairman
- Rep. Bill Brawley
- Rep. Cecil Brockman
- Rep. Justin Burr
- Rep. Ted Davis
- Rep. Jimmy Dixon
- Rep. Josh Dobson
- Rep. Andy Dulin
- Rep. Jean Farmer-Butterfield
- Rep. Elmer Floyd
- Rep. Terry Garrison
- Rep. Rosa Gill
- Rep. Holly Grange
- Rep. Destin Hall
- Rep. Ed Hanes
- Rep. Jon Hardister
- Rep. Pricey Harrison
- Rep. Kelly Hastings
- Rep. Julia Howard
- Rep. Howard Hunter
- Rep. Pat Hurley
- Rep. Linda Johnson
- Rep. Bert Jones
- Rep. Jonathan Jordan
- Rep. Chris Malone
- Rep. Mickey Michaux
- Rep. Rodney Moore
- Rep. Garland Pierce
- Rep. Robert Reives
- Rep. David Rogers
- Rep. Jason Saine
- Rep. Michael Speciale
- Rep. Shelly Willingham
- Rep. Michael Wray
- Rep. Larry Yarborough

On July 26, 2017, the Senate Redistricting Committee and the House Select Committee on Redistricting met jointly for organizational and informational purposes. At that meeting, committee chairs made available to committee members information regarding 2010 Census population by county, the method of calculating ideal House and

Senate districts for population purposes, maps submitted by Common Cause for House and Senate plans, maps that reflected the county grouping formula that Common Cause used, and the opportunities that would be available for public comment on proposed redistricting plans to be considered by the committee. No votes were taken at the meeting.

On August 4, 2017, the Senate Redistricting Committee and the House Select Committee on Redistricting met jointly to discuss potential criteria to be used by the committees in drawing new House and Senate districts. The meeting included a period of public comment. Sen. Smith-Ingram proposed a list of criteria for the committees to consider. Additionally, information regarding ideal county groupings for House and Senate maps were made available to committee members as well as comparisons of the groupings used in 2011 with those proposed in 2017 for both House and Senate plans. Finally, the committees approved a policy for sharing and posting information on the General Assembly website as well as policies for access to General Assembly staff and computer terminals for the purpose of drawing districts.

On August 10, 2017, the Senate Redistricting Committee and the House Select Committee on Redistricting met jointly to adopt criteria to be used when drawing legislative districts in their respective maps. The committees separately adopted an identical set of nine criteria that would be used to draw new districts in the 2017 House and Senate Redistricting plans. Rep. Jackson, Sen. Blue, and Sen. Clark suggested criteria to be considered by the committee.

On August 11, 2017, Rep. Lewis and Sen. Hise notified Dr. Hofeller of the criteria adopted by the redistricting committees and directed him to utilize those criteria when drawing districts in the 2017 plans.

On August 19, 2017, the proposed 2017 House Redistricting map was released on the General Assembly website. On August 20, 2017, the proposed 2017 Senate Redistricting map was released on the General Assembly website. On August 21, 2017, a series of statistical information and reports were released for the proposed House and Senate Redistricting plans.

On August 22, 2017, public hearings were held in Raleigh, Beaufort, Charlotte, Fayetteville, Hudson, Jamestown, and Weldon to discuss the proposed 2017 House and Senate Redistricting plans.

On August 24, 2017, the Senate Redistricting Committee met and approved the proposed 2017 Senate Redistricting plan. Two amendments were adopted by the committee, one offered by Sen. Clark and one offered by Sen. Blue.

On August 25, 2017, the House Select Committee on Redistricting met and approved the proposed 2017 House Redistricting plan. Four amendments were offered, two by Rep. Jackson, one by Rep. Speciale, and one Rep. Hunter. One of the two amendments from Rep. Jackson, which renumbered districts 25 and 7, was accepted. The other three amendments were defeated by a vote of the committee.

On August 25, 2017, the Senate met to consider S691, the 2017 Senate Redistricting Plan. One amendment offered by Sen. Blue was adopted by the Senate. Additional amendments offered by Sen. Jeff Jackson and Sen. Blue were defeated on the
floor. Sen. Gladys Robinson offered an amendment on the floor but it was withdrawn before a vote was taken. S691 passed second reading. Third reading was objected to by Sen. Hise and the bill was held over to the next legislative day.

On August 28, 2017, the House met to consider H927, the 2017 House Redistricting Plan. An amendment offered by Rep. Larry Pittman was defeated on the floor. An amendment offered by Rep. Lewis passed related to the House districts within Wake County. The bill passed second and third reading and was sent to the Senate.

On August 28, 2017, the Senate met to consider S691 on third reading. Amendments offered by Sen. Clark and Sen. Robinson were defeated on the floor. An amendment offered by Sen. Hise to trade the numbers of Senate District 29 and Senate District 32 passed. During debate on third reading, Sen. McKissick asked for additional statistical reports including racial demographics to be added to the General Assembly website. The bill passed third reading in the Senate and was sent to the House.

On August 29, 2017, Representative Lewis asked for additional statistical information for the House plan, which members of the Democratic Party had apparently already requested and received. The information was posted on the House Select Committee on Redistricting's website. That morning the Senate Redistricting Committee met to consider H927. The committee approved the 2017 House Redistricting Plan.

On August 29, 2017, the House Select Committee on Redistricting met to consider S691. The committee approved the 2017 Senate Redistricting Plan.

On August 30, 2017, the Senate met to consider H927. No amendments were offered to the bill. The bill passed second and third readings and was ordered enrolled.

On August 30, 2017, the House met to consider S691. No amendments were offered to the bill. The bill passed second and third readings and was ordered enrolled.

On August 31, 2017, H927 was ratified in the House and became law. The same day, S691 was ratified in the Senate and became law.

## V. Alternative Districting Plans Considered

Information regarding alternative districts or districting plans considered by the House Select Committee on Redistricting or on the floor of the House are attached:

- Rep. Jackson Proposed Map and Reports Considered by House Select Committee on Redistricting (Failed) (Attached as Ex. 28). ${ }^{5}$
- Rep. Speciale Proposed Map and Reports Considered by House Select Committee on Redistricting (Failed) (Attached as Ex. 38).
- Rep. Hunter Proposed Map and Reports Considered by House Select Committee on Redistricting (Failed) (Attached as Ex. 39).
- Amendment 1: Representative Pittman Proposed Map and Reports (Failed) (Attached as Ex. 26).
- Amendment 2: Representative Lewis Proposed Map and Reports (Passed) (Attached as Ex. 27).

Information regarding alternative districts or districting plans considered by the Senate Redistricting Committee or on the floor of the Senate are attached:

- Sen. Clark Proposed Map and Reports Considered by Senate Redistricting Committee (Passed) (Attached as Ex. 29)
- Sen. Blue Proposed Map and Reports Considered by Senate Redistricting Committee (Passed) (Attached as Ex. 30)

[^1]- Amendment 2: Sen. Blue Proposed Map and Reports Considered on Senate Floor (Passed) (Attached as Ex. 31).
- Amendment 3: Sen. Robinson Proposed Map and Reports Considered on Senate Floor (Withdrawn) (Attached as Ex. 32).
- Amendment 4: Sen. Jeff Jackson Proposed Map and Reports Considered on Senate Floor (Failed) (Attached as Ex. 33).
- Amendment 5: Sen. Blue Proposed Map and Reports Considered on Senate Floor (Failed) (Attached as Ex. 34). ${ }^{6}$
- Amendment 8: Sen. Robinson Proposed Map and Reports Considered on Senate Floor (Failed) (Attached as Ex. 35).
- Amendment 9: Sen. Clark Proposed Map and Reports Considered on Senate Floor (Failed) (Attached as Ex. 36).

## VI. Criteria Applied in Drawing the 2017 House and Senate Districts

The set of nine criteria for drawing the new districts in the 2017 House and Senate Redistricting plans adopted by both the Senate Redistricting Committee and the House Select Committee on Redistricting on August 10, 2017 are attached as Exhibit 37. Data regarding race was not used in the drawing of districts for the 2017 House and Senate redistricting plans. No information regarding legally sufficient racially polarized voting was provided to the redistricting committees to justify the use of race in drawing districts. To the extent that any district in the 2017 House and Senate redistricting plans exceed

[^2]$50 \%$ BVAP, such a result was naturally occurring and the General Assembly did not conclude that the Voting Rights Act obligated it to draw any such district.

This the 7th day of September, 2017.

# 2020 Census Redistricting Data 

 Format[/newsroom/press-releases/2021/2020-census-redistricting-data-easier-to-useformat.html]
[/newsroom/press-releases/2021/2020-census-redistricting-data-easier-to-useformat.html]

FOR IMMEDIATE RELEASE: FRIDAY, FEBRUARY 12, 2021

## Census Bureau Statement on Redistricting Data Timeline

## FEBRUARY 12, 2021

RELEASE NUMBER CB21-CN. 14
FEB. 12, 2021 - The U.S. Census Bureau announced today that it will deliver the Public Law 94-171 redistrictiņ data to all states by Sept. 30, 2021. COVID-19-related delays and prioritizing the delivery of the apportionmen results delayed the Census Bureau's original plan to deliver the redistricting data to the states by March 31, 20 Different from previous censuses, the Census Bureau will deliver the data for all states at once, instead of on : flow basis. This change has been made because of COVID-19-related shifts in data collection and in the data processing schedule and it enables the Census Bureau to deliver complete and accurate redistricting data in a more timely fashion overall for the states.
The redistricting data includes counts of population by race, ethnicity (Hispanic or Latino origin), voting age, housing occupancy status, and group quarters population, all at the census block level. This is the informatior that states need to redraw or "redistrict" their legislative boundaries.

In preparation for the delivery of redistricting data products, the Census Bureau has been in close coordinatic with each states' official nonpartisan liaisons to understand the impacts of the delayed delivery on individual states. Since 2019, states have had access to prototype geographic support products and data tabulations fror the 2018 Census Test to help them begin to design their redistricting systems. This is one tool states can use $t$ help minimize the impact of schedule delays. In addition, the Census Bureau today completed the release of a states' 2020 Census geographic products needed for redistricting. This will enable states to redistrict prompt] upon receipt of their 2020 Census tabulation data.

# 2020 Census Redistricting Data 

 Easior-to-Use Format[/newsroom/press-releases/2021/2020-census-redistricting-data-easier-to-useformat.html]

FOR IMMEDIATE RELEASE: MONDAY, MARCH 15, 2021

## U.S. Census Bureau Statement on Release of Legacy Format Summary Redistricting Data File

MARCH 15, 2021

RELEASE NUMBER CB21-RTQ. 09
MARCH 15, 2021 - In declarations recently filed in the case of Ohio v. Raimondo, the U.S. Census Bureau madt clear that we can provide a legacy format summary redistricting data file to all states by mid-to-late August 2021. Because we recognize that most states lack the capacity or resources to tabulate the data from these summary files on their own, we reaffirm our commitment to providing all states tabulated data in our userfriendly system by Sept. 30, 2021.

On Feb. 12, 2021, the Census Bureau announced that it will deliver the Public Law 94.171 redistricting data to al states by Sept. 30, 2021. Processing of 2020 Census data is proceeding as expected, and we expect to meet ou previously announced deadline for the redistricting data release.

In recognition of the difficulties this timeline creates for states with redistricting and election deadlines prior Sept. 30, we have reviewed our timeline to identify any opportunities to shorten the processing schedule. Our review confirms that all steps of data processing and formatting will be complete by Sept. 30. However, the fir steps in our process include creating "tabulations" (data tables) from the data we have collected for each state and creating a user-friendly system for data access. We have determined that states should be given the opportunity to use an outside vendor to process legacy format summary redistricting data files if states do nc
have the capacity to tabulate the data on their own. The declarations filed March 12 note that given the diffict of using the data in this format, any state using legacy format summary redistricting data files would have to accept responsibility for how they process these files; whether correctly or incorrectly.

# 2020 Census Redistricting Data 

 Easior-to-Use Format[/newsroom/press-releases/2021/2020-census-redistricting-data-easier-to-useformat.html]
[/newsroom/press-releases/2021/2020-census-redistricting-data-easier-to-useformat.html]

FOR IMMEDIATE RELEASE: MONDAY, APRIL 26, 2021

## 2020 Census Apportionment Results Delivered to the President

APRIL 26, 2021
RELEASE NUMBER CB21-CN. 30
APRIL 26, 2021 - The U.S. Census Bureau announced today that the 2020 Census shows the resident populatic of the United States on April 1, 2020, was 331,449,281.

The U.S. resident population represents the total number of people living in the 50 states and the District of Columbia. The resident population increased by 22,703,743 or $7.4 \%$ from 308,745,538 in 2010.
"The American public deserves a big thank you for its overwhelming response to the 2020 Census," Secretary Commerce Gina Raimondo said. "Despite many challenges, our nation completed a census for the 24 th time. 7 act is fundamental to our democracy and a declaration of our growth and resilience. I also want to thank the team at the U.S. Census Bureau, who overcame unprecedented challenges to collect and produce high-quality data that will inform decision-making for years to come."
"We are proud to release these first results from the 2020 Census today. These results reflect the tireless commitment from the entire Census Bureau team to produce the highest-quality statistics that will continue shape the future of our country," acting Census Bureau Director Ron Jarmin said. "And in a first for the Census Bureau, we are releasing data quality metrics [https://www.census.gov/newsroom/press-kits/2021/2020-census-quality-and-data-processing.html] on the same day we're making the resident population counts available to the public. We are confident that today's 2020 Census results meet our high data quality standard

The new resident population statistics for the United States, each of the 50 states, the District of Columbia ar Puerto Rico are available on census.gov [https://www.census.gov/data/tables/2020/dec/2020-apportionmt data.html].

- The most populous state was California $(39,538,223)$; the least populous was Wyoming $(576,851)$.
- The state that gained the most numerically since the 2010 Census was Texas (up $3,999,944$ to 29,145,505).
- The fastest-growing state since the 2010 Census was Utah (up $18.4 \%$ to $3,271,616$ ).
- Puerto Rico's resident population was 3,285,874, down $11.8 \%$ from 3,725,789 in the 2010 Census.

In addition to these newly released statistics, today Secretary Raimondo delivered to President Biden the population counts [https://www.census.gov/data/tables/2020/dec/2020-apportionment-data.html] to be $t$ for apportioning the seats in the U.S. House of Representatives. In accordance with Title 2 of the U.S. Code, a congressionally defined formula is applied to the apportionment population to distribute the 435 seats in the House of Representatives among the states.

The apportionment population consists of the resident population of the 50 states, plus the overseas military federal civilian employees and their dependents living with them overseas who could be allocated to a home state. The populations of the District of Columbia and Puerto Rico are excluded from the apportionment population because they do not have voting seats in Congress. The counts of overseas federal employees (and their dependents) are used for apportionment purposes only.

- After the 1790 Census, each member of the House represented about 34,000 residents. Since then, the House has more than quadrup in size (from 105 to 435 seats), and each member will represent an average of 761,169 people based on the 2020 Census.
- Texas will gain two seats in the House of Representatives, five states will gain one seat each (Colorado, Florida, Montana, North Caroli and Oregon), seven states will lose one seat each (California, Illinois, Michigan, New York, Ohio, Pennsylvania, and West Virginia), and remaining states' number of seats will not change based on the 2020 Census.

Upon receipt of the apportionment counts, the president will transmit them to the 117th Congress. The reapportioned Congress will be the 118th, which convenes in January 2023.
"Our work doesn't stop here," added acting Director Jarmin. "Now that the apportionment counts are delivere we will begin the additional activities needed to create and deliver the redistricting data that were previously delayed due to COVID-19."

Redistricting data include the local area counts states need to redraw or "redistrict" legislative boundaries. Dt to modifications to processing activities, COVID-19 data collections delays, and the Census Bureau's obligation provide high-quality data, states are expected to receive redistricting data by August 16 [https://www.census.gov/newsroom/press-releases/2021/statement-legacy-format-redistricting.html] , an the full redistricting data with toolkits for ease of use will be delivered by September 30. The Census Bureau v notify the public prior to releasing the data.

FOR IMMEDIATE RELEASE: THURSDAY, AUGUST 12, 2021

## 2020 Census Statistics Highlight Local Population Changes and Nation's Racial and Ethnic Diversity

AUGUST 12, 2021
RELEASE NUMBER CB21-CN. 55

## U.S. Census Bureau Delivers Data for States to Begin Redistricting Efforts

AUG. 12, 2021 - The U.S. Census Bureau today released additional 2020 Census results [https://www.census.gov/programs-surveys/decennial-census/decade/2020/2020-census-results.html] showing an increase in the population of U.S. metro areas compared to a decade ago. In addition, these oncedecade results showed the nation's diversity in how people identify their race and ethnicity.
"We are excited to reach this milestone of delivering the first detailed statistics from the 2020 Census," said acting Census Bureau Director Ron Jarmin. "We appreciate the public's patience as Census Bureau staff work diligently to process these data and ensure it meets our quality standards."

These statistics, which come from the 2020 Census Redistricting Data (Public Law 94-171) Summary File [https://www.census.gov/programs-surveys/decennial-census/about/rdo/summary-files.html] , provide th first look at populations for small areas and include information on Hispanic origin, race, age 18 and over, hou occupancy and group quarters. They represent where people were living as of April 1, 2020, and are available 1 the nation, states and communities down to the block level.

- Ex. 3038 -

The Census Bureau also released data visualizations [https://www.census.gov/library/visualizations.html], America Counts stories [https://www.census.gov/programs-surveys/decennial-census/decade/2020/2020 stories.html] , and videos [https://www.census.gov/data/academy/topics/2020-census.html] to help illustra and explain these data. These resources are available on the 2020 Census results page
[https://www.census.gov/programs-surveys/decennial-census/decade/2020/2020-census-results.html] . Advanced users can access these data on the FTP site [https://www2.census.gov/programs-surveys/decennial/2020/data/01-Redistricting_File--PL_94-171/].

## Population Changes Across the Country Since the 2010 Census

Today's release reveals changes in the size and distribution of the population across the United States. The population of U.S. metro areas grew by $9 \%$ from 2010 to 2020 , resulting in $86 \%$ of the population living in U.S. metro areas in 2020, compared to $85 \%$ in 2010.
"Many counties within metro areas saw growth, especially those in the south and west. However, as we've bee seeing in our annual population estimates, our nation is growing slower than it used to," said Marc Perry, a sei demographer at the Census Bureau. "This decline is evident at the local level where around $52 \%$ of the counti, in the United States saw their 2020 Census populations decrease from their 2010 Census populations."

County and metro area highlights:

- The largest county in the United States in 2020 remains Los Angeles County with over 10 million people.
- The largest city (incorporated place) in the United States in 2020 remains New York with 8.8 million people.
- 312 of the 384 U.S. metro areas gained population between 2010 and 2020.
- The fastest-growing U.S. metro area between the 2010 Census and 2020 Census was The Villages, FL, which grew $39 \%$ from about 93 . people to about 130,000 people.
- 72 U.S. metro areas lost population from the 2010 Census to the 2020 Census. The U.S. metro areas with the largest percentage declir were Pine Bluff, AR, and Danville, IL, at -12.5 percent and -9.1 percent, respectively.

A data visualization released today shows the population change at the county level from the 2010 Census to $t$ 2020 Census [https://www.census.gov/library/visualizations/interactive/2020-population-and-housing-st $\epsilon$ data.html] . Read more about population change in the America Counts story, More Than Half of U.S. Counties Were Smaller in 2020 Than in 2010 [https://www.census.gov/library/stories/2021/08/more-than-half-of-united-states-counties-were-smaller-in-2020-than-in-2010.html].

## 2020 Census Findings on Race and Ethnicity

The 2020 Census used the required two separate questions (one for Hispanic or Latino origin
[https://www.census.gov/programs-surveys/decennial-census/technical-
documentation/questionnaires/2020/response-guidance.html] and one for race
[https://www.census.gov/topics/population/race/about.html] ) to collect the races and ethnicities of the U. population - following the standards [https://www.govinfo.gov/content/pkg/FR-1997-10-30/pdf/97-
28653.pdf] set by the U.S. Office of Management and Budget (OMB) in 1997. Building upon our research over $t \mathrm{l}$ past decade [https://www.census.gov/about/our-research/race-ethnicity.html] , we improved the two sepa: questions design and updated our data processing and coding procedures for the 2020 Census. This work beq in 2015 with research and testing centered on findings from the 2015 National Content Test
[https://www.census.gov/newsroom/press-kits/2017/nct.html] and the designs were implemented in the 2 Census Test [https://www.census.gov/newsroom/press-kits/2018/2018-census-test.html] .

The improvements and changes [https://www.census.gov/newsroom/blogs/random-
samplings/2021/08/improvements-to-2020-census-race-hispanic-origin-question-designs.html] enabled a more thorough and accurate depiction of how people self-identify, yielding a more accurate portrait of how
people report their Hispanic origin and race within the context of a two-question format. These changes reve that the U.S. population is much more multiracial and more diverse than what we measured in the past.

We are confident that differences in the overall racial distributions are largely due to improvements in the de: of the two separate questions for race data collection and processing, as well as some demographic changes c the past 10 years.

Today's release of 2020 Census redistricting data provides a new snapshot of the racial and ethnic compositio the country as a result of improvements in the design of the race and ethnicity questions, processing and cod
"As the country has grown, we have continued to evolve in how we measure the race and ethnicity [https://www.census.gov/library/visualizations/interactive/decennial-census-measurement-of-race-and-ethnicity-across-the-decades-1790-2020.html] of the people who live here," said Nicholas Jones, director and senior advisor for race and ethnicity research and outreach at the Census Bureau. "Today's release of 2020 Census redistricting data provides a new snapshot of the racial and ethnic composition and diversity of the country. The improvements we made to the 2020 Census yield a more accurate portrait of how people selfidentify in response to two separate questions on Hispanic origin and race, revealing that the U.S. population much more multiracial and more diverse than what we measured in the past."

## Race and ethnicity highlights:

- The White population remained the largest race or ethnicity group in the United States, with 204.3 million people identifying as Whit alone. Overall, 235.4 million people reported White alone or in combination with another group. However, the White alone populatior decreased by $8.6 \%$ since 2010.
- The Two or More Races population (also referred to as the Multiracial population) has changed considerably since 2010. The Multiraci population was measured at 9 million people in 2010 and is now 33.8 million people in 2020, a $276 \%$ increase.
- The "in combination" multiracial populations for all race groups accounted for most of the overall changes in each racial category.
- All of the race alone or in combination groups experienced increases. The Some Other Race alone or in combination group (49.9 milli, increased $129 \%$, surpassing the Black or African American population ( 46.9 million) as the second-largest race alone or in combinatior group.
- The next largest racial populations were the Asian alone or in combination group ( 24 million), the American Indian and Alaska Native : or in combination group ( 9.7 million), and the Native Hawaiian and Other Pacific Islander alone or in combination group ( 1.6 million).
- The Hispanic or Latino population, which includes people of any race, was 62.1 million in 2020. The Hispanic or Latino population gre $23 \%$, while the population that was not of Hispanic or Latino origin grew $4.3 \%$ since 2010.

It is important to note that these data comparisons between the 2020 Census and 2010 Census race data shot be made with caution, taking into account the improvements we have made to the Hispanic origin and race questions and the ways we code what people tell us.
Accordingly, data from the 2020 Census show different but reasonable and expected distributions from the $2($ Census for the White alone population, the Some Other Race alone or in combination population, and the Multiracial population, especially for people who self-identify as both White and Some Other Race.
These results are not surprising as they align with Census Bureau expert research and corresponding finding: [https://www.census.gov/about/our-research/race-ethnicity.html] this past decade, particularly with the results on the impacts of questions format on race and ethnicity reporting from the 2015 National Content Te

The Census Bureau uses several measures to analyze the racial and ethnic diversity
[https://www.census.gov/newsroom/blogs/random-samplings/2021/08/measuring-racial-ethnic-diversity 2020-census.html] of the country.

The Census Bureau uses the Diversity Index (DI) to measure the probability that two people chosen at randon will be from different racial and ethnic groups.
The DI is bounded between 0 and 1 . A value of 0 indicates that everyone in the population has the same racial ethnic characteristics. A value close to 1 indicates that almost everyone in the population has different racial $\varepsilon$ ethnic characteristics.

We have converted the probabilities into percentages to make them easier to interpret. In this format, the DI us the chance that two people chosen at random will be from different racial and ethnic groups.
Using the same DI calculation for 2020 and 2010 redistricting data, the chance that two people chosen at ranc will be from different racial or ethnic groups has increased to $61.1 \%$ in 2020 from 54.9\% in 2010.

In general, the states with the highest DI scores are found in the West (Hawaii, California and Nevada), the Sor (Maryland and Texas; along with the District of Columbia, a state equivalent), and the Northeast (New York an New Jersey).
Hawaii had the highest DI score in 2020 at $76 \%$, which was slightly higher than 2010 ( $75.1 \%$ ).
Information on the racial and ethnic composition
[https://www.census.gov/library/visualizations/interactive/race-and-ethnicity-in-the-united-state-2010-a 2020-census.html] of your state and county, and various measures of diversity
[https://www.census.gov/library/visualizations/interactive/racial-and-ethnic-diversity-in-the-united-stat 2010-and-2020-census.html] are available in the following America Counts stories: 2020 U.S. Population Mort Racially and Ethnically Diverse Than Measured in 2010
[https://www.census.gov/library/stories/2021/08/2020-united-states-population-more-racially-ethnically diverse-than-2010.html] and Improved Race and Ethnicity Measures Reveal U.S. Population Is Much More Multiracial [https://www.census.gov/library/stories/2021/08/improved-race-ethnicity-measures-reveal-united-states-population-much-more-multiracial.html].

## The Adult and Under-Age-18 Populations

The 2020 Census showed that the adult (age 18 and older) population group grew $10.1 \%$ to 258.3 million peopls over the decade.
"More than three-quarters, $77.9 \%$, of the U.S. population were age 18 and over," said Andrew Roberts, chief of 1 Sex and Age Statistics Branch in the Census Bureau's Population Division. "The adult population grew faster tl the nation as a whole. By comparison, the population under age 18 was 73.1 million in 2020, a decline of $1.4 \% \mathrm{fr}$ the 2010 Census."

Changes to the adult and under-age-18 populations:

- The District of Columbia had the largest population age 18 and over as a percentage of population at $83.4 \%$. Utah had the largest population under age 18 as a percentage of population at $29.0 \%$.
- Utah also had the fastest-growing adult population at $22.8 \%$ growth.
- North Dakota had the fastest-growing population under age 18 at $22.1 \%$ growth.

Additional age breakdowns will be available in future 2020 Census data releases scheduled for 2022.
As part of today's release, the Census Bureau provided a new data visualization that highlights the adult and under-age-18 populations [https://www.census.gov/library/visualizations/interactive/adult-and-under-the age-of-18-populations-2020-census.html] across the United States down to the county level. More informatic is available in the America Counts story, U.S. Adult Population Grew Faster Than Nation's Total Population Fro 2010 to 2020 [https://www.census.gov/library/stories/2021/08/united-states-adult-population-grew-faste than-nations-total-population-from-2010-to-2020.html] .

## 2020 Census Housing Units

The 2020 Census showed that on April 1, 2020, there were 140,498,736 housing units in the United States, up $\epsilon$ from the 2010 Census.

- Ex. 3041 -
"While the national number of housing units grew over the past decade, this was not uniform throughout the country," said Evan Brassell, chief of the Housing Statistics Branch in the Census Bureau's Social, Economic an Housing Statistics Division. "Counties that composed some part of a metropolitan or micropolitan area saw increases of $3.8 \%$, on average, while counties outside of these areas showed decreases of $3.9 \%$ on average."

State highlights:

- Texas had the largest numeric growth in housing units with $1,611,888$.
- The county with the largest percent increase in housing was McKenzie County, North Dakota, with a $147.9 \%$ increase.
- West Virginia and Puerto Rico were the only two states or state equivalents that lost housing units.
- There were $126,817,580$ occupied housing units and $13,681,156$ vacant units in the United States.

Housing unit statistics for the nation, states and counties are available in the 2020 Population and Housing da visualization [https://www.census.gov/library/visualizations/interactive/2020-population-and-housing-sta data.html] . More information is available in the following America Counts stories: Growth in Housing Units Slowed in the Last Decade [https://www.census.gov/library/stories/2021/08/growth-in-housing-units-slowed-in-last-decade.html] and U.S. Housing Vacancy Rate Declined in Past Decade [https://www.census.gov/library/stories/2021/08/united-states-housing-vacancy-rate-declined-in-pastdecade.html].

## 2020 Census Findings on Group Quarters

The U.S. population for group quarters was $8,239,016$ as of April 1, 2020. This was an increase of $3.2 \%$ over the 2010 Census group quarters population. Group quarters include such places as college residence halls, residential treatment centers, skilled-nursing facilities, group homes, military barracks, correctional facilities and workers' dormitories.
"In 2020, the group quarters population represented $2.5 \%$ of the total U.S. population, down from $2.6 \%$ in 2011 said Steven Wilson, chief of the Population and Housing Programs Branch in the Census Bureau's Population Division. "We also saw that college and university student housing was the most populous group living arrangement at 2,792,097, up $10.7 \%$ since 2010."
Group quarters highlights:

- The second-largest group quarters population was correctional facilities for adults at $1,967,297$, which decreased from the 2010 Cens 296,305 (13.1\%).
- The state with the largest group quarters population was California at 917,932 , with the largest share of that population counted at ot noninstitutional group quarters.
- The group quarters population in Puerto Rico decreased $1.2 \%$ since 2010 to 37,509.

Read more about these results in the America Counts story, 8.2 Million People Counted at U.S. Group Quarter the 2020 Census [https://www.census.gov/library/stories/2021/08/united-states-group-quarters-in-2020census.html]. You can also access more statistics in the 2020 Census Demographic Data Map Application [https://census.gov/library/visualizations/2021/geo/demographicmapviewer.html].

## Quality of Results

All indications show the census results are in line with expectations.
"We are confident in the quality of today's results," said acting Census Bureau Director Ron Jarmin.
In keeping with our commitment to transparency, the Census Bureau will release additional operational quali 1 metrics [https://www.census.gov/newsroom/press-releases/2021/timeline-2020-census-operational-quali metrics.html] on August 18 and August 25, providing more detail on the conduct of specific operations.

## - Ex. 3042 -

## Producing Quality Data While Protecting Anonymity

The redistricting data are the first from the 2020 Census to use differential privacy, a mathematical method tr applies carefully calibrated statistical noise to a dataset and allows a balance between privacy and accuracy. n information is available in 2020 Census Data Products: Disclosure Avoidance Modernization
[https://www.census.gov/programs-surveys/decennial-census/decade/2020/planning-management/process/disclosure-avoidance.html] and Redistricting Data: What to Expect and When [https://www.census.gov/newsroom/blogs/director/2021/07/redistricting-data.html].

In addition to the redistricting data released today, the Census Bureau has released a set of demonstration da [https://www2.census.gov/programs-surveys/decennial/2020/program-management/data-product-planning/2010-demonstration-data-products/ppmf20210608/] that illustrate the impact of the differential privacy production settings on published 2010 Census redistricting data. The Census Bureau released similar demonstration datasets over the course of the new method's development.

## Legacy Data vs. Final Delivery of P.L. 94-171 Redistricting Data

These data released today are in the same format that the 2000 and 2010 redistricting data were provided. Th term "legacy" refers to its prior use. By September 30, we will release these same data to state officials with an easy-to-use toolkit of DVDs and flash drives and we will make it available to the public on data.census.gov. The Census Bureau will notify the public in September when it makes these same data available.

## Accessing These Data

Data are available in the 2020 Census Demographic Data Map Application
[https://census.gov/library/visualizations/2021/geo/demographicmapviewer.html] through different data visualizations [https://www.census.gov/library/visualizations.html] and QuickFacts
[https://www.census.gov/quickfacts] . Data files are also available on the Decennial Census P.L. 94-171
Redistricting Data Summary Files [https://www.census.gov/programs-surveys/decennial-census/about/rdo/summary-files.html] page and includes the geographic support files, technical documentation and additional support materials needed to access these data.

The Census Bureau has also produced a variety of America Counts stories on population change and distribut [https://www.census.gov/library/stories/2021/08/more-than-half-of-united-states-counties-were-smalle1 in-2020-than-in-2010.html] , group quarters [https://www.census.gov/library/stories/2021/08/united-stat group-quarters-in-2020-census.html] , the adult population
[https://www.census.gov/library/stories/2021/08/united-states-adult-population-grew-faster-than-natior total-population-from-2010-to-2020.html] , housing changes
[https://www.census.gov/library/stories/2021/08/growth-in-housing-units-slowed-in-last-decade.html], housing vacancy [https://www.census.gov/library/stories/2021/08/united-states-housing-vacancy-rate-declined-in-past-decade.html] , race and ethnicity
[https://www.census.gov/library/stories/2021/08/improved-race-ethnicity-measures-reveal-united-states population-much-more-multiracial.html] and the diversity index
[https://www.census.gov/library/stories/2021/08/2020-united-states-population-more-racially-ethnically diverse-than-2010.html] . Videos [https://www.census.gov/data/academy/data-gems.html] are also available that explain how to access these data and what these data show about the changing nation.

## VIA EMAIL

To: Sen. Phil Berger<br>President Pro Tempore, North Carolina Senate<br>Rep. Tim Moore<br>Speaker, North Carolina House of Representatives<br>Sen. Daniel, Sen. Hise, and Sen. Newton<br>Co-Chairs, Senate Standing Committee on Redistricting and Elections<br>Rep. D. Hall, Chair<br>House Standing Committee on Redistricting<br>CC: Sen. Dan Blue, Senate Democratic Leader<br>Rep. Robert T. Reives, II, House Democratic Leader<br>Members, Senate Standing Committee on Redistricting and Elections<br>Members, House Standing Committee on Redistricting

Senators and Representatives,

The undersigned respectfully submit this letter to bring to the attention of the legislative leadership, Members of the Senate Standing Committee on Redistricting and Elections, Members of the House Standing Committee on Redistricting, and, indeed, the entire legislative body, certain areas of concern within the county clustering option maps you introduced on Tuesday, October 5, 2021. The Committee Chairs stated that these maps represent the only legally compliant county clustering options in which ultimate district lines will be drawn. We disagree.

In Stephenson v. Bartlett, the North Carolina Supreme Court developed a methodology for how counties should be grouped together to form county clusters. ${ }^{1}$ Under Stephenson, first, districts must be drawn to satisfy Section 2 of the Voting Rights Act ("VRA") to ensure voters of color have an equal opportunity to participate in the political process and elect their candidates of choice. Only after that analysis is performed and those districts are drawn may any work be done to harmonize and maximize compliance with North Carolina's Whole County Provision ("WCP"). ${ }^{2}$

[^3]Although the Stephenson criteria outlines a process for how counties are grouped together to create districts, there is still discretion regarding the choices about how and where to group counties. Consequently, these individual choices can result in different county grouping options that directly affect political opportunities and voting power for voters of color. We will be monitoring your choices with respect to county clusters closely, as well as the impact of those choices. But even now, we can identify serious problems with your judgment being used in this redistricting process, including but not limited to gross mischaracterizations of applicable law.

## I. The North Carolina General Assembly Continues to Flout Well-Established Redistricting Law

At this point, we have only seen draft district lines for the aforementioned clusters presented by your Committees, which create some (but not all) districts and thus do not constitute full maps. As a result, this letter does not and cannot address all potential violations of the North Carolina Constitution, the federal Voting Rights Act, or the North Carolina Supreme Court's instructions in the Stephenson cases. Our intent here is to bring to your attention the potential problems in the county clustering maps from which you have indicated you intend to choose. We also seek to highlight, once again, the erroneous legal interpretation under which you appear to be operating, just as in last decade's redistricting cycle. Absent a material change in direction, we may have further critiques or concerns. However, it is not too late to remedy these issues and embark on a redistricting process that will comply with applicable law.

## 1. The North Carolina Legislature Is Already Violating the Stephenson Instructions

Because this body is erroneously avoiding the use of all racial data, you per se cannot comply with Stephenson. Without that data, you cannot assess what districts are required under the VRA and draw those districts first as required. The failure to consider racial data is deeply problematic for other legal and policy grounds, but in this letter, we focus on the potential county clusters where it is unlikely that a district that will provide voters of color an equal opportunity to elect their preferred candidates can be produced by the county cluster.

The North Carolina Supreme Court has been unequivocal: Stephenson mandates that "districts required by the VRA be drawn first." ${ }^{3}$ Indeed, the Supremacy Clause of the United States Constitution requires federal law compliance be prioritized. In order to determine whether it is necessary to draw VRA districts, the Legislature must determine the level of racially polarized voting in the relevant geographical area. ${ }^{4}$ Without any analysis of racial voting data, you are making it impossible to assess whether VRA districts are required and violating the plain rule in Stephenson. Thus, to comply with Stephenson and the VRA, we believe the Legislature must conduct a regionally-focused racially polarized voting ("RPV") study to determine if there is legally significant racially polarized voting. If there is that level of racially polarized voting,

[^4]and if any cluster which you claim is required under strict compliance with Stephenson produces a district in which voters of color would not be able to elect their preferred candidate, then you must draw a VRA district first and only then engage in developing clusters around that district. ${ }^{5}$ As discussed below, your claims that RPV studies done in 2011 and the Covington court's ruling in $2016^{6}$ somehow negate the possibility that any VRA districts may be necessary today, in 2021 , is plainly wrong.

## 2. The North Carolina General Assembly Is Grossly Misinterpreting Covington v. North Carolina and Other Precedent from Last Cycle

Sen. Hise and Rep. Hall are factually incorrect in representing that courts last decade ruled that racially polarized voting in North Carolina does not exist. In the most relevant case, Covington v. North Carolina, the federal court that invalidated 28 North Carolina legislative districts as unconstitutional racial gerrymanders in fact stated the opposite. ${ }^{7}$ The court acknowledged that there were two reports before the Legislature indicating there was statistically significant racially polarized voting in the state ${ }^{8}$, but the bipartisan panel of federal judges excoriated the Legislature for "failing to evaluate whether there was a strong basis of evidence for the third Gingles factor in any potential VRA district." 9 That is, the court acknowledged the "general finding regarding the existence of [] racially polarized voting," but said the Legislature had to do a deeper inquiry, which "is exactly what Defendants did not do." ${ }^{10}$ This body seems bound and determined to make the same legal mistake again this redistricting cycle by once again abdicating its responsibility to do the analysis it is required by law to do. If this Legislature declines to meet its obligations under Stephenson to determine and draw districts required by the VRA first, it should be prepared for a court to ultimately draw the maps needed for elections next year.

Second, no case from the last redistricting cycle overturns or otherwise renders null Stephenson's requirement that the Legislature draw VRA districts first. In a meeting of the Joint Redistricting and Elections Committee on August 12, 2021, the Committee Chairs, in response to Senator Clark's question about complying with the VRA, stated that RPV analysis was not necessary due to "the 2019 decisions." ${ }^{11}$ The 2019 Superior Court decision Common Cause v. Lewis found that compliance with the VRA was not a plausible excuse to a charge of partisan

[^5]gerrymandering. ${ }^{12}$ It did not hold that the General Assembly may completely ignore racial voting data when drawing districts following the release of U.S. Census data. As a result, Lewis in no way alters Stephenson's mandate that the Legislature first draw VRA districts with the assistance of racial voting data analysis.

Lastly, no other federal law or Supreme Court decision compels or even allows this body to ignore racial data in drawing district lines. The Supreme Court decision Cooper v. Harris explains that states can use racial data in redistricting to comply with the VRA. ${ }^{13}$ In 2017, the Supreme Court found that the creation of two North Carolina congressional districts violated the federal Constitution because map drawers had used racial data in ways not required by the VRA. ${ }^{14}$ Cooper found that map drawers were using the VRA as an excuse to pack far more Black voters into a district than was necessary for VRA compliance; it did not state that the use of racial data is unconstitutional in every circumstance. ${ }^{15}$ In fact, Cooper demonstrates the very necessity of using racial voting data. It is impossible to determine what demographic configuration is sufficient for VRA compliance without analyzing racial voting data.

With these legal deficiencies in your approach explained, we now turn to areas of concern in the county cluster maps introduced on Tuesday. We note at the outset that the authors of the paper presenting possible county clusters explicitly did not look at the first step in Stephenson - drawing VRA districts. ${ }^{16}$ Thus, while this paper and methodology may be informative, they cannot substitute for the legislative analysis required by North Carolina and federal law. Indeed, it would not be algorithmically possible to do the kind of "intensely local appraisal" ${ }^{17}$ necessary to determine whether a district was required under Section 2 of the VRA.

## II. Certain Areas in the North Carolina Senate Cluster Maps Require Examination for VRA Compliance

a. Cluster in Greene/Wayne/Wilson

One of the Senate county clusters that you designate as required under an "optimal" county grouping map for the Senate districts appears to violate the VRA. Cluster "Q1" is a district comprised of three counties that would likely deprive voters of color of the opportunity to elect their candidate of choice. In the current Senate map, Senate District 4 is comprised of Halifax, Edgecombe and Wilson Counties, and the Black voting age population ("BVAP") in

[^6]that district is $47.46 \%$ using benchmark data. Black voters have the ability to elect their candidate of choice in this district.

In a county group analysis where race is not considered at all, we are concerned that you will propose that Senate District 4 be comprised going forward of Green, Wayne, and Wilson Counties. A district comprised of those 3 counties would be only $35.02 \%$ BVAP. If Section 5 were still in place, we are certain that such a change to that district would constitute impermissible retrogression and not be approved. We have done some initial analysis of racially polarized voting in those 3 new counties that would comprise Senate District 4. Examining racially contested statewide elections ${ }^{18}$ in these counties shows two things: using a number of different analytic approaches, the Black candidate is overwhelmingly supported by Black voters and white voters offer very little support for Black candidates. That is, voting is racially polarized. And most importantly, in those counties, were the electoral outcomes to be determined just by voting there, the Black candidates would have been defeated. Thus, the racially polarized voting is legally significant. We urge you to perform a formal RPV analysis in these counties before dictating that the Senate district must be comprised of these 3 counties.

Moreover, knowing as you do (or certainly do now) that there is a concentration of Black voters who, in concert with a small number of non-Black voters in the original configuration of the district (Wilson, Edgecombe and Halifax) are able to elect their candidate of choice, "if there were a showing that a State intentionally drew district lines in order to destroy otherwise effective crossover district[]," you would likely be subjecting the State to liability under the Fourteenth and Fifteenth Amendments. ${ }^{19}$

## b. Cluster in Hoke/Robeson/Scotland

We are also concerned that in the absence of racial data analysis, the proposed Senate district comprised of Hoke, Robeson, and Scotland Counties may not be in compliance with the Voting Rights Act. This county cluster would create a new District 21 out of what were previously sections of Senate Districts 13, 21, and 25. In North Carolina's current map, District 21 is $42.15 \%$ BVAP using benchmark data, and Black voters in that district have the ability to elect their candidate of choice.

A district composed of Hoke, Robeson, and Scotland counties would be only $29.63 \%$ BVAP. Our initial review of recent racially-contested elections suggests that voting in these counties is highly racially polarized. Drawing a district with such a low BVAP might deprive

[^7]Black voters the opportunity to elect a candidate of their choice. We urge you to perform a formal RPV analysis for these three counties to determine if a VRA-compliant district is required for the new district in this area.

## III. Certain Areas in the North Carolina House Cluster Maps Require Examination for VRA Compliance

a. Cluster in Sampson/Wayne

Our preliminary data analysis shows that a new House District 21 may be created out of a cluster composed of either Sampson and Wayne counties ("LL2") or Duplin and Wayne counties ("KK2"). Our initial analysis indicates that the LL2 configuration is particularly problematic. Neither Sampson nor Wayne Counties individually have a high enough population to compose a single district under one person, one vote jurisprudence. However, the North Carolina General Assembly could create two House districts from a Wayne and Sampson County cluster.

Current House District 21 is composed of only portions of both Wayne and Sampson Counties. It is $39.00 \%$ BVAP using benchmark data and provides Black voters the opportunity to elect their candidate of choice. Our preliminary analysis was fairly conclusive - based on the statewide elections examined, voting in Sampson and Wayne Counties, together, is highly racially polarized and the Black candidates in statewide elections would not have won had the elections been determined in those counties alone. Thus, we believe this presents substantial evidence that there is legally significant racially polarized voting, and there may be a VRA district required to be drawn in this cluster; or if that is not possible under one-person, one-vote principles, this cluster cannot be used - it would not be compliant with Section 2 of the Voting Rights Act or Stephenson.
b. Cluster in Camden/Gates/Hertford/Pasquotank

One of the proposed multi-county single House districts in your proposed clusters is composed of Camden, Gates, Hertford, and Pasquotank Counties (Cluster "NN1" in "Duke_House_01," "Duke_House_03," "Duke_House_05" and "Duke_House_07"). The current district for this area, House District 5, is $44.32 \%$ BVAP using benchmark data, and Black voters have the opportunity to elect a candidate of their choice. A House district composed of Camden, Gates, Hertford, and Pasquotank Counties would be only $38.59 \%$ BVAP. Our analysis indicates that white voters are voting in bloc there and may be doing so in a way that would prevent a Black-preferred candidate from winning (and, thus, legally significant). More analysis must be done on this cluster to determine whether there is legally significant racially polarized voting, and, if so, a district composed of this county cluster might eliminate the ability of Black voters to elect a candidate of their choice and thus violate federal and state law.

## IV. Conclusion

To be clear, in this letter, we are raising issues with the clusters you released on Tuesday, October 5, 2021. We can identify potential VRA issues where districts are dictated by groupings of whole counties or where, in a small 2-district cluster, we can observe voting patterns with sufficient certainty to identify a potential problem. However, we do not yet know how district lines will be drawn within counties or within multi-county, multi-district clusters. For example, we suspect that the way district lines are drawn in a Nash/Wilson House county grouping or Granville/Vance/Franklin House county grouping could be problematic. In short, this is a nonexhaustive list of concerns, particularly given the lack of draft maps at this moment. But this body should consider itself on notice for the need to perform RPV analysis in certain regions of the state and the need to examine racial data to ensure VRA compliance.

Importantly, we are not saying conclusively that VRA districts are required in the above county groupings; however, it cannot be ascertained without conducting an intensely local appraisal of voting conditions and a targeted RPV analysis, which you are required by law to undertake. ${ }^{20}$ Without conducting any RPV analysis prior to grouping counties, the Legislature is departing from the requirements of the Stephenson criteria and may ultimately deny voters of color an equal opportunity to participate in North Carolina's elections. Therefore, by allegedly engaging in race-blind drawing, you violate not only the VRA but also Stephenson and our State's case precedent. It is neither appropriate nor required to draw districts race-blind. Rather, your current path ensures redistricting will once again be a tool used to harm voters of color, and we implore you to reconsider this path immediately.

If you have any questions, please do not hesitate to contact us.

Members, House Standing Committee on Redistricting
August 2, 2021
Dear Sirs:
As the North Carolina General Assembly prepares to redistrict our state's Congressional, State House, and State Senate districts, we write to convey the need for a fair, transparent, timely, and inclusive process in which all North Carolinians have a reasonable opportunity to participate.

As you are well aware, fair redistricting is fundamental to our representative democracy, and a transparent process is crucial to upholding public confidence in our system of government. But for this process to be truly fair and transparent, it must be inclusive such that all community members have a genuine opportunity to view this process and be heard, regardless of race, ability, or socioeconomic status. An accessible process is particularly crucial for historically-disenfranchised communities, such as our state's communities of color, which have been the targets of recent gerrymanders. A truly participatory and transparent redistricting process
will contribute to better maps and engage citizens and improve public trust and confidence in our democracy.

Accordingly, we have outlined requirements for an inclusive redistricting process. We based these guidelines on our collective advocacy for the right to fair representation for North Carolinians. These guidelines are also informed by past redistricting experiences and best practices implemented in North Carolina and throughout the United States.

## Implement a Redistricting Timeline That Allows Informed and Impactful Public Comment

North Carolina's redistricting process must follow a timeline that allows for meaningful public comment, irrespective of the delays in the release of census data. While the delay in release of the census data has altered the typical timeline, North Carolina can and should establish a timeline that allows for robust public input and, if needed, post-enactment dispute resolution.

The Census Bureau currently anticipates releasing block-level census data in legacy format on August 16, 2021. ${ }^{1}$ New maps must be in place before December 17, 2021, when candidates seeking federal or state party primary nominations must file their notice of candidacy. ${ }^{2}$ To ensure a meaningful opportunity for public comment within this window of time, North Carolina's redistricting should adhere to the following timeline:

1. Start the Redistricting Process Immediately After the August 16 Data Release. North Carolina should begin the redistricting process by utilizing the Legacy Format Summary File of P.L. 94-171 data available on August 16. We expect all major vendors, and the vast majority of states, to utilize this data. There is no reason North Carolina needs to wait until the September 30 release of this same data in an alternative format: General Assembly staff processed and publicly released legacy format data last cycle and should do so again this cycle.
2. Release Processed Block Data for Community Use by August 21.

Major vendors expect to process the Legacy Format data and make this processed data available to users within five business days of its release. The General Assembly staff should do the same, and make processed and tabulated data available to the public on a state government redistricting website within this same timeline.

[^9]3. Disclose Initial Draft Maps by September 15.

After receiving and incorporating public comment, as discussed below, draft maps should be released online for additional public comment within 30 days of when the Legacy Format data becomes available.
4. Submit Final Proposed Maps to the General Assembly by October 6.

The final proposed maps should be publicly released online 21 days after the draft maps. The General Assembly should then be required to vote on these plans within 10 days-that is, enacted maps should be in place no later than October 16,2021 . This timeline will ensure that potential candidates can familiarize themselves with new districts before filing, and allow any challenges to be adjudicated before the December candidate filing deadline.

## Provide Genuine and Meaningful Opportunities for Public Comment

North Carolina must afford fair opportunities for all North Carolinians to provide public input in the redistricting process. Furthermore, the General Assembly's commitment to hearing public comment must be more than lip service: these opportunities must be genuine such that public comment is utilized in the mapdrawing process. To ensure meaningful public comment this cycle, the General Assembly should ensure community engagement adheres to the following guidelines:

1. Provide a Simple State Government Website For All Redistricting Information. To facilitate public comment and participation, North Carolina should establish a simple and easily-accessible state government website that includes all redistricting information in one location, including meeting notices and livestream links, draft maps and related data and information, and a public comment portal like that required by other states. ${ }^{3}$ To prevent any fraudulent activity, the public comment should have a simple authentication process, such as a reCAPTCHA checkbox.
2. Allow Public Comment Before Initial Draft Maps Are Drawn.

The General Assembly should receive public input before draft maps are drawn. This earlier input will ensure community input and concerns can be taken into consideration in drawing draft maps.
3. Allow Public Access and Comment on Draft and Revised Maps.

The General Assembly should release draft maps online for public comment, and should provide the public adequate time to review the draft maps and submit public comment before draft maps are revised.

[^10]4. Permit Written and Oral Public Comment.

The General Assembly should ensure all North Carolinians, including lowwage workers with demanding work schedules, have an opportunity to provide public comment by providing procedures for receiving written input via a public comment portal, email, and USPS in addition to that conveyed orally during live hearings. Information about how North Carolinians can submit public comment should be provided contemporaneously with meeting notices.
5. Hold Accessible Public Hearings Throughout the State.

The General Assembly must provide live in-person hearings in major metropolitan areas and rural hubs throughout the state in order to provide genuine opportunities for community members to provide live testimony. North Carolina should increase the number of hearing sites from the seven utilized in 2018 to thirteen, accounting for each of the current Congressional districts. Legislators should also prioritize locations and facilities that are accessible by public transport and to those with disabilities. In light of the ongoing COVID-19 realities, lawmakers must also provide remote options for viewing public hearings and providing public comment, and post a contact for those requiring technical assistance in accessing hearings remotely.
6. Provide Two Weeks' Notice of Public Hearings.

The General Assembly should endeavor to post a full schedule of public hearings at the beginning of the redistricting process, and in any event provide at least two weeks' notice of any public hearing on redistricting to ensure those wishing to participate have a genuine opportunity to do so. Hearings should not be scheduled during or near public holidays, such as the Labor Day holiday.

## Ensure Transparency throughout the Redistricting Process

In 2019, a court required the General Assembly to draw remedial maps in "full public view" and barred legislators from undertaking "any steps to draw or revise the new districts outside of public view." 4 Notwithstanding these requirements, there were several issues in 2019, including legislators and participants moving maps in and out of the meeting room during the redistricting process, holding conversations relevant to the redistricting process away from microphones, and failing to respond to public commentary. The public also experienced significant difficulty connecting to audio and video broadcasts that allowed for a detailed observation of the process. A truly transparent process must be used in 2021. Anything less will only serve to degrade public confidence in our state's redistricting.

[^11]Accordingly, the General Assembly should ensure transparency by implementing the following:

1. Disclose All Criteria, Systems, and Data Used In Drawing Maps.

Any criteria, system, or data used to develop draft maps should be publicly disclosed online before it is applied in drawing or revising any maps. This information should be disclosed to the public in advance of its use such that the public has a reasonable and adequate opportunity to view the information before it is used.
2. Perform All Map Drawing and Revising in Public View.

All map drawing and revisions, including related redistricting discussions and meetings, should be performed in the public view and live-streamed. An explanation made available to the public should accompany any changes or revisions to draft maps, and all conversations or commentary by those engaged in the map-drawing process during any revisions should be audible to public observers. Maps should not be removed from the meeting room during the drawing or revising process except for secure storage. Final maps should be accompanied by a written justification for the districts chosen.
3. Ensure Quality Video and Audio Broadcast in Public Meetings.

