Subject: Leg map must-haves

Hey Brady – here is the list of key COI must-haves from our perspective in an approved leg map (based on the VRA analysis and what we've heard repeatedly in public comment):

1. VRA-compliant 14th, dem performing, non-negotiable
2. Every single Clark county city should be whole, with the exception of Vancouver in no more than two LDs
3. Every Skagit city should be whole
4. Compact Whatcom legislative district
5. Bremerton in mostly one LD (no more than two)
6. 24th should go into no new counties, just unite existing cities (Aberdeen, Montesano)
7. Other non VRA maj-min districts:
 - a. 5 maj-min LDs in south king to respond to changing demographics and public comment
 - b. Overall as many as can possibly be drawn in the map; artificially capping the # of maj-min districts at a specific number is unacceptable
