Let's debrief when you finish  
with Joe for a sec?

Just wrapped up, calling you  
now

Free until 3

Thu, Nov 11, 4:13 PM

Let's do a follow up this eve?  
I've reflected some and want  
to run some thoughts by you  
on next steps

Sounds good! I'm working on  
the 14th, think if we use  
haretts algorithm on even or e

I've reflected some and want to run some thoughts by you on next steps

Sounds good! I'm working on the 14th, think if we use baretto's algorithm on cvap or we can drop the cvap to 48 and still be over 50 in today's cvap. That will allow us to drop the d performance some, if we swap 14 for 15 then the performance change is lower. I have some ideas to get what we want

Ok! Let's debrief when you're set. Was going to grab dinner but want to connect on the early or later side?

I'm free anytime, earlier is better for me

Ok! How about 5!

5?