All video related to map-drawing provided for public consumption should be timestamped and of a quality such that the public can view all relevant details of the proposed maps. Hearing notices should include a contact phone number for those observing the process to report technical issues. Should technical issues arise that prevent public observation, map drawing or revising should halt until those issues are resolved.
4. Disclose All Third Parties Engaged in Redistricting.

The General Assembly should immediately disclose all consultants, attorneys, or other third parties who will be participating in the redistricting process, to the extent already known, and going forward disclose additional participants within 24 hours of engagement. Participants should be introduced during public meetings if they are substantively involved in the process. This disclosure will further public confidence by ensuring that there are no conflicts of interest and that the key players are known to the public. The public should know who is participating in redistricting and why.

Gentlemen, the districts you draw this year will shape North Carolinians' lives and communities for the next decade. Only with these successive rounds of meaningful public input can the people of North Carolina view the 2021 redistricting process as one that is fair, inclusive, and transparent. Taking these steps will not only send an important message that this year's North Carolina maps are the most inclusive and representative in history, but also set a precedent for the rest of the country.

North Carolinians deserve nothing less.
Sincerely,

## INTRODUCTION

Data from the 2010 Census for the United States and Puerto Rico are presented in two printed report series and a single report for American Indians and Alaska Natives by tribe:

1. CPH-1, Summary Population and Housing Characteristics
2. CPH-2, Population and Housing Unit Counts
3. CPH-3, Characteristics of American Indians and Alaska Natives by Tribe

The data from the 2010 Census were derived from a limited number of basic questions asked of the entire population and about every housing unit. Appendix D (see Selected Appendixes report at <www.census .gov/prod/cen2010/cph-2-a.pdf>) presents a facsimile of the questionnaire pages used to collect the data included in this report. Note that the "long form" data included in previous censuses are not included in the 2010 Census.

The CPH-1, Summary Population and Housing Characteristics, report series provides data based on age, Hispanic or Latino origin, household relationship, race, sex, tenure (owner- or renter-occupied), and vacancy characteristics. Land area measurements and population density also are provided. This series is similar to the Census 2000 PHC-1 series.

The CPH-2, Population and Housing Unit Counts, report series provides 2010 Census and historical comparisons of the population and housing unit counts. It also provides area measurements and density. The user notes section documents geographic changes over the past decade. This series is similar to the Census 2000 PHC-3 series.

In each series, there is one report for each state, the District of Columbia, and Puerto Rico, plus a United States summary report. Many tables in the United States summary reports include data for Puerto Rico.

The CPH-3, Characteristics of American Indians and Alaska Natives by Tribe, report provides population and housing information for selected American Indian and Alaska Native tribes. This report is similar to the Census 2000 PHC-5 report. This is a single report covering the entire United States.

## HOW TO FIND GEOGRAPHIC AREAS AND SUBJECT MATTER DATA

This report includes a table finding guide to assist the user in locating those statistical tables that contain the desired data. The table finding guide lists alphabetically, by geographic area, the subjects shown in this report. To determine which tables in this report show data for a particular topic, find the subject in the left-hand column of the table finding guide and then look across the columns using the headings at the top for the desired type of geographic area. Figure $I-1$ is an example of a table finding guide.

The table finding guide does not include cross-classification of subject-matter items. Additional information to locate data within specific reports is provided in the headnote at the top of the table finding guide and in the footnotes at the bottom of the guide.

Figure $1-1$.

## Table Finding Guide

SUBJECTS BY TYPE OF GEOGRAPHIC AREA AND TABLE NUMBER
The types of geographic areas covered in this report are shown on the side, and subjects are shown at the top. See CPH-2-A, Population and Housing Unit Counts, Selected Appendixes (<www.census.gov/prod/cen2010/cph-2-a.pdf>), for a description of area classifications (Appendix A) and for definitions and explanations of subject characteristics (Appendix B).

## HOW TO USE THE STATISTICAL TABLES

## Parts of a Statistical Table

The census data included in printed reports are arranged in tables. Each table includes four major parts: (1) heading, (2) boxhead, (3) stub, and (4) data field. A typical census report table is illustrated in Figure I-2.

The heading consists of the table number, title, and headnote. The table number indicates the position of the table within the report, while the title is a brief statement indicating the subjects and time reference of the data presented in the table. The headnote is enclosed in brackets and is located under the title. It contains statements that qualify, explain, or provide information pertaining to the entire table.

The boxhead is under the heading. This portion of the table, which contains the individual column heads or captions, describes the data in each vertical column. In the boxhead of many tables, a spanner appears across and above two or more column heads or across two or more lower spanners. The purpose of a spanner is to classify or qualify items below it or separate the table into identifiable blocks in terms of major aspects of the data.

The stub is located at the left edge of the table. It includes a listing of line or row captions or descriptions. At the top of the stub is the stubhead. The stubhead is considered to be an extension of the table title and usually shows generic geographic area designations and restrictions.

In the stub, several features are used to help the user better understand the contents of the table. Usually, a block of data lines is preceded by a sidehead. The sidehead, similar to a spanner, describes and classifies the stub entries following it. The use of indentation in a stub indicates the relationship of one data line to another. Indented data lines represent subcategories that, in most instances, sum to a total. Occasionally in tables, it is desirable to show one or more single-line subcategories that do not sum to the total.

The data field is that part of the statistical table that contains the data. It extends from the bottom of the boxhead to the bottom of the table and from the right of the stub to the right edge of the page.

Both geographic and subject-matter terms appear in tables. It is important to read the definitions of the terms used in the tables because census terms often are defined in special ways that reflect the manner in which the questions were asked and the data were tabulated. Definitions of geographic terms are provided in Appendix A of CPH-2-A, Population and Housing Unit Counts, Selected Appendixes (<www.census.gov /prod/cen2010/cph-2-a.pdf>). Census tables often include derived measures such as medians, means, percentages, and ratios. These and other subject-matter terms are defined in Appendix B of the same report.

## Symbols and Geographic Abbreviations

The following symbols are used in the tables and explanations of subjects covered in 2010 Census reports:

- A dash "-" represents zero or a derived measure that rounds to less than 0.1.
- (X) means not applicable. In the 1990 and earlier decennial census reports, three dots ". . . " meant not applicable.
- (NA) means not available.
- The superscript prefix "r" indicates that a Census 2000 count has been revised since the publication of the Census 2000 reports as a result of certified Count Question Resolution (CQR) changes (see also <www.census.gov/prod/cen2000/notes/errata.pdf>). This symbol appears only in the 2010 Census CPH-2, Population and Housing Unit Counts, report series.
- A minus sign "-" preceding a figure denotes decrease. The minus sign appears only in the 2010 Census CPH-2, Population and Housing Unit Counts, report series.

The following are examples of geographic abbreviations and terms that may be used in the tables in this report:

- A "(part)" next to the name of a geographic area in a hierarchical presentation indicates that the geographic entity is located only partially in the superior geographic entity. For example, a "(part)" next to a place name in a county subdivision-place hierarchy indicates that the place is located in more than one county subdivision. (Places also may be "split" by county, congressional district, urban/rural, metropolitan area, voting district, and other geographic boundaries, depending on the presentation.) Other geographic entities also can be "split" by a higher-level entity. The exception is a tabulation block, which is unique within all geographic entities in census products.
- ANVSA is Alaska Native village statistical area.
- ANRC is Alaska Native Regional Corporation.
- CCD is census county division.
- CDP is census designated place.
- CSA is combined statistical area.
- NECTA is New England city and town area.
- Metro Area is metropolitan statistical area.
- Micro Area is micropolitan statistical area.
- OTSA is Oklahoma tribal statistical area.
- SDTSA is state designated tribal statistical area.
- TDSA is tribal designated statistical area.
- UT is unorganized territory.

## GRAPHICS

Charts, statistical maps, and other graphic summaries are included in some 2010 Census reports.

## USER NOTES

User notes include general explanatory information, historical notes, and geographic notes. They also provide information about unique characteristics of the report and sometimes changes or corrections made too late to be reflected in the text or tables themselves. However, sometimes this information becomes available too late to be reflected even in the user notes. Therefore, updates are available in the Notes and Errata document at <www.census.gov/prod/cen2010/notes/errata.pdf>.

## APPENDIXES

Appendixes A through D, and F through H, described below, are in the separate printed volume, CPH-2-A, Population and Housing Unit Counts, Selected Appendixes, or on the Internet at <www.census.gov/prod /cen2010/cph-2-a.pdf>. Appendix E is included in this report.

Appendix A, Geographic Terms and Concepts. Provides definitions of the types of geographic areas and related information used in census products.

Appendix B, Definitions of Subject Characteristics. Contains definitions for the subject-matter terms used in census products, including explanations of derived measures, limitations of the data, and comparability with previous censuses. The subjects are listed alphabetically. Population characteristics are defined first, followed by the definitions of the housing subjects.

Appendix C, Data Collection and Processing Procedures. Explains the 2010 Census mission and scope and provides thumbnail descriptions of 2010 Census operations.

Appendix D, Questionnaire. Presents a facsimile of the 2010 Census questionnaire used to collect the data in this report.

Appendix E, Maps. Contains maps depicting the geographic areas shown in this report.
Appendix F, Operational Overview and Accuracy of the Data. Provides information on 2010 Census operations, including group quarters enumeration, confidentiality of the data, imputation of housing unit status and population counts, sources of errors in the data, and data editing.

Appendix G, Residence Rule and Residence Situations for the 2010 Census of the United States. Contains a description of the residence rule and residence situations used by Census Bureau staff to guide decisions on where people should be counted in the 2010 Census. This document is the basis for residence-related sections of questionnaires, collection instruments, field materials, and training materials.

Appendix H, Acknowledgments. Lists many of the U.S. Census Bureau staff who participated in report preparation.

## Table Finding Guide

## SUBJECTS BY TYPE OF GEOGRAPHIC AREA AND TABLE NUMBER

The types of geographic areas covered in this report are shown on the side, and subjects are shown at the top. See CPH-2-A, Population and Housing Unit Counts, Selected Appendixes (<www.census.gov/prod/cen2010/cph-2-a.pdf>), for a description of area classifications (Appendix A) and for definitions and explanations of subject characteristics (Appendix B).

Urbanized area and urban cluster . . . . . .
${ }^{1}$ State, District of Columbia, or Puerto Rico.
${ }^{2}$ Parish in Louisiana; city and borough, municipality, borough, or census area in Alaska; and municipio in Puerto Rico; in Maryland, Missouri, Nevada, and Virginia, one or more cities

- Ex. 3095 -

## User Notes

Additional information concerning this 2010 Census product may become available after this report is published. This information, called Notes and Errata, is available in portable document format (PDF) on the U.S. Census Bureau's Internet site at <www.census.gov/prod/cen2010/notes/errata.pdf>.

## GENERAL NOTES

## User Note 1

The user should be aware that there are limitations to many of these data. Please refer to the text provided with this report for further explanation of the limitations of the data. The population and other data shown for the 2010 Census in this report are as of April 1, 2010; the boundaries used for all geographic entities are as of January 1,2010. All boundaries are intended for Census Bureau statistical data collection and presentation only; their depiction and designation for statistical purposes do not constitute a determination of jurisdictional authority or entitlement. Corrections to the 2010 Census data as a result of certified Count Question Resolution (CQR) changes are available from the Census Bureau's Internet site at <www.census .gov/prod/cen2010/notes/errata.pdf>.

## User Note 2

Data comparability for county subdivisions is shown only when the county subdivision contains substantially the same territory as reported for Census 2000 (generally defined as at least 60 percent of the previous territory). There is no comparability provided for county subdivisions that have been extensively revised. Revised entities are noted by and within county. Changes to a geographic entity can be the result of legal change actions, statistical redefinition, correction of previous boundary or drafting errors, or new erroneous information.

Incorporated place and census designated place (CDP) comparability is provided for all places that retained their name or general area without regard to the amount of territorial change between censuses. Place comparability is not shown if the entity is new for the 2010 Census or is the result of a merger that created an entirely new entity, or if a 2010 Census geographic area shares no area with a Census 2000 area of the same name. American Indian area (including tribal subdivisions), Alaska Native area, and Hawaiian home land comparability follows the same rules as for place comparability.

## User Note 3

When applicable, tables show the revised Census 2000 population and/or housing unit counts that resulted from the Count Question Resolution (CQR) program. These revised counts are accompanied by a prefix " $r$ " symbol in the data tables.

Derived values (e.g., percent distribution, density, or change) that are calculated from Census 2000 population or housing unit counts only account for the aforementioned CQR revisions in certain cases.

- Calculations include the corrected Census 2000 counts when a table:
- Shows population or housing unit change (or percent change) from 2000 to 2010.
- Shows population or housing unit change (or percent change) from 1990 to 2000, and also shows the 2000 population or housing unit count that it is derived from.
- Shows population or housing unit density or percent distribution in 2000, and also shows the 2000 population or housing unit count that it is derived from.
- Calculations do not include the corrected Census 2000 counts when a table:
- Shows population or housing unit change (or percent change) from 1990 to 2000, but does not show the 2000 population or housing unit count that it is derived from.
- Shows population or housing unit density or percent distribution in 2000, but does not show the 2000 population or housing unit count that it is derived from.
- When a table shows component parts of a revised 2000 population or housing unit count (e.g., classified by urban/rural or by size of place), the component parts may not sum to the total population or housing unit count, because the component parts were not revised during the 2000 CQR program. Therefore, any derived values (e.g., percent distribution or number of places by population size) for the component parts cannot account for the revised Census 2000 counts either.

## CORRECTION NOTES

Candor town, Montgomery County
Candor town annexed into Moore County before January 1, 2010, but the information was reported to the Census Bureau too late to be included in the 2010 Census.

## HISTORICAL NOTES

The area of North Carolina was part of the original territory of the United States. Both North Carolina and South Carolina were included in the charter that established Carolina in 1663. The two areas separated in 1712-a separation that was finalized when the Carolina Colony was dissolved in 1729-with generally the same shared boundary as the present states. However, they did not settle on a final boundary until 1813. North Carolina ratified the U.S. Constitution on November 21, 1789; it was the 12th of the original 13 states to join the Union. North Carolina ceded its territory westward to the Mississippi River, comprising present-day Tennessee, to the United States in 1790, to assume generally the same boundary as the present state.

Census data for North Carolina are available beginning with the 1790 census. For an explanation of the revision to the 1810 population of North Carolina, see Richard L. Forstall, Population of States and Counties of the United States: 1790-1990, Washington, DC: U.S. Government Printing Office, 1996, page 118.

## GEOGRAPHIC NOTES

North Carolina is divided into 100 counties. The 1,041 county subdivisions in the state include 1,035 townships, which are administrative units used for election purposes and real property recordation. In Buncombe County, one city (Asheville) is independent of any MCD and serves as a county subdivision. Three counties have territory not assigned to any township creating four separate areas; these areas are reported as unorganized territories (UTs). Cleveland County dissolved all townships and the entire county is now treated as a single county subdivision. Three cities (Charlotte in Mecklenburg County, Wilmington in New Hanover County, and Winston-Salem in Forsyth County) and one town (Pineville in Mecklenburg County) are geographically coextensive with a single township. In addition, Greensboro city in Guilford County is coextensive with two townships, Gilmer and Morehead.

There are 533 incorporated places and 186 CDPs in North Carolina. Incorporated places in the state are legally described as cities, towns, and villages. Except for Asheville city in Buncombe County, which is independent of any township, the Census Bureau treats all incorporated places and CDPs as dependent within townships and UTs.

## GEOGRAPHIC CHANGE NOTES

The Geographic Change Notes listed below document high-level geographic entities-American Indian areas, Alaska Native areas, and Hawaiian home lands; counties and their equivalents; county subdivisions; and places-that are different from the information reported in Census 2000. The notes identify
geographic entities whose name, legal description, and/or boundary have changed, entities that no longer exist, newly established entities (both legal and statistical), and changes in geographic relationships, such as places that exist in one county and have expanded into or withdrawn from another county (the notes do not identify the other county(ies) in which the entity exists; this can be determined from Table 9 of this publication), places that have been removed from comparable 2000 county subdivisions, and places that have become independent of or dependent within one or more county subdivisions. The changes are reported by and within county; counties without changes are not shown in the listing. Changes to American Indian areas, Alaska Native areas, and Hawaiian home lands appear after the list of counties; areas with no changes are not shown. A few of the reported changes in name, legal status, or legal relationship may be incorrect; if so, the correct version is shown in any Correction Notes section above. Some changes are the result of legal actions that took place prior to Census 2000 but were not reported in that census.

For the 2010 Census, the notes reflect any boundary change that affects a geographic entity, regardless of whether it is the result of legal action, redefinition of a statistical entity, correction of a previous drafting error, or new erroneous information. Between Census 2000 and the 2010 Census, the Census Bureau invested in improving the coordinate accuracy of its geographic database. As a result, the geographic positions of boundaries may be different between the two censuses even though little or no change actually occurred to the boundaries. In compiling the Geographic Change Notes, the Census Bureau inspected the many corrections to determine if a change actually affected significant land area or population. For example, the county-level text "all MCDs [minor civil divisions] revised" may reflect a legal redistricting of all county subdivisions in the county, a major or minor relocation of county subdivision boundaries due to more accurate mapping or more accurate boundary information, or a combination of these that, in one way or another, affect every county subdivision in a county. Boundary corrections that resulted in incorporated places gaining or losing territory are shown as annexations or detachments even if no legal action occurred between 2000 and 2010. Most places shown with a detachment resulted from such corrections. In states whose legal entities rarely undergo a legal boundary change, such as the New England states, most of the entities reported to have annexed, detached, exchanged, gained, or lost territory did so as the result of mapping changes, not legal actions. The extent and location of the boundary changes affecting any particular entity can be determined by comparing the TIGER/Line ${ }^{\oplus}$ Shapefiles, Cartographic Boundary Files, or a comparable set of maps for the 2000 and 2010 censuses.

## Counties, County Subdivisions, and Places

Alamance County—MCD Changes: County partially redistricted affecting comparability; Township 7, Albright gained area from Township 2, Coble; Township 11, Pleasant Grove gained area from Township 13, Haw River; Township 12, Burlington gained area from Township 6, Graham; Name Changes: Elon town name changed from Elon College; Incorporations: Ossipee town in 2002 (formed from part of deleted Altamahaw-Ossipee CDP and additional area); Annexations: Burlington, Graham, and Mebane cities; Elon, Gibsonville, Green Level, Haw River, Ossipee, and Swepsonville towns; Alamance village; Detachments: Mebane city; Gibsonville, Green Level, and Haw River towns; New CDPs: Altamahaw (formed from part of deleted Altamahaw-Ossipee CDP and additional area); Deleted CDPs: Altamahaw-Ossipee (part incorporated into Ossipee town and part taken to form part of Altamahaw CDP); CDP Changes: Glen Raven CDP part annexed to Burlington city and lost additional area; Saxapahaw CDP gained and lost area; Woodlawn CDP lost area.

Alexander County-County Changes: Gwaltneys township, Alexander County, gained area from New Hope township, Iredell County; Annexations: Taylorsville town; Detachments: Taylorsville town; New CDPs: Hiddenite.

Alleghany County-County Changes: Glade Creek township, Alleghany County, gained area from Franklin township, Surry County; MCD Changes: County partially redistricted affecting comparability; Cherry Lane township lost area to Gap Civil, Glade Creek, and Whitehead townships; Gap Civil township gained area from Cherry Lane and Prathers Creek townships and lost area to Whitehead township; Glade Creek
township gained area from Cherry Lane township; Prathers Creek township lost area to Gap Civil township; Whitehead township gained area from Cherry Lane and Gap Civil townships; Annexations: Sparta town.

Anson County—MCD Changes: County redistricted affecting comparability; Ansonville township gained area from Lanesboro township and lost area to Wadesboro township; Burnsville township gained area from Lanesboro township; Gulledge township lost area to Morven, Wadesboro, and White Store townships; Lanesboro township gained area from Wadesboro and White Store townships and lost area to Ansonville and Burnsville townships; Lilesville township lost area to Morven and Wadesboro townships; Morven township gained area from Gulledge and Lilesville townships; Wadesboro township gained area from Ansonville, Gulledge, and Lilesville townships and lost area to Lanesboro township; White Store township gained area from Gulledge township and lost area to Lanesboro township; Annexations: Peachland, Polkton, and Wadesboro towns; Detachments: Polkton town.

Ashe County—MCD Changes: County redistricted affecting comparability; Chestnut Hill township gained area from Jefferson and Peak Creek townships, exchanged area with Walnut Hill township, and lost area to Grassy Creek township; Clifton township gained area from Horse Creek and Walnut Hill townships, exchanged area with Creston, Laurel, and Piney Creek townships, and lost area to West Jefferson township; Creston township gained area from Elk township, exchanged area with Clifton, North Fork, and West Jefferson townships, and lost area to Laurel and Old Fields townships; Elk township gained area from Pine Swamp township, exchanged area with Old Fields township, and lost area to Creston township; Grassy Creek township gained area from Chestnut Hill township, exchanged area with Helton township, and lost area to Walnut Hill township; Helton township exchanged area with Grassy Creek and Piney Creek townships and lost area to Hurricane and Walnut Hill townships; Horse Creek township gained area from Hurricane, Laurel, and Pond Mountain townships, exchanged area with Piney Creek township, and lost area to Clifton township; Hurricane township gained area from Helton township, exchanged area with Pond Mountain township, and lost area to Horse Creek and Piney Creek townships; Jefferson township gained area from Obids and Walnut Hill townships, exchanged area with Peak Creek and West Jefferson townships, and lost area to Chestnut Hill township; Laurel township gained area from Creston township, exchanged area with Clifton, North Fork, and Pond Mountain townships, and lost area to Horse Creek township; North Fork township exchanged area with Creston and Laurel townships; Obids township gained area from Peak Creek township, exchanged area with Pine Swamp township, and lost area to Jefferson and West Jefferson townships; Old Fields township gained area from Creston township and exchanged area with Elk, Pine Swamp, and West Jefferson townships; Peak Creek township exchanged area with Jefferson township and lost area to Chestnut Hill and Obids townships; Pine Swamp township exchanged area with Obids, Old Fields, and West Jefferson townships and lost area to Elk township; Piney Creek township gained area from Hurricane township and exchanged area with Clifton, Helton, Horse Creek, and Walnut Hill townships; Pond Mountain township exchanged area with Hurricane and Laurel townships and lost area to Horse Creek township; Walnut Hill township gained area from Grassy Creek and Helton townships, exchanged area with Chestnut Hill and Piney Creek townships, and lost area to Clifton, Jefferson, and West Jefferson townships; West Jefferson township gained area from Clifton, Obids, and Walnut Hill townships and exchanged area with Creston, Jefferson, Old Fields, and Pine Swamp townships; Annexations: Jefferson and West Jefferson towns; Detachments: West Jefferson town; Deleted Relationships: Lansing town removed from Clifton and Horse Creek townships due to MCD redistricting.

Avery County—MCD Changes: County partially redistricted affecting comparability; Altamont township exchanged area with Pineola township; Banner Elk township gained area from Linville township and lost area to Beech Mountain township; Beech Mountain township gained area from Banner Elk township and lost area to Elk Park township; Cranberry township gained area from Elk Park township; Elk Park township gained area from Beech Mountain township and lost area to Cranberry township; Frank township gained area from Minneapolis township; Linville township lost area to Banner Elk township; Minneapolis township lost area to Frank township; Pineola township exchanged area with Altamont township; Annexations: Banner Elk, Beech Mountain, and Newland towns.

Beaufort County-Annexations: Washington city; Aurora, Belhaven, and Chocowinity towns; New CDPs: Bayview and Pinetown; CDP Changes: River Road CDP gained area; Deleted Relationships: River Road CDP removed from Chocowinity township.

## Appendixes

Several appendixes traditionally found in printed reports are now available in a separate volume. For the following, see CPH-2-A, Population and Housing Unit Counts, Selected Appendixes, in print or on the Internet at <www.census.gov/prod/cen2010/cph-2-a.pdf>:

Appendix A. Geographic Terms and Concepts
Appendix B. Definitions of Subject Characteristics
Appendix C. Data Collection and Processing Procedures
Appendix D. Questionnaire
Appendix F. Operational Overview and Accuracy of the Data
Appendix G. Residence Rule and Residence Situations for the 2010 Census of the United States Appendix H. Acknowledgments

This Appendix section contains:

[^12]- Ex. 3197 -

## Appendix E. <br> Maps

Counties

## Geographic Areas Reference Map Legend

${ }^{1}$ A's'' following an American Indian area name indicates that tribal subdivisions are defined for that area. The tribal subdivision boundaries are displayed on the tribal subdivision map(s) immediately following the geographic areas reference maps.
${ }^{2} \mathrm{~A}$ '*' following a place name indicates that the place is coextensive with a separate county subdivision. The county subdivision name is shown only if different than the name of the place. A ${ }^{\circ}$ ' following a place name indicates that the place is an independent place or independent city. An independent place is not part of any legal county subdivision and thus serves as the statistical equivalent of a legal county subdivision. An independent city is not part of any county or legal county subdivision and thus serves as both the statistical equivalent of a county and a legal county subdivision. The name for the county subdivision is always the same as that of the place and never shown separately on the map.

Note: All legal and statistical area boundaries and names are as of January 1, 2010. Where international, state, county, independent city, and/or county subdivision boundaries coincide, the map shows the boundary symbol for the highest level of these geographic entities. The county and independent city boundaries are always shown. Where a county subdivision boundary symbol coincides with a place boundary, the map does not show the place boundary symbol. Where American Indian Reservation (Federal), American Indian Reservation (State), State Designated Tribal Statistical Area, and/or Tribal Designated Statistical Area boundaries coincide with a county subdivision boundary, the map does not show the county subdivision boundary symbol. Any geographic entity name may include '(pt)' if some portion of the entity extends beyond the limits of the map area displayed on the page, or if multiple discontiguous pieces of the entity have been discretely labeled on the page. A geographic entity name may include '(pts)' if many discontiguous pieces exist for that entity that cannot be discretely labeled. The boundaries shown on this map are for Census Bureau statistical data collection and tabulation purposes only; their depiction and designation for statistical purposes does not constitute a determination of jurisdictional authority or rights of ownership or entitlement.

## Section Locator

## County Location Index

This list presents the map section numbers for each county in the state.
Map section numbers refer to the geographic areas reference maps only.

## NORTH CAROLINA: 2020 Census

NORTH CAROLINA: 2020 Census

## North Carolina Gained Around 900,000 People Last Decade

AMERICA COUNTS STAFF
AUGUST 25, 2021
America Counts today launches a state-by-state look at the demographic changes the new 2020 Census results reveal.
Our state profiles bring you all key population characteristics of your state and your county on one page.
See how they compare to the nation overall and to neighboring counties and states. Through interactive state and county maps for the 50 states, the Distri Columbia and Puerto Rico, each page provides a snapshot of change from 2010 to 2020 on five topics.

Here are some key national-level 2020 Census results to help you see how your state or county compares in each topic area:

- Population (up $7.4 \%$ to 331.4 million).
- Race and ethnicity (White alone $61.6 \%$; Black alone $12.4 \%$; Hispanic $18.7 \%$; Asian alone $6 \%$; American Indian and Alaska Native alone $1.1 \%$; Nati Hawaiian and Other Pacific Islander alone $0.2 \%$; Some Other Race alone $8.4 \%$; Two or More Races $10.2 \%$ ).
- Diversity Index ( $61.1 \%$, up from $54.9 \%$ ).
- Under-18 (down 1.4\%) and adult population (up 10.1\%).
- Housing units (up 6.7\%) and vacancies (down to 9.7\%).

truth today?
09:14:11

A Sure.

Q And there will be a transcript of
09:14:11

09:14:12
everything we say so we should try not to talk
09:14:13
over each other. I'll try not to interrupt you.
09:14:16

I just ask that you do the same. Does that sound
09:14:19
good?

A Yes.

Q And your counsel may object but you should
09:14:21

09:14:22

09:14:22

09:14:27

09:14:30

09:14:32

A Sure.
09:14:34

Q Any reason that today you couldn't give
09:14:35

09:14:38

09:14:40

09:14:42
$09: 14: 45$

09:14:47

09:14:50

09:14:52

09:14:53

09:14:54

09:14:56

A I generally just looked back through my

Transcript of Representative Destin Hall
Conducted on December 27, 2021
notes. I mean it's, it's been now I guess over a month since we passed these maps.

Q And when you say your notes, what do you
mean by that? Could you be more specific?

A Just the notes that I used when we were debating the bills in the committee and on the House floor.

Q Were these notes about the enacted maps or were they notes that you used just to prepare for your speeches on the floor?

A They were just to prepare for speeches on the floor.

Q Did you consult any notes that you drew up during the redistricting process itself before your speeches?

A I don't understand that question. Ask me again.

Q Sure. I'll try to be a bit more clear. In preparing for this deposition did you consult materials that you prepared while drawing or, you know, during the redistricting process in October or earlier?

A Yes. I mean those notes would have been drafted at some point during that process.

Q Okay. Did you conduct -- did you review

Transcript of Representative Destin Hall
Conducted on December 27, 2021
any other documents in preparing for this
09:16:16
deposition?
09:16:18

A I looked at the maps that were, that were enacted.

Q I just want to be sure I clarify one thing. So do you have in your possession notes that you prepared or that someone else prepared that describe the district maps that were ultimately enacted or that were used to evaluate draft maps or anything of that nature?

A No, no. I -- these were just notes that were used for floor speech purposes.

Q Okay. I thought just a bit earlier you said that there were notes that you prepared maybe as early as October or before that. Is that not the case?

A They would have been sometime during the process, before $I$ had to present them. I had to present maps in, in the committee before they were

09:17:11 on the floor. So whenever we presented those in the committee those notes would have likely been drafted at some point shortly before that.

Q And I guess just, just a more general question. Did you have any notes during the map drawing process?

Transcript of Representative Destin Hall
Conducted on December 27, 2021

A No. I don't -- I don't recall taking any
notes during the process.
Q Okay. Did you speak with anyone else
besides your attorneys in anticipation of this
deposition?
A No. Other than I spoke to the general
counsel for the speaker, but of course he's an
attorney as well -- I mean not general counsel,
excuse me -- the Chief of Staff for the Speaker.
Q And what did you speak about generally?
A Again, just sort of general matters. You
know, I don't know that $I$, you know, can tell you
anything specifically other than, you know, we
were going to take a deposition and it was going
to be today, and that was about it.
Q And what was this individual's name?
A Neal Inman.
Q Sorry. Could you say that again?
A Neal Inman.
Q Neal Inman, thank you. And you said general matters. I mean could you just be a little bit more specific? I mean were you talking about the redistricting process? Were you talking about what you anticipated I would ask today?

Could you just give me a little bit more detail?

09:17:34
09:17:37

09:19:36
preparation for the deposition today?
09:19:39

A Yes, but $I$ consider him to be one of our lawyers.

Q Is he representing you in this matter?
A He's the general counsel for the speaker.

Q I mean just to answer -- ask the question
09:19:42
09:19:46

09:19:47

09:19:50
09:19:55
again, is Mr. Hayes representing you in this
09:19:57
$09: 20: 00$

MR. STRACH: Yeah, objection. Mr. Hayes
$09: 20: 03$
is, would be considered legal counsel by us in
this matter just as much as I am legal counsel for
Representative Hall.

$09: 22: 08$
$09: 22: 10$
$09: 22: 13$
09:22:17

Q Right. To clarify, you just mentioned a

Transcript of Representative Destin Hall
Conducted on December 27, 2021

| few moments ago that you intended to invoke your | 09:22:22 |
| :---: | :---: |
| legislative privilege as to specific questions | 09:22:25 |
| about certain communications, but you have waived | 09:22:27 |
| legislative privilege to appear here today. Is | 09:22:30 |
| that a fair summary? | 09:22:32 |
| MR. STRACH: Correct. | 09:22:34 |
| Q Okay. Can you tell me a bit about why you | 09:22:35 |
| decided to waive legislative privilege to that | 09:22:38 |
| extent I just described? | 09:22:40 |
| MR. STRACH: Objection. That's not an | 09:22:41 |
| appropriate question. | 09:22:44 |
| MR. CALLAHAN: On what basis? | 09:22:46 |
| MR. STRACH: Because he's -- he does not | 09:22:48 |
| have to talk about his internal personal | 09:22:50 |
| deliberations about why he waived privilege. | 09:22:53 |
| That's not required or permissible, and so I'm | 09:22:55 |
| going to instruct him not to answer that question. | 09:22:59 |
| Q Representative Hall, are you invoking | 09:23:02 |
| legislative privilege as to the question of why | 09:23:04 |
| you decided to waive legislative privilege? | 09:23:07 |
| MR. STRACH: Objection. I'm instructing | 09:23:10 |
| him not to answer that question. That's an | 09:23:12 |
| inappropriate question. | 09:23:16 |
| MR. CALLAHAN: Can you explain to me on | 09:23:17 |
| what basis you are instructing the witness not to | 09:23:19 |

Transcript of Representative Destin Hall
Conducted on December 27, 2021
answer the question?

MR. STRACH: He does not have to explain
to you or anyone else why he's invoking privilege.
That would not only be privileged itself under
legislative privilege but it would also involve attorney-client privileged discussions. He's not
-- he's not required to discuss that.

MR. CALLAHAN: I'm not asking the witness
about whether he had communications with attorneys about whether to waive privilege. I'm asking the witness, why did you decide to waive legislative privilege in this matter? Is there any objection to that question beyond the fact that it's inappropriate?

MR. STRACH: Yes. Legislative privilege and attorney-client privilege, and so he won't be answering that question.

Q Representative Hall, you're aware that
four other legislative defendants in this case
have not waived legislative privilege: Senator
Daniel, Senator Newton, Speaker Moore and Senator
Berger; is that right?
A I'm aware that Speaker Moore and Senator
Berger have not but $I$ don't know about the others.
Q Okay. Do you have any knowledge or

Q Representative Hall, you've served as a
state representative since 2017; is that right?

A Yes.

Q Do you recall that in 2019 a three-judge panel struck down the House and Senate plans that Republicans had drawn in 2017 on the basis that they were unconstitutional partisan gerrymanders?

A Yes.

Q And I understand that you weren't on the

Redistricting Committee then but is it fair to say
you were familiar with the process in 2017?

MR. STRACH: Objection. Which, which
process?
Q The redistricting process that led to the enactment of the 2017 plans that were then struck down in 2019?

A I was on the committee as a committee member in 2017. So I -- whenever that initial redraw took place in 2017 or 2018 I was on the committee.

Q You were on the House Redistricting
Committee in 2017?

A Yeah. I was on it my first term.
Q And you voted in favor of the 2017 House plan; is that correct?

Q How about for the 2011 process? Do you
$09: 32: 36$
have any familiarity with that?
A No.

Q Would you agree with me that one of the
goals of the 2016 congressional plan was to
maximize partisan advantage?

MR. STRACH: Objection. Which plan? The

2016 plan?
Q The 2016 Congressional plan.
MR. STRACH: Objection. Answer it if you
can.

A Again, $I$ wasn't a part of the drawing of the 2016 plan. So, you know, I have no idea. I wasn't privy to any conversations legislators may have had.

Q Well, one of the criteria adopted by the Joint Select Committee on Redistricting in 2016 was, quote, partisan advantage. Are you aware of that?

A Other than what you've just told me, no.
Q Do you have any reason to doubt that one

09:36:52
$09: 36: 55$

09:36:59

Q Okay. Just to pull it up for one second.
Do you see a PDF that says 2017 House and Senate Plans Criteria?

A Yeah.

Q Does this look familiar to you? Have you ever seen this document before?

A Yeah. I'm -- I think that's the criteria we would have voted on in 2017, but again, it's been, you know, four years since we, or really over four years since we voted on it, so I don't remember specifically what the criteria at that point were, but yeah, that looks, that looks right.

Q Then there's this criterion here down near the bottom that says election data, and that's what just a few moments ago I read to you?

09:37:40

A That's right, yeah.
Q So is it fair to say that at the time you believed these criteria to be appropriate criteria 09:37:44
$09: 37: 45$

09:37:47
for the use in drawing legislative districts?

A Yeah, that's right.

| to not use that election data or any partisan | 09:39:02 |
| :---: | :---: |
| considerations, and as a general matter I think | 09:39:07 |
| that that's a better way to do it without using | 09:39:10 |
| any election results data or partisanship. | 09:39:12 |
| Q All right. Representative Hall, you're | 09:39:17 |
| now the chairman of the House Standing Committee | 09:39:19 |
| on Redistricting; is that correct? | 09:39:21 |
| A Yes. | 09:39:23 |
| Q Does that mean you have the leading role | 09:39:24 |
| on the House side for the 2021 redistricting | 09:39:27 |
| process for all three plans: House, Senate and | 09:39:29 |
| Congressional? | 09:39:34 |
| A I think that's fair statement. | 09:39:35 |
| Q And you personally drew the house plan | 09:39:37 |
| enacted in November; correct? | 09:39:39 |
| A I drew almost all of the state House plan | 09:39:41 |
| enacted, yes. | 09:39:44 |
| Q And is it correct that you personally | 09:39:47 |
| sponsored the legislation that enacted that plan, | 09:39:49 |
| House Bill 976? | 09:39:52 |
| A Yes. | 09:39:55 |
| Q Is it also correct that you sponsored for | 09:39:59 |
| consideration in the House the Congressional plan | 09:40:01 |
| that was ultimately enacted as Senate Bill 740? | 09:40:03 |
| A Yes. | 09:40:08 |

A At some point in the process, yes.
09:42:33

Q You did not speak with -- well, let me
09:42:35
start with Senator Daniel. Did you speak with
09:42:38

Senator Daniel at all individually about the Congressional plan?
$09: 42: 42$

A He's my senator, and so $I$ see him a lot.

I'm sure, you know, we've had general
conversations, but $I$ don't, you know, I don't -- I
$09: 42: 50$
don't recall us sitting around talking about, you know, what a specific map would look like, nor do

I recall any specific conversations with
individual of the other chairs that you mentioned.
Q Okay. When did you meet with them to
09:43:04
discuss the Congressional plan all together? You
mentioned a group conversation.

A It would have been some point before the
map was passed. It would have been after map
drawing was opened up and before these maps were
passed.

Q What did you discuss specifically?

MR. STRACH: Objection. Sam, we'll allow

Representative Hall to discuss what he said, what
09:43:32
he told them, but he will not be discussing
anything that they said back to him because that would waive their legislative privilege. So with

Transcript of Representative Destin Hall Conducted on December 27, 2021
that caveat answer the question.
09:43:44

A The -- so I had seen the map that, that they had drawn in the Senate committee, and I had 09:43:49

09:43:53
drawn a Congressional map as well in the House committee, and I felt that, that their map was better than the map that $I$ had drawn. Their map split fewer counties. Their map, you know, only split two municipalities across the entire state, one of which is Charlotte that has to be split. So they drew a Congressional map that effectively only split one municipality which I thought was, was quite a feat to be able to do. One of the changes that I suggested that, that they make on that map and that, that $I$ could get behind a map if they did make a change was to the finger counties in northeastern North

Carolina. We had heard a great deal of public comment from folks in that area who wanted those counties to be kept together. It seemed to be something that we could pretty easily do without having to make a ton of changes in the map, and you know, I knew that those, those counties have a lot of common interest with one another, and so the -- well anyway, that's what $I$ said to the Senate chairs without going into, you know, what

Transcript of Representative Destin Hall
Conducted on December 27, 2021
they said to me in response.
09:45:11

Q Okay. To clarify, what you just relayed
was what you said to the Senate chairs. You are refusing to disclose what they said to you on the basis of legislative privilege; is that correct? MR. STRACH: Correct. That's correct.

Q So just going back for a moment. When you
said that their map was better, did you conduct
any analysis of that map yourself to determine
that it was better?

A Other than what $I$ just described, no.
Q Well, did you speak with your staff about
the Senate, or the Senate drawn Congressional map?
A I'm sure I probably did.
Q Do you recall the content of those
conversations?

A They would have been as a general matter
what I just told you. I thought the Senate map
was better than mine. It split very few counties
and very few cities.
Q Did you learn of any analysis done by
others of that Senate-drawn Congressional plan?
A You mean ever? Have $I$ ever learned of any analysis?

Q Well, at the time that the Senate-drawn

| criteria before that census data came out. That | 09:49:24 |
| :---: | :---: |
| way no one would argue that somehow we looked at | 09:49:28 |
| the census data and reverse engineered criteria to | 09:49:32 |
| somehow benefit us. | 09:49:37 |
| Q Well, when you say "we," did you write the | 09:49:40 |
| 2021 proposed criteria that ultimately were | 09:49:42 |
| enacted on August 12th? | 09:49:45 |
| A I didn't sit down and actually type out | 09:49:48 |
| the words, but I, I spoke to the Senate chairs | 09:49:50 |
| about what criteria should look like. | 09:49:54 |
| Q Are you responsible for all of the | 09:49:59 |
| criteria that ultimately were enacted? | 09:50:02 |
| A I don't know what you mean by "responsible | 09:50:06 |
| for." | 09:50:08 |
| Q Did you come up with them? | 09:50:09 |
| MR. STRACH: Objection. Answer that if | 09:50:12 |
| you can. | 09:50:14 |
| A I didn't come up with all of the criteria. | 09:50:16 |
| Most of these criteria, I guess in fact all of | 09:50:19 |
| them, are just traditional redistricting criteria | 09:50:23 |
| other than the criteria to not use partisan or | 09:50:27 |
| election data which of course we, we got from the | 09:50:32 |
| court in the 2019 Common Cause case. So I didn't | 09:50:35 |
| come up, quote-unquote, come up with any of the | 09:50:38 |

Q -- as the criteria used in redistricting?
MR. STRACH: Objection. What criteria,
which ones are you talking about? All of them?

Q Is it your understanding that they're
different than the 2017 House and Senate criteria? MR. STRACH: Objection. Answer it if you can.

A I don't know that they were different or not. I mean obviously the election data and partisan consideration was different. The local knowledge piece $I$ think was different. I don't know if it had been used in the past or not, but I think most of the criteria had, had been used in the past.

Q Are you aware of any other differences
besides what you just mentioned?
MR. STRACH: Objection. I mean, Sam, with
all due respect, he can't sit here and give you a
redline without seeing the documents in front of
him, and so $I$ think this kind of question's
inappropriate but, but that's my objection.

Answer it to the extent that you can.
A You know, I'm sure there are some
differences. I mean, I -- there are -- if I sat
down and looked at each document, I'm sure there

| are differences here and there. You know, I know | 09:53:05 |
| :---: | :---: |
| obviously we chose not to use racial data, just as | 09:53:09 |
| we had done in 2019, but I know in the past and as | 09:53:13 |
| a general matter I know in the past in North | 09:53:18 |
| Carolina they did use racial data. I guess that's | 09:53:21 |
| another difference that this would have had, this | 09:53:25 |
| criteria would have had compared to, you know, the | 09:53:29 |
| entire history of redistricting in North Carolina. | 09:53:33 |
| You know, there, you know, redistricting's | 09:53:40 |
| been going on here for a long time, and I -- so | 09:53:43 |
| I'm sure every year it's been slightly different. | 09:53:45 |
| So I don't know how to answer it other than to say | 09:53:49 |
| I think as a general matter this criteria has been | 09:53:50 |
| long used. The exceptional thing we did was, was | 09:53:53 |
| voluntarily decide not to use election data. | 09:53:56 |
| Q Well, one thing is that the 2021 criteria, | 09:54:00 |
| those didn't restrict the number of times that a | 09:54:04 |
| given county could be split; is that correct? | 09:54:07 |
| A Well, think they did. I think they, you | 09:54:11 |
| know, in the language about Stephenson, I think | 09:54:14 |
| the effect of that was to restrict that. | 09:54:17 |
| Q Well, did the criteria say you can't split | 09:54:22 |
| a county, for example, more than one time? | 09:54:26 |
| MR. STRACH: Objection. What -- as to | 09:54:32 |
| which plan? | 09:54:34 |

| population size to contain an entire congressional | 09:57:27 |
| :---: | :---: |
| district within the county's boundaries, the | 09:57:30 |
| committee shall construct a district entirely | 09:57:33 |
| within that county. | 09:57:36 |
| And so that, I think that language would | 09:57:37 |
| have a similar effect of limiting county | 09:57:41 |
| traversals. | 09:57:44 |
| Q Is your position that that language | 09:57:47 |
| restricts the ability to divide a county more than | 09:57:50 |
| once like the 2016 criteria which I've just pulled | 09:57:55 |
| up again where it says reasonable efforts shall be | 09:57:58 |
| made not to divide a county into more than two | 09:58:00 |
| districts? Your position is that the 2021 | 09:58:03 |
| criteria had that same restriction? | 09:58:05 |
| A No, no. It doesn't have that restriction. | 09:58:07 |
| Q Okay. So that last sentence here in the | 09:58:11 |
| 2016 criterion, does that mean that you can split | 09:58:13 |
| Wake County, for example, into two districts but | 09:58:20 |
| you shouldn't split it into three districts? | 09:58:22 |
| A You're asking me to apply the 2016 | 09:58:27 |
| criteria? | 09:58:30 |
| Q Correct. Correct. | 09:58:31 |
| A Well, you know, first I'll say, again, I | 09:58:35 |
| had no involvement -- are you showing me the 2016 | 09:58:38 |
| criteria right now on the screen? | 09:58:42 |

population size to

| districts would be less preferable on these | 09:59:56 |
| :---: | :---: |
| criteria than a map that split it into two | 10:00:00 |
| districts? | 10:00:03 |
| MR. STRACH: Objection. Answer if you | 10:00:03 |
| can. | 10:00:06 |
| A I guess in some literal sense, you know, | 10:00:08 |
| if you -- but here -- the problem is this. I mean | 10:00:14 |
| you've -- (inaudible) -- criteria, and I'm sure, | 10:00:20 |
| you know, if I read that entire document, there | 10:00:21 |
| are other criteria there, and so you can't just | 10:00:23 |
| look at one criteria and say, well, if a map | 10:00:26 |
| violates that particular criteria, then the map is | 10:00:29 |
| per se going to be worse than a map that doesn't | 10:00:32 |
| violate that particular criteria, but again, you | 10:00:35 |
| said all else being equal I think. So if all else | 10:00:39 |
| is being equal, then you're probably right. | 10:00:42 |
| Q Okay. And just to confirm, so this | 10:00:45 |
| language was in the 2016 criteria and it was not | 10:00:47 |
| in the 2021 criteria. Do you have any knowledge | 10:00:50 |
| about why it was included in 2016 and not in 2021? | 10:00:54 |
| MR. STRACH: Objection. Answer if you | 10:00:58 |
| can. | 10:01:01 |
| A I don't know why it was in the 2016, of | 10:01:01 |
| course, and you know, in terms of the 2021 I don't | 10:01:05 |
| recall reading through this to, to compare it. | 10:01:10 |

Q Go ahead, please.

A The difference is the 2017, or 2019
rather, criteria said to improve, and this is just saying make reasonable efforts to draw the districts in a compact way, and I think most of that difference is explained by the fact that in 2019 we were again in a remedial setting where we were redrawing current districts.

In the 2021 draw we were starting with a
blank slate. We weren't redrawing anything. So
there was really nothing, nothing to improve.

Q To clarify, you said 2019 but you meant 2017, the criteria I showed you which --

A That's right, 2019, yeah.
Q Okay. So the 2021 criteria in your view
had no reason to try to improve the compactness of districts?

A Well, in 2021 we were drawing completely new districts, and so that's different than the other criteria that you're showing me because in those cases we're redrawing parts of a current map, and so you're improving on something that's already there. So, and I guess sort of the literal sense there was nothing to improve upon in 2021 in terms of we weren't working off of an old

Q So the criteria I've been showing you from 2021, did Democrats in your committee offer their own proposals on potential criteria or other sort of procedural requirements you could use during the process?

A Yes. So we had a committee meeting where members were allowed to submit whatever amendment they wanted to. As I recall, we passed one Republican amendment and one Democratic amendment, but as I said earlier, instead of getting amendments drafted and coming to me and other, the Senate chairs ahead of time to try to actually talk through what amendments would look like, we didn't receive any amendments until the morning of the committee meeting

If I recall, the committee started at 8:30 or 9. I'm not sure that we even had any amendments at the time the committee started, but I remember we were significantly delayed throughout much of the day as those amendments were drafted.

| So it was -- it was difficult at that | 10:05:19 |
| :---: | :---: |
| point, again, under the time crunch of wanting to | 10:05:21 |
| get criteria adopted with, before the census data | 10:05:24 |
| came out; it was difficult really to sit down and | 10:05:27 |
| have a reasoned discussion with them about | 10:05:31 |
| potential changes. | 10:05:35 |
| Q Well, one of the proposed changes came | 10:05:37 |
| from Representative Pricey Harrison; is that | 10:05:39 |
| correct? | 10:05:44 |
| A She -- I recall her putting forth one or | 10:05:44 |
| more amendments in that committee but I don't | 10:05:47 |
| remember which ones. | 10:05:49 |
| Q I'm going to show you something marked as | 10:05:51 |
| Exhibit 18. Does this look familiar? | 10:05:54 |
| A Can you zoom in a little bit? | 10:06:03 |
| Q Sure. | 10:06:05 |
| A And can you scroll down? Let me see the | 10:06:14 |
| other page. | 10:06:17 |
| Yeah. I think that was -- I think that | 10:06:26 |
| was one of her proposed amendments. | 10:06:28 |
| Q And Representative Harrison sent copies of | 10:06:30 |
| this to you and other committee members before the | 10:06:33 |
| joint meeting on August 18th; is that correct? | 10:06:35 |
| A If she did, I don't recall that. I don't | 10:06:40 |
| remember her, certainly don't remember her calling | 10:06:45 |

Transcript of Representative Destin Hall

me or speaking to me about it ahead of time. So I can't say that she didn't send it to, you know, my e-mail, but you know, as the Rules chair in the House and the House Redistricting chair, I mean, especially as Rules chair I get a lot of e-mails so it's really difficult for me to monitor it all.

Q But you just said you've seen this
document; correct? It's familiar to you?
A I think I would have -- well, again, I
think. So I'm not saying definitively. I'm saying in the context of you telling me that that was probably an amendment put forth, I think it was, and $I$ would have seen it in the committee room that morning, but again $I$ think there were like 12 or 13 amendments that $I$ was given, you know, just mere minutes to review and, and to decide upon.

Q And Representative Harrison asked for a vote on this proposal during your August 18th meeting; is that correct?

A She would have because we voted on -every amendment that a member put forth we took a vote on.

Q But you didn't hold a vote on this proposal during the meeting or afterwards, did

you?
A If she put it forth as an amendment, we
voted on it. Now some members did have, have -- I
remember Democratic members some had amendments
drafted that they ultimately withdrew for reasons unknown, but if Representative Harrison put this forth as an amendment, I would have ensured as
chair of the committee that it got a vote, as I
did for every other amendment put forth by

Democrat or Republican.

Q Either way, this -- these proposed
amendments did not pass. Am I correct?
A No.

Q And one of them you can see at the top of
your screen, for example, was to disclose third parties involved in redistricting. The committee
should immediately disclose all consultants and
counsel to members and committees of either House
of the General Assembly; it goes on a bit. That's
one of these proposed criterion?
A Yes.

Q Can you explain why you decided not to
adopt that criterion specifically?

A No. I -- again, I don't even -- I don't
recall this amendment specifically. I had 12 or

| 13 amendments that morning, so I, you know, I | 10:09:06 |
| :---: | :---: |
| don't know. Off the top of my head I can't tell | 10:09:10 |
| you why exactly we voted this entire amendment | 10:09:12 |
| down. | 10:09:17 |
| Q Well, looking back now, just looking at | 10:09:17 |
| that disclosing third parties, do you think that | 10:09:19 |
| that would have been a good idea, you know, in | 10:09:23 |
| retrospect? | 10:09:25 |
| MR. StRACH: Objection. Answer that if | 10:09:27 |
| you can. | 10:09:30 |
| A I don't think it would have made any | 10:09:31 |
| difference. | 10:09:33 |
| Q If the goal of a redistricting process is | 10:09:37 |
| transparency, do you think it improves | 10:09:40 |
| transparency to disclose third parties involved in | 10:09:43 |
| redistricting? | 10:09:45 |
| MR. Strach: Objection. | 10:09:46 |
| A I guess, you know, to some degree that is | 10:09:51 |
| in the literal sense of the word would be | 10:09:55 |
| transparent. | 10:09:58 |
| Q And one of the other criteria, just | 10:10:03 |
| looking here, disclose initial draft maps, and it | 10:10:05 |
| says, after receiving and incorporating public | 10:10:09 |
| comment draft maps should be released online for | 10:10:12 |
| additional public comment? | 10:10:16 |

A Yeah, that's right. You know, I thought as chair of the committee that really the best way to handle it would be just to let members draw using whatever groupings they, they wanted to. You know, I, I didn't know if the Democrats might choose other groupings. There may be other Republican members who chose a grouping different from what $I$ chose, and so instead of limit that upfront we just allowed that to be one of, one of the options in drawing the map for members.

Q Would you agree with me that the choice of which counties to group together could have significant partisan implications for a given map? MR. STRACH: Objection. Go ahead.

A I guess that's possible, you know, depending on, on what the, what, which grouping was chosen, but again, we didn't use any election data nor partisan considerations in choosing, in drawing or choosing groupings.

Q All right. Just going back for a moment to the 2021 criteria that we've been discussing. So one of those criteria you'll recall states partisan considerations and election results data shall not be used in the drawing of districts. Does that sound right?

A It sounds right, yes.

Q Okay. So I understand that based on that
criterion, the map making software on those
official terminals, they didn't allow uploading
election data. That's right?
A That's right.
Q Okay. So you couldn't measure the
partisanship of districts you were drawing while sitting there at the official terminal as the process was going. Is that fair?

A That's right.

Q But under your interpretation of the criteria a member could freely draw maps outside the official room that were drawn using elections data?

A Well, are you asking me could they
literally and physically do that?

Q I'm saying that if a member drew a map
outside the official map drawing room using
elections data and then brought it into the room and just copied the district lines, in your view would that violate the criteria that $I$ just read to you from the 2021 enacted criteria?

A I think so, but again, that's not what
happened here, on the map that I proposed anyway.

I can't tell you in terms of others, but obviously the map that $I$ put forth that didn't happen.

Q And when you say the map that you put
forth, are you talking about the House map?
A The state House map, yes.
Q The state House map?
A Yeah.
Q Okay. Well, going back to the question of what would violate the criteria. What about maps drawn by another person? Could a member take a map that he or she knew was drawn by someone else using election data?

MR. STRACH: Objection.
Q Use that as the basis for drawing a map in the public terminal room? MR. STRACH: Objection.

A I think the criteria says no election results data will be used, and so, you know, if a member explicitly knew that somebody was simply drawing a map using election results data and went and tried to go and copy that as a carbon copy, then yes, that would probably, at least in the spirit of that criteria, would violate it.

Q Okay. Well, you say a carbon copy. What if it was used as a template but maybe some small

changes were made; would that still violate the spirit of the criteria?

A Yeah, I mean I -- you know, at that point they wouldn't really be using an outside map, but I -- and again, that didn't happen in this case either on any maps that $I$ worked on, so.

Q Well, as the redistricting House chair, if you learned that someone had taken a map drawn by an outside person using partisan data and came in and used it as the template for drawing a map in the public terminal room and made a few minor changes, in your view would that violate the 2021 enacted criteria that you adopted?

MR. STRACH: Objection. Asked and
answered. Go ahead.
A Yeah, it probably would, but you know, as the chair of the committee, you know, if $I$ knew that, we, you know, there's a good chance we wouldn't have taken the map up as a, as a committee, and that would have been of course a reason for folks to vote against it if we did take it up.

Q Well, beyond that consequence of maybe not voting for it, what other consequences would you have imposed if you had learned that?

MR. STRACH: Objection. Asked and
answered.

A Everybody there is elected. I don't have the, you know, ability to impose any, quote-unquote, consequences on them.

Q Well, are you saying your committee could properly take one of those maps that $I$ just described that was drawn, you know, essentially election data by proxy?

A Again, it didn't happen in the House committee.

Q If it did, would it be proper for the House committee to pass that map?

MR. STRACH: Objection. Again, answer if
you can, and Representative Hall, make sure that Sam gets his full question out before you --

A Oh sorry. Sorry about that, Sam.
No, again, we did not want to use any maps
drawn using, using election results data, and so
in my opinion we would -- a map that was drawn
using election results data would not be a map
that complied with our criteria.
Q But it would be up to the committee just voting for the map to decide whether to pass the map. There were no additional restrictions on the

A No. I think that would be using election results data.

Q And what about if a member used their prior knowledge about the voting history of an area when drawing district lines?

A Well, you know, obviously you can't remove what, what's in your head, you know, in drawing a given map, and so, you know, again, our criteria was not to use election results data or partisan considerations, but obviously folks who were in there drawing those maps are human and they might know in general what the effect of $a$, of a given draw would be.

Q So if someone had very detailed knowledge of how various municipalities or VTDs or things like that voted and then drew district lines with the goal of maximizing partisan advantage, that would comply with the 2021 criteria?

A No, I don't think it would, because if you're putting partisanship ahead of the other criteria, and your question was if that was your goal to maximize it, you're not going to comply with the other criteria.

Q Well, assuming you complied with the other criteria and you had the goal of maximizing

partisan advantage as you drew lines, would that map comply with the 2021 criteria?

A I think if you had a -- if your goal was just pure partisan maximization, you're not going to comply with the other criteria just in the sense that, you know, if you're putting that ahead of everything else, you're not complying with the criteria. So that map would not be a, a map that complied with the criteria that was adopted.

Q I'll just ask one more time. Assuming that you did comply with the other criteria and your goal in drawing district lines was to improve your party's political position in the map, your view is that that would comply with the 2021 criteria; correct?

MR. STRACH: Objection. Asked and
answered.

A No.

MR. STRACH: Answer it again.
A No. Yeah, no, I don't think that would comply with the -- in the way it was asked, no, I don't think that would comply with the 2021 criteria.

Q Okay. Thank you. And in fact some members of your committee raised concerns during

your committee hearings that members could do some of the things like we've been discussing using election data. You recall that; correct?

A Yes.

Q Okay. For example, at the October 5th hearing Representative Harrison asked whether there was a way to prevent having election or racial data with you even if not actually loaded into the software. Does that sound familiar?

A It does.

Q And do you recall responding that members were, quote, free to handle those issues as they see fit?

A I don't remember my exact, my exact quote, but I, you know, remember my, my general answer was, you know, the folks in this, in the body of the legislature, they're all elected and, you know, I don't have the ability to go and, you know, monitor them 24/7. You know, we adopted criteria. Only maps that were drawn in the committee room would be adopted and, you know, I thought that unto itself is unprecedented, and doing that in a voluntary way. So I was
comfortable with the setup that we had.

Q And in fact you explained that you really

had no interest in checking what materials people were using when drawing maps. Is that fair? MR. STRACH: Objection.

A I -- if I recall, I think I didn't have any interest in, in checking in members' bags and in their briefcases and in their pockets, you
know. It wasn't simply that $I$, you know, $I$ don't care, you know, what you do outside of the room as long as you don't do it in here. That wasn't the point of whatever it was I said at the time.

Q So your concern was purely practical. If you had had a way to check what people were bringing in, you would have done so?

A Well, my concern was purely practical, and
I don't believe there was a practical way for me
to go and check folks, quote-unquote, check
members as they walked in the room. Again, you
know, these folks are all elected by the voters
just like I am, and, you know, it's not, it's really, I don't believe in my power to make them consent to a frisk search every time they walk into a committee room.

Q Representative Harrison wasn't the only
one to express these concerns. Representative

County draw in 2019 was basically entirely drawn by Democrats.

So I envisioned that being the case. I didn't really see it as a problem because my, my hope was that Democrats would be in there the whole time and, you know, they certainly could have. I mean any Democratic member or frankly their staffers for that matter could have come in at any time and sat down with me and any, or any other member who was in there drawing, and that was really the vision that we had before the committee at the time, and so $I$ don't think it was a real issue because, you know, members had the opportunity to come in and watch other members, sit behind them or work with them if they want to. I mean I would have been glad to have had any Democratic member who came and sat beside me, you know, I would have -- I would have sat right there with them and talked to them and welcomed them there, but unfortunately most of them decided to basically do nothing.

Q Well, but you in fact did not examine what members brought into the room during the map drawing sessions, did you?

A I think I've made that pretty clear so

far. No, I didn't do that, nor would I do that.

Q And to your knowledge did anyone examine
what members brought into the room with them when
they went to draw maps at the official terminals?
A I think some of the activists who, you
know, were recording much of the time, you know, they sat back and tried to, and I guess they were
trying to see what folks brought in with them.

Q Representative, have you watched any
footage of the public video feed of that map
drawing room in the House?

A No.

Q Okay. And I'm going to just pull
something up marked as Exhibit 7 here.
Do you see an image on my screen?
A Yes, I do.

Q Okay. So I'll represent to you that this
is a screenshot taken from about five hours and 14 minutes into the October 7 House video. This is
on the General Assembly's YouTube page.
A Right.
Q I'll represent to you that this angle is,
you know, it's the same angle shown on all the
redistricting videos. You see that three of the
map making terminals here are being used?

A Yeah, I don't know if they are or not because staff would sit at each terminal. Even when there was no member present, generally staff, and this was the central staff of the General Assembly, would be sitting there, so, and I'm not sure they're being used or not.

Q Do you see that there are folks kind of gathered at several of the computer stations and they have some, some things with them on the desk? Is that a fair description?

A Yes, but again, those may be central staff. The only way $I$ would know if they were drawing is to look at the other cameras to see if drawing was taking place at the time.

Q Okay. Well, do you see up on the
10:29:27
projector screen that there are sort of four panes
and three of them are white and one is blue on
the --

A Yes.

Q -- projector screen? Okay. Would you agree with me that usually when they're in use

having a committee meeting on, you know, other bills, they don't just come and, you know, walk around the committee room and, you know, come sit with legislators.

Q So my next set of questions, I'm going to refer to the redistricting process generally, the 2021 redistricting process, and just to set this up, when I use that term, I'm talking about all of the sort of procedural steps we've been talking about: Choosing criteria, drafting plans, analyzing the drafts, deciding which maps to support and then actually getting them passed. And I'm talking about, you know House, Senate, Congress.

Can you confirm that you understand how I'm using that term in this next set of questions?

A I understand that generally, but we'll see what the questions are.

Q And that's all I -- that's all I ask. And

I understand you've referred to some communications with some of the senators earlier in this deposition, but I'm going to ask you about some communications with various individuals about this process, and it's going to be a little bit broader because of this preface I just gave you.

> Did you have any communications in any form, oral or written or individually or in a group, with Senator Daniel in any way related to the 2021 redistricting process?

> MR. STRACH: Objection. I guess I'm a

little confused now, Sam. By process do you mean the drawing, the criteria, something before the criteria? Is there a time frame?

Q I mean the choice of the 2021 criteria, the drafting of the plans, analyzing drafts that have been submitted, deciding which maps to support, and then deciding whether to vote on those ones that were proffered.

MR. STRACH: Okay. You can answer it.
A Yes.

Q Okay. When did you have your first communication with Senator Daniel about the process?

A You know, again without going into, you know, what he told me because I don't think that I 10:33:27 had ability to waive his privilege, the first time 10:33:31 that I would have spoken to him about the process?
$10: 33: 36$ You know, I couldn't tell you a date. My guess is

10:33:42

10:33:47

| sketch out what, what the process would look like | 10:33:57 |
| :---: | :---: |
| you know, with the census results data being | 10:34:00 |
| delayed. I mean there was -- we knew there was no | 10:34:04 |
| real reason for us to get together when the census | 10:34:06 |
| results were not going to be to us until, you | 10:34:10 |
| know, July or August anyway. So I -- my guess is | 10:34:14 |
| that we would have met around July to go over what | 10:34:19 |
| the plan, what the process would look like. | 10:34:24 |
| Q Did you discuss the choice of the criteria | 10:34:28 |
| that you were going to use with him? | 10:34:31 |
| A And I want -- I want to be clear because | 10:34:33 |
| you may have asked me if I met with him | 10:34:36 |
| individually, and I, I just simply don't recall | 10:34:38 |
| that I met with him individually. All of them, as | 10:34:42 |
| far as I recall, all the meetings that I had would | 10:34:44 |
| have been with the other Senate chairs sort of as | 10:34:47 |
| a group and not individually, to clarify that. | 10:34:50 |
| Will you ask your last question again? | 10:34:55 |
| Q Sure. Well, actually I do want to go back | 10:34:57 |
| for a second. Did you meet with these people in | 10:34:59 |
| person? | 10:35:02 |
| A Yes. | 10:35:03 |
| Q Okay. And you said you thought maybe in | 10:35:04 |
| July? | 10:35:08 |
| A It probably would have been in July, but I | 10:35:09 |

A It probably would have been in July, but I

| were up -- they were down in the Senate committee | 10:43:19 |
| :---: | :---: |
| room. I was up in the House committee room, and | 10:43:21 |
| you know, they -- we didn't have, sit-down, as far | 10:43:24 |
| as I recall, discussions about what the House map | 10:43:29 |
| was looking like or the Senate map was looking | 10:43:32 |
| like. | 10:43:34 |
| Q Is that true also for all we've been | 10:43:34 |
| discussing, you know, the choice of the criteria, | 10:43:38 |
| the clusters, the decisions on district lines, did | 10:43:40 |
| you have any communications in any form with | 10:43:44 |
| Senator Berger on those subjects? | 10:43:46 |
| A Well, not that I recall. I don't recall | 10:43:53 |
| speaking to Senator Berger about any, any | 10:43:56 |
| districts, no. | 10:44:00 |
| Q Do you recall speaking to him about the | 10:44:01 |
| choice of redistricting criteria? | 10:44:04 |
| A No. | 10:44:08 |
| Q Do you recall speaking with him on the | 10:44:09 |
| issue of county clustering? | 10:44:12 |
| A No. I don't recall having any | 10:44:16 |
| conversations with Senator Berger about | 10:44:18 |
| redistricting. | 10:44:20 |
| Q Did you have any communications of any | 10:44:23 |
| form of the type we've been discussing with | 10:44:26 |
| Speaker Moore related to the 2021 redistricting | 10:44:28 |

process?
A The conversations, you know, that I would have had with Speaker Moore would have essentially been, you know, updates on, on the, how the process was going, when we thought it would be done, you know, when we expected to have floor votes, that sort of thing.

Q So you didn't have any conversations with him about choosing the criteria that were used?

A I don't recall talking to him about
criteria. I'm sure at some point I probably told
him about criteria but I don't even recall that specifically.

Q Do you recall when you would have told him about the criteria vaguely, like before they were proposed?

A No. I don't know. I don't know when I -I mean it wasn't an eventful conversation, if I had it. I'm just saying that I, I think I probably would have talked to him about the criteria we were proposing at some point.

Q And did you discuss with him the issue of county clustering at all?

A I don't recall. It's certainly possible, but if I did, it wasn't, again, it wasn't any sort

of eventful conversation.

Q Did you have any communications of this type with Senator Hise related to the 2021 redistricting process besides those you've already mentioned?

A Are you asking me if $I$ had conversations with Senator Hise about, about anything related to the 2021 House redistricting process?

Q Well, let me ask it -- let me ask it this way. Did you have any individual conversations with Senator Hise about the 2021 redistricting process one-on-one?

A I don't think so. As I've said, the meetings that $I$ recall were with the Senate chairs and me.

Q Do you have any written communications with any of these individuals -- Senator Newton, Senator Berger, Speaker Moore, Senator Hise -- at all relating to the 2021 redistricting process?

A I would have to go back and, and look through my e-mail and texts to see to say for sure.

Q Do you think it's likely that you have written communications about the 2021 redistricting process with these individuals?

 Conducted on December 27, 2021or written, with these individuals about either the choice of criteria, the choice of whether to cluster counties a certain way, the district lines that were actually being drawn or anything about the 2021 process in that vein?

A Okay. I at some point spoke to
Representative Adams. Without going into what he said to me, you know, I seem to recall giving him a general prediction sort of what in general his district would look like.

Q When you say "in general what his district would look like," do you mean the shape of the district?

A Yes. I mean I knew what the grouping was and how many members were, you know, in the, were in that particular grouping and you could see where they lived. So I mean, again, it was -just as a general matter, I mean the knowledge of individual members about a redistricting ranges from quite a bit to very little, and so obviously, you know, I'm going to have -- not, not saying that's what happened in this case, but obviously, you know, some members are going to, you know, ask me questions about what their district may look like.

Transcript of Representative Destin Hall
Conducted on December 27, 2021

Q Was the question related to his ability to get elected in that district?

A I'm not going to say anything about what
Representative Adams said to me.
Q Well, have you had conversations with
Representative Adams about your decision not to
tell me what he said during these conversations?
MR. STRACH: Objection. Instruct the
witness not to answer.
MR. CALLAHAN: You're not answering this
question on the basis of Representative Adams'
legislative privilege; is that correct?
MR. STRACH: Right.
Q Okay. Besides that conversation about the
content of Representative Adams's district do you
recall any other conversations with him?
A No, I don't think so.
Q Any other written or oral communications?
A No.
Q I realize we've been going for a good 90 minutes or so and I thought I would just offer if you want to break for a moment. Otherwise we can keep going.

impossible for me to really say with certainty all the folks that $I$, that $I$ spoke to. But obviously, and I, you know, I would have spoken to some legislators, but $I$ didn't speak to anybody in an interactive way in terms of, of a consultant or anyone like that helping me draw a map.

Q Well, setting aside helping you draw a
map, did you speak with anyone besides a
legislator about the choice of criteria that you ultimately enacted?

A I, I mean I'm sure I would have spoken to staff members who are lawyers and would have spoken to other lawyers.

Q When you say "other lawyers," could you
specify what you mean?
A I would have spoken to the lawyers who, at
least some of the lawyers who represent us in this case.

Q To clarify, you spoke with lawyers who now represent you in this litigation about which criteria to choose for the 2021 plans?

A I'm not going to get into, you know, what we spoke to our lawyers about, but, you know, you just asked me who, who we spoke to generally about redistricting.

Q But that was before, just to clarify, that
11:07:09
was before this litigation began?
11:07:12

A Well, and that may be, but again, we were
11:07:17

11:07:21

Q Oh, I'm sorry. I'm sorry. I was just clarifying for the record.

A Okay.
Q When you spoke with lawyers about the choice of criteria, was that before you proposed and enacted the criteria?

MR. STRACH: Objection to the extent that
you're asking him about legal advice. I mean you're asking him that whether he talked with lawyers about the choice of criteria. I think what he was saying was he got legal advice from lawyers.

MR. CALLAHAN: I apologize. I
misunderstood your, your response.
Q Going back for a moment though. Did you speak with any folks who are not legislators or legislative staffers about the choice of county groupings or how to conduct the county grouping process?

A I don't think so.
Q Did you have any communications with

Transcript of Representative Destin Hall
anyone who is not a legislator about the choice of how to draw specific district lines?

A It just would have been legislators and staff to the best of my recollection.

Q Once members had proposed maps did you speak with anyone besides legislators about sort of what the maps looked like or deciding which maps to support or anything like that about the actually drawn maps?

A After the maps were out, you know, I would have spoken to, you know, various media outlets about those maps which $I$ mean you can Google all that of course. So, yeah, I would have spoken to a lot of folks after the maps were out.

Q Did you speak to anyone besides the media about the maps once they were released besides legislators or the media?

A I'm sure I did, but again, I -- you know, these would have been -- everybody at the legislature was focused on -- basically all we were doing at the time was redistricting and so, you know, folks who were at the building may have asked me about it, but I -- there were no significant conversations that $I$ recall.

Q Just drilling down a little bit more

specifically. Did you have any communications with any representative of the North Carolina Republican party in any way related to the 2021 redistricting process in North Carolina?

A Do you mean before the maps were enacted?
Q Well, let's start with that. Yes, before the maps were enacted.

A Okay. I don't recall speaking to anyone at the party before the maps were enacted.

Q And what about after the maps were enacted?

A I have seen the chairman, Michael Whatley, on a couple occasions since then and, but I mean we would just talk about, you know, general matters, you know, we got sued, for example, and, you know, he was just -- he I think asked me about, you know, when, what the timeline was on the lawsuit and that sort of thing, but we didn't get into any, you know, district level discussion.

Q Do you have any records of that conversation?

A No, no. It was -- it was in person, and I think it was a couple of, a couple of occasions since then.

Q Can you approximate about how many times

you've spoken with him?

A I think twice. Sorry. I didn't mean to
cut you off --
Q No, no.

A -- but I think twice.

Q Okay. What about anyone at the National
Republican Redistricting Trust?

A I didn't speak to anybody there before
these maps were drawn. Since the maps have been
enacted and drawn $I$ went to a, a dinner, but I
think it was the like the National Republican

Lawyers group, and I seem to remember somebody
being there who said they were from this, the -- I
don't -- the name that you just mentioned, the
Redistricting Trust from the Republican party, but
I don't remember their name at all and I don't --
we didn't have any sort of substantive discussion about maps.

Q Okay. What about the Republican State

Leadership Committee?
A I'm not even sure that $I$ know who's on the Republican State Leadership Committee.

Q Okay. To your knowledge did you have any conversations with anyone affiliated with that committee before the maps were enacted?

A I don't know who's on that. I mean
there's any number of committees at the party, you know, some of which I'm probably a member of and don't even know it, but I mean there's a bunch of committees. I would have to know who's on there, but you know, I can just say as a general matter I don't recall speaking to anybody who, who I regularly associate with the Republican party before the maps were drawn.

Q Is that true also of the Republican

National Committee?

A Yes. Yeah. I don't recall having any sort of redistricting discussions with, with anyone associated with the party. You know, from a, from my local party or from another local party at some point along the line they may have asked me sort of timeline and when, you know, maps would be out. I'm sure my local folks asked me that, and so I just would have told them, you know, basically what was already public and that is, you know, we had the -- the time we felt we had to get it done by the beginning of November but we knew we ultimately had to get it done at the beginning of November.

Q Besides what was publicly available did

you discuss anything about the choice of criteria or the choice of county clusters or anything about the district lines that you were anticipating drawing or that were drawn with your, with local Republican folks?

A You know, I may have -- the only thing that I would have discussed with the local folks would have been what our area would very likely look like and, you know, in my area the groupings are, you know, what largely draw the districts themselves, and so I probably, you know, gave them some, I would have given them a forecast of what our state House and state Senate district would look like. You know, as far as Congress goes, you know, I didn't know what district we would wind up in, and where I'm at geographically it could be any number of districts. So that would have been the extent of my conversation with the folks locally. We -- I wouldn't have had any in-depth discussions with them about criteria and other issues like that.

Q To go back to the Congressional map for a moment. Did you speak with them about what you expected the Congressional district that encompasses your county to look like?

to each one of these people about every one of the things that you mentioned. Obviously, as you know, you've asked me a really broad question, basically did I talk to anybody else about redistricting at all, and I'm sure I did, but I, you know, it's difficult for me to, to pin down who, but $I$ know I would have spoken to staff. My local party folks would have been asking me questions about what was going on, but other than that $I$ don't really recall; media outlets, you know, and I, again, I probably -- I know I gave some interviews before the maps were enacted, so I would have been talking to them. That -- that's all $I$ can recall off the top of my head.

Q Sure. And recognizing the question is broad, let's talk specifically about the district lines that, you know, were actually drawn in the

House map. Did you speak with -- who did you speak with particularly that was not a legislator, not a staff, not a media person, about the actual district lines of the map that you were drawing in the House?

A You know, as best $I$ can recall, the only discussions I really had outside of legislators and staff and media would have been my local party

A And I'm sorry, I cut you off now. I apologize. No. I don't recall any of those specific conversations, and I -- it's because they would have been nonconsequential conversations. I didn't really take any of that into, to account. I had too much else going on.

Q Do you think there are any written records of any meetings you might have had along those lines?

A I would be shocked if, if, you know, any of those folks went and made a memo after talking
to me. I know I didn't make any sort of written memorialization of those conversations if they happened.

Q And I asked you this question about the

House lines but $I$ know you also drew and proposed a Congressional map; is that correct?

A Yeah, I did.

Q And so same question about the

Congressional map. Did you have any conversations with anyone besides the local party folks we just discussed, any input at all into the Congressional district lines either before you began drawing them or while you were drawing those lines?

A And my answer's the same. Yeah, I did

not defendants in this case? I mentioned a few o them before but I'm sure you know, you probably know better than $I$ do, but Representative Saine, Torbett, Adams, Dixon, Hardister, Hastings, Jones, Mills, Rogers, Szoka, Warren, Zachary, to your knowledge did any of those individuals have any communications with nonlegislators, nonstaff about anything about the process?

A Not to my knowledge.

Q To your knowledge did any of the
individuals I've listed so far -- that's your committee, Newton, Daniel, Berger, Moore, Hise -did any of those individuals use partisan data when drawing or analyzing proposed district plans for either the House, the Senate or Congress?

A Not to my knowledge.
Q To your knowledge did any of these individuals rely on maps drawn outside the map drawing room in drafting maps or in evaluating any maps that were proposed?

A Not to my knowledge, but I, again, I wasn't in the Senate room, the Senate committee room. I would have been down in the House committee room.

Q Did any of these individuals draft maps or

Transcript of Representative Destin Hall Conducted on December 27, 2021
discuss proposed maps with any political consultants or any Republican party officials along the lines of what, you know, what types of folks we've been discussing?

A Not to my knowledge.
Q So you don't know one way or the other
whether any of these folks talked to anyone besides you about the redistricting process?

A Again, I'm sure they spoke to their staff. I'm sure they spoke to media outlets, but other than that $I$ don't know.

Q Did you or any of these individuals I've listed discuss anything about the 2021 process with any members of the North Carolina Congressional delegation or their staffs?

A I don't know what other members did but I spoke to Congressional members.

Q Oh, what did you speak about with
Congressional members?

A Well, yeah, I think -- can you narrow that question a little bit? I mean.

Q Sure. Did you speak with any members of the North Carolina Congressional delegation prior to enactment of the House or Congressional map about the district lines that were drawn in those

Senate districts?

A To be clear, my last answer, you know, obviously I have to go back and look through my texts. I don't specifically remember any texts, but, you know, obviously I've got the ability to go look.

And then your last question, $I$ don't think
I spoke to either of those Congressional members about the state House or state Senate districts.

Q Have you been made aware of a discovery request that the plaintiffs served in this case asking for communications about the redistricting process?

A I, I am generally aware that you all have served a discovery request.

Q Have you compiled or are you in the process of compiling materials that are responsive to that request?

A No. I just found out about it I guess yesterday evening, and of course I haven't had time to, to do much since then.

Q Is your impression that the materials we've been discussing like text messages from individuals about the 2021 redistricting process are the types of things that we've requested?

Transcript of Representative Destin Hall Conducted on December 27, 2021

MR. STRACH: Objection. That's going to
involve privileged advice that we've given him, so I'm going to instruct him not to answer that.

Q I want to move on to talk a bit about the maps that were actually enacted. So let's start with the House map, and just to kind of get our bearings. You testified earlier that you drew the map that was ultimately enacted?

A I drew almost all of it, yes.

Q When you say "almost all of it," could you clarify a little bit? What, what portions did you not draw and who drew those portions?

A As far as I recall, the only portion that I did not wholly draw would have been the, the district in Wayne and, Wayne and Duplin Counties,
 initial district, and it's my understanding that Representative John Bell made some tweaks to that particular district, but again, I drew the, sort of the initial district that he changed. Other than that $I$ think that $I$-- I think that $I$ drew the rest of the map.

Q And I take it you approved of the change that Representative Bell made to that district or those districts?

## Transcript of Representative Destin Hall

Conducted on December 27, 2021

A Yes.

Q Did you consult with him at all about the changes he was making while he was doing so or, or thereafter?

A I don't think I can waive his privilege, so I'm not going to you know, discuss anything that he told me.

Q Well, did you communicate to him about the content of the changes that he made?

A I know I spoke to him, you know, at some point about that particular grouping and, and so you know, I probably just would have communicated to him that $I$ was okay with changing it.

Q What was your understanding, and I understand you're not going to tell me what he said because of legislative privilege, but what was your understanding of the reason that he made the changes that he did to your districts?

MR. STRACH: Objection. That's
legislatively privileged. It's just indirectly trying to get at what would be, you can't ask directly, so I'm going to instruct him not to answer that.

Q Representative Hall, I'm asking you when you saw the changes that Representative Bell made,

Transcript of Representative Destin Hall
Conducted on December 27, 2021

| what was your understanding of the purpose of | 11:33:40 |
| :---: | :---: |
| those changes? I'm not asking you to tell me | 11:33:42 |
| anything about what Representative Bell told you | 11:33:44 |
| about those changes. | 11:33:46 |
| MR. STRACH: No. I mean it's the same | 11:33:47 |
| objection. You're just simply trying to do | 11:33:50 |
| indirectly what you can't do directly. So we'll | 11:33:53 |
| stand on that objection. | 11:33:57 |
| Q Okay. Well, Senator Hall [sic], to | 11:33:58 |
| clarify, you're not answering that question based | 11:34:00 |
| on legislative privilege? | 11:34:04 |
| A That's right. | 11:34:04 |
| Q Okay. Whose legislative privilege? | 11:34:05 |
| Sorry, just to confirm. Yours? | 11:34:09 |
| MR. STRACH: Representative Bell's. | 11:34:14 |
| A Representative Bell's. | 11:34:15 |
| Q Representative Bell's legislative | 11:34:16 |
| privilege, okay. Going back. So let's set aside | 11:34:20 |
| the cluster we just discussed briefly, everything | 11:34:25 |
| else about the map. You drew it at the computer | 11:34:28 |
| terminal in the Legislative Building; is that | 11:34:30 |
| correct? | 11:34:33 |
| A Yes. | 11:34:33 |
| Q And your map drawing there was video | 11:34:34 |
| recorded and live streamed on the Internet? | 11:34:37 |

recorded and live streamed on the Internet?

Transcript of Representative Destin Hall
Conducted on December 27, 2021

A Yes.

Q Is that your understanding?

A Oh sorry. Yes, that's right.

almost no time to do. So we would -- I know we've at some point had some discussions about different areas of the state we would have to, have to work on just by virtue of the groupings, but before we started, you know, just -- it was -- that was just the general conversation $I$ just described.

Q Okay. Before you started working on the computer terminal had you done any work beforehand on the district lines?

MR. STRACH: Objection.

Q Oh go ahead.

MR. STRACH: Just objection. I don't know
what the word "work" means, but go ahead and answer it.

A I think my last answer applies. Yeah, I would have spoken to staff members and, and at a minimum $I$ would have spoken to staff members about, about what the process would look like and, you know, where we would have to work out.

Q Anyone besides staff or legislators?
A I'm sure when groupings came out members would have questions. You know, again, you know, some members know a lot about redistricting. Other members who maybe have not served on the committee they may not know as much, and so, you

know, when they see on the news or online that groupings have come out, they're curious about what their district may look like, and, you know,

I, I am sure that I heard from a number of legislators, probably heard from some Democrats, but you know, again, it was -- these were nonconsequential conversations, so I don't recall them

Q Did any of these conversations in any way discuss the partisan implications of particular groupings?

A No. I, I didn't discuss with any members about partisan implications.

Q You didn't discuss with any members but it's -- are you saying that members potentially had discussed that with you?

A Well, as you know, I am not going to breach the privilege that other members have, legislative privilege, so.

Q Representative, I haven't asked you about any particular legislator. I'm asking did anyone raise concerns to you about the partisan implications of any county groupings that had been announced?

MR. STRACH: Yeah, that's asking him to

disclose conversations by other legislators on a particular topic, so that, we would consider that privileged and so we're going to instruct him not to answer that.

MR. CALLAHAN: Okay. Thank you.
Q Did you -- and returning to the question
about work beforehand. Did you start drawing any of the district lines before you started at the public terminal?

A No.

Q Okay. Did you draw the map in multiple sessions or were you in the terminal room the whole time you drew it in one sitting?

A Well, as you know, $I$ was in there at multiple sessions.

Q And between the sessions, did you speak with anyone outside the map drawing room about the district lines as you were drawing them?

A Yes.

Q And who did you speak with?
A I would have spoken to my staff. I would

Transcript of Representative Destin Hall
would frequently print out whatever latest draft we had so that they could take it with them and whatever they wanted to do with it. Other than that $I$, you know, other than quoting my previous answer about media and, you know, if some lobbyist or somebody happened to be at the building come by I can't, you know, say I didn't speak to anybody else but it primarily would have been staff and legislators.

Q Did anyone provide you any written materials during this map drawing process between the sessions in the terminal room?

A No. I don't think anybody gave me written material.

Q To your knowledge did anyone give your staff any written material?

A Not to my knowledge.

Q And just to go back for a moment which I neglected to ask. So between when the county groupings were released and when you first sat down at the terminal to start drawing the district lines, did anyone speak with you -- did you receive any input whatsoever from anyone other than a legislator or his or her staff about the district lines?

Transcript of Representative Destin Hall

A Again, not that $I$ recall but, you know, $I$ chair the committee, and I'm sure other folks, you know, maybe asked me what districts would probably look like and that sort of thing, but it was -I certainly had nobody who was a, you know, like I said, a consultant or anybody who was, you know, advising me on, on drawing the maps other than the folks we've already discussed.

Q Did any of these conversations in any way relate to the partisan implications or, when you say what the districts would look like, do you mean how likely they would be to elect a particular person or a person from a particular party into the House?

A No. It would have -- it would have been things like, you know, where members -- some of the concerns that $I$, you know, would be heard would be double-bunking and that sort of thing, but I took precautions not to discuss any sort of election data or partisan data.

Q You took precautions not to discuss those things. Did anyone, again besides legislators or their staffers -- I understand we're not talking about those right now -- but did any of these people between release of the county groupings and

| when you started drawing district lines bring to you election data or partisan considerations in | $11: 42: 24$ $11: 42: 26$ |
| :---: | :---: |
| their conversations with you? Did they raise | 11:42:29 |
| those topics? | 11:42:32 |
| A I don't recall any conversations like | 11:42:33 |
| that. | 11:42:35 |
| Q You mentioned double-bunking. Did any of | 11:42:36 |
| them raise particular concerns about trying to | 11:42:39 |
| either avoid or ensure that incumbents were | 11:42:45 |
| double-bunked? | 11:42:50 |
| A You're asking me again other than staff | 11:42:52 |
| and legislators? | 11:42:55 |
| Q Correct, correct, correct. | 11:42:57 |
| A No. I don't recall anyone discussing that | 11:42:58 |
| with me. | 11:43:00 |
| Q So when you mentioned double-bunking, you | 11:43:04 |
| were talking only about conversations with | 11:43:06 |
| legislators and their staff; not with anyone else? | 11:43:09 |
| A Yeah. I mean if you can exclude -- so | 11:43:15 |
| yes. | 11:43:20 |
| Q Okay. So you had no conversations with | 11:43:20 |
| any outside individuals outside of the legislature | 11:43:22 |
| about election results, partisan data, the | 11:43:27 |
| district lines, double, whether they would double- | 11:43:31 |

A No one other than the folks I previously described.

Q Okay.
A That I recall.

Q Do you recall about -- you mentioned multiple sessions. Do you recall about how long
it took you to draw this map in terms of the time you actually spent sitting at the terminal?

A Yeah. It took a long time. I was in
there probably about three weeks or so. I was typically there Monday through Thursday through, you know, huge parts of the day.

You know, obviously I have other
responsibilities as Rules chair I have to deal
with. I have a law practice at home that I'm, you
know, constantly having to deal with of course,
and so I was -- it was -- from the time that the
drawing opened I mean it essentially took just about the whole time to draw the state House map just because it's, you know, it's a lot of work. There are 120 districts. They're smaller of course population-wise than the state Senate districts, and so it took, it took just about the whole time that we had the terminals open.

Q At any point when you were sitting at the

| terminal or during breaks or anything like that | 11:45:08 |
| :---: | :---: |
| did you ever consult any political or election | 11:45:10 |
| data at any point when drawing these district | 11:45:13 |
| lines? | 11:45:15 |
| A No. | 11:45:16 |
| Q Did you consult any political or election | 11:45:16 |
| data at any point in preparing for the process | 11:45:18 |
| that would begin in October, even if it was before | 11:45:22 |
| it started? | 11:45:24 |
| A No. | 11:45:27 |
| Q Did you consult any political or election | 11:45:30 |
| data at any point when you were analyzing your map | 11:45:33 |
| once it was drawn? | 11:45:35 |
| A You're asking before it was enacted? | 11:45:41 |
| Q Correct. | 11:45:43 |
| A No. | 11:45:45 |
| Q Did anyone on your staff do any of the | 11:45:47 |
| things that I just described, whether it was | 11:45:50 |
| consulting any political or election data while | 11:45:53 |
| you were drawing, in preparation for your drawing | 11:45:56 |
| or in analyzing the map that you actually drew? | 11:45:59 |
| A Not to my knowledge. | 11:46:02 |
| Q Well, did you take any steps to guard | 11:46:04 |
| against that from happening from your staff? | 11:46:07 |
| A Well, I chaired a committee where I | 11:46:10 |

Transcript of Representative Destin Hall Conducted on December 27, 2021

| proposed criteria that said we would not use | 11:46:12 |
| :---: | :---: |
| election data, and my staff obviously was well | 11:46:16 |
| aware of that. So I believe they knew and | 11:46:18 |
| understood that we were not using any sort of | 11:46:24 |
| election data; so they, I believe that they didn't | 11:46:27 |
| look at it. | 11:46:29 |
| Q Your basis for saying that is the enacted | 11:46:33 |
| criteria which prohibited the use of elections | 11:46:36 |
| data, but you're saying that you never asked them | 11:46:40 |
| specifically not to use election or partisan data? | 11:46:43 |
| MR. STRACH: Objection. Go ahead. | 11:46:48 |
| A You know, I don't recall specifically, you | 11:46:50 |
| know, directing them not to do that, but at the | 11:46:54 |
| same time I think it was clearly understood based | 11:46:58 |
| upon the criteria that was passed. | 11:47:02 |
| Q Did you ever ask them whether they had in | 11:47:06 |
| fact consulted any partisan or elections data? | 11:47:08 |
| A I didn't have reason to. Again, I believe | 11:47:15 |
| that they know, they knew that we were not using | 11:47:18 |
| election data, and so I didn't have any reason to | 11:47:22 |
| ask them if they did. | 11:47:25 |
| Q Did you at all rely on any map that was | 11:47:28 |
| drawn outside the public terminal room, not just | 11:47:31 |
| by you but by anyone, as either like a draft or a | 11:47:34 |
| template or a starting point or anything like that | 11:47:39 |

template or a starting point or anything like that

Transcript of Representative Destin Hall
for something that you drew in the terminal room?
A The only thing that $I$ would have, have seen would have been the sort of concepts that, that staff had put together, and that was on a, just a few, a few times for purposes mainly of, you know, I couldn't be there for, you know, another month drawing the map. We were, you know, essentially running out of time, and so of course

I had to have some help from staff to help get the map drawn.

Q Do you know which computers your staff used to draw those draft maps?

A No. I don't know which computer.
Q Were they drawn in the public terminal
room?

A Those, the particular maps that we're discussing right now, no, they wouldn't have been. I don't think so anyway.

Q So the maps that your staff prepared were not subject to the restriction of loading elections or partisan data into the computer?

A Well, again, you know, my staff knew we were not using election data, and, and I certainly never saw any elections data myself, and I don't believe that my staff used any elections data.

Q I'll ask my question again. Your belief aside, the computers used to draw draft maps by your staff were not subject to the software restriction that prevented election data for being loaded into the terminal; is that correct?

A I don't know the answer to that. I can just tell you that any map that $I$ saw did not have elections data on it, and I don't believe they used any elections data.

Q Who gave you the specific draft map that you used as the basis for your map?

MR. STRACH: Objection. That's not what he said, what he testified to, but you can answer that if you can.

A Nobody gave me a base map for the state on, state House districts or any other districts.

Q Well, you just testified a moment ago that you used as, you might have said a template or a shell, I forget the exact word you used, but you consulted a draft map when you were drawing the district map that you actually used; correct?

MR. STRACH: Objection.
A So I think that what you have in mind is a statewide map of all the House districts, and I've never had anything approaching that. What I'm

staff in that room with you as you were viewing the draft maps?

A They largely didn't participate at all.
If they had been there, I would have been glad to talk to them and showed them exactly what was on there, but they, they, for whatever reason, decided not to really participate.

Q Okay. It's just a yes or no question. Were there any Democratic members or any Democratic staff members that viewed these draft maps outside of the terminal room?

MR. STRACH: Objection. You can answer yes or no, but you can certainly explain your answer.

A Like I said, not to my knowledge but, you know, it's because they didn't ask and they weren't there. They didn't show up most of the time.

Q And you've never asked Mr. Reel either way what type of information he consulted in preparing the draft map; is that correct?

A Like I said, I didn't need to. The staff knew what our criteria were and so there was no necessity to do that, and I had no reason to believe that that's, that any election data was

being considered.
Q Did this meeting where you viewed these
drafts -- well, I'm sorry. Let me ask one question. Did you view all of the drafts in a single meeting or were there multiple meetings?

A It would have been multiple meetings.
Q Okay. Was the first of these meetings before you first sat down to the terminal to start drawing the district lines?

A I don't think so, no. You know, initially
I just, you know, was simply going in and drawing, you know, starting with the one county groupings and moving on to two county and so on and so forth, but as you get into the process it's more and more difficult to draw these maps. It just takes longer just by the sheer number of districts that must be drawn, and so with our tight
timeline, you know, it became clear we were not going to have time for me to just sort of go in there and figure it out, you know, without any sort of plan at all in drawing these districts. So, again, knowing that because what the board of elections had told us we had to have these maps done really by early November, I looked at the timeline; there was no way we were going to

be able to finish. At the same time, you know, I wanted to draw a Congressional map as well, and of course the Senate has three chairs, and their Senate maps are, they don't take as long to draw as the state House map, and so, you know, they could essentially finish their state Senate map or at least their proposed map, and they were working on Congressional maps, and I wanted to be able to do, you know, some of that as well on the House side.

So, you know that, that was the purpose of the, of having staff work on concepts, you know, again, with just giving a heads up of, hey, here's where, you know, a given city is and we want to keep cities whole; we want to keep, you know, given, a school maybe, you know, we want to keep some college or some university together. That way $I$ wasn't just going in there blind.

Q So to be sure I'm understanding the timing of everything, you would sit down for a given session in the public room and draw some lines and then step out from the public room and consult in another room close by you said near the committee room and go over these maps you described as concept maps that your staff had drawn, and then

you would go back in and draw lines at the public terminal? Is that a fair summary of what you just said?

A Well, I think generally, but I, you know, what $I$ did was essentially, you know, we would have -- I would talk to staff about, you know, whatever grouping we were going to work on and, you know, if it was one that was going to be difficult or, you know, we were just running out of time, they would, you know, maybe work on a, again, a concept, and, but $I$, you know, it wasn't that I, you know, went in and just simply copied, whatever, you know, concept they had.

You know, I just generally had in mind, you know, where the towns were and where the population might be in a given grouping; it gave me some frame of reference to work off of, and $I$, I think for anybody who's ever sat down and used the Maptitude software they'll understand that it is really difficult to go in in some of these groupings and just sit down and just draw from scratch without any sort of plan in place, and what can happen is you can easily sort of just get the map, get the districts so jumbled up that they're not compact, they're splitting

Transcript of Representative Destin Hall

municipalities and, you know, you're trying to obviously create the ideal population size.

So it is a, it's a time-consuming process
and especially when you're wanting to do it right and follow the criteria that we put forth.

Q Are there any records, to your knowledge, of these concept maps?

A Not to my knowledge.
Q Okay. Were you -- you mentioned

Maptitude. Were these concepts drawn using

Maptitude?

A I don't know. I don't know what particular software was used.

Q Forgive my ignorance of the location of various rooms in the House, but was this, was this room one of your offices?

A No. It was another member's office.

Q Oh. Whose office was it?

A I think it was Grey Mills' office, but I -- I -- I don't believe he was there for probably any of the time that, that we were using his office.

Q Did you schedule these meetings so that folks could attend if they wanted to? Did you schedule them in advance or give any notice of

where they were going to be?

A What meetings are you talking about?
Q The meetings to, to analyze or discuss
these concept maps between the public sessions of
drawing maps?
A None of them were scheduled at all. I
mean it was just a, just a stream of, you know, when we got done with one grouping, we would go on to the next one.

Q So the public couldn't view these, these
meetings?
A Well, I mean if they were out in the hallway or, you know, they presumably could have, but no, we didn't, we didn't notice them, but they were, again, you know, in my mind nonconsequential
meetings. It was just sort of a strategy session to make the map drawing process more efficient.

Q Did you use this process for all of the county clusters?

A No. Like I said, I, I don't remember specifically how many but $I$ think it was around five.

Q Which county clusters do you recall using this process for?

Wake. I mean again some of the more difficult draws. I recall Pitt County, Pitt County had changed quite a bit in terms of their grouping and so that was going to be tough, a tough draw with two incumbents there and trying to not double-bunk them. Uh...

Q I don't mean to interrupt your thought.

A I'm just trying to recall if there were any more. There may have been one or two others, but I, again, I don't recall, and that's because it was more so just kind of like looking at a grouping, you know, outside of a room and just imagining in one's mind what a district may look like inside of that grouping. That's really what that was for, for my staff and me. It was just so I sort of had a general concept in mind of where the towns and cities and populations were so that I can, you know, go in and at least have some game plan in place for how to draw the given districts.

Q Right. So you mentioned Wake which is you said a complicated draw, and Mecklenburg has a lot of districts. Is that one of them where you used this process?

A You know, I -- it may have been, but with Mecklenburg, you know, I essentially took the

current districts that, that again the Democrats drew in 2019 and I basically took those current districts. Mecklenburg added one district because of the census, and $I$ put that district in Mecklenburg. So those districts are largely the same, and I, you know, I knew that was my game plan on Mecklenburg, so $I$ don't know that there was anything in terms of a concept drawn for Mecklenburg that $I$ recall just because we knew because there was only one seat being added that, you know, we could pretty easily keep districts very similar to what a court had already upheld and the Democrats themselves had essentially drawn and so we thought that was the best, best path to go. So I don't know that I really needed any sort of guidance before drawing that one.

Q Well, so it's your testimony that you did not consult outside of the public map drawing room about how to draw the Mecklenburg districts in the House?

A As I said, I don't remember seeing -well, let me back up. You said consult anyone. Yeah, of course I spoke to staff about, you know, what, what we would do, but $I$ don't remember if there had been any sort of, of concept map drawn

 Conducted on December 27, 2021by staff for Mecklenburg, and $I$ seem to recall that we really didn't need to because we knew we were going to try to keep the districts the same.

Q Did you do that same thing of trying to keep the districts the same for Wake County?

A Not as much because they added two districts, and so it really wasn't going to be workable to try to keep them the same, although I think in large part we did that with many of the districts, but there was really no way to -- you couldn't do it as uniformly as, as it was done in Mecklenburg.

Q So the purpose of redrawing the Wake districts using a concept map was because there were two new districts were drawn in Wake? Is that your testimony?

A Well, I wouldn't say that was the only purpose. I mean the purpose was, you know, it would take hours to go, it takes a long time to go draw a county that has, where they have I think 13 districts. So, and it was going to be tough to really keep the districts very similar to what they were. So that was --the purpose was to, to help me get it drawn in an efficient manner.

Q Did you use this process of concept maps

for Guilford County?

A No, I don't believe so. Not that I recall, and again that's another one where we were trying to basically do a least-change approach because Guilford had been so heavily litigated over the years, and I want to say I only changed like two or three precincts in Guilford for
purposes of population. So I don't think, as I recall, I really didn't need, have a need for any sort of, of help in terms of, you know, looking at a concept ahead of time.

Q And what about Forsyth, Forsyth-Stokes I think was the cluster?

A With Forsyth, you know, again we wanted to keep it as similar as we could, and I think that I -- I think I saw, you know, what we're sort of calling a concept map ahead of time, but I, I don't even -- I don't know that the one we, that $I$ wound up with was anything close to that, you know, because, again, the goal with Forsyth was to keep it as similar as possible.

The problem with Forsyth that we didn't have with Guilford was Forsyth had changed its grouping from, it had previously been Forsyth and Yadkin, and now it switched over to Forsyth and

Transcript of Representative Destin Hall
Conducted on December 27, 2021

Stokes, and, you know, of course, again, if
anybody who's ever sat down with Maptitude and used it knows that you switch a grouping around like that, it's you're throwing a lot of different variables, new variables in that made it really difficult to, to keep it as similar to the current map as we did with Guilford, but we still I think did a pretty good job of keeping it similar to what the current map has.

Q But you did review a concept map for

Forsyth-Stokes before drawing it in the public terminal room?

A Again, I think so. I think I did, but I, you know, again, that's -- I don't know for sure. It was -- it was nonconsequential to me in drawing that map.

Q It was nonconsequential? Do you mean that you would have drawn the exact same district boundaries either way?

A Yeah, yeah, I think so, because I, you know, like I said, I don't -- I don't even know that whatever I saw because I don't remember what the concept even looked like, I don't know that what $I$ drew was even whatever was on the concept.

Q So the process was to enhance efficiency,

but you didn't actually really look at the concept map; is that correct?

A No, that's not what I said.

Q Okay. Well, you just testified that you didn't actually consult or you didn't use the district lines in the concept map? Is that not what you just said?

A No. I said I don't recall what that concept map really looked like, but again, in that particular grouping I knew basically the plan was to try to keep things as similar as, as possible, and so really, you know, that's the main thing I had in my mind in going in to draw was keep things as similar as to the current districts as $I$ could.

Q What about Buncombe County? Did you use a concept map for that cluster or that county I should say?

A You know, I don't remember on Buncombe because I know with Buncombe I drew a couple of different maps in the room and, you know, there Asheville is a smaller city compared to some of the others that we talked about, and, you know, we wanted to keep municipalities whole, and so really what $I$ was trying to do is keep Asheville as whole as I could, and it can't be kept completely whole,

and I think we did that; we kept it $I$ want to say 90-some percent whole.

The first map that I drew it was -- it
didn't really -- it didn't look good. It looked compact, and so I basically started over from scratch, went back in and drew another map, but I don't recall specifically seeing any sort of concept map for Buncombe, and the fact that I went in and draw, and drew again makes me think I probably didn't have one, but again $I$ don't specifically remember one.

Q Okay. Did you use this process of
consulting draft maps for the Congressional map that you drew as well?

A No. With the Congressional map that I drew, you know, I essentially just, just kind of did it, sat down and $I$, and in fact what $I$ did, $I$ got to basically the middle of the state and, and took a break, and again knowing the time constraints $I$ was under for the state House map, Sarah Stephens, Representative Sarah Stephens, she came in and actually finished the Congressional map that, that $I$, that $I, ~ y o u ~ k n o w, ~ q u o t e-u n q u o t e, ~$ drew; I guess it was a member-submitted map by me. She went in and drew -- I said, I said the eastern

half but I'm not sure that she -- that was -- I
don't know -- I'm not sure it was that much. I
had drawn a large part of that map, and I think primarily what she did was she went in and zeroed
out the populations for deviation purposes.
Q I see. And to your knowledge did any
other legislators who drew maps use a process
similar to what you described of using either a
draft or a template drawn by staff and evaluating
that outside of the public terminal room?

A Yes. The Democrats did.

Q Okay. I guess I'll rephrase my question.
To your knowledge did any Republican members do this process?

A Not to my knowledge.
Q So only you on the Republican side?

A Yes, as far as $I$ know.

Q Okay. I'd like to move to looking at some
of the actual districts.

Please --

MR. STRACH: Yeah. Do you want to take a
lunch break now?

strategy sessions we've been discussing.
Can you list every individual who was in
any one of these strategy sessions for me?

A You know, as far as I recall it would have been Dylan Reel who's a general counsel in my office or was a general counsel in my office at that time, and Neal Inman, the Speaker's Chief of Staff. You know, at some point my legislative assistant, Lucy Harrill, probably would have come by or come in, although she didn't have any real part in discussions about redistricting. I mean she just, you know, would have been dealing with other matters for me.

And in terms of those meetings I'm not sure who else would have, would have come by in one of those meetings. I'm sure a number of other members would have come by just, you know, sort of wandering around that we would have met with, but other than that $I$ think that's about it.

Q Do you recall any specific other members who attended any of these meetings?

A I am pretty sure Jay Adams came by at some point. Again, none of these members are taking part in -- the other members who came by are not taking part, they weren't taking part in, you

know, sort of substantive discussions about what, what districts would, would look like.

Q Any -- anyone besides Representative Adams that's coming to mind in terms of --

A And, yeah, to be clear we're talking about
the meetings $I$ discussed earlier sort of outside
the committee room?

Q That's right.

A That's what you're talking about? Yeah.

No members that, that I recall. I seem to recall
talking to Frank Iler, Representative Frank Iler
in, just outside the committee room. I think
Representative Allen McNeill came by.
Representative Jamie Boles would have come by, and
I'm just trying to think through anybody else
that, that would have, would have come by. Those
are all that $I$ remember.

Q Could you remind me, you said your
legislative assistant. What is the name of your
legislative assistant?
A Lucy Harrill.
Q Can you spell that?
A L-U-C-Y, Harrill, I think it's
$\mathrm{H}-\mathrm{A}-\mathrm{R}-\mathrm{R}-\mathrm{I}-\mathrm{L}-\mathrm{L}$.

Q And could you spell Mr. Reel's last name

as well?

A $\quad R-E-E-L$.

Q And he is one of your staff members?
A Yes. He's the -- he was the general
counsel at the time.

Q General counsel. General counsel of your
staff, that's right. And, and the Speaker's Chief of Staff. I'm sorry, the names are, you know, escaping me a little bit in the moment. The

Speaker's Chief of Staff who also attended, what was the Chief of Staff's name?

A Neal Inman, $I-N-M-A-N$.

Q Thank you. Thank you. Any other
legislators or legislative staff coming to mind who attended any of these strategy sessions?

A I don't think so, but again, you're characterizing it as attending strategy sessions, and I've just given you a list of folks who I remember being over there, period.

You know, other than Dylan Reel and there really, and for the most patient was just Dylan Reel who was involved with me in talking about, you know, what the draw would look like, and I mean that was, he was predominantly the one who would be talking to me about that.

Q But others were present in the room while he was talking with you?

A No, no, it wouldn't have been. You know, some of the other members who came by, they were not there to discuss maps that $I$ was about to go out in the room and draw.

Q Was anyone besides you and Mr. Reel
present in those discussions about the maps that you were about to go draw?

A There were times when Neal Inman was
there.

Q In the room?

A Yes.

Q Do you recall on about how many occasions
he would have been there?

A You know, I don't. He would have been there for several. I was there for three weeks, almost, you know, every, almost every business
day. So he would have been there several times.
Q Did you have one of these sessions at
least once every business day that you were there?
A I'm not sure that we did it every day, you know, especially early on. Like I said, when I started, $I$ just went in the room and, and drew it drew the map, you know, sort of as quickly as I

could, but as time goes on you reach some of the more and more difficult draws in terms of time consumption and just population and getting grouping, and so when you get those I really needed some more help at that point, and you know, when that was I'm going to say probably into the, well into the second week I think when we would have started, you know, sort of having more of a game plan before $I$ went in to draw, but, but $I$, you know, I don't know, I can't say with any specificity.

Q Can you estimate the total number of times you met to discuss these concept maps?

A To discuss concept maps?
Q Yes.

A Well, as I said earlier, I think I saw maybe five or so of those maps. So it would have been that, that number or fewer times.

Q Well, let me clarify. Did you have these strategy sessions with Mr. Reel and others to discuss things other than the concept maps?

A Sure, yeah.
Q And how many times total during the time
that you were drawing the House map did you meet to have what you've described as strategy sessions

outside the public hearing room?
A Well, I would have, you know, consulted with my staff, and that mainly being Dylan Reel.

I mean essentially every day the drawing process, you know, we would have discussions about the process and I mean, you know, just about every matter regarding redistricting.

Q Would you meet in the same room where you met to discuss these concept maps every time you met with Mr. Reel?

A No.

Q And so when Mr. Inman was with you, was that always in the same room?

A No. You know, I would meet with them either in my office. Sometime $I$ think we may have met in Mr. Inman's office, but that, in general I think those were the only other two places where we would meet.

Q Did Mr. Inman view any of the concept maps you've referred to?

A $I$ don't know.
Q Do you recall him being in any of the sessions where you discussed the concept map?

A He may have been but $I$, you know, again, $I$ can't say for sure. This was just a few times,

issued by the legislature?
A I mean, I don't know. I don't know the
answer. I mean they're all -- you know, most
laptops are black and they have screens, but I
don't know. I didn't -- I didn't look to see what
sort of, what the make and model of the laptop
was.
Q Well, was it a -- was it a Windows
computer?
A I don't know -- I don't know the answer to
that. I'm not sure.
Q Okay. So if we wanted to review the
contents of this computer or these concept maps,
who do you think would be the best person to get
in touch with? Who do you think most likely has
this computer?
MR. STRACH: Objection. Go ahead and
answer.

A I don't have any idea who has the
computer.
Q Do you think it's most likely that
Mr. Reel has the computer given that he was the
one showing you the concept maps?
MR. STRACH: Objection. Go ahead.
A I have no idea if he still has the

computer or not.
Q Do you know what software -- we discussed
this a little bit before. I just want to make sure I'm clear. Do you know what redistricting software was used to draw the concept maps?

A No.

Q When you were viewing it, were you viewing
it in a software application, or were you viewing something like a PDF that had been created from the software?

A Yeah, I'm really not sure. I just saw, you know, those, those maps. So I didn't really
look to see what the software was or, you know, if it was a PDF or not.

Q Mm-hmm. What -- were the maps you were
looking at, did they have VTD's showing?
A It seems like some of them did. I think so, yeah.

Q Was there any shading or information that gave you any more specific information about what VTDs you were looking at, VTD number, for example?

A No. I don't remember seeing any other
identification of the VTDs other than just the, the lines themselves.

Q And so you're aware that there are

multiple different softwares that you can use to draw district lines, aren't you?

A Yes.

Q And you know that some of them have
election data preloaded onto them?

A Sure.

Q You're aware of software used for
redistricting that has election data preloaded?

A I'm aware that that exists. I don't use
it and I have never used any software that uses
election data.

Q Are you familiar with Dave's
Redistricting? It's a web application used for
drawing district lines?
A I've heard of it, yes.

Q Are you aware that Dave's Redistricting
has election data preloaded onto it?

A Yes, generally, yes.

Q Are you aware that Dave's Redistricting
also has racial data preloaded onto it?

A I'm not sure. Like I said, I've never
used it but, you know, it might.
Q Can you say with certainty that the maps
you were looking at were not drawn with Dave's

Redistricting?

| MR. STRACH: Objection. Go ahead. | 13:08:48 |
| :---: | :---: |
| A I've already answered the question. I | 13:08:50 |
| don't know what application or software was used | 13:08:54 |
| on drawing the map. | 13:08:57 |
| Q Did the map look similar in form to the | 13:08:59 |
| software that you were using on the public | 13:09:04 |
| terminals? | 13:09:06 |
| MR. STRACH: Objection. Go ahead. | 13:09:10 |
| A I don't know if $I$ understand. | 13:09:16 |
| Q Let me try to be more clear. Did the | 13:09:19 |
| format of the map you were looking at that you've | 13:09:22 |
| referred to as a concept map that you were viewing | 13:09:25 |
| outside the public terminal, did that look | 13:09:27 |
| different in form to the maps drawn on the public | 13:09:30 |
| terminals? | 13:09:34 |
| MR. STRACH: Objection. | 13:09:35 |
| A And I think it's basically the same | 13:09:37 |
| question but I mean they looked like maps that | 13:09:39 |
| had, you know, districts that were different | 13:09:43 |
| colors drawn in them, and of course to be clear, | 13:09:45 |
| when I say different colors, it was just the | 13:09:48 |
| district itself. There was no election data, none | 13:09:51 |
| of the shading or anything of that nature on | 13:09:54 |
| there. It was a grouping with some districts | 13:09:56 |
| inside of it that were color, you know, green or | 13:10:00 |

yellow. So I mean in that sense, you know, it was similar to that, but I, I didn't see any -- in fact there was no population deviation listed. There was nothing listed on there that I saw on those maps.

Q But population deviation was listed on the public terminals that used Maptitude; correct?

A Well, you had to turn it on, so it wasn't just automatically on there, and sometimes it wouldn't be on there and I would ask to put it up because $I$ found it easier to draw districts if that number was shown for each change.

Q I won't belabor this too much longer. You drew a map over, you know, multiple weeks in the public terminal room using Maptitude; correct?

A Yes.

Q Okay. Did the maps that you were looking at, the concept maps, did that look like Maptitude, the same software you had been using in the public terminal?

MR. STRACH: Objection. Go ahead.
A Like I said, again, I don't -- I don't
know if it was the same software or not. I just, you know, $I$ don't know, again $I$ think I've answered the question the best I can. I simply

don't know what their software application was.

Q Okay. Were there any cameras in the room
where you were draw -- or sorry -- where you were viewing these concept maps?

A No.

Q So unlike in a public terminal room where
there were cameras and live streams there wasn't
any live stream of the discussion or viewing of
the concept maps?

A No.

Q Forgive me. This is a really basic
question, but in the public hearing room is it true that anyone on a legislator's staff would be allowed into the public hearing room to sit with you at the terminal?

A Yes. I think that's generally true.

Q Okay. Any legislator obviously could be
in the room but also anyone on a legislator's staff or, for example, you know, Speaker Moore's Chief of Staff, anyone like that could be in the public hearing room; is that correct?

A Yeah, sure. If any member had one of their staffers in there, I would have, I would have allowed that, and as I told you previously, I, I expected that. I'm not -- I'm still to this

would have been forbidden in the public hearing
room; is that correct?
A Yeah, that's right.
Q And the concept maps that you were
viewing, am $I$ correct in saying that if you just
printed one out, you could have just brought it
into the public hearing room and consulted it; is
that correct?
A I could have, but I didn't, I didn't print anything and bring it in there.

Q But there's no restriction on you printing
out a concept map in physical hard copy or even
for that matter bringing a laptop in and just

consulting the concept map in the public hearing room?

A No. There's no restriction on that.

Q Okay. Did you ever bring -- I think you just said this but $I$ want to clarify -- you didn't bring in either an electronic version or a physical version of a concept map into the public hearing room, did you?

A No.

Q Okay. So why did you not discuss and look at the concept maps in the public hearing room as opposed to in these private rooms?

A Well, there's really no reason to because, you know, like I said, it was, it wasn't something that $I$ was going to go in and copy. It was just a general idea of what districts may look like. So I, I didn't see it as something to go in and copy. It was just sort of an idea of where towns and municipalities, population areas are to sort of help me more efficiently draw the map.

Q If it was a general guide, why not bring it into the public hearing room?

A I just, I didn't see any need to do that. Yeah, I...

Q What -- what was the need to have it be in

Transcript of Representative Destin Hall
Conducted on December 27, 2021

```
    a private room?
```

A I don't guess there really was a need to do that. I mean that's just where we met to discuss it.

Q I mean looking back do you wish you would have done it in the public room as opposed to the private room?

MR. STRACH: Objection.

A No.

Q Okay. Well, you just said there wasn't any reason to do it in the private room and I just wanted to confirm. There was -- if you had done it over again, you would have done this in the private room as opposed to the public room?

MR. STRACH: Objection. Go ahead.
A I don't see any reason to change. I
didn't use election data. I didn't use any of the data or anything else that goes against our criteria.

Q But is it fair to say that if you had reviewed these maps in the public room, the public would have been better able to verify that you did not use election data or partisan considerations? Is that fair to say?

MR. STRACH: Objection. Go ahead.

Transcript of Representative Destin Hall
Conducted on December 27, 2021

A I don't know that that helps the public one way or the other. I mean it's kind of like if I sit around and think of a map in my mind, you know, what it might look like. You know, it would be like saying, well, $I$ have to immediately
dictate that out and Tweet it out so that
everybody can know what's going on in my head at every second.

I don't -- you know, again, we didn't use
anything that the criteria disallowed, so no, I
don't see any reason $I$ would have done it differently.

Q Okay. I just want to be sure, if someone
wanted to know about what happened in these
strategy sessions where you discussed these
concept maps, there's no place $I$ can find any
information about that on the General Assembly's
website; correct?

A I don't suppose so, no.

Q Okay. So, you know, I can go to the
General Assembly's website and I can download
member proposed maps but $I$ can't download your concept maps; correct?

A No.

Q And I can't view a video like on YouTube

13:15:58

or the General Assembly's website of the
discussions of these concept maps; is that
correct?
A No, you can't.
Q And so if I wanted to get more information
about these strategy sessions, I would need to get
that information from you or someone present; it's not publicly available; is that correct?

A I guess if you wanted that information, yes.

Q And there's no way from public information that $I$ can learn the identities of the staff members present in these strategy sessions? Of course I've asked you on the record about that, but there's no publicly available information on the Internet about that, is there?

A No.

Q And you didn't disclose in any of the
House or Joint Redistricting Committee meetings or in any public setting for that matter your participation in the strategy sessions where you evaluated concept maps, did you?

A No, but $I$ don't recall anybody asking me every step that $I$ took in the process.

Q Sure. Could I pull up something I've

Transcript of Representative Destin Hall
Conducted on December 27, 2021
labeled as Exhibit 19? This is a transcript of the October 5th redistricting hearing committee, your committee. I'm going to go to page 15.

A I have it pulled up.

Q I've got it now. Sorry about that. Are you seeing my screen here? It's showing a PDF of a transcript?

A Yeah.

Q So starting on line 15, could you read just that paragraph there, please? I can zoom in.

A This is a rule that $I$ want to make sure all members are clear on -MR. STRACH: Hold on. Read it a little more slowly for the court reporter.

A Yeah. Okay. And this is a rule that I want to make sure all members are clear on, but this committee and the House as a whole will only consider maps that are drawn in this committee room on one of the four stations. So if a map is not drawn on one of these four stations in this committee room during those committee hours that the committee is open, then those maps will not be considered for a vote by this committee and of course will not be considered for a vote by the House.

Transcript of Representative Destin Hall

Q So in light of what we're discussing do you think that drawing, using unknown computers on unknown software, what you've called concept maps, outside of the public hearing room, discussing those in a private room that's not videoed or transcribed and the concept maps are not available to the public and then using those as a baseline to draw district lines in the public terminal room, do you think that's consistent with the rule that you announced there on October 5th at this Redistricting Committee hearing? MR. STRACH: Objection. Go ahead.

A Yes.

Q Okay. Explain that to me.
A I think it's consistent with the rule that

I just read.

Q You think that using a privately drawn concept map drawn on a computer that you don't know what software was used, that did not have a restriction on the use of election or partisan data and that was not made publicly available to anyone is consistent with the rule that the House will, quote, only consider maps that are drawn in this committee room on one of the four stations? MR. STRACH: Objection. Go ahead.

A Yeah. So it's consistent with that, and I think part of your question sort of mischaracterized the situation. I never saw any election data at all. So I think you mentioned somehow something that could, your question in some way left open the door in my opinion that this could have been election data. I didn't see any election data. Any maps that were put forth on the committee, for vote on the committee on the House floor were drawn completely by me in the committee room.

Q Well, let me be very clear. You've testified that the concept maps that you considered outside of the public hearing room, that that informed how you drew the district lines in the public hearing room. You do not know what computer those were drawn on, what software they were drawn on and you cannot ensure to me that they were not drawn using election data or partisan considerations; is that correct? MR. STRACH: Objection.

A Yeah, I don't have any reason to believe election results data was used. My staff knew that we were not using election results data, and so $I$ certainly never saw any election results data

Transcript of Representative Destin Hall Conducted on December 27, 2021
at all, and again, $I$ drew all the maps that $I$ drew on the public terminal.

Q But you have no reason to know that the maps that you were viewing were not drawn using partisan considerations or data besides the general existence of a criterion that forbade the use of election data?

MR. STRACH: Objection.

A Yeah, that and my staff's general
understanding of, of what was going on in the process and the fact that we had decided not to use election results data.

Q Okay. Stepping aside from the rule that you announced at this October 5th hearing. Do you think that drawing, or should I say considering, predrawn concept maps that are then going to inform the district lines drawn in public view but doing that outside of public view, do you think that's consistent with the spirit of transparency that we've been discussing that $I$ believe you referred to earlier in our deposition?

MR. STRACH: Objection. Go ahead.
A Sure. I think that what we undertook was literally the most transparent process for redistricting in this state's history, and you

Transcript of Representative Destin Hall
Conducted on December 27, 2021
know, keep in mind, as I did through this process, that, you know, we weren't required to follow any of these transparent processes that we did. And so, yes, I am completely comfortable with that. For the first time in the history of this state the legislature voluntarily viewed these districts out in the public for full public view which is much more than has ever been done in the past, and so yes, I think it is in line with the spirit of that rule.

Q Well, ask it a slightly different way. Do you think the process would have been more transparent that instead of meeting in a private room outside of the video feed and discussing maps that were drawn on nonpublic terminals using unknown software on an unknown computer, do you think that instead if you had done that in the public hearing room that the process would have been more transparent?

MR. STRACH: Objection.
A I don't think it would have made any difference at all. You could sit there and watch me draw districts and often $I$ would explain why the district was being drawn the way that it was drawn. So, no, I don't think it would have had

Transcript of Representative Destin Hall
Conducted on December 27, 2021
any real impact on transparency.
Q You don't think it would have been more transparent to do it the way I said versus the way

been glad to have done that with any Democratic member.

Q And you didn't again disclose this at any of the hearings where multiple members, Democratic members in particular, raised concerns specifically about the use of maps that were drawn outside of the room, the public room; is that correct?

A I think they were mainly concerned about improper data being used outside of the, the public room, but no, I didn't discuss any of that in those meetings because $I$ didn't think that it was relevant to their concerns, just like every thought that passes through my mind about redistricting the public can't see that and Democrats can't see that either, but I don't think anybody reasonably expects me to, like I said earlier, memorialize everything that crosses my mind.

Q Well, crossing your mind aside, I think we discussed earlier that Representative Reives, for example, you know, raised a concern at the October 5th hearing about just preventing the bringing in of maps drawn on the outside, and you testified earlier that you for practical reasons didn't

Transcript of Representative Destin Hall
Conducted on December 27, 2021
think that you could check everyone's stuff as they came into the room. You don't think that the consultation of maps drawn outside the public hearing room and using them as the basis for maps drawn inside the public room would be material to someone's concerns about relying on outside maps? Is that your testimony?

MR. STRACH: Objection.
A You know, I don't know what would be material to them, but again, I don't think that it hurt the transparency of the proceedings any more than legislators talking to each other outside the committee room about what districts would look like.

Q Let's move on to the, to the enacted House map. So we've talked $I$ know quite a bit about sort of the process that led to this map that's in fact what we've been discussing at length just now, but $I$ wanted to talk a bit about some of the actual districts, and I'm going to start with pulling up a map that I've marked here as Exhibit 8. You'll just have to give me one moment. Okay. Do you see a map here of Guilford County? It's labeled map 35 in the upper left-hand corner?

A Yes.

time a number of groups have analyzed these and they're, you know, things like this are all over Twitter. So I mean I generally understand what that means, but I didn't -- to be clear I did not consult any map with election or partisan data on it in drawing the maps that were enacted.

Q Sure. Just a little bit of information
then about what particular, you know, shading format this is using. So you'll see here that these kind of thin lines within each district, those are VTD boundaries, and they're shaded using election results from the Secretary of Labor and

Attorney General races from 2020, and so when a
given VTD is a very dark shade of blue, that means
that particular VTD in those races voted more
heavily in favor of the Democratic candidate, and so vice versa, a darker shade of red means a more heavily Republican. Does that generally make sense?

A Yes.

Q And just to be clear, because this can be
a little bit confusing, the shading is done using
the absolute difference in number of votes, and so
when something is really heavily shaded either
blue or red, that can reflect differences in

| population of the VTD; it doesn't necessarily mean | 13:30:35 |
| :---: | :---: |
| that like the vote share percentage was | 13:30:38 |
| disproportionately higher in that particular VTD. | 13:30:41 |
| Does that sound familiar? | 13:30:43 |
| A Sure. | 13:30:45 |
| Q Sorry to go over the basics like that. | 13:30:45 |
| Okay. So with that in mind let's just look at | 13:30:47 |
| Exhibit 8 here. So this is House Districts 57, | 13:30:49 |
| 58, 59, 60, 61 and 62, and these are all within | 13:30:53 |
| Guilford County; right? | 13:30:59 |
| A All of those are within district, in | 13:31:00 |
| Guilford County, but are you saying that are those | 13:31:02 |
| the districts from the enacted plan? | 13:31:05 |
| Q Yes. | 13:31:07 |
| A Okay. They look to be, but yes, that all | 13:31:08 |
| looks like it's in Guilford County. | 13:31:13 |
| Q Okay. Yes. And to be very clear, this | 13:31:15 |
| Exhibit 8 here is taken from the enacted House | 13:31:17 |
| plan that you drew; right? | 13:31:21 |
| A Yeah. | 13:31:23 |
| Q So, you know, up about this map here | 13:31:24 |
| splits the City of High Point. | 13:31:29 |
| A Are you asking me that? | 13:31:39 |
| Q Yes. | 13:31:40 |
| A I'm not sure if it does or not. | 13:31:44 |

Q Oh okay. Let me -- let me go quickly to
another exhibit. This is Exhibit 9 which is
another map from Dr. Cooper's report. This is map 36, going to it here.

A Okay. Yeah.
Q Okay. So you see this, the way this map
works is it has the municipal boundaries in kind
of colored shading? I'm just trying to be clear
for the record. I know you can see it. So you've
got High Point here in purple and Greensboro in
green, and this shows the district boundaries
relative to the municipal boundaries?
A Yes.

Q With that in mind, you would agree that

High Point is split here on this map?
A Yes.

Q And you'd agree that it looks like

Greensboro is, a little bit of it is in every
district; right? It's split six ways?

A Yes. It's -- well, I don't know about six
ways, but it's split several ways.
Q So you'll see that there's part of

Greensboro, part of that green of Greensboro is in every one of the districts in this map. Does that look right?

drew this map, and all I did, I went in and I think I changed, I don't know, two or three precincts maybe just for population purposes because a couple of districts were over plus or
minus 5 percent, and that was the extent of my work in Guilford County.

Q Do you recall which VTDs you changed?

A I don't off the top of my head because I literally just sat down and pulled up the populations of VTDs and had the staff, the central staff that is, click on the ones that, that sort of made sense populationwise, and that was it.

Q But looking at what we have here, what kind of came out of that process, you agree that generally when you were drawing the map you were trying to minimize municipality splits; right?

A I think that's generally true, but I also think it's generally true that where districts had been previously heavily litigated I did what I could to, to keep those districts very similar to what courts had already upheld.

Q So in your view is that a general principle; it's better to preserve a district line that had been already drawn and litigated than to 13:35:30 avoid a municipality split?
$13: 35: 33$

A Well, you know, I don't want to say one's better than the other, but obviously I would like to see the enacted map withstand legal scrutiny, and so in those areas that had been previously heavily litigated $I$ thought it safest to keep those districts as similar as possible.

Q Litigation aside, do you agree that generally all else being equal you're trying to split as few municipalities as you can?

A Yeah, I mean of course that's one of our criteria, yes.

Q Mm-hmm. We'll just go back for a second. Is your understanding of the criteria that you should minimize municipality splits?

A I think for municipalities the way I view it is you want to try to keep municipalities as whole as you can.

Q Just looking for a moment at the district boundaries around High Point which we've been discussing, you'd agree with me that the darkest blue VTDs in High Point, the sort of, you know, southwestern corner of this map, the most heavily Democratic VTDs, those are all in District 60 as opposed to the bordering district of 62; right?

A Yeah, I mean I think there are obviously a
lot of very dark blue districts closer to the town

this map, but all of the blue ones in 57 , are put into 57; is that right?

A Yeah, again, you know, based upon what the Special Master did.

Q Mm-hmm. So let's just look at another one of these maps. If you just give me one moment. This is Exhibit 10. This is another map
from Dr. Cooper's report, map 30. This is showing the enacted House plan, all the enacted districts for Mecklenburg County. That's showing up on your screen; correct?

A Yes.
Q Okay. You'd agree that overall this is a really blue-looking map that's heavily Democratic, just eyeballing it?

A I mean I would agree with that in the center of it but not on the, certainly on the northern part or the, what appears to be the, I guess the southeastern part.

Q Well, you would agree that overall for the county $I$ guess there are a lot more blue and especially dark blue VTDs than there are red ones?

```
Is that fair?
```

A I mean that's -- yeah, I believe that's true.

Q And looking at these individuals districts you see how in that, in District 92 here in the southeast -- or sorry -- southwest, there are no Republican leaning VTDs?

A Yeah. 92, looks like one of them, one of the districts is not shaded at all. I guess that means it's sort of a 50-50 area, but yes.

Q Right. So no red in 92, and similarly no red in 101, no Republican leaning VTDs in 101?

A Yeah.

Q And in fact that's also the case it looks like with 99, 100, 101, 102, 106, 107 and 112. Those seem to all have all Democratic leaning VTDs; is that correct?

A Yes, but $I$ mean of course those in the center, Charlotte, I mean they, you can't draw them any other way. The population's so dense there that there's no way to extend it out to try to -- if you were trying to touch one of those red areas, it would be very difficult to do.

Q Sure. But 1-0 -- am I right that 101 and 107 similarly don't have any red VTDs?

A That's right, but still those are still
getting down to -- I mean Charlotte spreads across most of Mecklenburg County, and those are in the

City of Charlotte. Both of those are still in the City of Charlotte.

Q You see that there's that boundary between District 100 and 103 kind of in the southeastern part here. Do you see that?

A Yes.
Q And you see how all of the dark blue VTDs there are in District 100 and 103 has some Democratic leaning VTDs but they're much lighter shaded meaning less Democratic?

A Yes.

Q How were you able to draw that line like that without using any partisan data?

A Well, as I said earlier, the Democrats drew most of this map in 2019, and I essentially started with the map that they had. Again, as I did in other parts of the map that $I$ previously talked about, I tried to keep some of the, I tried to keep municipalities whole when I could, and if I recall, Mint Hill was, is a municipality in that area that had been split in a prior map, and so I unsplit Mint Hill, and I'm generally aware that Mint Hill and Matthews are towns that have a lot of, they're common interest, so to speak, you know, close together, and so again trying to keep

Transcript of Representative Destin Hall
Conducted on December 27, 2021
some of the municipalities together and not, not being swapped out or connected to some of the larger cities the resulting map, if you keep Mint Hill and Matthews together and basically keep all the other, the Democrats' changes, that's what you get at 103.

Q Can you remind me, was this one of the maps where you had a template based on that had been drawn outside the public room?

A You know, as I said earlier, I, I don't really recall that. If I did, I didn't spend any time or much time looking at it because, again, I, what $I$ do recall is the goal in this map was just go in and make, you had to add one district to basically the grouping the Democrats had drawn in 2019. So $I$ just went in and added that district to the grouping and in large part kept everything else the same except for the Matthews/Mint Hill change that $I$ just described.

Q And just to clarify, was that change what became District 103 there?

A Yes. I mean that's where, I think that's where Matthews and Mint Hill are located.

Q Okay. I'm just going to go to the next one of these. Do you see there what I've marked

as Exhibit 11? This is map 37 from Dr. Cooper's
report? Same thing. This is from the enacted
House plan and it's showing the three House districts within Buncombe County?

A Yes.
Q You see here how -- well, let me start
with something. This contains the City of

Asheville; correct?

A Buncombe County does contain the City of

Asheville.

Q And Asheville's sort of, the sort of blue-
looking Democratic leaning VTDs more toward the
center of Buncombe County?
A It is in the center of the county.
Q Do you see how nearly all of the dark blue VTDs, the most Democratic leaning ones, are divided into two Districts, 114 and 115?

A Yeah. Most of them are in those two districts.

Q And you see how 116, it does have a couple of Democratic VTDs, but it looks like it's a lot more red than 114 or 115. Is that fair?

A I mean $I$ would say it looks a lot more red than 114 and it looks, it looks more red than 115, but $I$ don't know if $I$ would characterize it as a

lot more red.
Q Sure. And just going back, we were talking about how Asheville here is in the center of the map. From sort of a communities of interest perspective which $I$ know is something you'd mentioned as being important when you're drawing district lines, what was the community of interest reason to put Asheville with the northeastern part of this county as opposed to what was just to the west of it or to the northwest of it?

A Well, the map can really be explained by the goal of trying to keep municipalities whole, and with Asheville, unlike a lot of the other cities in North Carolina, it's just not as large and so it's more easily put into fewer districts than other cities might be, and in fact in this map I think almost all of Asheville is included in District 114 and 115. There are -- I think there are some areas that are maybe annexed areas or, or because of the weird shape of those precincts are maybe outside, but almost all of it is inside those two districts.

Now, you know, your question was, you
know, why is Asheville, you know, more connected

compactness?

A Yes. I did not discuss election data nor consult election data, and frankly, you know, looking at this thing now, if $I$ had election data, and that was my goal, and it looks like I would have done it a little bit differently than what $I$ did.

Q Well, explain that. How would you have done it differently?

A Well, I mean, you know, you can see it's, in District 116 it takes in some of those darker blue areas that are next to the areas you have shaded heavily red, and $I$, you know, I don't know what the, the total district performance might be, but I mean it, you know, you can clearly see here they would have been relatively easy changes to be made to make that a more Republican district, it appears to me anyway.

Q And what -- you'll just have to remind me. Was this one of them where you consulted a concept map between the drawings of your first and second attempt at this district?

A You know, and as I said earlier, I
really -- I don't remember. I somewhat think not just because $I$ remember going in and drawing it

one way and then sort of flipping it around, and I would -- there was just -- there's just -- there are just three districts there in Buncombe, so I just went in and played with it, and so $I$ don't recall seeing sort of a concept map for this one.

Q But the main goal, just to go back to
something you said earlier, was to try to preserve Asheville in as few districts as you could?

A Well, I wanted to keep Asheville as whole as possible which in this case necessitates it being put into two districts.

Q I see. Well, moving on to one more of these House maps. This is Exhibit 12. This is map 43 from Dr. Cooper's report, and this shows Cumberland County. So those Democratic leaning VTDs in the center of this map, the ones that are shaded pretty blue, that's the City of Fayetteville; right?

A Yes. Generally yes.
Q And you see how all those dark blue VTDs, they're split across four different districts in this map, all four of them $I$ should say: 42, 43, 44,45 is that right?

A Yeah. I mean they're not split evenly, but I mean they are in a literal sense split

Fayetteville four ways?

A Well, this is another map that had been drawn by a Special Master in prior litigation, and so Cumberland County's been heavily litigated, and just as $I$ did in Guilford County, I thought it best to make as few changes as possible. I think I've changed two or three precincts from the Special Master's map, again the court's own Special Master. I made two or three precinct
changes for population purposes because due to population noted they were, they were out of the deviation, the allowable deviation, and those are the only changes that were made.

Q Did you at least evaluate whether it be possible to split Fayetteville less?

A No. I don't think I did because again on that one, you know, because of prior litigation, you know, essentially we, that had been upheld in court, and $I$ thought it prudent to simply keep it as similar to the current map as we possibly could, so that's what $I$ did.

Q And is this one of the ones where you had a concept map for Cumberland County?

A No. I don't think that $I$ would have for Cumberland. I don't remember that but I don't

Transcript of Representative Destin Hall Conducted on December 27, 2021
think I would have because, again, $I$ know just as in Guilford the goal was just simply to make as few changes as, as reasonably necessary to correct for population.

Q But it's possible you don't recall for sure whether you used one of those concept maps? MR. STRACH: Objection. Go ahead.

A Yeah. I don't think -- I don't think that I did, and I, I only, you know, made that caveat of maybe just because I, I certainly didn't rely on it enough to where it's in my memory and $I$ know the goal behind drawing Cumberland County the way that $I$ did, but you know, I mean I -- there's a lot going on in those three weeks and now this has been, you know, a couple of months ago now and I've slept since then, but $I$ don't, $I$ don't
believe $I$ ever saw any sort of concept map for Cumberland.

Q And when you were in the official redistricting room, how did you recreate exactly what the Special Master districts looked like in terms of the specific VTD configurations?

A So I would direct central staff, again, the nonpartisan staff to bring up the current districts, and they had an overlay that they could
bring up that would bring up the current versions of districts.

Q Did you do that same thing for every
cluster that or every district or cluster that the
Special Master had drawn in prior litigation?
A I think so. I don't remember all the
districts the Special Master drew, but I know I
did it in Cumberland. I did it in Guilford, did
it in Forsyth. The problem I think with Wake, and
I, again, I don't remember if Wake was one of the
Special Master districts or not, but if it was,
the reason that $I$ couldn't do that was that they
had two new, Wake had two new House districts; so
just it wasn't going to really be possible to keep
those districts very similar.

Q And to confirm, when you were presented
with the choice of whether to split a municipality
several times like with Fayetteville or to just
stick with a Special Master, your choice was the
Special Master district should be preserved?
A Yeah, I think that's generally the case
across the map.
Q Let's move to the Congressional map. I
think I've taken that exhibit down, right? Okay, great. Just a few preliminary questions on this.

You did not draw the enacted Congressional
map but you sponsored it for consideration in the
House; is that right?
A That's right.

Q And you had drawn or you and I guess you
in tandem with another legislator had drawn
another Congressional map. Was that the one
labeled CBA-2; do you recall?

A I have no idea what it was labeled. I
don't remember the label.

Q If I bring it up, do you think you might
be able to recognize it? I'll --
A You probably should.
Q We'll give it a shot. This is Exhibit 15.
This is, you know, the official General Assembly
version of the map, the Congressional map labeled
CBA-2, and does this one look familiar to you?
A Yes. I think it's the map that I actually
drew or I drew most of. As I said earlier,
Representative Sarah Stephens finished part of it
mainly zeroing out the populations across the map.
Q Great. And you testified earlier that despite drawing this map you decided in the end that the map sponsored by the Senate chairs was better?

Q And is it right that at the House floor vote you referred to it as the best membersubmitted map that you saw? Does that sound right?

A Yes.

Q Before the House voted to pass the Senate drawn map on November 4th am I right that you spoke on the floor about how the enacted map complied with the various redistricting criteria?

A Are you asking about the Congressional map still?

Q Yes. I'm asking about the Congressional map.

A Yes. I said something along those lines.
Q And so you're generally familiar with the enacted Congressional map and the attributes of all of its districts given that you sponsored it for consideration in the House and spoke on its favor?

A Yeah. I'm generally, I have a general understanding of what the Congressional map is, but in terms of, you know, drilling down on specifics, you know, one of the Senate chairs is going to have more knowledge than I would about

many of the specifics. Again, I've spent almost the entire time drawing the state House map because it's so much more time consuming and, you know, I have, I was the only chair in the House and they had three Senate chairs, so, you know, it takes three Senators to do what one House members can do, but even House members have their limits. So you know, essentially they had drawn their

Congressional map, and I, I didn't participate in sort of the day-to-day in drawing that map other than the suggestion that $I$ made to them that they, that they actually accepted which was putting the finger counties together in northeastern North Carolina. Of course $I$ was trying to answer your question as best $I$ can.

Q I appreciate that. And to confirm, were there any of these strategy sessions with the Senate chairs about the Congressional map that ultimately got enacted?

A No. I don't think so. No. We, you know, we sort of broke and, and for that two- or three-week period when map drawing was open, they were, they were downstairs in their room and I was upstairs in my room and, you know, I didn't pay a whole lot of attention to what they were doing

during that time other than, you know, I would see things on Twitter from time to time, and they didn't really come up to my committee room either. So we didn't, I don't recall having any strategy sessions with them at all about the Congressional map that was ultimately enacted.

Q And do you have any knowledge of any of the Senate chairs viewing anything that is similar to what you described as a concept map for any of the Congressional districts?

A No. I don't have any knowledge of that.
Q Okay. So I'd have to ask them if $I$ wanted to hear about a process, if there was one, similar to what we've been discussing?

A I guess they would be the ones to know. I don't know.

Q Great. So I want to talk about just a few of the particular districts in the Congressional map similar to what we've been discussing with the House map, so I'm going to pull up Exhibit 14 first.

All right. You see this PDF; it's marked as Exhibit $14 . \quad$ This is map 15 from Dr. Cooper's report. It's the same red-blue shading configuration we've been discussing with the

House. This shows just one district but it also shows the bordering district CD 12 and CD 10 and CD 14. This is all from the enacted Congressional plan. Is that showing up on your screen?

A It is.
Q Okay, great. Are you generally familiar
with the part of North Carolina referred to as the Piedmont Triad?

A Yes. I'm, you know, from the Piedmont
area and I've lived in the Piedmont Triad
previously.
Q And why is it called the Piedmont Triad?
A Well, it's in the Piedmont, and it's in
the Triad.
Q What three cities make up the Piedmont

Triad?

A Winston, Greensboro and I guess High

Point.
Q So we're seeing those three cities here on
the map; right?
A Yes.
Q And am I right that each of them is in a separate Congressional district; so

Winston-Salem's in CD 12. High Point is in CD 10 and Greensboro in CD 11; is that right?

14:02:27

14:03:29

14:03:32

A Sure.

Q Looks like most of Greensboro I should say is in CD 11?

A Yes.

Q Okay. And each of those three districts I
just named, do you agree that it pairs the city, so for example CD 12 with Winston-Salem, with very

Republican leaning areas to the west of that city?

A I mean according to the shading on your
map, yeah, it appears that, you know, again based
on whatever data you have sort of here it would be
Greensboro with a lot of the red on the map.
Q You'd agree that each of these districts
10, 11 and 12 just looking at the map based on the shading are overall Republican leaning?

A Well, I mean $I$ can't see all of 10 and 12,
but $I$, you know, as a general matter, you know, they, again using past results which, you know, doesn't promise anything for tomorrow, they probably would be Republican leaning.

Q And just looking at this same map, this is splitting Guilford County into three separate districts; right? And CD 11 is one of those districts?

A Yes.

Q And one of the criteria that you were, that you enacted and that you were hoping to follow is to minimize the number of counties that were split; is that right?

A Yes.
Q And you recall we discussed the 2016
criteria. Those prohibited splitting a county
more than two ways; is that right?
A I don't think they prohibited it. I think
they made it a goal not to split it more than two ways.

Q Fair enough. The 2016 criteria made it a goal not to split a county more than two ways, but the committees didn't include that this time; is that right?

A No. We didn't include that, that
particular provision, no.
Q Right. So if those 2016 criteria were still in place, it would not be preferable you would say to use this map that splits Guilford County three different ways; is that correct? MR. STRACH: Objection.

A No, I don't think you can say that because again, you know, criteria, you've got to look at holistically, and if you just look at one

particular piece of criteria and say, well, it doesn't do a job, good job of meeting that criteria, therefore it's a bad map, I don't think that that's how it works. You've got to look at all the criteria and try to harmonize it together.

Q If you were drawing the Congressional map
under those criteria, would you have split
Guilford County three ways?
MR. STRACH: Objection.
A As I said, I think this was the best
member-submitted map that $I$ have seen, and so I
think it's a good map. I submitted it myself,
basically a copy of what the Senators drafted, and
I didn't, I didn't see any others that, that were
any better. I don't -- I don't even recall if the
Democrats submitted one ultimately. They may have
at the very end. They may have submitted some
amendments, but this was the best one that $I$ saw.
Q You say it's the best one you saw. In
fact you drew a map and submitted it, we were just
looking at it, called CBA-2?
A Yes.
Q Your map didn't split Guilford County
three ways, did it?
A No, but my map split more counties and

14:07:20
split a lot more municipalities across the state and again, you know, looking at the criteria holistically and, you know, not just the City of Greensboro or the County of Guilford and the great folks there, but you know, you have to look across the state to look at, well, how many counties and how many municipalities are we splitting, and this map that was enacted split far fewer counties and municipalities than my map.

Q So the general goal was to split fewer counties and municipalities, but Guilford isn't the only county that was split two ways, was it? That was also true in Wake and Mecklenburg Counties; right?

A Yes.

Q So the enacted Congressional map split
Guilford, Wake and Mecklenburg Counties three ways each?

A Yes.

Q Do you recall whether your map split those counties three ways each or I should say Wake -did you -- did your map split Wake County three different ways?

A I don't remember. I'd have to see my map again to, $I$ think it might, but I'd have to look
at it to...
Q Let's take a quick look back at Exhibit 15.

A Yeah.
Q You see Wake County there mostly in
District 10 and some in District 9?
A Yeah. So I split Mecklenburg three ways in my map.

Q Right.
A And Wake was split twice.
Q What about Wake?
A Twice.
Q It's split into two districts just to be clear on the terminology; right?

A Yes.
Q Okay. So your -- you preferred the
enacted map you said based on municipal splits and
county splits, but your map only split Wake once,
only split Guilford once, and in fact it looks
like Guilford is almost all within one
Congressional district, within District 8. Is
that fair?
A Yeah. It's almost all within one, just like the enacted plan is almost all within one, but I split more municipalities across the map and
more counties than the enacted plan.
Q And you said, you know, you have to look at the criteria holistically, but in terms of compliance with the criteria that was in force in 2016 about not splitting counties into more than two districts, your map would have done quite a bit better than the enacted map. Is that fair? MR. STRACH: Objection.

A No, I don't think it is. I mean you said quite a bit better. Again, that was just -- if you're asking just about that one criteria which, again, is not how any of this works, you've got to look at all the criteria, but if you, if you just look at one piece of criteria, I split one county three ways and they split three counties three ways, and so I, you know, I don't know that I would characterize that as their map being a lot worse just based on that particular criteria because again you've got to look at the criteria as a whole.

Q And that's helpful. Thank you. Oh, I guess one more thing about your map actually. Your map complied with all the other redistricting criteria, right, like population and counting traversals, things like that, that we haven't been

discussing?

A As far as $I$ know, $I$ think so.

Q And it's true that your proposed map
didn't pair any incumbents within the same
district; is that right?
A Again, I don't think so, but I'd have to see the layer, but $I$ don't think it did.

Q Sure.
A That seems --

Q Yeah. No problem.
A -- the incumbency layer.
Q Sure. Just to confirm, I'm going to pull up Exhibit 16 which is the incumbent report from the stat pack for the CBA-2 map we've been discussing?

A Yeah.

Q So just looking at this stat pack report
it looks like every incumbent has his or her own district; is that right?

A That's right, yeah.
Q Okay. In the enacted map that was not the case; right?

A No. I think they double-bunked two members.

Q I want to go back for a second to just the

14:11:57

14:11:58

City of Greensboro over in that very eastern part of this long district that stretches over to, you
know, through Stokes and Surry and Alleghany and Ashe?

A Yes.

Q And this district includes pretty far
western counties. It includes Caldwell and
Alexander Counties as well; is that right?
A You know, recognizing that you're not from here, no, I wouldn't characterize those as far western counties. Those are counties in the Piedmont. Now, you know, they're, they're not far western, you know, but that's I guess in the eye of the beholder.

Q Fair enough. Let me rephrase the
$14: 12: 46$
question. Those counties are quite far west from the City of Greensboro. Is that fair?

A I mean I guess it depends on, you know, what you mean by far. I know that Greensboro from Caldwell County, where I live Greensboro is about an hour and 50 minute drive which as Congressional

districts goes really not that far.
Q Those counties that are in the western part of this Congressional district, would you say it's fair to characterize them as, you know, either rural or somewhat mountainous counties generally?

A Well, I would characterize Ashe, Alleghany, maybe a little bit of Surry, a little bit of Wilkes as mountainous counties. The rest of those counties are not really mountainous.

There's -- - you know, sort of the mountains begin
in the northern part of Caldwell there, but most of, you know, people live down not in the mountains there.

So I, you know, I know it's maybe being characterized as something that a bunch of counties that don't have anything in common, but you know, I'm from that neck of the woods and, you know, in my opinion those counties have quite a bit in common. Those are all very similar counties sort of in the northwestern North Carolina. I mean even the northern part of Guilford County is more rural. So I think they do have quite a bit in common.

MR. STRACH: Hey, Sam.

High Point?

A Well, you know, obviously High Point being so close it would have probably more in common with High Point, but again, you know, you can't just drill down on one particular city and say, well, you know, we have to meet every single criteria to the max for that one particular city because, you know, it ultimately precludes you from doing that in other areas across the map, and again that's why it's about harmonizing the criteria, and one of the criteria is keeping cities as whole as possible, and Greensboro here was kept very whole. I mean it's only one of two cities across the state that were split, and that's why we're talking about it so much obviously, but it was still kept reasonably whole.

Q Right. And it looks like that could have been kept pretty reasonably whole and paired with High Point; is that fair? There was nothing -there was no population-based reason that prevented Greensboro and High Point for being placed in the congressional district; right?

MR. STRACH: Objection.

A You know, it's a better question for the Senate chairs who drew it, but yeah, I mean if you

14:16:28
go in there and start drawing that, High Point's got, you know, a relatively larger population than the other parts of that district and it's going to, it's going to very quickly make you have to start changing the other counties throughout that district and not keeping them whole if you put High Point in that district.

Q So your position is that if you put
Greensboro and High Point together would necessarily require splitting another county?

A I think if you're -- on the current map if you just went in and said, okay, I'm going to extend the line down and put High Point in this district, yeah, you're going to have to change the district. One of the other counties that are kept completely whole throughout that district which they all are essentially other than Guilford County and that little piece of Watauga that's done for incumbency purposes, yeah, you would have to start changing the, the lines across the counties.

Q Right. So my question was a bit different. If you -- you're not testifying that it's impossible to put Greensboro and High Point in the same district without splitting an

looking over at the western part of the district you see that little chunk you mentioned you
thought it was for incumbency purposes that cuts into District 14 in Watauga?

A Yeah. That's just a precinct that
Virginia Foxx lives in.
Q Right, right. And as a result of that
little carveout, is it true that Representative
Foxx is now in the same district as the Democratic
incumbent from Greensboro, Kathy Manning?
A I think that's the case, yes.
Q And you were aware when you sponsored this
map in the House and supported its passage that
the map would do that double-bunking; right?
A Yes. I mean, you know, again, obviously
everybody understands, understands that
Congressional members don't have to live in their
districts, but $I$ understood that the district as
drawn covered what $I$ understood to be the current residence of both of those members.

Q And your proposed map we discussed earlier did not do that double-bunk, did it? It kept every incumbent in his or her own separate district?

A Yeah, that's right.

Q Can you explain to me what traditional redistricting criterion double-bunking using that little boot-shaped addition served?

A Well, I mean, again, I think you have to look at the map as a whole, and what it served is drawing a statewide map, 14 districts across North Carolina that only split two cities; Charlotte had to be split, so you can't even really count that, and Greensboro that's kept I think 90-some percent whole. You know, however you slice the pie anyone can admit if you sat down in front of Maptitude and tried to do that it is very difficult to draw 14 Congressional districts in North Carolina and only split two cities across the map.

And so, you know, in my opinion that's
what the public expects to see. They want to see these cities kept whole as best we can.

The counties are kept whole. The number I think is maybe 10 or so counties across that map that are split at all. Very few VTDs across this map precincts, I think the number was like 24 , and when you compare that to the past with what both Republicans did and especially Democrats before them, they would have thousands of precinct splits across the map. This map has 24 and it keeps all

but two cities completely whole, and so I think
you have to look at it in $a$, in a context in a
$14: 21: 19$
holistic way, and it was -- when you, when you put
$14: 21: 24$
it on the scale and weigh all of those things I
just mentioned and you say but you've got to
double-bunk Virginia Foxx and Kathy Manning, it
was, it was a decision $I$ was willing to make in
drawing the map.
Q So your position is that it was necessary
to double-bunk Virginia Foxx and Kathy Manning in
order to serve all of those other purposes that
you just enumerated?
A Well, you know, we didn't have a
consultant, we didn't have anybody drawing with a,
somebody with a computer algorithm somewhere. So
you know, to say was it possible to do it
otherwise? I don't know, but I didn't have
anybody, like $I$ said, that was a consultant or
somebody drawing maps somewhere that could sit
down and just do this, you know, using some sort
of computer algorithm.
This was done by the Senate chairs and
their committee, excuse me in their committee room
and so, you know, in terms of just humans sitting
down and drawing a map $I$ don't think it can get a

Transcript of Representative Destin Hall Conducted on December 27, 2021
whole lot better in terms of following our criteria than what we have.

Q You testified just a moment ago that a lot of these decisions were that were based on the fact that North Carolina has had an explosion of population over the last decade. Is that what you said?

A Yeah. I mean I, of course I just said that that was one, one explanation for the changes in districts of course.

Q Right, right. But so that growth is what led to a 14 th Congressional seat; is that right?

A Yes. That coupled with the, the loss of population in other states.

Q Sure. And do you know whether the population of the growth that occurred in North Carolina occurred primarily in Democratic leaning areas or more in Republican leaning areas?

A Well, you know, I don't know the answer to that. I mean $I$ know that, you know, obviously Raleigh and Charlottes are the big cities, are bigger, bigger cities, probably they grew more than other areas and as we talked about today and seen on here in general those large cities and their urban cores tend to vote Democratically, so

that would be some evidence that those, quoteunquote, Democratic areas grew more.

Q And one more thing you testified earlier about is that you thought it was better and you weren't legally required but it was better not to use election data or partisanship in drawing districts. Do you recall that testimony earlier today?

A Yes.
Q Can you explain to me why you think it's better to not use election data or partisanship when drawing district lines?

A Well, I think it's just become a political football, and $I$ think that, you know, we've litigated these cases well before my time in the General Assembly and since I've been here it's been nothing but litigation since I've been serving the General Assembly, and I think that the, you know, average member of the public, I think they prefer that lines be drawn without using election data.

Q Do you think it's more fair to the citizens of North Carolina to not use any election data partisan considerations in drawing district maps?

Conducted on December 27, 2021

Q Did he have any formal role in the
redistricting process?

A Yes. I mean he's just the general counsel for my office.

Q Okay. When did you hire Mr. Reel for that role?

A Around the time that $I$ became Rules chair.

So that would have been August of 2020 .
Q Okay. And was Mr. Reel hired for that
role specifically to provide legal advice and
strategy in the redistricting process?
A Not specifically for that, but that -- it was for that, among other things.

Q What was Mr. Reel's background in
redistricting?
A He had been an intern at the General

Assembly before in David Lewis's office who of
course was the former chair of the Redistricting

Committee.

Q And when was that?
A That would have been, if he came to my
office in August of 2020, I think he had been an
intern in the Rules Office for a couple of years
before that.
Q He had been, when you say an intern, does

that mean an unpaid role?
A No. I think he was paid. He was in law school at the time, and so he wasn't working full time as an intern of course but $I$ think he was being paid for at least part of that time.

Q Okay. So your testimony is he worked for
Representative Lewis while in law school?

A Yes.
Q Okay. And do you know when Mr. Reel
graduated from law school?
A In May of 2020 .
Q Do you know what kind of training besides
working as an intern in Representative Lewis's
office that Mr. Reel had in redistricting or
election law?

A Not sure if he had much more than that. I
mean similar to the, to me as the redistricting chair, my experience was, was being a member of the committee when Representative Lewis was the chair.

Q Okay. Do you know, did Mr. Reel ever attend any NC -- not -- NCSL redistricting training events and do you know -- and NCSL I believe stands for National State Legislatures something -- Council? Committee?

A Yeah, I'm familiar with the organization, but $I$ won't try to guess the name either, but I don't know if he did or not. He may have but I just simply don't know.

Q Okay. Do you know if Mr. Reel ever met independently from you with members of the Republican National Committee staff?

A I don't believe that he did. I certainly don't have any knowledge of that, and he would have told me -- in my opinion he would have told me if he, if he would have done that.

Q Why do you believe he would have told you?
A Well, Dylan and I, he's the general
counsel in my office. You know, in my opinion he's got a duty to me just by virtue of that, but in addition to that we're friends and, you know, we -- he -- the Rules Office is very busy and it deals with every single bill in the entire General Assembly. There's no way that I can do that by my myself. I've got a law practice that I've got to deal with at home, and so he basically ran the office when $I$ was away, and we talked very frequently about matters in the Rules Office. I generally would talk to him just about every day, especially when we're in session, and $I$ know him

through that process, and it's my opinion that had he, had he met with the $R N C$ or really any other political consultants, he would have told me that.

Q Did you ever explicitly ask Mr. Reel if he had met with anyone from the RNC?

A No, no. And again $I$ didn't see any reason
to do that. I didn't have any evidence that that had happened.

Q Did you ever explicitly ask Mr. Reel if he met with anyone from the National Republican Congressional Committee?

A Again same answer. No, I didn't ask him that but I didn't have any reason to.

Q Okay. Did you ever explicitly ask Mr. Reel whether he met with anyone from the Republican State Leadership Committee about redistricting?

A No. Same answer. Didn't ask him that, but as I say, I didn't have any reason to ask him about those things.

Q Did you ever explicitly ask Mr. Reel to confirm to you that he never utilized outside consultants in any way in the drawing of the House map?

A No, and again same answer. I didn't have

14:52:38

14:52:40
know what app it was.

Q Why didn't you ask?
A I, I didn't think it really mattered. My staff knew we were not using election data, just as $I$ did, and so $I$ saw no election data at all in any of these maps. Again, it was in the context of talking to staff about the time constraints that we were under and knowing that we had to get an entire state House map drawn, and you know, it was done purely on data that was allowed under our criteria.

Q Did Mr. Reel ever show you a concept map or a portion of a concept map on his phone?

A Yes. I think he at some point did show me that.

Q Do you know if he took screenshots of the concept maps on his phone?

A I don't know the answer to that.

Q So you don't know whether he had a program on his phone or if it was a screenshot on his phone when he showed you his phone?

A Right.
Q Okay. Did Mr. Reel ever show you any maps on his phone while he was in the public terminal room with you?

14:53:50
14:53:50

14:53:58

14:54:01

A Yes.

Q And when did he show you concept maps in the public terminal room?

A Again, it was probably a couple of times. I don't remember the specific dates, and I don't even really remember which districts it were that we were talking about at the time, but again there was no election results or partisan data on any of those maps.

Q Did the concept maps that Mr. Reel showed you on his phone inform how you independently drew district lines on the public terminal computer?

A I think in a general way it did, but you know, not in a really specific way because, you know, I didn't, and it wasn't like $I$ went in and tried to memorize precinct by precinct or tried to, you know, look at a picture or something precinct by precinct and turn around and draw it.

I just had a general concept in mind and, you know, basically used that to sort of start off whatever given map $I$ was doing and $I$ had to go in and make the tweaks as necessary, but again I, you know, that, as I said earlier, I think there were five or fewer concept maps that I ever saw. I think there were only a couple of times that I

ever saw any map that he had, you know, in the room.

Q So I understood that you testified earlier that you never brought any maps into the public terminal room with you, but it's your testimony now that you did look at maps on Mr. Reel's phone while he was with you in the public terminal room; correct?

MR. STRACH: Objection. Go ahead and
answer.
A And as $I$ said earlier, $I$ didn't bring any maps inside the room, and so the second part of your question, did Mr. Reel, and I've answered that question.

Q Mr. Reel no longer works for you; is that correct?

A That's right.
Q He is now a lobbyist and consultant at
McGuire Woods?
A That's right.
Q And he left your office just this month;
is that correct?
A Yes.
Q Do you know when he first began
conversations about his intended move to McGuire

Woods, a lobbying firm?
A No, I don't know a specific date.
Q Well, you were friends; right? Did you --
when did you first find out that he was planning on moving?

A I found out -- I would have to go back and
look at the calendar. I want to say we were in
session, and so that may have been sometime around
the, I don't know, the second half of November I
think, and so he was, he was there for $I$ think
several weeks after that roughly till, till mid
December.
Q You mentioned Neal Inman was involved in
reviewing the concept maps. Can you -- I'm sorry
if I missed this -- but can you restate what
Mr. Inman's role is specifically to Speaker Moore?
A Well, he's a lawyer but he is the -- his
title is Chief of Staff.
Q And were there other people from Speaker
Moore's staff besides Mr. Inman who reviewed
concept maps?
A Not that I recall.
Q Who do you recall as serving on Speaker
Hall's -- sorry. I just promoted you.
A Yeah.

# Transcript of Representative Destin Hall 

 Conducted on December 27, 2021ultimately had possession and controlled the concept maps that we've discussed today?

A You know, I would -- to the extent anybody, you know, had possession or control I would say Dylan Reel.

Q Do you know, did Dylan -- did Mr. Reel
ever meet with anyone from Speaker Moore's office to the best of your knowledge?

A Yeah. I mean he was the general counsel
of the Rules Office. He often met with people
from Speaker Moore's office, but I, I mean if you
want to clarify it down to a time period or subject.

Q During the redistricting process, so from
August to November, did Mr. Reel ever outside the presence of you meet with members of the staff of Speaker Moore's office?

A I don't know that for sure. I don't know.
Q Did you ever ask Mr. Reel if he showed the concept maps to members of Speaker Moore's staff?

A No. I didn't ask him that.
Q Did you ever review concept maps for
Congress with anyone from Senator Berger's staff?
A No.
Q Did -- during the redistricting process,

## Transcript of Representative Destin Hall

 Conducted on December 27, 2021so roughly from August through November, did

Mr. Reel ever show concept maps to any members of

believe they were doing the same thing.
Q Okay. Well, we'll certainly get to that
letter.
Did you ever issue any warnings to your
staff that if they consulted any partisan data outside what was in Maptitude loaded on the General Assembly system that you would fire them?

A No. You know, again, as I've said, I had no reason to do that. They understood we were not using election data.

Q So aside from election data did any of your Republican legislative colleagues request specific precincts be moved in and out of their districts?

MR. STRACH: Allison, I think we're going to object to that on the basis of legislative privilege. If you're asking about other incumbent members having conversations with Representative Hall about their districts, we're going to object and instruct him not to answer that.

Q Okay. Representative Hall, did you ever make any changes to the maps that you drew -- I know you talked about Wayne and Duplin with Mr. Callahan -- but did you ever make any changes to the state House map that wasn't of your own

Transcript of Representative Destin Hall Conducted on December 27, 2021
initiative?
A Well, no. I drew every map that was,
every district in the map except for the one you just discussed.

Q And when you say you drew every map, we understand that you mean you also were informed by a concept map that you didn't draw; correct?

MR. STRACH: Objection.
A Yeah, at limited times I saw a concept
map, but again it, $I$ didn't go in and copy it. So
I drew the maps other than the one that we
previously discussed in the Wayne-Duplin grouping.
Q But at various times Mr. Reel had a copy
of the map on his phone while he sat next to you
in the public terminal room; correct?
A Like I said, a couple of times that
happened.

Q Do you know who Jim Blaine is?
A Yes.

Q Was Jim Blaine ever in the legislative
building during the redistricting process?
A If he was, I didn't see him.
Q Did you ever meet with him during the
legislative -- sorry -- the redistricting process?
A Yes. I had dinner with him and other
folks but not about redistricting.
Q So you never -- did you ever speak with
Mr. Blaine about redistricting in the period
starting August 1 st through the enactment of the
House -- the redistricting plans in November?
A The only time $I$ recall speaking to
Mr. Blaine was at dinner at some, and it was at
some point during that process, and to the extent
we talked about redistricting it would have merely
been, you know, how is it going? When do you all
think you'll be done? That sort of thing. We
certainly didn't have any discussions about
election data. He didn't give me any advice on
how to draw districts, nothing of the sort.
Q Representative Hall, if we take a break
for you to consult your calendar, can you tell us
the date on which this dinner happened?
A Maybe.
Q Can we take a one minute break for you to
do that?
MR. STRACH: Want to just look at it right
now?
A Yeah, just...
MR. STRACH: We'll just stay on. Let him
look at it.

really well. So yeah, Zach Almond is his name, but $I$ don't recall seeing him or meeting with him at all during this process.

Q Okay. Are you aware of any other members
of the General Assembly who would have met with Mr. Martin or Mr. Almond during the redistricting process?

A Not to my knowledge.
Q Have you ever visited the website of
Mr. Blaine's consulting company that, it's called
Differentiators?
A Yes, at some point, yes.
Q Are you aware that they have posted for
lack of a better word blogs about redistricting
this cycle?
A Yes.
Q Did you read those?
A I don't know that $I$ read all of them. I
don't know how many were there, but to my knowledge the only one that $I$ recall seeing during this process was the, there was one about
groupings which was essentially the same thing Duke University had put out, but I don't recall reading any other blogs that, that they put out.

Q Was there data, was there political data
on the county groupings that was published on the Differentiator website?

A Not that $I$ recall seeing on there.
Q But you did read the blog about county groupings about when Duke released its county groupings analysis?

A Well, I looked at the groupings, just thinking back on when it went out as best I can, I simply looked at the maps that the groupings that they had. I don't know that $I$ read through the whole article as much as I just looked to see, looked at the groupings to see, you know, what those groupings were going to look like.

Q But you didn't immediately shut it down if there was political data on that blog, did you?

A I don't recall seeing political data on there, but again, $I$ was pulling it up to look at the grouping maps, not to read an article from Jim Blaine.

Q And I know you talked with Mr. Callahan -Callahan a little bit about Buncombe County House districts and I just have a few follow-up questions.

You worked at a public terminal on
district lines for Buncombe House county districts
on multiple different dates. Isn't that correct?
A I don't know if it was multiple dates or not, but I know I had -- I went -- at one point I drew it one way and then $I$ changed it later on. So I don't remember if that was on the same date or not.

Q All right. So would it refresh your
recollection if I told you the first date was October $14 t h$ and the second map was on October 18th?

A Not really, but I won't dispute that. I drew two different Buncombe maps.

Q Okay. And in between the time that you drew those two different Buncombe maps who, with whom did you have discussions about the Buncombe House districts?

A You know, it would have been, if I had discussions about it, and I'm sure I did before we went to go and change it, and this would have been sort of immediately before, it would have been like we met for -- if that was the correct time limits you made, we wouldn't have been meeting for four days about that. It would have been Dylan Reel and maybe Neal Inman, Speaker's office.

MS. RIGGS: Katelin, can you push -- pull

## Transcript of Representative Destin Hall

 Conducted on December 27, 2021A I don't but $I$ know that $I$ never had any maps on my phone. So the chances are I was looking at Twitter or Facebook or I was checking my legislative e-mail or my law firm e-mail or my personal e-mail or $I$ was looking at how the stock market was doing or $I$ was reading my local
newspaper online, any number of things, and there was a lot of down time in the room, and the fact that he and I are sitting there both sort of looking at our phones leads me to believe we were probably waiting on central staff to load whatever map we were trying to draw on or we were waiting on them to press something.

Q You mentioned that Mr. Reel at least more than one occasion showed you one of the concept maps on his phone while you were in the public terminal room. Do you recall if he showed you the concept maps while you were drawing Buncombe County House districts?

A You know, as I said earlier, I don't think so. I don't recall specifically, but you know, Buncombe's just three districts, and you know, the challenge there of course is you're trying to keep municipalities as whole as possible.

So the real problem, as I testified

earlier, was the first version that I drew just didn't look right; it didn't look very compact, and so that was really the, the genesis for going in to change it was just to try to make it a bit more compact and, and $I$ think we did that.

Q When you first drew the three districts,
House districts in Buncombe County, do you remember what corner of the county you started from?

A I don't, no.
Q Okay.
Katelin, can you show the comparison maps? Representative Hall, I'll represent to you that what is marked as Exhibit 36 here is a comparison of the two different maps that you drew at the public terminal for Buncombe County. In the -- do you recognize these maps? Let me --the shapes of the districts that is?

A I think your characterization is correct.
Q Okay. So Representative Hall, I'll represent to you that the video record from the public terminal would reflect that in the map on the left you started drawing the two blue districts first in the southwestern part of the county. Do you recall that?

 Conducted on December 27, 2021A I don't, as I said earlier, I don't
remember which part of the county that I started
in. I know -- well, I don't know which one I started with on either of these.

Q When you came back and drew the map on the second, so the map on the right, so the second map, the enacted version of the Buncombe County, Buncombe County House districts, I'll represent to you that you again started with the blue districts this time on the eastern part of the county. Do you recall that?

A No. I don't remember which ones I started with on either of these. I just know that my goal on the second draw was basically to flip it around because it seemed to me that it was going to wind up being more compact and that District 31 sort of wound around the whole county, and we were trying to avoid that.

Q So sitting here today you don't know why you decided to each time draw the Democratic districts first in the map?

A Well, $I$ didn't decide to draw any

Democratic or Republican districts, but in terms of why I started where I started in the county there was no rhyme or reason to it. It was just

15:17:55

you have to start somewhere, and then again, if you've ever used Maptitude and sat down and drawn districts, you know a lot of times it's easier to sort of start on the outsides of the districts and trying to keep districts looking compact and sort of work inward, and so if I started outside, that may have been why.

Q And does looking at -- do looking at these
maps refresh your recollection about what the concept maps that you viewed both on Mr. Reel's phone in the public terminal room and in the adjacent office to the public terminal space what the concept map looked like for Buncombe County?

A Again, as I've said, $I$ don't recall there being a concept map for Buncombe County at all. I can't say for sure there was not but $I$ don't recall seeing it. Buncombe County was a relatively easier district to draw. It was just a matter of trying to get it as compact as possible.

Q Did you check the compactness scores on these, both of these maps?

A What I checked just simply the
visualization compactness test. I mean I didn't actually get out the Reock and all those scores, but I just looked at them and they looked more

compact to me. District 31 is in the first map just appeared to be too noncompact and it wrapped around the whole county, and so I, you know, in attempt to make it look better we drew the map that we drew.

Q Why didn't you utilize the Polsby-Popper or Reock test?

A I didn't think I needed to. I looked at it and felt like it looked more compact the second time around, so I didn't really need to do that.

Q All right. Representative Hall, you're an attorney; correct?

A Yes.
Q Have you read the North Carolina Supreme
Court opinions in the Stevenson line of redistricting cases from the 2000s?

A I haven't read all of them. They're obviously very long, but $I$ have read at least portions of that opinion, you know. I don't consider myself to be an expert as the attorneys in this deposition might be, but $I$ probably know more than the average person knows about it.

Q What do you understand to be the first step in a state legislative redistricting process or the drawing of state legislative districts as

compelled by the North Carolina Supreme Court in Stephenson?

MR. STRACH: Objection. Calls for a legal
opinion, but if you can answer it.
A Well, $I$ think as the opinion lays it out
it says that you first look at, you draw any VRA districts that you have to draw.

Q Do you recall that it says any districts compelled by the VRA?

A I don't remember that language. I just
know as a general matter it says do the VRA districts first.

Q And what is your understanding of what a VRA district is?

A Well, again my, my understanding is it's a district, again, not being expert on the matter, and I know you're asking for a legal conclusion again, but my general understanding is it's a district where there is legally sufficient racially polarized voting.

Q And you know, I want to understand your understanding of the law. So what do you understand to be legally significant racially polarized voting?

MR. STRACH: So Allison, I'm going to

15:24:14

A Well, as I said then and I'll simply
repeat what $I$ said at that point, which of course, you know, you could go read the transcript on that, but you know, essentially it, it was our opinion that due to the Covington case that we believe said there was not sufficient evidence of racially polarized voting in North Carolina that we did not have to use race, but in our criteria as amended, by the way, we amended it to say we would comply with Section 2 of the Voting Rights Act.

We made it clear to members, I along with other, the other Senate chairs made it clear that if any member had evidence of, of legally significant racially polarized voting that might trigger a VRA issue that they should bring that to us, and that never happened, you know. We had some members just make the conclusory remark that we had to draw VRA districts, but no member ever put forth any evidence of that.

Q Didn't you in one committee meeting also suggest that members of the public could bring that information to you as well?

A I don't remember if $I$ did that or not.
Q All right. Well, we may pull that up to

15:29:15
data in the redistricting process.
Q Sorry. I thought that was what I said.
You used the 2020 census data in the 2021
redistricting process; correct?
A That's right, but of course we did not
consider racial data from any time period.
MS. RIGGS: Katelin, if you can find it
while I'm, we're talking, in my notes I remember
that it was the August 12 th committee meeting
where Representative Hall talked about accepting
information from the public about Section 2 cases.
So maybe you can bring that up to refresh his
recollection in a minute.
Q But first let me show you a letter that
SCSJ sent to you.
Katelin, can you put that up first?
Representative Hall, I'm going to let
Katelin scroll through this document. First is
the cover e-mail. You can go probably a little
faster.
Do you -- do you recall receiving this
letter, Representative Hall?
A I think that's the letter that I
referenced earlier, yes.
Q Okay. And let's go back to the e-mail
transmittal cover. Towards the top, that's your e-mail address in the -- trying to find what line

15:31:08
$15: 31: 17$
15:31:21

15:31:28

A That's mine.
Q Okay. So you received this e-mail; is
that correct?

A Yes.
Q Okay. And what did you do with this
letter upon receiving it?
A Well, $I$ got it via the e-mail of course,
15:31:28

15:31:28

15:31:31

15:31:31

15:31:31
$15: 31: 33$
$15: 31: 35$
and so when I, I looked at it and I think I opened
the attachment, and in one of the first few lines
I think it became clear that you had included
racial data, so $I$ immediately closed it and, and $I$
didn't read the rest of it.
Q Did you forward it to anyone?
A I don't think so.
Q Did you discuss it with anyone? MR. STRACH: You can answer that to the
extent that you don't discuss any conversations with counsel.

A No.

Q I don't want you to reveal the
conversations with counsel, but did you discuss it

with counsel?
MR. STRACH: Okay. You can --
A Yes.

Q Do you remember when you had those
conversations? Again, don't tell me what they were.

A It would have been right around the time that the e-mail was sent.

Q Do you know, did Mr. Reel receive a copy of this?

A I don't know if he's listed on there or not, but, and so $I$ don't know if he subsequently got a copy of it.

Q Representative Hall, not having read the letter but having invited information about potential Voting Rights Act districts required, how would you have liked to have received evidence to induce you to examine whether or not VRA districts were required?

A Well, you know, I think it goes without saying, you know, $I$ obviously know that you often represent plaintiffs in these cases, and so right off the bat when $I$ see you send me an e-mail in a redistricting case $I$, nothing against you personally, but I think you would do the same

15:32:27

15:32:31
15:32:34
$15: 32: 35$

15:33:47
thing if you were in my shoes; you're going to steer clear of that, and so that's, again, not against you personally, but it's not your advice that I'm going to take on those issues.

But, you know, one of the methods that,
that we would have preferred if Representative
Robert Reives had come to me and said, look,
here's the analysis we've got to go through, or
Senator Blue had come to me and said this, you
know, that would have been the starting point.
Obviously counsel for both sides would have to be involved with that, but you know, the, the person who I expected to be the plaintiffs' lawyer suing me would not be the person that I would expect to receive such things from.

Q Do you understand that if Representative
Reives or Senator Blue had come to you to talk about a VRA district, it would have by necessity required a discussion of racial data and political data?

MR. STRACH: Objection.
A Yeah, again, I, you know, I'm not an expert on, on the VRA, you know. That's why we have attorneys representing us.

MS. RIGGS: Katelin, were you able to find
the August 12 th committee hearing?
Q Okay. Representative Hall, I'll represent
to you that this is an August 12 th committee
meeting and you are responding to Representative
Hawkins on how you determined whether black voters
were packed or not.
And Katelin, can you highlight the part
about accepting information from the public?
Starts on line 13.

Representative Hall, does that refresh
your recollection about what you said publicly?
A Not really, but $I$ have no reason to doubt
that transcript. I probably did say that.
Q Okay. And do you know if $I$ am a North
Carolina voter?

A I don't know that.
Q I'll represent to you that $I$ am, and the
letter -- as I understood you just testified you
shut down that letter the second you saw racial data involved in it; correct?

A Yes, I did, and again, you know, and obviously as you know, it's not anything against you personally. I don't know you personally, but I did know and expect that you were going to be a plaintiffs' lawyer, and I don't believe you have
the best interests of my viewpoint on these matters because obviously you're on the other side, and that's fair. So, you know, that
$15: 36: 29$
$15: 36: 31$
$15: 36: 33$

15:36:37

15:36:39

15:36:43

15:36:46

15:37:24
15:37:24

15:37:26

15:37:29

15:37:32

15:37:34
would have instructed them that that violated the 15:37:37

15:37:39
15:37:43

A I don't think that's the case, and you know, part of it is at the General Assembly the nonpartisan staff doesn't work for one side or the other, and so if a member asked a nonpartisan staff member to do something that unless it's illegal or unethical or outside of their power to do, they'll do that, and it's my understanding had

15:38:04
they asked nonpartisan staff to do that, then they
15:38:09 probably would if it's within their capability, and I don't know if it is or not, but $I$ know they are, that the Democratic party certainly has the ability to go do that if they want to, and none of those folks chose to do that.

Q So despite repeated exhortations that,
that racial data and electoral data were prohibited for use in this redistricting process it is your testimony now that other members in the legislature were supposed to know that they could go to nonpartisan staff and request that which you expressly prohibited?

MR. STRACH: Objection. That's not what
he said. Answer the question.

A Again, I think it's -- to the extent I'm answering what $I$, what $I$ said, Senator Blue, Representative Reives any many members of the Democratic party who are very smart folks and have been there for some time, they know what they can and can't do with staff, and you know, whether, whether staff, whether they asked them or not I don't know, I'm not aware that they did that, but again, our criteria allowed for us to comply with the Voting Rights Act, and that was for a reason, and the reason was in case members put forth evidence that we needed to draw VRA districts, and nobody ever put forth any evidence that we needed VRA districts, and nobody to my knowledge ever put forth an actual proposed VRA district.

Q You never did any analysis yourself to ensure that no VRA districts were required. Isn't that correct?

MR. STRACH: Objection.
A Well, I mean again to the extent you're asking me to make a legal conclusion I'm not going to do that, but you know, I'll just say what -(inaudible) -- the decision to do, to draw the way we did, I was informed by former cases. I was informed by the Covington case. I was informed by

```
a Common Cause case in most instances where we
```

    didn't use racial data at all, and those were
    upheld.
    Q That wasn't my question. Representative
    Hall, you, you did not perform any type of
    analysis to determine whether current racially
    polarized voting patterns and demographic, racial
    demographic patterns required the drawing of any
    districts compelled by the Voting Rights Act.
    Isn't that correct?
    A My --
        MR. STRACH: I'm sorry. Objection. Go
    ahead.
    A My analysis, analysis was just as I
    described.
    Q The old court cases?
        MR. STRACH: Objection.
            A Yes.
            Q And that's it?
            A You know, again, I, without going into
    legal conclusion, with legal conclusions, yes, or
breaching any sort of privilege $I$ may have, that's
it.
Q And you acknowledged though in that
committee meeting that my colleague just had up

Transcript of Representative Destin Hall Conducted on December 27, 2021
that the decision on whether or not a VRA district
was required might require racial data; correct?

Do you need me to put that back up?
A Again, $I$ 'm not going to make a legal
conclusion. I'm not an expert on the VRA. I
don't know all the requirements.
Q Okay. You stated --

Katelin, can you scroll up so that we can
see that this is Represent -- Chairman Hall
speaking?
Chairman Hall, you would agree with me
that you said in this October -- sorry -- August
12th committee meeting that members of the
committee and members of the public are welcome to
gather whatever evidence and put forth evidence
that might fall under Section 2 of the Voting

Rights Act that that may require some use of
racial data.

Did I read your public statement
correctly?
A Yeah, which is in line with what $I$ just
said, that it may require it. I don't know
whether it does or not. I'm not an expert on VRA.
Q And your testimony was that you did not
look at the letter sent by Southern Coalition for

## Transcript of Representative Destin Hall

 Conducted on December 27, 2021Social Justice because you saw that there was racial data in there?

A I didn't see the racial data. I remember 15:42:18
$15: 42: 21$
15:42:23
seeing something towards the beginning of the
15:42:26
letter that led me to believe there was going to
15:42:27
be racial data in that letter, and so $I$ closed it.
MS. RIGGS: Okay. I have no further
questions. Thank you for your time,
Representative Hall.
THE WITNESS: Thank you.
EXAMINATION BY COUNSEL FOR PLAINTIFF

NORTH CAROLINA LEAGUE OF CONSERVATION VOTERS
BY MS. MITTAL:
Q Good afternoon. My name is Urja Mittal.
I'm here on behalf of the North Carolina League of
Conservation Voters. I have just one follow-up
question, if that's all right, following up on
Miss Riggs.
You explained that you had the, you made a
$15: 42: 45$

15:42:49
15:42:54
15:42:56
15:42:58
15:42:59
decision not to consider racial data in the 2021
redistricting process for all the reasons you just
set forth. Did you think that that decision was a good idea, and if so, why?

MR. STRACH: Objection.
A Again, $I$ don't have anything to add to

15: 43:02

15:43:05
15:43:08

15:43:11

at the end of the week, so the quicker the better and we'll take one.

THE REPORTER: Okay. Would you like a rough draft later today and then the final
transcript by the end of this week? Is that what I'm hearing?

MR. STRACH: Yeah, if it's even possible
to get it even earlier this week. We have some findings due on Friday this week, so I know that's probably rough but, you know, to whatever extent you can get us something earlier than Friday we would appreciate.

THE REPORTER: Is Thursday morning
sufficient?
MR. STRACH: Yeah. We could live with that if we get a rough today.

MR. CALLAHAN: We would ask the same for the Harper plaintiffs, a rough later today and a final by Thursday morning, if that's at all possible.

THE REPORTER: That's fine. And other
counsel, Ms. Mittal and -- I don't see her now --
Ms. Riggs, are you all -- you're nodding, but I don't know what that means.

MS. KAISER: Yes, Miss Hamilton. We would

Transcript of Representative Destin Hall

also like the same as the Harper plaintiffs as
well as the legislative defendants.
MS. MITTAL: And us as well. Thank you.

CERTIFICATE OF SHORTHAND REPORTER-NOTARY PUBLIC
I, Janet A. Hamilton, Registered Diplomate Reporter and Notary Public before whom the foregoing deposition was taken, do hereby certify
that the foregoing transcript is a true and
correct record of the testimony given; that said
testimony was taken by me stenographically and
thereafter reduced to typewriting under my
direction; that review was not requested; and that
I am neither counsel for, related to, nor employed
by any of the parties to this case and have no
interest, financial or otherwise, in its outcome.

IN WITNESS WHEREOF, I have hereunto set my hand this 29th day of December, 2021.

today is Jan Hamilton representing Planet Depos.
Would the reporter please swear in the witness.

SENATOR RALPH HISE,
a witness herein, being duly sworn, testified as
follows:
EXAMINATION BY COUNSEL FOR THE HARPER PLAINTIFFS

BY MR. WHITE:

Q Okay. Can we proceed? Okay.
Good morning, Senator Hise. How are you?
A Good morning.
Q My name is Graham White. I represent the
Harper plaintiffs in this case. Before we start I
just want to go over a few of the ground rules for
the deposition.

\begin{tabular}{|c|c|}
\hline response to a deposition notice that the & 09:09:55 \\
\hline plaintiffs served on your counsel; correct? & 09:09:57 \\
\hline A Yes. & 09:10:00 \\
\hline Q And you're one of the six legislators & 09:10:01 \\
\hline named as a defendant in this case? & 09:10:04 \\
\hline A Yes. & 09:10:06 \\
\hline Q Okay. In appearing today you've chosen to & 09:10:07 \\
\hline waive legislative privilege; is that right? & 09:10:10 \\
\hline A I have. & 09:10:12 \\
\hline Q Okay. Why did you decide to waive & 09:10:13 \\
\hline legislative privilege? & 09:10:16 \\
\hline MR. STRACH: Objection. I'm going to & 09:10:18 \\
\hline instruct the witness not to answer that question. & 09:10:20 \\
\hline Q Okay. And you're aware that four other & 09:10:23 \\
\hline legislative defendants have not waived legislative & 09:10:26 \\
\hline privilege: Senator Daniel, Senator Newton, & 09:10:29 \\
\hline Speaker Moore and Senator Berger; is that right? & 09:10:33 \\
\hline A I assume so. & 09:10:36 \\
\hline Q Okay. And some of these defendants have & 09:10:38 \\
\hline firsthand knowledge about the map drawing process; & 09:10:42 \\
\hline is that right? & 09:10:45 \\
\hline MR. STRACH: Objection. Answer if you & 09:10:45 \\
\hline can. & 09:10:47 \\
\hline A So I am aware that Senator Newton and & 09:10:48 \\
\hline Senator Daniels [sic] participated with me in the & 09:10:52 \\
\hline
\end{tabular}

\section*{Transcript of Senator Ralph Hise}

Conducted on December 29, 2021
drawing of the Senate and Congressional maps.
Q Okay. Did you have any communications
with Senator Daniel, Senator Newton, Speaker Moore
09:10:55

09:10:58
\(09: 11: 00\)
\(09: 11: 04\)
\(09: 11: 07\)

A I -- I have had communications with
Senator Daniel and Senator Newton that --

MR. STRACH: Don't -- don't discuss any of
those discussions. You can just say whether you did or didn't.

A Okay. Then those are the two I've
discussed the matter with.
Q Okay. Do you know why any of these
individuals waived legislative privilege in this matter?

A Do I have to answer --
MR. STRACH: Objection. Yeah, I'm going
to instruct the witness not to answer that.

Q Okay. Let's talk a little bit about your
background. So Senator Hise, you served as a
State Senator since 2011; is that right?
\(09: 11: 45\)

A That is correct.

Q Okay. Do you currently serve on the
09:11:49

09:11:49

Senate Standing Committee on Redistricting and

Elections?
09:11:52

09:11:54

Transcript of Senator Ralph Hise
Conducted on December 29, 2021

A I serve as chair on that, yes.
Q Okay. How long have you served on that
committee?

A I have served on the redistrict -- we've
changed the name a couple times, but I've served
09:11:55
09:11:57

09:11:59
\(09: 12: 00\)
\(09: 12: 03\)
on Redistricting since \(I\) was elected in 2011.
Q So you were a member of the Redistricting
Committee then when the General Assembly enacted
new State Senate and House maps in 2017; correct?
A Yes. I believe I had moved to chair at
that point, but yes.
Q Okay.
A Excuse me.
Q Yeah, and Representative David Lewis was
the senior chair of the House Select Committee at
that time, the House Select Committee on
Redistricting?
A I believe -- I believe so. I believe
Senator Lewis was chair for my entire term but I'm
09:12:41
09:12:44

Q Okay. And you helped draw the 2017 Senate
\(09: 12: 50\)
map; correct?
A In some way I've worked on every map since 2011, yes.

Q Okay. And are you familiar with the

\section*{Transcript of Senator Ralph Hise}

Conducted on December 29, 2021
criteria adopted by the Senate Redistricting

09:13:01
\(09: 13: 05\)

political data on all the draws of the maps.
Q Okay. And the criteria specifically
allowed for political data to be used?
A It did.

Q Okay. You're familiar with Dr. Thomas
Hofeller; correct?

A I am.
Q Okay. Dr. Hofeller was a Republican
political strategist; right?
A I guess it's more accurate to say he was.
Q Correct. And Dr. Hofeller consulted you
and Representative Lewis on drawing the 2017 House
and Senate maps; correct?
A Yes. He was a consultant of the
legislature and worked directly with us in the
development of those maps.
Q Okay. And Dr. Hofeller drew district
lines for the Senate map at your direction. Is
that fair to say?
A Yes.
Q Okay. And Dr. Hofeller used election data
and partisan considerations when drawing particular districts?

A We established the directions for him to use. I believe there was a selection of ten races

that created the likely outcomes for each voter
09:15:22
tabulation district, and those were used in the
09:15:27

09:15:31

Q Okay. So in addition to using that
formula that you just described, Dr. Hofeller also
\(09: 15: 32\)
\(09: 15: 35\)
used Maptitude files to color code voting
districts based on their partisanship; correct?

A I believe -- I believe so. Maptitude has
always been our software system for drawing maps, and the partisan data under that formula was a field in Maptitude.

Q Okay. I want to share my screen for a second and bring up -- hold on. Let me figure out 09:15:39

09:15:43

09:15:47
09:15:49
\(09: 15: 53\)

09:15:57
09:15:59
\(09: 16: 02\)
-- let me make sure I'm doing this correctly.
Okay. Are you able to see what looks like
a map on my screen, a green and red map?
A Not a lot of detail, but yes, I can see a map.

Q Okay. Let me try to zoom in here. Can you see it with more detail now?

A Yes. Well, yeah.
Q Yeah. Doing my best here. Over remote, you know, it's not as easy as it used to be. Okay. Do you see how Dr. Hofeller shaded the Republican leaning districts green and the

Democratic districts pink and red?
09:16:45

A I believe that is a shading of at least
voter tabulation districts, but I assume that's
the utilization of what he has there.

Q Okay. And do you see how the boundaries
of these districts very carefully encircle all of
the Democratic VTDs, the VTDs in pink and orange up here?

A In 2017 I -- there are definitely areas
outside of that, as best that \(I\) can see it, but we
09:17:22
drew the districts specifically with the data
involved and drew the district boundaries on the
basis of the data.

Q Okay. Do you think that Dr. Hofeller
could have drawn these district lines so precisely
without using political data?
MR. STRACH: Objection. Answer that if
you can.

A The best I could say is I could not draw
those districts in a precise manner without the use of political data.

Q Okay. And so it's fair to say that the
2017 House and Senate maps were drawn to benefit
Republicans; correct?
MR. STRACH: Objection.

the committees to maintain a partisan advantage for Republicans; correct?

09:19:16
09:19:19

A I believe it did, yes.
Q Okay. And the criteria from 2016
09:19:21
09:19:22
instructed the committee to make reasonable
09:19:26
efforts not to divide a county into more than two
09:19:28
districts; correct?
A It did.
Q Okay. Did you help draw --
A Assuming that is for -- I clarify. I'm assuming that is for Congressional districts.

Q Yes. This is for Congressional districts.
Okay. Did you help draw the 2016 Congressional map?

A I did do work on drawing the Congressional maps at that point.

Q Okay. And it's fair to say that the 2016
Congressional map that was enacted was drawn to give Republicans a political advantage?

A I think the final outcome was that one of the criteria was a political advantage for Republicans.

Q In fact the 2016 plan -- strike that.
The 2016 Congressional plan was drawn to
give Republicans the strongest political advantage

govern the 2021 redistricting process; is that correct?

09:24:15
09:24:19

A I believe the dates are correct, but we did propose that.

09:24:19
09:24:21

Q Okay. The proposed criteria were
09:24:22
announced during a joint hearing of the House and
09:24:26
Senate Redistricting Committees on August 9th; is
that right?
A According to the date I believe so. I'm
not...
Q Okay. Before announcing these proposed criteria at the hearing did you seek any input

09:24:41
from Democratic members of the House or senate
Redistricting Committees?
A Before adoption the members of the
committee both were discussed and debated with the
committee before the adoption of the committee,
but not necessarily in the drafting of a proposal, although different criteria were offered by

Democrats.
Q So just to confirm, Democrats did not have
09:24:43
09:24:46
09:24:49
09:24:52
\(09: 24: 56\)
09:24:58

\(09: 25: 07\)
\(09: 25: 10\)
09:25:15
09:25:17
09:25:17
A The proposal was put forth by the chairs,
and the chairs are the ones who made the direction
09:25:22
of the proposal of the criteria.
Q Okay. Did any staff members for
Democratic members on the committees have any
input into the proposed criteria?
A Again, the proposed criteria were drafted
by the chair of the committee.
Q Okay. Did you communicate with anyone at
the National Republican Redistricting Trust about
the redistricting criteria before they were
adopted?
A I have not.
Q Did twice communicate with anybody at the
North Carolina Republican Party about the
redistricting criteria?
A Not about the criteria, no.
Q Okay. Same question for the Republican
National Committee -- Committee; did you communicate with anyone at the Republican National Committee about the redistricting criteria before they were adopted?

A No.
Q Okay. Did you communicate with any organization affiliated with the Republican Party about the criteria before they were adopted?

09:25:25
09:25:27
09:25:31
09:25:34
09:25:36

09:26:17
09:26:19

\section*{Transcript of Senator Ralph Hise}

Conducted on December 29, 2021

A No.

Q Okay. Who drafted the proposed criteria?
A Again, the chairs placed, developed the criteria and others with input, obviously working with our staffs. I believe it was then submitted to central staff to be drafted into a proposal. I don't know specifically, but normally it would have been Erica Churchill on central staff that prepared that for distribution to the committee.

Q All right. So let's turn to the criteria themselves. You testified earlier that the 2016 Congressional redistricting criteria instructed the committees to make reasonable efforts not to divide a county into more than two districts; is that right?

A For the Congressional map redrew that is correct.

Q Okay. Did you have any communications or discussions with your staff about whether to include a similar instruction in the 2021 criteria?

A We did. We reviewed all the previous criteria in the development of these criteria, development of these new criteria and at that point believed that we could better maximize the

09:27:34
09:27:39

09:27:43
county, whole counties created by the districts if
09:27:48 we did not include that criteria.

Q Okay. Which staff members did you discuss
that issue with?
MR. STRACH: Objection. I'm going to --
I'm going to instruct you not to answer. Unless it's central staff, nonpartisan staff, I would instruct you not to answer.

Q Okay. How did the whole -- can you sort of explain your previous answer a little bit? How did the whole county rule factor into your decision about whether it would include a criteria about dividing counties more than twice?

A When drawing specifically the
Congressional maps, when Congressional districts have to reach a zero deviation in population under this \(I\) think it meant we had to have six districts of one less person than the remaining eight
districts. Divisions of counties at least, if not divisions of voter tabulation districts, are required in that system in order to meet that. So if you have 14 districts, one would assume that if you would have to divide at least 14 counties that's with coming in unless the rare case which did not occur that whole counties formed the exact

09:29:00
\(09: 29: 06\)
09:29:08
\begin{tabular}{|c|c|}
\hline number of people in a congressional district. So & 09:29:11 \\
\hline that would leave 14 counties that had to be & 09:29:15 \\
\hline divided; but if a county is divided multiple & 09:29:17 \\
\hline times, that would be fewer counties that & 09:29:21 \\
\hline ultimately had to be divided in the creation of & 09:29:22 \\
\hline those districts. & 09:29:26 \\
\hline Q Okay. But isn't it true that you had to & 09:29:27 \\
\hline comply with the whole county provision when & 09:29:31 \\
\hline drawing maps in 2016? & 09:29:33 \\
\hline A It is my understanding that the whole & 09:29:35 \\
\hline county provision is applicable to legislative & 09:29:37 \\
\hline districts, not to Congressional districts. & 09:29:41 \\
\hline Q Okay. But the, the criteria in the & 09:29:44 \\
\hline 2016 -- strike that. & 09:29:48 \\
\hline The provision in the 2016 criteria that & 09:29:50 \\
\hline dealt with splitting counties more than twice & 09:29:54 \\
\hline didn't require, asked the committee to make & 09:29:58 \\
\hline reasonable efforts not to divide a county more & 09:30:01 \\
\hline than twice; right? Wasn't it -- & 09:30:04 \\
\hline A I believe so, yes. & 09:30:07 \\
\hline Q Okay. So was it not possible to use, make & 09:30:09 \\
\hline reasonable efforts to avoid more than two county & 09:30:11 \\
\hline splits this time while still complying with the & 09:30:14 \\
\hline whole county rule? & 09:30:16 \\
\hline MR. STRACH: Objection. Go ahead and & 09:30:17 \\
\hline
\end{tabular}
answer
A It could have but it would have required dividing more counties.

Q Okay. And why was that different from in 2016?

A The parameters around the 2016 were, were

09:30:18
\(09: 30: 19\)
\(09: 30: 21\)
\(09: 30: 23\)

\begin{abstract}
partisan data or election data in this drawing. I would say in a broad sense that any change you make to a map or any choice you make on a map has
\end{abstract} a partisan effect.

Q Okay. And just to clarify your previous answer. It's your understanding that the only way to avoid dividing 14 counties in satisfying one person, one vote, is to divide counties more than twice?

A If you're going to divide less than 14 counties, barring anomalies, then yes, you would divide a county more than once.

Q Okay. I'd like to focus for a minute on the process by which maps were drawn and presented to the public. Is it fair to say that decisions about the redistricting process were generally made by you and your fellow committee chairs?

A Decisions about the criteria of the committee were made by a vote of the committee of the whole, of the entire committee.

Q Okay.
A We made proposals -- we made proposals, but the criteria were adopted by the entire committee.

Q Okay. Did you seek input from Democratic
members of the committee about scheduling public 09:32:52
hearings about the redistricting process?
09:32:56

A It was part of the discussions in
committee for the proposals and what they would like to see in others, but the ultimate decision, needless to say we had a lot of challenges in this process in the middle of a pandemic, but most of those decisions were made with central staff based on our abilities for public hearing.

Q Okay. Did Democratic members of the committee offer recommendations about scheduling public hearings?

A I believe that they did. I believe that once the criteria were out they would liked, would have liked for other areas to hold hearings or those, but \(I\) don't really have a lot of memory of specifics on those.

Q Okay. Did you seek input from Democratic members of the committee about how to make the redistricting process more transparent?

A Again, the entire criteria and the transparency requirements were discussed by the entire committee and approved. We had the -- we made a lot of changes in the transparency, including the web streaming of the screens for the

\title{

09:36:33
09:36:37

09:36:38
recommendations in the proposal in determining the
09:36:39
rules to guide the redistricting process?
A I did not in these developments but I do
believe that discussions were had with

Representative Harrison on her criteria and
others, and we made a proposal of criteria that
the committee accepted.
Q Okay. Do you see recommendation number 6 at the top here?

A I do.
Q So one of -- this recommendation was to require that the committees disclose to the public
all third parties including outside consultants and counsel who participated in the redistricting process. Did the committees do this?

A I believe we have discuss -- we did not adopt this as any criteria. I believe that we have disclosed all consultants. I can use the specific language, but \(I\) believe we have complied with that.

Q So just to just to clarify, the committee has disclosed all third parties who participated in the map drawing process to the public?

A By third parties meaning outside the General Assembly and its counsel, then yes.

Q Okay. Where did that disclosure occur?

A I believe we've disclosed it in this. I
believe that we've had multiple conversations. I
do not believe there is a specific press release
that laid out everyone who was there, but the
entire process for drawing these maps was streamed
on video and broadcast across the web, and so who
was there was evident to everyone who was
watching.
Q Okay. Let's move on to the drawing of the
maps and the actual process that you just
discussed. So going back to the 2021 criteria.
One of the criteria is that partisan
considerations and election data shall not be used
in the drawing of the districts; correct?

A Correct.

Q Okay. So if a member used election
results data to draw the district lines, that map would violate the criteria?

A Yes, and would presumably not be considered by the committee.

Q Okay. If a member used political considerations in deciding how to draw district lines, that map would violate the criteria;
correct?
\(09: 38: 00\)
\(09: 38: 04\)
\(09: 38: 08\)
09:38:11
\(09: 38: 13\)

09:38:16
\(09: 38: 22\)

09:38:27

09:38:30

09:38:32
\(09: 38: 36\)
09:38:39
\(09: 38: 46\)

09:38:48
\(09: 38: 52\)
\(09: 38: 54\)
09:38:54

09:38:57
09:39:00
09:39:02
\(09: 39: 05\)
\(09: 39: 06\)
09:39:11

09:39:13

09:39:17

A If a member used political data in drawing

09:39:17

09:39:20

09:39:21
09:39:21
09:39:24
09:39:26
09:39:26

09:39:28
09:39:32
09:39:36
09:39:39
09:39:43
\(09: 40: 00\)
09:40:07
09:40:09

09:40:12
09:40:12
09:40:13
09:40:14
09:40:18
\(09: 40: 22\)
\(09: 40: 25\)
\(09: 40: 30\)
\(09: 40: 35\)

09:40:37

Q So is it fair to say based, that these
09:40:40
criteria do not allow partisan considerations to
09:40:42

09:40:45

09:40:47
09:40:51
\(09: 40: 54\)

09:40:58

09:40:59
09:41:05

09:41:07
09:41:10
\(09: 41: 12\)
\(09: 41: 15\)

09:41:19
09:41:22

09:41:26

09:41:28

09:41:31

09:41:34

09:41:37
09:41:39
\(09: 41: 43\)

09:41:45
before going into the hearing room and then used
09:41:47
that data to draw a map on the computer terminal,
would that map violate the criteria?
09:41:52

A Whether or not the map would be ultimately considered by the Senate committee would determine 09:41:55

09:41:58
\(09: 42: 04\)
\(09: 42: 07\)
09:42:12
\(09: 42: 15\)

09:42:17

09:42:18
\(09: 42: 20\)

09:42:23
09:42:25
09:42:28
\(09: 42: 33\)
09:42:35

09:42:39

09:42:42

09:42:44

09:42:44

09:42:47
\(09: 42: 50\)
\(09: 42: 52\)

MR. STRACH: Let him finish his question.
Q Yeah. Sorry. Let me rephrase, rephrase my question.

If a member consulted a map -- strike
that.
If a member reviewed a map drawn outside
the committee room, such as a template, a concept map or a draft map that had been drawn using political data and just copied that map on to the terminal, would that map violate the criteria?

A Maps could not be copied on to a terminal.
They have to be drawn from -- they have to be created at the terminal within the committee room. It would be -- I would see it as difficult to know what any member of the committee or others has done outside of the committee or others, but within the drawing of the map within the committee room, we are aware of that process.

Q Okay, but my question was about whether a particular map would violate the criteria, and let me rephrase it.

If a member brought a template, a concept map or some sort of map with them into the hearing room on a piece of paper and used that to draw the districts on the computer, would that map violate the criteria?

A If that evidence was presented to the committee, it would be appropriate for the

09:46:39
09:46:40

```
kind of concept maps or trace maps with them?
09:46:43

A I cannot.
Q Okay. And let me -- let's talk a minute
about the, the Congressional map that was
09:46:47
09:46:50
09:46:57
ultimately adopted and how that was drawn.
You drew the enacted Congressional map;
correct?

A Along with the other chairs. I had a
large -- I would say it is accurate to say a large
09:47:11

09:47:13
09:47:18
09:47:19
09:47:21
A So Senator Daniels actually began the
process on the map that was ultimately chosen to
be the basis for the Congressional map. My job
was moving in for, \(I\) would actually say more for
optimization purposes. As we got stat packs for
each of the iterations we improved on what we
could do to divide fewer VTDs, what we could do to
09:47:49
divide fewer municipalities. Those changes change
\(09: 47: 53\)
everything in the map when they're occurred
because Congressional districts have to reach
those population, exact population thresholds and
\(09: 47: 57\)
09:47:59
\(09: 48: 02\)
have to be rebalanced every time they go through.
\(09: 48: 05\)

So while he began the initial part in
drawing the map, it would be more accurate to say
09:48:10
09:48:13
that I, more of the map is a result of those
09:48:17
09:48:20

Q Okay. And you drew the map at the
09:48:22
computer terminal in the Legislative Building;
correct?

A Correct.

Q Before drawing the map at the computer
terminal did you consult any concept maps or templates or anything like that?

A We worked on when we originally, we began the process when we originally got the county population maps and looking as to what areas of the state began to form the population that ultimately create the size of roughly a congressional district, but beyond that kind of exercise it was all done within the committee room.

Q So just to clarify. Outside of the committee hearing room you did not review any predrawn maps, whether they were templates, draft

09:49:09 maps, concept maps or anything like that?

09:49:13
A That is correct. I'll say that is a concept for the -- I'm assuming we're staying on
the Congressional maps.
09:49:22

Q Yes.
A The legislative maps have a podding that
was developed outside the committee process that
we reviewed, but for the Congressional maps there
09:49:28
was no predrawn or other maps beyond looking at
09:49:31
what the current configuration of Congressional
districts are.
Q Okay. To your knowledge did other Senate
co-chairs on the Redistricting Committee consider
predrawn maps, draft maps, concept maps, anything
like that, before drawing the maps at the
terminal?
A No. I'm not aware of any that they did.
Q Okay. And what about your staff? Did
your staff consult any predrawn maps, concept maps, templates, anything like that, before drawing the maps?

A Again, I'm not aware of anything that they've done. They answer for themselves, but it is my anticipation that they had not and I proceeded under the assumption that they had not.

Q Did you instruct your staff not to consider predrawn maps?

A There was no formal instruction to staff
\begin{tabular}{|c|c|}
\hline on considerations and others, but they were & 09:50:26 \\
\hline clearly involved in the committee process and the, & 09:50:30 \\
\hline our development of the criteria and the proposed & 09:50:35 \\
\hline criteria as well as the adoption of the & 09:50:37 \\
\hline committee's criteria, and I think it would be & 09:50:39 \\
\hline clear to say that they should have crystally known & 09:50:43 \\
\hline that we were not going to use anything that would & 09:50:47 \\
\hline consider partisan or racial data and that & 09:50:49 \\
\hline everything done in the drawing process would have & 09:50:51 \\
\hline been done in the committee room. & 09:50:52 \\
\hline Q Okay. So just to be clear, setting aside & 09:50:54 \\
\hline the question of political data, your staff did not & 09:50:57 \\
\hline use any, any sort of concept maps or -- & 09:50:59 \\

09:56:19

09:56:20
09:56:22

09:56:28
number to be 25 that were assigned to each of the stations at different times.

Q Okay. And the staff members who were with you at the terminal, is it fair to say that they were instructing you on how to draw district lines?

\section*{MR. STRACH: Objection. Go ahead.}

A No. I would say that it is, it is the decision of the member to how to draw district lines and where they're going. I think they may have given a lot of technical advice, a lot, particularly in drawing the Congressional maps was a lot of searching for voter tabulation districts or census tracts that fit into very specific population parameters, so there was a lot of that conversation of where are the districts that add up to 47 or add up to 22 so that we could balance those at the terminals. They went through a lot of review of the stat packs and the criteria and how we could better produce maps that met those. That was the role of the partisan staff that were there.

Q Okay. So it's fair to say that the partisan staff were advising you then on how to draw the district lines?

09:56:31

09:56:35
09:56:37
09:56:39
09:56:42
09:56:45
\(09: 56: 45\)
09:56:47

\(09: 57: 42\)
09:57:46

\section*{Transcript of Senator Ralph Hise}

Conducted on December 29, 2021
\begin{tabular}{|c|c|}
\hline MR. STRACH: Objection. Go ahead. & 09:57:47 \\
\hline A I think I answered that before in what & 09:57:47 \\
\hline specifically they were advising us to do, but I & 09:57:50 \\
\hline think it's fair to say that the members are in & 09:57:52 \\
\hline charge of the direction of the drawing of maps. & 09:57:56 \\
\hline Q Okay. Did the partisan staff who were & 09:57:59 \\
\hline assisting you at the terminal have any political & 09:58:02 \\
\hline data or election data with them in the room? & 09:58:06 \\
\hline A They never had anything with them that I'm & 09:58:09 \\
\hline aware of. & 09:58:12 \\
\hline Q So they could have had political or & 09:58:12 \\
\hline election data with them? & 09:58:16 \\
\hline A I'm not aware of any political or election & 09:58:16 \\
\hline data that they had with them at any point or that & 09:58:19 \\
\hline they consulted that at any point. & 09:58:22 \\
\hline Q Did you ask them whether they had & 09:58:23 \\
\hline consulted political or election data? & 09:58:25 \\
\hline A I have not. & 09:58:27 \\
\hline Q You have not, okay. & 09:58:29 \\
\hline A But it is my assumption and they've been & 09:58:32 \\
\hline clear that they have not. & 09:58:37 \\
\hline Q And what is the basis for your assumption? & 09:58:38 \\
\hline A The development of the criteria of the & 09:58:41 \\
\hline committee which they as chairman they serve under. & 09:58:43 \\
\hline This would come in as working for the chairman & 09:58:48 \\
\hline
\end{tabular}
they serve under. They are clear what the criteria of the committee were and not using that data.

Q But other than making the criteria
available to them you did not instruct them not to
use political data?
A It is more than making the criteria
available to them. They were there at the
development as well as the process for the development of those criteria.

Q But you did not instruct them not to
consult political data prior to the map drawing?
A There was no specific instruction given.
There was merely an expectation.
Q Okay. Before you drew the Congressional
map at the terminal do you, did you discuss what the map would look like with othering legislators?

A Outside of the committee or outside of the committee members, co-chairmen?

Q The committee members.
A We have had -- I think we had -- as we're developing them or others, we had multiple conversations about what they would look like, prior to that. Prior to the drawing process we had some discussions resulting from the public

\hline A Before drawing, no. & 10:01:01 \\
\hline
\end{tabular}

\section*{Transcript of Senator Ralph Hise}

Conducted on December 29, 2021

Q Okay. What about before the Congressional map was enacted?

A Once the map was out I definitely received some displeasure about the makeup of the district from my Congressman Madison Cawthorn. Those kind of things \(I\) would say that \(I\) don't think the district ever changed after his displeasure with the way the district had been drawn. I had that conversation directly with him. I don't think we ever made any changes after that point, and I think it's pretty clear now that he's not been favorable to that district as he chose to run in another district.

Q Did you have any communications about the Congressional map before it was enacted with any other members of Congress besides Madison Cawthorn?

A I think we had had general conversations with Dan Bishop about the completion of the map, about the general specifics of what we had done with not dividing municipalities or what we had done with dividing counties and others, but those and beyond that, beyond the details or kind of the stat pack of what had been produced, that was the limits of that conversation.

Q Okay. When did that conversation with

Congressman Bishop occur?

A That occurred after the committee had
completed -- I don't have a date, but that
occurred after the committee had completed the approval of the maps.

Q And was this a one-on-one conversation
that you had with him in person or can you provide some more specifics about it?

A With Dan Bishop it was a phone call that
was coming in. We had several other matters to,
that we had discussed, and that was the limit of
the discussion.
Q Okay. Did you discuss the Congressional
plan with anyone other than Congressman Bishop or
Congressman Cawthorn? I'm sorry. Strike that.
Sorry. Let me rephrase.
Did you discuss the Congressional plan
with any other members of Congress apart from
Representative Cawthorn or Representative Bishop?
A No other members.
Q Okay. To your knowledge did other
co-chairs on the Senate Redistricting Committee
discuss the Congressional map with any members of
Congress?

A I have nothing at the forefront of my mind that they have. I believe someone may have disclosed a conversation at this point but I have no individual knowledge of conversations they've had.

Q Sorry. What do you mean that somebody disclosed a conversation?

A I believe someone disclosed a conversation with Representative Murphy, but \(I\) don't know if that was the Senate chair or House chair.

Q Okay.
MR. STRACH: Hey Graham?
MR. WHITE: Yeah.
MR. STRACH: Can we take a quick break? I
know you were trying to go 90 minutes, but frankly
a rest room break if that's okay.
MR. WHITE: Yeah, that's fine.
MR. STRACH: Let's just take five.
THE VIDEOGRAPHER: Okay. We're going off
the record at 10:04 a.m.
(A discussion was held off the record.)
(A recess was taken.)
THE VIDEOGRAPHER: We are back on the
record at 10:09 a.m.
BY MR. WHITE:

\section*{Transcript of Senator Ralph Hise}

Conducted on December 29, 2021

Q Great. Senator Hise, I just had a few more questions about how the enacted Congressional map was drawn.

Did you draw the Congressional map in multiple sessions or did you draw it in one sitting?

A The Congressional map was drawn in multiple sessions.

Q Okay. Did you speak with anyone in between those sessions?

A Yes.

Q Sorry. Let me be more specific about that question. Did you speak with anybody about how the map was to be drawn in between those map drawing sessions?

A So the vast majority of our process would be once a map reached either this time point or conclusion in the drawing that was balanced across the district, we ran a stat pack. The stat pack would tell us how many municipalities were divided, how many voter tabulation districts were divided as well as how many counties were divided as well as the population distributions in others as well as compactness scores. So we would have a lot of conversations in between those points about

10:09:30
10:09:32

10:09:36

10:09:37
10:09:39

10:09:41

10:09:42

10:09:44

10:09:45

10:09:48

10:09:51
10:09:52
10:09:54
\(10: 09: 57\)

10:10:00
\(10: 10: 01\)

10:10:05

10:10:11

10:10:14
\(10: 10: 16\)
\(10: 10: 21\)
\(10: 10: 25\)

10:10:29

10:10:32
\(10: 10: 36\)
how to, how to better perform in all of those areas and where we thought we could go in and make changes and perform, but all those changes were decided and made in the committee rooms.

Q Okay. Did any staff, any of the partisan staff you mentioned, did they consult any concept maps, draft maps, anything like that, in between the map drawing sessions?

A Again, I'm not aware of any, that they ever consulted any of those things.

Q Do you know if they consulted any parties who were not -- or strike that.

Do you know if they consulted anyone outside the legislature, third parties, like other political consultants, anything like that?

A I am not aware of any consultations they had with anyone outside of the legislature.

Q Okay. And so just to put a finer point on it, is it your testimony that everyone who took part in drawing the maps was in the committee room and known to anyone who was watching that process?

A Everyone that took part in drawing maps in the Senate side, that's what \(I\) know about at 544, that they did not utilize anyone outside of that room or that process. That would be accurate.
\(10: 10: 39\)
\(10: 10: 43\)
\(10: 10: 46\)
\(10: 10: 49\)

\section*{Transcript of Senator Ralph Hise}

Conducted on December 29, 2021

A I see three bullet -- yeah, the -- we've got the same screen, so.

Q Yeah. So can you read the third bullet point called community consideration?

A So community consideration? So long as a plan complies with the foregoing criteria, local knowledge of the characteristics of the community and connections between communities may be considered in the formation of legislative and congressional districts.

Q Is that the local knowledge exception that you were referring to? MR. STRACH: Objection. Go ahead.

A I believe that's the only reference in this document.

Q Does this community consideration criteria I'm on right here say anything about partisanship?

A It does not. The word partisanship is not used.

Q Okay. But it's your interpretation of the criteria that members can use partisan considerations in drawing the map as long as those considerations come from their own local knowledge?

MR. STRACH: Objection.
\(10: 13: 17\)
10:13:20
10:13:22
10:13:25
10:13:28
10:13:32

10:13:36
10:13:38
10:13:40
10:13:43
10:13:44
\(10: 13: 47\)
10:13:49
\(10: 13: 51\)
\(10: 13: 54\)

10:13:54
10:13:58
10:14:03
10:14:06
10:14:07

10:16:37

10:16:42

10:16:44

\section*{Transcript of Senator Ralph Hise}

Conducted on December 29, 2021
\begin{tabular}{|c|c|}
\hline then. Suppose in drawing the map that you decided & 10:16:47 \\
\hline to split the county of Mecklenburg three times & 10:16:50 \\
\hline because you knew it would give Republicans an & 10:16:54 \\
\hline advantage. If that was the reason you split the & 10:16:55 \\
\hline county three times, would that violate the & 10:16:57 \\
\hline criteria? & 10:16:59 \\
\hline MR. STRACH: Objection. Go ahead. & 10:17:00 \\
\hline A If by some reason I had determined that & 10:17:02 \\
\hline the situation made for someone for that was purely & 10:17:05 \\
\hline a political decision, not a decision to divide & 10:17:08 \\
\hline less counties or specifically because of the size & 10:17:12 \\
\hline of Mecklenburg County, if it were done on those & 10:17:14 \\
\hline basis and it resulted in a partisan advantage, & 10:17:18 \\
\hline that would be acceptable. I guess there's some & 10:17:22 \\
\hline such question about whether the decision was made & 10:17:25 \\
\hline specifically for a partisan advantage, and no & 10:17:28 \\
\hline other factors existed in that decision. & 10:17:31 \\
\hline Q So just to clarify, it's okay -- a map & 10:17:34 \\
\hline drawn to favor Republicans -- strike that. & 10:17:37 \\
\hline If you or your co-chairs drew a map in & 10:17:42 \\
\hline order to favor, with the intention of benefitting & 10:17:47 \\
\hline Republicans or maximizing Republican partisan & 10:17:49 \\
\hline advantage, that would not violate the criteria? & 10:17:55 \\
\hline MR. STRACH: Objection. & 10:17:57 \\
\hline A I would say that specifically -- again, I & 10:17:58 \\
\hline
\end{tabular}
would repeat that every decision making a, made in drawing a map has a partisan effect. Because those partisan effects are for Republican is not a disqualification of a map and would not have been a disqualification of the map of the committee.

Q Okay. I'm going to -- I think I just
stopped sharing my screen. I'm going to bring up
this criteria one more time. Okay. Do you see
the criteria back on your screen?
A I do.
Q Okay. Can you, can you read the first
bullet on here, election data?
A I will reread. Election data. Partisan consideration and election data results shall not be used in the drawing of districts for the 2021 Congressional, House and Senate plans.

Q Okay. So do you agree that this criterion prohibits the use of election results data and partisan considerations?

A They are jointly part of that statement, partisan considerations and election results data, yes.

Q Okay. What is your interpretation of the phrase partisan considerations?

MR. STRACH: Objection. Answer that if
\(10: 18: 00\)
\(10: 18: 03\)
\(10: 18: 07\)
\(10: 18: 12\)
\(10: 18: 14\)
\(10: 18: 17\)
10:18:19
10:18:21
\(10: 18: 28\)
\(10: 18: 29\)
\(10: 18: 30\)
\(10: 18: 33\)
\(10: 18: 37\)
\(10: 18: 40\)
\(10: 18: 43\)
10:18:48
\(10: 18: 50\)
\(10: 18: 54\)
\(10: 18: 57\)
10:18:59
10:19:01
\(10: 19: 04\)
10:19:04
10:19:07
10:19:09

\section*{Transcript of Senator Ralph Hise}

\(10: 20: 18\)

10:20:18

10:20:19

\section*{Transcript of Senator Ralph Hise}

Conducted on December 29, 2021

Q Okay. And when we were talking about the decision to remove the criteria about dividing counties more than twice, it's your understanding that the only way to avoid dividing 14 counties in

10:20:21
\(10: 20: 25\)

10:20:28
\(10: 20: 33\)
\(10: 20: 36\)
\(10: 20: 39\)

10:20:41
\(10: 20: 42\)
\(10: 20: 44\)
\(10: 20: 46\)
\(10: 20: 49\)
\(10: 20: 51\)
\(10: 20: 54\)
\(10: 20: 59\)
\(10: 21: 02\)
\(10: 21: 06\)

10:21:10
\(10: 21: 13\)
\(10: 21: 16\)
\(10: 21: 19\)

10:21:21
\(10: 21: 24\)

10:21:29

10:21:32
\(10: 21: 35\)

\section*{Transcript of Senator Ralph Hise}

Conducted on December 29, 2021

Q Okay. The -- I'm sorry. Can you repeat
that?

A No county was divided more than twice into, in this map as well.

Q Okay. And just to clarify what we mean by

10:21:37

10:21:39

10:21:40
\(10: 21: 44\)
\(10: 21: 46\)

10:21:49
\(10: 21: 54\)
\(10: 21: 57\)
\(10: 21: 58\)
\(10: 21: 58\)
\(10: 22: 02\)
\(10: 22: 05\)
\(10: 22: 05\)
\(10: 22: 07\)
\(10: 22: 10\)
\(10: 22: 12\)
\(10: 22: 12\)
\(10: 22: 14\)

10:22:17

10:22:18

10:22:20
\(10: 22: 21\)
\(10: 22: 23\)

10:22:27
\(10: 22: 29\)

Q Okay. And the map divides Guilford County between three different Congressional districts as

10:22:29

10:22:33
\(10: 22: 36\)
\(10: 22: 36\)
\(10: 22: 40\)
\(10: 22: 40\)
\(10: 22: 42\)
\(10: 22: 45\)
\(10: 22: 49\)
\(10: 22: 53\)
\(10: 22: 55\)
\(10: 22: 57\)

10:23:00
\(10: 23: 02\)

10:23:05

10:23:08

10:23:10

10:23:11

10:23:15

10:23:17

10:23:20
10:23:24

10:23:28
10:23:30

10:23:35

\section*{Transcript of Senator Ralph Hise}

Conducted on December 29, 2021
\begin{tabular}{|c|c|}
\hline MR. STRACH: Objection. & 10:23:39 \\
\hline A Aware of the voting history? Probably & 10:23:41 \\
\hline not, at least not the detail I would want. & 10:23:45 \\
\hline Whether or not I am aware that those three & 10:23:48 \\
\hline counties tend to elect more Democrats than & 10:23:50 \\
\hline Republicans barring wave years, then yes, I'm & 10:23:54 \\
\hline aware that the large counties tend to elect more & 10:23:58 \\
\hline Democrats. & 10:24:01 \\
\hline Q Okay. And under the current congressional & 10:24:02 \\
\hline map no other counties are split into three & 10:24:05 \\
\hline different congressional districts; right? & 10:24:08 \\
\hline A Under the congressional maps only 11 & 10:24:11 \\
\hline counties are divided at all. None of the other & 10:24:14 \\
\hline eight counties that are divided are divided & 10:24:17 \\
\hline multiple times. & 10:24:19 \\
\hline Q Okay. Who decided to split these counties & 10:24:20 \\
\hline into three different congressional districts each? & 10:24:26 \\
\hline MR. STRACH: Objection. Speak to whatever & 10:24:29 \\
\hline you did. & 10:24:32 \\
\hline A So I will say that there are three & 10:24:34 \\
\hline different decisions made at three different times, & 10:24:37 \\
\hline but in the, drawing the maps particularly I'm & 10:24:40 \\
\hline aware of in Mecklenburg County, those were coming & 10:24:42 \\
\hline in, it is -- I made those decisions. Mecklenburg & 10:24:50 \\
\hline is clearly, and Wake both, are clearly larger than & 10:24:53 \\
\hline
\end{tabular}
\begin{tabular}{|c|c|}
\hline a congressional district and contain, so & 10:24:57 \\
\hline Mecklenburg, when you contain what is & 10:25:01 \\
\hline predominantly a Charlotte district, it is possible & 10:25:03 \\
\hline to create a completely Charlotte district, those & 10:25:05 \\
\hline were coming in. It connects -- the other two & 10:25:09 \\
\hline districts need additional population that border & 10:25:11 \\
\hline Mecklenburg County, and both take that population & 10:25:14 \\
\hline from Mecklenburg County. & 10:25:17 \\
\hline Q Okay. Just to clarify the exact answer to & 10:25:19 \\
\hline my question. So you -- is it -- so you're saying & 10:25:23 \\
\hline that you decided to draw -- strike that. & 10:25:27 \\
\hline You drew the Congressional districts & 10:25:29 \\
\hline around Mecklenburg County? & 10:25:32 \\
\hline A That's -- I made the edits to those & 10:25:35 \\
\hline districts, yes. & 10:25:39 \\
\hline Q Did you discuss -- strike that. & 10:25:40 \\
\hline Did you have any discussions with staff & 10:25:44 \\
\hline about dividing Mecklenburg into three different & 10:25:46 \\
\hline congressional districts? & 10:25:50 \\
\hline A We had a lot of discussions about dividing & 10:25:51 \\
\hline Mecklenburg, divided it the way we did, because & 10:25:54 \\
\hline when that is the county that is divided, that is & 10:25:57 \\
\hline the county that has to balance population. So & 10:26:01 \\
\hline when you are looking at a district adjacent to & 10:26:05 \\
\hline Mecklenburg, you will see that it needs, whatever & 10:26:08 \\
\hline
\end{tabular}

Mecklenburg, you will see that it needs, whatever

\section*{Transcript of Senator Ralph Hise}

Conducted on December 29, 2021
the number is, 8,482 people in Mecklenburg County to form an exact district. There is a lot of conversation that goes in to finding the VTDs first that get you as close to that number as possible, and then the available census tracts that can get you exactly to that number.

That is a tedious walk-through process, so any time you're in an area where you're doing the divisions it's kind of all hands on deck. There will be a lot of people searching, particularly in those census tracts, to be able to balance those to the exact population.

I will say it had been much more
complicated this year than in previous years because there are fewer, due to some changes by the Census Bureau, there are fewer small census tracts by population. There are fewer census tracts with one, two or three people identified in them than there has been historically.

Q Okay. So just to -- just to be clear, your testimony is that Wake, Mecklenburg and Guilford County were split between three different Congressional districts each for population balancing?

A It is. For the, to balance the districts

10:26:11

10:26:19

10:26:22

10:26:25
\(10: 26: 28\)
\(10: 26: 29\)

\begin{tabular}{|c|c|}
\hline around them. The amount that was created in that & 10:27:30 \\
\hline particular district that matches another, that & 10:27:33 \\
\hline county that matches another district because it is & 10:27:35 \\
\hline the dividing county would be based solely on the & 10:27:38 \\
\hline population. & 10:27:41 \\
\hline Q But it wasn't necessary to divide each of & 10:27:42 \\
\hline these three counties three times? & 10:27:45 \\
\hline A To minimize the number of county splits, & 10:27:47 \\
\hline it was necessary, unless you divided one three & 10:27:50 \\
\hline times, four times, it was necessary to divide & 10:27:53 \\
\hline counties multiple times in order to minimize the & 10:27:58 \\
\hline number of counties divided. & 10:28:00 \\
\hline Q Well, was it necessary to divide Wake, & 10:28:02 \\
\hline Mecklenburg and Guilford three times each? & 10:28:04 \\
\hline A It is absolutely necessary to divide I & 10:28:06 \\
\hline believe Wake and Meck at least once, this were & 10:28:10 \\
\hline coming in, because their populations exceed a & 10:28:15 \\
\hline congressional district in them. There is no other & 10:28:18 \\
\hline way to do that. Whether they were divided an & 10:28:21 \\
\hline additional time fit better with the remaining & 10:28:24 \\
\hline criteria. & 10:28:28 \\
\hline Q Okay. So to be clear, it was not & 10:28:28 \\
\hline necessary to split each of these three counties & 10:28:30 \\
\hline twice? & 10:28:33 \\
\hline MR. STRACH: Objection. & 10:28:34 \\
\hline
\end{tabular}

A It complied better with the criteria to do so.

Q In discussing the decision to divide these

10:29:41
10:29:44

10:29:44
10:29:48
congressional districts would help Republicans, would give Republicans an advantage in the map?

A I did not -- I never asked that question, no.

Q And staff members never asked you that question?

A We -- no. No staff member asked me how it would affect the political balance of those.

Q All right. I want to turn to some of the specific districts, still sticking with the

Congressional plan here, and I'm going to pull up Exhibit 11. Do you see Exhibit 11 --

A I do.
Q -- on your screen? So Exhibit 11 is map
15 from the expert report of Dr. Christopher
Cooper who's one of the plaintiffs' experts in
this case. You may have seen a map like this
before. It's sort of similar to the Hofeller map, the two maps that we were talking about earlier. I'll represent to you that this map shows all of

10:33:28
\(10: 33: 31\)
\(10: 33: 33\)

A Again, \(I\) have no partisan information to consider whether it's, whether something is leaning. I have a general sense that the rural areas are more Republican and the urban areas are

10:33:34
10:33:39
\(10: 33: 43\)
10:33:47
more Democrat, but to make any conclusions beyond
\(10: 33: 51\)
\(10: 33: 55\)
Q Okay. But sitting here after having the Congressional -- after the maps have already been enacted, is it fair to say that these three
resulting districts are Republican leaning? MR. STRACH: Objection. Go ahead.

A I still at this point have not done any analysis to determine that.

Q Okay. Did you discuss the partisan
effects of dividing the Piedmont Triad with your staff?

A We have not. We discussed keeping the municipalities whole. We discussed keeping as much, as we could, keeping counties whole, and others. Particularly in Greensboro it was a lot of discussion about other possible ways that we could create that district and not divide Greensboro. That would have gotten us to the only divide of a municipality in the state would have been Charlotte, which you have no choice but to
\(10: 33: 55\)
\(10: 33: 57\)
\(10: 34: 00\)
10:34:02
\(10: 34: 04\)
10:34:05
10:34:08
10:34:10
10:34:14
10:34:17
\(10: 34: 18\)
\(10: 34: 21\)
10:34:24
\(10: 34: 26\)
\(10: 34: 31\)
\(10: 34: 34\)
10:34:39
\(10: 34: 41\)
10:34:45
\begin{tabular}{|c|c|}
\hline divide as the population of Charlotte is larger & 10:34:47 \\
\hline than a Congressional district. & 10:34:50 \\
\hline Ultimately I and the other chairs were & 10:34:53 \\
\hline unable to create a district to that, that kept & 10:34:55 \\
\hline Greensboro whole and met that criteria without & 10:35:00 \\
\hline performing much worse on other criteria. & 10:35:04 \\
\hline Q Okay. Was it possible to create a map & 10:35:06 \\
\hline that kept the Piedmont Triad together? & 10:35:09 \\
\hline MR. STRACH: Objection. Go ahead. & 10:35:13 \\
\hline A And it would be impossible to do so, I & 10:35:15 \\
\hline believe, and perform as well on the remaining & 10:35:17 \\
\hline criteria, on the actual criteria. & 10:35:19 \\
\hline Q I didn't hear that. You said it would be & 10:35:21 \\
\hline impossible or? & 10:35:23 \\
\hline A It would be impossible to do so and & 10:35:24 \\
\hline perform as well on the criteria of the committee. & 10:35:25 \\
\hline Q All right. So looking at Exhibit 11 which & 10:35:31 \\
\hline is still on your screen, do you see how this & 10:35:35 \\
\hline district includes most of the City of Greensboro & 10:35:37 \\
\hline over in the eastern part of the district? & 10:35:41 \\
\hline A Okay. & 10:35:44 \\
\hline Q Okay. And the district stretches all the & 10:35:45 \\
\hline way over across the state to include counties like & 10:35:48 \\
\hline Caldwell and Alexander? & 10:35:51 \\
\hline A It does. & 10:35:53 \\
\hline
\end{tabular}

\hline (Simultaneous speakers/crosstalk) & 10:35:56 \\
\hline Q I'm sorry. I didn't mean to interrupt & 10:35:56 \\
\hline you. Can you repeat that? & 10:35:58 \\
\hline A It stretches to Watauga, yes. & 10:35:59 \\
\hline Q Yeah. Those are generally pretty rural & 10:36:03 \\
\hline mountainous counties; is that right? & 10:36:08 \\
\hline A I don't know that I would categorize them & 10:36:09 \\
\hline as mountainous counties, but those are generally & 10:36:11 \\
\hline rural areas. & 10:36:15 \\
\hline Q Okay. And are those areas more Republican & 10:36:16 \\
\hline leaning? & 10:36:20 \\
\hline A The map you've provided me shows them as & 10:36:21 \\
\hline light shades of pink. & 10:36:24 \\
\hline Q Is it fair to say that more rural areas in & 10:36:26 \\
\hline North Carolina are Republican leaning? & 10:36:28 \\
\hline A Yes. & 10:36:31 \\
\hline Q Okay. From a communities of interest & 10:36:32 \\
\hline perspective, why put Greensboro with Caldwell & 10:36:38 \\
\hline County all the way out in the west? & 10:36:42 \\
\hline A Communities of interest has always been & 10:36:45 \\
\hline this kind of legal definition and others that I've & 10:36:48 \\
\hline not quite gotten. If we've met a specific & 10:36:55 \\
\hline definition of community of interest, a community & 10:36:58 \\
\hline of interest would have been created, but it's kind & 10:37:00 \\
\hline of that nebulous, but the associations across this & 10:37:04 \\
\hline
\end{tabular}
district are geographic. They are the
northwestern part of the state. They travel a similar line that is generally the north of Interstate 40 areas of the state with the interstate being a large divide. It also follows 421, those were coming in. There are
transportation and others create a similarity of
this district, and quite frankly being the lower elevation of the mountains into the foothills is actually another area that \(I\) think does this.

There's probably more with associations with the regions of the community colleges and others, but those are the similarities I could show among this community.

Q Does Greensboro have more in common politically with the City of High Point or with Caldwell County?

MR. STRACH: Objection. Go ahead.
A I have -- if you want to limit that question to where does blue go more with, there's definitely a different shade of blue in your map
between what would be High Point and what would be
Greensboro. How strong that correlates to the difference between High Point and the light pinkish areas of the others, that's a general

10:39:38
that will probably do it.
THE WITNESS: Okay.
THE VIDEOGRAPHER: All right. Thank you.
I do apologize for interrupting.
THE WITNESS: Touch something, mess it all
up.
Q So sticking with, sticking with the
Piedmont Triad. To your knowledge have Rockingham
and Caldwell Counties ever been in the same
Congressional district like they are now under the enacted map?

A I'm not aware that they have been in the same Congressional district. I have limited knowledge, but going back probably only two sets of congressional districts for where those would fall, but I'm not aware that they were, but there are many counties that are associated now in congressional districts with counties they've never been associated with before. That's the nature of redistricting, and I assume that's been true every time they've been redrawn.

Q Did something change about the character of Rockingham and Caldwell Counties that justified pairing them together for the first time?

MR. STRACH: Objection. Go ahead.

10:52:08
carveout, Representative Foxx is now in the same district as a Democratic incumbent from Greensboro, Kathy Manning?

A I believe that is correct, yes.
Q Okay. And you were aware that this map would do this double bunking?

A I am aware that the map solved -- by
solving one double bunking it created another, yes.

Q And is it your testimony that the drawing of district lines to double bunk those incumbents was motivated solely by traditional redistricting criteria?

A It was motivated by the fact that, as I said when \(I\) answered earlier this were coming in, Watauga had to be divided and you could avoid a double bunk there, although it is unusual to talk about double bunking in Congressional districts versus legislative districts because any member of the state is allowed to run in any district in the state.

Q Okay. I want to ask about a couple of other examples of double bunking under the Congressional map. The enacted map places Congressman Dan Bishop and Representative Alma

Adams into the same district; is that right?
10:53:25

A I believe that is correct, yes.
Q Okay. And Congressman Bishop intends to run in the new Congressional District 8; is that right?

A I assume so. None of us, no one running
for office knows where they're running or what area they're running in at this point.

Q Did you have conversation --
A The nature of this lawsuit.
Q Sure, sure. Did you have -- did you have conversations with Congressman Bishop about his decision to run in Congress, in Congressional District 8 before the map was enacted?

A No. Senator Bishop has relayed to me his intent to run for Congress again, but not specifically to any, to any area or district.

Q Before the map was enacted, did you have communications with Congressman Bishop about how the map would double bunk him with Congress- -Representative Adams?

A That is a matter I've never discussed with Congressman Bishop.

Q But you testified earlier that you did have communications with Congressman Bishop about

the map --

A I did.

Q -- before it was enacted?

A I did, but the conversation of he being double bunked with Alma Adams has never been part of our discussions.

Q Okay. And what were the -- what did you discuss about the map with Congressman Bishop?

A So we talked a lot about the details of the map as far as when it was complete, what we've done, what the committee was going through, others, those type of total base details when we thought we would be finished census data came really late in this process, and so those are the type of conversations. We avoided anything that was specific to political outcomes, political data or other things outside the committee.

Q Did other members of the Senate

Redistricting Committee -- strike that.
Did the other Senate co-chairs of the Redistricting Committee have conversations with Congressman Bishop about the Congressional map before it was enacted?

A I cannot speak for them specifically but I'm not aware of any conversations they had.

10:54:32

10:54:33

10:55:29
\(10: 55: 32\)

10:55:33
\(10: 55: 36\)

Q Okay. The enacted map also places

Representative Budd and Representative Hudson in the same congressional district; is that right?

A I believe that those two are -- where they currently reside is in the same congressional district.

Q Okay. And Congressman Budd is now running for the US Senate; is that right?

A It is, and it is traditionally that when
a -- I know we've done this in the legislature particularly. When a member announces they are not running for a seat there, we generally have not considered them for incumbency.

Q Okay. Did you have any conversations with
Congressman Budd about the Congressional map
before it was enacted?

A No.

Q Did you say --
A No. The only conversations I've had with, was regarding his Senate run and his endorsement by the former president.

Q Okay. Did you know he was running for
Senate -- scratch -- strike that.

Did you have those conversations with him
before the Congressional map was enacted?

10:57:52

I've been doing the map where there was not an optimal county cluster. There actually came four areas of the state where there were equivalent alternatives, \(10 / 8\) counties, which counties are the ten or which counties are the eight did not change the fact that you had to create the eightcounty pod and the 10 -county pod where in West

North Carolina, there were three three-county pods and two alternatives, but they both were threecounty pods. So there were alternatives in doing so. Every other map I've worked on legislatively there was a singular optimal map.

Q Right.
A So what happened in this process is there
were four areas of the state that had two
alternatives. So in fact there were 16 optimal
maps for that all gave the exact same total county cluster pattern of the state.

Q Okay. And so to put a finer point on it, it's fair to say that you had -- you and your co-chairs had some discretion in deciding how some of the county clusters would be grouped?

A Specifically we had four decisions to make in four areas of the state. There was a manner we chose and one alternative for each of those four

A I drew -- again, there were other
members -- unlike the House, we are not a singular process. We have three chairs operating those. So on the legislative maps, all three of us at different times were in some way involved in the drawing, but again, I had a prominent role in that process.

Q Okay. And can you clarify which portions of the enacted Senate map you drew?

A So most of the Senate map was drawn in place by the podding of counties, most of your districts and others. Once the pods were set, that is how they were drawn. I believe I was the one that inputted the choices of the chairs on all the four remaining pods, even back and forth on some as we changed them for the other; and then I was involved in the dividing of the counties, with the exception of the way the far western pod is drawn because that included my district.

So for what is the 47th District, it would have to have, the only ways to draw it, it would have to have part of Caldwell and part of Haywood County, and so what parts of those counties I was not involved in in that decision. There's really no other way to draw it in that; but as a result,

11:00:47
11:00:51
11:00:56
11:00:59
11:01:01

decisions prior to any beginning of map drawing.
Q Sure. And setting aside the Duke study
and the actual podding, did you or your staff
consider predrawn maps or template maps or concept
11:03:32
11:03:36
11:03:39
11:03:43
11:03:48
11:03:50
A Other than the podding the answer is no.
Q Okay. Do you know if your staff
considered any predrawn maps, concept maps, anything like that?

A I am not aware of anything that they
consulted.
Q Okay. Did you instruct them not to?
A Again, as we answered, with the
11:03:51
11:03:53
11:03:56
11:03:59
11:04:00
11:04:03
11:04:04
11:04:07
Congressional maps, the subject is we gave no
identified written or specific instructions to
staff, but it is clear in the criteria of the committee in drawing the committee [sic] that that would not be acceptable.

Q Okay. And did anybody, apart from your staff, the partisan staff and nonpartisan staff who were assisting you in the drawing and the other members of the committee, did anyone else have any input into how the Senate map was drawn?

A No one had any input with me, this was

11:04:08
11:04:12
11:04:13
11:04:16
11:04:18

11:04:30
11:04:31
11:04:33
11:04:37
coming in. I consulted no one. I talked to no one other than those individuals in regards to the decisions made in the drawing of the maps.

Q Do you know if Senator Daniel --
A I will add to that we did consult legal
counsel for advice on legal matters on a regular basis.

Q Okay. And which legal counsel did you consult?

A We have multiple legal counsels. They're all part of this case as well that we've had for a while, but \(I\) think Phil that's here would meet those criteria. Katherine McKnight that is on this would be in that and members of their firms, but I think we've laid out who our counsel is. Whether \(I\) can name them all specifically or not I can't but.

Q Okay. I was referring to your counsel who are employed by the General Assembly.

A No. The counsel that -- Josh Yost that's here is a counsel for the Senate, that's were coming in. Brent Woodcox is an attorney as well in that, and I will say nonpartisan staff, the central staff, have multiple attorneys and others, and a legal division that works for them, but

that's all under the umbrella of the General Assembly.

Q Okay. Do you know if Senator Daniel or Senator Newton consulted any templates, concept maps, anything like that, prior to drawing the Senate maps?

A I am not aware that they consulted any,
nor have they ever indicated to me that they did.
Q Okay. And just to clarify, were you aware
of whether they consulted any such maps prior to drawing the Congressional map?

A The same, same decision. I'm not aware of any, that they did anything in that manner, nor did they communicate that they had.

Q Okay. And again, was the process similar to the Congressional map drawing in that you were drawing at the computer terminal with partisan and nonpartisan staff assisting you?

A It was.

Q And --

A As a matter of fact, the two were very intertwined. They were -- for the Senate side the Congressional maps and the Senate maps were done both in our room for their development and could switch back and forth even in the same session

11:05:56

between the two.
Q And did the partisan or nonpartisan staff
have election data, predrawn maps or anything like
11:07:02
11:07:03
11:07:07

11:07:10

11:07:12

A I witnessed nothing, and the entire system
was set up that there were no partisan or racial
data available in the system.

Q Okay. Did you draw the Senate map in one
single session or did it stretch into multiple
sessions?

A It was drawn in multiple sessions.
11:07:30

Q How many sessions?
A I don't have an answer. It was over
weeks. So I think about two weeks was the entire process, so.

Q Okay.
A And it was -- and particularly the Senate
was particularly, it was changed after it was
drawn before the committee by amendment process as well.

Q Okay. And while you were drawing the
Senate map at the computer terminal did you
11:07:59
communicate with anyone outside the hearing room about the maps?

11:08:01

11:08:06

A No, not about the, not about the maps or the -- not specifically about the drawing of the maps, nor others about decisions made about the

11:08:09
11:08:12
11:08:15

11:08:19

11:09:16

11:09:19

11:09:21

11:09:23
11:09:24
election data in preparing for the map drawing process of the Senate map?

A I'm not aware that they did and nor have I seen any communications that they have.

Q Okay. All right. I'd like to ask about a
few of the particular districts on the Senate map, and I'm going to start with Exhibit 13. Do you see Exhibit 13 on your screen?

A I do.
Q Okay. So Exhibit 13 is map 19 from
Dr. Cooper's expert report, and this shows the
Granville and Wake County cluster. Do you see
that?
A \(I\) do.
Q Okay. And District 13 includes all of
Granville and parts of northern Wake County; correct?

A It does.
Q Do you see how the southern boundary of District 13 includes all of the red voting districts in northern Wake County while avoiding all of the darkest blue voting districts in northern Wake County?

MR. STRACH: Objection. Go ahead.
A District 13 was drawn -- this is a

11:09:28
11:09:30
11:09:32
11:09:34
11:09:35
11:09:39
11:09:43
11:09:57
11:09:59
11:10:00
11:10:05
11:10:08
11:10:11
11:10:11
11:10:12
\(11: 10: 16\)
11:10:22
11:10:22
11:10:24
11:10:27
11:10:32
11:10:36
11:10:40
11:10:41
11:10:43
two-county pod between Granville and Wake County. The first decision would be made to keep a county whole. Granville is the ob-, is the only choice that can be made in keeping a county whole. It connects to Wake County quite clearly on that northern boundary, so that as you make a traversal into the divided county, those are the precincts that are there.

The rest of this was drawn around keeping as much of Raleigh and the Raleigh precincts together as we felt we could and combining Granville County with the geographically larger precincts that exist there that indicate it is a more rural area of Wake County, so those are the precincts that we brought in. Trying to keep Raleigh is the reason for that interesting finger that seems to stick out in that process, but that is the manner in which this district was drawn.

Q Okay. So my question was more about how the boundary of District 13 falls along the voting districts, and so my question was, do you see how the southern boundary of District 13 avoids all of the darkest blue voting districts, meaning the most heavily Democratic voting districts?
MR. STRACH: Objection. Go ahead.

11:10:45
11:10:49
11:10:52
11:10:58
11:11:00
11:11:04
11:11:09
11:11:13

11:11:34
11:11:37
11:11:41
11:11:45
11:11:51
11:11:54
11:11:59
11:12:03
11:12:07
11:12:12
11:12:16
11:12:18

\section*{Transcript of Senator Ralph Hise}

Conducted on December 29, 2021

A I would surmise that that line also
follows the municipal boundaries of the City of
Raleigh as well.

Q Would you agree that none of the most heavily Democratic voting districts in northern district -- in northern Wake County are captured in District 13 on this map?

MR. STRACH: Objection.
A Again, I would say that those are probably
because they are included in the municipality of

Raleigh. Those VTDs include the municipality of

Raleigh; and as the municipality is kept whole,
those VTDs would be kept whole.
Q Okay. So it's your understanding that this boundary, the southern boundary of District 13, was drawn without using political data in any way?

A That is everything drawn in both the

Senate and Congressional maps was drawn without the use of political data.

Q Okay. I'm also going to pull up Exhibit 14. Exhibit 14 is map 25 in Dr. Cooper's report which shows the Cumberland and Moore County cluster. Do you see that?

A Yes.

11:12:19

11:12:21

11:12:27
\(11: 12: 29\)
\(11: 12: 32\)
\(11: 12: 34\)
\(11: 12: 36\)

11:12:39

11:12:40

11:12:43

11:12:46

11:12:52
\(11: 12: 55\)
\(11: 12: 57\)

11:14:32
11:14:33
11:14:36
11:14:38
11:14:40
district. I don't have those specific numbers in front of me at this point, but...

Q Okay. So you're saying it was for
population balancing reasons?
A Yes. I believe --
Q Um --
A -- we made every attempt in drawing that

11:14:46
11:14:48
11:14:52
11:14:55
11:14:57

11:14:58

11:14:59
11:15:01

11:15:04
11:15:08
11:15:13
11:15:17
\(11: 15: 22\)

11:15:26
11:15:30

11:15:32

11:15:35
11:15:37
\(11: 15: 40\)
11:15:42
\(11: 15: 45\)

11:15:48
11:15:54

11:15:56

11:15:57
the district line here -- strike that.
Wouldn't it be possible to draw the
northern boundary line of District 19 further northwards so that less of Fayetteville was split while still allowing for that point of contiguity?

A So --
MR. STRACH: Objection. Go ahead.
A In order to do so I would have to be able to determine how much that population is and how much is still available within the plus or minus 5 percent for the two districts, but do \(I\) feel like there is some -- could there have been marginal moves made? Possibly. But we were attempting in drawing that to get as much of Fayetteville into that district as possible. When we had surpassed the fact that it couldn't be drawn by itself, it was clearly our intent.

The other thing we looked at here that I'm not sure is seen on these maps, it may be one of these other colors, but in this particular county we wanted to be certain not to divide military bases or other communities, so that was something we -- an overlay that we looked at, so that we were not dividing the military area. That's something we got a lot of public comment and

11:15:59
11:16:03

11:18:16

11:18:19

11:18:23

\section*{Transcript of Senator Ralph Hise}

Conducted on December 29, 2021
that area.

Q Okay. And what was the reason for the decision to split Hope Mills?

A So if Hope Mills is divided, it's that it could not all be contained in one district in kind of that, you know, optimizing the criteria, this would coming in. We did not consider a division if the division occurred by county line or if the municipal boundaries were divided in a way that did not change the population. So if areas that had no people in them were not part, that was not considered a municipal divide.

Q Okay. I'm going to stop sharing Exhibit 14 and bring up -- excuse me -- and bring up Exhibit 15 which is the same map except now we have the sort of red and blue shading of the voting districts on it. Do you see how the boundaries of District 19 capture all of the darkest blue voting districts in Cumberland County? MR. STRACH: Objection. Go ahead.

A I see that for the boundaries and for the colors you have placed in them, but \(I\) assume that in some way correlates with the boundaries of VTDs or the boundaries of municipalities as well.

Q But we've established, and I'll flip back to Exhibit 14, that the boundaries of

Fayetteville, you know, exceed north of, north of this boundary line. Do you agree with that?

A They do. The VTDs I do not know.
Q Okay. So then if it -- what was the
reason for the boundary, the northern boundary of District 19 capturing all of the darkest blue VTDs but not any of the lighter VTDs to the north?

MR. STRACH: Objection. Go ahead.

A I'm trying to look and I'm trying to get into more detail. I believe -- I believe if you were showing the VTDs in this area that the area north of District 19 appears to be all one VTD. So keeping that VTD which if you kept it whole is necessary to traverse between the two counties which is required, that if you just select that one VTD, it creates that boundary in whole.

Q Do you see how VTDs to the, to the right on the -- excuse me -- to the eastern portion of District 19 -- strike that.

Do you see how the eastern border of
District 19 also perfectly captures all of the dark blue VTDs in Cumberland County?

A Again, when you -- you would need, at

11:19:54
11:19:57
11:20:00
11:20:03
11:20:05
11:20:08
11:20:14
11:20:17
11:20:24
11:20:28
11:20:29
11:20:32
11:20:35
11:20:40

least by physical location, most of the area of Cumberland County to complete District 21, and if you follow those, it takes the entire southern portion, the entire eastern portion and the singular line of VTDs across the northern portion to connect those to get District 21 to the population variance it needs.

Q Is it your testimony today that election data or partisan considerations were not used in any way in drawing this district line around District 19?

A We looked at -- what we looked -- what we did use, we -- again, my testimony has been a hundred times we did not use any partisan data or partisan considerations, this was coming in, but we did use the VTD lines to avoid violating vote, or dividing voter tabulation districts.

Q But again, you don't know for sure whether your staff used political data in drawing these lines or recommending how you drew the lines?

A I have -- again, I have no evidence to suggest in any way that they did so, and these are staff that \(I\) work on a regular and somewhat intimate basis with throughout this process and throughout many other legislative processes, and I

three possible pairings across the state, that those alternative choices we had to make, the most compact of those districts was clear and evident both visually and from the compactness scores that existed.

Q Would pairing Forsyth County with Yadkin
County have made the map -- strike that.
Would pairing Forsyth with Yadkin County resulted in a map that gave Republicans more of an advantage statewide?

A I have no -- I have no, no indications of how that would have played out or what the results would have been.

Q Okay. Do you see again how District 32 contains nearly all of Forsyth County's Democratic voting districts?

A And I believe Forsyth -- this is Winston.
I believe you can clearly see the reason for that district being drawn by looking at the municipal boundaries of Winston and to what was kept within the municipal boundaries and the VTDs that contain those municipal boundaries.

Q But do you see how District 32 does not include any of the Republican, any of the red voting districts to the east or west of the

district boundaries?
A I see that red is to the right of your
line that, the district line that is on here, but
I don't have the ability to, in this, to look at the municipal boundaries and see if there's a reason for that.

Q Okay. And how do you draw the line so precisely around these voting districts without using political data?

A I believe that you will find that those contain whole VTDs. So when you group the counties together that contain whole voter tabulation districts without dividing them and look at those that contain the municipal boundaries, that this is the result.

Q Okay. I'm going to stop sharing this. Okay. I also -- I have a series of questions about, moving on from the Senate plan, about communications you had with legislators and other persons throughout the redistricting process, and from the -- by the redistricting process I mean everything encapsulating, you know, the choice of criteria, how the plans were drafted, how drafts were analyzed, and how maps were considered and ultimately passed. So this is sort of a pretty

11:29:22
11:29:23
not have the ability to waive Senator Newton's privilege, and we're not going to do that today.

Q Okay. And so just to clarify, more specific questions about these communications. What was the, what were the content of your communications with Senator Newton about how individual district lines were drawn?

MR. STRACH: Same objection. Same
instruction.
Q Okay. Did you have any communications in
any form with Senator Newton about the partisan
performance of the maps?
A No.
Q Okay. Did you have any communications in any form with Senator Newton about the manner in which the map drawing would occur on the terminals and the procedures that would be used?

A Yes. We -- okay.
Q And what was the content of those
communications?
MR. STRACH: Same objection. Same
instruction.
Q Okay. And did you have any communications in any way with Senator Newton about the adopted criteria for the Congressional for the maps?

11:29:24

A Yes.
Q And what was the content of those
communications?

MR. STRACH: Same objection. Same
instruction.

Q Okay. Did you have any communications in any form with Senator Berger relating to the 2021 redistricting process?

A Yes.
Q How often did you communicate with him?
A Much less frequently in regards to this.
Now we serve on a lot of -- I'm part of the leadership team and others. This would -- part of the Senate; but on these very specifically, we gave him a lot of detail about where we where -where we were in the process and the timeline that we thought we could finish the committee process and be in process to get this to the floor of the Senate as well as coordinating the passage of all three bills with the House, and how they would cross over those Senate things. Those are very much the purview of the Pro Tem of the Senate and the Rules chair, and so how bills move and whether and those discussions with the House all went through Senator Berger.

\section*{Transcript of Senator Ralph Hise}

Conducted on December 29, 2021

Q Did you have any communications with

form with Speaker Moore
redistricting process?
A I do not recall any conversations about
any of the substantive, other than basic
conversations about we've finished the maps, we're
sending the maps, or how much longer do they need
to complete their process.
Q And so you referenced conversations, but I
had asked about, you know, all communications, including written communications as well. Is that what you meant?

A I'm not aware of any written
communications and others. The only conversations I'm aware of with Senator Moore would have been --
sorry -- Representative Moore would have been verbal communications.

Q Okay. And what were the content of those conversations?

A He --
MR. STRACH: Again objection. Instruct
the witness not to answer.
MR. WHITE: And are you instructing the
witness not to answer based on Speaker Moore's legislative privilege?

MR. STRACH: Yes, which cannot be waived

by Senator Hise.
Q Okay. Did you have any communications in any form with Representative Destin Hall related to the 2021 redistricting process?

A Yes.

Q How often did you communicate with him?
A More regularly than anyone in the House.

I think we had -- during the process we've had semi-regular meetings in which we discussed -particularly before the committee split, we began this as a joint committee process, so the Senate chairs and the House chair had to coordinate all of the processes. We made sure that our processes were at least similar in the drawing of the maps, our criteria that the Senate committee or the

House committee would consider were similar, if not identical, for those, and we had multiple meetings with our counsel in regards to legal issues as well.

Q Okay. Are you aware that Representative Hall and his staff were considering concept maps or template maps in drawing the House map, the State House map?

A I was not aware of that until someone told me that there's a consideration of that yesterday.

\section*{criteria?}

A I would say that they are encompassing for we went through each of the areas of the criteria in a joint process and ultimately produced separate documents for what is the Senate criteria and what is the House criteria, but I am aware of no significant differences. It is not innate in the nature of the maps.

Q Okay. Did you have any communications
with any outside consultants in any way relating
to the 2021 redistricting process in North
Carolina?
A No.
Q Did you have any communications with any representative of the North Carolina Republican party in any way relating to the 2021 redistricting process?

A There were several conversations that I had with the district chairman of my district who was quite upset that the number of the congressional district had changed. I had several conversations with the chairman resulting from that on the impact of a district being numbered something different and what that meant to the plan of organization, and others for all of the

11:37:39
11:37:41
congressional district parting committees this were coming in, but no changes were made as a result of those conversations on the Congressional

Q Okay. And to clarify, when you say the
chair, were you referring to the chair of the North Carolina Republican Party?

11:38:14
A So I'm referring to both. There is a chairman of the current 11th District who is the one who was upset. Most of my conversations out -- this was after the maps were released, but
    chairman of the state party in trying to clarify
    what the plan of organization and others said
    about that. There was quite a bit of discussion
    about the number on the district and what that
    meant.

Q Okay. Did you have any communications with the National Republican Redistricting Trust about the 2021 redistricting process?

A I did not.
Q How about the Republican State Leadership

11:38:34
11:38:38
11:38:42
11:38:45
11:38:47

11:39:04
11:39:04

Q Did you have any communications with the
Republican National Committee about the 2021
redistricting process?
A I have not.

Q Did you have any communications about the 2021 redistricting process with any other organization affiliated with the Republican party?

A Not that I'm aware.

Q Okay. Did you have any communication with any member -- strike that.

To your knowledge did Senator Daniel have any communications with any of the individuals or entities I just discussed: Political consultants, the Republican parties or any other legislators?

A I'm not aware of any conversation that had, although I think both he and Senator Newton attended a conference that may have been the NCSL on redistricting that \(I\) was, \(I\) did not attend, but I don't believe NCSL is any of those organizations. It's the National Council of State Legislatures.

Q Okay. So if \(I\) wanted to find out for sure whether Senator Daniel had those conversations, I'd have to ask him?

A I am not aware of any of those

conversations.

Q But I would have to ask him if I wanted to get the answer to that?

MR. STRACH: Objection.
Q Okay. To your knowledge, did Senator
Newton have any communications with any of the individuals or entities \(I\) have listed above?

A I am not aware of any conversations that he had with any of those individuals.

Q Okay. To your knowledge, did Speaker
Moore have any communications with any of those
individuals or entities?
A I'm not aware of any conversations that
Senator Moore's had with those groups.
Q Okay. To your knowledge did Senator
Berger have any communications with any of those individuals or entities?

A In regards to redistricting I'm not aware of any conversations he's had with any of those groups. Obviously Senator Berger's role has many more conversations with the Republican National Committee, and its affiliates and its state legislative affiliates \(I\) believe even represents them on several matters, but anything regards to redistrict \(I\) have no idea of any conversations

MR. STRACH: Objection. Go ahead.

A That is not how what he has said has been communicated to me, and that's literally what I could talk on, is that things developed by his staff were considered by him, those were coming in, under those same parameters, but I'm not familiar enough with what he said or others. I've been given an overview statement of what has transpired.

Q Okay. Did Senator Newton, Senator Daniel,
Senator Berger, Speaker Moore or Representative Hise [sic], did any of them discuss any -MR. STRACH: Excuse me --

Q -- draft maps or proposed maps with
political consultants?

A I am not aware that they have, no.

MR. WHITE: Okay. All right. That's
all -- that's all the questions that \(I\) have. I
don't know if this is a good time for a break.
Phil, I think some of the other counsel
for the other plaintiff groups may have questions as well.

MR. STRACH: All right. Let's take few minutes and come right back.

THE VIDEOGRAPHER: We are back on the record at 12:31 p.m.

EXAMINATION BY COUNSEL FOR
PLAINTIFF COMMON CAUSE
BY MS. KLEIN:
Q Good afternoon, Mr. Strach -- sorry.
Good afternoon, Mr. -- Senator Hise. Your
video is labeled as Mr. Strach, so I apologize for
that.
Good afternoon. My name is Hilary Klein.
I'm an attorney with the Southern Coalition for
Social Justice. I represent plaintiff Common
Cause in this matter.
I would like to ask you a few questions
this afternoon. I'm going to try my best not to
overlap with the questions that you've already
been asked today, but I might refer back to some
of the testimony that you have provided to ask related questions.

You understand, sir, that you are still
under oath?
A \(I\) do.
Q And can you agree that the same ground

\hline rules that you agreed to with Mr. White can also apply to our conversation that we're going to & \(12: 31: 51\)
\(12: 31: 53\) \\
\hline have? & 12:31:56 \\
\hline A Yes. & 12:31:56 \\
\hline Q Thank you, sir. I'm going to begin by & 12:31:58 \\
\hline asking you to clarify one item about the & 12:32:04 \\
\hline redistricting process that you had testified about & 12:32:08 \\
\hline earlier. Do you remember being asked about a & 12:32:09 \\
\hline transparency-related proposal from Representative & 12:32:15 \\
\hline Pricey Harrison during the August 18th joint & 12:32:17 \\
\hline committee meetings? & 12:32:21 \\
\hline A I do. & 12:32:22 \\
\hline Q And you said that no vote was taken on & 12:32:24 \\
\hline those transparency proposals I believe you said & 12:32:27 \\
\hline because it was at the discretion of the chair. Do & 12:32:32 \\
\hline you remember saying that? & 12:32:35 \\
\hline A I do. & 12:32:37 \\
\hline Q I just wanted to clarify that you meant by & 12:32:39 \\
\hline saying it was at the discretion of the chair that & 12:32:44 \\
\hline you and your fellow chairs in your discretion had & 12:32:47 \\
\hline made the decision not to allow that transparency & 12:32:49 \\
\hline proposal to go to a vote by the committee; is that & 12:32:53 \\
\hline correct? & 12:32:57 \\
\hline A So the only -- under Senate rules, the & 12:32:57 \\
\hline only way that a proposal can come before a & 12:33:01 \\
\hline
\end{tabular}

\section*{Transcript of Senator Ralph Hise}

Conducted on December 29, 2021
committee is for it to be recognized by the chairman, and in order to do so, and it was not recognized by any chairman in order to do so under the Senate rules.

Q So it's fair to say that you and your fellow chairs had decided in your discretion not to allow that proposal to go to a vote; correct?

A It would at least be fair to say I feel that I'm not aware of any of the chairmen that were interested in the proposal that the representative had put forward, and whoever would have been in the dais, and \(I\) recognize it may have been myself at the time, would have been the one who made any discretionary calls on that matter.

Q Was there any legal or senate rulesrelated reason that that transparency proposal could, could not be considered in the discretion of the chair?

A There are no rules, there are almost no rules in the Senate rules that prohibit the discretion of the chair. As a matter of fact, even votes are called at the discretion of the chair and are not subject to counts.

Q So with reference to my question then, there are no rules or legal-related reasons that

12:33:04
12:33:07
12:33:12
12:33:16
12:33:18
12:33:20

12:34:15
12:34:18

12:34:23
12:34:26
that transparency proposal did not go to a vote to your knowledge; correct?

A That is correct, providing that a Senator was at the dais, yes.

Q Thank you, sir. I'd like to move on to a
statement you made that you were in some way
worked on every map since 2011, and do you
remember saying that?
A I do.
Q And you also confirmed that you are
familiar with the late Thomas Hofeller?
A I am.
Q Including that you gave him instructions?
A I am.
Q Did you review draft maps prepared by
Mr. Hofeller showing his partisan index in that last redistricting cycle?

A So in all the redistricting cycles since 2011 developed with him and others a conglomeration of prior elections up to that point, it was ten elections that were selected; we look at multiple elections to think what we think would be the best predictive outcome. We created within each voter tabulation district then a breakdown of votes, potential votes for a

Republican candidate, potential votes for a Democratic candidate, and that was a data point that was available for each voter tabulation district.

That was -- there was no way to break that down by census tract or others but by VTD and the questions could be drawn specifically for percentages that those ten elections produced an expected outcome when summed for any district.

Q Are those the heat maps that you testified
about earlier?

A They are different than heat maps. Heat maps would be a, a more general representation of the same thing. We actually created specific data points that would say that of those ten races a particular district returned \(X\) percent for the Republican candidates, \(Y\) percent for the \(D\) and returned, and so the number of population is how many votes would be expected from that.

The heat map tends to be like between 10 and 15 percent is this shade, between 15 and 20 percent is another shade that progressively goes from blue to red, from blue to white to red, this would coming in. What we created when we used partisan data would have been much more specific.

12:35:49
\(12: 35: 52\)

12:37:03

12:37:07

12:37:12

12:37:14

Q And did Mr. Hofeller prepare those heat maps as far as you recall?

A We developed the elections that Senator Rucho and other members that with the House at the time that was there would develop the elections that would come. He would input that data into a single data field that represented all of those elections, and that was an available field in the system. He did the upload. I believe once he created the formula central staff may have done the uploads for the same data system on the computers there, but in those elections we also drew them, the first time was completely off site. The second time was in other legislative offices that were involved. So very different process than was involved at this time.

Q And which -- do you remember specifically which redistricting cycles since 2011, you know, including the remedial that you viewed that kind of partisan data and those kinds of partisan maps we've been talking about?

A In general it would have been, it was, began with the 2011 redistricting process that we had there, and the subsequent redraws I believe up until 2017 which in order to comply with a court

12:38:28

12:38:29

12:38:31

12:38:38

12:38:42
order we began the process of saying that we would not consider partisan data in these elections, but that field, although it changed each time to update for new elections, the ten elections that created that field was available in every draw in between.

Q And that's -- when you say every draw in between, you mean 2011 up until that 2017 that you referenced; correct?

A Correct.
Q Okay. What about race data? Did you ever review any draft maps that Mr. Hofeller had prepared that showed racial data across North Carolina or in specific geographic regions within North Carolina?

A Similarly in the, at least the 2011 maps and moving forward, \(I\) believe the date for may have been different for not using racial data then, I believe that was several cases back from the one where we took out political data, there was a similar for each, actually for down to the census tract level, there was a similar data of the Black voting age population or the -- there were several others depending on the census actually asked a series of questions on race, and

12:39:48
12:39:53
12:39:58
12: 40:02
12: 40:05
those were available down to the census tract
level for the purpose of determining racial makeup of a census tract and summed to a district.

Q So it's fair to say you saw that racial data in some sort of map form across North Carolina?

A I have, \(I\) have no recollection of either being in a map form as much as them being specific data points that we could show the results for for each specific district, VTD or with race down to the census tract that you had either highlighted or had formed or had assigned to a particular district.

Q And when you say show it, you mean in Maptitude; right?

A Right. Maptitude would -- Maptitude could produce that instantly. It could also produce that as part of a stat pack that when you set up, finalize a district you can run it as part of a stat pack. It's just that was data that was uploaded to the system at the time. So you could see those. I don't remember any -- I don't specifically remember any broad views of here's a heat map of the particular race or of the particular as much as \(I\) remember specific data

points were available.
Q Understood. Thank you. Are you familiar
with the racially polarized voting analysis prepared by Dr. Thomas Brunell in that 2011 redistricting cycle?

A I, I read it nearly ten years ago and have
been aware of its utilization in cases since then, but not much more than as a participant.

Q Were you -- that was commissioned by the

General Assembly; correct?

A It was.

Q Did you participate in commissioning that and requesting that?

A I -- I have to be careful about this
because I'm not sure but \(I\) believe that was a vote of the committee to commission that or to
authorize the chairman to commission that, and I was a member of the committee.

Q You were a member, and this time you're chair, and as chair did the committee commission a similar analysis this redistricting cycle?

A The committee did not.

Q Was that decision taken pursuant to a vote of the committee not to do that?

A There was no vote of the committee in

order to do so. There was no vote of the committee not to do so, but you know, we had a long history of the commission of that and the utilization of that and not trying to get a legal pad but at least as it was conveyed to us that everything found in the previous study was insufficient to, in order to use race and use legally significant racially polarized, to show legally significant racially polarized voting that it was found to be insignificant, we had no
indication that something had changed in the time period. Anecdotally we quite frankly see that it's gotten less so than in that same time period and we left, \(I\) will also say the commission left open the possibility on multiple occasions, I asked on multiple occasions if anyone else would like to submit evidence for the committee to consider of legally significant racially polarized voting, this would coming in, and nothing was ever submitted to the committee.

Q I'd like to ask you a few questions about that but there's a few things I want to ask you before that but we are going to come back to that and ask you some follow-up questions. Before that though I want to talk a little bit more about your

experience before coming into the 2021
redistricting cycle.
Have you ever attended the American
Legislative Exchange Council? It's also called
ALEC and they have annual meetings. Have you ever
attended one of those?

A I've never attended an annual meeting. I
have been a member of ALEC because of the paid
membership, whatever else; attempted some but
never quite got them to work out on my schedule.
Q All right. As a member are you able to
view any of their annual meeting sessions online?
A I have not done so.
Q Have you ever received any materials for
any of those annual meetings?
A I have invitations all the time to attend.

I also happen to in Raleigh area I share an
apartment with the former president of ALEC,
Representative Saine, so I've seen a lot of ALECrelated material coming in, and he is always on me to attend and go to the conference. It's just the legislative schedule hasn't worked out and had much more participation from the House than the Senate because of that.

Q Are you aware of who in the House may have

12:44:14

12:45:19

12:45:22
12:45:24

12:45:26
attended any of these ALEC meetings?
A I am very aware that Representative Saine has attended a lot of these meetings in his role in doing so, but \(I\) may be able to vaguely pool some people who had gone with him and others, but I don't have any role in coordinating who attends or who does not attend.

Q Are you familiar with a session in the 2019 annual meeting called How to Survive

Redistricting?
A I'm not.
Q So based on your experience in
redistricting that we just discussed coming into this cycle you were aware, right, of the various steps that would be required from the release of the census data all the way to passing maps, and for example \(I\) am referring to adopting criteria, setting a schedule for public comment, drafting the maps and voting on them, you were aware coming into this cycle, weren't you, that all of those steps would be required at some point?

A I don't know that \(I\) would classify them as required, but \(I\) would say that, that we had gone through many of those steps before and intended to go through all of those steps in this cycle as

well as do much more to enhance the process, something I've worked on doing since I took over the process in 2017.

Q At some point you became aware that the
census data would be delayed this redistricting cycle; is that correct?

A That's correct.

Q Do you remember when you became aware of that fact?

A I don't, but it was in legislative session that's were coming in, all those kind of blew, but I think our schedule was originally planning to start this into June and July, but those made it so I'm assuming it was some point prior to that that the census information would be delayed.

Q Were you aware of a presentation made by the executive director of the State Board of Elections to the House Elections Committee in which she discussed the delay in census data?

A I might have some, gotten some information from it but not specifically what occurred in the House.

Q Were you aware that the executive director of the State Board of Elections had recommended delaying the primaries in that meeting due to the

\section*{Transcript of Senator Ralph Hise}

Conducted on December 29, 2021
census delay?
A I have no idea what occurred in that
meeting. I am aware that the executive director
had requested, had recommended delaying the primary.

Q Do you remember how you were made aware of that recommendation?

A No.
Q You got a lot of e-mails I'm guessing.
A I would -- I would actually assume that
would be from staff. So kind of reports of what go on in House committees tend to happen more from staff briefed me on what went on in the House.

Q So you were aware generally, you were made aware of that recommendation from the State Board; correct?

A Yes.
Q But it's true that neither you nor any of your co-chairs made any effort to adopt that recommendation as it pertained to the 2020 general election primary dates?

A Primary dates, not the general, but the primary dates. No, we have actually -- we began the process several years ago, probably six years ago now, of moving the primary earlier in the

state for the purpose of being more relevant in the Presidential selection process, that's would coming in, that has been a little bit of a rocky road in dealing with what both the national
committees feel about our position in that as well as one cycle on, one cycle off, with the

Presidential elections, so we've actually done what we can for that purpose to try to keep the primary dates where they are and early in the process so that we are relevant in the Presidential election selection process.

Q Were you concerned about the timeline for redistricting given the census delay and the upcoming primary deadlines?

A I would -- I feel confident and would
still have felt confident that we could complete the redistricting process in the time we had in order to be prepared for the filing in December and the selections are. My concerns on those have never been, as it played out, are in the legal processes which really don't have any boundaries in timeline, except for this case, and those were coming in, but yeah, my concerns have been what
happens to the legal case, not necessarily whether we could have completed the process in a timely

manner in order to meet the requirements.
Q So you weren't concerned, for example,
that you wouldn't be able to hold as much public comment because of the census delay and the upcoming primary deadline?

A I think we held a tremendous amount of public comment and were much more experienced in doing so than others sufficient in a way to shape the process as necessary.

Q Did you hold as much public comment as you did in 2011?

A I know we had fewer sites that were available in that. I can't speak to whether the hour, what the hours added up to but, because I remember the technical difficulties we had trying to do three sites at the same time in that process and trying to manage that, but \(I\) know \(I\) am at least confident we had fewer sites available for doing those comments.

Q Are you aware that the State Board also recommended a modification of the deadlines applicable to municipalities that were similarly affected by the delay in census data?

A I am.

Q And isn't it right that you sponsored a

bill, Senate Bill 722, that modified those deadlines and pushed them later --

A \(I\) do.
Q -- in response -- the first meeting of the
Senate redistricting elections committee to
discuss redistricting wasn't held until August
5th, 2021; correct?
A That is I believe correct, yes.
Q You could have met earlier; is that
correct?
A Yes. While in session there is, we could
have held a committee meeting at any point.
Q Do you remember when session started in
2021?
A January, the fourth Wednesday of January
as --
Q So technically --
A -- yes.
Q So technically you could have held the
first meeting at any point starting in January;
correct?
A Following the fourth Wednesday, yes.
Q At this first August 5th meeting you,
neither you nor your fellow chairs in the Senate or House proposed an overall comprehensive

schedule for the redistricting process that
have set forth a timeline, for example, for everything up until when final maps had to be proposed; is that right?

A That is correct.

Q And as chairs you and your fellow
redistricting chairs had the sole authority to set forth, for example, a public hearing schedule and other deadlines; is that correct?

A Subject to the committee, yes, that's correct.

Q What do you mean by "subject to the committee"?

A If the committee had recognized and made a motion to do something different, that would have gone over top of the chair, but barring that parameter being placed by the committee, this would coming in, it was at the chair's discretion.

Q Just to make sure \(I\) have this clear because \(I\) am not an expert on Senate rules and just so it's clear on the record, if somebody had made such a motion, whether that went to a vote would be up to the discretion of the chairs;

A As well as -- whether they were recognized

\section*{Transcript of Senator Ralph Hise}

Conducted on December 29, 2021
for making that motion as well as the outcome of that vote would be up to the discretion of the chairs, that's correct, under the Senate rules. It is -- it is different rules if a House member is chairing the committee than if the Senate member is chairing the committee. It organizes under House rules if the House is chairing, under Senate rules if the Senate is chairing.

Under the Senate rules both of, who is recognized and the outcome, the call of a vote is at the discretion of the chair.

Q So then it's fair to say that the chairs have the ultimate authority to set forth whether there would be a public hearing scheduled and other deadlines at the onset of the redistricting cycle. Isn't that correct?

A I would not classify it as ultimate authority, but the chairs would generally make that decision.

Q Why wouldn't you say ultimate authority? I'm not -- I'm not trying to be nitpicky. I just want to make sure \(I\) understand because these rules are a little bit confusing.

A Consideration of anything before a committee is under somewhat the purview of also

the rules chairman who can remove or add things to any committee or change them, and everything would be under the discretion of the president Pro Tem of the Senate, this were coming in, as to who -at any time who is the chairman of a committee and who fits that role is completely under his
decision. I know it's kind of some inside
baseball but...

Q It is a little bit. Who's the chairman of
the Rules committee for Senate?

A Bill Rabon.

Q Had you discussed with him at all whether setting forth a schedule would be in line with the rules for the redistricting cycle?

A I had no indication that there would have been a problem with the rules, and other than I'm guessing his counsel was aware. I'm not -- I haven't heard anything directly.

Q Okay.
A And I didn't propose anything directly.
Q Okay. Is it -- is it fair to say that setting forth a schedule at the onset, which you didn't do, would have provided more predictability for your other colleagues in the committees and specifically your Democratic colleagues in the

committees to prepare for each of these events we've talked about?

A I think the -- in some ways redistricting is kind of unprecedented for any manner that, any matter that the legislature or others would consider. I think given the general flow of legislation this is, factors much more notice and direction for the passage of legislation than we deal with any other piece of legislation; that is for timelines, for considerations. Generally the requirements are 24 hours' notice to notice a bill that is coming up and those type of things.

These were weeks and weeks in place. We
were dealing with a lot of things that were quite
frankly more mobile than they should have been.
We did not know what the availability of trying to
get sites to be available for in the midst of a pandemic and asking the university three weeks out if they're going to be, or four weeks out if they're going to be open and available for a public hearing, as well as community colleges, was a challenge if and of itself and just quite frankly something we couldn't solidify enough to propose at that first meeting and also put in a place that we got some committee input before

12:57:44
12:57:48
12:57:52
12:57:56
12:58:00
setting those things.
Q Did you get committee input before proposing the public hearing schedule and locations that were ultimately proposed?

A The committee met \(I\) think it stated on the first meeting on August 5 th before those were others, that is where different proposals from Representative Harrison and others were brought forth by those members of the joint committee, that's with coming in, and so yes, I would indicate that before we released a schedule and others and I think once we released a schedule we also came back and added additional sites and others to it that we were able to accommodate before a final version was adopted and completely planned for.

Q Is the issue you've identified with public hearing sites, is that the reason that you didn't propose or put forth a schedule for map drawing and when proposed maps would have to be done by?

A Those were, those were set upon some different factors, the time that maps had to be done, although we knew that public hearings needed to be conducted in that process. It was also driven by the fact of what were the dates that

12:58:02
12:58:05
12:58:08
12:58:10

12:59:14
12:59:18
12:59:22
12:59:25
were necessary to hold the primary election and filing consistent with the current state law; so how many days did you need prior to filing in order to have those maps in place, to have, be able to do residency verifications on candidates who filed and lived within districts or districts that required them. Those kind of dates drove as much or more of when we had to finish redistricting by than public comment did.

Q Those dates such as candidate filing and residency, those dates were known at the beginning of the session, weren't they?

A And I believe we finished the entire process somewhere about a week before those deadlines.

Q But they were, just to answer my question, they were, all of those deadlines you mentioned -the candidate filing, the one-year residency requirement for legislative state districts -those were all known at the beginning of the session in January 2021; correct?

A Those specific deadlines, the time period it would take the Board of Elections to comply with those deadlines like when they, how long they needed to know something to create their system in

13:00:36

13:00:40
13:00:44

13:00:47
order to be able to prepare for those deadlines required some more discussion.

Q So that was what the executive director of the State Board of Elections presented on February that you weren't in that meeting but you know that your staff or someone made you generally aware of those recommendations. Isn't that correct?

A She gave recommendations to the House is what I understood.

Q So my question then is, if those deadlines were known early on, why wasn't it set in August a deadline by which maps had to be drawn when all of those deadlines you've just mentioned were known, you know, months beforehand?

A I think there's a couple things why a deadline -- there are no -- I mean the General Assembly passes bills when the General Assembly passes bills, and some committee chair trying to say here's an artificial deadline by which you pass a bill is not -- we'll try to comply, but \(I\) don't know that that's the way the legislative process works.

But we had a timeline that we were trying to meet to get the maps out at the end, and we put as much of the public comment and other things in.

It is also normal that we would anticipate -- I was only here for one but you would generally do a special session for redistricting, but because of other things regarding the budget and the continuing resolution the two ran into each other, and so this session didn't actually conclude till December which clearly precludes the starting a special session after this session had adjourned, and a lot of those things kind of changed, and where we were in

August I think we were still hoping that there would be a knock on the door and a budget miracle that occurred, but that didn't happen for four more months in that process.

Q The budget is a very large piece of
legislation; right?
A It is.

Q Yeah. I just have a few questions about the answer you gave, which is you said we had an idea of -- and I'm paraphrasing you, but we had an idea of when the process should take place. Who are you thinking of when you say we?

A I would generally the Senate is -- there are three chairs of the Redistricting Committee, unlike the House that has a singular chair in its

13:03:18
process. So we attempt to make those decisions jointly and receive information in meetings jointly.

Q So if you're saying we had an idea, was that idea of the timing ever shared in committee or with, for example, your Democratic colleagues?

A I am aware of conversations with Dan Blue as well as his staff member, Fred, in which were given the updates that we had at the time on what we felt like we could put into the redistricting process and when we thought it would begin, when we thought the census data would be available to begin that process.

We also didn't know how long it would take
staff once they received the data to be able to upload it into Maptitude, but I think he was made aware of that process. Between the minority leader that's normal conversations between his staff on any piece of legislation, but \(I\) don't believe those were proposed to either the joint committee which was meeting at the time which is separate from the Senate committee that actually developed and considered maps.

Q Then those -- no idea or deadlines were shared in committee meetings where the public, for

example, would have understood the timing; is that correct?

A I believe the House committee meeting that you proposed in Feb- -- that you discussed in February was an open public meeting of the House committee.

Q But the idea of the timing, that you said we had an idea of the timing, that was never announced that we're going to have draft maps that we are going to propose and vote on, we're going to have at least draft maps to propose by this
date. That was never announced; correct?
A No. And, and there is a process. We also, as we had with our schedule, it was the intent to have a public meeting prior to the draft maps, that's would coming in, to take in that committee and then begin the drawing process.

So we actually had public hearing prior to
the beginning and drawings that would come as well as once we started the process and then had final maps.

Q The map drawing started on October 5th, 2021, in a joint committee meeting is when you announced that fact; is that correct?

A I believe that is accurate. It was early

October I'm sure, so.
Q And you stated that you anticipated the drawing to continue for at least two weeks at that point; is that correct?

A I did.
Q It lasted in fact a lot longer than two
weeks. Isn't that correct?

A It -- the map room was open for the drawing of base maps roughly that two-week period.

It was open for times afterwards so that
amendments to maps could be constructed and others generally by appointment. This would coming in.

You just need to let staff know. But that
two-week period is what we had staff literally
sitting at all four terminals prepared for
technical assistance as well as IT staff.
Q When you say by appointment, was there any
public listing of when those appointments would be made?

A No. It was up to the, the members to notify staff as to when they would be available for that process.

Q And you said that two weeks was when it was generally open, but there was no deadline to say members have to have a proposed map within two

13:07:02
13:07:04
13:07:07
weeks that they will submit and thereafter they can only draft amendments; is that correct?

A No. Quite frankly we had absolutely no idea how long it would take the process of drawing a map. If this is, you know, as all the questions went today, we literally began a process by sitting down at a computer and beginning the process, this would coming, in with what counties go together, what precincts go together, with the exception of the podding that existed in the Senate maps is something we had before that process began, and so how long it was going to take, what we needed in order to do that process, what the minority party needed in order to complete their process and others, we quite
frankly just didn't know how long that would take and had regular conversations with the minority of how much additional time do you need.

Q So Senator Hise, I'm confused then because earlier you have testified that you had no concern about the timing of the upcoming primary candidate filing deadlines, other deadines. You did not see the need to push those back, but now you're saying that you actually had no idea how long the maps would have taken to draw. How is it that you

13:08:20
13:08:23
13:08:27
13:08:29
had no idea how long the maps would take to draw, how much time would be required, but at the same time you're saying you weren't concerned about time at all and you didn't see a need to move the primaries back even though the State Board told you to do that?

A We have drawn maps on multiple occasions over the last ten years, this would coming in. Two weeks would be longer than any of those processes of actual drawing occurred, this would coming in. So a two-week time period should have been sufficient, but every time we draw maps it winds up being under new conditions and new criteria, and so what is necessary at this point is unknown, but \(I\) do feel like that, \(I\) did feel like that two weeks was a sufficient time period, but we also held the possibility of keeping it open longer. That's why we said we anticipate two weeks being the time period that the maps were open. Had we seen that significant additional time was needed by members to draw proposals and others, we would have extended that process.

Q A member of the public would not have known when or for how long any of these maps would have been drawn. Isn't that correct?

13:08:33

\section*{Transcript of Senator Ralph Hise}

Conducted on December 29, 2021

A That is correct, but all maps had to be drawn by members of the General Assembly. There could have been, there was all kinds of other apparently softwares out there that people could use for their own proposal, but the environment required that they be drawn by a member of the General Assembly.

Q You did not require members to disclose who they might bring with them to sit next to them and draw and help them to draw maps; correct?

A There was no requirement of disclosure. The requirements of the Sergeant at Arms for all of our committee meetings to sit in the committee areas, to be in the committee areas, there's public viewing areas of the committee rooms, require them to be a member of the General Assembly, a staff member of the General Assembly, whether that's partisan staff or nonpartisan staff, as well as or to be approved prior I think by the Rules chairman to be in that area.

So only staff members could be with the members drawing, and they are -- we have -- the selection of staff members is generally a free, free run [sic].

Q I know that the -- I'll represent to you

\section*{Transcript of Senator Ralph Hise}

Conducted on December 29, 2021
that members of the General Assembly have their profiles up on the General Assembly website with their pictures. Is there a similar public profile for staff members?

A There is a staff directory that is on
there, but \(I\) am not aware that it is a profile
that indicates the picture and others of employees of the General Assembly, although for ID purposes I think the Sergeant at Arms do a really good job of knowing who those individuals are, but everyone is issued an ID card if there were a question as to whether or not they were a staff member at the General Assembly that the Sergeant at Arms could ask for.

Q But there was no requirement that those ID cards be visible in a way that, for example, members of the public could identify who these staff members were; correct?

A I'm aware that there has never been in any issue of the General Assembly such a requirement.

Q And you also did not take any steps and don't know of anybody else who took steps to prevent members or their assistants from bringing in draft maps either in hard copy or on electronic devices to use as a reference when they were

\section*{Transcript of Senator Ralph Hise}

Conducted on December 29, 2021
working on public stations; is that right?

A We had no specific protocols to try to prohibit that other than the fact that the criteria of the committee established what the committee would consider in that process. So a member that was choosing to do so clearly risks the committee not considering their proposal solely basis on that identification, but no, in
general these are -- members of the General
Assembly are elected officials and in some ways
subject to their own kind of regulation.

Q I'd like to move on to ask you a few questions about the redistricting criteria that Mr. White asked you about before.

You testified earlier that you had
presented the redistricting criteria that you and the fellow chairs were going to propose to the committees. You had the day before proposed this to the, quote, leadership term I think is the term you used. Do you remember testifying to that?

A I don't know that \(I\) say proposed but I had presented it to the leadership team, yes.

Q Can you tell me, who are you referring to when you say the leadership team?

A So the acronym for our leadership team,

\section*{Transcript of Senator Ralph Hise}

Conducted on December 29, 2021
strangely enough, is BARF, which stands for

Berger, Phil Berger, the appropriations chairs, the rules chairs, and the finance chairs of the Senate, as well as leader -- it also includes
leadership positions, including our majority
leader, even though she's an appropriations chair, the whips, the caucus whips, myself as the deputy president pro tem. That makes up the leadership team.

Q Was the --

A We generally meet weekly but as needed.

Q Does this include partisan staff as well?
A There are no staff that are a part of it.

Staff are available and present into it. They are
not what \(I\) consider members of the leadership
team, but if we need our legal counsel, our legal
counsel will be part of the meeting. If the Chief
of Staff -- I am not aware of a meeting the Chief
of Staff did not attend but is not a member of the

General Assembly.

Q But they are present?
A But they can be present, yes.
Q They can be present? The proposed
criteria prohibited the use of racial data in
either the construction or consideration of draft

maps; is that correct?

A It does.

Q What is your understanding -- and that,
that proposed provision ended up in the final criteria; correct?

A Yes. There is a prohibition of using racial data for the consideration.

Q What's your understanding of not allowing racial data for the, quote, consideration of maps?

What's your understanding of what that prohibits?

A So just as I talked about earlier where we
had previously used the census data that was available to identify the race makeup of individual census tracts, that it would prohibit using that type of data or others to create districts, to establish districts or to evaluate districts would be my assumptions.

Q And it prohibited use of racial data even if that racial data was used outside of the public hearing rooms; correct?

A That would -- the -- the committee would not consider racial data in any of those matters. It was also a prohibition from central staff of uploading or making analysis on that. So it did also prevent any other member from bringing in

\section*{Transcript of Senator Ralph Hise}

Conducted on December 29, 2021
other racial data files and asking central staff to do an analysis on those.

Q But to specifically talk about if a member -- if there was evidence a member had used racial data outside of the committee room in presenting a map even if that was drawn at the public terminal, the committee would not consider that map; correct?

A Yes, but no evidence of such was ever presented to the committee or considered by the committee.

Q Okay. Moving on to the county clusters, the podding I think that you've talked about earlier in the questions from Mr. White. You and your co-chairs required that members use this specific set of clusters that you announced you viewed them to be, quote, legally compliant with the Stephenson decisions; is that correct?

A That is -- that is following an analysis from our central staff, our nonpartisan staff, that no better podding of the counties could be formed with the, with the exceptional choices of the 16 possible maps created by this podding configuration.

Q Those podding configurations, they were

\section*{Transcript of Senator Ralph Hise}

Conducted on December 29, 2021
developed by a group of professors at Duke University; correct?

A Yes, they were, and a separate analysis was done by our nonpartisan central staff to verify that they met those operations.

Q I believe you testified earlier that you
were, you had opened it up for anyone to submit any more optimal podding options. Do you remember saying that?

A I did, and I did do so.
Q Can you tell me when that was?
A I do not have a date but it would be at the presentation of the whatever date the presentation of the poddings were.

Q And can you tell me why you announced in that October 5th, 2021, joint redistricting meetings that the committees would not be allowed to consider maps that deviated from those designated Duke county groupings?

A And that is because no one had submitted to the committee separately a podding that more optimally met that pyramiding requirements.

Q And you say nobody had submitted prior to October 5th. Had you announced to the committees that members should prior to October 5th submit

their county groupings?
A If someone had submitted that information, and this has been true over all the redistricting we've done, this would coming in, if someone had submitted at any point in this process a grouping of podding that better met the Stephenson criteria, a/k/a created a smaller county pod that this one did not, I believe it would require stopping the entire process and going back to using that podding.

We have actually, in every one we've ever done, there were never any choices. Like this is a statement that has been made at every sense of redistricting, drawing the legislative. We think we found all the one-county pods we could find, and we think we found all the two-county pods. There are nearly infinite possibilities for measuring counties. Our central staff and others do the analysis that they don't think one meets that criteria better, but that would be a change to the entire process if a podding map were shown to better meet those criteria, \(a / k / a\) produce a smaller county pod that was not produced that didn't landlock the state, but could create an entire map of the state that produced a smaller

county pod, that would require a change of the entire process.

I do not believe it exists in this process from the Duke analysis, from our central staff analysis, and we proceed as though it does not exist, but if that were created, I believe under

Stephenson and others we would have to redo the entire map to that point, but we have to be aware of it at some point.

Q But you agree that prior to October 5th which is the day that you presented to the committees the Duke county cluster options, you agree that that day you specifically announced to the committees that the committees would not be allowed to consider maps that used alternative groupings. So the same day you proposed your groupings you announced publicly, and I can show you the transcript --

A Yes.
Q -- that other legal county groupings would not be considered; is that correct?

A Yes. That is -- I do contend that if one had been submitted that formed a better, the entire process would probably have had to restart, this would coming in. I will also note that the
county podding is made, is based off of county populations which were available from the census data much earlier than the files were available that created the districts, the census tracts and others. County podding is only based on the county populations, and that was data we had from the census much earlier than we had the full census data.

Q And sitting here today you cannot tell me when or how or to whom you announced that the committee would be open to using alternative clustering arrangements; correct?

A I could tell you that over the course of redistricting I've made that statement, over 11 years have heard that statement and made that statement on multiple occasions, this would coming in; the specific date in which is something that would require specific research. I don't notate things and memorize them on the date I said them in the committee meeting in which they occurred.

Q But do you even remember if it was specifically this redistricting cycle then?

A I -- I with most confidence that I said in this process, that if anyone has a podding structure that is more optimal in doing this, that

the committee would need to see it and can specifically remember conversations with Senator Clark in a committee setting about that. I can't tell you what date that was.

Q The requirement of using these specific Duke clusters, that was not put to a vote by the committee; correct?

A No, it was --

Q And again --

A I do not believe that it was, but I do
believe that they were -- from a staff, central staff determination as well, that they meet the optimal requirements, so there are no other alternatives.

Q And as we have discussed before, whether or not something like that comes to the vote is generally under the discretion of the chairs; correct?

A It is, but to -- I believe that to submit a different alternative than this would be to submit us a proposal to violate Stephenson.

Q Are you aware of an analysis of county groupings that was released on the website the Differentiators in August 2021?

A I believe that that is the same county

the building.
Q Did you ever meet with him during the redistricting process? And I'll define that. Did you ever meet with him, you know, over 13:25:10

13:25:10
\(13: 25: 12\)

13:25:16
the summer up until the maps were passed, and talked about redistricting during those meetings?

A The where we had any discussions about redistricting, no.

Q Did you ever otherwise communicate with him about the 2021 redistricting process before it started?

A Other than conversations about when I thought the census data would come out and when \(I\) thought we would be able to begin or end the process in redistricting, that would be the extent of those conversations, intentionally so.

Q What about -- what do you mean by intentionally so?

A So it -- we had -- I had very much established, I think you have -- I have had similar conversations with the other chairs, that we would not have conversations regarding the districts, the partisan makeup of the districts, those kind of, the racial makeup of the districts, all these kind of things in this process, and
intentionally chose not to do so.
Q Is that maybe because you thought you knew you'd be sitting here today in this similar proceeding to this one?

A I don't know that anyone sits as the chair of redistricting in the State of North Carolina not anticipating that they will wind up at some sort of legal concept, but it was actually more of a concept of we said that when we draw these maps, there are things we will not consider, and therefore we should not be having those conversations with individuals.

Q So how -- do you remember how you became aware of the Differentiators website analysis of the clusters?

A I was aware that the Differentiator website had posted maps of the clusters in the county, actually first became aware from Twitter that it came in. It came across on my Twitter feed that it had and had accessed it. I will say that at the time \(I\) did not know that it was Jim Blaine's website that was coming in, or that it was his group. It was several days later when I had the conversations with staff about, you know, is this, is this the actual optimal podding

direction and others that they, I was informed that this was something that, an analysis Jim Blaine had done and had put out.

It turns out, as confirmed by Duke and
others, at that point \(I\) know I'm not going there anymore since was coming in to his site. It's important to isolate myself in that way. But it was confirmed apparently by the Duke University individuals that put it out as well as, again, by our central staff that this is the optimal podding, and so there's not really a lot of opinion in that. It either is or it isn't.

Q And when you say you discussed this with
staff, are you talking about you discussed the blog with partisan staff?

A I actually discussed with both partisan and nonpartisan staff, began the conversations about with the elections committee staff about how would we determine that this is the optimal podding that's out there, you know, what analysis they could do to determine to develop the optimal podding, those kind of things, but specifically with partisan staff as well, it was the partisan staff; specifically Nathan Babcock was the one that told me that this was something that Jim

\section*{Transcript of Senator Ralph Hise}

Conducted on December 29, 2021

Blaine created.
Q Do you recall seeing the political data
that was linked on that Differentiators website blog?

A I do not.
Q And did you and your fellow chairs decide to use the Duke county clusters after you were aware that it was endorsed by this website?

A I think that we decided to use it after we verified that it matched, that it met the criteria of being the top podding group available for that process. I don't know that it was adopted by the group or whatever else, but their analysis came to the same.

I mean this is a process that begins, the first questions are easy. What are all the one county pods that exist in a district? Once all those are done, what are the two-county pods that exist? What are the three-county pods that exist? And everyone that has followed that pyramid has, that I'm aware of, has come to the same conclusion regarding this configuration.

Q I just want to mark that since we've been asking and talking about, we've been in our discussion for about an hour, I have a few more

related questions to this that will take maybe 10 to 15 minutes and then \(I\) would propose a break if you're up for it, but we can take a break sooner if you'd prefer.

A Okay to go?
MR. STRACH: Yeah. We can keep going.
Yeah, go ahead.
Q Okay. Thank you. I always like to check in after an hour because \(I\) know it's a lot to be on and answering questions.

And I feel -- indulge me for a second. I
lost my -- I lost my place.
So going back to, you said that the first
steps were fairly simple, and I want -- I want to talk about that a little bit more.

The county groupings that the chairs required members to use, those were formed without undertaking any analysis to determine what might be required by the Voting Rights Act as directed in Stephenson; is that correct?

MR. STRACH: Objection. Go ahead.
A There was no additional information
related to the pods as to how they would comply.
Our criteria for the committee do intend that we will comply with the Voting Rights Act and the

districts will comply, but that's a more complicated answer than that, but no, there was no Voting Rights Act analysis done by our staff prior to that determination.

Q And as you just stated again, you actually stated in committee that you and the co-chairs believe that constitutionally compliant maps can be presented under the Voting Rights Act under these county clusters; correct?

A Correct.
Q How did you come to that opinion?
A Because we have maps that have previously been approved that have drawn, we have drawn without the use of racial data that have been found by the courts to comply.

Q Were those maps -- what data was used in drawing those maps?

A So at the point that we are at finally with the, I think the last draw we have used population information, we have used municipal boundaries, we have used county boundaries, the shapefile conglomerations, the population of voter districts and specifically excluded racial data for the draws and specifically excluded political data for the draws as the current districts that

we are in have been found to be compliant under, being drawn under that condition.

Q You understand that those prior maps
you're talking about, they did not use 2020 Census data; correct?

A That is correct. They used -- all
districts drawn up until after the 2020 Census are required to use the 2010 data, that's would coming in. There is no, with the exception of what we
are considering in 2021, with the exception of the exclusion of racial data and the exclusion of political data, the datasets are the same formats that existed prior to that.

Q They also didn't include 2020 election
data --

A I said that, yes.
(Simultaneous speakers/crosstalk)
Q So prior maps -- I'll be more specific.
The prior maps that you were referencing from previous cycles, they obviously did not use any 2020 election results data, for example, to determine whether there's racially polarized voting?

A That is correct.
Q Okay.
\(13: 32: 41\)
\(13: 32: 45\)

13:32:47

13:32:51

13:32:55
\(13: 32: 55\)

13:32:57

13:33:00

13:33:06

13:33:09

13:33:11

13:33:14
13:33:18

13:33:21

13:33:25

13:33:26

13:33:29

13:33:29

13:33:31
13:33:34

13:33:37

13:33:40

13:33:43

13:33:44

13:33:45

A I believe the last time we tried that was -- but legally significant racially polarized voting would not be based on population. Racially polarized voting would be based on political data. When we used political data, it updates to the nearest election. You don't -- you don't only use -- when you use political data, you don't only say you can't use anything past 2010. We never did that in the drawing.

Political data is available every election
cycle. This would come again. Census data, the population data is the only data that is on a ten-year cycle. It's the only count of populations.

Q So it's fair to say from those prior maps that you're talking about that there was both new racial data and new political election data that was not considered in those prior maps. Is that fair to say?

A There would have been -- in the prior maps there would, there would not have been new racial data. Racial data is contingent upon the population. So if a thousand people live in a particular area, it is, the racial makeup of those thousand people is contingent upon the population

13:33:47
13:33:49
13:33:54
\(13: 34: 02\)

13:34:05
13:34:08

13:34:10
13:34:12
13:34:17

13:34:18
13:34:22
13:34:26

13:34:56

13:35:00

13:35:03

13:35:07
data. That's where that source is from the Census
Bureau. Political data has generally come from voting results files, this would coming in, that's a category by voter tabulation districts.

Q So you'd agree that those prior maps that you talked about saying there's no indication that you had to take that first step of Stephenson, that those prior maps that you are relying upon to form that opinion you just discussed, those prior maps and that prior analysis used old census data from 2010 and old election data from before 2020; is that correct?

MR. STRACH: Objection. Go ahead.
A It -- it used the most recent available
with each one of those which for population would
have been the 2010 which for election would have depended on which map we're talking about. I believe 2016 was the last time there was an election occurred that the data would have been available in a process we were using election, but whether racially polarized, did an analysis of whether racially polarized voting has occurred would be based on the voting data which is not used in this map drawing is available to anyone from the Board of Elections through now the 2020

\section*{election.}

Q So it wouldn't surprise you to know that
that RPV study we discussed by Dr. Brunell earlier from last cycle, from the 2011 cycle, that used 2004 and 2008 statewide elections; correct?

A I assume and I -- it may have used -- I don't know if it had 2010 election data in it or not, that would have been available at that 2011 as well.

Q And you would agree with me that that's not recent election data; correct?

MR. STRACH: Objection.
A I would agree that that election data is now 11 years old, that's would coming in, but I also have no indication to show that over that ten years we have seen an environment that would increase racially polarized voting that it would have increased. As a matter of fact, Dan, even Dan Blue's testimony in the Senate in these discussions talked about how that it was evident that that had lessened but that we did not know the areas in which it had lessened or was no longer necessary for maintaining those districts.

I think we've also seen with the election of the Lieutenant Governor, Mark Robinson,
statewide as well as other officials. I think we -- I think there is a clear direction you've seen over the last ten years of a lessening of racially polarized voting. And so when you see the standard that it didn't meet ten years ago and clear indications that it's declined since then or occurs in less areas than it did previously, trying to come up with a surmise that it is somehow grown in some area that we have not seen enough to require those districts didn't seem to be a path that necessarily we were following.

Q So those examples you're referencing are anecdotal; correct? You never -- you or your co-chairs or anyone that you're aware of never did
a racially polarized voting analysis with the updated 2020, 2016 elections or the updated 2020 Census; is that correct?

A I am -- I would say that my, my knowledge of those elections may be a little more than anecdotal. There is actual, but there has not been a racially polarized voting study that I am aware of or that was ever presented to this committee for us to consider. I cannot speak to what analysis Senator Blue made in his
determination that it had declined but have always

found Senator Blue to be quite a trusted member of the General Assembly in making those comments.

Q So it's fair to say you're fairly familiar with those statewide election data. That's what you're saying?

A I am aware of the results of the election statewide, yes. It impacts a lot of what I do. It also -- I think it's fair to say that I'm aware of how many Senate districts, how many -- you know, my colleagues, how many of them there are and how many of them there are in the other party. It impacts everything we do, the results of those elections, but that is on a kind of statewide and Senate level.

Q Earlier when you were talking to Mr. White you said that the 2021 redistricting cycle was different from the 2016 remedial process because in the 2021 you were, quote, starting from scratch in light of the new data. Do you remember saying that?

A I do.
Q Why does that same principle not apply when we're talking about a racially polarized voting study or the analysis to determine what might be required by the Voting Rights Act?

\section*{Transcript of Senator Ralph Hise}

Conducted on December 29, 2021

A Because there is a clear indication that the committee had presented from the US Census Bureau that the populations have changed. Every popular -- there is a new set of data that exists, the 2020 Census. There is a new population. The population of every county is changed. Population of every VTD, barring a few outliers, has changed, and we are required constitutionally to do so based on those population changes.

We have not seen any changes or have been
presented any changes that are related to the racial makeup or for a determination of legally polarized voting.

Q Are you aware of the election for Chief

Justice that happened in 2020?

A I am.

Q Are you aware of who won that election?

A I am.

Q And can you tell me who won that election?
A Chief Justice Paul Newby won that by a razor thin margin. I believe 400 votes statewide.

Q And who had previously won that election before? Who was the incumbent?

A I believe the incumbent was placed by appointment on to that seat that was coming in. I
don't believe was elected to that seat. I believe
there was a vacancy occurred, and Beasley was
appointed by the Governor to fill that role.
Q So the incumbent was former Chief Justice
Cheri Beasley; correct?
A Right, but was never elected Chief
Justice. Was elected to the courts.
Q Do you have an understanding of whether
she was a candidate of choice for Black voters?
A I understand that she is African-American.
This would coming in. Whether -- that's my
understanding. I would make the presumption -- I
have not seen an analysis that she carried a
majority of African-American votes statewide.
Q And she was not reelected; correct?
A She lost that election by about 400 votes is my understanding.

Q And there were --
A After the final count.
Q And similarly there were other elections
throughout the state where incumbents were not
reelected; is that correct?
A There are other statewide elections.
Q For either Senator or House?
A Yes. Those are coming in, yes. That were

13:41:49
13:41:51
13:41:56

not elected -- I'm -- yes. For legislative I'm positive so.

Q So how is that --
THE REPORTER: I'm sorry.
Q I'm sorry. We're talking over each other,
Miss Hamilton. I'll try not to do that.
THE REPORTER: I didn't hear all the
witness's answer. I'm sorry.
A I said I'm not aware for statewide
election. I know that incumbency was a, would
have been an important factor. Secretary of
State, Attorney General were reelected. The
Governor was reelected. The new members that I'm
quickly -- the Treasurer was reelected statewide.
I will say that the Commissioner of Labor but that was a vacancy that occurred was a new member. The Lieutenant Governor was a vacancy, and that was a new member that was elected. Those were coming
in. But those are all members who were elected to their office and were later reelected to their office.

Q But it's fair to say that there's been changes in the election since the 2004 and 2008
general elections used by Dr. Brunell for his report in the 2011 redistricting cycle; correct?

13:42:54
13:42:59
13:43:00
13:43:05
\(13: 43: 06\)
13:43:12

13:43:53
13:43:53
\(13: 43: 55\)
13:44:00
13:44:03

A Yes.

Q So your testimony today is that the new census data which indicates that there are new population numbers, when that's released that requires you starting from scratch, but all of these new elections showing that incumbents have been not reelected or there have been other changes, that does not require you to start from scratch when looking at, for example, racially polarized voting. Is that your testimony?

MR. STRACH: Objection. Go ahead.
A I would say that the, the census data do not indicate that there may be new population numbers. The census data are new population numbers. There is no question in anyone's mind as to whether the population has changed, and as it's the only count done once every ten years, it always changes for the counts for others. Could there have been election of a change, can those things create that there may be differences? Possibly, but \(I\) don't see anything to me that would indicate the direction of those changes even again from testimony from the minority leader is in a manner to show increased significant, legally significant racially polarized voting.

13:44:07
13:44:08

13:44:13
13:44:16

13:44:18

13:45:09

13:45:11
13:45:14

13:45:18

13:45:22

Q But as we have discussed, just to confirm, you never or any of your co-chairs that you're aware, nobody in leadership undertook an analysis to confirm that there was no evidence of that; correct?

MR. STRACH: Objection. Answer that if
you can.
A As I have said before, the committee did
no, did not commission or order any studies in relation to that, nor did the committee receive any information that indicated there had been a change in that direction of racially polarized voting.

Q When Senator Blue asked if legislative
staff could provide data relevant to particular clusters in North Carolina to analyze whether there might be Voting Rights Act concerns, you rejected this request because you deemed that to violate the redistricting criteria; correct?

A Any request for racial considerations is clearly stated that it will not be used in the criteria.

Q So it's fair to say that that
redistricting criteria essentially barred any
member from getting through the legislature or

13:45:24
\(13: 45: 28\)
13:45:33
13:45:36

13:46:19
13:46:24
13:46:27
13:46:27
13:46:31
13:46:34
through legislative staff from getting access to the relevant data to perform a VRA analysis; is that correct?

A It prohibited central staff from producing that data. It considered the prohibited
legislative, internal legislative process from doing so, what they could access from third party groups to universities, any other possible commissions we've had. There's a lot of experts doing analysis that are here right now that \(I\), the legislature has no impact over, but we would not, we would not corrupt the data system by including racial data into it.

Q But as we've discussed before, if a
legislator had gone to one of those third parties you've discussed, done that analysis and brought that back, under your own criteria and what the committee chairs have required you've testified earlier that that map would not be considered by the committee. Isn't that correct?

A I think those are two separate things. If they had presented the evidence of racially polarized voting, the committee would have considered that information and considered drawing its process consistent with the conclusions that

13:46:39
13:46:42
\(13: 46: 46\)
13:46:46
13:46:50
13:46:54

13:46:56

\(14: 02: 40\) \\
\hline Q You have -- & \\
\hline A I have the stats degree. I don't have the & 14:02:45 \\
\hline law degree to go with that. & 14:02:49 \\
\hline Q But without revealing any specific advice & 14:02:50 \\
\hline you've received from counsel you have a general & 14:02:52 \\
\hline understanding that statistical significance in & 14:02:54 \\
\hline racially polarized voting is different than what a & 14:02:58 \\
\hline court might determine to be legally significant? & 14:03:00 \\
\hline Is that - & 14:03:03 \\
\hline A Yes. & 14:03:03 \\
\hline Q -- fair to say? & 14:03:03 \\
\hline A I would -- I would phrase that as & 14:03:04 \\
\hline statistical methodologies are not what are used by & 14:03:08 \\
\hline the court to make determinations. & 14:03:11 \\
\hline Q So going back to what you said in & 14:03:14 \\
\hline committee meetings about being willing to examine & 14:03:21 \\
\hline evidence of racially polarized voting. You never & 14:03:24 \\
\hline specified exactly how this evidence had to be & 14:03:31 \\
\hline presented to the committees, did you? & 14:03:37 \\
\hline A No. It was open to the member who was & 14:03:40 \\
\hline submitting it. & 14:03:42 \\
\hline Q And it was open to members of the public & 14:03:43 \\
\hline well; correct? & 14:03:46 \\
\hline
\end{tabular}
as well; correct?

A Something submitted to a committee would generally require to come from a member of standing of the committee, so it would have to come from the member, although I presume that we reviewed all public comment. We had a web portal that was available for any submissions, and we did review those. Had something come in those kind of methods in that manner that we felt needed to come before the committee would have done so, but it is generally the members of the committee who submit to the committee.

Q Do you recall in the August 12 th joint
committee hearing of the Redistricting Committees that Representative Hall stated that members of the public would be welcome to gather what evidence they could and put it forth to the committee?

A I don't deny that it was said but I do not remember that statement from Representative Hall.

Q Do you agree generally that that was permissible for members of the public to gather that kind of evidence and try to put it before the committee?

A We opened multiple public comments all across the state in a time period and opened

14:03:48
14:03:51
14:03:55
14:03:57

14:04:00
14:04:03

14:04:07
14:04:11

14:04:15

14:04:18

14:04:22
14:04:25

14:04:28

14:04:32

14:04:35

14:04:38

14:04:41
14:04:45
14:04:46

14:04:49

14:04:51
14:04:54

14:04:55
14:04:58
portals for members of the public to be able to submit, this would coming in, and placed other than at the public meetings a time limitation, really placed no limitation on the content of the submissions.

Q Did you ever announce that that evidence of racially polarized voting, if it was submitted by the public, had to be in one of the designated public hearings held by the committee?

A I don't believe that it did. The public portal was open as well, if those had been submitted in those manners as well. We received no information regarding that racially polarized voting, legally significant, statistically significant or otherwise, that's coming in, from any method that we would receive information.

Q Okay. I'd like to show you a document. This is going to be marked as Exhibit 60. And just so you know, I do not have 60 exhibits for you. We started those numbers very, very late in case the other parties had exhibits that they wanted to mark. So this has been marked Exhibit 60, and I think my colleague, Katelin Kaiser, is going to screen share.
Can you see that screen share, Senator?

14:06:06
14:06:10

14:06:12

14:06:17
14:06:20

14:06:22

A I see -- I can read Exhibit 60 both on the monitor. The rest of it appears blue lines.

Q What about that? She zoomed in. Can you -- can you view this document?

A I can see it. I have a monitor here that

I can see more of, yes.
Q Okay. If she scrolls up, just let me know if it's not clear enough for you to read it and then we'll find a solution to that.

A Okay.
Q So do you recognize this document?
A I'm making the presumption that this is the e-mail that we discussed a while before that we received as members of the committee, chairs of the committee from Allison Riggs.

Q And if we scroll up, can you see that your e-mail was one of the recipients of this? It's on the second line I believe.

A Yes, both myself and followed by my
legislative assistant.
Q Miss Susan Fanning is your legislative
assistant?
A She is.
Q And if we scroll -- so I'm going to scroll down to this, in this letter. So that's the cover

14:06:26
14:06:29
14:06:32
14:06:36
14:06:38

14:06:42

14:06:43

14:06:47

14:06:50

14:06:52
14:06:53
14:06:56
14:07:01

14:07:05

14:07:09

14:07:16

14:07:21

14:07:25
14:07:26
14:07:28
14:07:29

14:07:32
14:07:32

14:07:35
14:07:38
e-mail, and then we have the letter that was attached. So you received this in your e-mail; correct?

A So this was -- this was sent to my e-mail
at -- we actually received notice from our counsel
that we had received it prior to my actually
receiving it, and so my LA and others pulled it
from mine until we heard from counsel, and so it
was several weeks later before I actually read the
e-mail, but yes.
Q So you did not read this e-mail until
several weeks later; correct?
A That is correct.
Q Okay. And it was sent on October 8th;
correct?
A I believe that is correct. That's the date on it.

Q Can you estimate about what date you
actually read the e-mail?
A It would have been late October.
Q If we scroll to page 5 of the letter, and we'll scroll slowly so you can get an idea of the letter before then, but I'd like to scroll down to page 5 of the letter, and in bold, we're going to get to a section in bold -- right there -- stop --
sorry. Page 5 of the PDF. This is page 4 of the letter that was attached to the e-mail. That bold heading, can you read that for me, sir? It starts number II, the bold heading?

A Number 2? Certain areas now seems to be
-- okay. Certain areas in the North Carolina
Senate cluster maps require examination for VRA compliance.

Q And below that there's a sub heading that
describes a particular cluster. Which cluster
does that sub heading talk about?
A Subset A, cluster in Greene, Wayne, Wilson counties.

Q And if \(I\) scroll down just to the top of the next page, this letter provides you with certain information about the Black voting age population in some of these counties; correct?

A It purports to, yes.
Q And this letter urged you, and I'm talking about the first full paragraph, that last sentence, this letter urges you to do a formal RPV analysis in these counties before dictating that the Senate district must be comprised of these three counties; is that correct?

A It is -- the line says, we urge you to

14:09:09
14:09:13
14:09:16
14:09:22
14:09:25
14:09:28
14:09:30
14:09:35
14:09:37
14:09:41
14:09:44
14:09:46
14:09:51
14:09:51
14:09:54
14:10:01
14:10:04
14:10:08
\(14: 10: 11\)
\(14: 10: 16\)
14:10:19
14:10:25
14:10:29
14:10:33
14:10:35
perform.
Q And RPV, you understand that to be a racially polarized voting analysis; correct?

A That is the acronym, yes.
Q If we scroll down to the next page, and
this will be page, PDF page 6 -- sorry -- PDF page
7 -- you know what, strike that.
What did you do with this letter after you
read it?

A So by the time I read this, I closed it
for the manner in which it came. It, it had made
claims about changes in Black voting age
population. I saw nothing in the letter that indicated that there was any change in racially polarized voting, this would coming in, and submitted no evidence related to that, and so I didn't feel any action was needed.

Q This letter informed you that the current
Senate District 4 was allowing Black voters to elect their candidate of choice; correct?

A I'll take that as a summary. It may state that specifically, but...

Q I'll give you a moment to read that paragraph, that first paragraph on \(\operatorname{PDF}\) page 6, that's the letter page 5. And I'm specifically

14:10:39
14:10:39
14:10:43
\(14: 10: 45\)

14:10:48

14:10:56

14:11:05

14:11:11
14:11:14

14:11:16
14:11:24
14:11:28
14:11:33

14:11:36

14:11:40
14:11:44
14:11:50

14:11:53
14:11:57
\(14: 12: 02\)

14:12:07
14:12:11

14:12:15
14:12:17
\(14: 12: 21\)
actually talking about the first line of the, this page that says, Black voters have the ability to elect their candidate of choice in this district.

And if we scroll up --
A Yes, I --
Q If we scroll up to PDF page 5, which is
the letter page 4, it's talking about Senate District 4; correct?

A I believe so. It is under the heading Greene, Wayne, Wilson.

Q So in other words, this letter alerted you that in Senate District 4 Black voters were successful in electing their candidate of choice; is that correct?

A It is the claim of the author of the letter, yes.

Q Okay. I'd like to show you another letter that was sent, and this is in Exhibit 61, and I'll ask you to do the same verification for this letter. Just if you can tell me whether you identify whether you were a recipient of this letter.

A My e-mail is listed as a recipient of the letter as well as my legislative assistant.

Q And if we scroll to, down to the body of

14:12:53
14:12:59
14:13:01
\(14: 13: 05\)

14:13:05
14:13:06

14:13:10

14:13:13
14:13:15

14:13:19
14:13:22
14:13:24
14:13:30
14:13:33

14:13:33

14:13:41

14:13:41

14:13:43
14:13:47
\(14: 13: 51\)

14:13:53

14:13:56

14:13:58
14:14:02
\(14: 14: 05\)
the letter itself, this was sent on October 25 th, 2021; correct?

A That is the date it's marked.

Q Did you read this letter when it came in to your e-mail?

A It was much closer to the date. I would say that \(I\) read both letters at roughly the same time at the end of October, but it had been -- it was still a few days after this came in.

Q And if we go to that first paragraph in the letter, and I'll wait for Miss Kaiser to stop scrolling, the first paragraph mentions a draft map labeled SST-4. Do you recognize that SST-4?

A I can't remember which it-, couldn't connect that to which iteration it is, but that would be one of the maps drawn in the state. The SST indicates the central staff member who was -\(S\) is the first letter is, means it's a Senate map. ST is a central staff member who was coordinating the drawing of the map, and 4 is the fourth iteration that they have done.

Q Would a member of the public be able to learn unless they were sitting in this deposition today all of the steps and all the information you just said about the name SST-4? Was that posted

14:14:09
\(14: 14: 16\)
14:14:18
\(14: 14: 23\)

14:14:27

14:14:29
14:14:32

14:14:34
14:14:39

14:14:43
14:14:47
\(14: 14: 53\)

14:14:58

14:15:06

14:15:09

14:15:12

14:15:15

14:15:21

14:15:23
\(14: 15: 28\)
\(14: 15: 30\)

14:15:33

14:15:37
14:15:40
\(14: 15: 43\)
anywhere?
A It would have been on the screen at I
believe the entire time any map was brought up.
As a matter of fact, even the process that the
staff member would go through of naming a map
SST-4 would have been streamed, it would come up
on the screen and would have been streamed in such
a manner.
Q Are you aware of whether it was publicly
posted who had worked on a map titled SST-4 other
than in the videos?
A I'm -- quite frankly it took me a while to figure that out as well, this was coming in, so I mean that was part of the notes we had to take and others as what was the previous version we had worked on and others as far as to what that meant. I do think that it would have prevalent that a member was working on \(\operatorname{SST}-4\) as a file name.
Now, I don't know that that was ever
intended for an external purpose of identifying the central staff member that was working on it as much as it was the way the central staff came up to be able to determine which one of their members had done what in each map.

Q In the second paragraph of this, and I'll

14:15:47
14:15:48
\(14: 15: 50\)
\(14: 15: 55\)

14:15:58
14:16:02

14:16:05

14:16:08

14:16:08

14:16:11
\(14: 16: 16\)

14:16:18
14:16:26

14:16:29

14:16:31

14:16:33
14:16:37

14:16:40
14:16:44
\(14: 16: 46\)

14:16:50

14:16:54

14:16:57
14:17:00

14:17:05
give you a moment to read it. It talks about a cluster titled Z1 within a document titled Duke Senate 02, and I'll give you a moment to read this, but could you tell me after you've read it what is meant by cluster \(Z 1\) and Duke Senate 02 as far as you understand it?

A So as there were 16 possible
combination -- my understanding there are 16
possible combinations of podding choices that could be made. There are four areas of the state that had two podding choices that were of equal county weight. So in the west it was three county possibilities that were each three counties. In the east it was one county possibility of ten counties, one county possibility of eight counties. That created 16 . So the staff laid out, they, I think they started east to west, west to east, and so half, the first half eight maps all had the first choice of pods for the western district. The second half, the second eight maps all had the choices for the eastern, the other choice for the western district, so they -- first they did eight and eight. Then they did four, four, four, four; two, two, two, two; and then alternated one, one, one.

14:17:07
14:17:10
\(14: 17: 18\)
14:17:22
14:17:24
14:17:30
14:17:31
14:17:37
14:17:40
14:17:42
14:17:46
14:17:50
14:17:55
14:17:59
14:18:01
14:18:05
14:18:10
14:18:14
14:18:19
14:18:27
14:18:29
\(14: 18: 36\)
14:18:38
14:18:40
14:18:42

Simply it created the 16 possible
combinations that could exist of four
permutations, two choices, and they numbered them
14:18:44

14:18:54
\(14: 18: 56\)

14:19:01
14:19:04

14:19:06

14:19:12
14:19:14
14:19:18
14:19:24
\(14: 19: 30\)

14:19:32
14:19:35

14:19:36

14:19:39
14:19:40
14:19:44
14:19:47
\(14: 19: 50\)

14:19:53
14:19:55

14:19:59

14:20:02
14:20:04
action in regards to this letter. It provided no evidence beyond an opinion of that voters would be

14:20:08
14:20:11
14:20:18
14:20:23
14:20:28
14:20:32
14:20:37
14:20:43
14:20:46
14:20:51
14:20:53
14:20:56
14:20:59
14:21:01
14:21:02
14:21:05
14:21:09
14:21:12
14:21:15
14:21:17
14:21:19
14:21:22
14:21:24
14:21:27
14:21:29
the Senate groupings that were distributed to the committee?

A This for the eastern district is not the
one that was chosen.

Q So we'll scroll to the second page of
Exhibit 69, and that will be Duke Senate 02 .

A It went away.
Q I think we might be having a technical
difficulty. Do you mind if we take a brief
one-minute break?

MR. STRACH: Sure. We'll just sit right
here, Hilary, while you figure it out.
MS. KLEIN: Thank you.
THE VIDEOGRAPHER: We're going off the
record at 2:22 p.m.
(A discussion was held off the record.)
THE VIDEOGRAPHER: We are back on the
record at 2:24 p.m.
BY MS. KLEIN:

Q So here we have the second page of Exhibit
14:21:33
\(14: 21: 35\)
14:21:37
\(14: 21: 41\)

14:21:43

14:21:45

14:21:57
14:21:58

14:22:01

14:22:03

14:22:04
14:22:08

14:22:10

14:22:10

14:22:13

14:22:40
14:24:03

14:24:08

14:24:10
\(14: 24: 13\)

14:24:17

14:24:22

14:24:27
14:24:29

A This is the clusters for which we chose, I
14:24:30

\section*{Transcript of Senator Ralph Hise}

Conducted on December 29, 2021
assume at that point that was the one distributed

14:24:35
14:24:37
14:24:41
14:24:46
14:24:50

14:24:52
14:24:57

14:25:01

14:25:05
14:25:10
14:25:13
14:25:18
14:25:21

14:25:27
14:25:30

14:25:31

14:25:34
14:25:56
14:25:58
14:26:02

14:26:03
14:26:07

14:26:10

14:26:28

14:26:37

\section*{Transcript of Senator Ralph Hise}

Conducted on December 29, 2021
potentially even early November from Bob Phillips from Common Cause.

Q And the cover e-mail, if we scroll up to the cover e-mail, it says that this cover e-mail is attaching analyses of two proposed districts in
    that same draft map \(\operatorname{SST}-4\); correct?

A Yes.
Q And do you recognize what the following
charts that were attached, do you recognize what those charts provide?

A I am aware that they are the voting results from selected elections within the state.

At least these appear to be statewide elections that are here.

Q So if we look at the top chart, it says RPV and SD1 and SST-4; correct?

A Yes.
Q And that's SD1, that's that cluster option
we were just talking about for the northeast;
correct?
A Yes.
Q And --
A I assume so, but yes.
Q The first chart says Beasley V Newby NC Supreme Court 2020 GEN; correct?

14:26:43
14:26:47
14:26:50
14:26:53
14:26:55
14:27:04
14:27:08
14:27:09
14:27:13
14:27:15
14:27:27
14:27:32
14:27:40
14:27:47
14:27:50
14:27:57
14:28:02
\(14: 28: 03\)
\(14: 28: 06\)
14:28:10
14:28:10
14:28:11
14:28:12
14:28:14
14:28:25

A Yep.
Q And then below that it has percentages for
support from Black voters and support from White

14:28:25
14:28:25
14:28:28

14:28:31

14:28:35

14:28:36

14:28:40

14:28:47

14:28:52

14:28:57
14:29:00
14:29:02

14:29:05
14:29:09

14:29:13

14:29:18

14:29:23

14:29:27
14:29:33
\(14: 29: 36\)

14:29:44

14:29:47

14:29:47
14:29:51
14:29:57

Q So can you tell me, what did you do with this letter upon receiving it?

A Similarly this was a letter that was held initially until we've gone through and everything else in our process because I believed it held racial data we were not considering at the time, and once we pulled that out this seemed to be an analysis and estimates of how Black voters particularly looking at the precinct in which they came from had voted and correlating that to a support that candidates receive from White and Black voters, this would coming in, seems to be an estimate of those and in correlation to the percentage of vote they received. I did not verify any of the numbers or any of the analysis that was done.

Q After receiving this you did not ask anybody else to verify the numbers or analysis; correct?

A That is correct.
Q And you spoke briefly about, you know, a process of for things that might have racial data, and without revealing any communications or advice from counsel can you tell me whether that process you're referring to prevented you from reading any

14:29:59
14:30:02
\(14: 30: 07\)
\(14: 30: 15\)

14:30:19

14:30:24

14:30:26

14:32:39

14:32:43

14:32:45

14:32:48
14:32:53

> Q okay. I understand. Let me see if I can rephrase it in a way that won't do that because I certainly do not want to try to solicit any privileged information. That's not my intent at all.

You testified earlier, Senator, that if
you had gotten evidence of more, that the clusters that had been chosen were not the ideal clusters or legally compliant clusters, that you would have
stopped the entire process. Do you remember
testifying about that?
A That's correct.
Q Why upon getting this information did you
not ask for further analysis to determine whether
that stopping the entire process would be
necessary?
A Just as \(I\) said earlier, in being willing to stop the process because a cluster was formed, that is not a method that is up for interpretation or others. If a smaller county pod exists, it exists, and showing that it exists in that process would have been the flaw in our system. Receiving information that someone thinks they're a problem and that \(I\) should do, stop and do the different research to see if \(I\) can find a problem they think
\begin{tabular}{|c|c|}
\hline exists, having not done an analysis seems a very & 14:34:24 \\
\hline different request to me than someone who could & 14:34:26 \\
\hline clearly submit that a pod had not been formed that & 14:34:29 \\
\hline could have been formed. & 14:34:33 \\
\hline Q What would have constituted acceptable & 14:34:35 \\
\hline evidence to induce you to examine whether the & 14:34:38 \\
\hline Voting Rights Act required any districts? & 14:34:41 \\
\hline MR. STRACH: I'm going to object to that. & 14:34:45 \\
\hline That will definitely solicit legal advice, and I & 14:34:48 \\
\hline know you're not trying to, but I'm just saying & 14:34:51 \\
\hline that I think it will. & 14:34:54 \\
\hline A I should not answer? & 14:34:57 \\
\hline MR. STRACH: Don't answer that question. & 14:34:59 \\
\hline A Okay. & 14:35:01 \\
\hline Q Do you -- okay. Understood. & 14:35:01 \\
\hline Do you believe you ever announced & 14:35:04 \\
\hline publicly, in a committee meeting or otherwise, & 14:35:05 \\
\hline what would have constituted acceptable evidence to & 14:35:09 \\
\hline induce you to examine whether the Voting Rights & 14:35:13 \\
\hline Act required any districts? & 14:35:15 \\
\hline A We did not produce any standards or others & 14:35:18 \\
\hline for drawing those districts. We merely discussed & 14:35:23 \\
\hline that the process we had previously used and the & 14:35:28 \\
\hline fact that our districts had ultimately been found & 14:35:33 \\
\hline in compliance. It's a moving target. We even got & 14:35:36 \\
\hline
\end{tabular}

\section*{Transcript of Senator Ralph Hise}

Conducted on December 29, 2021
preclearance once on districts that were found to be compliant that were later challenged. So I would appreciate a court or others establishing what that standard actually was. But no, I did not try to articulate it for the public and others and...

Q Did you ever present the information in this letter for the committee to take a vote of whether to commission a formal analysis about whether there were any Voting Rights Act concerns in these areas?

A No. There was never a motion to not do something, nor was there a motion to do something that was defeated or accepted.

Q But you did not present this as the chair or your co-chairs did not present this to the committee for consideration --
(Simultaneous speakers/crosstalk)
A No, although I would, I would assume from the headers you've presented that every member of the committee received this independently for --

Q You didn't --
A I didn't go through that whole list, but it was a lot of people, so I'm assuming that you sent it to everyone, or your client sent it to

14:37:53
14:37:56
14:38:00
14:38:04
population growth occurred in urban areas of the
state or suburban \(I\) guess it's more accurate but counties that contained urban areas. There's a lot of sub analysis on that, but yes.

Q You testified earlier that you and other
legislators have general knowledge of what areas might be Republican or Democratic in North

Carolina; correct?
A I would say that that is accurate.
Q So for example, you mentioned, just by way of an example, you have a general sense that rural
areas are more Republican and urban areas are more
Democratic; correct?
A Correct.
Q And you also testified that you can't
unknow this type of knowledge once you learn it?
A No person could.
Q Is -- that's right. Is it --
Is the same true for general knowledge
about what areas might have voters of color in
North Carolina?
A I would say to a much less extent, that's coming in. I think there's some correlations between the two, but \(I\) would say that the distribution of minority populations in the state

14:38:40
\(14: 38: 06\)
14:38:11
14:38:17
\(14: 38: 20\)

14:39:04

14:39:06
14:39:11
14:39:14
14:39:17
is something I'm less familiar with and \(I\) would assume that's true for most.

Q What about the distribution of Black
voters specifically?
A I would say similar. We are legislators.
The distribution of election results has a direct impact every two years on who we are, what we do, so I think we have more intimate knowledge of that than on racial data.

Q Would you say you have no knowledge of the distribution of where Black voters live in North Carolina?

A No, and speaking for me specifically, I wouldn't say that it's no knowledge. I'm clearly aware that western North Carolina in the areas I live have a less minority population than the eastern parts of the state that are urban areas tend to be more minority than the rural areas in the state with the possible exception of eastern North Carolina, but those kind of things in general I think I'm aware of.

Q Let's talk about east North Carolina. Do you recall in the November 2nd, 2021, Senate Redistricting Committee meeting, Senator Blue discussed what he referred to as the, quote, Black

14:39:20

\hline A So the first, the first references I have & 14:42:24 \\
\hline heard, having been in the General Assembly for, & 14:42:27 \\
\hline this will be my 12 th year, the first references to & 14:42:34 \\
\hline the Black Belt counties came from Senator Blue in & 14:42:37 \\
\hline that discussion that I'm aware of. & 14:42:41 \\
\hline Q Had you heard the term outside of that & 14:42:43 \\
\hline discussion in the General Assembly? & 14:42:46 \\
\hline A No. Not that I'm aware of. & 14:42:47 \\
\hline Q Let's look at -- I'd like to talk & 14:42:49 \\
\hline
\end{tabular}
specifically about Congressional District 1 as it
\(14: 42: 53\)

Conducted on December 29, 2021
was enacted in the 2019 plan. Do you know who the current representative from Congressional District 1 is?

A 1 I think -- 2 is the Butterfield district. From the current? Is that the Butterfield district?

Q Yes. It's G. D. Butterfield. We can pull up the map actually, Exhibit 64. So that Congressional District 1 right there, that includes the counties bordering Virginia on the east side of the state for the most part; correct?

A Yes.
Q And are you aware, you talked before about understanding generally that the population growth in North Carolina was predominantly in urban areas. Are you aware that Congressional District

1 was the only underpopulated district after the new census results came out?

A I'm aware that it was underpopulated. I assume at some point \(I\) knew it was the only one but...

Q And you --
A I was aware that it had to grow.
Q Sorry. Could you say that again?
A I was aware that that, that that area of

14:42:58
14:43:01
14:43:05
14:43:07
14:43:11
14:43:13
14:43:14
14:43:19
14:43:38
14:43:40
14:43:45
14:43:48
14:43:50
14:43:56
14:43:58
14:44:04
14:44:07
14:44:10
14:44:15
14:44:20
14:44:22

14:44:27
14:44:30
14:44:31
the state would require additional area to meet a
Congressional district requirement.
Q And District 1, you did not understand
this to be a majority Black district; correct?
A I believe that by the time we had finished this map it was drawn without racial data, and so I do not believe that it met the standards we had of a district that could elect candidates choosing a majority/minority district or...

Q But it's fair to say that in electing
Representative Butterfield, this district allowed
Black voters to elect their candidate of choice;
correct?
A I'm not sure that one election of one
person would be evidence, significant evidence of
that turning, but I'm -- electing an
African-American candidate would certainly be some evidence of...

Q At least for that election; correct?
A Specifically for that election, yes.
Q And under this map; correct?
A Yes.
Q If we look now, I'd like you to --we're -strike that.

I'd now like to ask you about the 2021

14:44:34
14:44:40
14:44:41
14:44:42
14:44:46
14:44:49
14:44:53
14:44:58
14:45:04
14:45:06
14:45:09
14:45:12
14:45:17
\(14: 45: 17\)
14:45:20
\(14: 45: 22\)
14:45:26
14:45:29
14:45:32
\(14: 45: 34\)
14:45:36
14:45:40
\(14: 45: 45\)
14:45:50
14:45:51

\section*{Transcript of Senator Ralph Hise}

Conducted on December 29, 2021
enacted Congressional plan.
A Okay.
Q And I'm going to pull that up for you.
14:45:54
14:45:58
14:45:58
That's Exhibit 66. And you can see that -- would
14:46:01
14:46:15
14:46:18
14:46:22
14:46:25
A Generally, yes.
Q And you can see that Gates County and Pitt
County for the most part have been removed from
Congressional District 2. They're excluded from
Congressional District 2, in other words; correct?
A They are -- under this map they're in
Congressional District 1, or at least Pitt County is, yes.

Q So even without looking at specific racial
data, it's fair to say that this Congressional
District 2 has removed two districts with
14:47:07
significant Black populations from the
14:47:11
Congressional district that was already
underpopulated; is that correct?
MR. STRACH: Objection. Go ahead.
A I don't -- I couldn't answer what your
standard is of significant or others. I didn't
14:46:26
14:46:28
14:46:34
14:46:39
14:46:42
14:46:44
14:46:47
14:46:52
14:46:54
14:46:59

14:47:16
14:47:18
14:47:19
14:47:23
14:47:25
look at racial data. I couldn't answer a question
14:47:28
as to beyond what you just asked earlier and when
14:47:31
14:47:36
14:47:39
14:47:43
14:47:48

14:47:52

14:47:57
14:48:00
14:48:03
14:48:05
14:48:09

14:48:11
14:48:12

14:48:14
14:48:19
14:48:20
14:48:22
14:48:26
14:48:31
\(14: 48: 36\)

14:48:41
14:48:46
14:48:51
14:48:54
started with the whole counties and the criteria we did look at is District 2 is comprised of whole counties with the exception of one divided county, this would coming in, this is the best we could have done with drawing that district, with no municipalities are divided in that, and I do not believe there's more than one or two VTDs split in that and that's necessary for equal population, this were coming in. Those are the criteria on which we drew the districts. We did not start at some basis of a previous district and make determinations of how we should change it.

Q Were you aware of what the previous districts looked like before you started drafting the new Congressional map?

A Yes. I was involved in the drafting of those as well.

Q So you were familiar with the former
district lines; correct?
A I -- familiar would be a good word, so coming in. Could I tell you -- could I list for you the county makeups of each? No.

Q But you were able to tell, you had the resources in front of you to tell which counties had been put in different Congressional districts

14:48:58
14:49:03
14:49:08
14:49:12
14:49:14
14:49:19
14:49:22
14:49:26
14:49:30
14:49:35
14:49:37
14:49:39
14:49:42
14:49:44
14:49:47
14:49:50
14:49:52
14:49:53
14:49:56
14:49:59
14:50:04
14:50:06
14:50:11
14:50:15
14:50:20
than they had in the prior plan; correct?
A I believe we could have done a manual process that changed, showed which counties were

14:50:24
14:50:27
14:50:29
\(14: 50: 35\)

14:50:38
14:50:41

14:50:46

14:50:50
14:50:52
\(14: 50: 55\)
\(14: 50: 58\)
\(14: 51: 00\)
14:51:04
14:51:06

14:51:09
\(14: 51: 12\)
\(14: 51: 15\)
\(14: 51: 20\)
14:51:21
14:51:24
14:51:27

14:51:27
14:51:30
\(14: 51: 32\)
\(14: 51: 36\)

\section*{Transcript of Senator Ralph Hise} Conducted on December 29, 2021
list of the counties or to tell you what the differences are in the two.

Q Is it a reasonable assumption if you do
know the racial makeup of Gates and Pitt County \(14: 51: 49\)
being removed from Congressional District 2 when it's redrawn after being Congressional District 1,
is it reasonable to assume that removing these counties knowing that they have considerable Black populations would reduce, if not destroy, the ability of Black voters to again elect their candidate of choice in this area? MR. STRACH: Objection.

A It would also take an analysis, particularly to get to those type of standards of destroy a Black population, would take an also analysis of what counties were added to the district, what the population growth were of those counties and the new populations and subtracting that difference. All of that would have required access to the racial data to make those kind of determinations.

Q So you're saying that none of the prior race data that you had discussed at the beginning of our conversation that you viewed, for example, when you were working with Thomas Hofeller you had

\section*{Transcript of Senator Ralph Hise} Conducted on December 29, 2021
unlearned all of that when you were coming forward and deciding whether to vote for this new

Congressional map?
MR. STRACH: Objection. Go ahead.
A Yeah, there is no unlearned. I never knew that data to the distinction or the ability or quite frankly had memorized to the level of understanding to make that kind of observation. I couldn't tell you right now about it at any of the districts in the state, this would coming in. We looked at it -- when \(I\) was working on those maps, we looked at a lot of VTD-by-VTD breakdown of both racial data and political data in drawing those districts and had the software there to sum them up into those to know that on some sort of detail years later, \(I\) didn't know it then, but it's not reasonable.

Q I'd like to switch to talking about the Senate map next, and we can take this Congressional map down.

We talked earlier about Senate District 4 as it was enacted in 2019 represented by Senator Fitch and it's comprised of Edgecombe, Halifax and Wilson County. Is that your understanding of the 2019 configuration of the Senate District 4?

14:53:04
14:53:06
14:53:11
14:53:11
14:53:12

14:53:15
14:53:19

14:53:22
14:53:27
14:53:31
14:53:35
\(14: 53: 38\)

14:53:43

14:53:47
14:53:52

14:53:56

14:54:05

14:54:07
14:54:09
14:54:13
14:54:14

14:54:21
14:54:24
14:54:28

\section*{Transcript of Senator Ralph Hise}

Conducted on December 29, 2021

A That is my understanding of the district

Fitch County represents, yes.
Q Is it fair to say that Black voters in this area have been able to elect their candidate of choice in electing Senator Fitch?

MR. STRACH: Objection.
A It is fair to say that they elected

Senator Fitch.

Q Do you have any reason to believe he is
not the candidate of choice for Black voters?
MR. STRACH: Objection.
A He was originally appointed to the seat to fill a vacancy and has been reelected to that seat. I have nothing to indicate that he is not the candidate of minorities in that, minorities in that district.

Q Have you ever followed any of his campaign events?

A I have not. My interactions with Senator Fitch are frequent in the General Assembly, and I don't know that I've ever met him and have been with him in his district. I'm sure I've never been with him in his district, been in his district with him.

Q The 2019 configuration of District 4, this

14:54:32
14:54:34
14:54:37
14:54:40

14:54:42

14:54:45

14:54:46

14:54:48

14:54:49
14:54:52
\(14: 54: 55\)
\(14: 54: 56\)

14:54:59

14:55:03

14:55:05

14:55:09

14:55:09

14:55:12

14:55:14
14:55:17

14:55:22
14:55:24

14:55:27

14:55:29

14:55:30
```

is not a majority Black district; correct?

```

A I will assume you're accurate in that. I don't have that in front of me.

Q But you don't have any reason to believe it is a majority Black district; correct?

A Again, \(I\) don't have that kind of analysis so I don't have anything either way or the others. I would not be surprised if it was, but I'm not aware that it is or isn't.

Q The enacted 2021 Senate plan places each
of these counties -- Edgecombe, Halifax and Wilson -- in three separate districts; correct?

A The county pod that formed in that created
a three-county dis-, two three-county districts
and one two-county district, and so districts change and move up, so yes, they wound up in separate districts, but the optimal pod that existed in that created new configurations for the county as it did all over the state.

Q And it's fair to say even without specific election data that splitting up a Senate district of three counties among three new Senate districts would harm the ability of voters to reelect their candidate of choice; correct?

A My current district is divided into three

14:55:33
\(14: 55: 37\)
14:55:40
14:55:42
14:55:45
14:55:47
14:55:50
14:55:52
14:55:56
14:55:59
14:56:03
14:56:07
14:56:10
14:56:14
14:56:18
14:56:23
14:56:26
\(14: 56: 30\)
14:56:34
\(14: 56: 36\)
14:56:38
14:56:41
14:56:46
14:56:50
14:56:52
new districts, this would coming in. I think that's a normal outcome of the redistricting process and the changes of populations.

Q But it's reasonable to understand that breaking it up into three new districts would harm voters' ability to reelect their candidate of choice; correct?

MR. STRACH: Objection. Go ahead.
A I think that \(I\)-- a lot of those districts
would be, have a new candidate of choice and whether it impacts their ability to elect their candidate of choice would depend a lot on who the new candidate is and whether that's their candidate of choice.

Q What about for Black voters specifically, their ability to elect their candidate of choice given that Senate District 4 was broken up into three different new Senate districts?

MR. STRACH: Objection.
A I would say that each of the Black voters in each of those new districts you would have to determine their candidate of choice and whether or not they were able to elect their candidate of choice in the new district. I think that's very candidate specific.

Q What about the District 3 in the northeast represented currently by Senator Bazemore? Do you

14:58:11
14:58:15
14:58:19

14:58:21
14:58:25

14:58:26

14:58:29

14:58:32

14:58:35

\section*{Transcript of Senator Ralph Hise}

Conducted on December 29, 2021
allowed all but two of these six counties to be retained in a new district; correct?

A I assume. Our focus on that was actually in the five counties that were fingerling coun-, what are called the fingerling counties. If you actually look at them on a map, they tend to form what they call, and that's a normal term here, that the fingerling counties. We chose among other considerations one that could keep four of those counties -- they could not -- in neither pod choice could they all five be done. We were able to do that in the congressional district, but it was not a pod choice in the legislative districts.

It kept four of those fingerling counties which we had evidence of from the testimony and others of those being what that person considered communities of interest and needed to stay together. We were able to keep four of them with one not being in there was the other alternative had three and two, kind of split them sort of down the middle. I had also received comments about keeping the northern Outer Banks region whole and together, and this is the podding choice. We also made the choice between the podding on the compactness side. There's four possible districts

\section*{Transcript of Senator Ralph Hise}

Conducted on December 29, 2021
that can be formed. The choice we made for
District 1 formed the most compact district out of

from what you talked about before regarding
individuals who assisted you in drawing
Congressional and Senate maps.
You mentioned that that staff, partisan
staff included Josh Yost, Brent Woodcox and Nathan
Babcock; correct?
A Correct.
Q Can you -- can you tell me what each of
those individuals' position is?
A Their title? I would have to get those and others. I will say Josh is our legal counsel for the Senate and Senate -- for Senator Berger, I guess is technically who is there and deals with our legal matters across the board.

Brent Woodcox is, I traditionally worked
with him for quite a while. He is a senior policy
analyst. I happen to know his title, but I've have worked with him extensively on finance issues. He has advised the finance chair, the committee when \(I\) was chair there and others, but has been part of Berger's staff for quite a while.

Nathan, Nathan Babcock currently works on
Health and Human Services matter and is one of the policy advisors for Health and Human Services within the state who has been assisting us in the

\section*{Transcript of Senator Ralph Hise}

Conducted on December 29, 2021
redistricting matter so.

Q How was Senator Babcock roped in to help
with the redistricting matter?
A Redistricting is kind of a, it is a
complex matter that requires all hands on deck for those, and Nate is an incredibly bright individual who's done a lot of work in the General Assembly recently in Health and Human Services areas and was our choice to \(I\) think both in his interests and our choice to assist in the matter.

Q And is he with a particular office, like Senator Berger's office or is he --

A They're all three -- they would all three be with Senator Berger's office.

Q I'm going to -- I'd like to show you a
couple screen shots to see if you can help me identify some of the individuals in these. We'll start with Exhibit 70 , and I'll represent to you this is a screenshot from October 7th, the Senate room camera at timestamp 4:09:51, and this is obviously a zoomed-in copy of that.

That's you sitting in the middle at the station; correct?

A That's correct.
Q And the masked woman that we can see

15:07:08
15:07:11
15:07:15
15:07:16
15:07:19
15:07:23
15:07:32
15:07:34
15:07:37
15:07:40
15:07:43
15:07:46
15:07:48
15:07:50
15:07:52
15:07:55
15:07:57
15:08:00
15:08:02
15:08:06
15:08:12
\(15: 08: 15\)
15:08:17
15:08:20
15:08:21
visible, that's a member of the central staff; correct?

A That is correct.
Q Can you tell me who is sitting to your
right in the brown suit?
A Nathan Babcock.
Q Okay. I'd like to show you another
screenshot from later the same day. This is
Exhibit 71 at time stamp 5:35:18. Mr. Babcock is
looking at what appears to be a cell phone; is
that correct?
A That, that would be the conclusion. He's
looking at what's in his hand, yes.
Q And he's sitting next to you because he's
helping you with the drawing of either a Senate or
Congressional map; correct?
A I couldn't, at this timestamp couldn't specifically state what we were working on, but
that is, that is the area in which we drew maps and made those considerations, so.

Q So it's fair to say that while he was
assisting you, he was able to look at his cell phone at the same time?

A That's correct.
Q Besides Mr. Babcock you had assistance
from another person in the room with you. Isn't that correct?

A At various times throughout both Josh
would have been in the room at different times.
Brent would have been in, Brent Woodcox would have
been in the room at different times. The other
chairs, Senator Daniel, Senator Newton would have
been in the room at different times. I would have
been assisting them. They would have been
assisting me. I believe that's the extent of who
was at the terminals with me.
Q Could I show you Exhibit 72? This is from
that same day October 7th, 2021. This is again
the Senate room camera at time stamp 3:09:43, and
that's you in the middle of this picture; correct?
A Correct.
Q And to your right is a central staffer?
A To my left would be a --
Q Correct, sorry. To your left is a central
staffer; correct?
A Yes.
Q And then can you tell me who the
individual to your right is?
A That would be Brent Woodcox.
Q And he is assisting you with either the

\section*{Transcript of Senator Ralph Hise Conducted on December 29, 2021}

Senate or Congressional map at this point; correct?

A That, that would be consistent what we did

subtract to the particular number you needed for the state. So those type of things, as I said, I've used the term before, the all hands on deck, this is -- those are the times where everyone needs to be looking at the screen to see if we can find those and reach those balancing criteria and improve the divisions that exist across the state.

Q I'd like to play you a clip of one of the stations. This is going to be from Senate station

4 camera on October 7th, 2021, starting at time stamp 3:10:44, and I'll just play a minute or so until 3:12:30. I'd like you to listen to this, Senator, and I'm going to ask you questions afterwards about which voices you hear and about what was happening in the video.

Katelin, I'm not sure we can hear the
audio. Forgive us. A few technical, another technical issue.

I notice that it's -- we've been going for a while. If we want to take a five-minute break, Phil?

MR. STRACH: That's fine.
MS. KLEIN: We have been going for a
while. I'm almost finished. I just have a few, maybe another half hour or so after this, Phil, so

\section*{Transcript of Senator Ralph Hise} Conducted on December 29, 2021
if we want to take a five-minute break here to make sure we can sort out these technical issues?

MR. STRACH: All right. Sounds good.
MS. KLEIN: Thank you.
THE VIDEOGRAPHER: We're going off the
record at 3:15 p.m.
(A discussion was held off the record.)
THE VIDEOGRAPHER: We are back on the
record at 3:19 p.m.
BY MS. KLEIN:
Q Senator Hise, I'm going to play you a video that \(I\) will represent to you is from Senate station 4 camera on October 7th, 2021, and I'm
going to play this video starting at timestamp 3:10:44, and I'll just play a minute or two until

3:12:30, and I'll ask you to verify the voices
that you hear, and \(I\) will ask you to verify your
understanding of what's going on in the video
afterwards. So please let us know if you cannot
hear or see correctly.
So I will instruct Miss Kaiser to now
start that video.
(Video being played from remote computer)
Q You can stop the video now.
Senator Hise, did you recognize your voice

15:15:44
\(15: 15: 47\)
\(15: 15: 50\)
\(15: 15: 53\)

15:15:53

15:15:55
15:19:24
15:19:31
15:19:33
\(15: 19: 35\)
15:19:38
15:19:40

15:19:43
15:19:48
15:19:51

15:19:55
15:19:59
15: \(20: 02\)
\(15: 20: 05\)
15:20:09
15:20:13
15:20:15
\(15: 22: 10\)
\(15: 22: 14\)

\section*{Transcript of Senator Ralph Hise}

Conducted on December 29, 2021
on that video?

A I did.

Q Did you recognize any other voices on that 15:22:18

15:22:19

15:22:22

15:22:22

15:22:26

15:22:29

15:22:32

A I believe that it was. I couldn't
recognize who it is but \(I\) believe it is.

Q You were working on the Congressional map there; is that correct?

15:22:34

15:22:37

15:22:40

15:22:44

A That is correct, yes.
Q And in there Mr. Woodcox instructed you at
various points and instructed the Senate staffer who was I understand at the computer to put specific counties and areas of counties into specific districts; is that correct?

MR. STRACH: Objection. Go ahead.
A That is not how \(I\) saw it or heard his direction. The process that we were going through at this point, and actually what gave me the cue as to what we're doing, there is a listing on the side there that shows the population of each district and its deviation from the ideal Senate,

\section*{Transcript of Senator Ralph Hise}

Conducted on December 29, 2021
the ideal Congressional district. So at this point in the process these districts are tremendously out of balance. They're districts on
that that would be up to 25,000 , plus or minus, from being created an ideal district.

This is the time that is going through the map that we are trying to balance districts.

We're trying to get them back to that one person, one vote, zero deviation standard that is would coming in, so when you had the -- so starting at what would have been a base map that we would have 15:24:12 pulled up to begin with that was out of balance you have to start adding and moving areas across the state, and so throughout the process I am looking for, like I said, why they're there, all hands on deck, what are the areas that come out or 15:24:29 go in that move us to that population threshold, keep moving us closer and closer.

I assume if you follow this video out you'll find that for particular districts we 15:24:42 eventually got there in this setting and moved on to another district and moved on to another district. So yeah, there's a lot of back and forth between staff about what can go in, what can go out.

Again, we have the county populations there that when you move a whole county like

15:24:58
15:25:00
15:25:04
15:25:06
15:25:09

15:25:12
15:25:18

15:25:21
15:25:25
15:25:27
\(15: 25: 30\)
\(15: 25: 32\)
\(15: 25: 34\)

15:25:37

15:25:41

15:25:45

15:25:48

15:25:49
15:25:52
\(15: 25: 54\)

15:25:56

15:26:00

15:26:04

15:26:05

15:26:05

A Brent made a lot of suggestions about how we could make movements in this that could, around

15:26:07
15:26:10
\(15: 26: 16\)
15:26:19
15:26:23
15:26:26

15:26:28

15:26:31
15:26:35
\(15: 26: 38\)
15:26:41
15:26:44
15:26:49
15:26:54
15:26:56

15:26:57
15:27:00
15:27:03
15:27:08
15:27:12
15:27:12
15:27:15
15:27:20
15:27:22
15:27:26

A Right. There were -- there are 14 districts that are out of balance, and there is a

15:27:30
\(15: 27: 33\)
15:27:36
15:27:39
15:27:41

15:29:31
15:29:34
15:29:37
15:29:41
\(15: 29: 45\)
15:29:48
15:29:51
15:29:55
15:30:01
15: \(30: 04\)
15:30:07
\(15: 30: 12\)
\(15: 30: 14\)
actual drawing of those maps.
Q What about Mr. Brian Fork?
A Brian Fork is the Chief of Staff. He
\(15: 30: 17\)
\(15: 30: 19\)
\(15: 30: 21\)
coordinated a lot of things with the meetings and
\(15: 30: 28\)
others, but he's also an attorney and a legal
advisor and so a lot of legal questions. He was
involved in the discussion. In addition to Josh
he was kind of the coordinator when do we need to
call counsel particularly when questions were
raised and those kind of things, but he was -- the
15:30:44
important part was keeping him and as a result
keeping Phil Berger informed of the process, how
it was moving and what snags or others that might
have been encouraging. He also was a lot of the
communication with the minority leader and the
minority leader's staff back and forth that I
observed over a timeline of the process when it
could end and amendments and others and what they were considering.

Q What about Mr. Sam Hayes?
A I'm not aware of interactions with Sam
Hayes. I believe he's a House staffer as well so.
Q And Mr. Dylan Reel?
A Same. I believe he's the House staff.
Q As far as Mr. Yost, Woodcox and Babcock,

15:30:48
\(15: 30: 50\)
\(15: 30: 54\)
15:30:59
15:31:02
\(15: 31: 04\)
15:31:08
\(15: 31: 12\)
15:31:16
15:31:16
15:31:20
15:31:23
15:31:26
15:31:29
\(15: 31: 33\)

\section*{Transcript of Senator Ralph Hise}

Conducted on December 29, 2021
was the public notified that any of these three individuals would be assisting you in the map drawing process?

A I made no public announcements of who would be assisting me or the other chairs in this process.

Q And as we discussed before, you were not required to do so; correct?

A I'm not aware of any requirements. I've never worked on any bill I've ever drafted in my 11 years at the General Assembly where others -the difference in this one is communications with central staff become public after the bill is published, but no, that's their role and their job.

Q So sitting here can you tell me how would a member of the public know unless they were in this deposition who was at that terminal helping you draw maps?

A I would say -- how they identify those individuals, \(I\) don't know, but those individuals, as \(I\) said, in the conversation with central staff and others, those individuals are extension of me and my role as chairman. Others are they advise me in the decision-making, but as the chairman

15:31:37
\(15: 31: 41\)
15:31:43
15:31:44

15:31:46

15:31:49

15:31:50

15:31:52

15:31:55
15:31:58

15:32:02
15:32:06

15:32:09

15:32:12

15:32:17
15:32:18

15:32:21

15:32:24
15:32:27
15:32:29

15:32:33

15:32:36

15:32:39

15:32:42
15:32:47
those are my decisions, this would coming in, and so when they're in those roles they're representing me in those type of things, and so 15:32:49
\(15: 32: 54\)
15:32:56
15:33:01
15:33:04
15:33:06

15:33:09
15:33:11
15:33:15
15:33:17
15:33:21
15:33:23
15:33:26
15:33:30
15:33:34
\(15: 33: 34\)
\(15: 33: 36\)
15:33:39
15:33:42
15:33:44
15:33:47
15:33:48
15:33:52
15:33:56
A No.

Q Would that have made sense given the coordination that you had with Mr. Berger's office

15:34:00
\(15: 34: 02\) and with the Speaker to prohibit them from talking

15:34:06
15:34:09
\(15: 34: 12\)
A First of all, no. There is myself. There is the other chairs. There will be questions that come from the caucus. They -- there are parts of the redistricting process that are very public, and we communicate with the media and others how we are responding to those, so they would have conversations with our press staff and others for the message that we were going to get out, all that was part of the redistricting process. They help -- they also help draft the press releases and other things that went out in those.

There's a lot of people in the,
particularly in the legislative circle that they need to communicate with as part of their role. The nature of their position is under Phil Berger, and they have an obligation to communicate with him and the rest of his staff for anything they are doing, but \(I\) will say that the criteria of the committee and the criteria of the maps were clearly established, and so if they had created

\section*{situations where, that they were considering}

15:35:23
partisan data and implementing that in part of my
15:35:27
map that \(I\) was drawing or that another chair was
\(15: 35: 31\)
\(15: 35: 34\)
\(15: 35: 36\)
\(15: 35: 39\)
\(15: 35: 41\)
\(15: 35: 45\)
\(15: 35: 51\)
\(15: 35: 55\)
15:35:58
15:36:01
15:36:04
15:36:07

purpose.
Q And the team included those partisan
assistants from Senators Berger -- Senator

A It did.

Q You testified earlier when you were
15:39:31

15:39:32
talking with Mr. White that Senator Daniel began
the process for drawing the Congressional map and
15:39:33

15:39:37
then you worked to optimize the map. Am I
remembering that correctly?
15:39:41
15:39:44

A That would be an accurate summary, yes.
\(15: 39: 45\)

Q So is it fair to say that Senator Daniel
15:39:47
drew the initial basic shapes of the Congressional
districts when he began that process?
A I would say that is -- the initial basic
shapes, yes. I would say that you could look at
those. They're available as well for his
iterations. That is \(I\) wouldn't say that that
necessarily represented the basic shapes of the
outcomes of the maps.
Q When you -- when you worked to, quote, optimize the maps, do you mean that you worked on the other criteria such as compactness, splitting municipalities, producing splits of VTDs?

A As well as balancing the populations. I

15:44:14
15:44:18
15:44:22
15:44:25
15:44:27
this process.
Q Okay. I'd like to switch and ask you similar process questions for the Senate map.

Can you describe generally whether you had
a similar process of somebody going in and drawing the map and another person coming in and optimizing it?

A The Senate map begins very differently.
The Senate map begins with the pods that were adopted by the committee, so there is no -- in a lot of respects that is the initial map that's would coming in, so we weren't starting from scratch and going in. There are multiple people that work at different times on multiple parts of the Senate map among the chairs.

We did specifically make some
considerations when choices had to be made in a district, in our district, that the other chairs would be the ones to do that with my district. There were parts of counties that had to be divided. I believe Senator Daniels did that, although Senator Newton may have been there as well. When it was drawing the parts of Buncombe County and the districts he would be included, I was the one who stepped in exclusively and did

15:44:31
\(15: 44: 32\)
15:44:38
15:44:41
15:44:44
15:44:46
15:44:49
15:44:52
15:44:56
15: 45:00
\(15: 45: 06\)
15:45:09
15: 45:12
15:45:15
15:45:19
15: 45:23
15:45:26
\(15: 45: 30\)
15: 45:34
\(15: 45: 36\)
\(15: 45: 38\)
15:45:42
15:45:46
\(15: 45: 50\)
\(15: 45: 52\)

Conducted on December 29, 2021
that, but there are three chairs of the senate process.

Q It's fair to say that Senator Newton did a
15:45:54
\(15: 45: 56\)
15:45:58
15:46:03
15:46:06

15:46:06
15:46:07
\(15: 46: 10\)
15:46:17
15:46:18
15:46:20
15:46:22
15:46:26
15:46:26
15:46:28
15:46:31
\(15: 46: 34\)
\(15: 46: 34\)
\(15: 46: 37\)
15:46:39
15:46:42
15:46:45
15:46:49
15: \(46: 50\)
15:46:52
weren't using it, this were coming in. I trust
that they are focused on their priorities.
Q And did you ever ask Representative Hall
if he was using concept maps before going in and
drawing the House districts?
A No. I -- the House process is something
the Senate has very little involvement in,
particularly the drawing of the House map, but as is traditional, you know, they don't change ours,
we don't change theirs, and we kind of move on in
that process.
Q But you would have assumed he wasn't doing
that either; right?
A I would have, yes.
Q And you're aware that Senator Newton has
not agreed to testify in this matter; correct?
A I'm aware that there is no deposition
scheduled for Senator Newton.
Q Are you aware of whether he's going to testify at trial?

A I do not believe he's on the list to be, to testify at trial.

Q And same thing with Senator Daniel;
correct?
A I do not believe he's on the list to

15:46:54
15:46:57
15:47:04
15:47:06
15:47:10
15:47:11
\(15: 47: 16\)
15:47:19
15:47:22
\(15: 47: 25\)
15:47:28
15:47:29
15:47:31
15:47:33
15:47:34
15:47:39
15:47:41
15:47:44
15:47:49
15:47:52
15:47:54
15:47:57
15:47:58
15:48:01
15:48:01

\section*{Transcript of Senator Ralph Hise}

Conducted on December 29, 2021
testify at trial.
Q So it's fair to say that plaintiffs in
this matter will not be able to ask either Senator
15:48:03
15:48:04
15:48:07
15:48:10
15:48:12
15:48:15
15:48:18
15:48:23
15:48:26
\(15: 48: 30\)
15:48:33
\(15: 48: 37\)
15:48:41
15:48:41
15:48:44
15:48:45
15:48:48
15:48:50
15:48:51
discussions that took place outside of the Senate
15:48:55
15:48:58
15:49:04
15:49:04
particular date, but a lot of what is included in
those printouts is not just a map but also what is
15:49:08
15:49:11

15:51:42
15:51:44
15:51:47
15:51:50
15:51:53
map; correct?
A Part of the notes and others we had prepared for the presentation involved public comments, yes.

Q Can you describe to me, without describing
what other legislators told you, but can you describe to me the process for identifying which public comments to incorporate in the drafting of the Congressional map?

A I think a lot of the legislators been a part or even attending indirectly the public comments we had available. The submitted comments that came in were created in the binder format and others, and members reviewed them individually kind of on theirs as they were coming in, and some came in even after the votes that occurred. Those were actually reviewed later, this would coming in, and so it was up to the individual members for what they felt was significant, those kind of things, an important comment or others had been made and identified in those areas.

Q Do you remember that for Congressional District 8 Senator Daniel stated that the chairs had relied upon public comment from Maurice Holland, Jr. who is the chair of the Moore County

Conducted on December 29, 2021

Democratic Party?
A I do not remember that specifically.
Q Okay. Do you remember hearing public
comment from Mr. Holland during the redistricting process?

A That name is not familiar. Can you give
me the --
Q Okay.
A -- content of the text? I might have a
better reference. There were several thousand submitted and those spoken.

Q You were asked about Congressional map, the Congressional map by Mr. White earlier, and you testified that you had to divide the Piedmont the way that you did to perform well on the redistricting criteria. Do you remember talking about that earlier?

A In relation to the Congressional maps?
Q Yes. The Congressional map, Congressional District 11, he had it up on the screen. Do you remember that?

A I do.
Q Can you share what you did or the chairs did to determine and verify that splitting up the Piedmont the way you did would do better on the

\section*{Transcript of Senator Ralph Hise}

Conducted on December 29, 2021
redistricting criteria?
A I will say that simply when we looked at the Congressional maps, at the end of the day we had split 11 counties, two municipalities in the state, one of which cannot, a map cannot be drawn that does not split Charlotte, this would coming in, and 24 voting tabulation districts, VTD districts. There were other maps submitted by other committees. There were attempts by us to avoid those splits that generally sent us down rabbit holes of more splits and changes. Nothing was submitted in any part of the committee that performed on those three matrix by themselves better than what we had produced as a final map, and quite frankly after spending hours chasing that down \(I\) would challenge anyone to perform better on those three matrix which are the variable sides of the criteria than the final maps we produced. I would make a similar comment about the Senate maps that we created in the committee.

Q So it's fair to say that the basis for your answer that that splitting up the Piedmont performed better on criteria, the basis for your answer to that question was by looking at the other member-submitted maps and how they performed
on criteria; correct?
A And my, and my attempts as well to perform
better in those maps on those particular criteria.
Q Okay. And switching to the Senate map, you co-sponsored the Senate map that was
eventually enacted in Senate Bill 739; correct?
A Correct.
Q And you had specifically chosen, along
with the other co-chairs, the county cluster that
would form Senate District 1 in that map;
correctly [sic]?
A That is.
Q Is that correct?
A Correct.
Q Pardon me. And it was discussed before you had received data in the letters that we have gone over indicating this cluster would likely prevent Black voters from being able to elect their candidate of choice as they had previously been able to; correct?

A I received the letters that we discussed earlier. I don't know that \(I\) would make that conclusion of the letters as much as \(I\) would say that someone's opinion that that existed and was created was presented in a letter.

15:57:10
15:57:13

Q Do you recall Senator Blue on November 2 nd in the Senate Redistricting Committee proposing what he called a VRA district based in Wilson County?

A I do.
Q Do you recall that you spoke against adopting this district in that same committee meeting?

A I did. He had proposed -- I believe he was the one that actually proposed it. I know he spoke on it. He had proposed an amendment for a different draw of the three counties which violated the Stephenson groupings. He and I had significant back and forth, that he did not see that as violating the Stephenson groupings. I never got past the concept of it clearly did not create two-county pod that could be formed or a three-county pod that could be formed, and ultimately the committee decided not to accept his proposal for a different draw in that area.

Q What's your understanding of the first step of the Stephenson criteria?

A The first step, there are two laws that must be complied with. There is a federal law and a state law. The Stephenson criteria indicates
that we must comply with both, this would coming in, and at the end of the day \(I\) believe we have produced a map that complies with both, but there was no indications from any evidence that we had that an additional compliance was required with the federal criteria before forming one-county pods.

Q Hadn't you received data from Common Cause in the letter that we talked about and I showed you indicating there was racially polarized voting in this area that we're talking about, Wilson? MR. STRACH: Objection. Go ahead.

A I would not consider that what I received from any of those individuals to be, have met a standard for racially polarized voting that would require the drawing of a VRA district considering the fact that the data we submitted starting ten years ago for the drawing of a VRA district, this would coming in, this was ultimately rejected by the courts, this would coming in. I saw nothing that reached that level of analysis, this would coming in, much less superseded that standard that we have followed from the courts.

Q You say you have seen no analysis. You refused to undertake any analysis . Isn't that

\section*{Transcript of Senator Ralph Hise}

Conducted on December 29, 2021
correct?

A That is -- that is beyond a cursory reading of what was sent at a later time than
\(16: 00: 10\)

Assembly have to make decisions on the basis of

\section*{Transcript of Senator Ralph Hise \\ Conducted on December 29, 2021}
the evidence that is in front of them. We cannnot consider all possibilities that may be out there and chase every potential rabbit hole to go commission another study to see if we have done. We put together ten years ago everything that was possible for the creation of the districts quite frankly because it was advantageous for us to
create those districts. I think that's been borne
out in the court cases from the districts ten
years ago, and the finding was clearly that the
information that existed at the time was
insufficient.
    There is nothing to indicate, nothing to
indicate that the environment has changed to be
more conducive to racially polarized voting, this
would coming in, over that ten-year period, and
none of the information submitted indicated in any
way that the numbers that existed for the
elections that they proposed were somehow worse
than they were in elections that occurred ten
years ago at a time when the courts did not find
sufficient evidence of legally significant
racially polarized voting.
    Q You say that it was, I think you said
quite frankly it was advantageous for you to do

Transcript of Senator Ralph Hise
Conducted on December 29, 2021
that analysis last cycle. Is it fair to say it was advantageous for you to not do that analysis this cycle?

A I think there was nothing in this process that indicated there was a need or that the environment had changed in such a way that it was necessary to do that. We complied with the federal law in the process that we have.

Q If \(I\) could take just one moment to collect myself, \(I\) think I'm finished, but if \(I\) could just have your indulgence for one minute, Phil.

MR. STRACH: Sure.
A If \(I\) could take a full step out.
THE VIDEOGRAPHER: All right. We are
going off the record at 4:05 p.m.
(A recess was taken.)
THE VIDEOGRAPHER: We are back on the record at 4:07 p.m.

MS. KLEIN: Thank you, Senator Hise. I
have no further questions at this time.
MR. STRACH: All right. Thank you,
Hilary, and I assume there's no other questions from anyone else?

MR. WHITE: Hey Phil, this is Graham White
from the Harper plaintiffs. I have maybe two or

three questions following up on what Miss Klein just asked. Won't take more than five or ten minutes, if you wouldn't mind indulging me.

MR. STRACH: I guess let's keep it short.
I don't think it's usual for counsel who's already
questioned to requestion again, but if it's short we'll do it.

MR. WHITE: Appreciate it.
FURTHER EXAMINATION BY COUNSEL
FOR THE HARPER PLAINTIFFS
BY MR. WHITE:
Q Senator Hise, in response to a question from Miss Klein about dividing the Piedmont Triad in the Congressional map you said that none of the other members submitted maps that kept the Piedmont Triad together performed as well under the adopted criteria; is that right?

A I would make that even move broad. None of the other maps submitted in any manner submitted performed better under the criteria.

Q But setting aside other maps that were submitted, do you know if it was possible to keep the Piedmont Triad together while still performing as well under the adopted criteria?

A I do not believe so, this would coming in,

16:07:29
16:07:32
16:07:34
16:07:37

16:07:40

16:07:42

16:07:45

16:07:46
16:07:46

16:07:49

16:07:52
\(16: 07: 55\)

16:07:58
\(16: 08: 00\)
\(16: 08: 03\)
\(16: 08: 06\)
\(16: 08: 10\)
\(16: 08: 12\)

16:08:14

16:08:16
16:08:18

16:08:22
\(16: 08: 23\)

I made many attempts at drawing maps that better met the three, particularly those three criteria of the committee.

Q Why don't you believe it was possible?
Did members of your staff draw, like, alternative maps or something to determine that it wasn't possible?

A Because every time you made those changes you in-, you made the, you either increased the number of counties that were divided, you increased the municipalities that were divided in, and quite frankly those are optimal, so \(I\) don't think you can, unless you multi-divide another county you won't do better than 11 districts. You won't do better than two municipalities. I've not found any way to avoid just the division of Greensboro and others.

So quite frankly at the end of the day the committee has to choose and vote on what's before it, and any of the choices we made, whether it was amendments that came forward, we generally accepted amendments that performed better in the criteria or even at times equally as well in the criteria, this would coming in; the other maps that were submitted did not do so.

16:08:28
\(16: 08: 32\)
16:08:35
16:08:36
16:08:38
16:08:41
16:08:43
16:08:44
16:08:46
16:08:49
16:08:52
16:08:57
16:09:01
16:09:05
16:09:08
16:09:11
16:09:15
16:09:17
16:09:19
16:09:22
16:09:28
16:09:29
16:09:32
16:09:35
16:09:38

Q Okay. Did you specifically ask your staff whether it was possible to keep the Piedmont Triad together while keeping the map performing well under the criteria?

A Not in relation to the Piedmont Triad. I have asked the staff and we have discussed on many occasions any ways to perform better on those criteria.

Q Did you ask them whether it was possible to keep Wake, Guilford and Mecklenburg County divided fewer than twice under the, while keeping the map performing well?

A Clearly that decision would increase the number of counties divided, decrease the number of whole counties within. Whether that would be balanced by another criteria we have not seen any evidence that \(I\) could somehow, by dividing more counties, divide less municipalities than the two we divided or ultimately reach a conclusion that gets to less than the 24 VTDs that were divided in that process.

Q Okay. But just a yes or no question. Did you ask your staff whether it was possible to draw the map in a way that performed as well under the criteria while dividing those three counties fewer

CERTIFICATE OF SHORTHAND REPORTER-NOTARY PUBLIC
I, Janet A. Hamilton, Registered Diplomate
Reporter and Notary Public before whom the foregoing deposition was taken, do hereby certify
that the foregoing transcript is a true and
correct record of the testimony given; that said
testimony was taken by me stenographically and
thereafter reduced to typewriting under my
direction; that review was not requested; and that
I am neither counsel for, related to, nor employed
by any of the parties to this case and have no
interest, financial or otherwise, in its outcome.
IN WITNESS WHEREOF, I have hereunto set my hand this 30 th day of December, 2021.

[^0]:    ${ }^{1}$ A link to the complete history of H927, including all amendments proposed, may be found at the link below:

[^1]:    ${ }^{5}$ In introducing this proposed map, Rep. Jackson stated it was drawn by the Plaintiffs in this matter.

[^2]:    ${ }^{6}$ In introducing this proposed map, Sen. Blue stated it was drawn by the Plaintiffs in this matter.

[^3]:    ${ }^{1}$ Stephenson v. Bartlett, 355 N.C. 354 (2002); Stephenson v. Bartlett, 357 N.C. 301 (2003).
    ${ }^{2}$ We do not concede that your interpretation of the Stephenson criteria after the first step-drawing VRA-required districts-is correct.

    About Us: The Southern Coalition for Social Justice partners with communities of color and economically disadvantaged communities in the South to defend and advance their political, social, and economic rights through the combination of legal advocacy, research, organizing, and communications.

[^4]:    ${ }^{3}$ Stephenson v. Bartlett, 355 N.C. 354, 383 (2002).
    ${ }^{4}$ Thornburg v. Gingles, 478 U.S. 30, 55 (1986).

[^5]:    ${ }^{5}$ Stephenson v. Bartlett, 355 N.C. 354 (2002) (holding legislative districts required by the VRA be formed prior to the creation of non-VRA districts to ensure redistricting plans "ha[ve] no retrogressive effect upon minority voters.").
    ${ }^{6}$ Covington v. North Carolina, 316 F.R.D. 117 (M.D.N.C. 2016).
    ${ }^{7} \mathrm{Id}$. at 169-170 (finding that Defendants' "reports conclude that there is evidence of racially polarized voting in North Carolina [.]").
    ${ }^{8} I d$.
    ${ }^{9}$ Id. at 167.
    ${ }^{10} \mathrm{Id}$. at 167-68.
    ${ }^{11}$ NCGA Redistricting, 2021-08-12 Committee (Joint), YouTube (Aug. 13, 201), https://www.youtube.com/watch?v=gSm2OhE7Slk\&t=718s.

[^6]:    ${ }^{12}$ Common Cause v. Lewis, No. 18 CVS 014001, at *345 (N.C. Sup. Ct. Sept. 3, 2019).
    ${ }^{13}$ Cooper v. Harris, 137 S. Ct. 1455, 1464 (2017).
    ${ }^{14} I d$. at 1472.
    ${ }^{15}$ Id. at 1470-71.
    ${ }^{16}$ Christopher Cooper, et al., NC General Assembly County Clusterings from the 2020 Census, QUANTIFYING Gerrymandering (Aug. 17, 2021),
    https://sites.duke.edu/quantifyinggerrymandering/files/2021/08/countyClusters2020.pdf. (last visited Oct. 7, 2021).
    ${ }^{17}$ Thornburg v. Gingles, 478 U.S. 30, 79 (1986).

[^7]:    ${ }^{18}$ We examined the 2020 race for Chief Justice of the North Carolina Supreme Court involving a Black candidate, Cheri Beasley, and a white candidate, Paul Newby. We examined the 2020 race for Commissioner of Labor involving a Black candidate, Jessica Holmes, and a white candidate, Joshua Dobson. We examined the 2016 race for Treasurer involving a Black candidate, Dan Blue III, and a white candidate, Dale Folwell. And we examined the 2016 race for Lieutenant Governor, involving a Black candidate, Linda Coleman, and two white candidates, Dan Forest and Jacki Cole.
    ${ }^{19}$ Bartlett v. Strickland, 556 U.S. 1, 24 (2009).

[^8]:    ${ }^{20}$ Id.

[^9]:    e See 2020 Census results, U.S. CENSUS BUREAU, https://www.census.gov/programs-surveys/decennial-census/decade/2020/2020-census-results.html (Last revised June 23, 2021).
    ${ }^{2}$ See N.C. Gen. Stat. § 163-106.2.
